SCOTT'S LIQUID GOLD-INC.

ANNUAL REPORT ON

FORM 10-K

FOR YEAR ENDED DECEMBER 31, 2000

PART I

ITEM 1. BUSINESS.

Portions of the 2000 Annual Report to shareholders of Scott's Liquid Gold-Inc. (the "Company" or "Registrant") are attached to this Report as Exhibit 13 and are called in this Report the "Annual Report". The information set forth under the headings "Description of Business," "Management Discussion and Analysis of Financial Condition and Results of Operations" and Note 8 of Notes to Consolidated Financial Statements of the Annual Report hereby is incorporated by reference into this Report.

In the third quarter of 1998, the Company added a retinol product to its skin care products. This product, sold as Alpha Hydrox Retinol Night ResQ, includes microsphere-entrapped retinol. It is manufactured by a third party who is the sole supplier of the product to the Company under a supply and license agreement. The agreement has a term which continues until the earlier of (1) the expiration of the last to expire patent relating to the product or (2) June 9, 2008. The supplier may also terminate the agreement if the Company does not meet minimum purchase requirements.

ITEM 2. PROPERTIES.

The information set forth under "Description of Business - Properties," "Management Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" and Note 5 of Notes to Consolidated Financial Statements of the Annual Report hereby is incorporated by reference into this Report.

ITEM 3. LEGAL PROCEEDINGS.

Edgar Filing: SCOTTS LIQUID GOLD INC - Form 10-K405

As previously reported, a lawsuit was commenced in May of 1996 against Neoteric Cosmetics, Inc. and others not related to the Company alleging infringement of certain patents. Neoteric Cosmetics is the Company's wholly-owned subsidiary which manufactures and sells skin care products under the name Alpha Hydrox. The lawsuit was brought by TriStrata Technology, Inc. in the United States District Court for the District of Delaware. The plaintiff in the lawsuit alleged that Neoteric Cosmetics contributes to and/or induces infringement of the patents owned by the plaintiff by selling and promoting Neoteric Cosmetics skin care products for the purpose of visibly reducing a human skin wrinkle and/or fine lines and for the purpose of treating and/or preventing cosmetic conditions and dermatologic disorders of the human skin such as wrinkles and fine lines. In December of 2000 the Company settled the lawsuit. This settlement is contained in a license agreement between TriStrata and Neoteric Cosmetics, Inc. Under the license agreement,

3

TriStrata grants to Neoteric Cosmetics and its affiliates a non-exclusive license to make and sell skin care products using certain alpha hydroxy acids for, among other things, the reduction of the appearance of skin wrinkles and the reduction in the appearance of skin changes associated with aging. The license agreement covers a territory which includes the United States and certain foreign countries. In accordance with the license agreement, Neoteric Cosmetics has issued a fixed payment for alleged past infringements and will pay a royalty on future net sales of products covered by the license agreement.

As previously reported, the Company had been a defendant in an environmental lawsuit brought by the United States Justice Department at the request of the United States Army, alleging contribution by the Company to contamination in a groundwater aquifer underlying a portion of the Rocky Mountain Arsenal. In October of 1996, the Company and the United States, on behalf of the Department of the Army, negotiated a settlement of this dispute. The Settlement Agreement, which admits no wrong doing by the Company and which was approved by the Court on November 6, 1996, required the payment to the United States of \$6 million of which \$2.4 million was paid at once by the Company's insurers (with an additional \$600,000 paid in January of 1997) and \$1 million was paid by the Company. The additional \$2 million, by the terms of the Agreement, was to be paid by the Company in equal installments of \$250,000 over eight years, beginning on October 31, 1997, together with interest approximating the Treasury Bill rate. Due to income tax considerations, the Company decided to liquidate its entire indebtedness to the Army and did so in October of 1997. In December, 1996, the Company filed lawsuits, now pending in the United States District Court for the District of Colorado, against three insurers (which did not participate in the settlement) to recover at least amounts paid to the Army by the Company, plus punitive damages and attorneys' fees. The Company has settlements with all but one of its insurers, and as a result of the insurance settlements in 1996 and 1997, most of the costs incurred to resolve environmental claims relating to the Rocky Mountain Arsenal have been recovered. Claims for recovery of the remainder of the costs are pending against one insurance company.

The Company applied for federal registration of the trademark "Alpha Hydrox" with U.S. Patent and Trademark Office. The issuance of this trademark was challenged on the basis that the name of the Company's product is a description of the type of acid used as an ingredient. This challenge was denied by the United States Patent and Trademark Office in 1999. No appeal was filed. The Company has received the federal registration of "Alpha Hydrox" from the U.S. Patent and Trademark Office.
