PROSPECTUS

The information in this prospectus is not complete and may be changed. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

ELECTRIC CITY CORP.

4,491,097 Shares of Common Stock

The selling stockholders are offering up to 4,491,097 shares of our common stock, par value \$0.0001 per share. The selling stockholders can sell these shares on any exchange on which the shares are listed or in privately negotiated transactions, whenever they decide and at the prices they set. We may issue up to 1,495,000 of these shares upon exercise of options and warrants held by some of the selling stockholders. We will not receive any of the proceeds from the sale of these shares of our common stock, but will receive proceeds from the exercise of any of such options and warrants.

Our common stock is quoted on The American Stock Exchange under the symbol "ELC." On December 5, 2001, the closing sale price for shares of our common stock was \$1.27 per share.

Our principal executive office is located at 1280 Landmeier Road, Elk Grove Village, Illinois, 60007. Our telephone number at that address is (847) 437-1666. Our web site is located at <http://www.electriccityecc.com>.

Investing in our common stock involves risks described beginning on page 3.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is December 7, 2001.

This prospectus is a part of a registration statement that we have filed with the Securities and Exchange Commission ("SEC" or "Commission") using a "shelf registration" process. You should rely only on the information provided in this prospectus or any supplement or amendment. We have not authorized anyone else to provide you with additional or different information. You should not assume that the information in this prospectus or any supplement or amendment is accurate as of any date other than the date on the front of this prospectus or any supplement or amendment.

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

Unless otherwise indicated or the context otherwise requires, the terms "we," "us," "our," "the Company" and "Electric City" mean Electric City Corp., and the term "common stock" means Electric City Corp.'s common stock, par value \$0.0001 per share.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus includes "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that reflect our current expectations and projections about our future results, performance, prospects and opportunities. We have tried to identify these forward-looking statements by using words such as "may," "will," "should," "expect," "hope," "anticipate," "believe," "intend," "plan," "estimate" and similar expressions. These forward-looking statements are based on information currently available to us and are subject to a number of risks, uncertainties and other factors, including the factors set forth under "Risk Factors," that could cause our actual results, performance, prospects or opportunities in 2001 and beyond to differ materially from those expressed in, or implied by, these forward-looking statements. These factors include, without limitation, our limited operating history, our history of operating losses, our reliance on licensed technologies, customers' acceptance of our new and existing products, the risk of increased competition, our ability to successfully integrate acquired businesses, products and technologies, our ability to manage our growth, our commercial scale development of products and technologies to satisfy customers' demands and requirements, our need for additional financing and the terms and conditions of any financing that is consummated, the possible volatility of our stock price, the concentration of ownership of our stock and the potential fluctuation in our operating results. Although we believe that the expectations reflected in these forward-looking statements are reasonable and achievable, such statements involve risks and uncertainties and no assurance can be given that the actual results will be consistent with these forward-looking statements. Except as otherwise required by Federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or any other reason, after

the date of this prospectus.

1

PROSPECTUS SUMMARY

The following summary is qualified in its entirety by the more detailed information appearing elsewhere in this prospectus.

Our Company

We were organized as Electric City LLC, a Delaware limited liability company, on December 5, 1997. On June 5, 1998 we merged Electric City LLC with and into Electric City Corp., a Delaware corporation. On June 10, 1998, we issued approximately six (6%) percent of our issued and outstanding common stock to the approximately 330 shareholders of Pice Products Corporation ("Pice") an inactive, unaffiliated company with minimal assets, pursuant to the merger of Pice with and into Electric City. This merger facilitated the establishment of a public trading market for our common stock. Trading in our common stock commenced on August 14, 1998 through the OTC Bulletin Board under the trading symbol "ECCC". Since December 12, 2000, our common stock has traded on the American Stock Exchange under the trading symbol "ELC".

Our Products

We are a developer, manufacturer and integrator of energy saving technologies and custom electric switchgear. Our premier energy saving product is the EnergySaver system, which reduces energy consumed by lighting, typically by 20% to 30%, with minimal lighting level reduction. This technology has applications in commercial buildings, factories and office structures, as well as street lighting and parking lot lighting. In addition to our EnergySaver system, we manufacture, through our subsidiary Switchboard Apparatus, Inc. ("Switchboard Apparatus"), custom electric switchgear, including our TP3 line of prepackaged electrical distribution panels designed for use in telecommunications and Internet network centers.

Our EnergySaver product line is manufactured at our facilities in Elk Grove Village, Illinois, with manufacturing and assembly scaled to order demand. Our Switchgear product line, including the TP3 product line, is manufactured at the facilities of Switchboard Apparatus in Broadview, Illinois.

Giorgio Reverberi has patented in the U.S and Italy certain technologies underlying the EnergySaver products. We have entered into a license agreement with Mr. Reverberi relating to the license of the EnergySaver technology in the United States and certain other markets.

We are pursuing a multi-channel marketing and sales distribution strategy to bring our products to market. Our multi-channel approach includes the use of a direct sales force, distributors and manufacturers' representatives.

The Offering

Securities Offered. The selling stockholders are offering up to 4,491,097 shares of our common stock.

2

Terms of the Offering. We have agreed to use our best efforts to keep this registration statement effective until all registered shares have been sold or may be sold without volume restrictions pursuant to the Securities Act of 1933.

Use of Proceeds. We will not receive any of the proceeds from any sale of the shares offered by this prospectus by the selling stockholders. To the extent the selling stockholders exercise their options or warrants, we intend to use the proceeds we receive from such exercise(s) for general corporate purposes, including working capital, marketing, recruiting and hiring additional personnel, and consolidating our manufacturing facilities.

American Stock Exchange Symbol.

ELC

RISK FACTORS

You should carefully consider the risks and uncertainties described below and all of the other information included in this prospectus before you decide whether to purchase shares of our common stock. Any of the following risks could materially adversely affect our business, financial condition or operating results and could negatively affect the value of your investment.

Risks Related to Our Business

We have a limited operating history upon which to evaluate our potential for future success.

We were formed in December 1997. To date, we have only generated limited revenues from the sale of our products and do not expect to generate significant revenues until we sell a significantly larger number of our products. Accordingly, we have only a limited operating history upon which you can base an evaluation of our business and prospects. The likelihood of our success must be considered in light of the risks and uncertainties frequently encountered by early stage companies like ours in an evolving market. If we are unsuccessful in addressing these risks and uncertainties, our business will be materially harmed.

We have incurred operating losses since inception and may not achieve or sustain profitability in the future.

We have incurred substantial net losses in each year since we commenced operations in December 1997. We must overcome significant manufacturing and marketing hurdles to sell large quantities of our products. In addition, we may be required to reduce the prices of our products in order to increase sales. If we reduce product prices, we may not be able to reduce product costs sufficiently to achieve acceptable profit margins. As we strive to grow our business, we expect to spend significant funds (1) for general corporate purposes, including working capital, marketing, recruiting and hiring additional personnel and consolidating our manufacturing facilities; (2) for research and development; and (3) to acquire complementary products, technologies and services. To the extent that our revenues do not increase as quickly as these costs and expenditures, our results of operations and liquidity could be materially adversely affected. If we experience slower than anticipated revenue growth or if our operating expenses exceed our expectations, we may not achieve profitability. Even if we achieve profitability in the future, we may not be able to sustain it.

3

Our independent certified public accountants have issued a "going concern" opinion raising doubt about our financial viability.

We are currently experiencing a significant lack of liquidity. As a result of our continuing losses and significant lack of liquidity, our independent certified public accountants, BDO Seidman, LLP, issued a "going concern" opinion in connection with their audit of our financial statements for the year ending December 31, 2000. This opinion expressed substantial doubt as to our ability to continue as a going concern. The going concern opinion could also have an adverse impact on our ability to execute the business plan, result in the reluctance on the part of certain suppliers to do business with us, or result in the loss of new business due to potential customers' concern about our ability to deliver product.

A decrease in electric retail rates could lessen demand for our EnergySaver products.

Our principal products, our EnergySaver products, have the greatest profit potential in areas where commercial electric rates are relatively high. However, retail electric rates for commercial establishments in the United States may not remain at their current high levels. Due to a potential overbuilding of power generating stations throughout certain regions of the United States, wholesale power prices may decrease in the future. Because the price of commercial retail electric power is largely attributed to the wholesale cost of power, it is reasonable to expect that commercial retail rates may decrease as well. In addition, much of the wholesale cost of power is directly related to the price of certain fuels, such as natural gas, oil and coal. If the prices of those fuels decrease, the prices of the wholesale cost of power may also decrease. This could result in lower electric retail rates and less of a demand for energy saving devices such as our EnergySaver products.

We have a license under certain patents and our ability to sell our products may be adversely impacted if the license expires or is terminated.

We have entered into a license agreement with Giorgio Reverberi, who holds a U.S. patent and who has applied for several patents in other countries. Pursuant to the terms of the license, Mr. Reverberi granted to us the exclusive right to manufacture and sell products containing the load reduction technology claimed under Mr. Reverberi's U.S. patent or any other related patent held by him in the U.S., the remainder of North

America, South America and parts of Africa. However, the exclusive rights that we received from Mr. Reverberi may not have any value in territories where Mr. Reverberi does not have or does not obtain protectable rights. The term of the license expires when the last of these patents expires. We expect that these patents will expire in or around November 2017. Mr. Reverberi may terminate our license agreement if we materially breach its terms and fail to cure the breach within 180 days after we are notified of the breach. If our license with Mr. Reverberi is terminated, that could impact our ability to manufacture, sell or otherwise commercialize products in certain countries in the event that Mr. Reverberi has valid patent(s) in those countries with one or more patent claims that cover those products.

If we are not able to protect our intellectual property rights against infringement or others obtain intellectual property rights relating to energy management technology, we could lose our competitive advantage in the energy management market.

We regard our intellectual property rights, such as patents, licenses of patents, trademarks, copyrights and trade secrets, as important to our success. Although we entered into confidentiality and rights to inventions agreements with our non-union employees and consultants during March 2001, the steps we have taken to protect our intellectual property rights may not be adequate. Third parties may infringe or misappropriate our intellectual property rights or we may not be able to detect unauthorized use and take appropriate steps to enforce our rights. Failure to take appropriate protective steps could materially adversely affect our competitive advantage in the energy management

4

market. Our license to use Mr. Reverberi's patents may have little or no value to us if Mr. Reverberi's patents are not valid. In addition, patents held by third parties may limit our ability to manufacture, sell or otherwise commercialize products and could result in the assertion of claims of patent infringement against us. If that were to happen, we could try to modify our products to be non-infringing, but such modifications might not be successful to avoid infringing on the intellectual property rights of third parties.

Claims of patent infringement, regardless of merit, could result in the expenditure of significant financial and managerial resources by us. We may be forced to seek to enter license agreements with third parties (other than Mr. Reverberi) to resolve claims of infringement by our products of the intellectual property rights of third parties. These licenses may not be available on acceptable terms or at all. The failure to obtain such licenses on acceptable terms could have a negative effect on our business

The loss of key personnel may harm our ability to obtain and retain customers, manage our rapid growth and compete effectively.

Our future success will depend significantly upon the continued contributions of certain members of our senior management, including John P. Mitola, our Chief Executive Officer, and Brian Kawamura, our President and Chief Operating Officer, because they are critical to obtaining and retaining customers and managing our rapid growth. Our future success will also depend upon our ability to attract and retain highly qualified technical, operating and marketing personnel. We believe that there is intense competition for qualified personnel in the power management industry. If we cannot hire, train and retain qualified personnel or if a significant number of our current employees depart, we may be unable to successfully manufacture and market our products.

If we are unable to manage our growth, it will adversely affect our business, the quality of our products and our ability to attract and retain key personnel.

We have experienced rapid growth, which has been primarily through acquisitions of other businesses, and are subject to the risks inherent in the expansion and growth of a business enterprise. This significant growth, if sustained, will continue to place a substantial strain on our operational and administrative resources and increase the level of responsibility for our existing and new management personnel. To manage our growth effectively, we will need to:

further develop and improve our operating, information, accounting, financial and other internal systems and controls on a timely basis;

improve our business development, marketing and sales capabilities; and

expand, train, motivate and manage our employee base.

Our current senior management has limited experience managing a publicly traded company. Our systems currently in place will not be adequate if we continue to grow at our current pace and will need to be modified and enhanced. The skills of management currently in place may not be adequate if we continue to grow at our current pace.

If our EnergySaver products do not achieve or sustain market acceptance, our ability to compete will be adversely affected.

To date, we have not sold our EnergySaver product line in very large quantities and a sufficient market may not develop for it. Significant marketing will be required in order to establish a sufficient market for the EnergySaver products. The technology underlying these products may not become a preferred technology to address the energy management needs of our customers and potential customers. Failure to successfully develop, manufacture and commercialize products on a timely and

5

cost-effective basis will have a material adverse effect on our ability to compete in the energy management market.

Failure to meet customers' expectations or deliver expected technical performance could result in losses and negative publicity.

Customer engagements involve the installation of energy management equipment that we design to help our clients reduce energy/power consumption and/or increase energy/power reliability. We rely on outside contractors to install our EnergySaver products. Any defects in this equipment and/or its installation or any other failure to meet our customers' expectations could result in:

delayed or lost revenues due to adverse customer reaction;

requirements to provide additional products and/or services to a customer at no charge;

negative publicity regarding us and our products, which could adversely affect our ability to attract or retain customers; and

claims for substantial damages against us, regardless of our responsibility for such failure.

The cyclical nature of the construction industry could negatively affect the sales of our products.

The construction industry is cyclical and is frequently affected by changes in general and local economic conditions, including:

employment levels;

availability of financing for customers;

interest rate fluctuations; and

consumer confidence.

A decline in construction activity may decrease our ability to sell our products. We have no control over these economic conditions. Any significant downturn in construction activity could reduce demand for our products and could affect the sales of our products.

If sufficient additional funding is not available to us, the commercialization of our products and our ability to grow at a rapid pace may be hindered; the raising of additional capital through the issuance of equity or equity-linked securities would dilute your ownership interest in us.

We may need to obtain additional funds to grow our product development, manufacturing, marketing and sales activities at the pace that we intend. If we are not successful in raising additional funds, we might have to significantly scale back or delay our growth plans, reduce staff and delay planned expenditures on research and development and capital expenditures in order to continue as a going concern. Any reduction or delay in our operating plans could materially adversely affect our ability to compete in the marketplace, take advantage of business opportunities and develop or enhance our products. If we receive additional funds through the issuance of equity securities, our existing stockholders will likely experience dilution of their present equity ownership position and voting rights. Depending on the number of shares issued and the terms

and conditions of the issuance, new equity securities could have rights, preferences, or privileges senior to those of our common stock. On July 31, 2001, the Company entered into a securities purchase agreement (subject to shareholder approval) with five investors. This transaction was approved by our shareholders at our 2001 annual meeting held on August 30, 2001 and on September 7, we closed the issuance of our Series A Convertible Preferred Stock for gross proceeds of \$16,000,000 for the issuance of 1,600,000 shares of our Series A Convertible Preferred Stock, 320,864 shares of its common stock, one year warrants to purchase an additional 400,000 shares of Series A Convertible Preferred Stock at \$10 per share and seven year warrants to

6

purchase 3,000,000 additional shares of common stock at \$1 per share. On November 29, 2001, the Company closed on an additional issuance of its Series A Convertible Preferred Stock for gross proceeds of \$3,000,000 for the issuance of 300,000 shares of its Series A Convertible Preferred Stock, 45,122 shares of its common stock, one year warrants to purchase an additional 75,000 shares of its Series A Convertible Preferred Stock at \$10 per share and seven year warrants to purchase an additional 421,875 shares of its common stock at \$1 per share. (See "Description of Securities Additional Issuance of Series A Preferred Stock"). This preferred stock has a conversion price that is below the current market price of our common stock and will enable the investors to nominate and elect up to four directors to our board of directors.

We need to effectively market our energy management products in order to successfully sell large quantities of these products.

One of the challenges we face in commercializing our energy management products is demonstrating the advantages of our products over more traditional products and competitive products. As we grow, we will need to further develop our marketing and sales force. In addition to our internal sales force, we rely on third parties to market and sell our products. We currently maintain a number of relationships and have a number of agreements with third parties regarding the marketing and distribution of our EnergySaver[®] products and are substantially dependent upon the efforts of these third parties in marketing and selling these products. Maintenance of these relationships is based primarily on an ongoing mutual business opportunity and a good overall working relationship. The current contracts associated with certain of these relationships allow the distributors to terminate the relationship upon 30 days' written notice. Without these relationships, our ability to market and sell our EnergySaver[®] products would be harmed and we would need to divert even more resources to increasing our internal sales force. If we are unable to expand our internal sales force and maintain our third party marketing relationships, our ability to generate significant revenues will be seriously harmed.

The distribution rights we have granted to third parties in specified geographic territories may make it difficult for us to grow our business in such territories if those distributors do not successfully market and support our products in those territories. We have in the past been, and may in the future be, involved in disputes with distributors that have distribution rights in specified geographic territories, but are achieving sales results which do not meet goals. We recently repurchased for cash and stock consideration the distribution rights for Arizona, Colorado, Florida, Georgia, Michigan, Nebraska, North Carolina, Ohio, South Carolina and Virginia from three distributors that were not meeting our sales goals. We may have to expend additional funds, incur debt or issue additional securities in the future to repurchase other distribution rights that we have granted or may grant in the future.

We do not know if our "Virtual Negawatt Power Plant" concept or our "Shared Savings" program will be successful.

We recently announced our "Virtual Negawatt Power Plant" concept and our "Shared Savings" program. We plan to advance the distribution of our EnergySaver[®] products and increase the profitability of our EnergySaver[®] product line through these new projects. We are at the very early stages and have not yet begun to implement these projects, and we have no experience in this area. As a result, we do not know if these projects will be successful. If these projects are unsuccessful, our plans to significantly increase the distribution of our EnergySaver[®] product line, especially in markets where electricity has been deregulated, may not develop and our growth may be impaired.

If our management fails to properly identify companies to acquire and to effectively negotiate the terms of these acquisition transactions, our growth may be impaired.

Our recent growth is due in large part to acquisitions. Our future growth may depend, in part, on our ability to identify opportunities to acquire companies with complementary technologies, products

7

and/or services and to successfully negotiate the terms of any acquisitions we want to make. Our management, including our Board of Directors, will have discretion in identifying and selecting companies to be acquired by us and in structuring and negotiating these acquisitions. In general, our common stockholders will not have the opportunity to approve these acquisitions (The holders of Series A Convertible Preferred Stock have certain rights to approve acquisitions See "Description of Securities Series A Convertible Preferred Stock"). In addition, in making acquisition

decisions, we will rely, in part, on financial projections developed by our management and the management of potential target companies. These projections will be based on assumptions and subjective judgments. The actual operating results of any acquired company or the combination of us and an acquired company may significantly fall short of these projections.

We may be unable to acquire companies that we identify for various reasons, including:

our inability to interest such companies in a proposed transaction;

our inability to agree on the terms of an acquisition;

incompatibility between our management and management of a target company; and

our inability to obtain required approvals of the holders of the Series A Convertible Preferred Stock.

If we cannot consummate acquisitions on a timely basis or agree on terms at all, or if we cannot continue to acquire companies with complementary technologies, products and/or services on terms acceptable to us, our growth may be impaired.

Our growth may be impaired and our current business may suffer if we do not successfully address risks associated with acquisitions.

During our limited operating history, we have acquired a company, Switchboard Apparatus, which forms the core of our switchgear business unit. Our future growth may depend, in part, upon our ability to successfully acquire other complementary businesses. We may encounter problems associated with such acquisitions, including the following:

difficulties in integrating acquired operations and products with our existing operations and products;

difficulties in meeting operating expectations for acquired businesses;

diversion of management's attention from other business concerns;

adverse impact on earnings of amortization or write-offs of goodwill and other intangible assets relating to acquisitions; and

issuances of equity securities that may be dilutive to existing stockholders to pay for acquisitions.

Expanding our international operations will be difficult and our failure to do so successfully or in a cost-effective manner could have a material adverse effect on our business, operating results and financial condition.

We have recently begun marketing and selling our products in Mexico and plan to expand our international operations and enter new international markets, such as Canada and Brazil. Under our license with Messrs. Reverberi and Marino, Mr. Reverberi granted to us exclusive rights to manufacture and sell products containing his patented load reduction technology in North America, South America and parts of Africa. Our future expansion into international markets will require significant management attention and financial resources and could adversely affect our business, operating results and financial condition. In order to expand international sales successfully, we must establish additional

foreign operations and joint ventures, hire additional personnel and recruit additional international distributors. We may not be able to do so in a timely or cost efficient manner, and our failure to do so may limit our international sales growth.

There are certain risks inherent in international business activities including:

changes in foreign currency exchange rates;

tariffs and other trade barriers;

costs of localizing products for foreign countries;

lack of acceptance of localized products in foreign countries;

longer accounts receivable payment cycles;

difficulties in managing international operations;

difficulties enforcing agreements in foreign jurisdictions;

potentially adverse tax consequences, including restrictions on repatriating earnings;

weaker intellectual property protection in foreign countries; and

the burden of complying with a wide variety of foreign laws.

These factors may have a material adverse effect on our future international sales and, consequently, our business, operating results and financial condition.

If we do not successfully compete with others in the very competitive energy management market, we may not achieve or maintain profitability.

In the energy management market, we compete with other manufacturers of switching and monitoring systems and manufacturers of traditional energy management products that are currently used by our potential customers. Many of these companies have substantially greater financial resources, larger research and development staffs and greater manufacturing and marketing capabilities than us. Our competitors may provide energy management products at lower prices and/or with superior performance. Failure of our products to reduce energy usage and cost sufficiently and reliably to achieve commercial acceptance or to otherwise successfully compete with conventional and new technologies would materially harm our business.

Product liability claims could result in losses and could divert our management's time and resources.

The manufacture and sale of our products creates a risk of product liability claims. Any product liability claims, with or without merit, could result in costly litigation and reduced sales, cause us to incur significant liabilities and divert our management's time, attention and resources. We do have product liability insurance coverage; however, there is no assurance that such insurance is adequate to cover all potential claims. The successful assertion of any such large claim against us could materially harm our liquidity and operating results.

Our limited commercial manufacturing experience may adversely affect our ability to manufacture large quantities of our EnergySaver products at competitive prices and on a timely basis; we may have to outsource manufacturing.

Our EnergySaver products are manufactured at our facilities. To be financially successful, we must manufacture our products, including our EnergySaver products, in substantial quantities, at acceptable costs and on a timely basis. We have only produced limited quantities of our EnergySaver products for commercial installations and for use in development and customer trial programs. To produce larger quantities of our EnergySaver products at competitive prices and on a timely basis, we will have to further develop our processing, production control, assembly,

testing and quality assurance capabilities. We may also have to hire contract-manufacturers and outsource the manufacturing of some or all of our products. We have had discussions with several potential contract-manufacturers, but none have been engaged to manufacture our products. We may be unable to manufacture our EnergySaver products in sufficient volume and may incur substantial costs and expenses in connection with manufacturing larger quantities of our EnergySaver products. If we are unable to make the transition to large-scale commercial production successfully, our business will be negatively affected. We could encounter substantial difficulties if we decide to outsource the manufacturing of our products, including delays in manufacturing and poor production quality.

Our ability to manufacture our products on a timely basis may be hindered if we are unable to negotiate a new collective bargaining agreement on terms that are satisfactory to us.

Of our 45 employees currently engaged in manufacturing, 30 are covered by either of two collective bargaining agreements. Both of our collective bargaining agreements expire on May 31, 2002. New collective bargaining agreements may not be reached when the current agreements expire which could lead to a work stoppage or strike. A prolonged work stoppage or strike by some or all of our manufacturing employees would have a material adverse effect on our ability to manufacture and sell products ordered by customers. In addition, to avoid a prolonged work stoppage or strike, we may have to enter into new collective bargaining agreements on terms that are not satisfactory to us, including the lack of a no strike provision.

Risks Related to this Offering

Because our common stock was only recently listed on AMEX, an active trading market may not develop after this offering, which may make it difficult for you to sell your shares.

Our common stock began trading on the American Stock Exchange on December 12, 2000. Previously our securities traded in the over-the-counter market on the OTC Bulletin Board. If an active and liquid trading market does not exist for our common stock on AMEX, you may have difficulty selling your shares.

Future sales of our common stock could cause our stock price to decline.

There are 31,113,841 shares of our common stock outstanding, of which approximately 59% are beneficially owned, collectively, by Joseph C. Marino, one of our founders, and by NCVC, L.L.C., an affiliate of two of our directors ("NCVC") and by DYDX Consulting, LLC ("DYDX"), an affiliate of another of our founders (this percentage includes stock options that are currently exercisable). A significant percentage of the outstanding shares of our common stock, including the shares beneficially owned by Mr. Marino and NCVC, can be sold in the public market from time to time, subject to limitations imposed by Federal securities laws and by trading agreements entered into with us. The market price of our common stock could decline as a result of sales of a large number of our presently outstanding shares of common stock by Mr. Marino, NCVC, DYDX or other stockholders in the public

10

market or due to the perception that these sales could occur. This could also make it more difficult for us to raise funds through future offerings of our equity securities.

Joseph Marino and NCVC and DYDX can control matters requiring stockholder approval because they beneficially own a large percentage of our common stock.

Joseph C. Marino beneficially owns approximately 29% of our currently outstanding common stock. NCVC beneficially owns approximately 17% of our currently outstanding common stock, and DYDX beneficially owns approximately 13% of our currently outstanding common stock (each of the aforementioned percentages includes stock options that are currently exercisable). Victor Conant and Kevin P. McEneely, of which Mr. McEneely is one of our directors, share voting and investment power with respect to the shares of common stock held by NCVC. As a result of their significant ownership, Mr. Marino and NCVC and DYDX have the ability to exercise a controlling influence over our business and corporate actions requiring stockholder approval, including the election of our directors, a sale of substantially all of our assets, a merger between us and another entity or an amendment to our certificate of incorporation. This concentration of ownership could delay, defer or prevent a change of control and could adversely affect the price investors might be willing to pay in the future for shares of our common stock. Also, in the event of a sale of our business, Mr. Marino and NCVC and DYDX could elect to receive a control premium to the exclusion of other stockholders.

Provisions of our charter and by-laws, in particular our "blank check" preferred stock, could discourage an acquisition of our company that would benefit our stockholders.

Provisions of our charter and by-laws may make it more difficult for a third party to acquire control of our company, even if a change in control would benefit our stockholders. In particular, shares of our preferred stock have been issued and may be issued in the future without further stockholder approval and upon those terms and conditions, and having those rights, privileges and preferences, as our Board of Directors may determine. The rights of the holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any of our preferred stock which is currently outstanding or which may be issued in the future. The issuance of our preferred stock, while providing desirable flexibility in pursuing possible acquisitions and other corporate purposes, could have the effect of making it more difficult for a third party to acquire control of us. This could limit the price that certain investors might be willing to pay in the future for shares of our common stock and discourage these investors from acquiring a majority of our common stock. In addition, the price that future investors may be willing to pay for our common stock may be lower due to the conversion price and exercise price granted to investors in any such private financing.

Holders of the Series A Convertible Preferred Stock have the right to approve certain actions.

On July 31, 2001, the Company entered into a securities purchase agreement (subject to shareholder approval) with five investors (the "Initial Holders"). This transaction was approved by our shareholders at our 2001 annual meeting held on August 30, 2001 and the closing of the transaction occurred on September 7, 2001 under which the Company received \$16,000,000 in aggregate gross proceeds for the issuance of 1,600,000 shares of its Series A Convertible Preferred Stock, 320,864 shares of its common stock, one year warrants to purchase an additional 400,000 shares of its Series A Convertible Preferred Stock at \$10 per share and seven year warrants to purchase an additional 3,000,000 shares of its common stock at \$1 per share. (See "Description of Securities Series A Preferred Stock"). In addition, on November 29, 2001, the Company entered into a securities purchase agreement with Leaf Mountain Company, LLC, which transaction was also approved by our shareholders at our 2001 annual meeting. This transaction closed on November 29, 2001 under which the Company received \$3,000,000 in aggregate gross proceeds for the issuance of 300,000 shares of its Series A Convertible Preferred Stock, 45,122 shares of its common stock, one year warrants to purchase

an additional 75,000 shares of its Series A Convertible Preferred Stock at \$10 per share and seven year warrants to purchase an additional 421,875 shares of its common stock at \$1 per share. (See "Description of Securities Additional Issuance of Series A Preferred Stock").

The Initial Holders of the Series A Convertible Preferred Stock have the right to elect up to four directors (out of a board of 12). Except for the election of directors or as otherwise provided by law, the Initial Holders, along with Leaf Mountain, who is entitled to vote for the election of directors, are entitled to vote with the holders of common stock on an "as converted" basis on all matters on which holders of our common stock are entitled to vote (however, if less than 200,000 shares of Series A Convertible Preferred are outstanding, unless otherwise provided by law, each holder of record of Series A Convertible Preferred Stock will have the right to vote on an "as converted" basis together with the holders of common stock on all matters on which holders of common stock are entitled to vote, including the election of directors). In addition, the holders of the Series A Convertible Preferred Stock are entitled to special approval rights in respect of certain actions by the Company, including any issuance of shares of capital stock by the Company and any acquisition, sale, merger, joint venture, consolidation or reorganization involving the Company or any of its subsidiaries. As a result of these voting and special approval rights, the holders of the Series A Convertible Preferred Stock have the ability to exercise a controlling influence over our actions requiring their approval, which could delay, defer or prevent a change of control and could adversely affect the price investors might be willing to pay in the future for shares of our common stock. In addition, the price that future investors may be willing to pay for our common stock may be lower due to the conversion price and exercise price granted to the investors in the Series A Convertible Preferred Stock financing.

USE OF PROCEEDS

We will not receive any of the proceeds from any sale of the shares offered by this prospectus by the selling stockholders. If and when the selling stockholders exercise their options and warrants, we will receive up to \$4,066,500 from the issuance of shares of common stock to the selling stockholders. Under such options and warrants, the selling stockholders have exercise prices per share ranging from \$1.36 to \$5.50. To the extent the selling stockholders exercise their options or warrants, we intend to use the proceeds we receive for general corporate purposes.

PLAN OF DISTRIBUTION

We have agreed to register for public resale shares of our common stock which have been issued to the selling stockholders or may be issued in the future to selling stockholders upon the exercise of options or warrants. We have agreed to use our best efforts to keep this registration statement effective until all such shares registered under the applicable registration statement have been sold or may be sold without volume restrictions pursuant to Rule 144 under the Securities Act. The aggregate proceeds to the selling stockholders from the sale of shares offered

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

pursuant to this prospectus will be the prices at which such securities are sold, less any commissions. The selling stockholders may choose to not sell any or all of the shares of our common stock offered pursuant to this prospectus.

The selling stockholders may, from time to time, sell all or a portion of the shares of our common stock at fixed prices, at market prices prevailing at the time of sale, at prices related to such market prices or at negotiated prices. The selling stockholders may offer their shares of our common stock at various times in one or more of the following transactions:

on any national securities exchange or market on which our common stock may be listed at the time of sale;

in an over-the counter market in which the shares are traded;

12

through block trades in which the broker or dealer so engaged will attempt to sell the shares as agent, but may purchase and resell a portion of the block as principal to facilitate the transaction;

through purchases by a broker or dealer as principal and resale by such broker or dealer for its account pursuant to this prospectus;

in ordinary brokerage transactions and transactions in which the broker solicits purchasers;

through options, swaps or derivatives;

in privately negotiated transactions;

in transactions to cover short sales; and

through a combination of any such methods of sale.

The selling stockholders may also sell their shares of our common stock in accordance with Rule 144 under the Securities Act, rather than pursuant to this prospectus.

The selling stockholders may sell their shares of our common stock directly to purchasers or may use brokers, dealers, underwriters or agents to sell such shares. In effecting sales, brokers and dealers engaged by the selling stockholders may arrange for other brokers or dealers to participate. Brokers or dealers may receive commissions, discounts or concessions from a selling stockholder or, if any such broker-dealer acts as agent for the purchaser of such shares, from a purchaser in amounts to be negotiated. Such compensation may, but is not expected to, exceed that which is customary for the types of transactions involved. Broker-dealers may agree with a selling stockholder to sell a specified number of such shares at a stipulated price per share, and, to the extent such broker-dealer is unable to do so acting as agent for a selling stockholder, to purchase as principal any unsold shares at the price required to fulfill the broker-dealer commitment to the selling stockholders. Broker-dealers who acquire shares as principal may thereafter resell such shares from time to time in transactions which may involve block transactions and sales to and through other broker-dealers, including transactions of the nature described above, in the over-the-counter market or otherwise, at prices and on terms then prevailing at the time of sale, at prices then related to the then-current market price or in negotiated transactions. In connection with such resales, broker-dealers may pay to or receive from the purchasers of such shares commissions as described above.

The selling stockholders and any broker-dealers or agents that participate with the selling stockholders in sales of their shares of our common stock may be deemed to be "underwriters" within the meaning of the Securities Act of 1933 in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of such shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act of 1933.

From time to time the selling stockholders may engage in short sales, short sales against the box, puts, calls and other hedging transactions in our securities, and may sell and deliver their shares of our common stock in connection with such transactions or in settlement of securities loans. These transactions may be entered into with broker-dealers or other financial institutions. In addition, from time to time a selling stockholder may pledge its shares pursuant to the margin provisions of its customer agreements with its broker-dealer. Upon default by a selling stockholder, the broker-dealer or financial institution may offer and sell such pledged shares from time to time.

We are required to pay all fees and expenses incident to the registration of the shares of our common stock offered hereby other than broker-dealer discounts and commissions. We have agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act of 1933.

LEGAL PROCEEDINGS

We are not currently a party to any legal proceeding nor are we aware of any threatened legal proceeding that could have a material adverse effect on our business, results of operations or financial condition.

DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS

The table below shows certain information about our directors, executive officers and key employees:

Name	Age	Principal Positions
John P. Mitola	37	Chief Executive Officer and Director(1)(3)
Brian J. Kawamura	44	President, Chief Operating Officer and Director(1)(2)
Jeffrey R. Mistarz	43	Chief Financial Officer and Treasurer
Michael R. Pokora	37	Executive Vice President, Business Operations and Sales
Michael S. Stelter	45	Vice President, Sales and Director
Frederic F. Brace	44	Director(4)
John J. Callahan	52	Director(2)
Robert J. Manning	59	Director(1)(3)
Kevin P. McEneely	53	Director(1)
Paul McGlinn	45	Director(4)
Gerald A. Pientka	45	Director(2)(3)
Robert D. Wagner	59	Director(4)
Roscoe C. Young II	50	Director

(1) Member of our executive committee.

(2) Member of our compensation committee.

(3) Member of our audit committee.

(4) Appointed as directors of the Company effective October 17, 2001 by the holders of our Series A Convertible Preferred Stock. Mr. Brace was appointed collectively by Morgan Stanley Dean Witter Equity Funding, Inc. and Originators Investment Plan, L.P., Mr. McGlinn was appointed by EP Power Finance, L.L.C. and Mr. Wagner was appointed by Duke Capital Partners, LLC. Newcourt Capital USA, Inc. has not yet appointed a director. (See "Description of Securities Series A Preferred Stock Voting Rights").

John P. Mitola has been one of our directors since November 1999 and has been our chief executive officer since January 2000. From August 1993 until joining us, Mr. Mitola was with Unicom Thermal Technologies (now Exelon Thermal Technologies, Unicom (now Exelon) Corporation's largest unregulated subsidiary, serving most recently as vice president and general manager. Mr. Mitola led the growth of Unicom

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

Thermal through the development of Unicom Thermal's Northwind ice technology and through thermal energy joint ventures between Unicom Thermal and several leading electric utility companies across North America. Prior to his appointment at Unicom Thermal, Mr. Mitola was director of business development for Commonwealth Edison Company, the local electric utility serving Chicago, Illinois and the northern Illinois region.

Brian J. Kawamura has been one of our directors since November 1999 and has been our President and Chief Operating Officer since January 2000. From September 1997 until joining us, Mr. Kawamura served as Executive Vice President Field Sales and Operations for the Southern

14

Division of KMC Telecom, a rapidly growing competitive local exchange carrier founded in 1995, where he was responsible for sales growth in existing markets in Alabama, Florida, Georgia, Louisiana and Texas as well as future markets in the South and Southeast regions. From October 1986 until joining KMC Telecom, Mr. Kawamura was Vice President and General Manager of the six state Central Region for MFS Worldcom, a telecommunications company.

Jeffrey R. Mistarz has been our chief financial officer since January 2000 and our treasurer since October 2000. From January 1994 until joining us, Mr. Mistarz served as chief financial officer for Nucon Corporation, a privately held manufacturer of material handling products and systems, responsible for all areas of finance and accounting, managing capital and shareholder relations. Prior to joining Nucon, Mr. Mistarz was with First Chicago Corporation (now Bank One Corporation) for 12 years where he held several positions in corporate lending, investment banking and credit strategy.

Michael R. Pokora has been our Executive Vice President of Business Operations and Sales since November 1999. Mr. Pokora was a founding member of the construction division of Arthur J. Gallagher & Company, where he served as Executive Vice President, responsible for the Midwest Construction Wrap-up Practice.

Michael S. Stelter is one of our co-founders and has been one of our directors since our incorporation in June 1998. Since our organization as a limited liability company in December 1997, Mr. Stelter has served as our Vice President of Sales. Mr. Stelter was our Corporate Secretary from June 1998 until October 2000. From 1986 until May 1999, Mr. Stelter served as Vice President of Marino Electric.

Frederic F. Brace has been one of our directors since October 2001 and is an appointee of the holders of our Series A Convertible Preferred Stock. Mr. Brace is, and has been, the Senior Vice President and Chief Financial Officer of UAL Corporation, the parent of United Airlines since September 2001. From July 1999 through September 2001, Mr. Brace was Senior Vice President and Treasurer of United Airlines and its Vice President of Finance from October 1996 through July 1999.

John J. Callahan was appointed to be one of our directors in April 2001. Mr. Callahan served as Senior Vice President of Sales and Marketing for Allegiance Telecom from December 1997 until his retirement in December 1999. From November 1992 to December 1997 Mr. Callahan served as the President of the Western Division of MFS Worldcom. Prior to joining MFS Worldcom he was a Vice President and General Manager of the Southwestern Division of Sprint.

Robert J. Manning has been one of our directors since May 2000 and Chairman of our Board of Directors since January 2001. Mr. Manning is a co-founder and a member of Groupe Manning LLC, an energy consulting company. From April 1997 until his retirement in January 2000, Mr. Manning served as executive vice president of Exelon Corporation and its largest subsidiary, Commonwealth Edison Company, where his responsibilities included managing the sale of Commonwealth Edison's fossil generating fleet. During his thirty-five year career at Exelon, Mr. Manning directed all aspects of electric generation, consumer service and transmission and distribution operations.

Kevin P. McEneely has been one of our directors since our incorporation in June 1998. Mr. McEneely was our Senior Executive Vice President and Chief Operating Officer from our organization as a limited liability company in December 1997 to December 1999. From 1985 to his retirement in December 1999, Mr. McEneely was Chief Operating Officer and an Executive Vice President of Nightingale-Conant Corporation. Mr. McEneely is also a member of NCVIC.

Paul E. McGlenn has been one of our directors since October 2001 and is an appointee of the holders of our Series A Convertible Preferred Stock. Mr. McGlenn is, and has been, the Managing Director of EP Power Finance, L.L.C. since August 2000. From August 1999 through July 2000, Mr. McGlenn served as a Director of Republic Financial, Inc. and as a Senior Vice President of Heller Financial, Inc. from November 1993 through June 1999.

15

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

Gerald A. Pientka has been one of our directors since May 2000. Mr. Pientka is a co-founder of Higgins Development Partners, LLC, a national real estate development company headquartered in Chicago, Illinois. Mr. Pientka has served as President of the company since its inception in May 1999 when the Pritzker family interest purchased a controlling interest in Higgins Development Partners, LLC (formerly Walsh, Higgins & Company). Mr. Pientka served as President of Walsh, Higgins & Company from May 1992 until May 1999.

Robert D. Wagner has been one of our directors since October 2001 and is an appointee of the holders of our Series A Convertible Preferred Stock. Mr. Wagner served as Managing Director of Arthur Andersen LLP's corporate finance group from May 1999 until his retirement in April 2001. From June 1998 through May 1999, Mr. Wagner served as Managing Director of M2 Capital. From April 1989 through June 1998, Mr. Wagner served as Managing Director for Bankers Trust/BT Alex Brown.

Roscoe C. Young II has been one of our directors since April 2000. Mr. Young has served as President and Chief Operating Officer of KMC Telecom since December 1999 and November 1996, respectively, and as a director since December 1999. Prior to joining KMC Telecom in 1996, Mr. Young was Vice President of Network Services for Ameritech, where he was in charge of customer service fulfillment of ISDN, digital centrex, voice services and network capital investment.

Board Committees

Our board of directors currently has the following committees:

Audit Committee. The Audit Committee reviews and recommends to the board of directors the independent public accountants selected to audit our financial statements, meets with the independent public accountants to review the scope and results of the audit, confirms the independence of the auditors, reviews any management consulting services provided by the auditors and the related fees, reviews the adequacy and effectiveness of the Company's internal controls, reviews legal and regulatory matters that may have an effect on the Company's financial statements and investigates any matters brought to its attention. The members of the audit committee are Messrs. Mitola, Manning and Pientka.

Executive Committee. The Executive Committee reviews the general operations of the Company. The members of the executive committee are Messrs. Mitola, Kawamura, Manning and McEneely.

Compensation Committee. The Compensation Committee is responsible for establishing, administering and reviewing compensation programs for the Company's executive and senior management, subject to approval of the Board as a whole. The members of the compensation committee are Messrs. Callahan, Kawamura and Pientka.

16

SELLING SECURITY HOLDERS, SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following tables list certain information, as of December 1, 2001, regarding the beneficial ownership of our outstanding common stock by each of our directors and named executive officers, the persons known to us to beneficially own greater than 5% of our common stock, our directors and executive officers, as a group, and stockholders whose shares are being registered pursuant to this prospectus. Beneficial ownership is determined in accordance with the rules of the SEC. Except as otherwise noted, the persons or entities named have sole voting and investment power with respect to all shares shown as beneficially owned by them. The address of each person listed in the following table (unless otherwise noted) is c/o Electric City Corp., 1280 Landmeier Road, Elk Grove Village, Illinois 60007-2410.

The 4,491,097 shares of common stock that we are registering pursuant to this prospectus and that are listed under the column "Number of Shares Being Offered" include (1) 2,996,097 shares held by the selling stockholders, (2) up to 815,000 shares which we may issue to the selling stockholders upon exercise of vested options, and (3) up to 680,000 shares which we may issue to the selling stockholders upon exercise of warrants. The shares of our common stock listed under the column "Shares Issuable Upon Exercise of Options" includes shares issuable upon exercise of options that are currently exercisable.

The information provided in the following table with respect to each selling stockholder is based on information obtained from that selling stockholder. The information under the column "Beneficial Ownership After Offering" assumes each selling stockholder sells all of its shares

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

offered pursuant to this prospectus to unaffiliated third parties. Each selling stockholder may sell all, part or none of its shares.

Name	Shares Directly Held	Shares Issuable Upon Exercise of Preferred Stock	Shares Issuable Upon Exercise of Warrants	Shares Issuable Upon Exercise of Options	Total	%

Notes to Tables:

- * Denotes beneficial ownership of less than 1%.
- ** Eliminates duplication

- (1) Includes 7,150,502 shares held of record by Pino, LLC ("Pino"). Mr. Marino holds a 100% membership interest in Pino and, in such capacity, has sole voting and investment power with respect to the shares of common stock held by Pino and, therefore, is deemed to be the beneficial owner of these shares.
- (2) Includes options to acquire 1,700,000 shares of common stock at \$1.10 per share held by Pino. In addition, Mr. Marino holds options to acquire 450,000 shares of common stock which are being registered pursuant to this offering. Pursuant to an employment agreement between the Company and Mr. Marino dated January 1, 1999, Mr. Marino was granted stock options to acquire 450,000 shares of the Company's common stock with an exercise price of \$3.50 per share. These option shares were to vest equally over the four-year term of the employment agreement. During July 1999, the Company's board of directors approved a 2 for 1 stock split, which resulted in a post-split grant of 900,000 shares. During December 2000, Mr. Marino resigned his position as Chairman of the Company, at which time 450,000 shares had become vested.
- (3) The business address of NCVC, L.L.C. ("NCVC") is 6245 West Howard St., Niles, Illinois 60714.
- (4) Includes 4,488,999 shares held of record by NCVC. Messrs. Conant and McEneely are managers and members of NCVC, and, in said capacities, share voting and investment power with respect to shares of common stock held by NCVC. Therefore, they are deemed to be the beneficial owners of these shares.
- (5) Excludes 448,415 shares held in trust for Carson Conant Trust and Chappell Conant Trust, Mr. Conant's adult children. Although Mr. Conant is trustee of the trust and, in such capacity, has sole voting and investment power with respect to the shares of common stock held by the trust, he disclaims beneficial ownership of these shares.
- (6) Excludes 427,568 shares held by Patrick McEneely and Ryan McEneely, Mr. McEneely's adult children.
- (7)

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

- Includes options to acquire 1,000,000 shares of common stock at \$1.10 per share held by NCVV.
- (8) The business address of DYDX Consulting, LLC ("DYDX") is 221 N. LaSalle Street, Suite 3900, Chicago, Illinois 60601.
- (9) Includes options to acquire 1,000,000 shares of common stock at \$1.10 per share held by DYDX.
- (10) Includes 3,017,499 shares held of record by DYDX. Mr. Konstant holds a 100% membership interest in DYDX and, in such capacity, has sole voting and investment power with respect to the shares of common stock held by DYDX and, therefore, is deemed to be the beneficial owner of these shares.
- (11) On October 17, 2000, Augustine Fund, L.P. purchased 2,000 shares of the Company's Series B Convertible Preferred Stock ("Series B Preferred") and was issued warrants to purchase 200,000 shares of the Company's common stock at an exercise price of \$4.425 per share, for gross proceeds to the Company of \$2,000,000. The Series B Preferred was convertible into shares of the Company's common stock, which stock was converted on June 15, 2001 into 1,472,244 shares of the Company's common stock. An additional 56,764 shares of common stock were issued as accrued dividends on the Series B Preferred. The controlling members, directors and officers, all of whom are David Asplund, Thomas Duszynski, David Matteson, Brian Porter and John Porter, may be deemed to share power to vote or dispose of the shares held by Augustine Fund, L.P. The business address of Augustine Fund, L.P. is 141 W. Jackson Boulevard, Suite 2182, Chicago, Illinois 60604.
- (12) Newcourt Capital Securities, Inc. ("Newcourt Capital Securities"), a registered broker-dealer, was issued warrants to purchase 3,314,830 shares of the Company's common stock at a price of \$1.00 per share in consideration for purchasing \$3,200,000 of Convertible Senior Subordinated Promissory Notes from the Company during the second quarter of 2001 and for acting as placement agent for the Company's issuance of its Series A Convertible Preferred Stock (See "Description of Securities Series A Preferred Stock"). Newcourt Capital Securities, Inc. is a wholly owned subsidiary of Newcourt Capital USA, Inc ("Newcourt Capital USA"). Accordingly, Newcourt Capital USA is deemed to be the beneficial owner of shares held by Newcourt Capital

20

-
- Securities. The following individuals share voting and investment power with respect to the shares of common stock held by Newcourt Capital Securities, Inc: Messrs. David McKerroll, J. Daryl MacLellan, Murray Eastwood, Michael Stupay, Johannes G.M. Derksen, Daniel Morash, Robert Sexton, Eric Mandelbaum and Robert Ingato. The aforementioned individuals are the current executive officers of Newcourt Capital Securities, Inc. and may be subject to subsequent change. The business address of Newcourt Capital Securities, Inc. is 1211 Avenue of the Americas, 22nd Floor, New York, NY 10036
- (13) On September 7, 2001, we closed our Series A Convertible Preferred Stock transaction (See "Description of Securities Series A Preferred Stock") with a group of investors and issued the following securities for an aggregate purchase price of \$16,000,000:
- 400,000 shares of our Series A Convertible Preferred Stock to each of Newcourt Capital USA, Inc. ("Newcourt"), Duke Capital Partners, LLC ("Duke Capital"), and EP Power Finance, L.L.C. ("EPP"), 380,000 shares of our Series A Convertible Preferred Stock to Morgan Stanley Dean Witter Equity Funding, Inc. ("Morgan Stanley") and 20,000 shares of our Series A Convertible Preferred Stock to Originators Investment Plan, L.P. ("OIP"). OIP is an affiliate of Morgan Stanley (See Note No. 15, below) and therefore, Morgan Stanley is deemed to be the beneficial owner of shares held by OIP. Each share of Series A Convertible Preferred Stock is convertible into 10 shares of our common stock and is exercisable beginning on November 7, 2001.
- Warrants to purchase 100,000 shares of our Series A Convertible Preferred Stock to each of Newcourt, Duke Capital and EPP, warrants to purchase 95,000 shares of our Series A Convertible Preferred Stock to Morgan Stanley and warrants to purchase 5,000 shares of our Series A Convertible Preferred Stock to OIP. These warrants are initially exercisable at \$10.00 per share and each share of Series A Preferred Stock is convertible into 10 shares of our common stock.
- 80,217 shares of our common stock to each of Newcourt, Duke Capital and EPP, 76,206 shares of our common stock to Morgan Stanley and 4,011 shares of our common stock to OIP.
- Warrants to purchase 750,000 shares of our common stock to each of Newcourt, Duke Capital and EPP, warrants to purchase 712,500 shares of our common stock to Morgan Stanley and warrants to purchase 37,500 shares of our common

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

stock to OIP. These warrants are initially exercisable at \$1.00 per share and are exercisable beginning on November 7, 2001.

Additional information regarding each of these investors is as follows:

The following individuals share voting and investment power with respect to the shares of common stock held by Newcourt Capital USA, Inc: Messrs. David McKerroll, J. Daryl MacLellan, Daniel Morash, John C. Wehner and Robert Golding. The aforementioned individuals are the current executive officers of Newcourt Capital USA, Inc. and may be subject to subsequent change. Louis Palladino, Jr., Bruce Sandberg, James Wilmott, Michael Zuckert, Martin Cohen and Alexander Frank. The aforementioned individuals are the current executive officers of MSDW OIP Investors, Inc., the sole general partner of OIP, and may be subject to subsequent change. The business address of Originators Investment Plan, L.P. is 1585 Broadway, New York, New York 10036.

On November 29, 2001, we closed on an additional issuance of our Series A Convertible Preferred Stock (See "Description of Securities Additional Issuance of Series A Preferred Stock") with Leaf Mountain Company, LLC ("Leaf Mountain") and issued the following securities for an aggregate purchase price of \$3,000,000:

300,000 shares of our Series A Convertible Preferred Stock. Each share of Series A Convertible Preferred Stock is convertible into 10 shares of our common stock and is exercisable beginning on November 28, 2002.

Warrants to purchase 750,000 shares of our Series A Convertible Preferred Stock. These warrants are initially exercisable at \$10.00 per share and each share of Series A Preferred Stock is convertible into 10 shares of our common stock.

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

45,122 shares of our common stock.

Warrants to purchase 421,875 shares of our common stock. These warrants are initially exercisable at \$1.00 per share and are exercisable beginning on November 29, 2001.

Additional information regarding Leaf Mountain is as follows:

Leaf Mountain is a member-managed limited liability company and was formed in February 1995 by a group of individuals for the purpose of investing in various business ventures. Leaf Mountain is not affiliated with any broker-dealer.

The following individuals share voting and investment power with respect to the shares of common stock held by Leaf Mountain: Messrs. Vincent W. Foglia, Paul F. Hills, Richard D. Naponelli, John J. Jiganti, John G. Moore, John D. Secker, Theodore A. Sinars, Paul M. Sheridan, Joseph S. Capitani and Gerald A. Pientka, of which Mr. Jiganti is the Managing Director. The aforementioned individuals are the current members of Leaf Mountain and may be subject to subsequent change. The business address of Leaf Mountain is 190 South LaSalle Street, Suite 1700, Chicago, Illinois, 60603.

22

As noted in the preceding disclosure, Mr. Gerald Pientka, who is one of our directors, is also a member of Leaf Mountain. Of the \$3,000,000 invested by Leaf Mountain in the Company's Series A Preferred Stock, Mr. Pientka, through Leaf Mountain, contributed \$75,000. It is the policy of the Company that any officer or director who has a direct or indirect conflict in a contemplated or pending business matter must abstain from discussions or votes of our board of directors regarding such matter. Accordingly, Mr. Pientka did not participate in any such discussions or votes relating to the sale to Leaf Mountain. In addition, Mr. Pientka was not aware of any matters involving or affecting the Company that were not disclosed to Leaf Mountain by the Company during the due diligence review conducted prior to the closing of the transaction.

The Company had, and currently has, no agreements, plans or understandings with any party to distribute these securities.

- (14) Includes warrants to acquire 3,314,830 shares of common stock at an initial exercise price of \$1.00 per share held by Newcourt Capital Securities, Inc.
- (15) Morgan Stanley is a wholly owned subsidiary of Morgan Stanley Dean Witter & Co. OIP is a limited partnership, of which the sole general partner is MSDW OIP Investors, Inc., also a wholly owned subsidiary of Morgan Stanley Dean Witter & Co. Accordingly, Morgan Stanley is an affiliate of, and is deemed to be the beneficial owner of the shares held by, OIP.
- (16) Mr. Marino holds options to acquire 450,000 shares of common stock which are being registered pursuant to this offering. Pursuant to an employment agreement between the Company and Mr. Marino dated January 1, 1999, Mr. Marino was granted stock options to acquire 450,000 shares of the Company's common stock with an exercise price of \$3.50 per share. These option shares were to vest equally over the four-year term of the employment agreement. During July 1999, the Company's board of directors approved a 2 for 1 stock split, which resulted in a post-split grant of 900,000 shares with an exercise price of \$1.75 per share. During December 2000, Mr. Marino resigned his position as Chairman of the Company, at which time stock options to acquire 450,000 shares of the Company's common stock had become vested.
- (17) On August 31, 2000, we acquired Switchboard Apparatus, Inc. ("Switchboard") in a stock transaction. In exchange for ownership of Switchboard, the selling stockholders, which included Dale Hoppensteadt, Helmut Hoppe and George Miller, received 385,858, 82,684 and 82,684 shares of the Company's common stock, respectively. Subsequent to the acquisition, Mr. Hoppensteadt distributed 36,400 shares of his 385,858 shares of his common stock and Messrs. Hoppe and Miller each distributed 7,800 shares of their 82,684 shares of common stock to the following employees of Switchboard: 12,000 shares to Phil Johnson; 10,500 shares to each of Kevin Hoppensteadt and Jim Manhart; 5,250 shares to Steve Solecki; 3,750 shares to Brian Elia and 2,500 shares to each of Don Bezek, Mike Galvin, Larry Gramit and Mike Pacione.

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

- (18) Mr. Hoppensteadt is, and has been, the President of our wholly owned subsidiary, Switchboard Apparatus, Inc. since its acquisition in August 2000. - (41) Reflects stock options awarded to Paul McGlenn, a director of the Company, pursuant to the Directors Stock Option Program. The policies of EP Power Finance, L.L.C., who is Mr. McGlenn's employer, provide that director compensation be paid to the company rather than to the individual.
- (42) Assumes all shares registered are sold even though the holders are not obligated to do so.

26

DESCRIPTION OF SECURITIES

In the following summary, we describe the material terms of our capital stock by summarizing material provisions of our charter and by-laws and Series B convertible preferred certificate of designation. We have incorporated by reference these organizational documents as exhibits to the registration statement of which this prospectus is a part.

General

The Board of Directors unanimously approved an amendment to our Certificate of Incorporation to increase our authorized number of shares of capital stock from 65,000,000 to 90,000,000 and our authorized number of shares of Common Stock from 60,000,000 to 85,000,000. No changes were made to the number of authorized shares of our preferred stock, which is 5,000,000. This amendment was approved by our shareholders at our 2001 annual meeting held on August 30, 2001. Accordingly, our charter authorizes us to issue 90,000,000 shares of capital stock, of which 85,000,000 shares are designated as common stock and 5,000,000 shares are designated as preferred stock. As of December 1, 2001, we had 85,000,000 authorized shares of common stock of which:

31,113,841 shares are issued and outstanding;

19,000,000 shares of common stock are issuable upon conversion of Series A Convertible Preferred Stock;

237,333 shares of common stock are issuable upon conversion of Series A Convertible Preferred Stock issued pursuant to dividends paid on Series A Convertible Preferred Stock.

7,410,205 shares of common stock are issuable upon exercise of outstanding common stock warrants;

4,750,000 shares of common stock are issuable upon exercise of outstanding Series A Convertible Preferred Stock warrants and conversion of the shares of Series A Convertible Preferred Stock which is issuable thereunder; and

9,876,300 shares of common stock are issuable upon exercise of outstanding stock options.

Common Stock

Holders of our common stock are entitled to one vote per share on all matters submitted to a vote of our stockholders, except that the holders of the Series A Preferred have the right (i) to appoint and elect up to four of the members of our board of directors (out of a board of 12) and (ii) to approve certain other actions by the Company. See "Series A Preferred Stock". Subject to the rights of holders of any outstanding preferred stock, the holders of outstanding shares of common stock will share ratably on a per share basis on any dividends. Except pursuant to the trading agreements entered into with certain of our stockholders (see "Certain Relationships and Related Transactions"), holders of our common stock have no preemptive, subscription, redemption or conversion rights. Subject to the rights of holders of any outstanding preferred stock, upon our liquidation, dissolution or winding up and after payment of all prior claims, the holders of shares of common stock will share ratably on a per share basis in all of our assets. All shares of common stock currently outstanding are fully paid and nonassessable.

Preferred Stock

Series B Preferred Stock

On October 17, 2000, we completed the sale of 2,000 shares of the Series B Preferred Stock to the Augustine Fund L.P. ("Augustine") at a purchase price of \$1,000 per share and the issuance of warrants

27

to purchase 200,000 shares of common stock at an exercise price of \$4.425 per share, subject to certain adjustments. The Series B Preferred Stock accrued dividends at the rate of 8% per annum, payable in cash or common stock, at our option. In the event of any liquidation, subject to the rights of any series of preferred stock that was senior to the Series B Preferred Stock, the holders of the Series B Preferred Stock were entitled to a liquidation preference of \$1,000 per share plus accrued and unpaid dividends. The Series B Preferred Stock was convertible at any time into shares of our common stock at an initial conversion ratio equal to the lower of \$4.06 per share or 75% of the average of the three lowest closing bid prices of our common stock during the 30 consecutive trading days immediately prior to conversion (The conversion ratio was subject to reduction for each 30 day period after April 16, 2001 that this registration statement was not declared effective). We could have redeemed all of the shares of the Series B Preferred Stock at any time prior to conversion for \$1,250 per share cash plus accrued unpaid dividends. The shares of Series B Preferred Stock would automatically have converted into common stock on October 17, 2003 if not previously converted or redeemed. Except as otherwise required by law or with respect to certain matters affecting the rights of the holders of preferred shares, the holders of the Series B Preferred Stock did not have voting rights.

Effective June 15, 2001, Augustine elected to convert their 2,000 shares of Series B Preferred Stock outstanding into 1,472,244 shares of our common stock. The conversion price was \$1.36 calculated as 71% (75% minus 2 percentage points for each thirty days that this registration statement was not declared effective, beginning on April 17, 2001 and ending on June 15, 2001) of the average of the three lowest selling prices

per share of our common stock over the 30 consecutive trading days preceding June 15. In addition, we elected to pay the accrued dividends on the Series B Preferred Stock in 56,764 shares of our common stock, which dividends were calculated based upon a conversion price of \$1.36 per share.

Series A Preferred Stock

In September 2000, we engaged Newcourt Capital Securities, Inc. as our placement agent to find potential investors interested in investing in a private placement of our capital stock. We were seeking additional capital for corporate development, market expansion, the repurchase of certain distribution territories and general working capital needs.

A search by our placement agent culminated in locating five investors desiring to invest in our capital stock, including leaders in the banking and energy industries. These investors are: Newcourt Capital USA Inc. ("CIT"), Duke Capital Partners, LLC, Morgan Stanley Dean Witter Equity Funding, Inc., Originators Investment Plan, L.P. and EP Power Finance, L.L.C. (collectively, the "Investors") After extensive negotiations and subject to stockholder approval, the Investors and the Company entered into a securities purchase agreement, more fully described below.

On July 31, 2001, we entered into a securities purchase agreement with the Investors, which was approved by our shareholders at our 2001 annual meeting held on August 30, 2001. The transaction closed on September 7, 2001. Under the securities purchase agreement, each of the Investors (with Morgan Stanley and its affiliate, Originators Investment Plan, L.P., treated as one investor) were issued the following securities for an aggregate purchase price of \$4,000,000 at the closing of the transaction:

400,000 shares of our Series A Convertible Preferred Stock;

warrants to purchase 100,000 shares of Series A Convertible Preferred Stock, initially exercisable at a price of \$10.00 per share;

80,217 shares of our Common Stock; and

28

warrants to purchase 750,000 shares of our Common Stock, initially exercisable at a price of \$1.00 per share.

Expected Use of Proceeds

We expect to use the aggregate gross proceeds of \$16,000,000 raised from the sale and issuance of the above capital stock and warrants for:

payment of transaction expenses and general operating expenses until our sales increase to a point at which they can support our operations;

expansion of our corporate sales and marketing teams in order to increase sales of our EnergySaver[®] business;

research and development of new products, including modifications to our EnergySaver[®] product to improve our ability to target specific applications and a new line of EnergySaver[®] reliability switchgear targeted at the telecommunications and internet industries;

capital expenditures necessary to expand our manufacturing capacity, both for the production of both EnergySaver[®] and switchgear products; and

complete the repurchase of 10 distributor territories of

amounts owing in respect of these repurchases and for the acquisition of companies with complementary technologies.

The placement agent received a fee equal to 5% of the \$16 million aggregate gross proceeds under the July 31, 2001 securities purchase agreement and will receive a further 5% of the aggregate gross proceeds from exercise of any of the warrants to purchase Series A Convertible Preferred Stock.

On July 31, 2001, we also obtained an additional bridge loan from Newcourt Capital USA in the principal amount of \$1.2 million. We had previously borrowed \$2 million principal amount of bridge loans from Newcourt Capital USA. On July 31, 2001, in connection with the loans by CIT and services performed by the placement agent, an affiliate of Newcourt Capital USA, the placement agent received warrants to purchase 3,314,830 shares of Common Stock initially exercisable at a price of \$1.00 per share. Such warrants have an exercise period of seven years from the closing of the transactions contemplated by the securities purchase agreement, which was September 7, 2001. Upon closing of the Series A Convertible Preferred Stock transaction, Newcourt Capital USA applied our outstanding indebtedness, (excluding accrued interest of \$76,049.78, which was paid in cash) under the various bridge loans against payment of the purchase price of the capital stock and warrants purchased by Newcourt Capital USA under the securities purchase agreement. Accordingly, the Company received at the closing of the transaction approximately \$12 million in cash (after paying the placement agent fees and expenses of the private placement).

Conversion

Each share of Series A Convertible Preferred Stock is convertible at the option of the holder into the number of shares of our Common Stock as determined by dividing \$10.00 by the conversion price, which is initially \$1.00.

29

All outstanding shares of Series A Convertible Preferred Stock will be automatically converted if either of the following occurs:

at such time as the closing price of our Common Stock exceeds \$12.00 per share (as adjusted for stock splits, stock combinations and the like) as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national security exchange or automated quotation services on which our shares of Common Stock are listed for trading) for twenty consecutive trading days and the average trading volume for the same 20-day period exceeds 500,000 shares; or

we complete a firmly underwritten primary public offering of our Common Stock at a price of \$5.00 per share or more (as adjusted for stock splits, stock combinations and the like) in which we raise aggregate gross proceeds of at least \$35 million (a "Qualified Primary Offering").

Shares of Series A Convertible Preferred Stock have, subject to certain exceptions, anti-dilution protection that will automatically adjust the conversion price of the Series A Convertible Preferred Stock to the price per share of any Common Stock we issue, or are deemed to have issued, if that price per share is less than the then existing conversion price for the Series A Convertible Preferred Stock. For example, if following the closing of the transactions contemplated by the securities purchase agreement we issue 1,000,000 shares of Common Stock at \$0.50 per share, the conversion price of the Series A Convertible Preferred Stock will automatically be adjusted from \$1.00 to \$0.50. The Series A Convertible Preferred Stock is also subject to other customary anti-dilution provisions with respect to stock splits, stock dividends, stock combinations, reorganizations, mergers, consolidations, special distributions, sales of all or substantially all of the Company's assets and similar events.

Dividends

Each outstanding share of Series A Convertible Preferred Stock is entitled to cumulative quarterly dividends at a rate of 10% per annum of its stated value, which is \$10.00. Dividends on the Series A Convertible Preferred Stock are payable and compounded quarterly. Until the first dividend payment date that occurs after three years following the initial issuance of the Series A Convertible Preferred Stock, dividends are payable, at our option, in cash or additional shares of Series A Convertible Preferred Stock. After that date, dividends on the Series A

Convertible Preferred Stock must be paid in cash and the dividend rate increases 0.5% every six months to a maximum rate of 15% per year.

Liquidation

Upon a liquidation, dissolution or winding up of the affairs of the Company, each holder of Series A Convertible Preferred Stock will be entitled to receive for each share of Series A Convertible Preferred Stock it holds, before any other security holder of the Company, the higher of:

\$20 plus accrued and unpaid dividends; or

an amount equal to the closing price of our Common Stock as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national security exchange or automated quotation services on which our shares of Common Stock are listed for trading) multiplied by the number of shares of Common Stock into which one share of Series A Convertible Preferred Stock is then convertible.

Redemption

Outstanding shares of the Series A Convertible Preferred Stock are not subject to mandatory redemption. At any time after the third anniversary of our initial issuance of shares of Series A

30

Convertible Preferred Stock, we have the option to redeem all outstanding shares of Series A Convertible Preferred Stock if the following two conditions are satisfied:

the closing price of our Common Stock as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national security exchange or automated quotation services on which our shares of Common Stock are listed for trading) exceeds \$7.50 per share (as adjusted for stock splits, stock combinations and the like) for at least 20 consecutive trading days immediately preceding the date we send a notice of redemption to all holders of Series A Convertible Preferred Stock; and

the average daily trading volume for the same period exceeds 500,000 shares.

The redemption price will be:

1. cash in the amount of \$10.00 per share plus accrued but unpaid dividends; and
2. that number of shares of Common Stock having a value equal to 70% of the excess of (i) the closing price of our Common Stock as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national security exchange or automated quotation services on which our shares of Common Stock are listed for trading) on the day before the redemption date multiplied by the number of shares of Common Stock into which a share of Series A Convertible Preferred Stock is then convertible, and (ii) \$10.00.

Voting Rights

The Investors have the right to elect up to four directors depending on the number of shares of Series A Convertible Preferred Stock outstanding at any time (as adjusted for stock splits, stock combinations and the like) as follows:

for so long as at least 800,000 shares of Series A Convertible Preferred Stock remain issued and outstanding, holders of Series A Convertible Preferred Stock, voting as a single class, will be entitled to elect four directors;

for so long as at least 600,000 but less than 800,000 shares of Series A Convertible Preferred Stock remain issued and outstanding, holders of Series A Convertible Preferred Stock, voting as a single class, will be entitled to elect three directors;

for so long as at least 400,000 but less than 600,000 shares of Series A Convertible Preferred Stock remain issued and outstanding, the holders of Series A Convertible Preferred Stock, voting as a single class, will be entitled to elect two directors; and

31

for so long as at least 200,000 but less than 400,000 shares of Series A Convertible Preferred Stock remain issued and outstanding, the holders of Series A Convertible Preferred Stock, voting as a single class, shall be entitled to elect one director.

Except for the election of directors or as otherwise provided by law, the Investors are entitled to vote with the holders of our Common Stock on an as-converted basis on all matters on which our holders of Common Stock are entitled to vote. However, if less than 200,000 shares of Series A Convertible Preferred Stock remain issued and outstanding, unless otherwise provided by law, each holder of record of Series A Convertible Preferred Stock has the right to vote on an as-converted basis together with the holders of Common Stock, on all matters on which holders of Common Stock are entitled to vote, including the election of directors.

Our board of directors has fixed by resolution the number of directors at 12. In order to maintain an appropriate number of directors, two of our directors, Victor Conant and James Stumpe, resigned their positions as directors following our 2001 annual meeting and those two seats, along with two currently vacant seats, will be filled by directors designated by each of the Investors.

Special Approval Rights

Holders of Series A Convertible Preferred Stock also have the following approval rights with respect to certain actions of the Company:

For so long as any shares of Series A Convertible Preferred Stock remain issued and outstanding we cannot, without approval of at least 75% of the shares of Series A Convertible Preferred Stock then outstanding:

enter into any agreement that would restrict our ability to perform under the securities purchase agreement;

amend our Certificate of Incorporation or bylaws in any way that could adversely affect, alter or change the rights, powers or preferences of the Series A Convertible Preferred Stock;

engage in any transaction that would impair or reduce the rights, powers or preferences of the Series A Convertible Preferred Stock as a class;

sell all or substantially all of the assets of the Company or merge with or into another company,

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

or liquidate the Company (provided that if less than 400,000 shares of the Series A Convertible Preferred Stock are then outstanding and the then holders of Series A Convertible Preferred Stock refused to consent to such a transaction, we may at our option, redeem all, but not less than all, of such Series A Convertible Preferred Stock at a redemption price per share equal to the amount the Series A Convertible Preferred Stock would receive upon a liquidation); or

change the authorized number of directors of our Board of Directors.

32

For so long as at least 800,000 shares of Series A Convertible Preferred Stock remain issued and outstanding we cannot, without the approval of at least 66²/₃% of the shares of Series A Convertible Preferred Stock then outstanding:

authorize or issue any capital stock with rights senior to or equal to the Series A Convertible Preferred Stock or securities convertible or exchangeable into such capital stock;

authorize or issue any options, rights or warrants to purchase capital stock of the Company;

amend or alter any outstanding options, rights or warrants in a manner that reduces or that has the effect of reducing the per share exercise price for any outstanding options, rights or warrants;

authorize or issue any debt securities of the Company or any of its subsidiaries, other than debt under the existing revolving lines of credit or the replacement thereof on substantially similar terms, except that we may issue additional debt up to \$1,000,000 in the aggregate in the ordinary course of business and may incur trade payables in the ordinary course of business;

purchase, redeem, or otherwise acquire any of the Company's capital stock, other than the redemption of the Series A Convertible Preferred Stock;

enter into an acquisition, sale, merger, joint venture, consolidation or reorganization involving the Company or any of its subsidiaries;

sell or lease assets of the Company or any of its subsidiaries, except in the ordinary course of business;

declare or pay any cash dividends or make any distributions on any of our capital stock, other than on the Series A Convertible Preferred Stock;

authorize the payment of, or pay to any individual employee of the Company, cash compensation in excess of \$500,000 per annum; or

enter into any transaction (or series of transactions), including loans, with any employee, officer or director of the Company or to or with his, her or its affiliates or family members (other than with respect to payment of compensation to actual full-time employees in the ordinary course of business) involving \$50,000 or more per year individually or \$250,000 or more per year in the aggregate.

33

For so long as at least 1,200,000 shares of Series A Convertible Preferred Stock remain issued and outstanding we cannot, without the approval of the holders representing 66²/₃% of the shares of Series A Convertible Preferred Stock then outstanding:

terminate or newly appoint the chief executive officer or president of the Company;

approve any annual capital expense budget if such budget provides for annual capital expenditures by the Company and its subsidiaries in excess of \$1,000,000 in the aggregate in any year; or

approve the incurrence of any single capital expenditure (or series of related capital expenditures) in excess of \$500,000.

Violation of Special Approval Rights

In the event we violate any of these special approval rights and do not cure the violation within the prescribed cure period, which is 30 days for the first such violation and 10 days for any subsequent violation, following notice of that violation from any holder of Series A Convertible Preferred Stock, the holders of the Series A Convertible Preferred Stock have the right to elect that number of additional directors to our board of directors necessary for them to elect a majority of the Board of Directors.

Ancillary Agreements

In addition to the securities purchase agreement, the Investors, the placement agent and/or the Company entered into three ancillary agreements, each of which is described below:

Investor Rights Agreement

Under the investor rights agreement, the Investors and the placement agent may require the Company to register "Eligible Securities." "Eligible Securities" are (1) the shares of Common Stock (a) issued or issuable upon the conversion of the Series A Convertible Preferred Stock issued pursuant to the securities purchase agreements or (b) issued or issuable upon exercise of the warrants to purchase Series A Convertible Preferred Stock and conversion into Common Stock of the Series A Convertible Preferred Stock issued or issuable pursuant to such exercise; (2) the shares of Common Stock issued or issuable upon exercise of the warrants issued to the placement agent; (3) the shares of Common Stock issued pursuant to the first securities purchase agreement; (4) the shares of Common Stock issued or issuable upon exercise of the warrants to purchase Common Stock issued under the first securities purchase agreement; and (5) any other shares of Common Stock issued as (or issuable upon the conversion or exercise of any warrant, right or other security that is issued as) a dividend or other distribution with respect to, or in exchange for or in replacement of, the shares described in clauses (1) - (4). The Investors and the placement agent, as a group, may require an aggregate of four such registrations provided that each such registration is of an amount of shares representing at least \$5 million of market value.

The Investors and the placement agent are also entitled to customary "piggy-back" registration rights in the event that the Company proposes to register shares of its Common Stock for sale to the public (excluding shares being registered hereunder and excluding any registration statements on Forms S-4 or S-8), whether for its own account or for the account of other security holders (or both). If such registration is, in whole or in part, an underwritten public offering and the underwriters institute customary cut-back procedures, then the Investors' piggy-back registration rights shall be subject to cut-back pro rata with any other shares proposed to be registered and sold in such offering, other than shares to be sold by the Company. In the event that underwriters institute customary cut-back procedures in respect of a registration requested by the Investors, however, any shares registered

pursuant to a registration requested by the Investors will have priority over the shares sought to be included therein by any other selling stockholder.

Under the investor rights agreement, each investor and the placement agent, subject to certain exceptions, have a right of first offer with respect to future sales by the Company of shares of its capital stock. Specifically each investor and the placement agent have the right to acquire a portion of shares of capital stock, in order to maintain their percentage ownership interests. The Investors also have the right to acquire any shares that the other Investors decline to purchase.

Stockholders Agreement

The Investors and the Company have also entered into a stockholders agreement. Under the stockholders agreement, each investor has the right to designate one member to the Board of Directors and to have a representative attend all meetings of the Board of Directors as a board observer so long as it holds at least 200,000 shares of Series A Convertible Preferred Stock. Additionally, the Investors and the Company have agreed that for so long as an investor owns at least 2,000,000 shares of Common Stock (calculated assuming conversion of all Series A Convertible Preferred Stock and the exercise of all Series A Convertible Preferred Stock warrants and Common Stock warrants held by such investor), a representative of such investor is entitled to attend all meetings of the Board of Directors as an observer if such investor does not have a designated board member. For purposes of the stockholders agreement, Morgan Stanley and Originators Investment Plan, L.P. are collectively considered to be one investor.

Each investor also agrees that if it converts more than 50% of the Series A Convertible Preferred Stock it purchases under the securities purchase agreement, it will, at the request of the Company, convert the remainder of its Series A Convertible Preferred Stock.

Stock Trading Agreement

Each of the Investors, the placement agent and certain officers of the Company have entered into a stock trading agreement that provides for restrictions on their sale of Common Stock into the public market. Under the stock trading agreement, the parties will not be able to sell their respective shares of Common Stock into the public market before the successful completion by us of a Qualified Primary Offering except that, if a Qualified Primary Offering is not completed within 18 months after the closing of the transactions contemplated by the securities purchase agreement, the parties may sell their respective shares subject to the following restrictions:

the closing price of our Common Stock as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national securities exchange or automated quotation services on which the Common Stock is then listed for trading) must exceed \$4.00 per share (as adjusted for stock splits, stock combinations and the like) for each of the twenty (20) consecutive trading days immediately prior to the date of sale;

the number of shares of Common Stock sold by a party on any trading day may not exceed five percent of the average daily trading volume of the Common Stock as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national securities exchange or automated quotation services on which the Common Stock is then listed for trading) for the twenty (20) consecutive trading days (as adjusted to exclude the highest and the lowest volume trading days for such twenty (20) consecutive trading day period) ending on the date immediately prior to such trading day;

35

the average daily trading volume of the Common Stock as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national securities exchange or automated quotation services on which the Common Stock is then listed for trading) for the twenty (20) consecutive trading days (as adjusted to exclude the highest and the lowest volume trading days for such twenty (20) consecutive trading day period) ending on the date immediately prior to such trading day must exceed 150,000 shares;

the number of shares of Common Stock sold by a party into the public market in any three-month period may not exceed fifteen percent of that party's total holdings of Common Stock (calculated assuming the exercise of all rights, options and warrants to purchase Common Stock or securities convertible or exchangeable for shares of Common Stock, and the conversion or exchange of all securities convertible or exchangeable for Common Stock) on the date of the closing of the transactions contemplated by the securities purchase agreement

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

(as adjusted for stock splits, stock combinations and the like); and

sales of at least 10,000 shares or more of Common Stock must be executed at a minimum price of 90% of the ask price as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national security exchange or automated quotation services on which our shares of Common Stock are listed for trading).

Subject to the expiration of any "lock-up" agreements entered into by the parties to the stock trading agreement, each party may sell shares of Common Stock into the public market following a Qualified Public Offering subject to the following restrictions:

the number of shares of Common Stock sold by a party on any trading day may not exceed five percent of the average daily trading volume of the Common Stock as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national securities exchange or automated quotation services on which the Common Stock is then listed for trading) for the twenty (20) consecutive trading days (as adjusted to exclude the highest and the lowest volume trading days for such twenty (20) consecutive trading day period) ending on the date immediately prior to such trading day,

the number of shares of Common Stock sold by a party into the public market in any three-month period may not exceed twenty percent of that party's total holdings of Common Stock (calculated assuming the exercise of all rights, options and warrants to purchase Common Stock or securities convertible or exchangeable for shares of Common Stock, and the conversion or exchange of all securities convertible or exchangeable for Common Stock) on the date of the closing of the transactions contemplated by the securities purchase agreement (as adjusted for stock splits, stock combinations and the like), and

sales of at least 10,000 shares or more of Common Stock must be executed at a minimum price of 90% of the ask price as reported on the American Stock Exchange (or, if not traded on the American Stock Exchange, any national security exchange or automated quotation services on which our shares of Common Stock are listed for trading).

Each party to the stock trading agreement and the Company will have a right of first offer if any other party to the stock trading agreement intends to sell its shares in a private transaction. The stock trading agreement will terminate September 7, 2004. However, if a Qualified Primary Offering is completed prior to September 7, 2004, the stock trading agreement will terminate 18 months after the completion of the Qualified Primary Offering.

Additional Issuance of Series A Preferred Stock

At our annual meeting of stockholders held on August 30, 2001, our stockholders approved the issuance of up to \$20,000,000 of our Series A Convertible Preferred Stock, along with our common stock, and warrants to purchase our Series A Convertible Preferred Stock and our Common

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

Stock. On September 7, 2001, we closed on the sale and issuance of \$16,000,000 of our Series A Convertible Preferred Stock to the Investors (refer to the preceding discussion of the transaction).

On November 29, 2001, we entered into a securities purchase agreement with Leaf Mountain Company, LLC ("Leaf Mountain") for the issuance of additional shares our Series A Convertible Preferred Stock (for additional information regarding Leaf Mountain, see "Selling Security Holders, Security Ownership of Certain Beneficial Owners and Management Note No. 13"). Under the securities purchase agreement, Leaf Mountain was issued the following securities for an aggregate purchase price of \$3,000,000:

300,000 shares of our Series A Convertible Preferred Stock;

warrants to purchase 75,000 shares of Series A Convertible Preferred Stock, initially exercisable at a price of \$10.00 per share;

45,122 shares of our Common Stock; and

warrants to purchase 421,875 shares of our Common Stock, initially exercisable at a price of \$1.00 per share.

Expected Use of Proceeds

We expect to use the gross proceeds of \$3,000,000 raised from this sale and issuance for general working capital needs. We did not engage a placement agent or broker for this transaction and, accordingly, no fee was paid in that respect.

Terms of the Transaction

Leaf Mountain, along with the Investors, the placement agent, and the Company and its executive officers entered into a Consent and Amendment of Securities Purchase Agreement, Stock Trading Agreement, Stockholders Agreement and Investor Rights Agreement ("Consent and Amendment"). The Consent and Amendment provides for terms different from those of the Investors as noted below.

Stock Trading Agreement Leaf Mountain

Leaf Mountain is subject to the provisions of the Stock Trading Agreement (See "Series A Preferred Stock Stock Trading Agreement").

Under the Stock Trading Agreement, Leaf Mountain may not sell any of its holdings of Common Stock into the public market except in compliance with the Stock Trading Agreement. If, however, the Company does not complete a Qualified Public Offering by November 29, 2002, Leaf Mountain may thereafter sell any of its "Uncovered" Common Stock into the public market without any restrictions under the Stock Trading Agreement and may sell shares of its "Covered" Common Stock into the public market if it complies with the restrictions in the Stock Trading Agreement.

Beginning on December 1, 2001, the percentage of Common Stock (calculated assuming the exercise of all rights, options and warrants to purchase Common Stock or securities convertible or exchangeable for shares of Common Stock, and the conversion or exchange of all securities convertible or exchangeable for Common Stock) of Leaf Mountain which is "Covered" under the Stock Trading Agreement will be 75%. That percentage will change on December 1, 2002, unless, by that date the Company has either:

(i) closed on the sale and issuance of at least 100,000 additional shares of Series A Convertible Preferred Stock for gross proceeds of not less than \$1,000,000, or

37

(ii) satisfied each of the following requirements: (A) reported positive consolidated EBITDA (defined as net income plus (to the extent deducted in determining net income) (1) taxes, (2) interest expense, (3) depreciation and (4) amortization) for at least three (3) consecutive months, (B) continued reporting positive EBITDA for each month during the period commencing with the first month described in clause (A) preceding through the end of the month of November, 2002, and (3) had cash balances of not less than \$3,000,000 on November 30, 2002.

If the Company has not satisfied either of the conditions provided in (i) and (ii) above, then the percentage of Common Stock of Leaf Mountain which will be "Covered" Common Stock under the Stock Trading Agreement will be 50%, and its "Uncovered" Common Stock will be 50% of its holdings. If the Company has satisfied both such conditions, the percentage which will be "Covered" Common Stock will remain at 75%.

Leaf Mountain's "Covered" Common Stock may not be sold into the public market except in compliance with the Stock Trading Agreement, which does not permit such sales until the Company completes a Qualified Public Offering or, if no Qualified Public Offering is completed by March 6, 2003, thereafter permits such sales subject to the restrictions described above under "Series A Preferred Stock Stock Trading Agreement". Certain of those provisions, however, have been amended with respect to Leaf Mountain's "Covered" Common Stock to provide that the number of shares of Common Stock sold by Leaf Mountain on any trading day may not exceed the greater of (a) 10,000 shares or (b) 10% of the Average Daily Trading Volume (defined as the average closing price of the Common Stock over the preceding twenty trading days).

Stockholders Agreement Leaf Mountain

Leaf Mountain will not have the right to either elect or participate in the election of those directors designated by the Investors. However, unless otherwise provided by law, Leaf Mountain will be entitled to vote with the holders of our Common Stock on an as-converted basis on all matters on which our holders of Common Stock are entitled to vote. In addition, for so long as Leaf Mountain holds at least 100,000 shares of Series A Preferred Stock, it will have the right to have a representative attend all meetings of the Board of Directors as an observer (See "Series A Preferred Stock Stockholders Agreement").

Leaf Mountain will participate with the Investors with respect to approval rights of certain actions of the Company (See "Series A Preferred Stock Special Approval Rights").

Investor Rights Agreement Leaf Mountain

Leaf Mountain, for so long as it holds at least 750,000 shares of Common Stock, will have the right to request a single registration of its shares, in addition to any rights that it may have to register its Common Stock with the Investors (See "Series A Preferred Stock Investor Rights Agreement"). Upon receipt of such request, the Company shall use its best efforts to cause a registration statement to become effective under the Securities Act of 1933 with respect to such securities.

Additional Agreement Re Issuances of Preferred Stock

We agreed with Leaf Mountain that we would not issue additional shares of our preferred stock to anyone on terms more favorable than those terms which are applicable to Leaf Mountain unless our Board of Directors has determined that, in its judgment, such subsequent investor provides a demonstrable synergistic benefit to our business.

Other Preferred Stock

Our board of directors, without further stockholder approval (other than the approval of the holders of the Series A Convertible Preferred Stock described above under "Special Approval Rights"),

may issue additional preferred stock in one or more series from time to time and fix or alter the designations, relative rights, priorities, preferences, qualifications, limitations and restrictions of the shares of each series. The rights, preferences, limitations and restrictions of different series of preferred stock may differ with respect to dividend rates, amounts payable on liquidation, voting rights, conversion rights, redemption provisions, sinking fund provisions and other matters. Subject, in each case, to obtaining any required approval of the holders of the Series A Convertible Preferred Stock, our board of directors (1) may authorize the issuance of preferred stock that ranks senior to our common stock for the payment of dividends and the distribution of assets on liquidation, (2) can fix limitations and restrictions upon the payment of dividends on our common stock to be effective while any shares of preferred stock are outstanding, and (3) can also issue preferred stock with voting and conversion rights that could adversely affect the voting power of the holders of common stock. In addition, in connection with the sale of our Series A Preferred Stock to Leaf Mountain Company, LLC, we agreed with Leaf Mountain that we would not issue additional shares of our preferred stock to anyone on terms more favorable than those which are applicable to Leaf Mountain unless our Board of Directors has determined that, in its judgment, such subsequent investor provides a demonstrable synergistic benefit to our business.

Delaware Anti-Takeover Law

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

We are subject to the provisions of Section 203 of the Delaware General Corporation Law. In general, this section prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person becomes an interested stockholder, unless:

before the date on which the stockholder became an interested stockholder, the corporation's board of directors approved either the business combination or the transaction in which the person became an interested stockholder;

the stockholder acquires more than 85% of the outstanding voting stock of the corporation, excluding shares held by directors who are officers or held in certain employee stock plans, upon consummation of the transaction in which the stockholder becomes an interested stockholder; or

the business combination is approved by the board of directors and by two-thirds of the outstanding voting stock of the corporation that is not held by the interested stockholder, at a meeting of the stockholders held on or after the date of the business combination.

An interested stockholder is a person who, together with affiliates and associates, owns, or at any time within the prior three years did own, 15% or more of the corporation's voting stock. Business combinations include, without limitation, mergers, consolidations, stock sales, asset sales or other transactions resulting in a financial benefit to interested stockholders.

Anti-Takeover Effects of Certain Charter and By-Law Provisions

Our charter and by-laws contain provisions relating to corporate governance and to the rights of stockholders. Our by-laws provide that special meetings of stockholders may only be called by our Board of Directors, our chairman or our president and shall be called by our chairman, president or secretary at the request in writing of stockholders owning at least one-fifth of the outstanding shares of capital stock entitled to vote. In addition, our charter provides that our Board of Directors may issue preferred stock without further stockholder approval and upon those terms and conditions, and having those rights, privileges and preferences, as our Board of Directors may determine; *provided*, however, that if the issuance of securities contemplated by the securities purchase agreement dated as of July 31, 2001 is approved by our shareholders, then we will file a certificate of designations, preferences and relative, participating, optional and other special rights of preferred stock and qualifications, limitations and restrictions thereof of Series A Convertible Preferred Stock with the Secretary of State of Delaware and after such filing the holders of Series A Convertible Preferred Stock will have the right

39

(among other things) to approve any such issuance of additional shares of preferred stock. See "Series A Preferred Stock". These provisions may be deemed to have a potential "anti-takeover" effect in that they may delay, defer or prevent a change of our control.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is LaSalle Bank N.A.

INTEREST OF NAMED EXPERTS AND COUNSEL

The financial statements of Electric City Corp. included in this prospectus and in the registration statement have been audited by BDO Seidman, LLP, independent certified public accountants to the extent and for the periods set forth in their report (which contains an explanatory paragraph regarding the Company's ability to continue as a going concern) appearing elsewhere herein and in the registration statement, and are included in reliance upon such report upon the authority of said firm as experts in auditing and accounting.

The financial statements of Switchboard Apparatus, Inc. included in this prospectus and in the registration statement have been audited by BDO Seidman, LLP, independent certified public accountants to the extent and for the period set forth in their report appearing elsewhere herein and in the registration statement and are included in reliance upon such report given upon the authority of such firm as experts in auditing and accounting.

The financial statements of Marino Electric, Inc. included in this prospectus and in the registration statement have been audited by BDO Seidman, LLP, independent certified public accountants to the extent and for the periods set forth in their report appearing elsewhere herein and

in the registration statement and are included in reliance upon such reports given upon the authority of such firm as experts in auditing and accounting.

The financial statements of Switchboard Apparatus, Inc. included in this prospectus and in the registration statement have been audited by John R Waters and Company, independent certified public accountants to the extent and for the periods set forth in their report appearing elsewhere herein and in the registration statement and are included in reliance upon such report given the authority of such firm as experts in auditing and accounting.

COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITY

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to our charter, bylaws or otherwise, we have been advised that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim of indemnification against such liabilities (other than the payment by us of expenses incurred or paid by one of our directors, officers or controlling persons in the successful defense of any action, suit or proceeding) is asserted by one of our directors, officers or controlling persons in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

40

DESCRIPTION OF BUSINESS

Overview/History

On December 5, 1997, we were initially formed as Electric City LLC, a Delaware limited liability company, by Joseph C. Marino, one of our principal stockholders, and NCVC, LLC, an entity controlled by Victor Conant, Kevin McEneely and DYDX Consulting LLC (which is controlled by Nikolas Konstant). In May 1998, Mr. Marino assigned his membership interest in us to Pino, LLC, an entity controlled by Mr. Marino.

On June 5, 1998, we changed from a limited liability company into a corporation by merging Electric City LLC into Electric City Corp., a Delaware corporation. In connection with our merger, NCVC, LLC and Pino, LLC received shares of common stock in Electric City Corp. in exchange for their membership interests in Electric City LLC.

On June 10, 1998, Electric City issued 1,200,272 shares of its common stock with a fair market value of \$1,200,272 representing approximately six (6%) percent of Electric City's issued and outstanding common stock, to the approximately 330 shareholders of Pice Products Corporation ("Pice"), an inactive, unaffiliated company with minimal assets. Pursuant to merger agreement, Pice was merged with and into Electric City. The number of shares issued to Pice was determined and negotiated with the principals of Pice by the Company's Board of Directors as a whole and was concluded by the Board to be an "arm's length transaction" in that none of the Board of Directors was in any way affiliated with, or related to the principals of Pice. The purpose of the merger was to substantially increase the number of our shareholders to facilitate the establishment of a public trading market for our common stock. Trading in our common stock commenced on August 14, 1998 through the OTC Bulletin Board under the trading symbol "ECCC".

In May 1999, we purchased most of the assets of Marino Electric, Inc., an entity controlled by Mr. Marino, for \$1,792,000 in cash and 1,600,000 shares of our common stock. Marino Electric was engaged in the business of designing and manufacturing custom electrical switchgear and distribution panels. Under the terms of the purchase agreement, we were obligated to pay the cash portion of the purchase price upon the closing of our private issuance of common stock that commenced in July 1999. In May 2000, Mr. Marino waived this requirement and instead received a payment of \$820,000 in cash and a subordinated secured term note for the principal amount of \$972,000 at an interest rate of 10% per annum, payable in equal installments over 24 months and requiring principal and interest payments of \$44,928 per month.

On August 31, 2000, pursuant to an Agreement and Plan of Merger by and among us, Switchboard Apparatus, Inc. and Switchboard Apparatus's stockholders, Dale Hoppensteadt, George Miller and Helmut Hoppe, we acquired Switchboard Apparatus. In connection with the acquisition, Switchboard Apparatus was merged into our wholly owned subsidiary, with our subsidiary continuing as the surviving corporation under the name Switchboard Apparatus, Inc. The aggregate purchase price of \$1,941,750 was paid in the form of 551,226 shares of our common stock.

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

On October 17, 2000, we completed the sale of 2,000 shares of Series B Preferred Stock, and warrants to purchase 200,000 shares of our common stock at an exercise price of \$4.425 per share, subject to certain adjustments, to Augustine for an aggregate purchase price of \$2,000,000. The Series B Convertible Preferred Stock accrued dividends at the rate of 8% per annum, payable in cash or the common stock of the Company, at the Company's option. The Series B Convertible Preferred Stock and all accrued but unpaid dividends thereon was convertible at any time into shares of the Company's common stock at a conversion ratio equal to the lower of \$4.06 per share or 75% (the "Conversion Percentage") of the average of the three lowest closing bid prices of our common stock during the 30 consecutive trading days immediately prior to conversion. The Company was obligated to file a registration statement and have it declared effective within 180 days of the date of issuance of the Series B Convertible Preferred Stock. For every month that the registration statement was not declared effective after the 180 day period, the Conversion Percentage decreased by 2% until (i) the registration

41

statement was declared effective, or (ii) the Series B Convertible Preferred Stock was converted into common stock.

Effective December 4, 2000, Joseph P. Marino, one of our founders and former Chairman of the Board of Directors, resigned his position as Chairman and terminated his employment with us.

On June 7, 2001, pursuant to an Agreement and Plan of Merger by and among us, Electric City Great Lakes Acquisition Corporation, Great Lakes Controlled Energy Corporation ("Great Lakes"), Eugene Borucki and Denis Enberg, we acquired Great Lakes. Great Lakes is an independent systems integrator and facilities support specialist and focuses on lighting control systems and HVAC retrofits for commercial applications. They are also a national representative and distributor of select energy metering and control systems.

In connection with the acquisition, Great Lakes was merged into our wholly-owned subsidiary Electric City Great Lakes Acquisition Corporation, with our subsidiary continuing as the surviving corporation under the name Great Lakes Controlled Energy Corp. The aggregate purchase price of \$678,500 was paid to the Sellers in the form of 212,904 shares of Electric City common stock. We have agreed to register the shares of its common stock issued to the Sellers under the Securities Act of 1933, as amended.

Effective June 15, 2001, Augustine elected to convert their 2,000 shares of Series B Preferred Stock outstanding into 1,472,244 shares of our common stock. The conversion price was \$1.36 calculated as 71% (75% minus 2 percentage points for each thirty days that registration statement was not declared effective, beginning on April 17, 2001 and ending on June 15, 2001) of the average of the three lowest selling prices per share of our common stock over the 30 consecutive trading days preceding June 15. In addition, we elected to pay the accrued dividends on the Series B Preferred Stock in 56,764 shares of our common stock, which dividends were calculated based upon a conversion price of \$1.36 per share.

Effective July 31, 2001, we entered into a securities purchase agreement with five investors, which was approved by our shareholders at the Company's annual meeting held on August 30, 2001. Upon closing on September 7, 2001, the Company received \$16,000,000 in aggregate gross proceeds for the issuance of its Series A Convertible Preferred Stock, 320,864 shares of its common stock, one year warrants to purchase an additional 400,000 shares of its Series A Convertible Preferred Stock at \$10 per share and seven year warrants to purchase an additional 3,000,000 shares of its common stock at \$1 per share (See "Description of Securities Series A Preferred Stock".)

On July 31, 2001, we also obtained an additional bridge loan from Newcourt Capital USA in the principal amount of \$1.2 million. We had previously borrowed \$2 million principal amount of bridge loans from Newcourt Capital USA. On July 31, 2001, in connection with the loans by CIT and services performed by the placement agent, an affiliate of Newcourt Capital USA, the placement agent received warrants to purchase 3,314,830 shares of Common Stock initially exercisable at a price of \$1.00 per share. The warrants have an exercise period of seven years from the closing of the transactions contemplated by the securities purchase agreement, which was September 7, 2001. Upon the closing of the Series A Convertible Preferred Stock transaction, Newcourt Capital USA elected to apply our outstanding indebtedness, (excluding accrued interest of \$79,049.78, which was paid in cash) under the various bridge loans against payment of the purchase price of the capital stock and warrants purchased by Newcourt Capital USA under the securities purchase agreement.

On August 29, 2001, we amended an existing warrant held by thestockpage.com to extend the expiration date of the warrants by six months to June 30, 2002 as consideration for consulting services. The extension of the expiration date of this warrant was valued at \$108,000 using a modified Black-Sholes option pricing model.

On October 17, 2001, the Board of Directors declared and paid dividends on our Series A Convertible Preferred Stock for the third calendar quarter ending September 30, 2001 to shareholders of record of our Series A Convertible Preferred Stock as of September 30, 2001. The dividends were

42

paid in additional shares of Series A Convertible Preferred Stock to the holders as follows: 6,778 shares to EP Power Finance, L.L.C., 3,400 shares to Newcourt Capital USA, Inc., 6,439 shares to Morgan Stanley Dean Witter Equity Funding, Inc., 339 shares to Originators Investment Plan, L.P., and 6,778 shares to Duke Capital Partners, LLC. Each share of preferred stock is convertible into 10 shares of our common stock.

On November 29, 2001, we closed on the additional issuance of our Series A Convertible Preferred Stock under which we received aggregate gross proceeds of \$3,000,000 for the issuance of 300,000 shares of our Series A Convertible Preferred Stock, 45,122 shares of our common stock, one year warrants to purchase an additional 75,000 shares of our Series A Convertible Preferred Stock at \$10 per share and seven year warrants to purchase an additional 421,875 shares of our common stock at \$1.00 per share (see "Description of Securities - Additional Issuance of Series A Convertible Preferred Stock").

Products And Services

EnergySaver

We currently offer two main product lines: (1) the energy savings products which incorporate the EnergySaver technology, including the GlobalCommander package, and (2) switching and monitoring systems, including custom electrical switchgear panels and the TP3 prepackaged switchgear products.

The EnergySaver system is a state-of-the-art lighting control system that reduces energy consumption in indoor and outdoor commercial, institutional and industrial ballasted lighting systems, while maintaining appropriate lighting levels. The EnergySaver is a freestanding enclosure that contains control panels with electrical parts and is connected between the power line and the building's electrical lighting circuits. The EnergySaver also contains a computer with software that allows the customer to control the amount of energy savings desired which, depending on the application, can be as high as 50%, and provides self-diagnosis and self-correction. The customer can access the EnergySaver's computer directly or remotely via modem or two-way radio.

The EnergySaver is manufactured to varying sizes and capacities to address differing lighting situations. We can interface our EnergySaver products with new and existing lighting panels, ballasts and lamps without modification. In addition, the EnergySaver system controls the power spikes, drops and surges inherent in any power supply, resulting in a reduction of heat generated within the lighting system, which enhances ballast and lamp life and reduces the amount of air conditioning necessary to cool the building.

GlobalCommander

The GlobalCommander system is an advanced lighting controller capable of providing large-scale demand side management savings without turning off the lights. The GlobalCommander bundles the EnergySaver technology with an area-wide communication package to allow for maximum energy reductions across entire systems in response to the guidelines of a customer's facility manager. The primary benefits of the GlobalCommander system are its automation and ability to respond to market information and execute control set points, start/stop schedules and other operating parameters to take full advantage of market rates. In addition, customers can control their facilities' loads and lighting requirements from a single control point. This single-point control is available for a virtually unlimited number of remote facilities and can be accessed through the Internet or over standard telephone lines with high-speed wide area networking.

Virtual Negawatt Power Plant Program

On December 5, 2000, we announced an alliance with CIT Structured Finance ("CIT") to arrange up to \$100 million in financing for our "Virtual Negawatt Power Plant" ("VNPP") program. Our VNPP program calls for an initial phase with a goal of installing up to 5,000 of our EnergySaver

units. The program is targeted initially for the California energy marketplace, but can be expanded to any market where electricity prices make it attractive.

The VNPP program intends to create "Negawatts" which are reductions in demand for electric power. We intend to finance the development of our "virtual Negawatt systems" in a way similar to the way independent power producers finance the construction of peak power plants. We expect to generate revenue by selling the EnergySaver system to a special purpose entity controlled by CIT which will in turn lease the equipment to the customers or allow customers to use the equipment for a period of time in exchange for having the right to reduce the

customer's electricity demand during peak periods. CIT's subsidiary is then expected to receive proceeds from the resale of saved electricity to third parties and/or sharing with the customers the money saved on utility bills.

Custom Electrical Switchgear

We design and manufacture a wide range of commercial and industrial custom electrical switching gear and distribution panels that serve to distribute electricity from the electric utility's main power bus in a building to the various electrical requirements within a building. We have built a reputation for custom manufacturing of 120/208, 120/240 and 277/480V single- and three-phase switchgear for virtually any application. Our focus on custom manufacturing allows us to design and assemble these custom panels more quickly than manufacturers who must deviate from standard assembly line production.

Typical customers of custom switchgear are electrical contractors who provide installations for commercial and industrial building projects. Most custom switchgear contracts involve the custom manufacturing of electrical switching gear and distribution panels for both new construction and retrofit projects. Our product line includes main distribution panels, electrical boxes and assembled circuit breakers, bus bars and switches. In addition, we are an authorized re-seller and original equipment manufacturer (OEM) for Siemens and Cutler-Hammer.

We also market a full line of prepackaged switchgear products for the telecommunications/Internet markets under the TP3 brand name. The packages consist of fully integrated switchgear systems that provide a total solution for our customers' needs in this area. The entire package is prepackaged at standard size ranges designed for the typical sizes of central office network centers, point of presence (POP) facilities and Internet network centers. By prepackaging the switchgear, we believe we can reduce total installed costs by up to 30%, improve quality and deliver a high level of reliability in the electrical switchgear and provide energy savings and remote communications through this fully integrated solution.

Marketing, Sales And Distribution

During 2000, we began to establish a direct sales force to target large national and multinational companies. National accounts (such as chain stores, and large multi-site corporations), municipalities and other large campus customers will be handled by our corporate sales engineering group. Our sales force will focus its efforts on the energy engineering staffs of these companies, which analyze and recommend the purchase of products like ours for their multiple sites. The sales force will also support, coordinate and manage multiple sales channels.

We have established relationships with distributors (also referred to as "State Representatives") to carry and market our EnergySaver products. As of December 31, 2000, we had eight distributor/state representative agreements covering Arizona, California, Illinois, Indiana, Nevada, New Jersey, Pennsylvania, and Texas. A distributor is responsible for developing and managing a sales network within its territory. Typically the distributor does this by establishing dealerships within the territory and overseeing the sales, installation and maintenance of our products by the dealerships. If a distributor sells any of our products outside its territory, such distributor operates as a dealer, meaning it manages end-user sales only. The distributor earns a commission on any sale of our products in its territory whether initiated by the distributor itself, a dealer, or us.

44

Our standard distribution agreement gives the distributor certain exclusive rights of distribution in a particular territory, includes sales quotas that increase periodically throughout the term of the agreement, and requires the distributor to make payment to us within 30 to 60 days of product shipment. The agreement contains penalties for failure to meet quotas or make payments, including the loss of certain exclusive rights of distribution. In addition, the agreement has a term of 10 years, after which it is renewable at our discretion, and can be terminated at our discretion if the distributor fails to meet the terms of the distribution agreement.

In May 2000, we entered into a settlement agreement with three of our distributors regarding disputes over distributorships in ten states. As a result of the agreement, we agreed to repurchase their distributorships in the states of Arizona, Colorado, Florida, Georgia, Michigan, Nebraska, North Carolina, Ohio, and South Carolina and northern California.

Customers

We market our products through distributors and dealers. The product lines manufactured by our subsidiary, Switchboard Apparatus, are sold directly to original equipment manufacturers and end users. During 2000, sales to our top five distributors and dealers, including Electric City of Southern California, Electric City of Illinois, U.S. Power Corp., Electric City of Indiana and Electric City Southern, accounted for 36% of EnergySaver sales. During the period from September 1, 2000 through December 31, 2000, the top five end-user customers of Switchboard Apparatus included Zenith Controls, KMC Telecom, G.E. Supply, EOFF Electric, and Kelso-Burnett, which collectively accounted for approximately 73% of Switchboard Apparatus' sales during this period.

Manufacturing

Our EnergySaver product line is manufactured at our facilities in Elk Grove Village, Illinois, with manufacturing and assembly scaled to order demand. The primary components for the EnergySaver are sourced from multiple manufacturers. We are in continuous discussion with additional parts suppliers, seeking to ensure lowest cost pricing and reliability of supply.

Our switchgear product line, including the TP3 product line, is manufactured at the facilities of Switchboard Apparatus in Broadview, Illinois. The switchgear manufacturing of Marino Electric has been integrated into the Broadview switchgear operation. The key components for our switchgear product line are sourced from multiple manufacturers with the goal of achieving competitive pricing and reliability of supply.

Our key suppliers of components used in our products include Cutler-Hammer, Cambridge-Lee Industries, General Electric and Central Steel & Wire.

Intellectual Property

Certain technologies underlying the EnergySaver products have been patented in the U.S. and Italy by Giorgio Reverberi. A U.S. patent application was filed by Mr. Reverberi in November 1997, and a patent was issued in June 2000.

Since January 1, 1998, we, along with Mr. Reverberi and Mr. Marino, have entered into a number of agreements relating to the license of the EnergySaver technology, which grant us the exclusive license rights of Mr. Reverberi's patent of the EnergySaver technology in all of North America, Central America, South American and the Caribbean, as well as Africa (excluding the countries of Algeria, Libya, Morocco and Tunisia). Our license expires upon the expiration of Mr. Reverberi's last expiring patent, which we expect to be on or around November 2017. If either party materially breaches the license and fails to cure the breach within 180 days after notice by the other party of the breach, the other party can terminate the license. We pay Mr. Reverberi a royalty of \$200 and Mr. Marino a royalty of \$100 for each EnergySaver product we make or sell in territories in which Mr. Reverberi holds a valid patent.

45

We have applied for registration of the name EnergySaver pursuant to a U.S. trademark application filed September 15, 2000. In addition, we filed with the U.S. Patent and Trademark Office an intent-to-use trademark application for each of GlobalCommander, Virtual Negawatt Power Plant and VNPP on November 13, 2000.

During March 2001, we established a new policy that requires all non-union employees to sign an Employee Innovations and Proprietary Rights Assignment Agreement. This agreement is intended to ensure that any intellectual property or know-how developed as part of an employee's work for the Company is and remains the property of the Company. All current non-union employees have signed such an agreement.

On April 12, 2001, Denis Enberg assigned his rights to any technology developed by him for, or on behalf of the Company or Switchboard Apparatus to the Company. Mr. Enberg had been working for the Company on the GlobalCommander Technology. Mr. Enberg was also a shareholder and director of Great Lakes, which we acquired on June 7, 2001.

Competition

There are a number of products on the market that directly or indirectly compete with the EnergySaver products. These competing products can be categorized into three general types:

those that convert AC to DC at a central location,

those that pulsate the power to the lighting system; and

other control products similar to the EnergySaver system.

Products that fall into the first category convert AC to DC at a central location and do so more efficiently than it is done by the standard electronic ballast in each light fixture. The main drawback to this technology is that the transmission of DC power over any distance is generally less efficient and more dangerous than transmitting AC power. This technology also requires the rewiring of every light fixture on the circuit.

Products that pulsate the power in the lighting system turn the power off and on so quickly (120 times/second) that the lights remain on. This process, which is generally known as "wave chopping," distorts the AC waveform and thereby produces harmonics in a building's electrical system that can damage other electrical components such as electric motors and electronic devices. The process also contributes to the reduction of life of lamps and ballasts in lighting fixtures.

Control products similar to the EnergySaver system are those that control power consumption at the lights and those that control power consumption at the lighting circuit. Typically these units must be wired to each fixture or each circuit to be controlled. While the EnergySaver can be characterized as a lighting controller, it is more appropriately described as a "variable lighting control power reduction system," and it is connected to a central distribution panel rather than to each lighting fixture. Therefore the EnergySaver is much simpler and less expensive to install, generally requires less maintenance and is less expensive to purchase than other lighting control products.

Our primary competitors in the switching and monitoring systems market are national suppliers of electrical switchboards, such as Seimens and Cutler-Hammer. The principal competitive factors in this industry are price and project completion time. We believe that we can generally complete custom projects more quickly than our national competitors because we handle each project individually, as compared to our competitors, who generally do not customize projects.

Employees

As of October 31, 2001, we had 86 full time employees, of which 17 were management and corporate staff, 7 were engineers, 13 were engaged in sales and marketing, 4 were engaged in field service and 45 were engaged in manufacturing. Of those employees engaged in manufacturing, 48 are covered by collective bargaining agreements between each of Electric City and Switchboard Apparatus and the International Brotherhood of Electrical Workers, which is affiliated with the American Federation of Labor and Congress of Industrial Organizations (AFL-CIO). Both collective bargaining agreements expire on May 31, 2002.

Research and Development

The Company, through the day-to-day use of EnergySaver and its components, and their use at various testing sites around the country, develops modifications and improvements to its products. Total research and development costs charged to operations were \$248,000, \$88,000 and \$1,923,000 for the twelve-month period ended December 31, 2000, the eight month period ended December 31, 1999 and the twelve months ended April 30, 1999, respectively. Research and development expense for the first nine months of 2001 and 2000 was \$155,634 and \$179,759, respectively.

Compliance With Environmental Laws

Neither the Company's production nor sales of its products in any material way generate activities or materials that that would require compliance with federal, state or local environmental laws.

Additional Information

Additional information regarding the Company and the shares offered hereby is contained in the Registration Statement on Form SB-2 and the exhibits thereto filed with the Commission under the Securities Act of 1933, as amended. For further information pertaining to the Company and the shares, reference is made to the Registration Statement and the exhibits thereto, which may be inspected without charge at, and copies thereof may be obtained at the prescribed rates from, the office of the Commission at 450 Fifth Street, N.W., Washington, D.C. 20549.

The Company is subject to the requirements of the Securities Exchange Act of 1934 and is required to file reports, proxy statements and other information with the Securities and Exchange Commission. Copies of any such reports, proxy statements and other information filed by the Company can be read and copied at the Commission's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the Commission at 1-800-SEC-0330. The Commission maintains an Internet site that contains reports, proxy and information statements and other information regarding the Company. The address of that site is <http://www.sec.gov>.

The Company has filed with the Securities and Exchange Commission a Registration Statement under the Securities Act of 1933, as amended, with respect to the securities offered by this prospectus. This prospectus does not contain all of the information set forth in the Registration Statement. For further information with respect to the Company and such securities, reference is made to the Registration Statement and to the exhibits filed with the Registration Statement. Statements contained in this prospectus as to the contents of any contract or other documents are summaries that are not necessarily complete, and in each instance reference is made to the copy of such contract or other document filed as an

exhibit to the Registration Statement, each such statement being qualified in all respects by such reference. The Registration Statement and related exhibits may also be examined at the Commission's Internet site.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF PLAN OF OPERATION

You should read the following discussion regarding the Company along with the Company's financial statements and related notes included in this prospectus. This prospectus, including the following discussion, contains forward-looking statements that are subject to risks, uncertainties and assumptions. The Company's actual results, performance and achievements in 2001 and beyond may differ materially from those expressed in, or implied by these forward-looking statements. See "Cautionary Note Regarding Forward-Looking Statements".

Results of Operations

We are a developer, manufacturer and integrator of energy saving technologies, custom electric switchgear and an integrator of building and environmental control systems. Our premier energy saving product is the EnergySaver system, which reduces energy consumed by lighting, typically by 20% to 30%, with minimal lighting level reduction. This technology has applications in commercial buildings, factories and office structures, as well as street lighting and parking lot lighting. In addition to our EnergySaver system, we manufacture, through our subsidiary, Switchboard Apparatus, Inc., custom electric switchgear, including our TP3 line of pre-packaged electrical distribution panels designed for use in telecommunications and Internet network centers, and through our subsidiary, Great Lakes Controlled Energy, we design, install and monitor building control and environmental systems.

On August 31, 2000, we acquired Switchboard Apparatus, Inc. ("Switchboard"), a manufacturer of electrical switchgear and distribution panels located in Broadview, Illinois and on June 7, 2001, we acquired Great Lakes Controlled Energy Corporation ("Great Lakes"), an integrator of building and environmental control systems. As a result of these acquisitions, Switchboard and Great Lakes became, and are currently operated as, wholly owned subsidiaries of the Company. The acquisitions were recorded using the purchase method of accounting. Accordingly, none of Switchboard's or Great Lakes' results of operations are included in Electric City's results for the period ended June 30, 2000.

In January 2000, our Board elected to change our year-end from April 30th to December 31st. Therefore, the audited financial statements for 1999 only include the eight-month period from May 1, 1999 to December 31, 1999. As a result, we have provided analysis and discussions comparing the following periods:

the audited twelve-month period ended December 31, 2000 compared with the unaudited twelve-month period ended December 31, 1999;

the audited eight-month period ended December 31, 1999 compared with the unaudited eight-month period ended December 31, 1998;

the unaudited three-month period ended September 30, 2001 compared to unaudited three months ended September 30, 2000; and

the unaudited nine-month period ended September 30, 2001 compared to unaudited six-month period ended September 30, 2000.

For comparison purposes we are providing the following summaries of the unaudited operating results for the twelve-month period ended December 31, 1999 and the eight-month period ended December 31, 1998:

Twelve-month period ending December 31, 1999

(Unaudited)

Revenues	\$ 2,881,000
Gross profit	124,000
Net loss	(5,800,000)
Basic and diluted loss per share	(0.23)

Eight-month period ending December 31, 1998

(Unaudited)

Revenues	\$ 50,000
Gross profit	(39,000)
Net loss	(1,880,000)
Basic and diluted loss per share	(0.09)

Our revenues reflect the sale of our products, net of allowances for returns and other adjustments. Revenues of Electric City's and its subsidiaries are generated from the sale of products primarily in the U.S.

Our cost of goods sold consists primarily of materials and labor. Also included in our cost of goods sold are freight, costs of operating our manufacturing facilities, charges for potential future warranty claims, and royalty costs related to EnergySaver sales. Cost of goods sold also includes the wages and expenses of our engineering group.

Sales and gross profits depend, in part, on the volume and mix of products sold during any given period. Generally, products that we manufacture have a higher gross profit margin than products that we purchase and resell. In addition, manufactured products that are proprietary, such as the EnergySaver, generally have higher gross margins than non-proprietary products such as switchgear or distribution panels.

Selling, general and administrative ("SG&A") expenses include costs related to our sales force, which is comprised of both our employees and independent sales representatives. Included in our SG&A expenses are direct labor costs for our sales representatives and commissions paid to our employees, independent sales representatives and distributors. Also included in our SG&A expenses are expenses of non-manufacturing management, supervisory and staff salaries and employee benefits, the cost of insurance, travel and entertainment, office supplies costs and the cost of non-manufacturing utilities. Costs associated with marketing and advertising our products are also included in our SG&A expense, along with research and development expenses and costs relating to administrative functions that serve to support the existing businesses of the Company, as well as to provide the infrastructure for future growth.

Interest expense includes the costs and expenses associated with working capital indebtedness, the mortgage on our headquarters building, an equipment loan, a note to the sellers of Marino Electric, a note to a seller of Switchboard Apparatus, notes to the sellers of Great Lakes, and a note to the sellers of certain distributor territories that we repurchased in June 2000, all as reflected on our current and prior financial statements. Also included in interest expense is amortization of the debt discount based on the fair value of the warrant issued to Newcourt as part of the issuance of the Senior Subordinated Convertible Promissory Notes.

Revenue. Our revenue increased approximately \$4.3 million, or 150%, to \$7.2 million for the year ended December 31, 2000 compared to \$2.9 million for the twelve-month period ended December 31,

1999. Approximately \$2.5 million of the revenue increase was due to the acquisition of Switchboard Apparatus and the inclusion of its results for the last four months of 2000. EnergySaver sales increased approximately \$685,000, or 75%, during the twelve-month period ended December 31, 2000 compared to the twelve-month period ended December 31, 1999. Sales of switchgear and distribution panels increased \$1.1 million, or 58%, to \$3.0 million during the twelve-month period ended December 31, 2000 compared to the twelve-month period ended December 31, 1999. A large portion of the increase in the sales of switchgear and distribution panels during 2000 is due to the inclusion of twelve-months of results of Marino Electric, which was acquired in May 1999.

Our revenue for the eight-month period ended December 31, 1999 was \$2.7 million versus \$50,000 for the equivalent period ending December 31, 1998. Prior to the acquisition of Marino Electric on May 24, 1999 the Company was considered a development stage company whose primary activities involved research and development, testing, and the initial marketing of the EnergySaver. Sales during this development period were limited to a small number of EnergySaver units for evaluation purposes. For the entire eight-month period ending in 1999, revenues from the EnergySaver accounted for approximately 30% of our total revenue with the balance being derived from the sale of switchgear and distribution panels.

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

Our total revenue for the three-month period ended September 30, 2001 decreased approximately \$113,000 or 6.8% to \$1,548,483 as compared to \$1,661,545 for the quarter ended September 30, 2000. Revenue related to EnergySaver sales decreased approximately \$18,000 when compared to the same period in 2000. Revenue from the sale of building automation products and services increased approximately \$105,000 in the third quarter of 2001 when compared to the same period in 2000 due to the acquisition of Great Lakes Controlled Energy in June of 2001. Revenues derived from the sale of switchgear and distribution panels declined approximately \$200,000 or 16% during the third quarter as compared to the same period in 2000. The decline in switchgear and distribution panel revenue was primarily the result of a slowdown in both general construction activity and construction activity in the telecom industry.

Our total revenue for the nine-month period ended September 30, 2001 increased \$3,675,733 or 96% to \$7,488,807 as compared to \$3,813,074 for the nine-month period ended September 30, 2000. Most of the increase was in the sale of switchgear that benefited from the inclusion of nine months of results from Switchboard Apparatus, which we acquired on August 31, 2000.

Cost of Sales. Our cost of sales for the twelve-month period ended December 31, 2000 increased approximately \$3,904,000 or 142% to \$6,660,545 as compared to \$2,757,000 for the twelve-month period ended December 31, 1999. The increase in our cost of sales is directly related to the increased sales activity resulting from the acquisition of Marino Electric and Switchboard Apparatus, as well as increase sales of EnergySaver units during the year. Our gross profit increased approximately \$443,000, or 360%, to \$567,000 compared to \$124,000 during the twelve-month period ended December 31, 1999. The increase in our gross profit was primarily attributable to the increase in sales volume and the addition of Switchboard Apparatus in August 2000.

Our cost of sales for the eight-month period ending December 31, 1999 totaled \$2,568,070 as compared to \$89,000 for the eight-month period ended December 31, 1998. The increase in the cost of sales was due to the increase in sales activity resulting from the acquisition of Marino Electric and increased sales of EnergySaver units. The cost of sales during 1998 included many one-time expenses associated with setting up our operations at our facility in Elk Grove Village. Our gross profit for the eight-month period ending December 31, 1999 increased \$201,114 to \$162,114 from a loss of \$39,000 for the eight-month period ended December 31, 1998. The improvement in gross profit was the result of increased sales volume attributable to the acquisition of Marino Electric and increased EnergySaver unit sales.

50

Cost of sales for the three-month period ended September 30, 2001 totaled \$1,821,533, as compared to \$1,443,627 for the three-month period ended September 30, 2000. Gross profit for the third quarter of 2001 declined approximately \$490,000 to a loss of \$273,000 from income of \$218,000 in the third quarter of 2000. The loss reported in the third quarter of 2001 was primarily due to our failure to shed costs in response to the decline in switchgear and distribution sales during the period. We implemented an employee layoff in late September 2001, which we believe will contribute to improved earnings in future periods.

Cost of sales for the nine-month period ended September 30, 2001 totaled \$7,227,026 as compared to \$3,374,982 for the nine-month period ended September 30, 2000. Gross profit for the nine-month period ended September 30, 2001 decreased \$176,311 or 40% to \$261,781 as compared to \$438,092 for the same period in the prior year. The margins earned on the sale of switchgear and distribution panels turned negative during the third quarter of 2001 due to reduced utilization of our manufacturing facilities and our failure to quickly reduce costs to match the decline in switchgear and distribution panel sales.

SG&A Expenses. SG&A expense increased approximately \$2.3 million to \$9.1 million for the year ended December 31, 2000 from approximately \$6.8 million during the twelve-month period ended December 31, 1999. During 2000, we hired a new management team and added to our sales staff. As a result, our labor expense increased significantly. The inclusion of Switchboard Apparatus's results beginning in August also contributed to the increase in SG&A expense during 2000.

SG&A expense for the eight-month period ending December 31, 1999 were \$3.5 million versus \$625,000 for the same period ending December 31, 1998. Approximately one third of the SG&A expense incurred during 1998 was for consulting and professional fees associated with the acquisition of Pice Products, organizing the Company, and refining the EnergySaver .

SG&A for the three-month period ended September 30, 2001 increased approximately \$656,190, or 32% to \$2,697,493, as compared to \$2,041,303 for the three-month period ended September 30, 2000. The inclusion of Switchboard and Great Lakes' results is responsible for approximately \$435,000 of this increase. Approximately \$108,000 of the increase was related to increased payroll in sales and operations and approximately \$58,000 was for franchise taxes related to the increase in additional paid-in capital.

SG&A for the nine-month period ended September 30, 2001 increased approximately \$2,107,261, or 38% to \$7,717,177 as compared to \$5,609,916 for the nine-month period ended September 30, 2000. The inclusion of the results of Switchboard and Great Lakes is responsible for approximately \$1,258,000 of this increase. Approximately \$875,000 of the total increase in SG&A was related to increased investor relations activities, the majority of which was paid through the issuance of our common stock or warrants to purchase our common stock. Payroll related

expenses contributed approximately \$350,000 to the increase in SG&A. Most of the increase in payroll was related to the addition of sales and operations staff during late 2000 and early 2001. Research and development expenses also increased \$67,000 and we incurred approximately \$58,000 in expense related to Illinois franchise taxes paid during the period. These increases in SG&A expense were partially offset by reductions totaling \$504,000 for outside legal, engineering and recruiting services.

Repurchase of Distributor Territories & Legal Settlement. Our 2000 operating results include charges related to the repurchase of eleven distribution territories from three distributors and the settlement of a suit brought by a former consultant. We repurchased the eleven sales territories, including the exclusive rights to sell the EnergySaver in Ohio, Michigan, Northern California, Florida, Georgia, North Carolina, South Carolina, Virginia, Arizona, Colorado and Nebraska, for \$1,280,000 plus options to purchase 65,000 shares at \$7.00 each. For accounting purposes, the options were valued at \$199,550 using a modified Black-Sholes option pricing model. All but \$100,000 of the cash portion of the repurchase price was deferred until the Company completed an equity funding. The deferred payment

accrued interest at the rate of 12% per year until it was paid on September 7, 2001 following the closing of the Series A Convertible Preferred Stock transaction. The Company recorded a total expense of \$1,354,794 in June 2000 related to the repurchase of the distributor territories. During the twelve-months ended December 31, 2001 we also settled a suit alleging breach of contract brought by John Prinz, a former consultant, for \$15,000 in cash, 60,000 shares of Electric City common stock and options to purchase 40,000 shares at \$7.00 per share. The total charge recognized in June 2000 as a result of this settlement was \$325,600.

Other Income (Expense). Other income (expense) is comprised of interest expense and interest income. Interest expense increased \$76,000 or 37% to \$279,000 during the twelve-month period ended December 31, 2000 as compared to \$203,000 for the twelve-month period ended December 31, 1999. During 2000, we recorded \$107,000 in interest expense on the Marino term note, \$73,000 on the deferred portion of the repurchase price of the distributors' territories, \$64,000 on our mortgage, \$21,000 on our working capital line and \$14,000 on our equipment loan. The 1999 interest expense included \$97,000 in interest expense on the amounts owed to the sellers of Marino Electric, \$67,000 on our mortgage, \$30,000 on the loans from stockholders and \$9,000 on our working capital line. Interest income earned during the twelve-month period ended December 31, 2000 increased \$94,000 or 68% to \$232,000 from \$138,000 earned during the same period in 1999. During 2000 we earned \$120,000 on a loan of \$600,000 to one our stockholders and \$112,000 on our excess cash balances. During 1999 we earned \$138,000 on our excess cash balances.

Other income (expense) for the eight-month period ending December 31, 1999 was \$36,000 as compared to \$1.2 million for the eight-month period ending December 31, 1998. Other expense for the eight-month period ending December 31, 1999 is comprised of \$167,000 of interest expense, partially offset by \$131,000 of interest income earned on excess cash balances. The interest expense was related to amounts owed to the sellers of Marino Electric, the mortgage on the Company's building in Elk Grove Village, Illinois, the line of credit with LaSalle Bank NA, and amounts borrowed from shareholders. Other non-operating expense for the period ending December 31, 1998 included a \$1.2 million charge related to the purchase of Pice Products Corporation and interest expense of \$21,000. The interest expense was all due to the mortgage on the Company's building in Elk Grove Village, Illinois.

Other income (expense) for the three-month period ending September 30, 2001 increased \$1,545,145 to \$1,629,483 from \$84,338 for the three-month period ended September 30, 2000. Most of the increase was related to charges associated with the three Senior Subordinated Convertible Promissory Notes issued to Newcourt Capital USA in April, June and July 2001. Included with these notes were detachable warrants issued to Newcourt Capital Securities, an affiliate of Newcourt Capital USA, to purchase 3,314,830 shares of our common stock. These warrants were value at \$2,917,000 using a modified Black-Sholes option pricing model. We are required to recognize the value of these warrants as a discount on the related debt. The discount is amortized and appears as interest expense over the term of the debt. We also incurred \$186,653 in professional fees related to the notes and ancillary documents, which were deferred and amortized over the term of the note. As a result, interest expense for the third quarter of 2001 includes \$1,492,671 related to the amortization of the value of the warrants given to Newcourt and \$45,832 of expense related the amortization of deferred issuance costs. Of the remaining increase in interest expense, approximately \$18,000 was related to increased borrowings on our line of credit, approximately \$49,000 was related to the Senior Subordinated Convertible Promissory Notes, and approximately \$13,000 was related to various notes issued by our subsidiaries.

Other income (expense) for the nine-month period ending September 30, 2001 totaled \$3,450,940 of expense as compared to \$37,117 of income for the nine-month period ended September 30, 2000. Most of the increase in other expense was related to charges associated with the three Senior Subordinated Convertible Promissory Notes issued to Newcourt Capital USA during April, June and

July 2001. Included with these notes were warrants issued to Newcourt Capital Securities to purchase 3,314,830 shares of our common stock. These warrants were valued at \$2,917,000 using a modified Black-Sholes option pricing model. We are required to recognize the value of these warrants as a discount on the related debt and to amortized the discount as interest expense over the life of the debt. We also incurred \$186,653 in professional fees related to the notes and ancillary documents, which we deferred and amortized over the term of the notes. The discount and deferred expenses were completely amortized and reported as interest expense during the period from April 18, 2001 to September 7, 2001. Of the remaining increase in interest expense, approximately \$72,000 was associated with the note payable to distributors for the repurchase of certain distributor territories, approximately \$65,000 was related to increased borrowings on our line of credit, approximately \$76,000 was related to the Senior Subordinated Convertible Promissory Notes, and approximately \$53,000 was related to various notes issued by our subsidiaries. A decline in interest income of \$172,057, the result of lower excess cash balances, also contributed to the increase in other expense.

Dividends. On October 17, 2000, we completed the sale of 2,000 shares of Series B Preferred Stock and warrants to purchase 200,000 shares of our common stock at an exercise price of \$4.425 per share, subject to certain adjustments, to Augustine Fund, L.P. ("Augustine") for an aggregate purchase price of \$2,000,000. The warrants issued to Augustine have been valued at \$624,000 using a modified Black-Sholes option pricing model and recorded as a non-cash dividend. The Series B Preferred Stock accrues dividends at the rate of 8% per annum, payable in cash or common stock, at the Company's option. As of December 31, 2000 we had accrued dividends payable of \$32,877. The Series B Preferred Stock is convertible at any time into shares of the Company's common stock at a conversion price which equals the lesser of \$4.06, or 75% of the average of the three lowest closing prices for our common stock for the thirty consecutive trading days immediately preceding the date of conversion (the "Beneficial Conversion Feature"). Emerging Issues Task Force Issue No. 00-27, Application of EITF Issue No. 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios," requires us to recognize the intrinsic value of the Beneficial Conversion Feature as a non-cash dividend, which totals \$1,376,000. The total dividend reported during the twelve-month period ended December 31, 2000 is comprised of the following:

Series B Preferred Dividend, payable in cash or common stock	\$ 32,877
Value of warrants issued to Augustine Fund	624,000
Intrinsic value of Beneficial Conversion Feature	1,376,000
	<hr/>
Total	\$ 2,032,877

There were no dividends accrued or paid during the twelve-month period ended December 31, 1999.

Effective June 15, 2001, Augustine elected to convert their 2,000 shares of Series B Convertible Preferred Stock outstanding into 1,472,244 shares of the Company's common stock. The conversion price was \$1.36, calculated as 71% (75% minus 2 percentage points for each thirty days that such registration statement was not declared effective, beginning on April 17, 2001 and ending on June 15, 2001) of the average of the three lowest selling prices per share of the Company's common stock over the 30 consecutive trading days preceding June 15, 2001. In addition, the Company elected to pay the accrued dividends on the Series B Convertible Preferred Stock in 56,764 shares of its common stock, which dividends were calculated based upon a conversion price of \$1.36 per share. The issuance of common stock at a conversion price below market in satisfaction of the Series B Preferred Stock dividend resulted in a non-cash deemed dividend of \$92,024.

On September 7, 2001 we incurred a \$16 million deemed dividend as the result of a private placement of a package of securities which included shares of Series A Convertible Preferred Stock, shares of our common stock, warrants to purchase additional shares of Series A Convertible Preferred

Stock and warrants to purchase additional shares of common stock. The deemed dividend was determined by allocating the proceeds from the transaction to the Series A Convertible Preferred Stock, the common stock and warrants issued as part of the transaction based on their relative fair values. The Series A Convertible Preferred Stock contained a beneficial conversion feature as a result of its initial conversion price which was lower than the market value of the Company's common stock on the date of issue. The value of this beneficial conversion feature was determined to be the difference between the market value of the common stock on the date of issuance and the value allocated to the Series A Convertible Preferred Stock. The value of the beneficial conversion feature is deemed to be equivalent to a non-cash preferred stock dividend and was limited to the gross proceeds received as part of the transaction. The Company recorded the deemed dividend on the date of issuance by offsetting charges and credits to additional paid-in capital in the amount of \$16,000,000, without any effect on total stockholders equity. The deemed dividend increases the loss applicable to common shareholders in the calculation of the basic and diluted net loss per common share for the three month and nine month periods ended September 30, 2001.

The Company accrued dividends of \$237,333 on the Series A Convertible Preferred Stock during the third quarter of 2001. On October 17, 2001, the Company's board of directors approved payment of the dividend through the issuance of additional shares of Series A Convertible Preferred Stock. The shares of Series A Convertible Preferred Stock received by the holders are currently convertible at the equivalent of \$1.00 per share of common stock, which was a discount of \$0.74 per share to the market value of the Company's common stock as of September 30, 2001 of \$1.74 per share. The aggregate difference between the conversion price and the current market value of \$175,626 was deemed to be

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

equivalent to a non-cash preferred dividend.

The total dividends reported during the three-month and nine-month periods ended September 30, 2001 were comprised of the following:

	Three months ended September 30, 2001	Nine months ended September 30, 2001
Series A Convertible Preferred dividend, payable in cash or Series A Preferred Stock	\$ 237,333	\$ 237,333
Deemed dividend associated with beneficial conversion feature of Series A Convertible Preferred Stock	16,000,000	16,000,000
Deemed dividend associated with beneficial conversion price on shares issuable in satisfaction of Series A Convertible Preferred dividend	175,626	175,626
Series B Preferred dividend, paid through issuance of Series B Preferred Stock		165,230
Deemed dividend associated with beneficial conversion price on shares issued in satisfaction of Series B Preferred dividend		92,024
Total	\$ 16,412,959	\$ 16,670,213

54

Liquidity and Capital Resources

As of September 30, 2001, we had cash and cash equivalents of \$5,569,298, as compared to \$629,436 on December 31, 2000. Our debt obligations as of September 30, 2001 consisted of a mortgage of approximately \$747,000 on our facility in Elk Grove Village Illinois, an equipment loan of \$450,000, vehicle loans of approximately \$34,000, and a note due the seller of Marino Electric of approximately \$346,000.

The Company's principal cash requirements are for operating expenses, including employee costs, the costs related to research and development, advertising costs, the cost of outside services including those providing accounting, legal, engineering and consulting services, and the funding of inventory and accounts receivable, and capital expenditures. The Company has financed its operations since inception through the private placement of common stock, preferred stock and various secured and unsecured loans.

Net cash declined \$5,536,761 during the twelve months ending December 31, 2000 versus increasing \$5,682,035 during the eight-month period ended December 31, 1999 and increasing \$456,247 during the twelve-month period ending April 30, 1999. Operating activities consumed \$7,110,038, \$2,010,743 and \$1,501,851 during the twelve month period ended December 31, 2000, the eight-month period ended December 31, 1999 and the twelve-month period ended April 30, 1999, respectively. Cash used to fund the net loss was the largest operating use of cash in each of the three periods covered. Increases in our working capital accounts in each of the three periods reflect the increase in our business activities experienced in each of the periods.

Net cash increased \$4,939,862 during the first nine months of 2001 as compared to declining \$5,893,523 during the same period in 2000. Operating activities consumed \$6,947,385 and \$5,562,893 during the first nine months of 2001 and 2000, respectively. Cash used to fund the net loss was the primary operating use of cash in each of the periods covered. Proceeds from the issuance of our Series A Convertible Preferred Stock were also used during the most recent period to pay past due accounts payable and accrued expenses, including salaries and business related expenses of senior management that were voluntarily deferred.

Investing activities produced \$457,514 during the twelve-month period ended December 31, 2000, versus consuming \$700,005 during the eight-month period ended December 31, 1999 and \$941,432 during the twelve-month period ended April 30, 1999. The year ended December 31, 2000 benefited from a \$600,000 repayment of a loan to a founding stockholder and \$67,637 acquired in the Switchboard acquisition. These sources were partially offset by purchases of property and equipment totaling \$210,123. During the eight-month period ended December 31, 1999 we loaned to one of our founding stockholders \$600,000 and purchased \$100,005 in property and equipment. During the twelve-month period ended April 30, 1999, we purchased our facility in Elk Grove Village, Illinois.

Investing activities used \$67,393 during the nine-month period ending September 30, 2001, as compared to providing \$485,812 during the nine-month period ending September 30, 2000. During the first nine months of 2001 we invested \$114,992 in capital assets and sold unused capital assets that generated \$47,599 in net proceeds. During the first nine months of 2000 we invested \$181,772, but this investment was more than offset by a repayment of a loan to a stockholder that generated \$600,000 of cash during the period. The period also benefited from \$67,585 in cash obtained as part of the acquisition of Switchboard Apparatus.

Edgar Filing: ELECTRIC CITY CORP - Form 424B1

Financing activities generated \$1,115,763 during the twelve months ended December 31, 2000, compared to generating \$8,392,783 during the eight-month period ended December 31, 1999 and \$2,899,530 during the year ended April 30, 1999. During 2000, we generated net proceeds of \$1,830,000 by selling 2,000 shares of our Series B Convertible Preferred Stock in a private placement, \$44,900 from the sale of 20,000 shares of our common stock in a private placement and \$500,000 through

55

borrowings under our working capital line. These sources were partially offset by payments made on the note to the sellers of Marino Electric totaling \$1,083,286, as well as \$57,351 paid to reduce the balances on our mortgage, equipment loan and auto loans. We also refunded \$110,000 to two investors in the Company's private placement prior to issuing their stock certificates and repurchased 1,000 shares of our common stock for \$8,500. During the eight-month period ended December 31, 1999, we generated net proceeds of \$9,259,982 through the private placement of our common stock (\$110,000 of which was subsequently refunded to two investors in 2000), and \$31,152 from borrowings under two auto loans. These sources of cash were partially offset by \$384,250 in commissions paid for the private placement, \$500,000 used to repay loans from stockholders and \$14,101 used to repay other long-term obligations. During the twelve-month period ended April 30, 1999 we borrowed \$800,000 to finance the purchase of our building located in Elk Grove Village Illinois and raised \$1,365,179 from the issuance of 1,351,978 shares of our common stock. During this period we also borrowed \$746,000 from stockholders, \$246,000 of which was converted to common stock. These sources of cash were partially offset by an \$11,649 reduction in the mortgage.

Financing activities generated \$11,954,639 during the nine-month period ending September 30, 2001, versus consuming \$816,442 during the same period in 2000. During the 2001 period we completed an issuance of our Series A Convertible Preferred Stock, which generated net proceeds of \$11,478,489, and issued three Senior Subordinated Convertible Promissory Notes which generated net proceeds of \$3,013,347. The three Senior Subordinated Convertible Promissory Notes were converted into 320,000 shares of our Series A Convertible Preferred Stock on September 7, 2001. From the proceeds of these two issuances we used \$852,200 to pay down our line of credit with American National Bank, and \$1,356,660 to retire the notes payable to former distributors for the repurchase of their distribution territories. During the period we also made scheduled payments of \$430,123 on various notes payable, including \$362,548 payable to the sellers of Marino Electric. In March 2001 we refinanced and increased an equipment loan, generating approximately \$50,000. During the period we also borrowed \$51,415 to finance the cost of three new vehicles. During the first nine months of 2000 we paid \$968,360 of the amounts due to the sellers of Marino Electric, made scheduled principal payment on our mortgage and auto loans of \$24,482, refunded \$110,000 to two investors in the private placement before issuance of their stock and repurchased 1,000 shares of our common stock at a cost of \$8,500. These uses of cash were partially offset by borrowings of \$250,000 on our line of credit and \$44,900 received as part of the private placement that closed in January 2000.

During June 2000, we secured a \$2 million working capital loan from LaSalle Bank N.A. The loan was a revolving note facility with an initial term of one year and bore interest at a rate equal to the prime rate or LIBOR, plus 2.75%. Availability under the line was tied to and secured by our inventory and receivable balances. As of December 31, 2000, there was \$500,000 outstanding on the loan.

As part of the acquisition of Switchboard Apparatus, along with other liabilities, we assumed a revolving line of credit and an equipment loan from Oxford Bank & Trust. The revolving credit line bore interest at the rate of $\frac{1}{2}\%$ over the bank's base rate and provided for maximum borrowings of \$400,000. Availability under the line was tied to inventory and receivable balances. As of December 31, 2000, there was \$352,200 outstanding on the line of credit. The equipment loan had an original principal balance of \$521,500, a fixed interest rate of 8.4% and was scheduled to mature on September 3, 2004. As of December 31, 2000, the outstanding principal balance on the equipment loan was \$449,628. Switchboard Apparatus had pledged all of its assets as security for these loans.

In March 2001, we replaced the LaSalle Bank N.A. and Oxford Bank & Trust credit facilities with a credit facility from American National Bank and Trust Company of Chicago. The new facility includes a \$2 million revolving credit line and a \$500,000 term note. The revolving credit line has an initial term of one year and bears interest at a rate equal to American National Bank's corporate base rate, which was 6% on September 30, 2001. Availability under the line is tied to our inventory and receivable balances. The term note has a term of three years and bears interest at the bank's corporate base rate.

56

These credit facilities are secured by all of the Company's assets, other than real estate and require the Company to meet certain financial covenants including a total debt service coverage ratio and a minimum net worth requirement. There were no borrowings on the line of credit as of September 30, 2001. The Company's ability to utilize the line of credit in the future will in part depend on its ability to meet credit facility's financial covenants.

In October 2000, we received gross proceeds of \$2,000,000 from the sale of 2,000 shares of our Series B Convertible Preferred Stock ("Preferred Stock") and the issuance of warrants to purchase 200,000 shares of our common stock at an exercise price of \$4.425 per share,

subject to certain adjustments, to Augustine Fund, L.P. The Preferred Stock carried a dividend rate of 8% per annum, payable in cash or common stock, at our option. The Preferred Stock was convertible at any time into shares of our common stock at a conversion price equal to the lower of \$4.06 per share or 75% of the average of the three lowest closing bid prices of our stock during a 30-day period prior to conversion. We were required to file a registration statement and have it declared effective within 180 days of the date of issuance of the Series B Preferred. If the registration statement was not declared effective within 180 days of the date of issuance, the Conversion Percentage decreased by 2% per month until the registration statement is declared effective or the holder converted the Series B Preferred to common stock. Effective June 15, 2001, Augustine elected to convert their 2,000 shares of Series B Convertible Preferred Stock outstanding into 1,472,244 shares of the Company's common stock. The conversion price was \$1.36, calculated as 71% (75% minus 2 percentage points for each thirty days that such registration statement was not declared effective, beginning on April 17, 2001 and ending on June 15, 2001) of the average of the three lowest selling prices per share of our common stock over the 30 consecutive trading days preceding June 15. In addition, we elected to pay the accrued dividends on the Series B Convertible Preferred Stock in 56,764 shares of our common stock, which dividends were calculated based upon a conversion price of \$1.36 per share. The issuance of common stock at a conversion price below market in satisfaction of the Series B Preferred Stock dividend resulted in a non-cash deemed dividend of \$92,024.

We issued three Senior Subordinated Convertible Promissory Notes to Newcourt Capital USA in April, June and July 2001 which totaled \$3.2 million. The notes issued in April and June were to initially mature on July 16, 2001, but were subsequently extended to September 16, 2001. The three notes bore interest at the rate of prime plus 3%. Along with the note issued in April, Newcourt Capital USA received warrants to purchase 1,700,000 shares of our common stock. The warrants had an exercise price of \$2.50, a term of 2 years and were valued at \$1,717,000 using a modified Black-Sholes option pricing model. The fair value of these warrants was recorded as a discount on the related debt and was amortized over the life of the debt using the interest method. With the issuance of the third note in July, the warrant issued to Newcourt Capital USA was surrendered and replaced with a warrant issued to Newcourt Capital Securities to purchase 3,314,830 shares of our common stock at \$1.00 per share over a seven-year period. This warrant was valued at \$1,200,000 using a modified Black-Sholes option pricing model, and was amortized over the life of the note using the interest method.

Our independent certified public accountants modified their opinion on our December 31, 2000 consolidated financial statement to contain a paragraph wherein they expressed a substantial doubt about our ability to continue as a going concern primarily as a result of our continuing losses and lack of liquidity. Our liquidity at the current time is greatly improved as a result of the issuance of the Series A Convertible Preferred Stock and the conversion of the three Senior Subordinated Convertible Promissory Notes. However, our management and board of directors believe that it would be prudent to add to our current liquidity by raising an additional \$2 million to \$4 million through the private placement of our preferred stock. This added liquidity may be required if our sales and profitability do not meet managements' expectations during the next 9 to 15 months. We are currently in serious discussions with several potential investors regarding such an issuance and hope to complete our fund

raising efforts before the end of the current year. In the meantime we have taken steps to reduce our expenses in an effort to preserve our cash balances.

If, by the middle of next year our sales and profitability do not to improve and we are unable to raise additional capital, we will have to scale back our growth plans, reduce staff and delay planned expenditures on research and development and capital expenditures in order to continue as a going concern, though such a reorganization will not necessarily guarantee our ability to continue as a going concern.

DESCRIPTION OF PROPERTY

Our headquarters and the EnergySaver system production facility are located at 1280 Landmeier Road in Elk Grove Village, Illinois. This facility is approximately 13,000 square feet and houses the corporate headquarters, manufacturing operations and warehouse. We acquired this facility in August 1998 for a purchase price of \$1,140,000, \$800,000 of which we financed through a mortgage and \$340,000 of which we paid by issuing to the sellers 340,000 shares of our common stock. The mortgage bears interest at the rate of 8.25% per annum and is payable in monthly installments of principal and interest of \$6,876 until August 2003, with a final balloon payment of \$710,000 due in August 2003. The interest rate will be adjusted on August 1, 2001 to prime minus 0.25%. There is no penalty for prepayment of the mortgage. As of June 30, 2001, the outstanding principal amount of the mortgage was \$749,960.

Switchboard Apparatus currently conducts business from a facility located in Broadview, Illinois, which is approximately 19,000 square feet and houses Switchboard's office and manufacturing operations. We assumed the lease for this facility in August 2000 in connection with the acquisition of Switchboard Apparatus. The building is owned by a partnership that includes, among others, some of the former owners of Switchboard Apparatus, one of which is currently an employee of the Company. The lease provides for monthly payments of \$9,250 per month during the first three years of the lease term, beginning on May 1, 1999, with payments increasing to \$10,000 per month during the last two years of the lease term. The lease expires April 30, 2004, unless sooner terminated in accordance with the lease provisions. We have agreed to purchase the facility for not more than \$655,000 in cash and common stock of the Company following the closing of the Series A Convertible

Preferred Stock issuance, which is expected to closed in September 2001.

On June 7, 2001, we acquired Great Lakes Controlled Energy Corporation ("Great Lakes"). Great Lakes currently operates its business from a facility located in Elk Grove Village, Illinois, which is approximately 10,000 square feet. In connection with our acquisition of Great Lakes, we entered into a three-year lease beginning on the date of the acquisition at a monthly rate of \$10,000. The building is owned by the former shareholders of Great Lakes, Eugene Borucki and Denis Enberg, both of whom are currently employed by the Company. We have an option to purchase the facility at the end of the lease term for \$600,000 less the aggregate rent paid during the lease term.

The Company's facilities are adequate for its current level of operations, but management has started to explore the possibility of consolidating its operations in one building that is large enough to meet the Company's requirements for the next three to five years.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

From January 1999 until May 1999, we permitted Marino Electric to use, without charge, a portion of the manufacturing area of our facility to build EnergySaver unit components and cabinets. The members of our board not affiliated with Marino Electric approved this use and believed that it allowed us to oversee the manufacture of the EnergySaver unit components and cabinets. On May 24, 1999, we purchased from Mr. Marino most of the assets of Marino Electric for a purchase price of \$3,888,000, consisting of \$1,792,000 in cash and 1,600,000 shares of our common stock. The purchase

58

price of \$3,880,000 exceeded the fair value of the assets acquired by approximately \$3,363,000. Under the terms of the purchase agreement, we were obligated to pay the cash portion of the purchase price upon the closing of our private issuances of common stock that commenced in July 1999. In May 2000, Mr. Marino waived this requirement and instead received a payment of \$820,000 in cash and a subordinated secured term note for the principal amount of \$972,000 at an interest rate of 10% per annum, payable in equal installments over 24 months and requiring principal and interest payments of \$44,928 per month. The note is secured by an interest in all of our personal property, fixtures, inventory, contract rights, accounts, general intangibles and equipment owned by us on May 30, 2000 or acquired by us thereafter and is subordinate to the security interest in these items held by American National Bank and Trust Company of Chicago. The members of our Board of Directors, including the members not affiliated with Marino Electric negotiated and approved the terms of this transaction on our behalf and believed that they were as favorable to us as if negotiated with an unaffiliated third party. As of June 30, 2001, the principal and accrued interest owed and outstanding on the note totaled \$708,714.

On December 16, 1999, we loaned \$600,000 to Nikolas Konstant, a member of NCVC. The note was secured by 200,000 shares of our common stock held by Mr. Konstant and provided for \$120,000 in interest. On March 20, 2000, Mr. Konstant repaid the note in full with interest.

On April 1, 2000, we entered into a state representative agreement with Electric City of Illinois and on June 1, 2000, we entered into a state representative agreement with Electric City of Indiana. James Stumpe, one of our former directors is a member of each of Electric City of Illinois and Electric City of Indiana. The agreements grant to Electric City of Illinois and Electric City of Indiana distribution territories within the States of Illinois and Indiana, respectively for initial terms of ten years. The members of our board other than Mr. Stumpe approved the terms of the transactions and believed the terms to be substantially similar to those of our other distributor or state representative agreements and as favorable to us as if negotiated with an unaffiliated third party. As of June 30, 2001, our accounts receivable from Electric City of Illinois, LLC and Electric City of Indiana, LLC were \$202,948 and \$47,977, respectively.

On January 5, 2000, we entered into a distributor agreement with Electric City of Southern California L.L.C., of which Mr. Marino is a member, which provides for an initial term of 10 years. The agreement grants to Electric City of Southern California a distribution territory that extends from Monterrey to Fresno to the northern edge of Death Valley, south to the southern border of California. This agreement provides for terms that are substantially similar to those of our other distributor agreements and as favorable to us as if negotiated with an unaffiliated third party. As of June 30, 2001, our accounts receivable from Electric City of Southern California were \$18,800.

Each of Augustine and Messrs. Conant, Konstant, Marino, McEneely and Stelter (each, a "Restricted Stockholder") has entered into separate trading agreements with us that are effective for a term of three years beginning on October 17, 2000. The trading agreements restrict each Restricted Stockholder's transfer of our common stock as follows:

sales in any one trading day by such Restricted Stockholder shall not exceed the greater of 10,000 shares or 10% of the average trading volume of our stock during the 10 prior trading days;

public trades by such restricted stockholders in an opening transaction, during the last half hour of any trading day and at any time outside of regular trading hours shall be prohibited; and

up to four times within any 12-month period, we may prohibit any Restricted Stockholder from trading the common stock for an entire trading day.

We have agreed to give each Restricted Stockholder a right of first refusal to sell his common stock to any third party that contacts us with a desire to purchase 100,000 or more shares of our

59

common stock. This right will be allocated equally among each of the Restricted Stockholders who elect to participate in the sale. However, this right of first refusal will not preclude us from raising additional capital should such need arise.

Messrs. Conant, Konstant, Marino, McEneely and Stelter recently agreed to amendments of the terms of their trading agreements to provide that sales in any one trading day cannot exceed 5% of the average trading volume of our Common Stock on such day and such sales will not exceed 15% of such individual's holdings in any three-month period. In addition, if the Company and a managing underwriter request a market stand-off pursuant to a qualified public offering, each individual agrees not to sell, make any short sale of, grant any option for the purchase of, or otherwise dispose of any of their holdings (other than those included in the registration) without the consent of the underwriter. The market stand-off period will not exceed 180 days

In October 2000, we entered into an agreement with KMC Telecom (for which Roscoe Young, one of our directors, is President and Chief Operating Officer) to sell and install our TP3 switchgear product at three KMC Telecom facilities. The sale and installation amount for the three sites totaled \$773,802 and was reflective of prices that would be charged to an unrelated third party. Installation of the TP3 switchgear began in November 2000 and was completed in June 2001. As of June 30, 2001, our accounts receivable from KMC Telecom totaled \$293,074.

Effective December 4, 2000, we entered into an agreement with Mr. Marino in which we agreed to grant to Mr. Marino distributorship rights of our EnergySaver product in Northern California, Nevada and Arizona and to enter into distributor agreements with Mr. Marino with respect to each of these distribution territories for an initial term of 10 years and on terms substantially similar to those of our other distributor and state representative agreements. With respect to the Southern California distribution territory, we agreed to permit Electric City of Southern California to transfer to Mr. Marino its current distributor agreement described above. As consideration for our grant of distributorship rights, effective December 4, 2000, (1) we terminated the option to purchase 2,000,000 shares of our common stock at \$1.10 per share held by Pino, LLC with respect to 300,000 shares and (2) Mr. Marino resigned from our Board of Directors and from his executive position as our Chairman of the Board. The members of our board other than Mr. Marino approved the terms of the transactions and believed they were as favorable to us as if negotiated with an unaffiliated third party.

60

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Our common stock has traded since December 12, 2000 on The American Stock Exchange under the symbol "ELC." Prior to trading on The American Stock Exchange, our common stock traded, beginning on August 14, 1998, on the OTC Bulletin Board under the symbol "ECCC". However, from November 4, 1999 to January 31, 2000, while our registration statement on Form 10SB was awaiting clearance by the SEC, our common stock was traded on the "Pink Sheets", a quotation medium which generally provides a less liquid trading market. The following table sets forth the quarterly high and low closing prices for our common stock as reported on The American Stock Exchange, the OTC Bulletin Board and the Pink Sheets since January 1, 1999. With respect to the prices reported by the Pink Sheets and OTC Bulletin Board inter-dealer quotation system, such prices reflect inter-dealer prices, without retail mark-up, markdown or commission and may not represent actual transactions. The prices have been adjusted to give effect for a 2-for-1 stock split, which was declared by our Board of Directors July 8, 1999 and distributed on July 30, 1999.
