LYDALL, INC. NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

- The accompanying consolidated condensed financial statements include the accounts of Lydall, Inc. and its wholly owned subsidiaries (collectively, the Company or the Registrant). All financial information is unaudited for the interim periods reported. All significant intercompany transactions have been eliminated in the consolidated condensed financial statements. Management believes that all adjustments, which include only normal recurring adjustments necessary to present the consolidated financial position, results of operations and cash flows for the periods reported, have been included. The year-end consolidated condensed balance sheet was derived from the December 31, 2000 audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. For further information, refer to the consolidated financial statements and accompanying notes included in the Company s Annual Report on Form 10-K for the year ended December 31, 2000.
- 2. Basic earnings per common share are based on income from continuing operations and net income divided by the weighted average number of common shares outstanding during the period. Diluted earnings per common share are based on income from continuing operations and net income divided by the weighted average number of common shares outstanding during the period, including the effect of stock options, where such effect is dilutive.

3. In February 2001, the Company s Board of Directors adopted a plan to discontinue the operations of the Paperboard Segment, consisting principally of the Southern Products and Lydall & Foulds Divisions. Accordingly, the operating results of this segment have been segregated from continuing operations and reported as discontinued operations for all periods presented.

On February 1, 2001, the Company announced that the Lydall & Foulds Division would be closed on April 1, 2001. Additionally, on February 5, 2001, the Company sold the Southern Products Division for approximately \$15 million in cash, subject to a post closing adjustment. In total, the disposition of the Paperboard Segment resulted in a gain, net of tax, of \$.8 million or \$.05 per diluted share. The sale of the Southern Products Division resulted in a gain, net of tax, of \$3.6 million or \$.23 per diluted share. The closing of the Lydall & Foulds Division resulted in a loss, net of tax, of \$2.8 million or \$.18 per share representing costs incurred from the measurement date through March 31, 2001, severance and other exit costs to be incurred during the phase-out period, and the adjustment to net realizable value for certain current and long-lived assets.

Edgar Filing: LYDALL INC /DE/ - Form 10-Q/A

Paperboard Segment net assets to be disposed of, consisting primarily of accounts receivable, inventory and property, plant and equipment of the Lydall & Foulds Division, with a total net realizable value of \$1.5 million, have been classified in the Consolidated Condensed Balance Sheet at March 31, 2001 as Net investment in discontinued operations.

4. During the quarter ended March 31, 2001, the Company recorded an impairment charge before tax of \$.8 million, or \$.03 per share after tax, related to assets held for sale owned by its Composite Materials Covington Operation. On April 2, 2001, the Company sold certain assets of this operation for approximately \$1.8 million and announced that the operation would be closing. Closing costs and severance benefits will be recorded as a charge in the second quarter of 2001 and are expected to be between \$.05 to \$.06 per share. The Covington operation generated net sales of \$1.6 million and \$1.8 million for the first quarter of 2001 and 2000, respectively, and was essentially breakeven for both quarters.

6

LYDALL, INC. NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Continued)

5. Lydall s reportable segments are Thermal/Acoustical and Filtration/Separation. All other products and services are aggregated in Other Products and Services. Reconciling Items include Corporate Office operating expenses and intercompany eliminations. For a full description of each segment, refer to the Notes to Consolidated Financial Statements reported in the Company s 2000 Annual Report on Form 10-K. The table below presents net sales and operating income (loss) by segment for the three months ended March 31, 2001 and 2000

In thousands Three Months Ended	Thermal/ Acoustical	Filtration/ Separation	Other Products and Services	Reconciling Items	Consolidated Totals
March 31, 2001 (Restated See Note 7)					
Net sales	\$ 32,101	\$ 17,566	\$ 9,316	(\$ 717)	\$ 58,266
Operating income (loss)	\$ 4,397	\$ 1,784	(\$ 83)	(\$ 3,995)	\$ 2,103
March 31, 2000					
Net sales	\$ 44,231	\$ 16,221	\$ 10,271	(\$ 990)	\$ 69,733
Operating income	\$ 4,283	\$ 2,422	\$ 878	(\$ 3,059)	\$ 4,524

The operating loss for Other Products and Services for the period ended March 31, 2001 includes a pre-tax impairment charge of \$.8 million related to the closing of the fiberboard operation.

6. On January 1, 2001, the Company adopted Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended by Statement of Financial Accounting Standards No. 137, Accounting for Derivative Instruments and Hedging Activities Deferral of the Effective Date of FASB Statement No. 133, an amendment of FASB Statement No. 133 and Statement of Financial Accounting Standards No. 138, Accounting for Certain Derivative Instruments and Certain Hedging Activities, an amendment of FASB Statement No. 133 (collectively referred to hereafter as FAS 133). In accordance with the transition provisions of FAS 133, the Company recorded a \$.2 million net-of-tax cumulative-effect adjustment in other comprehensive income as of January 1, 2001 representing the fair value of the interest rate swap designated as a cash flow hedge.

At March 31, 2001, the interest rate swap is the Company s only derivative instrument. The swap is a cash flow hedge utilized to convert the base rate component of the variable interest rate on the Company s term loan to a fixed rate. In accordance with FAS 133, the swap has been recorded at its fair value as of the balance sheet date. Subsequent changes in the fair value of the swap will be recorded in other comprehensive income to the extent the hedge is effective. The Company formally assesses effectiveness on an ongoing basis. If it is determined that the interest rate swap has ceased to be highly effective as a hedge, the Company will discontinue hedge accounting prospectively and changes in the fair value of the interest rate swap will be reported in current period earnings.

7. On November 6, 2002, Lydall executives became aware of possible accounting irregularities at the Company s Columbus, Ohio automotive operation. An investigation was initiated immediately and identified that certain Columbus employees, acting in collusion, had circumvented the local internal control system by delaying accounting recognition of liabilities and related expenses and, accordingly, caused misstatements of previously reported financial results. As a result, the Company is amending its Quarterly Report on Form 10-Q for the quarter ended March 31, 2001 to restate its financial position, results of operations and cash flows as of and for the three months ended March 31, 2001. The impact of correcting these misstatements was to increase cost of sales by approximately \$0.2 million and, consequently, reduce gross margin and operating income by approximately \$0.2 million.

The effect on the operating results for the three months ended March 31, 2001, previously reported in the Company s Quarterly Report on Form 10-Q filed on May 11, 2001, is as follows:

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

The following Management s Discussion and Analysis of Financial Condition and Results of Operations reflects the Company s restatement of certain 2001 amounts (see Note 7).

Results of Operations

Net Sales

Lydall, Inc. recorded net sales of \$58.3 million in the first quarter of 2001 compared with \$69.7 million for the same quarter in 2000, a decrease of \$11.5 million (16.4%). The disposition of two unprofitable German operations at the end of the third quarter of 2000 reduced net sales by \$13.6 million. After adjusting for the disposition of the German operations, net sales increased for the first quarter of 2001 over 2000 by \$2.1 million, primarily due to increased sales volume of the Company s thermal/acoustical and filtration/separation products.

Gross Margin

Gross margin for the first quarter of 2001 was 28.1 percent compared to 25.2 percent for the same quarter of 2000. The disposition of the two German operations accounted for a majority of the gross margin improvement as these operations generated gross margins significantly below the Company s average. In addition, increased sales volume for Lydall s automotive thermal/acoustical products improved gross margins for the quarter ended March 31, 2001 when compared to the same period in the prior year.

Selling, Product Development and Administrative Expenses

For the quarter ended March 31, 2001, selling, product development and administrative expenses were \$13.5 million compared to \$13.1 million for the same period in 2000. The increase in selling, product development and administrative expenses is the result of increased selling expenses primarily associated with the introduction of the Bio-PakTM product line, the restaffing of the corporate finance department, increased payroll taxes associated with incentive compensation paid in the first quarter of 2001 and unfavorable self-insured claims experience. These increases were partially offset by the reduction in selling, product development and administrative expenses due to the divestiture of two German operations.

Impairment Charge

During the quarter ended March 31, 2001, the Company recorded an impairment charge before tax of \$.8 million, or \$.03 per share after tax, related to assets held for sale owned by its Composite Materials Covington Operation. On April 2, 2001, the Company sold certain assets of this operation for approximately \$1.8 million and announced that the operation would be closing. Closing costs and severance benefits will be recorded as a charge in the second quarter of 2001 and are expected to be between \$.05 and \$.06 per share.

Other (Income) Expense

Other expense for the quarter ended March 31, 2001 was \$.5 million and consisted primarily of interest expense of \$.3 million and foreign currency transaction losses of approximately \$.2 million.

Other income for the quarter ended March 31, 2000 was \$5.8 million and consisted primarily of a gain from the sale of the Hoosick Falls Operation of \$6.1 million and a gain of \$.3 million from the receipt of common stock due to the demutualization of one of the Company s insurance carriers. These gains were partially offset by interest expense of \$.5 million.

Income Taxes

The effective tax rate on income from continuing operations for the three months ended March 31, 2001 was 32.8 percent compared to 37.0 percent for the same period in 2000. The decrease is primarily due to the gain on the sale of the Hoosick Falls Operation recorded in the first quarter of 2000 that resulted in an unusually high state effective tax rate when compared to the Company s historic effective rate.

9

Segment Results

Thermal/Acoustical

Thermal/Acoustical net sales decreased \$12.1 million (27.4 %) for the first quarter of 2001 compared to the same period in 2000. Net sales for the first quarter of 2000 include \$13.6 million of sales from the two German operations that were divested at the end of the third quarter of 2000. After adjusting prior year net sales for the divested operations, segment net sales increased approximately \$1.5 million primarily due to the increased sales volume of the Company s automotive thermal/acoustical products.

Thermal/Acoustical operating income for the first quarter of 2001 increased \$.1 million (2.7%) over the same period in 2000 primarily due to increased sales volume. Operating margin increased from 9.7 percent in 2000 to 13.7 percent in 2001 primarily due to the disposition of the two unprofitable German operations and increased sales volumes.

Filtration/Separation

Filtration/Separation net sales increased \$1.3 million (8.3%) for the first quarter ended March 31, 2001 compared to the same period of 2000. Sales of the Company s bioprocessing products increased as a number of new qualifications for the Company s Bio-Pakstomized sterile containers were obtained during the quarter. In addition, demand for the Company s high-efficiency air filtration media was particularly strong in Europe, and U.S. demand remained strong for the first quarter ended March 31, 2001.

Filtration/Separation operating income decreased \$.6 million (26.3%) for the first quarter ended March 31, 2001 compared to the same period in 2000. Lower operating income was primarily due to increased raw material costs for air filtration media and increased spending associated with the introduction of the Bio-Pak product line.

Other Products and Services

Other Products and Services net sales decreased \$1.0 million (9.3%) for the first quarter of 2001 compared to the same period in 2000. The absence of approximately \$.5 million of gasket sales, a business that was sold in the first quarter of 2000, accounted for a portion of the net decrease. Lower demand for the Company s specialty substrates was partially offset by growth of Lydall Transport, Ltd. The Covington Operation, sold on April 2, 2001, generated net sales of \$1.6 million and was essentially breakeven for the first quarter of 2001.

Other Products and Services operating income decreased \$.2 million (23.0%) for the first quarter ended March 31, 2001, after adjusting for a pre-tax impairment charge of \$.8 million related to assets held for sale owned by its Composite Materials Covington Operation, compared to the same period in 2000 primarily due to lower sales volume.

Outlook

The Company completed its strategic restructuring plan during the first quarter with the sale of non-core businesses and the closing of unprofitable operations. As a result, Lydall has narrowed its strategic focus to its two core businesses filtration/separation and thermal/acoustical. Lydall will also continue to operate and grow its Lydall Transport, Ltd. subsidiary, a provider of total logistics services and an important service provider to the Company s other businesses.

Lydall s thermal/acoustical and filtration/separation businesses remain healthy and are expected to strengthen during the second quarter. The Company started several new development efforts for filtration/separation products in the first quarter of 2001, and the automotive portion of the thermal/acoustical business continues to benefit from new-product introductions. Also in April, the Company entered into a strategic alliance with BGF Industries, Inc. By virtue of the agreement, Lydall is the exclusive representative of BGF products for thermal applications in the appliance market. The agreement enhances Lydall s position as a thermal solutions provider to the consumer appliance market and significantly broadens the Company s product offering in this area.

10

Liquidity and Capital Resources

At March 31, 2001, cash and cash equivalents were \$4.2 million compared to \$2.2 million at December 31, 2000. Working capital at March 31, 2001 was \$46.7 million compared with \$54.6 million at December 31, 2000. The reduction in working capital is mainly due to the sale of the Southern Products Division of the Paperboard Segment during the first quarter of 2001.

Capital expenditures were \$2.1 million for the first quarter of 2001 compared with \$4.2 million for the same period in 2000 as the Company completed several major capital projects in 2000.

As of March 31, 2001, the Company had unused borrowing capacity of approximately \$49.7 million under various credit facilities. Management believes that the Company s cash and cash equivalents, operating cash flow, and unused borrowing capacity at March 31, 2001 are sufficient to meet current and anticipated requirements for the foreseeable future.

Accounting Standards

On January 1, 2001 the Company adopted Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended by Statement of Financial Accounting Standards No. 137, Accounting for Derivative Instruments and Hedging Activities Deferral of the Effective Date of FASB Statement No. 133, an amendment of FASB Statement No. 133 and Statement of Financial Accounting Standards No. 138, Accounting for Certain Derivative Instruments and Certain Hedging Activities, an amendment of FASB Statement No. 133 (collectively referred to hereafter as FAS 133). In accordance with the transition provisions of FAS 133, the Company recorded a \$.2 million net-of-tax cumulative-effect adjustment in other comprehensive income as of January 1, 2001 representing the fair value of an interest rate swap previously designated a cash flow hedge.

Forward-Looking Information

In the interest of more meaningful disclosure, Lydall and its management make statements regarding the future outlook of the Company that constitute forward-looking statements under the securities laws. These forward-looking statements are intended to provide management s current expectations for the future operating and financial performance of the company, based on assumptions and estimates currently believed to be valid. Forward-looking statements are included under the Outlook section of Item 2 and elsewhere within this report and are generally identified through the use of language such as believe, expect, estimate, anticipate and other words of similar meaning in connection with discussion of future operating or financial performance.

All forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements. Some of the factors that might cause such a difference include risks and uncertainties which are detailed in Note 14 and in the Management s Discussion and Analysis of Financial Condition and Results of Operations section of the Company s 2000 Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no significant changes in market risks from those disclosed in Item 7A of Management s Discussion and Analysis of Financial Condition and Results of Operations in the Company s Annual Report on Form 10-K for the year ended December 31, 2000.
