**APPROVAL OF THE SECOND AMENDMENT TO THE  
MACATAWA BANK CORPORATION  
STOCK COMPENSATION PLAN**

On February 21, 2002, the Board of Directors adopted the Second Amendment (the "Amendment") to the Macatawa Bank Corporation Stock Compensation Plan (the Plan), subject to approval by the Company's shareholders. The following summary of the Plan is subject to the specific provisions contained in the complete text of the Plan and in the Amendment set forth in Appendix A to this Proxy Statement.

*Amendment.* The Amendment increases the maximum number of shares available under the Plan from 206,000 to 500,000 shares of common stock.

*Purpose.* The purpose of the Plan is to promote the long-term success of the Company for the benefit of the Company's shareholders through stock-based compensation by aligning the personal interests of the Company's key employees with those of its shareholders.

*Eligibility.* Employees of the Company and its subsidiaries are eligible to participate in the Plan. The number of persons eligible to participate in the Plan as of February 1, 2002, was approximately 155.

*Administration.* The Plan is administered by a committee of the Board of Directors (the Committee). The Committee will be composed of at least three directors, each of whom is not an employee of the Company. Each member of the Committee is required to be a disinterested person within the meaning of Rule 16b-3 of the General Rules and Regulations under the Securities and Exchange Act of 1934, as amended, and no member of the Committee is eligible to participate in the Plan. Subject to the Company's Articles, Bylaws, and the provisions of the Plan, the Committee has the authority to select key employees to whom Awards (as defined below) may be awarded; the type of Awards (or combination thereof) to be granted; the number of shares of Common Stock to be covered by each Award; and the terms and conditions of any Award, such as conditions of forfeiture, transfer restrictions and vesting requirements.

The Plan provides for the granting of a variety of stock-based Awards, described in more detail below, such as stock options, including incentive stock options, as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the Code), restricted stock, performance shares, and other stock-based awards. These Awards are granted at no cost to the recipients. The term of the Plan is ten years, and no Awards may be granted under the Plan after January 25, 2008.

*Types of Awards.* The following types of awards ("Awards") may be granted under the Plan:

An Option is a contractual right to purchase a number of shares at a price determined at the date the Option is granted. Options include incentive stock options, as defined in Section 422 of the Code, as well as nonqualified stock options. The exercise price included in both incentive stock options and nonqualified stock options must equal at least 100% of the fair market value of the Common Stock at the date of grant. Options are granted at no cost to the recipients.

Restricted Stock are shares of Common Stock granted to an employee for no or nominal consideration. Title to the shares passes to the employee at the time of the grant; however, the ability to sell or otherwise dispose of the shares is subject to restrictions and conditions determined by the Committee.

Performance Shares are an Award of the right to receive stock or cash of an equivalent value at the end of the specified performance period upon the attainment of specified performance goals.

An Other Stock-Based Award is any other Award that may be granted under the Plan that is valued in whole or in part by reference to or is payable in or otherwise based on Common Stock.

*Shares Subject to Plan.* A total of 206,000 shares of the Company's Common Stock are reserved for use under the Plan, and a total of 500,000 shares of common stock will be reserved for issuance under the Plan if the Company's shareholders approve the Second Amendment. The shares to be issued under the Plan will be authorized and unissued shares, including shares reacquired by the Company which have that status. The number of shares that may be issued under the Plan and the number of shares subject to Options are subject to adjustments in the event of a merger, reorganization, consolidation, recapitalization, stock dividend, stock split or other change in corporate structure affecting the Common Stock. Subject to certain restrictions, unexercised Options, lapsed shares of Restricted Stock, and shares surrendered in payment for exercised Options may be reissued under the Plan.

*Termination or Amendment of the Plan.* The Board may at any time amend, discontinue, or terminate the Plan or any part thereof; however, unless otherwise required by law, the rights of a participant may not be impaired without the consent of such participant. In addition, without the approval of the Company's shareholders, no amendment may be made which would increase the aggregate number of shares of Common Stock that may be issued under the Plan, change the definition of employees eligible to receive Awards under the Plan, extend the maximum option period under the Plan, decrease the Option price of any Option to less than 100% of the fair market value on the date of grant, otherwise materially increase the benefits to participants in the Plan or cause the Plan not to comply with certain applicable securities and tax law requirements.

*Participation and Assignability.* Neither the Plan nor any Award agreement granted under the Plan entitles any participant or other employee to any right to continued employment by the Company or any subsidiary. Generally, no Award, Option, or other benefit payable under the Plan may, except as otherwise specifically provided by law, be subject in any manner to assignment, transfer, or encumbrance. However, Nonqualified Stock Options may be transferred without consideration to: (i) an immediate family member of the optionee, (ii) a trust for the benefit of the immediate family members of the optionee, or (iii) a partnership or limited liability Company whose only partners or members are immediate family members of the optionee, if the optionee satisfies such conditions to the transfer as may be required by the Committee. Upon termination of employment, any portion of unexercised Options which are exercisable on the termination date must generally be exercised within three months of the termination date for any termination other than as a result of the death, disability, or retirement of the employee, in which case the Plan provides for longer exercise periods.

*Federal Tax Consequences.* The following summarizes the consequences of the grant and acquisition of Awards under the Plan for federal income tax purposes, based on management's understanding of existing federal income tax laws. This summary is necessarily general in nature and does not purport to be complete. Also, state and local income tax consequences are not discussed and may vary from locality to locality.

*Options.* Plan participants will not recognize taxable income at the time an Option is granted under the Plan unless the Option has a readily ascertainable market value at the time of grant. Management understands that Options to be granted under the Plan will not have a readily ascertainable market value; therefore, income will not be recognized by participants before the time of exercise of an Option. For nonqualified stock options, the difference between the fair

market value of the shares at the time an Option is exercised and the Option price generally will be treated as ordinary income to the optionee, in which case the Company will be entitled to a deduction equal to the amount of the optionee's ordinary income. With respect to incentive stock options, participants will not realize income for federal income tax purposes as a result of the exercise of such Options. In addition, if common stock acquired as a result of the exercise of an

---

incentive stock option is disposed of more than two years after the date the Option is granted and more than one year after the date the Option was exercised, the entire gain, if any, realized upon disposition of such common stock will be treated for federal income tax purposes as capital gain. Under these circumstances, no deduction will be allowable to the Company in connection with either the grant or exercise of an incentive stock option. Exceptions to the general rules apply in the case of a disqualifying disposition. If a participant disposes of shares of common stock acquired pursuant to the exercise of an incentive stock option before the expiration of one year after the date of exercise or two years after the date of grant, the sale of such stock will be treated as a disqualifying disposition. As a result, such a participant would recognize ordinary income and the Company would be entitled to a deduction in the year in which such disposition occurred.

The amount of the deduction and the ordinary income recognized upon a disqualifying disposition would generally be equal to the lesser of: (a) the sale price of the shares sold minus the Option price, or (b) the fair market value of the shares at the time of exercise and minus the Option price. If the disposition is to a related party (such as a spouse, brother, sister, lineal descendant, or certain trusts for business entities in which the seller holds a direct or indirect interest), the ordinary income recognized generally is equal to the excess of the fair market value of the shares at the time of exercise over the exercise price. Any additional gain recognized upon disposition, in excess of the ordinary income, will be taxable as capital gain. In addition, the exercise of incentive stock options may result in an alternative minimum tax liability.

*Restricted Stock.* Recipients of shares of Restricted Stock that are not transferable and are subject to substantial risk of forfeiture at the time of grant will not be subject to federal income taxes until the lapse or release of the restrictions on sale of the shares, unless the recipient files a specific election under the Code to be taxed at the time of grant. The recipient's income and the Company's deduction will be equal to the excess of the then fair market value (or sale price) of the shares less any purchase price.

*Performance Shares.* Participants are not taxed upon the grant of Performance Shares. Upon receipt of the underlying shares or cash, a participant will be taxed at ordinary income tax rates (subject to withholding) on the amount of cash received and/or the current fair market value of stock received, and the Company will be entitled to a corresponding deduction. The participant's basis in any Performance Shares received will be equal to the amount of ordinary income on which he or she was taxed and, upon subsequent disposition, any gain or loss will be capital gain or loss.

*Required Vote for Approval.* On February 21, 2002, the Board of Directors of the Company approved the Second Amendment to the Plan, subject to shareholder approval. At the Annual Meeting, the shareholders are being requested to consider and approve the Second Amendment to the Plan, which would increase the number of shares reserved for issuance under the Plan from 206,000 to 500,000. The affirmative vote of a majority of the holders of the Company's outstanding voting stock represented and voted at the Annual Meeting is required to approve the Second Amendment.

**APPROVAL OF THE FIRST AMENDMENT TO THE  
MACATAWA BANK CORPORATION  
1998 DIRECTORS' STOCK OPTION PLAN**

On February 21, 2002, the Board of Directors adopted the First Amendment (the "First Amendment") to the Macatawa Bank Corporation 1998 Directors' Stock Option Plan (the "Directors Plan"), subject to approval by the Company's shareholders. The following summary of the Directors Plan is subject to the specific provisions contained in the complete text of the Directors Plan and in the First Amendment set forth in Appendix B to this Proxy Statement.

*Amendment.* The First Amendment increases the maximum number of shares available under the Directors Plan from 41,200 to 141,200 shares of common stock.

*Purpose.* The purpose of the Directors Plan is to provide an additional incentive to manage the Company effectively and to provide a form of compensation that will attract and retain highly qualified individuals to serve as directors of the Company and its subsidiaries.

*Eligibility.* Directors of the Company and its subsidiaries are eligible to participate in the Plan if the director is not an employee of the Company or its subsidiaries or was a director of Macatawa Bank before it became a subsidiary of the Company.

*Administration.* The Directors Plan is administered by a committee of the Board of Directors (the "Directors Plan Committee"). The Directors Plan Committee must be composed of at least three directors, each of whom is not an employee of the Company. Each member of the Directors Plan Committee is required to be a "disinterested person" within the meaning of Rule 16b-3 of the General Rules and Regulations under the Securities and Exchange Act of 1934, as amended. The Directors Plan Committee's authority is limited to interpreting the provisions of the Directors Plan and supervising its administration, including the power to adopt procedures and regulations for administrative purposes.

*Option Awards.* The Directors Plan Committee may from time to time grant to eligible directors options to purchase shares of the Company's common stock. An option is a contractual right to purchase a number of shares at a price determined at the date the option is granted. The exercise price included in the options must equal at least 100% of the fair market value of the common stock at the date of grant. Options are granted at no cost to the recipients.

*Shares Subject to Directors Plan.* A total of 41,200 shares of the Company's common stock are reserved for use under the Directors Plan, and a total of 141,200 shares of common stock will be reserved for issuance under the Directors Plan if the Company's shareholders approve the First Amendment. The shares to be issued under the Directors Plan will be authorized and unissued shares, including shares reacquired by the Company which have that status. The number of shares that may be issued under the Directors Plan and the number of shares subject to options are subject to adjustments in the event of a merger, reorganization, consolidation, recapitalization, stock dividend, stock split or other change in corporate structure affecting the common stock. Subject to certain restrictions, unexercised options and shares surrendered in payment for exercised options may be reissued under the Directors Plan.

*Termination or Amendment of the Directors Plan.* The Board of Directors of the Company may amend or terminate the Directors Plan with respect to shares not subject to options at the time of amendment or termination. The Directors Plan may not be amended without shareholder approval if the amendment would increase the maximum number of shares that may be issued under the Directors Plan, extend the term of the options, decrease the price at which options may be granted, remove the administration of the Directors Plan

13

from the Directors Plan Committee, change the class of persons eligible to receive options or permit the granting of options under the Directors Plan after January 25, 2008. Unless terminated earlier by the Board of Directors, the Directors Plan will expire on January 25, 2008.

*Transferability of Options and Common Stock.* Generally, options granted under the Directors Plan may be transferred only by will or according to the laws of descent and distribution. However, options may be transferred without consideration to: (i) an immediate family member of the optionee; (ii) a trust for the benefit of the immediate family members of an optionee, or (iii) a partnership or limited liability company whose only partners or members are immediate family members of an optionee, if the optionee satisfies such conditions to the transfer as may be required by the Directors Plan Committee. Options may be exercised only by an optionee or a permitted transferee during an optionee's lifetime. Upon the death of an optionee, all options held by the decedent, or his or her permitted transferees, and not yet exercisable, become fully exercisable. Before issuing any shares upon the exercise of an option, the Company may require the optionee or the permitted transferee to represent in writing that the shares are being acquired for investment and not for resale. The Company may also delay issuance of the shares until all appropriate registrations or qualifications under federal and state securities laws have been completed.

*Federal Tax Consequences.* The following summarizes the consequences of the grant and acquisition of options under the Directors Plan for federal income tax purposes, based on management's understanding of existing federal income tax laws. This summary is necessarily general in nature and does not purport to be complete. Also, state and local income tax consequences are not discussed and may vary from locality to locality. Directors Plan participants will not recognize taxable income at the time an option is granted under the Directors Plan unless the Option has a readily ascertainable market value at the time of grant. Management understands that options to be granted under the Plan will not have a readily ascertainable market value; therefore, income will not be recognized by participants before the time of exercise of an option. The difference between the fair market value of the shares at the time an option is exercised and the option price generally will be treated as ordinary income to the optionee, and the Company will be entitled to a deduction equal to the amount of the optionee's ordinary income.

*Required Vote for Approval.* On February 21, 2002, the Board of Directors of the Company approved the First Amendment to the Directors Plan, subject to shareholder approval. At the Annual Meeting, the shareholders are being requested to consider and approve the First Amendment to the Directors Plan, which would increase the number of shares reserved for issuance under the Directors Plan from 41,200 to 141,200 shares. The affirmative vote of a majority of the holders of the Company's outstanding voting stock represented and voted at the Annual Meeting is required to approve the First Amendment.

The Board of Directors recommends a vote **FOR** approval of the First Amendment to the Macatawa Bank Corporation 1998 Directors' Stock Option Plan.

**APPROVAL OF PROPOSED INCREASE  
IN AUTHORIZED COMMON STOCK**

The Company's Board of Directors has proposed that the first paragraph of Article III of the Company's Restated Articles of Incorporation (the "Articles") be amended to read as follows:

The total number of shares of all classes of capital stock which the Corporation shall have the authority to issue is twenty million five hundred thousand (20,500,000) shares, of which twenty million (20,000,000) shares shall be common stock and five hundred thousand (500,000) shares shall be series preferred stock.

This amendment will increase the Company's total authorized shares of capital stock from 10,000,000 to 20,500,000, including an increase in the authorized common stock from 9,500,000 shares to 20,000,000 shares of common stock, no par value. As of February 1, 2002, there were 5,308,231 shares of common stock issued and outstanding and 239,250 shares of common stock reserved for issuance under the Company's stock option plans and Employee Stock Purchase Plan. As a result, as of February 1, 2002, only 3,952,519 shares of common stock remain available for future issuance. In addition, on November 20, 2001, the Company entered into an Agreement and Plan of Merger to acquire Grand Bank Financial Corporation which upon closing will result in the issuance of approximately 2,374,994 shares of Company common stock. As of February 1, 2002, the Company has no preferred stock issued or outstanding, and this proposed amendment will not affect the preferred stock.

The purpose of the amendment is to provide additional shares of common stock for future issuance. The Board of Directors believes it desirable to increase the authorized number of shares of common stock in order to provide the Company with adequate flexibility in corporate planning and strategies. The availability of additional common stock for issuance could be used for a number of purposes, including corporate financing, future acquisitions, stock dividends, stock splits, stock options, and other stock-based compensation. Except for the acquisition of Grand Bank Financial Corporation, there are currently no specific plans, agreements or understandings regarding the issuance of any of the additional shares of common stock that would be available if this proposal is approved. Such additional authorized shares may be issued for such purposes and for such consideration as the Board of Directors may determine without further shareholder approval, unless such action is required by applicable law or the rules of the Nasdaq stock market or any stock exchange on which the Company's securities may be listed.

The additional shares of common stock for which authorization is sought would be part of the existing class of common stock, and, to the extent issued, would have the same rights and privileges as the shares of common stock presently outstanding. Ownership of shares of the Company's common stock confers no preemptive rights.

The increase in the authorized but unissued shares of common stock which would result from adoption of the proposed amendment could have a potential anti-takeover effect with respect to the Company, although management is not presenting the proposal for that reason and does not presently anticipate using the increased authorized shares for such a purpose. The potential anti-takeover effect of the proposed amendment arises because it would enable the Company to issue additional shares of common stock up to the total authorized number with the effect that the shareholdings and related voting rights of then existing shareholders would be diluted to an extent proportionate to the number of additional shares issued.

The affirmative vote of the holders of a majority of the outstanding shares of common stock of the Company is required for approval of the proposed amendment. Unless otherwise directed by a shareholder's proxy, the persons named as proxy voters in the accompanying proxy will vote *FOR* the amendment.

**The Board of Directors recommends a vote *FOR* the approval of the proposed amendment to the Company's Amended and Restated Articles of Incorporation to increase the number of shares of authorized common stock.**

### TRANSACTIONS INVOLVING MANAGEMENT

Directors and officers of the Company and their associates were customers of, and had transactions with, subsidiaries of the Company in the ordinary course of business during 2001. All loans and commitments included in such transactions were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and do not involve an unusual risk of collectibility or present other unfavorable features.

The Bank leases its Trust Department office space located at 106 E. 8th Street, Holland, Michigan 49423, from a corporation wholly owned by Benj. A. Smith, III, an officer and director of the Company. The Bank leases its Wyoming, Michigan branch facility from a limited liability company co-owned by John F. Koetje, a director of the Company. The terms of these leases were negotiated on an arm's-length basis, and the Company believes that the rent and other terms reflect fair market value.

### SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and officers to file reports of ownership and changes in ownership of shares of common stock with the Securities and Exchange Commission. Based upon written representations by each director and officer, all the reports were filed by such persons during the last fiscal year, except for one late report filed by G. Thomas Boylan with respect to one transaction in a prior fiscal year.

The comparison assumes a \$100 investment on April 1, 1998, the date of the Company's initial public offering, at the Company's initial public offering price of \$10.00 per share and assumes that dividends are reinvested.
