(2) APPROVAL OF REVERSE STOCK SPLIT -- FOR THE THAI CAPITAL FUND ONLY

The Board of Directors has determined that it is in the best interests of The Thai Capital Fund and its stockholders to approve an amendment to Article V of The Thai Capital Fund's Articles of Incorporation to effect a reverse stock split of its common stock on the basis of one new share of common stock for each

Edgar Filing: THAI CAPITAL FUND INC - Form DEF 14A

two shares (1-for-2) of presently outstanding common stock. The amendment to the Articles of Incorporation, attached hereto as Annex A, would reduce the number of shares that are issued and outstanding as of the date of the amendment but would not have any other effect or change to The Thai Capital Fund's Articles of Incorporation or the rights of stockholders.

The Board of Directors reviewed The Thai Capital Fund's current market price per share and compared it to the minimum price required for listing its shares on the American Stock Exchange, \$3.00 per share. The Board believes that action should be taken in order to bring the current market price per share above the required listing level. Although no assurances can be given, the Board of Directors believes that a reverse stock split may have the effect of increasing The Thai Capital Fund's market price and net asset value per share. In addition, even if the reverse stock split has the effect of increasing The Thai Capital Fund's market price per share above the minimum level required by the American Stock Exchange, there can be no assurance that The Thai Capital Fund will be able to meet other certain requirements of that Exchange. Please refer to the section entitled "Potential Effects of the Reverse Stock Split" below for the risks associated with the reverse stock split.

The amendment to the Articles of Incorporation will not reduce the total number of authorized shares of capital stock of 100,000,000 shares, or the par value of The Thai Capital Fund's common stock. As of March 15, 2002, 6,278,588 shares of common stock were issued and outstanding.

POTENTIAL EFFECTS OF THE REVERSE STOCK SPLIT

The immediate effects of a reverse stock split would be to reduce the number of shares of common stock outstanding, thereby, increasing the net asset value ("NAV") per share. A reverse stock split may result in an increase in the market price of The Thai Capital Fund's common stock. However, the effect of any reverse stock split upon the market price of The Thai Capital Fund's common stock cannot be predicted. The Thai Capital Fund cannot assure stockholders that the market price of its common stock after the reverse stock split will rise in exact proportion to the reduction in the number of shares of common stock outstanding. Also, as stated above, there can be no assurance that a reverse stock split would lead to a sustained increase in the market price of The Thai Capital Fund's common stock, that market price would remain above the thresholds required by the American Stock Exchange, or that The Thai Capital Fund will be able to meet certain other listing requirements of the American Stock Exchange.

EFFECTS OF OWNERSHIP BY INDIVIDUAL STOCKHOLDERS. If The Thai Capital Fund implements a reverse stock split, the number of shares of common stock held by each stockholder would be reduced by dividing the number of shares held immediately before the reverse split by the exchange ratio. Any resulting share amount below one whole share will result in delivery of a fractional share.

The Thai Capital Fund will issue fractional shares for any fractional interest in a share to which such stockholder would otherwise be entitled as a result of the reverse split, as described below. The reverse stock split would affect The Thai Capital Fund's common stock uniformly and would not affect any stockholder's percentage ownership interests in the Company or proportionate voting power.

8

OTHER EFFECTS ON OUTSTANDING SHARES. The reverse stock split may result in some stockholders owning "odd-lots" of less than 100 shares of common stock. Brokerage commissions and other costs of transactions in odd-lots may be higher than the costs of transactions in "round-lots" of even multiples of 100 shares.

PROCEDURE FOR EFFECTING THE REVERSE STOCK SPLIT AND EXCHANGE OF STOCK

Edgar Filing: THAI CAPITAL FUND INC - Form DEF 14A

CERTIFICATES

If the stockholders approve the amendment to The Thai Capital Fund's Articles of Incorporation, the Board of Directors may elect whether or not to declare the reverse stock split at any time after the Meeting. The reverse stock split would be implemented by filing Articles of Amendment to The Thai Capital Fund's Articles of Incorporation with the State Department of Assessments and Taxation of Maryland, and the reverse stock split would become effective on the date of the filing.

As of the effective date of a reverse stock split, each certificate representing shares of The Thai Capital Fund's common stock before the reverse stock split would be deemed, for all corporate purposes, to evidence ownership of the reduced number of shares of common stock resulting from the reverse stock split.

The Thai Capital Fund expects that its transfer agent would act as the exchange agent for purposes of implementing the exchange of stock certificates. As soon as practicable after the effective date, stockholders would be notified of the effectiveness of the reverse stock split. Stockholders of record would receive a letter of transmittal requesting them to surrender their stock certificates for stock certificates reflecting the adjusted number of shares as a result of the reverse stock split. Persons who hold their shares in brokerage accounts or "street name" would not be required to take any further actions to effect the exchange of their certificates. No new certificates would be issued to a stockholder until the stockholder has surrendered the stockholder's outstanding certificate(s) together with the properly completed and executed letter of transmittal to the exchange agent. Until surrender, each certificate representing shares before the reverse stock split would continue to be valid and would represent the adjusted number of shares based on the exchange ratio of the reverse stock split. Stockholders should not destroy any stock certificate and should not submit any certificates until they receive a letter of transmittal.

FRACTIONAL SHARES

The Thai Capital Fund will issue fractional shares in connection with a reverse stock split. Stockholders will receive fractional shares if they hold a number of shares not evenly divisible by the exchange ratio.

NO APPRAISAL RIGHTS

No appraisal rights are available under the Maryland General Corporation Law with respect to the reverse stock split, and The Thai Capital Fund will not independently provide stockholders with any such rights. There may exist other rights or actions under state law for stockholders who are aggrieved by reverse stock splits generally.

ACCOUNTING CONSEQUENCES

The reverse stock split will not affect the par value of our common stock. As a result, on the effective date of the reverse stock split, the stated capital on our balance sheet attributable to our common stock will be reduced in proportion with the exchange ratio, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced.

U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of material U.S. federal income tax consequences of the reverse stock split and does not purport to be complete. It does not

Edgar Filing: THAI CAPITAL FUND INC - Form DEF 14A

discuss any state, local, foreign or minimum income or other tax consequences. Also, it does not address the tax consequences to holders that are subject to special tax rules, including banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the shares are held as a "capital asset," as defined in the Internal Revenue Code of 1986, as amended (generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of the stockholder. Each stockholder is urged to consult with the stockholders's own tax adviser with respect to the consequences of the reverse stock split.

No gain or loss should be recognized by a stockholder upon the stockholder's exchange of shares pursuant to the reverse stock split. The aggregate tax basis of the shares received in the reverse stock split, including any fraction of a share deemed to have been received, would be the same as the stockholder's aggregate tax basis in the shares exchanged. The stockholder's holding period for the shares would include the period during which the stockholders held the pre-split shares surrendered in the reverse stock split.

Our views regarding the tax consequence of the reverse stock split are not binding upon the Internal Revenue Service or the courts, and there can be no assurance that the Internal Revenue Service or the courts will accept the positions expressed above. The state and local tax consequences of the reverse stock split may vary significantly as to each stockholder, depending upon the place in which he or she resides. Accordingly, each stockholder should consult with his or her own tax adviser with respect to all of the potential tax consequences of the reverse stock split.

REQUIRED VOTE

The affirmative vote of a majority of all outstanding shares of common stock of The Thai Capital Fund entitled to vote at the Meeting is required for approval of the reverse stock split and the amendment to the Articles of Incorporation. Abstentions and broker non-votes will have the same effect as a vote against the proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" APPROVAL OF THE PROPOSED REVERSE STOCK SPLIT AND THE AMENDMENT TO THE ARTICLES OF INCORPORATION.
