To Our Shareholders,

I am pleased to be writing to you as Chairman, President and Chief Executive Officer of John Hancock Funds, LLC.

As you may know, John Hancock Financial Services, Inc. -- the parent company of John Hancock Funds -- was acquired by Manulife Financial Corporation on April 28, 2004. The merger combines two exceptionally strong companies into a single, integrated, global market leader whose scale and capital will create an industry pacesetter strengthening our company's leadership in markets around the world.

Although this change has no impact on the mutual funds you have invested in, it did bring with it some changes in the executive-level management of John Hancock Funds. Specifically, Maureen Ford Goldfarb has decided to step down as chairman, president and chief executive officer in order to pursue personal interests. Since her appointment in January 2000, Maureen has provided John Hancock Funds with strong leadership and steady guidance through several years of extremely turbulent market and industry conditions.

Effective May 12, 2004, I have also been appointed by your Board of Trustees to the roles of Trustee, President and Chief Executive Officer of your fund. I have been in the investment business for over 25 years, most recently as President of Retirement Services at John Hancock Financial Services. In that role, my responsibilities included developing and directing the sale of John Hancock's variable and fixed annuity businesses through a diverse distribution network of banks and broker-dealers -- including wirehouses, regional brokerage houses and financial planners.

Prior to joining John Hancock, I served as Co-Chief Executive Officer of MetLife Investors Group, a subsidiary of MetLife, Inc. In that capacity my responsibilities included the design, manufacture and distribution of MetLife's annuity and life insurance products sold through third-party channels.

Although there has been a change in executive-level management, the one thing that never wavers is John Hancock Funds' commitment to placing the needs of our shareholders above all else. We are all dedicated to the task of working with you and your financial advisors to help you reach your long-term financial goals.

Sincerely,

/S/ JAMES A. SHEPHERDSON,

James A. Shepherdson,
Chief Executive Officer

YOUR FUND AT A GLANCE

The Fund seeks to provide high current income, consistent with modest growth of capital, for holders of its common shares by investing at least 80% of its assets in dividend-paying securities.

Over the last six months

- * A dividend tax cut and bond rally helped buoy demand for preferred and utility common stocks, but the last month of the period saw a sell-off on fears of higher interest rates.
- * The Fund benefited from advantageous security selection among preferred stocks.
- * A significant stake in utility common stocks also aided performance.

The chart is scaled in increments of 4% with 0% at the bottom and 8% at the top. The bar represents the 6.58% total return for John Hancock Patriot Premium Dividend Fund II. A note below the chart reads "The total return for the Fund is at net asset value with all distributions reinvested."]

MANAGERS'
REPORT

JOHN HANCOCK
Patriot Premium
Dividend Fund II

Preferred stocks -- which are the primary emphasis of John Hancock Patriot Premium Dividend Fund II -- posted positive returns during the six-month period ended April 30, 2004. An increasing number of companies that issued preferred stocks in years when interest rates were higher redeemed those older preferred stocks to take advantage of the lower interest rates that prevailed during much of the period. While the preferred market was also helped by a Treasury market rally in early March, a string of stronger-than-expected monthly economic reports in April resulted in one of the largest sell-offs in Treasuries in eight years, hurting preferred stock prices.

Utility common stocks -- the Fund's other area of focus -- also performed well during the period. Part of investors' renewed optimism was in reaction to efforts by utilities to reduce debt, improve their financing and shed money-losing unregulated subsidiaries. Like many preferreds, most utility common stocks also benefited from increased investor interest in response to federal dividend tax relief enacted in May 2003. Utilities traditionally have offered consistently high dividends over the years.

"Preferred stocks...posted positive returns during the six-month period ended April 30, 2004."

PERFORMANCE

For the six months ended April 30, 2004, John Hancock Patriot Premium Dividend Fund II returned 6.58% at net asset value. By comparison, the average income and preferred stock closed-end fund returned 4.53%, according to Lipper, Inc. In the same six-month period, the Dow Jones Utility Average -- which tracks the performance of 15 electric and natural gas utilities --

2

returned 10.34%, and the broader stock market, as measured by the Standard & Poor's 500 Index, returned 6.27%.

LEADERS AND LAGGARDS

Within the preferred-stock category, some of our best-performing holdings were those issued by financial services companies. Lehman Brothers, for example, performed quite well, fueled by strength in bond trading and underwriting, stock sales and mergers. Merrill Lynch also performed well, thanks to its strong credit rating compared with its brokerage services group peers and enhanced earnings consistency resulting from what the

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND II - Form N-CSR

company termed "a diversity of revenues from multiple asset classes, client segments and geographic regions." Bear Stearns benefited from increased revenues and cost controls, which resulted in substantial improvement in the company's profitability.

ENERGY STRONG

Preferred stocks issued by oil and natural gas companies also posted positive returns during the period. In the post-September 11 era, energy prices stayed high and, late in the period, began to climb, in part because of a so-called "risk premium" for potential attacks both here and abroad. Those high energy prices, in turn, helped boost the fortunes of holdings such as Anadarko Petroleum, Apache, Devon Energy and Nexen.

"Within the preferred-stock category, some of our best-performing holdings were those issued by financial services companies."

High energy prices also helped some of our utility common stocks, particularly Dominion Resources, which has significant oil and gas operations. It also enjoyed strong results from its regulated electric operation. The common stock of electric utility Alliant Energy also performed well, boosted in large part by investors' enthusiasm over the company's back-to-basics approach.

A disappointment during the period was Kansas City-based Aquila, a multinational energy provider that has been trying to regain financial stability after retreating from the wholesale

3

energy-trading markets that caused so many utilities pain in 2002. Despite these problems, we continued to hold onto our stake in Aquila because we believe the company is making positive steps toward reducing its debt, strengthening its balance sheet and putting its energy-trading problems behind it.

[Table at top left-hand side of page entitled "Top five industry groups 1." The first listing is Utilities 69%, the second is Broker services 8%, the third Oil & gas 6%, the fourth Banks - United States 6%, and the fifth Finance 6%.

[Pie chart in middle of page with heading "Portfolio diversification 1." The chart is divided into three sections (from top to left): Preferred stock 64%, Common stock 34%, and Short-term investments & other 2%.]

OUTLOOK

April's Treasury market sell-off roiled all fixed-income markets, including preferred stocks and so-called interest-rate-sensitive common stocks such as utilities. Although the economy has heated up, we don't think that the Federal Reserve Board will raise interest rates much until the current recovery deepens and sustains itself for a bit longer period of time. Granted, longer-term bond yields have risen as investors worried about the prospects of future inflation, but the expected lack of a significant near-term interest-rate hike should keep short-term interest rates historically low, thereby making preferred stocks an

attractive alternative to shorter-term, lower-yielding money market and Treasury securities. We believe the panic-driven sell-off in the fixed-income markets in April should abate as the bargains it has created slowly become apparent against the backdrop of a gradual- versus aggressive-moving Federal Reserve. This should eventually help to support tax-advantaged preferred stock values, as well as high dividend-yielding commons, such as utilities. Utility common stocks have other factors working in their favor as well, such as the potential for more stable credit ratings and dividend payments.

This commentary reflects the views of the portfolio management team through the end of the Fund's period discussed in this report. The team's statements reflect their own opinions. As such, they are in no way guarantees of future events, and are not intended to be used as investment advice or a recommendation regarding any specific security. They are also subject to change at any time as market and other conditions warrant.

The Fund normally will invest more than 65% of its managed assets in securities of companies in the utilities industry. Such an investment concentration makes the Fund more susceptible than a more broadly diversified fund to factors adversely affecting the utilities industry. Sector investing is subject to greater risks than the market as a whole.

NOTE A
Accounting policies

John Hancock Patriot Premium Dividend Fund II (the "Fund") is a diversified closed-end management investment company registered under the Investment Company Act of 1940.

Significant accounting policies
of the Fund are as follows:

Valuation of investments

Securities in the Fund's portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments maturing within 60 days are valued at amortized cost, which approximates market value. The Fund determines the net asset value of the common shares each business day.

Investment transactions

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis.

Discount and premium
on securities

The Fund accretes discount and amortizes premium from par value on securities from either the date of issue or the date of purchase over the life of the security.

Expenses

The majority of expenses are directly identifiable to an individual fund. Expenses that are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative sizes of the funds.

Federal income taxes

The Fund qualifies as a "regulated investment company" by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required. The Fund paid \$90,228 of federal excise tax due to calendar year distribution requirements. For federal income tax purposes, the Fund has \$555,078 of a capital loss carryforward available, to the extent provided by regulations, to offset future net realized capital gains. To

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND II - Form N-CSR

the extent that such carryforward is used by the Fund, no capital gain distributions will be made. The loss carryforward expires as follows: October 31, 2010 -- \$533,811 and October 31, 2011 -- \$21,267.

Dividends, interest
and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities, on the date thereafter when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

15

The Fund records distributions to common and preferred shareholders from net investment income and realized gains on the ex-dividend date.

Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Fund's financial statements as a return of capital.

Use of estimates

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the Fund. Actual results could differ from these estimates.

NOTE B

Management fee and
transactions with
affiliates and others

The Fund has an investment management contract with John Hancock Advisers, LLC (the "Adviser"), a wholly owned subsidiary of John Hancock Financial Services, Inc. Under the investment management contract, the Fund pays a monthly management fee to the Adviser at an annual rate of 0.50% of the Fund's average weekly net assets and the value attributable to the DARTS, plus 5.00% of the Fund's weekly gross income. The Adviser's total fee is limited to a maximum amount equal to 1.00% annually of the Fund's average weekly net assets and the value attributable to the DARTS. For the period ended April 30, 2004 the advisory fee incurred did not exceed the maximum advisory fee allowed.

The Fund has an administrative agreement with the Adviser under which the Adviser oversees the custodial, auditing, valuation, accounting, legal, stock transfer and dividend disbursing services and maintains Fund communications with the shareholders. The Fund pays the Adviser a monthly administration fee at an annual rate of 0.10% of the Fund's average weekly net assets plus the value attributable to the preferred shares.

Mr. James A. Shepherdson is a director and/or officer of the Adviser and/or its affiliates, as well as Trustee of the Fund. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND II - Form N-CSR

may elect to defer, for tax purposes, their receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund's deferred compensation liability are recorded on the Fund's books as an other asset. The deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investment as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

Dutch Auction Rate

Transferable Securities preferred shares Series A and Series B

The Fund issued Dutch Auction Rate Transferable Securities preferred shares ("DARTS"), 598 shares of Series A and 598 shares of Series B in a public offering. The underwriting discount was recorded as a reduction of the capital of common shares. During the year ended October 31, 1990, the Fund retired 98 shares of DARTS from both Series A and Series B.

Dividends on the DARTS, which accrue daily, are cumulative at a rate that was established at the offering of the DARTS and has been reset every 49 days thereafter by an auction. Dividend rates on DARTS Series A and B ranged from 1.07% to 1.14% and from 1.00% to 1.17%, respectively, during the period ended April 30, 2004. Accrued dividends on DARTS are included in the value of DARTS on the Fund's Statement of Assets and Liabilities.

The DARTS are redeemable at the option of the Fund, at a redemption price equal to \$100,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The DARTS are also subject to mandatory redemption at a redemption price equal to \$100,000 per share, plus accumulated and unpaid dividends, if the Fund is in default on its asset coverage requirements with respect to the DARTS, as defined in the

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND II - Form N-CSR

Fund's by-laws. If the dividends on the DARTS shall remain unpaid in an amount equal to two full years' dividends, the holders of the DARTS, as a class, have the right to elect a majority of the Board of Trustees. In general, the holders of the DARTS and the common shareholders have equal voting rights of one vote per share, except that the holders of the DARTS, as a class, vote to elect two members of the Board of Trustees, and separate class votes are required on certain matters that affect the respective interests of the DARTS and common shareholders.

NOTE D

Investment
transactions

Purchases and proceeds from sales and maturities of securities, other than short-term securities and obligations of the U.S. government, during the period ended April 30, 2004, aggregated \$29,124,818 and \$18,784,139, respectively.

The cost of investments owned on April 30, 2004, including short-term investments, for federal income tax

17

purposes was \$271,310,009. Gross unrealized appreciation and depreciation of investments aggregated \$21,916,691 and \$23,203,898 respectively, resulting in net unrealized depreciation of \$1,287,207. The difference between book basis and tax basis net unrealized depreciation of investments is attributable primarily to the tax deferral of losses on certain sales of securities.

18

INVESTMENT OBJECTIVE AND POLICY

The Fund's investment objective is to provide a high current income consistent with modest growth of capital for holders of its common shares of beneficial interest. The Fund will pursue its objective by investing in a diversified portfolio of dividend paying preferred and common stocks.

The Fund's non-fundamental investment policy, with respect to the quality of ratings of its portfolio investments, was changed by a vote of the Fund's Trustees on September 13, 1994. The policy, which became effective October 15, 1994, stipulates that preferred stocks and debt obligations in which the Fund will invest will be rated investment-grade (at least "BBB" by S&P or "Baa" by Moody's) at the time of investment or will be preferred stocks of issuers of investment grade senior debt, some of which may have speculative characteristics, or, if not rated, will be of comparable quality as determined by the Adviser. The Fund will invest in common stocks of issuers whose senior debt is rated investment-grade or, in the case of issuers that have no rated senior debt outstanding, whose senior debt is considered by the Adviser to be of comparable quality. The policy supersedes the requirement that at least 80% of the Fund's total assets consist of preferred stocks and debt obligations rated "A" or higher and dividend-paying common stocks whose issuers have senior debt rated "A" or higher.

On November 20, 2001, the Fund's Trustees approved the following investment policy investment restriction change, effective December 15, 2001. Under normal circumstances the Fund will invest at least 80% of its assets in dividend-paying securities. The "Assets" are defined as net assets including the liquidation preference amount of the DARTS plus borrowings for investment purposes. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

BY-LAWS

In November 2002, the Board of Trustees adopted several amendments to the Fund's by-laws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the by-laws require shareholders to notify the Fund in writing of any proposal that they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior year's annual meeting of shareholders. The notification must be in the form prescribed by the by-laws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund additional information about the advance notice requirements or the other amendments to the by-laws.

Effective December 16, 2003, the Trustees approved additional changes to the Fund's by-laws. The changes included updating the leveraged rating agency requirements, in keeping with recent changes to the agencies' basic maintenance reporting requirements for leveraged closed-end funds. In addition, changes were made to reflect recent updates that Moody's made to some of their eligible asset and discount factors. These revisions bring the Fund's by-laws in line with current rating agency requirements.

DIVIDEND REINVESTMENT PLAN

The Fund offers its shareholders a Dividend Reinvestment Plan (the

19

"Plan"), which offers the opportunity to earn compounded yields. Each holder of common shares may elect to have all distributions of dividends and capital gains reinvested by Mellon Investor Services, as plan agent for the common shareholders (the "Plan Agent"). Holders of common shares who do not elect to participate in the Plan will receive all distributions in cash, paid by check mailed directly to the shareholder of record (or, if the common shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent.

Shareholders may join the Plan by filling out and mailing an authorization card, by notifying the Plan Agent by telephone, or by visiting the Plan Agent's Web site at www.melloninvestor.com. Shareholders must indicate an election to reinvest all or a portion of

dividend payments. If received in proper form by the Plan Agent before the record date of a dividend, the election will be effective with respect to all dividends paid after such record date. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

If the Fund declares a dividend payable either in common shares or in cash, non-participants will receive cash and participants in the Plan will receive the equivalent in common shares. If the market price of the common shares on the payment date of the dividend is equal to or exceeds their net asset value as determined on the payment date, participants will be issued common shares (out of authorized but unissued shares) at a value equal to the higher of net asset value or 95% of the market price. If the net asset value exceeds the market price of the common shares at such time, or if the Board of Trustees declares a dividend payable only in cash, the Plan Agent will, as agent for Plan participants, buy shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. Such purchases will be made promptly after the payable date for such dividend and, in any event, prior to the next ex-dividend date after such date, except where necessary to comply with federal securities laws. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the common shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the common shares, resulting in the acquisition of fewer shares than if the dividend had been paid in shares issued by the Fund.

Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. In each case, the cost per share of the shares purchased for each participant's account will be the average cost, including brokerage commissions, of any shares purchased on the open market plus the cost of any shares issued by the Fund. There will be no brokerage charges with respect to common shares issued directly by the Fund. There are no other charges to participants for reinvesting dividends or capital gain distributions.

Participants in the Plan may withdraw from the Plan at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.melloninvestor.com. Such withdrawal will be effective immediately if received not less than ten days prior to a dividend record date; otherwise, it will be effective for all subsequent dividend record dates. When a participant withdraws from the Plan or upon termination of the Plan, as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any

20

fraction of a share credited to such account.

The Plan Agent maintains each shareholder's account in the Plan and furnishes monthly written confirmations of all transactions in the accounts, including information needed by the shareholders for personal and tax records. The Plan Agent will hold common shares in the account of each Plan participant in noncertificated form in the name of the participant. Proxy material relating to the shareholders' meetings of the Fund will include those shares purchased as well as shares held

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND II - Form N-CSR

pursuant to the Plan.

The reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable or required to be withheld on such dividends or distributions. Participants under the Plan will receive tax information annually. The amount of dividend to be reported on 1099-DIV should be (1) in the case of shares issued by the Fund, the fair market value of such shares on the dividend payment date and (2) in the case of shares purchased by the Plan Agent in the open market, the amount of cash used by the Plan Agent to purchase shares in the open market, including the amount of cash allocated to brokerage commissions paid on such purchases.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan may be amended or terminated by the Plan Agent after at least 90 days' written notice to all shareholders of the Fund. All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938 (telephone 1-800-852-0218).
