Herman Miller, Inc., Reports Continued Gains in Financial Results for First Quarter FY2005

Webcast to be held Thursday, September 16, at 9:30 AM EDT

Herman Miller, Inc., today announced results for the first quarter ended August 28, 2004. Sales increased 10.1% from the year-ago period. Orders and backlog also were significantly improved over the prior-year levels, with orders up 18.0% and backlog increasing 24.6%. Net earnings were \$14.3 million, or \$.20 per share, an increase of 130.6% over net earnings of \$6.2 million for the same period in the prior year. The results included approximately \$0.5 million in pre-tax restructuring charges, less than \$.01 per share net of tax, related to previously announced actions. The ending cash balance was \$155.8 million.

We had a great quarter with double-digit growth rates both in orders and sales, said Beth Nickels, Chief Financial Officer. Our international markets led the way with a greater than 40% increase in sales and more than a 53% increase in orders. We did see a modest favorable impact from the price increase that went into effect the beginning of August, but we also had a price increase last year, so on balance it did not have a significant impact on our comparisons. Our ending backlog included about \$10 million in orders that are scheduled out past the second quarter; this compares to an \$8 million impact last year. In addition, we have continued to see strong order-entry trends since the price increase took effect.

Gross margin was 31.4% for the quarter, which was a slight improvement over the 31.3% achieved in the same quarter last year. On a sequential basis, gross margins declined from the 31.8% achieved in the fourth quarter. Gross margins were positively affected by efficiencies resulting from the Canton, Georgia, plant consolidation and were negatively impacted by increased raw material costs, primarily steel.

Operating expenses for the quarter totaled \$88.6 million or 24.8% of sales, compared to \$85.6 million or 26.4% of sales for the same period in fiscal 2004. Most of the increased spending was the result of variable selling costs driven by the higher sales levels, as well as higher current wages and incentive accruals.

The \$0.5 million of restructuring charges for the quarter were primarily associated with the previously announced relocation of the Canton operations. That move is complete. Modest restructuring charges will be reported in the future as the final Canton relocation costs are incurred.

The company adopted the provisions of FIN 46 in the fourth quarter of the prior year. The current quarter's results reflect the consolidation of two independent contract furniture dealerships to which the company was providing ongoing financial support through loans and/or financial guarantees. This action increased the current quarter's net sales by \$2.5 million and net earnings by \$0.8 million. Included in the net earnings from FIN 46 dealerships is a net gain of \$0.7 million due to one of the entities transitioning its business to another independent dealer during the quarter. In addition, the effect of the remaining FIN 46 entity on the company's balance sheet as of August 28, 2004, was an increase to assets of approximately \$1.0 million and liabilities of \$0.8 million.

The company's ending cash position was \$155.8 million. Cash flow from operations for the quarter totaled \$2.8 million compared to \$35.7 million for the same period last year. Included in the current year's cash from operations was a voluntary contribution of \$23.0 million to the company's employee pension fund. Capital spending for the quarter was \$3.8 million compared to \$5.5 million for the same period last year. The company also repurchased approximately 1.4 million shares of its stock for \$37.5 million, at an average price of \$27.22 per share during the quarter.

Ms. Nickels added, "The strength of our operating results and cash position clearly demonstrate the leverage we have in our business model. We saw some significant increases in raw material costs this quarter, approximately \$4 million in steel alone, yet we were still able to achieve favorable margins as a result of the many structural changes we have implemented. On the cash side, we continued to fund our strategic initiatives, contributed \$23 million in pension funding, and repurchased \$37 million in stock while closing the quarter with over \$155 million in cash."

Looking forward, the company expects sales for the second quarter of fiscal 2005 to be in a range of \$360 million to \$380 million, which represents a 9% to 15% increase over the prior year. It estimates earnings per share of \$.19 to \$.24, which reflects the continued impact of raw material cost increases combined with slightly higher operating expenses to fund continued growth.

Brian Walker, Chief Executive Officer, stated, "Even though some of the macro economic factors that drive our business are not improving as fast as anticipated, our industry still continued to make progress this quarter and appears poised for growth. Our strategic intent is to grow faster than the industry through our continued focus on innovation and market expansion. Coupled with our drive for continuous improvement and operational excellence, our strategy will result in superior value for our customers and shareholders. This quarter's results are evidence of our ability to drive substantial improvements in profit on modest growth."

The company announced a live webcast to discuss the results of the fiscal 2005 first quarter, to be held Thursday, September 16, 2004, at 9:30 a.m. EDT. The company encourages all interested parties to log in to the website to obtain presentation materials, which will augment the verbal presentation. To ensure your access to the webcast, you should allow extra time to visit our website at www.hermanmiller.com to download the streaming software necessary to participate. An online archive of the presentation will be available on the website later that day.
