SEMIANNUAL REPORT ON PERFORMANCE AND OUTLOOK

1-31-02

[SCALE LOGO OMITTED]

FROM THE TRUSTEES

[GRAPHIC OMITTED: PHOTO OF JOHN A. HILL AND GEORGE PUTNAM III]

Dear Shareholder:

If there is any such thing as normalcy in the securities markets, it certainly has not been much in evidence over the past two years as equity investors stampeded in droves to the relative safety of bonds. Bonds have flourished in this shower of attention and handily outperformed stocks.

Emerging signals now suggest that the economic downturn will neither be as deep nor as prolonged as was feared in the aftermath of the September 11th attacks. The challenges presented by the shift from recession to recovery are being closely assessed by Putnam Premier Income Trust's management team. The team presents its in-depth analysis of performance and prospects in the following report.

As you will note in this report, we are now simply listing the name of the team responsible for the fund's management rather than individual team members. This change reflects Putnam's belief that mutual funds are more effectively overseen by teams than by individuals.

Respectfully yours,

/S/ JOHN A. HILL

/S/ GEORGE PUTNAM, III

John A. Hill
Chairman of the Trustees
March 13, 2002

George Putnam, III
President of the Funds

REPORT FROM FUND MANAGEMENT

This fund is managed by the
Putnam Core Fixed-Income Team

In a period marked by a transition from recession to hopes for a global economic recovery, Putnam Premier Income Trust weathered the uncertainties well, benefiting from its diverse range of bond holdings in several different fixed-income sectors and geographic regions. The fund's performance at net asset value was mixed relative to its comparative benchmark indices, outperforming the CSFB High Yield Index and the Salomon Smith Barney Non-World Government Bond Index, while

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

underperforming the Lehman Government Bond Index. The fund's higher return at market price, which outperformed all three benchmarks, reflected increased demand for fixed-income investments growing out of the general flight to safety produced by the volatility and uncertainty of the period.

Total return for 6 months ended 1/31/02

NAV	Market price
2.05%	4.89%

Past performance does not indicate future results. Performance based on market prices for the shares will vary from performance based on the portfolio's net asset value. Performance information for longer periods begins on page 6.

* A CHALLENGING AND VOLATILE PERIOD FOR GLOBAL BOND MARKETS

Financial markets faced an exceptionally challenging and volatile semiannual period as weaker-than-expected data trends and tragedy in the United States raised economic and geopolitical uncertainty to new heights. Prior to September 11th, global yields declined as investors scrutinized key indicators for signs of a rebound in economic activity. After September 11th, yield curves in the major bond-market sectors steepened, as shorter-maturity issues rallied strongly due to the decreased appetite for risk and increased preference for liquidity.

[GRAPHIC OMITTED: horizontal bar chart SECTOR ALLOCATIONS]

SECTOR ALLOCATIONS*

High yield	47.6%
U.S. investment grade	28.7%
Foreign	23.7%

Footnote reads:

* Based on net assets as of 1/31/02. Holdings will vary over time.

Following military advances in Afghanistan, investors became less risk averse. In addition, a better-than-expected rebound in consumer activity prompted a selloff in global sovereigns, which erased some of the gains achieved during the period. Central banks around the world cut rates actively during the period and the Federal Reserve Board led the pack with an additional 2.0% in rate reductions. As the period came to a close, improving economic fundamentals reinforced investor expectations for a modest recovery. Meanwhile, the Federal Reserve's decision to leave interest rates unchanged at their January 30-31 meeting suggested the worst of the U.S. slowdown may have passed. This was the first Fed meeting in over a year that has not resulted in an interest-rate cut.

* INVESTMENT-GRADE SECTORS PERFORMED WELL

Investment-grade bond markets continued to benefit from increased demand resulting from lower short-term interest rates and poor performance in equities. However, more robust economic reports, which seemed to indicate a turning point, progressively placed pressure on

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

investment-grade bond returns after the initial trauma following September 11th had subsided. Your fund's performance overall benefited from allocations to the U.S. investment-grade sectors, especially Treasuries and mortgage-backed securities.

* HIGH-YIELD SECTOR REMAINED VOLATILE

Volatility remained the norm for the high-yield market, which surged and receded with each change in investor sentiment. High-yield bonds typically track trends in the equity markets. However, despite declining equity markets amid weaker-than-expected economic data and poor earnings announcements, high-yield bonds held up relatively well in the beginning of the period. Investor demand continued to be stimulated by positive relative returns and steeper yield curves as world central banks initiated an additional round of easings. However, September 11th erased all high-yield returns earned since January, as investors penalized the asset class for its lack of liquidity, credit risk, and sensitivity to the worsening economic environment. This cut into the fund's gains at the time.

Fund Profile

Putnam Premier Income Trust is designed for investors seeking a high level of current income consistent with preservation of capital. The fund maintains flexibility across fixed-income sectors to seek maximum current income without undue risk to capital. The fund is designed for investors seeking a higher level of income who can accept a moderately higher level of risk.

Beginning in October and continuing through the end of the period, the rapid dissipation of investors' gloomiest economic scenarios helped the high-yield market recover most of the ground lost following the attacks. One sector, telecommunications, weighed down market returns during the period as the ongoing inability of telecom companies to show profits or find additional financing led to increasing defaults. Better-than-expected economic data helped fuel an early January high-yield rally, although rating downgrades, defaults, and rumors of restructuring began to pressure returns for the latter part of the month.

* INTERNATIONAL BONDS HELD UP WELL AMID THE SLOWING GLOBAL ECONOMY

Global bonds in developed markets rose modestly for the semi-annual period. Following the terrorist attacks on September 11th, fears of a U.S.-led economic downturn in the global economy precipitated a round of coordinated monetary easing from world central banks. Global bonds benefited from this environment of heightened economic and geopolitical uncertainty, and your fund's performance benefited in turn. As 2001 came to an end, global bonds in developed markets quickly lost steam as investors grew more optimistic about economic recovery and equity markets bounced back from their post-September 11th lows. Within developed markets, the fund's exposure to Germany was a positive contributor to performance.

Emerging-market bonds advanced broadly in 2001, although returns were weighted down by the lack of structural reform in Argentina that eventually culminated in default. Within the emerging-markets sector, the fund's overweighted position in Russia, as well as our avoidance of Argentina, contributed positively to performance.

* MANAGEMENT SEES A MODEST RECOVERY IN 2002

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

We believe there will be continued low inflation and a modest recovery in the first half of 2002. The stimulative effect of the Fed's aggressive monetary easing policy, combined with the government's fiscal policy, appears to have helped the economy stabilize; however, business and consumer spending is expected to remain relatively weak in 2002, leading to only a modest recovery by historical standards.

[GRAPHIC OMITTED: TOP SECTOR HOLDINGS]

TOP SECTOR HOLDINGS*

Top three high-yield holdings

Allied Waste Industries, Inc., company guaranty, Series B, 10.0%, 2009

U.S. Treasury Bonds 7.5%, 11/15/16

Federal National Mortgage Association, TBA, 6.5%, 2/1/17

U.S. Treasury Bonds 5.375%, 2/15/31

Top three international holdings

Germany (Federal Republic of) bonds Series 95, 7.375%, 2005

France (Government of) bonds 5.5%, 2010

Brazil (Federal Republic of) bonds, 8.0%, 2014

Footnote reads:

*These holdings represent 18.8% of the fund's net assets as of 1/31/02. Portfolio holdings will vary over time.

The Fed's decision to keep interest rates unchanged at its January 30 meeting signals a pause, if not an end, to its year-long aggressive rate-cutting campaign. Nonetheless, we believe that continued low inflation will likely allow the Fed more time before it feels the need to raise rates. We will continue to monitor the fixed-income universe closely, identifying securities with positive fundamentals and attractive valuations.

We remain cautiously optimistic on the high-yield market. Our economists' expectations of only a modest economic recovery beginning in the second quarter do not diminish the attractiveness of high-yield bonds as valuations remain compelling in this sector. The current yield spread (the difference between the yield on high-yield bonds and that on Treasuries) remains above the historical average, reflecting modest recovery expectations and a continued high default rate. Credit dynamics in the high-yield market should also improve this year.

"For the second consecutive year, investors in most bond mutual funds enjoyed solid returns in 2001, a respite from the miserable returns in stocks over that period."

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

-- The Wall Street Journal, January 7, 2002

Internationally, we continue to find value in developed markets, while we are neutral with regard to emerging markets. Fortunately, Argentina's default has had little impact on the rest of the emerging-markets sector thus far. As investors in the global bond markets look toward an improving environment this year, we will continue to maintain the fund's diversity, take advantage of opportunities as they arise, and maintain strict risk controls.

The views expressed here are exclusively those of Putnam Management. They are not meant as investment advice. Although the described holdings were viewed favorably as of 1/31/02, there is no guarantee the fund will continue to hold these securities in the future. International investing involves certain risks, such as currency fluctuations, economic instability, and political developments. Lower-rated bonds may offer higher yields in return for more risk. Government securities guarantee principal and interest; mutual funds that invest in these securities are not guaranteed. Mortgage-backed securities are subject to prepayment risk.

NEWS FROM THE TRUSTEES

In July 2001, we welcomed Charles B. Curtis to Putnam's Board of Trustees. He brings an impressive list of credentials that include several key positions in Washington and directorships in education and energy-related industries. We look forward to the contributions Charles will make to the continued success of the Putnam funds.

PUTNAM'S POLICY ON DUPLICATE MAILINGS

In response to investors' requests, the SEC has modified mailing regulations for proxy statements, semiannual and annual reports, and prospectuses. Putnam is now able to send a single copy of these materials to customers who share the same address. This change will automatically apply to all shareholders except those who notify us. If you would prefer to receive your own copy, please call Putnam at 1-800-225-1581.

PERFORMANCE SUMMARY

This section provides information about your fund's performance, which should always be considered in light of its investment strategy.

Past performance does not indicate future results. More recent returns may be less or more than those shown. Investment return, net asset value, and market price will fluctuate, and you may have a gain or a loss when you sell your shares. Performance does not reflect taxes on reinvested distributions.

TERMS AND DEFINITIONS

Total return shows how the value of the fund's shares changed over time, assuming you held the shares through the entire period and reinvested all distributions in the fund.

Net asset value (NAV) is the price, or value, of one share of a mutual fund, without a sales charge. NAVs fluctuate with market conditions. The NAV is calculated by dividing the net value of all of the fund's assets by the number of outstanding shares.

Market price is the current trading price of one share of the fund. Market prices are set by transactions between buyers and sellers on the New York Stock Exchange.

COMPARATIVE BENCHMARKS

Lehman Government Bond Index* is an unmanaged list of U.S. Treasury and agency securities.

Credit Suisse First Boston (CSFB) High Yield Index* is an unmanaged list of lower-rated higher-yielding U.S. corporate bonds.

Salomon Brothers Non-U.S. World Government Bond Index* is an unmanaged list of bonds issued by 10 countries.

Consumer price index (CPI) is a commonly used measure of inflation; it does not represent an investment return.

Footnote reads:

* Indexes assume reinvestment of all distributions and do not account for fees. Securities and performance of a fund and an index will differ. You

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

cannot invest directly in an index.

A GUIDE TO THE FINANCIAL STATEMENTS

These sections of the report, as well as the accompanying Notes, constitute the fund's financial statements.

The fund's portfolio lists all the fund's investments and their values as of the last day of the reporting period. Holdings are organized by asset type and industry sector, country, or state to show areas of concentration and diversification.

Statement of assets and liabilities shows how the fund's net assets and share price are determined. All investment and noninvestment assets are added together. Any unpaid expenses and other liabilities are subtracted from this total. The result is divided by the number of shares to determine the net asset value per share, which is calculated separately for each class of shares. (For funds with preferred shares, the amount subtracted from total assets includes the net assets allocated to remarketed preferred shares.)

Statement of operations shows the fund's net investment gain or loss. This is done by first adding up all the fund's earnings -- from dividends and interest income -- and subtracting its operating expenses to determine net investment income (or loss). Then, any net gain or loss the fund realized on the sales of its holdings -- as well as any unrealized gains or losses over the period -- is added to or subtracted from the net investment result to determine the fund's net gain or loss for the fiscal period.

Statement of changes in net assets shows how the fund's net assets were affected by distributions to shareholders and by changes in the number of the fund's shares. It lists distributions and their sources (net investment income or realized capital gains) over the current reporting period and the most recent fiscal year-end. The distributions listed here may not match the sources listed in the Statement of operations because the distributions are determined on a tax basis and may be paid in a different period from the one in which they were earned.

Financial highlights provide an overview of the fund's investment results, per-share distributions, expense ratios, net investment income ratios and portfolio turnover in one summary table, reflecting the five most recent reporting periods. In a semiannual report, the highlight table also includes the current reporting period. For open-end funds, a separate table is provided for each share class.

(NON) Non-income-producing security.

(STP) The interest or dividend rate and date shown parenthetically
represent the new interest or dividend rate to be paid and the date the
fund will begin accruing interest or dividend income at this rate.

(RES) Restricted, excluding 144A securities, as to public resale. The
total market value of restricted securities held at January 31, 2002 was
\$23,619,424 or 2.6% of net assets.

(PIK) Income may be received in cash or additional securities at the
discretion of the issuer.

(SEG) A portion of this security was pledged and segregated with the
custodian to cover margin requirements for futures contracts at January
31, 2002.

(R) Real Estate Investment Trust.

144A after the name of a security represents those exempt from
registration under Rule 144A of the Securities Act of 1933. These
securities may be resold in transactions exempt from registration,
normally to qualified institutional buyers.

TBA after the name of a security represents to be announced
securities (Note 1).

FLIRB represents Front Loaded Interest Reduction Bond.

The rates shown on Floating Rate Bonds (FRB) and Floating Rate
Notes (FRN) are the current interest rates shown at January 31, 2002,
which are subject to change based on the terms of the security.

- (c) Includes amounts paid through expense offset arrangements (Note 2).
- (d) Portfolio turnover excludes certain treasury note transactions executed in connection with a short-term trading strategy.

NOTES TO FINANCIAL STATEMENTS January 31, 2002 (Unaudited)

Note 1

Significant accounting policies

Putnam Premier Income Trust (the "fund") is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The fund's investment objective is to seek high current income consistent with the preservation of capital by allocating its investments among the U.S. government sector, the high yield sector and the international sector of the fixed-income securities market.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates

A) Security valuation Investments for which market quotations are readily available are stated at market value, which is determined using the last reported sales price on its principal exchange, or if no sales are reported -- as in the case of some securities traded over-the-counter -- the last reported bid price. Market quotations are not considered to be readily available for certain debt obligations; such investments are stated at fair value on the basis of valuations furnished by an independent pricing service or dealers, approved by the Trustees, which determine valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities and variable relationships, generally recognized by institutional traders, between securities. Securities quoted in foreign currencies are translated into U.S. dollars at the current exchange rate. Short-term investments having remaining maturities of 60 days or less are stated at amortized cost, which approximates market value. Other investments, including restricted securities, are stated at fair value following procedures approved by the Trustees.

B) Joint trading account The fund may transfer uninvested cash balances, including cash collateral received under security lending arrangements, into a joint trading account along with the cash of other registered investment companies and certain other accounts managed by Putnam Investment Management, LLC ("Putnam Management"), the fund's manager, an indirect wholly-owned subsidiary of Putnam, LLC. These balances may be invested in one or more repurchase agreements and/or short-term money market instruments.

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

C) Repurchase agreements The fund, or any joint trading account, through its custodian, receives delivery of the underlying securities, the market value of which at the time of purchase is required to be in an amount at least equal to the resale price, including accrued interest. Collateral for certain tri-party repurchase agreements is held at the counterparty's custodian in a segregated account for the benefit of the fund and the counterparty. Putnam Management is responsible for determining that the value of these underlying securities is at all times at least equal to the resale price, including accrued interest.

D) Security transactions and related investment income Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Gains or losses on securities sold are determined on the identified cost basis.

Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Non-cash dividends if any, are recorded at the fair market value of the securities received.

All premiums/discounts are amortized/accreted on a yield-to-maturity basis. The premium in excess of the call price, if any, is amortized to the call date; thereafter, the remaining excess premium is amortized to maturity.

E) Foreign currency translation The accounting records of the fund are maintained in U.S. dollars. The market value of foreign securities, currency holdings, and other assets and liabilities are recorded in the books and records of the fund after translation to U.S. dollars based on the exchange rates on that day. The cost of each security is determined using historical exchange rates. Income and withholding taxes are translated at prevailing exchange rates when accrued or incurred. The fund does not isolate that portion of realized or unrealized gains or losses resulting from changes in the foreign exchange rate on investments from fluctuations arising from changes in the market prices of the securities. Such gains and losses are included with the net realized and unrealized gain or loss on investments. Net realized gains and losses on foreign currency transactions represent net realized exchange gains or losses on closed forward currency contracts, disposition of foreign currencies and the difference between the amount of investment income and foreign withholding taxes recorded on the fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized appreciation and depreciation of assets and liabilities in foreign currencies arise from changes in the value of open forward currency contracts and assets and liabilities other than investments at the period end, resulting from changes in the exchange rate. Investments in foreign securities involve certain risks, including those related to economic instability, unfavorable political developments, and currency fluctuations, not present with domestic investments.

F) Forward currency contracts The fund may engage in forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to protect against a decline in value relative to the U.S. dollar of the currencies in which its portfolio securities are denominated or quoted (or an increase in the value of a currency in which securities a fund intends to buy are denominated, when a fund holds cash reserves and short-term investments). The U.S. dollar value of forward currency contracts is determined using current forward currency exchange rates supplied by a quotation service. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is "marked-to-market" daily and the change in market value is recorded as

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

an unrealized gain or loss. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The fund could be exposed to risk if the value of the currency changes unfavorably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the fund is unable to enter into a closing position.

G) Futures and options contracts The fund may use futures and options contracts to hedge against changes in the values of securities the fund owns or expects to purchase. The fund may also write options on securities it owns or in which it may invest to increase its current returns.

The potential risk to the fund is that the change in value of futures and options contracts may not correspond to the change in value of the hedged instruments. In addition, losses may arise from changes in the value of the underlying instruments, if there is an illiquid secondary market for the contracts, or if the counterparty to the contract is unable to perform. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Realized gains and losses on purchased options are included in realized gains and losses on investment securities.

Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. The fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin." Exchange traded options are valued at the last sale price, or if no sales are reported, the last bid price for purchased options and the last ask price for written options. Options traded over-the-counter are valued using prices supplied by dealers.

H) Interest rate swap contracts The fund may engage in interest rate swap agreements, which are arrangements between two parties to exchange cash flows based on a notional principal amount. The fund may enter into interest rate swap agreements, to manage the funds exposure to interest rates. Interest rate swaps are marked to market daily based upon quotations from market makers and the change, if any, is recorded as unrealized gain or loss. Payments made or received are included as part of interest income. Payments received or made upon early termination are recorded as realized gain or loss. The fund could be exposed to credit or market risk due to unfavorable changes in the fluctuation of interest rates or that the counterparty may default on its obligation to perform.

I) TBA purchase commitments The fund may enter into "TBA" (to be announced) purchase commitments to purchase securities for a fixed unit price at a future date beyond customary settlement time. Although the unit price has been established, the principal value has not been finalized. However, the amount of the commitments will not fluctuate more than 0.01% from the principal amount. The fund holds, and maintains until settlement date, cash or high-grade debt obligations in an amount sufficient to meet the purchase price, or the fund may enter into offsetting contracts for the forward sale of other securities it owns. Income on the securities will not be earned until settlement date. TBA purchase commitments may be considered securities in themselves, and involve a risk of loss if the value of the security to be purchased declines prior to the settlement date, which risk is in addition to the risk of decline in the value of the fund's other assets. Unsettled TBA purchase commitments are valued at the current market value of the

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

underlying securities, according to the procedures described under "Security valuation" above.

Although the fund will generally enter into TBA purchase commitments with the intention of acquiring securities for their portfolio or for delivery pursuant to options contracts it has entered into, the fund may dispose of a commitment prior to settlement if Putnam Management deems it appropriate to do so.

J) TBA sale commitments The fund may enter into TBA sale commitments to hedge its portfolio positions or to sell mortgage-backed securities it owns under delayed delivery arrangements. Proceeds of TBA sale commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment deliverable on or before the sale commitment date, are held as "cover" for the transaction.

Unsettled TBA sale commitments are valued at the current market value of the underlying securities, generally according to the procedures described under "Security valuation" above. The contract is "marked-to-market" daily and the change in market value is recorded by the fund as an unrealized gain or loss. If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the fund realizes a gain or loss. If the fund delivers securities under the commitment, the fund realizes a gain or a loss from the sale of the securities based upon the unit price established at the date the commitment was entered into.

K) Security lending The fund may lend securities, through its agent Citibank N.A., to qualified borrowers in order to earn additional income. The loans are collateralized by cash and/or securities in an amount at least equal to the market value of the securities loaned. The market value of securities loaned is determined daily and any additional required collateral is allocated to the fund on the next business day. The risk of borrower default will be borne by Citibank N.A., the fund will bear the risk of loss with respect to the investment of the cash collateral. Income from securities lending is included in investment income on the Statement of operations. At January 31, 2002, the fund had no securities out on loan

L) Federal taxes It is the policy of the fund to distribute all of its taxable income within the prescribed time and otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. It is also the intention of the fund to distribute an amount sufficient to avoid imposition of any excise tax under Section 4982 of the Internal Revenue Code of 1986, as amended. Therefore, no provision has been made for federal taxes on income, capital gains or unrealized appreciation on securities held nor for excise tax on income and capital gains.

At July 31, 2001, the fund had a capital loss carryover of approximately \$109,681,000 available to the extent allowed by tax law to offset future capital gains, if any. The amount of the carryover and the expiration dates are:

Loss Carryover	Expiration
-----	-----
\$39,893,000	July 31, 2007
44,858,000	July 31, 2008
24,930,000	July 31, 2009

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

M) Distributions to shareholders Distributions to shareholders from net investment income are recorded by the fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid at least annually. The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations.

Note 2

Management fee, administrative services and other transactions

Compensation of Putnam Management, for management and investment advisory services is paid quarterly based on the average net assets of the fund. Such fee is based on the following annual rates: 0.75% of the first \$500 million of average weekly net assets, 0.65% of the next \$500 million, 0.60% of the next \$500 million and 0.55% of any amount over \$1.5 billion.

The fund reimburses Putnam Management an allocated amount for the compensation and related expenses of certain officers of the fund and their staff who provide administrative services to the fund. The aggregate amount of all such reimbursements is determined annually by the Trustees.

Custodial functions for the fund's assets are provided by Putnam Fiduciary Trust Company (PFTC), a wholly-owned subsidiary of Putnam, LLC. Investor servicing agent functions are provided by Putnam Investor Services, a division of PFTC.

Under the subcustodian contract between the subcustodian bank and PFTC, the subcustodian bank has a lien on the securities of the fund to the extent permitted by the fund's investment restrictions to cover any advances made by the subcustodian bank for the settlement of securities purchased by the fund. At January 31, 2002, the payable to the subcustodian bank represents the amount due for cash advance for the settlement of a security purchased.

The fund has entered into an arrangement with PFTC whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the fund's expenses. For the six months ended January 31, 2002, the fund's expenses were reduced by \$27,312 under these arrangements.

Each independent Trustee of the fund receives an annual Trustee fee, of which \$1,045 has been allocated to the fund, and an additional fee for each Trustees meeting attended. Trustees receive additional fees for attendance at certain committee meetings.

The fund has adopted a Trustee Fee Deferral Plan (the "Deferral Plan") which allows the Trustees to defer the receipt of all or a portion of Trustees Fees payable on or after July 1, 1995. The deferred fees remain invested in certain Putnam funds until distribution in accordance with the Deferral Plan.

The fund has adopted an unfunded noncontributory defined benefit pension plan (the "Pension Plan") covering all Trustees of the fund who have served as a Trustee for at least five years. Benefits under the Pension Plan are equal to 50% of the Trustee's average total retainer and meeting fees for the three years preceding retirement. Pension expense

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

for the fund is included in Compensation of Trustees in the Statement of operations. Accrued pension liability is included in Payable for compensation of Trustees in the Statement of assets and liabilities.

Note 3

Purchases and sales of securities

During the six months ended January 31, 2002, cost of purchases and proceeds from sales of investment securities other than U.S. government obligations and short-term investments aggregated \$296,478,571 and \$357,984,245, respectively. Purchases and sales of U.S. government obligations aggregated \$593,124,911 and \$549,533,392, respectively.

Written option transactions during the period are summarized as follows:

	Contract Amounts	Premiums Received
Written options outstanding at beginning of period	\$1,664,000	\$33,280
Options opened	6,126,000	11,167
Options expired	(6,126,000)	(11,167)
Options closed	(1,664,000)	(33,280)
Written options outstanding at end of period	\$--	\$--

Note 4

Share repurchase program

The Trustees authorized the fund to repurchase up to 7,000,000 of its shares in the open market. Repurchases will only be made when the fund's shares are trading at less than net asset value and at such times and amounts as is believed to be in the best interest of the fund's shareholders. Any repurchases of shares will have the effect of increasing the net asset value per share of remaining shares outstanding. For the six months ended January 31, 2002, the fund did not repurchase any shares. As of January 31, 2002, 511,000 shares have been repurchased since the inception of the program.

Note 5

New accounting pronouncement

As required, effective January 1, 2001, the fund has adopted the provisions of the AICPA Audit and Accounting Guide, Audits of Investment Companies. This Guide requires that the fund amortize premium and accrete discount on all fixed-income securities, and classify as interest income gains and losses realized on paydowns on mortgage-backed securities. Prior to January 1, 2001, the fund did not amortize premium and accrete discounts for certain fixed income securities and characterized as realized gains and losses paydowns on mortgage backed securities. Adopting these accounting principles will not affect the fund's net asset value, but will change the classification of certain

Edgar Filing: PUTNAM PREMIER INCOME TRUST - Form N-30D

amounts between interest income and realized and unrealized gain/loss in the Statement of operations. The adoption of this principle is not material to the financial statements.

Amendment to Bylaws
(Unaudited)

On March 9, 2001, the Trustees amended the fund's Bylaws to require advance notice of shareholder Trustee nominations and shareholder proposals fixing the number of Trustees. Shareholders wishing to propose one or more nominees for election as Trustees or wishing to make a proposal fixing the number of Trustees at an annual meeting of shareholders must provide written notice to the fund (including all required information) so that such notice is received in good order by the fund not less than sixty (60) nor more than ninety (90) days prior to the anniversary date of the immediately preceding annual meeting. An exception applies in the case of the annual meeting which was held in calendar year 2001, to the effect that the notice described above to be timely must be received in good order by the fund not less than thirty (30) days prior to that anniversary date. A further exception to the notice deadline applies in the event the date of the annual meeting is substantially advanced or delayed from that anniversary date. Copies of these amendments to the Bylaws have been filed with the Securities and Exchange Commission and are available from its public reference facilities.

ABOUT PUTNAM INVESTMENTS

One of the largest mutual fund families in the United States, Putnam Investments has a heritage of investment leadership dating back to Judge Samuel Putnam, whose Prudent Man Rule has defined fiduciary tradition and practice since 1830. Founded 65 years ago, Putnam Investments was built around the concept that a balance between risk and reward is the hallmark of a well-rounded financial program. We presently manage over 100 mutual funds in growth, value, blend, fixed income, and international.
