PART I

Item Business

1.

Overview

Gateway Industries, Inc. was incorporated in Delaware in July 1994. We had no operating business or full-time employees from December 1996 to March 2000, when we acquired all of the outstanding Common Stock of Oaktree Systems, Inc. (“Oaktree”). Through Oaktree, we provided cost effective marketing solutions to organizations needing sophisticated information management tools.

We acquired Oaktree on March 21, 2000 pursuant to a Stock Purchase Agreement. The purchase price of Oaktree was approximately \$4,100,000, consisting of \$2,000,000 in cash, the issuance of 600,000 restricted shares of Common Stock of the Company and the assumption of approximately \$650,000 of debt, which was repaid at the closing date, plus certain fees and expenses. In December 2007, Oaktree sold 5,624 shares of its Common Stock to Marketing Data, Inc., an affiliate of an officer of Oaktree, for \$1,000. As a result, our ownership interest in Oaktree was reduced to 20% of Oaktree’s outstanding Common Stock. In connection with this transaction, we agreed to make a capital contribution of \$225,000 to Oaktree at closing. As a result of this transaction, we recorded a loss on sale of subsidiary in the amount of \$4,238,392 during the year ended December 31, 2007.

In July 2005, we sold 500,000 shares of 10% Series A Preferred Stock (the “Preferred Stock”) to Steel Partners II, L.P. (“Steel Partners II”), an affiliate of Jack L. Howard, our Chairman of the Board and Chief Executive Officer, and, at the time, our largest stockholder, for a purchase price of \$1,467,000. In addition, we sold to Steel Partners II warrants to purchase 1,500,000 shares of Common Stock, with an exercise price of \$0.22 per share (the “Warrants”), for a purchase price of \$33,000. On May 15, 2008, we repurchased all of the Preferred Stock and Warrants originally issued to Steel Partners II for a purchase price of \$1,000. None of the Warrants were ever exercised by Steel Partners II and no dividend was paid on the Preferred Stock.

On October 24, 2010, Oaktree repurchased our remaining 20% interest in Oaktree for \$100. As a result, Marketing Data, Inc. owned 100% of the outstanding Common Stock of Oaktree.

Since the disposition of our interest in Oaktree, we began to explore the redeployment of our existing assets by identifying and merging with, or acquiring, or investing in, one or more operating businesses.

Recent Developments

On February 7, 2011, we entered into an Agreement and Plan of Recapitalization (the “Recapitalization Agreement”) with Sillerman Investment Company LLC, a Delaware limited liability company (“Sillerman”), and EMH Howard LLC, a New York limited liability company and an affiliate of Jack L. Howard, the Chairman and Chief Executive Officer of the Company (“EMH Howard”). Pursuant to the Recapitalization Agreement, Sillerman, together with other investors approved by Sillerman, has committed to invest in the Company by acquiring 120,000,000 newly issued shares of Common Stock of the Company in a private placement transaction at a price of \$0.03 per share (on a post-split basis as described below) as a result of which Sillerman and the other investors will own approximately 98% of the outstanding shares of Common Stock, with Sillerman (together with Robert F.X. Sillerman personally) directly or indirectly beneficially owning more than a majority of the outstanding shares of Common Stock. J. Howard, Inc., an entity affiliated with Jack L. Howard, and its designees (which may include directors of the Company) will also be issued shares in order to extinguish outstanding debt owed to J. Howard, Inc. In order to effectuate the transactions contemplated by the Recapitalization Agreement, the Company will amend its Certificate of Incorporation to (a) increase the number of its authorized shares of Common Stock from 10,000,000 to 300,000,000, (b) implement a 1 for 10 reverse split of its issued and outstanding Common Stock, and (c) change the name of the Company. Contemporaneously with the closing of the Recapitalization Agreement, Sillerman will replace the current Board of Directors and executive officers of the Company. Closing of the Recapitalization Agreement is subject to various customary closing conditions, including the filing of this Annual Report with the Securities and Exchange Commission (the “SEC”). The Company and Sillerman may terminate the Recapitalization Agreement under certain circumstances as provided therein. Sillerman has agreed, upon consummation of the recapitalization, to reimburse the Company for its expenses incurred in connection with the Recapitalization Agreement and related matters and to reimburse J. Howard, Inc., an entity affiliated with Jack L. Howard, for advances made by J. Howard, Inc. to the Company to support its daily operations since 2007 in an aggregate amount not to exceed \$200,000.

To the extent the Recapitalization Agreement is consummated, the information appearing below, which relates to prior periods, may not be indicative of the results that may be expected for any subsequent periods. CRITICAL ACCOUNTING POLICIES AND ESTIMATES

General

Our discussion and analysis of our financial condition and results of operations are based on our financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, income and expenses, and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to fair values, income taxes and equity issuances. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. These estimates form the basis for certain judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Our significant accounting policies are summarized in Note 2 of our financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would have a material effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

Gateway Industries, Inc.
Notes to Financial Statements

1. Description of the Company:

Gateway Industries, Inc. (the “Company”) was incorporated under the laws of the State of Delaware on September 24, 1994. The Company was the parent company of Oaktree Systems, Inc., a fully owned subsidiary (“Oaktree”) through December 2007. In December 2007, Oaktree sold 5,624 shares of its Common Stock to Marketing Data, Inc., an affiliate of an officer of Oaktree, for \$1,000. As a result, our ownership interest in Oaktree was reduced to 20% of Oaktree’s outstanding Common Stock. On October 24, 2010, Oaktree repurchased our remaining 20% interest in Oaktree for \$100. As a result, Marketing Data, Inc. owned 100% of the outstanding Common Stock of Oaktree (see Note 4).

2. Summary of Significant Accounting Policies:

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of expenses during the reporting periods. Actual results could differ from those estimates.

Cash Equivalents

The Company considers all highly liquid debt instruments with an original maturity date of three months or less and investments in money market accounts to be cash equivalents.

Marketable Securities

The marketable securities that the Company holds are primarily equity securities. All are classified as trading securities, which are carried at their fair value based on the quoted market prices of those marketable securities at period end. Accordingly, net realized and unrealized gains and losses on trading securities are included in net earnings.

Income Taxes

The Company utilizes the liability method of accounting for income taxes. Under the liability method, deferred taxes are determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse.

Net Loss per Share

Basic net loss per share is calculated by dividing the net loss by the weighted average number of outstanding common shares during the year. Diluted per share data includes the dilutive effects of options, warrants and convertible securities. Potential common shares of 4,000 and -0- at December 31, 2010 and 2009, respectively, are not included in the calculation of diluted loss per share because its effect will be anti-dilutive. Such potential common shares are options.

Stock-Based Compensation

The Company accounts for its stock-based compensation at fair value estimated on the grant date using the Black-Scholes option pricing model. See Note 6 for further discussion of the Company's stock-based compensation.

Gateway Industries, Inc.
Notes to Financial Statements

Subsequent Event Evaluation

Management has evaluated subsequent events to determine if events or transactions occurring through February 7, 2011 require potential adjustment to or disclosure in the financial statements.

3. Income Taxes:

The tax effects of the significant temporary differences giving rise to deferred taxes at December 31, 2010 and 2009 consist of the net operating loss carryforwards. At December 31, 2010, the Company had federal net operating loss carryforwards of approximately \$5,490,000 which expire in various years through 2030.

Utilization of the net operating losses may be subject to annual limitation or elimination due to the ownership change rules provided by Section 382 of the Internal Revenue Code and similar state provisions.

Deferred tax assets at December 31, 2010 and 2009 are as follows:

	2010	2009
Net operating loss carryforwards	\$2,058,000	\$2,048,000
Valuation allowance	(2,058,000)	(2,048,000)
Net deferred tax assets	\$0	\$0

The Company has recorded a valuation allowance for the full amount of its deferred tax assets as the likelihood of the future realization cannot be presently determined.

The reconciliation between the taxes as shown and the amount that would be computed by applying the statutory federal income tax rate to the loss before income taxes is as follows:

	2010		2009	
Income tax benefit – statutory rate	(34.0)%	(34.0)%
State and local, net	(3.5)%	(3.5)%
Valuation allowance on deferred tax assets	37.5	%	37.5	%

4. Stock Purchase Agreement:

The Company acquired Oaktree on March 21, 2000 pursuant to a Stock Purchase Agreement. The purchase price of Oaktree was approximately \$4,100,000, consisting of \$2,000,000 in cash, the issuance of 600,000 restricted shares of Common Stock of the Company and the assumption of approximately \$650,000 of debt, which was repaid at the closing date, plus certain fees and expenses. In December 2007, Oaktree sold 5,624 shares of its Common Stock to Marketing Data, Inc., an affiliate of an officer of Oaktree, for \$1,000. As a result, the Company's ownership interest in Oaktree was reduced to 20% of Oaktree's outstanding Common Stock. In connection with this transaction, the Company agreed to make a capital contribution of \$225,000 to Oaktree at closing. As a result of this transaction, the Company recorded a loss on sale of subsidiary in the amount of \$4,238,392 during the year ended December 31, 2007.

On October 24, 2010, Oaktree repurchased the Company's remaining 20% interest in Oaktree for \$100. As a result, Marketing Data, Inc. owned 100% of the outstanding Common Stock of Oaktree.

5. Preferred Stock and Warrants:

The Company has 1,000,000 authorized shares of preferred stock, par value \$.01 per share, which may be issued in various classes with different characteristics. Howard, the Chairman and Chief Executive Officer of the Company (“EMH Howard”). Pursuant to the Recapitalization Agreement, Sillerman, together with other investors approved by Sillerman, has committed to invest in the Company by acquiring 120,000,000 newly issued shares of Common Stock of the Company in a private placement transaction at a price of \$0.03 per share (on a post-split basis as described below) as a result of which Sillerman and the other investors will own approximately 98% of the outstanding shares of Common Stock, with Sillerman (together with Robert F.X. Sillerman personally) directly or indirectly beneficially owning more than a majority of the outstanding shares of Common Stock. J. Howard, Inc., an affiliate of Jack L. Howard, and its designees (which may include directors of the Company) will also be issued shares in order to extinguish outstanding debt owed to J. Howard, Inc. In order to effectuate the transactions contemplated by the Recapitalization Agreement, the Company will amend its Certificate of Incorporation to (a) increase the number of its authorized shares of Common Stock from 10,000,000 to 300,000,000, (b) implement a 1 for 10 reverse split of its issued and outstanding Common Stock, and (c) change the name of the Company. The Company and Sillerman may terminate the Recapitalization Agreement under certain circumstances as provided therein. Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the Company's principal executive officer and principal financial officer evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based on his evaluation of the Company's disclosure controls and procedures, the Company's principal executive officer and principal financial officer has concluded that the Company's disclosure controls and procedures were effective as of December 31, 2010, to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is (a) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (b) accumulated and communicated to management, including the Company's principal executive officer and principal financial officer, as appropriate to allow for timely decisions regarding required disclosure.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Given these and other inherent limitations of control systems, there is only reasonable assurance that the Company's controls will succeed in achieving their stated goals under all potential future conditions. The Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of December 31, 2010.

Management's Annual Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Under the supervision and with the participation of the Company's management, including the Company's principal executive officer and principal financial officer, the Company conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of December 31, 2010 based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, the Company's management concluded that the Company's internal control over financial reporting was effective as of December 31, 2010.

This Annual Report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting.
