EXPLANATORY NOTE

This Form 20-F/A is being filed by EuroTrust A/S ("EuroTrust") as Amendment No. 2 to its Annual Report on Form 20-F filed on June 3, 2005, as amended on November 3, 2005 (the "Amended Form 20-F"). The purpose of this Amendment No. 2 is to (i) include the revised report of our independent registered public accounting firm; (ii) revise the Restated Consolidated Statement of Cash Flows to separately show cash used in discontinued operations as operating, investing and financing activities; and (iii) include in the notes to the financial statements a description of the impact of all the restatements to financial statements for the year ended December 31, 2004 on previously issued financial statements (See Note 1 to the Financial Statements).

Except to reflect the changes described above, this Amendment No. 2 does not, and does not purport to, modify or update the disclosures contained in EuroTrust's Amended Form 20-F.

EXCHANGE RATE INFORMATION

In this annual report, unless otherwise specified or unless the context otherwise requires, all references to "\$" or "dollars" are to U.S. dollars and all references to "DKK" are to Danish kroner. We have converted DKK amounts as of December 31, 2004 into U.S. dollars at an exchange rate of \$1.00 = DKK 5.4676, which was the noon buying rate on December 31, 2004, the last business day of the year. We do not make any representation that the Danish kroner amounts could have been, or could be, converted into U.S. dollars at that rate on December 31, 2004, or at any other rate.

Unless specifically indicated or the context clearly indicates otherwise all references to our ordinary shares shall include our American Depositary Shares (ADSs) and vice-versa.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

WE USE THE TERMS "WE", "OUR", "US", "EUROTRUST" AND "THE COMPANY" TO MEAN EUROTRUST A/S AND ITS SUBSIDIARIES AND THEIR RESPECTIVE PREDECESSORS.

AS NO INDEPENDENT SOURCES OF INDUSTRY DATA ARE AVAILABLE, INDUSTRY DATA CONTAINED HEREIN, INCLUDING MARKET SIZE DATA, ARE BASED ON OUR ESTIMATES WHICH ARE DERIVED FROM INTERNAL MARKET STUDIES AND MANAGEMENT CALCULATIONS.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This report on Form 20-F/A contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 regarding our plans and objectives and future operations. Forward-looking statements attempt to predict future occurrences and are identified by words like "believe," "may," "intend," "will," "expect," "anticipate," "estimate" or "continue," or other comparable terms. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. The forward-looking statements included in this report are based on current expectations that involve numerous risks and uncertainties. Our plans and objectives are based, in part, on assumptions involving judgments about, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Although we believe that our assumptions underlying the forward-looking statements are reasonable, any of these assumptions could prove inaccurate and, therefore, we cannot assure you that the forward-looking statements included in this report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included in this report, you should not assume, and we cannot assure you, that we can achieve our objectives or implement our plans. Such statements speak only as of the date hereof and are subject to change. We undertake no obligation to revise or update publicly any forward-looking statements for any reason. Factors that could cause our actual results to differ materially from those expressed or implied by forward-looking statements include, but are not limited to, our ability to identify new undervalued opportunities for investment or acquisition; the potential unforeseen impact of product or service offerings from competitors; our ability to raise additional capital should it be required to finance our growth aspirations; our ability to negotiate appropriate strategic relationships; our ability to control costs and expenses; and general economic and political conditions and specific conditions in the markets we address and the factors set forth under the headings "Key Information - Risk Factors" (Item 3.D), "Information on the Company" (Item 4) and "Operating and Financial Review and Prospects" (Item 5).

ITEM 3. KEY INFORMATION

A. SELECTED FINANCIAL DATA

The selected consolidated financial data presented below as of December 31, 2000, 2001, 2002, 2003 and 2004 and for the years then ended have been taken or are derived from our audited consolidated financial statements for those periods. The selected consolidated financial data have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Effective October 1, 2000, we changed our method of accounting for revenue recognition of domain name registration revenue in accordance with Staff Accounting Bulletin (SAB) No.101 (SAB 101), REVENUE RECOGNITION IN FINANCIAL STATEMENTS. Under SAB 101, which was adopted retroactively to January 1, 2000, we recognized revenues ratably over the period the customer is provided access to the registry through our servers. Before SAB 101 became effective, we recognized revenue from initial registration of domain names when the registration process was complete and annual service fees (registration renewal fees) were recognized when invoiced to the customer. On July 21, 2001, we sold our domain name registration service business, which was a part of our internet services segment, to VeriSign, Inc. ("VeriSign.") In December 2001 we sold our print and online media business; GAAP requires that the results of operations from a discontinued segment be segregated from the results of operations from our continuing business segments. As a result, our Consolidated Statement of Operations and Consolidated Statement of Cash Flows for the fiscal year ended December 31, 2001 and 2002 reflect the fact that the print and online media business is treated as a discontinued operation. In addition, our Consolidated Statement of Operations and Consolidated Statement of Cash Flows for the fiscal years ended December 31, 1999 and 2000 were restated to reflect this fact.

On May 19, 2005 our shareholders approved a one for six reverse split of our ordinary shares such that six ordinary shares nominal value DKK 1.25 were combined into one ordinary share nominal value DKK 7.50 ("New Ordinary Shares"). In lieu of issuing a fraction of a New Ordinary Share, we will pay to each holder the value thereof based upon the closing price of an ADS on the NASDAQ Small Cap Market on May 19, 2005. All information contained in this annual report has been presented as if such reverse stock split occurred as of January 1, 2000.

The financial information presented below is only a summary and should be read together with our consolidated financial statements included elsewhere in this report.

(1) In June 2001, the FASB issued SFAS 142 fully effective for fiscal years beginning after December 15, 2001, which changed the accounting for goodwill from an amortization method to an impairment-only approach. We adopted the provisions of SFAS 142 effective January 1, 2002. If the standards of SFAS 142 had been in effect beginning January 1, 2000 then (i) for the year ended December 31, 2000 our net loss would have been DKK 142,431 and both our basic and diluted loss per common share would have been DKK 50.28; and (ii) for the year ended December 31, 2001 our net income would have been DKK 12,364, our basic income per common share would have been DKK 3.06 and our diluted income per common share would have been DKK 3.00.

B. CAPITALIZATION AND INDEBTEDNESS

Not required because this Form 20-F/A is filed as an Annual Report.

C. REASONS FOR THE OFFER AND USE OF PROCEEDS

Not required because this Form 20-F/A is filed as an Annual Report.

D. RISK FACTORS

IN ADDITION TO OTHER INFORMATION IN THIS FORM 20-F/A, THE FOLLOWING RISK FACTORS SHOULD BE CAREFULLY CONSIDERED IN EVALUATING US AND OUR BUSINESS BECAUSE THESE FACTORS CURRENTLY HAVE OR MAY IN THE FUTURE HAVE A SIGNIFICANT IMPACT ON OUR BUSINESS, OPERATING RESULTS OR FINANCIAL CONDITION. ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE PROJECTED IN THE FORWARD-LOOKING STATEMENTS CONTAINED IN THIS FORM 20-F/A AS A RESULT OF THE RISK FACTORS DISCUSSED BELOW AND ELSEWHERE IN THIS FORM 20-F/A.

WE HAVE A SIGNIFICANT ACCUMULATED LOSS AND THE LIKELIHOOD OF FUTURE PROFITABILITY IS UNCERTAIN. CONTINUING LOSSES MAY EXHAUST OUR CAPITAL RESOURCES AND FORCE US TO TERMINATE OPERATIONS.

We incurred a net loss in each of the years ended December 31, 2000, 2002 and 2003 and we incurred an operating loss in each of those years and for the year ended December 31, 2001. For the year ended December 31, 2004 we had an operating loss of DKK 26.3 million (approximately \$4.8 million). As of December 31, 2004, we had an accumulated deficit of DKK 457.4 million (approximately \$83.7 million). We may incur additional losses in the foreseeable future. We cannot assure you that we will become profitable or, if we do become profitable, that we will be able to sustain or increase our profitability in the future. If operating losses continue for longer than we expect and we cannot raise additional capital, we may be forced to terminate operations.

WE MAY NEED TO RAISE ADDITIONAL CAPITAL IN THE FUTURE. IF WE CANNOT DO SO, WE MAY NOT BE ABLE TO FUND OUR FUTURE ACTIVITIES OR CONTINUE OPERATING.

Our future capital requirements will depend on a number of factors, including our ability to generate positive cash flow from operations, capital expenditure requirements and acquisition opportunities. If we need to raise additional capital in the future, we cannot assure you that we will be

able to do so on acceptable terms or at all. If we raise additional capital

Edgar Filing: EUROTRUST A/S - Form 20-F/A

through the issuance of equity or convertible debt securities, the percentage ownership of our company held by existing shareholders, including holders of our ADSs, will be diluted. In addition, new securities may contain certain rights, preferences or privileges that are senior to those of our ordinary shares. If we are unsuccessful in raising additional capital, when needed, our business and results from operations may be materially and adversely affected.

OUR FUTURE REVENUES ARE UNPREDICTABLE AND OUR FINANCIAL RESULTS MAY FLUCTUATE. IF OUR FINANCIAL RESULTS FALL BELOW EXPECTATIONS IN ONE OR MORE FUTURE QUARTERS, THE MARKET PRICE OF OUR ADSS MAY BE NEGATIVELY IMPACTED.

We cannot accurately forecast our revenues or operating results. Our revenues and operating results may fluctuate significantly because of several factors, many of which are beyond our control. These factors include:

- o market acceptance of our products and services;
- o a change in television viewer preferences if we are unsuccessful in addressing those changes in our programming;
- o the non-renewal of our contract with TeleDanmark Kabel to carry dk4;
- o the non-renewal of our contract with Canal Digital A/S to carry dk4;
- o the continued interest in televising live sporting events in Scandanavia;
- o the pace at which new television programming is produced in Scandinavia;
- o customer renewal rates for our products and services;
- o our success in cross marketing our products and services to our existing customers and to new customers;
- o developing our direct and indirect distribution channels;
- o a decrease in the level of spending for Internet products and services from which our royalties are based;
- o our ability to expand our operations;
- o our success in assimilating the operations and personnel of any acquired businesses;
- o the impact of price changes in our products and services or those of our competitors; and
- o general economic conditions and economic conditions specific to the television programming production or Internet services industry.

Due to all of the above factors, we believe that period-to-period comparisons of our operating results will not necessarily be meaningful, and you should not rely on them as an indication of future performance.

Also, operating results may fall below our expectations and the expectations of securities analysts or investors in one or more future quarters. If this were to occur, the market price of our ADSs would likely decline which may result in a

Edgar Filing: EUROTRUST A/S - Form 20-F/A

significant decline in the value of your investment.

WE HAVE A LIMITED OPERATING HISTORY IN THE MEDIA BUSINESS AND MAY ENCOUNTER DIFFICULTIES SIMILAR TO THOSE FACED BY EARLY STAGE COMPANIES. OUR RESULTS FROM OPERATIONS MAY DEPEND ON HOW SUCCESSFUL WE ARE IN DEALING WITH THESE DIFFICULTIES.

Over the last five years, our business has evolved from (i) a telecommunications company that also provided Internet access to (ii) an Internet services provider focusing primarily on domain name registration services to (iii) providing trusted Internet infrastructure products and services to (iv) our current business which is made up of our TV broadcast channel - dk4 and our TV production company - Prime Vision. We have only a limited operating history in this business on which you can base an evaluation of our current business and prospects. As such, our current business and prospects must be considered in light of the risks and uncertainties encountered by companies in the early stages of development.

We cannot be certain that we will successfully address this risk. If we fail, our business and results from operations may be materially and adversely impacted.

WE COMPETE IN THE HIGHLY COMPETITIVE BROADCASTING INDUSTRY.

The Danish broadcast industry is highly competitive and dominated by a few large companies. As a result of competition, in 2001 we consolidated our broadcast operations into one channel. In addition, we expect that the number of channels competing for the places in the TeleDanmark Kabel programming network will increase in the ensuing years. If viewer preferences change and we are unsuccessful in addressing those changes in our programming, we may lose favor with them and they may choose to view a competitor's channel over ours.

IF WE ARE UNABLE TO NEGOTIATE A RENEWAL OF OUR CONTRACT WITH EITHER TELEDANMARK KABEL OR CANAL DIGITAL A/S THE REVENUES FROM OUR BROADCASTING BUSINESS MAY BE ADVERSELY AFFECTED.

Our dk4 television channel is carried as part of the basic package of channels provided to all cable television subscribers to TeleDanmark Kabel (the primary Company providing cable television service in Denmark), for which we receive a per subscriber fee as well as to all subscribers of Canal Digital A/S, a Danish digital satellite television service provider. Our agreement with each of TeleDanmark Kabel and Canal Digital A/S to carry dk4 as part of its basic package expires on December 31, 2006 and December 31, 2007, respectively. We cannot assure you that we will successfully negotiate a renewal of our agreement with TeleDanmark Kabel or Canal Digital A/S. If we are unable to renew any of the agreements the revenues from our broadcasting business would decrease significantly and the results of operations from our broadcasting business would be materially and adversely affected.

IF THE INTEREST IN VIEWING LIVE SPORTING EVENTS IN THE SCANDINAVIAN MARKET SHOULD DECREASE OR IF THERE IS A SLOWDOWN IN OTHER TELEVISION PROGRAMMING PRODUCTION OUR RESULTS COULD BE ADVERSELY AFFECTED.

As of May 1, 2005 we have approximately eight large mobile television production vans which are leased to various other companies primarily for their broadcast of live sporting events or the production of original television programming. We also provide many of the technical personnel required for these productions. If we are unable to lease these vans and our technical personnel to other

Edgar Filing: EUROTRUST A/S - Form 20-F/A

broadcasters or television production companies we will be in a position where we will not be able to cover the expenses associated with this business which in turn could materially and adversely effect our business. Our ability to keep these vans busy in order to generate revenue will be effected by many factors outside of our control, including the continued interest in viewing live sporting events and the continued desire to produce television programming in Scandinavia.

WE MAY NEVER RECEIVE ANY ROYALTY PAYMENTS FROM THE SALE OF THE BUSINESSES RELATED TO OUR INTERNET SERVICES DIVISION.

During 2003 and 2004 we sold all of the business operations related to our internet services division including, the secure internet hosting business, the digital video surveillance business, the secure remote back-up business, the PKI services business and the virus detection software and services business. Pursuant to the terms of the agreements for the sale of some of these businesses we are entitled to royalty payments until 2010. If any of these businesses fail to maintain or achieve market acceptance at a level necessary to sustain the business then, we will receive a diminished level of, or even no, royalty payments and, as a result, our results from operations may be adversely affected.

OUR LONG-TERM GROWTH STRATEGY ASSUMES THAT WE MAKE SUITABLE ACQUISITIONS AND INVESTMENTS. IF WE ARE UNABLE TO ADDRESS THE RISKS ASSOCIATED WITH ACQUISITIONS AND INVESTMENTS OUR BUSINESS COULD BE HARMED.

Our long-term growth strategy includes identifying and, from time to time, acquiring or investing in suitable candidates on acceptable terms. In particular, we intend to acquire or make investments in businesses that provide products and services that expand or complement our existing businesses and expand our geographic reach. In pursuing acquisition and investment opportunities, we may compete with other companies having similar growth and investment strategies. Competition for these acquisition or investment targets could also result in increased acquisition or investment costs and a diminished pool of businesses, technologies, services or products available for acquisition or investment. Our long-term growth strategy could be impeded if we fail to identify and acquire or invest in promising candidates on terms acceptable to us.

Assimilating acquired businesses involves a number of other risks, including, but not limited to:

- o disrupting our business;
- o incurring additional expense associated with a write-off of all or a portion of the related goodwill and other intangible assets due to changes in market conditions or the economy in the markets in which we compete or because acquisitions are not providing the benefits expected;
- o incurring unanticipated costs or unknown liabilities;
- o managing more geographically-dispersed operations;
- o diverting management's resources from other business concerns;
- o retaining the employees of the acquired businesses;
- o maintaining existing customer relationships of acquired companies;

- o assimilating the operations and personnel of the acquired businesses; and
- o maintaining uniform standards, controls, procedures and policies.

For all these reasons, our pursuit of an overall acquisition and investment strategy or any individual acquisition or investment could have a material adverse effect on our business, financial condition and results of operations. If we are unable to successfully address any of these risks, our business could be harmed.

RAPID GROWTH IN OUR BUSINESS COULD STRAIN OUR MANAGERIAL, OPERATIONAL, FINANCIAL, ACCOUNTING AND INFORMATION SYSTEMS, CUSTOMER SERVICE STAFF AND OFFICE RESOURCES. IF WE FAIL TO MANAGE OUR GROWTH EFFECTIVELY, OUR BUSINESS MAY BE NEGATIVELY IMPACTED.

In order to achieve our growth strategy, we will need to expand all aspects of our business, including our computer systems and related infrastructure, customer service capabilities and sales and marketing efforts. We cannot assure you that our infrastructure, technical staff and technical resources will adequately accommodate or facilitate our expanded operations. To be successful, we will need to continually improve our financial and managerial controls, billing systems, reporting systems and procedures, and we will also need to continue to expand, train and manage our workforce. In addition, as we offer new products and services, we will need to increase the size and expand the training of our customer service staff to ensure that they can adequately respond to customer inquiries. If we fail to adequately train our customer service staff and provide staffing sufficient to support our new products and services, we may lose customers.

OUR INTERNATIONAL PRESENCE CREATES RISKS WHICH MAY ADVERSELY AFFECT OUR BUSINESS.

Currently, our operations focus on the Scandinavian, markets. In addition to the uncertainty as to our ability to successfully expand our Scandinavian presence, there are certain risks inherent in doing business on an international level. These risks include differences in legal and regulatory requirements and other trade barriers, difficulties in staffing and managing foreign operations, problems in collecting accounts receivable, fluctuations in currency exchange rates, delays from government agencies, and tax laws. In addition, our operations may be affected by changing economic, political and governmental conditions in the countries in which we operate. Changes in competition, economics, politics or laws, including tax, labor, environmental and employment, could affect our ability to sell our products and services in those countries. Our inability or failure to address these risks could have a material adverse affect on our business, operations and financial condition. Also, we cannot assure you that laws or administrative practices relating to taxation, or other matters of countries within which we operate will not change. Any change in these areas could have a material adverse effect on our business, financial condition and results of operations.

IF WE ARE UNABLE TO ATTRACT AND RETAIN HIGHLY QUALIFIED MANAGEMENT AND TECHNICAL PERSONNEL, OUR BUSINESS MAY BE HARMED.

Our success depends in large part on the contributions of our senior management team, technology personnel and other key employees and on our ability

Edgar Filing: EUROTRUST A/S - Form 20-F/A

to attract, integrate, train, retain and motivate these individuals and additional highly skilled technical and sales and marketing personnel. We face intense competition in hiring and retaining quality management personnel. Many of these companies have greater financial resources than we do to attract and retain qualified personnel. The only key employees that have signed employment agreements are Aldo Petersen, our Chief Executive Officer, and Soren Degn, our Chief Financial Officer. Under these agreements, they can terminate their employment

12

on six months notice. As a result, we may be unable to retain our key employees or attract, integrate, train and retain other highly qualified employees in the future, when necessary. If we fail to attract qualified personnel or retain and motivate our current personnel, our business may be negatively impacted.

OUR RESULTS FROM OPERATIONS MAY BE ADVERSELY AFFECTED BY EXCHANGE RATE FLUCTUATIONS.

A portion of our expenditures and receivables are paid in foreign currencies. As a result, our financial results may be affected by an appreciation or depreciation in the value of the Danish kroner relative to the currencies of the countries in which we operate. Except for one hedging transaction done in March of 2002, we have not engaged in hedging or other risk management activities in order to offset the risk of currency exchange rate fluctuations. We cannot predict in any meaningful way the effect of exchange rate fluctuations upon future results. If the value of the Danish kroner declines and the currencies of the countries in which we operate appreciate or remain stable our results from operations may be negatively affected.

THE MARKET PRICE OF OUR ADSs MAY DECLINE IF THE VALUE OF THE DANISH KRONER FALLS AGAINST THE US DOLLAR.

Fluctuations in the exchange rate between the Danish Kroner and the US dollar are likely to affect the market price of our ADSs. For example, because EuroTrust's financial statements are reported in Danish Kroners, if the value of the Danish Kroner falls against the US dollar, EuroTrust's earnings per share in US dollars will be reduced. This may adversely affect the price at which our ADSs trade in the US.

THERE IS A LIMITED PUBLIC MARKET FOR OUR SECURITIES AND OUR SECURITIES MAY EXPERIENCE EXTREME PRICE AND VOLUME FLUCTUATIONS.

Our ordinary shares are not listed on any securities exchange or market. However, our ADSs are quoted on the Nasdaq SmallCap Market(R). The market price of our ADSs may fluctuate significantly in response to various factors and events, including:

- o variations in our operating results;
- o the liquidity of the markets;
- o investor perceptions of us and the industry in which we operate;
- o changes in earnings estimates by analysts;
- o sales of ADSs by existing holders; and
- o general economic conditions.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

In addition, Nasdaq has recently experienced broad price and volume fluctuations. This volatility has had a significant effect on the market price of securities of companies for reasons that have often been unrelated to their operating performance. These broad market fluctuations may also adversely affect the market price of our ADSs and as a result, holders of our ADSs may lose a significant portion of their investment.

13

WE HAVE NEVER PAID A DIVIDEND NOR DO WE ANTICIPATE DOING SO IN THE FORESEEABLE FUTURE.

We have not declared or paid any cash dividends on our ordinary shares. We do not expect to declare any dividends in the foreseeable future. We anticipate that all cash that would otherwise be available to pay dividends will be applied in the foreseeable future to finance our growth or to implement shareholder-approved repurchases of our stock. Payment of any future dividends will depend on our earnings and capital requirements, and other factors our board of directors deem appropriate.

ITEM 4. INFORMATION ON THE COMPANY

A. HISTORY AND DEVELOPMENT

We are a Danish limited company, organized in 1986 under the Danish Act on Limited Companies of the Kingdom of Denmark. Originally, we were organized under the name Telepartner A/S. In 1999 we changed our name to euro909.com A/S and in December 2001 we changed our name to EuroTrust A/S. Our registered office is Poppelgaardvej 11-13, 2860 Soeborg, Denmark. Our telephone number is +45 39 54 00 00.

OUR BUSINESS

Until December 2001, our business operated in three distinct areas: Internet products and services; broadcasting; and print and online media. In early 2001 we made the strategic decision to focus primarily on providing Internet infrastructure products and services and e-commerce solutions in Scandinavia and selected west European markets and on key elements of our broadcasting business. To that end, in 2001, we sold our domain name registration, the remaining assets of our historical telecommunications business and our print and online media businesses, and consolidated our television programming business. As of January 1, 2004, we sold our secure internet hosting business, our digital video surveillance business and our secure remote back-up business. As a part of these transactions, we will continue to receive royalty payments from future sales of the secure hosting and remote back-up services that we formerly marketed. We sold our PKI services business to VeriSign, Inc. ("VeriSign.") on April 1, 2004. We sold the last of our Internet related business, our virus detection software and services business on September 30, 2004.

As a result of these various transactions, subsequent to September 30, 2004 our business consists of our broadcast media division, which owns dk4, a Danish television station and operates one of the largest television production companies in Scandinavia, Prime Vision.

The proceeds from our divestitures in 2004 allowed us to invest more than \$10 million U.S. in Prime Vision. Prime Vision now owns one of Europe's first High Definition mobile production units, five fully digitalized mobile production units and two mobile analog production units that we expect to rebuild into digital units during 2005. We use these assets to produce content both for our own broadcast operations and for outside clients.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

In addition to our television production operations, we continued to expand our media content platforms in 2004. Our original television channel, dk4, increased its subscriber base to record levels. Late in 2004, we also added a new speciality television channel, 4SPORT, to focus on coverage of both Danish sports, in cooperation with The Danish Sports Association, and international sporting events of particular interest to Danish fans. The new channel is currently in the testing phase of development and is

14

projected to provide coverage of, among other sports, boxing, volleyball and basketball. However, the channel will not be televising soccer or handball the two most popular sports in Denmark, as these sports currently have agreements with other broadcasters.

We are in on-going negotiations with TDC on Cable to carry 4SPORT. The early response to 4SPORT has been very encouraging. Given this response and the response to new programming for dk4, we plan to focus on the development and introduction of more speciality content platforms in 2005 and beyond.

In particular, we believe that dk4's long-standing coverage of the European Parliament for Danish viewers should be extendible to a pan-European audience. The European Parliament is desirous of making the citizens of the member countries of the European Union ("EU") aware of the increased importance of the EU and the influence it has on the politics of its independent member nations. To support that objective, we have discussed with representatives of the European Parliament, the proposed establishment of Europa Kanalen ("The European Channel") to provide coverage of the EU political process for viewers in other countries. We hope to begin coverage in 2005 or 2006 in three countries and then to jointly assess the results of the European Channel with the European Parliament to determine whether coverage throughout Europe is practical. If successful, this could provide us with a Europe-wide content platform with substantial growth opportunities. Since content providers are historically among the most financially successful media operations, we plan to allocate significant resources to this initiative.

B. BUSINESS OVERVIEW

Our objective is to become a leading provider of television production facilities for live events in the Northern European market and to expand our offering of quality content on our dk4 broadcast station, as well as, to develop and introduce more speciality content platforms in the future, including our recently established specialty television channel 4SPORT.

MEDIA

For most of 2001 we operated two television channels, dk4 and Bio+. Both channels were carried by TDC on Cable, formerly known as TeleDanmark, Denmark's largest cable operator. In October 2001 we consolidated the programming of both channels into dk4, and expanded its programming by covering European Union parliament sessions and joining the Pan-European Parliament TV network. This decision was a result of the fact that the agreement with TDC to broadcast dk4 was extended and Bio+ was not. Also in 2001, we entered into two new distribution agreements and a new programming agreement for dk4. Specifically, we entered into distribution agreements with the Danish digital satellite television service provider Canal Digital A/S. In December 2003, we entered into a new four-year agreement with Canal for the continued distribution of dk4 programming on their digital satellite television network extending our relationship to December 31, 2007. In December 2003 we reacquired the remaining

Edgar Filing: EUROTRUST A/S - Form 20-F/A

15% minority interest in our broadcast business that we had previously sold to Parken Sport and Entertainment A/S for DKK 12 million in December 2001. In March 2004 we entered into a new agreement with TDC on Cable extending our relationship to December 31, 2006. Late in 2004, we also added a new speciality television channel, 4SPORT, to focus on coverage of both Danish sports, in cooperation with The Danish Sports Association, and international sporting events of particular interest to Danish fans. The new channel is currently in the testing phase of development and is projected to provide coverage of, among other sports, boxing, volleyball and basketball.

15

We are in on-going negotiations with TDC on Cable to carry 4SPORT. The early response to 4SPORT has been very encouraging. Given this response and the response to new programming for dk4, we plan to focus on the development and introduction of more speciality content platforms in 2005 and beyond.

DK4

We acquired dk4 in October 1999. As of December 31, 2004, approximately 44% of all households in Denmark had access to dk4. In 2001, dk4 launched its revised Internet platform. The homepage contains live video streaming, enabling subscribers to watch part of dk4's broadcasts live over the Internet.

dk4's principal programs are in the areas of culture, education, sports and politics:

- o POLITICS. dk4 broadcasts proceedings of the Danish Parliament, including debates and selected expert hearings. During 2002, dk4 offered more than 50 programs on the European Union, among these roundtable discussions and presentation of Members of Parliament, including the former and the present President of the European Parliament plus selected Members of the European Commission. In 2001, dk4 was acknowledged as a European Channel by the European Parliament and joined the discussion forum for Parliamentary Channels in the European Union ("EU"). In 2003, dk4 has continued to focus on broadcasting programming from the EU. In conjunction with the European Parliament, dk4 produced an educational video for Danish high schools on "Model European Parliament" (a multicultural conference for young people on the inner workings of the EU).
- o SPORTS. Beginning in 2002, dk4 offered a number of niche sports programs.
- o CULTURE. dk4 offers programs focusing on theatre, opera, literature, classical music and history. In the 2000/2001 season, programs on contemporary art and fine wines were added. Furthermore, a number of musical shows were introduced and the number of such shows was increased in 2002.
- o EDUCATION. Educational offerings include lectures given at the newly founded "DK4 University", a series which is also integrated with the Internet. In 2001, an add-on to this series was introduced through the "EU University" with a number of lectures on current EU topics such as Enlargement and the future Constitution of the EU. In 2002, we introduced an educational series on use of PCs.

PRIME VISION

Edgar Filing: EUROTRUST A/S - Form 20-F/A

In October 1999, dk4 acquired Prime Vision, or PV, a production company. PV assists others in broadcasting live events and also produces original programs for dk4 as well as for other television channels. PV owns and operates eight large mobile vans used in the broadcasting of live events and for the production of original television programming. These vans include all of the necessary equipment required for these productions, including cameras and sound equipment. PV employs the technicians such as cameramen and sound engineers who are expert in the appropriate operation of the equipment. Therefore, PV can offer a complete package of production equipment and personnel to broadcasters who broadcast live events and to companies who produce original programming. One of our primary objectives is for PV to become the leading production facility house in Scandinavia. By the end of 2003

16

PV was among the three leading production companies in Denmark and has been employed as a production company for the Danish Premier Soccer League and a number of other sports productions.

BIO+

We acquired Bio+ in September 1999. As a result of a strategic alliance with Fox Kids Europe in January 2000, we repackaged and relaunched the channel. As repackaged, Bio+'s primary offering was Danish movies. In October 2001, we combined the operations of Bio+ with those of dk4.

INTERNET PRODUCTS AND SERVICES

We sold the remainder of our businesses in Internet products and services division during 2004 through the sale of our PKI services business, on April 1, 2004, and our virus detection software and services business on September 30, 2004. As a result, subsequent to September 30, 2004 our business consists of our broadcast media division, which owns dk4, a Danish television station and operates one of the largest television production companies in Scandinavia, Prime Vision.

The following is a description of the Internet products and services we provided through year 2004:

VIRUS SURVEILLANCE/DETECTION/SUPPORT, SECURITY PENETRATION TESTING/ANALYSIS. Gartner research indicates that the IT security-consulting sector represents the largest share of the Western European IT security market. To address this sector, we offered the Scandinavian business community an array of virus detection products and services marketed under our Virus 112 brand name. Through our wholly-owned subsidiary, EuroTrust Virus112 A/S ("Virus112"), we offered a suite of IT security consulting services including sophisticated virus detection software, IT security support, security gap penetration assessments and system vulnerability testing to more than 2,000 businesses in Denmark and Norway. Offered on a subscription basis, Virus112's Early Warning System scans the Internet for potential threats and immediately notifies its clients via fax, email and text messaging of any potential outbreaks, minimizing the risk of potential infections. In September 2001, Virus112 expanded its business by offering IT security consulting services that emphasize risk assessment and penetration testing services. In October 2002, Virus112 expanded its product offerings by adding the following:

- o "Virus112 Mail Scanning," a 24x7 e-mail surveillance and virus-scanning, recognition and removal technology;

Edgar Filing: EUROTRUST A/S - Form 20-F/A

- o "Virus112 Spam Scanner," a 24x7 automated guard against spam emails which also provides the customer with a monthly report and online access to information on email activity and blocked e-mails; and
- o "EuroTrust Security Scanner," (ESS) a scanning system that scans external IP addresses for potential security risk, to prevent viral attacks through the Internet.

PUBLIC KEY INFRASTRUCTURE (PKI) SERVICES. PKI services, as well as digital signatures and certificates, enable both companies and private individuals to encrypt their online communications and ensure confidentiality. Until our sale of this business to Verisign effective April 1, 2004, we sold PKI services under the VeriSign Managed PKI Service (MPKI) and VeriSign Go Secure! brands, and tailored them to meet the specific needs of enterprises that wished to issue digital certificates to employees, customers, citizens or trading partners.

17

In November 2000, we became part of VeriSign's Global Affiliate Network, an expanding group of international service providers using common technology, operating practices and infrastructure, compliant with the European Union (EU) common criteria requirements, to deliver interoperable trust services over the Internet. Under our Affiliate Agreement with VeriSign, as amended, we provide(d) the following VeriSign trusted Internet infrastructure products and services in Denmark, Norway, Sweden, Finland, Austria and Switzerland:

MPKI - MANAGED PKI-SOLUTIONS. MPKI is a managed service that allows an organization to use our data processing infrastructure to develop and deploy customized digital certificate services for use by employees, customers and business partners. MPKI can be used to provide digital certificates for a variety of applications, including: controlling access to sensitive data and account information, enabling digitally-signed e-mail, encryption of e-mail, or SSL sessions. MPKI services can help customers create an online electronic trading community, manage supply chain interaction and facilitate and protect online credit card transactions.

GO SECURE! VeriSign Go Secure! services are a set of managed application services that enable enterprises to quickly build digital certificate-based security into their transaction and communication applications. Go Secure! services are similar in functionality to MPKI services and are designed to incorporate digital certificates into existing e-mail, browsing applications, directory and virtual private network devices. GoSecure(R) allows businesses to create a Virtual Private Network (VPN) that integrates VeriSign's strong encryption technology. GoSecure is also offered in cooperation with vendors of server firewall products.

WEB SERVER DIGITAL CERTIFICATE SERVICES. Digital certificates are electronic credentials that identify parties online, enabling encrypted online communications and legally binding, valid digital signatures for online transactions in e-commerce, financial services, supply-chain management, Virtual Private Networks, and wireless and mobile commerce environments. Until April 2004, we offered a family of web server certificate services that allows organizations to implement and operate secure websites that utilize the Secure Sockets Layer, or SSL protocol or the Wireless Transport Layer Security, or WTLS, protocol to establish their identities to customers and other websites during electronic commerce transactions and communications over wired or

Edgar Filing: EUROTRUST A/S - Form 20-F/A

wireless internet protocol, or IP, networks. Without a digital certificate installed on the website server the SSL and WTLS protocols cannot be utilized. Given that we host more web sites on servers in our data center than any other company in Denmark, we expect to take advantage of the current growth trend for server security. Digital Ids can easily be created for customers and suppliers through the MPKI administration solution.

APPLICATION ACCELERATION SERVICES. These are rapid deployment services that secure information passed over applications such as Microsoft Exchange, SAP and Virtual Private Networks (VPN) for e-commerce.

CONTENT SIGNING CERTIFICATES. In addition to Web Server Digital Certificate services, until April 2004 we offered content signing certificates. Content signing digital certificates enable developers, content providers, publishers and vendors to digitally sign their content in order to authenticate the source and provide assurance of the integrity of the content delivered to end-users.

To expand and complement the services described above, our professional services group, which includes experts in digital certificate architecture and application integration, was staffed to provide a variety of design, development and implementation services. These services included integrating with

18

existing applications and databases, consulting on policies and procedures related to the management and deployment of digital certificates, training classes on the latest developments in security technology and selecting the necessary software and hardware to complement a digital certificate solution.

As a result of an independent examination of our PKI processing center in Copenhagen, we received the prestigious WebTrust Seal of Assurance from KPMG. The WebTrust seal, which is displayed on all of our web sites, indicates that we have complied with the business standards prescribed by the American Institute of Certified Public Accountants and the Canadian Institute of Chartered Accountants concerning the issuance of digital certificates by certification authorities and adopted by several European countries including Denmark.

Until December 2003, we also offered our customers a number of other internet security products, including secure hosting, digital video surveillance and secure remote backup services. In December 2003, as part of our plan to intensify our focus on our television programming business and on providing virus detection products and services, we sold EuroTrust Secure Hosting A/S, our secure hosting subsidiary, EuroTrust Realtime Security A/S, our digital video surveillance subsidiary, EuroTrust Sweden AB, our Swedish subsidiary, and the assets related to EuroTrust NetVaulting A/S, our secure remote backup business.

REMOTE DATA BACKUP SERVICES. We provided remote data backup services to more than 300 European businesses through EuroTrust NetVaulting A/S (formerly known as WISEhouse Denmark A/S), a wholly-owned subsidiary of EuroTrust. Remote backup services protect the data found on company servers from the threat of fire, hardware failure, natural disasters, theft and viruses. The backup technology is based on IBM's Tivoli Storage Manager software.

SECURE HOSTING. We provided secure web hosting services to more than 11,000 customers in Denmark, Sweden and Norway through EuroTrust Secure Hosting A/S ("Hosting"). Hosting was created in January 2002 as a result of the combination of our Digiweb activity with DHT Hosting ApS, a Danish automated hosting company.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

Our hosting services were based in our secure Internet data center in Soeborg, Denmark. The center, designed with a wide range of physical security features, including state-of-the-art smoke detection and fire suppression systems, 24x7 secured access and video camera surveillance, as well as security breach alarms, is capable of housing more than 1,500 servers and delivers one of the strongest high-availability bandwidth capacities in Europe.

REAL TIME SECURITY. Through EuroTrust RealTime Security A/S, we offered a full service digital video security system, which provided real-time video monitoring and remote storage of the recording via a high speed Internet connection to a central storage location. This system was able to provide customers with the benefits of a complete video surveillance system without the need to purchase and maintain costly video surveillance hardware required by most traditional Closed Circuit Television ("CCTV") monitoring systems. The system included, among other features, the following:

- o Remote viewing and surveillance;
- o Offsite recording and storage of the recordings in a secured centralized location; and
- o Email confirmation of alarms to minimize false alerts

SEASONALITY

In Scandinavia it is common practice for businesses to close down in July due to summer holidays. Therefore, the level of our consolidated activities are usually lower in the third quarter than in the first, second and fourth quarters.

INTELLECTUAL PROPERTY

We rely primarily on a combination of copyrights, trademarks, service marks, restrictions on disclosure and other methods to protect our intellectual property. We also enter into confidentiality agreements with our employees, consultants and current and potential affiliates, customers and business partners. We also generally control access to and distribution of documentation and other proprietary information.

COMPETITION

Edgar Filing: EUROTRUST A/S - Form 20-F/A

BROADCAST MEDIA

In our broadcast business, we compete with channels that are carried by more Cable providers, included in more "TV Packages", offered to cable subscribers, and catering to a much larger viewing audience than we do. Until 2001, cable providers were subject to governmental regulations that limited their programming to the programming provided by those channels chosen through a referendum of subscribing households, every two years.

Presently, the only channels that cable providers are required to include in their "TV Packages" are the publicly funded channels, i.e., DR, DR2, TV2, (and one local TV station). We expect that the number of channels competing to be included in those "TV Packages" will increase in the ensuing years. If viewer preferences change and we are unsuccessful in addressing those changes in our programming, we may lose favor with them and cable providers may choose to replace us with a competitor.

GOVERNMENT REGULATION

Our broadcast station dk4 has been granted a license by the Danish Board of Satellite and Cable. Our license obligates us to carry a certain mix of programs I.E. no more than a certain percentage of our programs can be sports, news, commercials, etc. If we change our program profile, we must advise the Danish Board of Satellite and Cable. We believe that we are currently in compliance with all of our license requirements.

SALES AND MARKETING

We market our dk4 television broadcast station through local advertising sponsorships and participations in cable operator and cable organization symposiums and direct marketing to individual cable operators. Our market is dominated by three large operators that represent more than 80% of our potential viewers. dk4 is currently carried by two of those operators.

Prime Vision produces programming for a large array of distributors of content in the Scandinavian market. We market the Prime Vision services through word of mouth from satisfied clients

22

as well as from the publicity we receive as the Company responsible for the production of many important sporting events like soccer, basketball and boxing. Prime Vision has established a well known reputation in broadcasting of live sporting events and is involved in producing major sports events for large TV channels in Denmark and Sweden. We also produce content for large channels like DR, TV2, Viasat in Denmark, and STV, Canal Digital and Viasat in Sweden, which is helpful for marketing the capability of Prime Vision.

PROPERTY, PLANT AND EQUIPMENT

Our executive offices are located in Soeborg, Denmark, where we own facilities which comprise 1,554 square meters of floor space and also, house our Danish operations. As of April 1, 2004 we sublet approx. 600 square meters of office space in Soeborg to VeriSign, and as of October 1, 2004 we sublet approx. 1,164 square meters of office space including the basement in Soeborg to Comendo A/S, a provider

of managed anti-virus and anti-spam system solutions in Denmark and purchaser of the assets of our EuroTrust Virus112 A/S subsidiary.

On April 1, 2005, we sold our building located at Poppelgardvej 11-13 in S0borg, Copenhagen to Lion Ejendomme ApS for DKK 20,000,000 in cash. At December 31, 2004 the net book value of the building was DKK 19,638,000.

For our broadcasting media operations, we lease 2,233 square meters in Copenhagen, Denmark, 1,534 square meters in Hvidovre, Denmark and 1,152 square meters in Aarhus, Denmark. Furthermore, we lease three apartments in Aarhus for a total of 459 square meters.

For our Internet services operations, until February 2005, we leased 1,130 square meters of floor space in Aarhus, Denmark, for our remote data backup subsidiary, EuroTrust Net Vaulting. We sublet approximately 1,049 square meters of office space in Aarhus to Munk IT, Metro Express and Ewire. These subleases expired in the first quarter of 2005.

The total aggregate annual lease costs were approximately DKK 2,950,000 for 2004. The operating leases are cancelable by both parties through various times between three and twelve months. We believe that the current facilities

Edgar Filing: EUROTRUST A/S - Form 20-F/A

for our media operations will be adequate for our purposes for at least the next 12 months. We also believe that there is a supply of alternative facilities available in each of the locations where we operate, should we deem it desirable to expand our facilities or otherwise change locations.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

A. OPERATING RESULTS

OVERVIEW

Until December 2001, our business operated in three distinct areas: Internet products and services; broadcasting; and print and online media. In early 2001 we made the strategic decision to focus primarily on providing Internet infrastructure products and services and e-commerce solutions in Scandinavia and selected west European markets and on key elements of our broadcasting business. To that end, in 2001, we sold our domain name registration, the remaining assets of our historical telecommunications business and our print and online media businesses, and consolidated our television programming business. In December 2003 and January, 2004, as part of our plan to intensify our focus on our television programming business and on providing virus detection products and services, we sold EuroTrust Secure Hosting A/S, our secure hosting subsidiary, EuroTrust Realtime Security A/S, our digital video surveillance subsidiary, EuroTrust Sweden AB, our Swedish subsidiary, and the assets related to EuroTrust NetVaulting A/S, our secure remote backup business.

We sold our PKI services business on April 1, 2004 and our virus detection software and services business on September 30, 2004.

As a result of these various transactions, subsequent to September 30, 2004 our business consists of our broadcast media division, which owns dk4, a Danish television station and operates one of the largest television production companies in Scandinavia, Prime Vision.

The proceeds from our divestitures in 2004 allowed us to invest more than \$10 million U.S. in Prime Vision. Prime Vision now owns one of Europe's first High Definition mobile production units,

24

five fully digitalized mobile production units and two mobile analog production units that we expect to rebuild into digital units during 2005. We use these assets to produce content both for our own broadcast operations and for outside clients

In addition to our television production operations, we continued to expand our media content platforms in 2004. Our original television channel, dk4, increased its subscriber base to record levels. Late in 2004, we also added a new speciality television channel, 4SPORT, to focus on coverage of both Danish sports, in cooperation with The Danish Sports Association, and international sporting events of particular interest to Danish fans. The new channel is currently in the testing phase of development and is projected to provide coverage of, among other sports, boxing, volleyball and basketball.

We are in on-going negotiations with TDC on Cable to carry 4SPORT. The early response to 4SPORT has been very encouraging. Given this response and the response to new programming for dk4, we plan to focus on the development and introduction of more speciality content platforms in 2005 and beyond.

In particular, we believe that dk4's long-standing coverage of the

Edgar Filing: EUROTRUST A/S - Form 20-F/A

European Parliament for Danish viewers should be extendible to a pan-European audience. The European Parliament is desirous of making the citizens of the member countries of the European Union ("EU") aware of the increased importance of the EU and the influence it has on the politics of its independent member nations. To support that objective, we have discussed with representatives of the European Parliament, the proposed establishment of Europa Kanalen ("The European Channel") to provide coverage of the EU political process for viewers in other countries. We hope to begin coverage in 2005 or 2006 in three countries and then to jointly assess the results of the European Channel with the European Parliament to determine whether coverage throughout Europe is practical. If successful, this could provide us with a Europe-wide content platform with substantial growth opportunities. Since content providers are historically among the most financially successful media operations, we plan to allocate significant resources to this initiative.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (GAAP). The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe that the estimates, assumptions and judgments involved in the accounting policies described below have the greatest potential impact on our consolidated financial statements, so we consider these to be our critical accounting policies. See "Summary of Significant Accounting Policies" in the consolidated financial statements for more information about these critical accounting policies, as well as descriptions of other significant accounting policies.

25

ALLOWANCE FOR DOUBTFUL ACCOUNTS

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. We regularly review the adequacy of our accounts receivable allowance after considering the size of the accounts receivable balance, each customer's expected ability to pay and our collection history with each customer. We review significant invoices that are past due to determine if an allowance is appropriate based on the risk category using the factors described above. We also monitor our accounts receivable for any build up of concentration to any one customer, industry or geographic region. At December 31, 2004 we have two customers who account for approximately 33% and 22% of our outstanding receivables.

If we are unable to collect these receivables it would have a significant negative impact on our operating income. We require all acquired companies to adopt our credit policies. The allowance for doubtful accounts represents our best estimate, but changes in circumstances relating to accounts receivable may result in a requirement for additional allowances in the future.

LONG-TERM INVESTMENTS

Edgar Filing: EUROTRUST A/S - Form 20-F/A

We invest in securities of companies for business and strategic purposes. These investments are in the form of equity securities of private companies for which there is no public market. For a specification of the investments you should refer to Note 3 of the accompanying consolidated financial statements. These companies are typically in the early stage of development and are expected to incur substantial losses in the near-term. Therefore, we may never realize any return on these investments. Further, if these companies are not successful, we could incur charges related to write-downs or write-offs of these investments.

We review, the assumptions underlying the operating performance from these privately held companies on an annual basis. This information may be more limited, may not be as timely and may be less accurate than information available from publicly traded companies. If we determine that an other-than-temporary decline in fair value of the investment exists, we write-down the investment to its fair value and record the related write-down as an investment loss in our consolidated statement of operations.

We recorded a write-down of our long term investments and marketable securities of approximately DKK 14.9 million in the year ended December 31, 2004.

26

VALUATION OF LONG-LIVED ASSETS

Our long-lived assets totaled DKK 92.6 million, as of December 31, 2004, which consist primarily of property and equipment subject to amortization and depreciation. We test long-lived assets for recoverability whenever events or changes in circumstances indicate that the carrying amount of such an asset may not be recoverable. Such events or circumstances include, but are not limited to:

- o a significant decrease in the market price of a long-lived asset;
- o a significant adverse change in the extent or manner in which a long-lived asset is being used or in its physical condition;
- o a significant adverse change in legal factors or in the business climate that could affect the value of a long-lived asset;
- o a current-period operating or cash flow loss combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset; and
- o a current expectation that it is probable that a long-lived asset will be sold or otherwise disposed of significantly before the end of its previously estimated useful life.

An impairment loss would be recognized when the sum of the undiscounted future net cash flows expected to result from the use of the asset and its eventual disposition is less than its carrying amount. Such impairment loss would be measured as the difference between the carrying amount of the asset and its fair value, which is usually based on future estimated discounted cash flows. Significant judgment is required in the forecasting of future operating results, which are used in the preparation of projected cash flows. If we made different judgments or utilized different estimates, material differences may result in write-downs of net long-lived and intangible assets, which would be

Edgar Filing: EUROTRUST A/S - Form 20-F/A

reflected by charges to our operating results for any period presented.

We recorded no impairment charge in the years ended December 31, 2003 and December 31, 2004.

GOODWILL

We account for acquisitions under the purchase method of accounting, typically resulting in goodwill. Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets, requires us to assess goodwill for impairment at least annually in the absence of an indicator of possible impairment and immediately upon an indicator of possible impairment. The statement requires estimates of the fair values of our reporting units. If we determine the fair values of a reporting unit is less than the carrying amount recorded on our Consolidated Balance Sheet, we must measure any impairment loss. The measurement of the impairment loss involves comparing the fair value of the reporting unit with the fair values of the recognized and unrecognized assets and liabilities to arrive at an implied fair value of goodwill, which is then compared to the book value of the goodwill of the reporting unit. At December 31, 2004, we had DKK 24.56 million of goodwill recorded on our Consolidated Balance Sheet. The entire goodwill was recorded in our Broadcasting media segment.

We performed our annual impairment assessment of goodwill in accordance with the provisions of SFAS No. 142. In testing for potential impairment, we measured the estimated fair value of our reporting units based upon discounted future operating cash flows using a discount rate reflecting our estimated discount rate for the specific reporting units. Differences in assumptions used in

27

projecting future operating cash flows and estimated discount rate could have a significant impact on the determination of impairment amounts.

In estimating future cash flows we used our internal budgets. Our budgets were based on recent sales data for existing products and expected growth rates for the Internet security services and framework agreements entered into with customers in the broadcasting segment. These budgets were based on current royalty percentages, expected staffing levels and expected inflation.

Due to the numerous variables associated with our judgments and assumptions relating to the valuation of the reporting units and the effects of changes in circumstances affecting these valuations, both the precision and reliability of the resulting estimates are subject to uncertainty, and as additional information becomes known, we may change our estimates.

For the year ended December 31, 2004 base on our annual impairment assessment of goodwill, there were impairment of DKK 965 thousand

INVENTORIES

The inventory principally consists of 38,000 IBM Tivoli licenses relating to our remote back-up business. Inventories are stated at the lower of cost or market with cost determined on the basis of the first in, first out method.

Management must make estimates about the future customer demand for IBM Tivoli licenses when establishing the appropriate loss provisions for inventory. When making these estimates, we consider general economic conditions and

Edgar Filing: EUROTRUST A/S - Form 20-F/A

historical sales of licenses, the market acceptance of the current generation of licenses, the available market for these products and expected sales prices for the licenses. These judgments must be made in the context of our customers' shifting technology needs. A misinterpretation or misunderstanding of any of these conditions could result in significant changes to the provisions determined to be appropriate as of the balance sheet date.

We recorded an inventory loss provision related to our IBM Tivoli licenses, of DKK 21,651 in 2002. During 2003 we received a credit of DKK 3,367 recorded as a reduction to cost of sales for the return of 7,000 IBM Tivoli licenses.

TAX ASSET VALUATION

We currently have deferred tax assets resulting from net operating loss carry forwards, and deductible temporary differences, all of which will reduce taxable income in the future. We assess the realization of these deferred tax assets when necessary to determine whether an income tax valuation allowance is required. Based on available evidence, both positive and negative, we determine whether it is more likely than not that all or a portion of the remaining net deferred tax assets will be realized. The main factors that we consider include:

- o future earnings potential determined through the use of internal forecasts;
- o cumulative losses in recent years;
- o history of loss carry forwards and other tax assets expiring;
- o the carry forward period associated with the deferred tax assets; and
- o the nature of the income that can be used to realize the deferred tax asset.

28

If it is our belief that it is more likely than not that some portion of these assets will not be realized, an income tax valuation allowance is recorded. Our gross tax assets and valuation allowances were DKK 113.0 million and DKK 109.0 million respectively, as of December 31, 2004 resulting in a net deferred tax asset of DKK 4.0 million.

See Note 14 to our financial statements for further details regarding this deferred tax asset.

If market conditions improve and future results of operations exceed our current expectations, our existing tax valuation allowances may be adjusted, resulting in future tax benefits. Alternatively, if market conditions deteriorate further or future results of operations are less than expected, future assessments may result in a determination that some or all of the net deferred tax assets are not realizable. As a result, we may need to establish additional tax valuation allowances for all or a portion of the net deferred tax assets.

CONSOLIDATED RESULTS

YEAR ENDED DECEMBER 31, 2004 COMPARED WITH YEAR ENDED DECEMBER 31, 2003

Net revenue for the year ended December 31, 2004 was DKK 91.0 million, a decrease of DKK 18.8 million, or 17.1%, compared to revenue of DKK 109.8

Edgar Filing: EUROTRUST A/S - Form 20-F/A

million for the year ended December 31, 2003. The table below compares revenue for both years on a segment-by-segment basis.

| | REVENUE | | AMOUNT OF | PERCENTAGE |
|-------------------|-----------------------|---------|------------------------|------------------------|
| | 2004 | 2003 | INCREASE (DECREASE) | INCREASE (DECREASE) |
| | ----- | ----- | ----- | ----- |

| TOTAL | 91,036 | 109,822 | (18,786) | (17.1%) |

The Internet services segment showed a decrease in revenues and the broadcast media segment showed an increase in revenues. The decrease in revenue in our Internet services segment is primarily attributable to the sales of our remote back-up business as of December 1, 2003 and the sale of our secure hosting business as of January 1, 2004. The increase in revenue in our broadcast media segment reflects the increase in number of subscribers to dk4, our television channel, and the increase of revenue in Prime Vision, our production company.

Total operating expenses for the year ended December 31, 2004 were DKK 110.8 million, a decrease of DKK 5.5 million, or 4.7%, from the total operating expenses of DKK 116.3 million for the year ended December 31, 2003. This decrease is primarily attributable to decreases in Cost of sales and General and administrative, expenses resulting primarily from the sales of the businesses in our Internet services segment. The table below shows our operating expenses by category on a segment-by segment basis.

| TOTAL | 11,140 | 6,075 | 5,065 |

In our Internet services segment the operating expenses generally decreased due to our continued focus on lowering expenses generally and the significant cost reduction from the divestiture of the businesses in this segment.

In our broadcast media segment operating expenses generally increased due to the increase in production facilities and the increase in expenses related to the growth in Prime Vision as well as the increase of new subscribers to dk4 and the related variable costs related to the increase number of subscribers and our increased focus on further developing and enhancing our broadcast media business.

30

For the year ended December 31, 2004, the gross profit for our Internet services segment was DKK 23 thousand, or a margin of 100% of segment revenues. For the year ended December 31, 2003, the gross profit for our Internet services business was DKK 13.4 million, or a margin of 63.3% of segment revenues.

In the case of our broadcast media segment, the gross profit for 2004 was DKK 30.7 million, or 33.7% of segment revenues while the gross profit margin for 2003 was DKK 30.6 million, or 34.5% of segment revenues. This decrease is primarily attributable to the increase in cost resulting from our increased focus on further developing and enhancing our broadcast media business.

For the year ended December 31, 2004 our operating loss increased by DKK 13.3 million to DKK 19.7 million compared to a loss of DKK 6.5 million for the year ended December 31, 2003.

The operating loss for our Internet services segment increased by DKK

Edgar Filing: EUROTRUST A/S - Form 20-F/A

6.9 million to DKK 14.5 million compared to a loss of DKK 7.6 million for the year ended December 31, 2003. This increase is primarily attributable to the decrease in revenues due to the divestiture of the businesses in this segment.

For our broadcast media segment, we incurred an operating loss of DKK 5.3 million compared to an operating income of DKK 1.2 million for the year ended December 31, 2003. This decrease is attributable to the increase in operating expenses due to our increased focus on further developing and enhancing our broadcast media business.

For 2004, we had interest income of DKK 0.3 million and interest expense of DKK 1.2 million. For 2003, interest income was DKK 0.2 million and interest expense was DKK 1.6 million. The increase in interest income in 2004 reflects the increase in our cash balances from the sale of our businesses. The decrease in interest expense in 2004 reflects a one time guarantee payment of DKK 1.1 million in 2003 not incurred in 2004.

For 2004, we had a net foreign exchange (loss) of DKK 0.8 million compared to a net foreign exchange loss of DKK 1.8 million in 2003.

For 2004, based on our review of the valuation of long term investments and marketable securities held at December 31, 2004, we wrote down a total amount of DKK 14.9 million.

Our Net income for the year ended December 31, 2004 increased to DKK 58.5 million compared to a Net loss of DKK 6.3 million for the year ended December 31, 2003. The increase in our Net income of DKK 64.8 million is primarily attributable to one time gains from the sale of the Internet segment businesses in the aggregate of DKK 83.6 million offset by a one time write down of long term investments and marketable securities of DKK 14.9 million.

YEAR ENDED DECEMBER 31, 2003 COMPARED WITH YEAR ENDED DECEMBER 31, 2002

Net revenue for the year ended December 31, 2003 was DKK 109.8 million, an increase of DKK 17.8 million, or 19.3%, compared to revenue of DKK 92.0 million for the year ended December 31, 2002. The table below compares revenue for both years on a segment-by-segment basis.

31

| | REVENUE | | AMOUNT OF INCREASE (DECREASE) | PERCENTAGE INCREASE (DECREASE) |

| TOTAL | 109,822 | 92,028 | 17,794 | 19.3% |

Both the Internet services segment and the broadcast media segment showed an increase in revenues. The increase in revenue in our Internet services segment is attributable to an increase in our remote back-up business offset against a small decrease in our secure hosting business. The increase in revenue in our broadcast media segment reflects the increase in number of subscribers to dk4, our television channel, and the increase of revenue in Prime Vision, our production company.

Total operating expenses for the year ended December 31, 2003 were DKK

Edgar Filing: EUROTRUST A/S - Form 20-F/A

116.3 million, a decrease of DKK 44.7 million, or 27.8%, from the total operating expenses of DKK 161.0 million for the year ended December 31, 2002. This decrease resulted primarily from a decrease in amortization and write downs and goodwill impairment. The table below shows our operating expenses by category on a segment-by segment basis.

In our Internet services segment the operating expenses generally decreased due to a significant non-reoccurring expense in 2002, included in Cost of sales, related to the IBM Tivoli licenses for our remote back-up business, a reduction in general administrative costs and our continued focus on lowering expenses generally.

In our broadcast media segment operating expenses generally increased due to the increase in production facilities and the increase in expenses related to the growth in Prime Vision as well as the increase of new subscribers to dk4 and the related variable costs related to the increase number of subscribers and our increased focus on further developing and enhancing our broadcast media business.

For the year ended December 31, 2003, the gross profit for our Internet services segment was DKK 13.4 million, or a margin of 63.3% of segment revenues. For the year ended December 31, 2002, the gross loss for our Internet services business was DKK 14.7 million, or a loss margin of 73.7% of segment revenues. This increase in gross profit margin is mainly attributable to a significant one time expense included in Cost of sales for 2002 which is related to the IBM Tivoli licenses for our remote back-up business.

In the case of our broadcast media segment, the gross profit for 2003 was DKK 30.6 million, or 34.5% of segment revenues while the gross profit margin for 2002 was DKK 31.5 million, or 43.7% of segment revenues. This decrease is primarily attributable to the increase in cost resulting from our increased focus on further developing and enhancing our broadcast media business.

For the year ended December 31, 2003 our operating loss decreased by DKK 62.6 million to DKK 6.4 million compared to a loss of DKK 69.0 million for the year ended December 31, 2002.

The operating loss for our Internet services segment decreased by DKK 67.9 million to DKK 7.6 million compared to a loss of DKK 75.5 million for the year ended December 31, 2002. This decrease is primarily attributable to the decrease in the write down of goodwill and other assets. In the Internet services segment, we depreciated and wrote down approximately DKK 1.3 million for the year ended December 31, 2003 compared to DKK 31.3 million for the year ended December 31, 2002.

The operating income for our broadcast media segment decreased to DKK 1.2 million compared to an operating income of DKK 6.6 million for the year ended December 31, 2002. This decrease is attributable to the increase in operating expenses due to our increased focus on further developing and enhancing our broadcast media business.

For 2003, we had interest income of DKK 0.2 million and interest expense of DKK 1.6 million. For 2002, interest income was DKK 1.8 million and interest expense was DKK 1.0 million. The reduction in interest income in 2003 reflects our lower cash balances during the year due to increased capital expenditures. The increase in interest expense in 2003 reflects an increase in our borrowings during the year.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

For 2003, we had a net foreign exchange (loss/increase) of DKK 1.8 million compared to a net loss of DKK 5.2 million in 2002. The increase is mainly due to the adverse developments in the US dollar exchange rate in 2002.

For 2003, we wrote down long term investments by DKK 0.2 million compared to a write down of DKK 18.3 million for 2002.

Our net loss for the year ended December 31, 2003 was DKK 6.3 million compared to a net loss of DKK 283.3 million for the year ended December 31, 2002. The decrease in our net loss of DKK 277 million is primarily attributable to the decrease in the loss from operations of the internet services segment in 2003 due to the sale of most of the segment businesses in 2003.

B. LIQUIDITY AND CAPITAL RESOURCES

Historically, our primary cash needs have been for capital expenditures and to fund operating losses. At December 31, 2004, our cash and cash equivalents totaled DKK 6.8 million compared to cash and cash equivalents totaling DKK 9.4 million at December 31, 2003. At December 31, 2004 the ratio of current assets to current liabilities was 0.67 to 1. Our current assets primarily reflect our cash and cash equivalents, restricted cash and accounts receivables.

At December 31, 2004, we had secured lines of credit from banks totaling DKK 9.0 million, of which DKK 8.4 million have been drawn, and an outstanding note payable, due in September 2009, in the principal amount of DKK 3.84 million which accrues interest at a rate of 5.5% per annum and is payable in equal monthly installments. Interest on the secured lines of credit is payable on the line at a floating rate based on the market rates of the major banks. The weighted average interest rate as of December 31, 2004 was 5.5%. In Denmark, a line of credit, such as that used by us, can be cancelled upon three months notice. Any termination would result in the principal and interest becoming due and payable immediately. The line of credit has been used for working capital purposes.

For the year ended December 31, 2004, cash used in operations (including cash used in discontinued operations) was DKK 10.1 million compared to DKK 18.5 million for the prior year, a decrease of DKK 8.4 million.

For the year ended December 31, 2004, cash provided by investing activities (including cash used in discontinued operations) was DKK 5.5 million compared to cash used in investing activities of DKK 13.4 million for the prior year, an increase of DKK 18.9 million. The increase is primarily attributable to the proceeds from the sale of the businesses in the Internet services segment, which increased by DKK 60.0 million in 2004 compared to 2003.

For the year ended December 31, 2004, cash provided by financing activities (including cash used in discontinued operations) was DKK 2.1 million compared to cash provided by financing activities of DKK 2.6 million for the prior year, a decrease of DKK 0.5 million. This decrease is primarily due to purchases of treasury stock and a net change in restricted cash in the aggregate of DKK 16.2 million partially off-set by an increase of DKK 13.1 million net change in short- and long-term borrowings, and a DKK 1.7 million reduction in lease payments.

Our capital expenditures for the year ended December 31, 2004 were DKK 31.2 million. These expenditures primarily relate to purchase of equipment in our media segment.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

On January 1, 2005, we received cash of DKK 1 in connection with the sale of the subsidiary, InAphone A/S, through which we engaged in the development and marketing of mobile phone software technologies.

We believe that our cash on hand and the positive trend of our operating cash flow together with borrowings currently available and other potential sources of funds as described above will be sufficient to fund our anticipated working capital needs and capital spending requirements in the foreseeable future. However, if we were to incur any unanticipated expenditures or the positive trend of our operating cash flow does not continue, such circumstances could put a substantial burden on our cash resources.

INFLATION

We do not believe that inflation had a material impact on our results of operations.

COMMITMENTS

In November 2000, we became part of VeriSign's Global Affiliate Network, an expanding group of international service providers using common technology, operating practices and infrastructure, compliant with the European Union (EU) common criteria requirements, to deliver interoperable trust services over the Internet. VeriSign is the leading provider of Internet infrastructure services in the world. Under our Affiliate Agreement with VeriSign, as amended, we provide VeriSign Internet infrastructure products and services in Denmark, Norway, Sweden, Finland, Austria and Switzerland. In February 2003 the Affiliate Agreement with VeriSign was amended, which, among other things, extended the term of the agreement for an additional 4 years through December 31, 2010 and reduced the minimum royalty payments and annual fee due to VeriSign for the year ending December 31, 2003 from approximately DKK 49.7 million (\$7.0 million) to approximately DKK 16.3 million (\$2.3 million). The minimum fee for the first quarter of 2004 was \$327,531 pursuant to an agreement with VeriSign. On April 1, 2004 we sold our PKI services business to VeriSign, Inc.

In January 2002, in connection with the combination of our Digiweb activity with DHT Hosting ApS (a Danish automated hosting company) to form EuroTrust Secure Hosting A/S, in which we have a 75% ownership interest and DHT has a 25% ownership interest. DHT had an option to sell its 25% interest in Secure Hosting to us in 2004 at a price based on the future profitability of Secure Hosting or

for a minimum of DKK 2.5 million. On January 1, 2004 we sold our hosting business to Mondo A/.S and the DHT option was cancelled.

IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs". SFAS No. 151 requires abnormal amounts of inventory costs related to idle facility, freight handling and wasted material (spoilage) to be recognized as current-period charges. In addition, SFAS No. 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The Company will be required to adopt the provisions of SFAS No. 151 for fiscal years beginning after June 15, 2005. Management believes the provisions of this Standard will no effect on our financial position or results of operations.

In December 2004, the FASB issued SFAS No. 123(R), "Share-Based Payment". This Statement revises SFAS No. 123, "Accounting for Stock-Based Compensation" and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees."

SFAS No. 123(R) requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. The cost will be measured based on the fair value of the instruments issued. The Company will be required to apply SFAS No. 123(R) as of the first fiscal that begins after June 15, 2005. Accordingly, the Company will adopt SFAS No.123(R) as of January 1, 2006. Management is currently evaluating the impact SFAS No. 123(R) will have on the Company's results of operations as a result of adopting this new Standard. Upon adopting SFAS 123(R) the Company's income will decrease as a result of the additional compensation expense if additional options are granted.

In January 2003, the FASB issued Interpretation No. 46, "CONSOLIDATION OF VARIABLE INTEREST ENTITIES, AN INTERPRETATION OF ACCOUNTING RESEARCH BULLETIN ("ARB") NO. 51." In December 2003, the FASB issued a revision to Interpretation No. 46, and interpretation of ARB Opinion No. 51 ("FIN 46R"). FIN 46R clarifies the application of ARB 51 "CONSOLIDATED FINANCIAL STATEMENTS," to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support provided by any parties, including the equity holders. FIN 46R requires the consolidation of these entities, known as variable interest entities ("VIE's"), by the primary beneficiary of the entity. The primary beneficiary is the entity, if any, that will absorb a majority of the entity's expected losses, receive a majority of the entity's expected residual returns, or both.

Among other changes, the revisions of FIN 46R (a) clarified some requirements of the original FIN 46, which had been issued in January 2003, (b) eased some implementation problems, and (c) added new scope exceptions. FIN 46R deferred the effective date of the interpretation for public companies to the end of the first reporting period ending after March 15, 2004, except that all public companies must at a minimum apply the unmodified provisions of the interpretation to entities that were previously considered "special-purpose entities" in practice and under the FASB literature prior to the issuance of FIN 46R by the end of the first reporting period ending after December 15, 2003.

Among the scope expectations, companies are not required to apply FIN 46R to an entity that meets the criteria to be considered a "business" as defined in the interpretation unless one or more of four named conditions exist.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

FIN 46R applies immediately to a VIE created or acquired after January 31, 2003. EuroTrust does not have any interests in VIE's and the adoption of FIN 46R did not have a material impact on EuroTrust financial position, results of operations or cash flows.

In March 2004, the FASB issued EITF Issue No. 03-1 ("EITF 03-1"), "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments." EITF 03-1 includes new guidance for evaluating and recording impairment losses on debt and equity instruments, as well as new disclosure requirements for investments that are deemed to be temporarily impaired. The accounting guidance provided in EITF 03-1 is effective for fiscal years beginning after June 15, 2004, while the disclosure requirements are effective for annual periods ending after June 15, 2004. The Company does not expect the adoption of EITF 03-1 will have a material impact on its financial position, results of operations, or cash flows.

OFF BALANCE SHEET ARRANGEMENTS

The Company is not aware of any material transactions which are not disclosed in its consolidated financial statements.

(1) Member, audit committee of the Board of Directors. (2) Member, compensation committee of the Board of Directors.

ALDO M.N. PETERSEN, PRESIDENT, CHIEF EXECUTIVE OFFICER, CHIEF OPERATING OFFICER, MANAGING DIRECTOR AND DIRECTOR

Mr. Petersen has been our President, Chief Executive Officer, Managing Director and a member of our board of directors since January 1988. He also serves as a member of the board for several of our wholly-owned subsidiaries, and is an investor of F.C. Copenhagen, the Copenhagen professional soccer team. Mr. Petersen holds a degree in economics from the Copenhagen Business School.

SOREN DEGN, CHIEF FINANCIAL OFFICER

Mr. Degn has been our chief financial officer since September 2003. He also serves as a member of the board for several of our wholly-owned subsidiaries. Prior to this appointment he served as our Corporate Finance Director since 2001. Mr. Degn spent 5 years with Kampsax A/S (a consultancy firm) and 7 years with KPMG in Denmark. Mr. Degn has a Graduate Diploma in Business Administration in accountancy and a MSC (Business Administration and Auditing) in financial planning and control from the Copenhagen Business School.

KAROLY LASZLO NEMETH, CHAIRMAN OF THE BOARD

Mr. Nemeth was elected to our board of directors in January 1988 and also serves as a member of the board for several of our subsidiaries.. He is a partner in and chairman of the board of Nemeth & Sigetty A/S, a law firm that performs legal services for us. He also serves on the board of various privately held Scandinavian companies.

JOHN J. STUART, JR., DIRECTOR

Mr. Stuart was elected to our Board of Directors in May 1998. Since January 1983 Mr. Stuart has been employed by Irvine Sensors Corporation ("ISC"), Costa Mesa, California USA, a developer of proprietary technologies to produce extremely compact packages of solid state microcircuitry. He currently serves as ISC's Senior Vice President and Chief Financial Officer, positions he has held since November 1998 and July 1985, respectively. Between July 1985 and February 1995, he also held the position of ISC's treasurer and was reappointed to this

Edgar Filing: EUROTRUST A/S - Form 20-F/A

position in November 1998. Mr. Stuart holds a degree in Industrial Management from the Massachusetts Institute of Technology.

38

ROBERT M. GUTKOWSKI, DIRECTOR

Mr. Gutkowski was elected to our Board of Directors in May 2004. Mr. Gutkowski currently provides consulting services to business in the sports and entertainment industries. He recently advised the New York Yankees in regard to the creation of the YES Network, a regional sports and entertainment network. He previously served as chief executive officer of the Marquee Group, Inc., a worldwide sports and entertainment firm that managed, produced and marketed sports and entertainment events and provided representation for athletes, entertainers and broadcasters. From 1991 until 1994, he was President of Madison Square Garden, Inc. ("MSG) where he was responsible for the operations of the New York Knickerbockers basketball team, the New York Rangers hockey club and MSB Communications, which included the MSG Television Network.

JAN BERGER, DIRECTOR

Mr. Berger was elected to our Board of Directors in May 2003. Mr. Berger has been a Management Consultant since 1998. He has more than 24 years of experience in the Information Technology (IT) industry and has held various top management positions with leading IT companies. In addition, Mr. Berger has served as a board member at several companies including, chairman of the board of Skrivervik Data, a SUN Microsystems distributor in Norway. Mr. Berger has degree in Business Economics and Administration with an emphasis on Sales and Marketing.

There are no family relationships among any of our directors and executive officers or those of our subsidiaries.

B. COMPENSATION

EXECUTIVE COMPENSATION

Cash compensation paid by us and our subsidiaries for the year ended December 31, 2004 to our directors and senior management for services in all capacities, other than professional fees, totaled approximately DKK 4.0 million (approximately \$732,000). In addition, we maintain a standard pension plan for our executive officers under the terms of which we contribute an amount equal to 15% of their annual salary to the plan. The total contribution for 2004 totaled approximately DKK 315,000 (approximately \$58,000).

We entered into new employment agreements with Aldo M.N. Petersen, our Chief Executive Officer and Soren Degn, our Chief Financial Officer, each of which is effective as of January 1, 2005.

The agreement with Mr. Petersen provides, among other things, for an annual salary of DKK 1.8 million an annual vacation payment of DKK 50,000 and a 10 year option to purchase 225,000 ADSs at a price of DKK 4.75 per ADS (the market price of our ADSs on the date of the grant). Mr. Petersen's employment agreement will initially expire on December 31, 2007. However the agreement will

39

Edgar Filing: EUROTRUST A/S - Form 20-F/A

automatically be extended for unlimited 1-year periods unless we provide him with 2 1/2 years advance notice that the Company will not renew his employment.

The agreement with Mr. Degn provides, among other things, for an annual salary of DKK 1,080,000 an annual vacation payment of DKK 50,000 and a 10 year option to purchase 112,500 ADSs at a price of DKK 4.75 per ADS (the market price of our ADSs on the date of the grant). Mr. Degn's employment agreement will initially expire on December 31, 2007. However the agreement will automatically be extended for unlimited 1-year periods unless we provide him with 2 years advance notice that the Company will not renew his employment.

OPTIONS

Options that were granted pursuant to our stock option plan to the named executive officers during the year ended December 31, 2004 and are set forth in the following table:

| NAME | SECURITIES UNDERLYING OPTIONS (1) | SECURITIES UNDERLYING OPTIONS (2) | EXERCISE PRICE PER SHARE (\$) (1) | EXERCISE PRICE PER SHARE (\$) (2) |
|---------------------|---|---|--|--|
| Aldo M. N. Petersen | 151,463 | 151,463 | 3.2571 | 3.2571 |
| Soren Degn | 68,158 | 68,158 | 3.2571 | 3.2571 |

(1) These securities are reflected as ordinary shares (after giving effect to a 1 for 6 reverse stock split on May 19, 2005).

(2) These securities are reflected in ADSs.

DIRECTOR COMPENSATION

Directors are reimbursed for expenses they incur in connection with attending meetings of the Board of Directors and committees thereof. We periodically grant options to our directors, although the amount and timing of those grants are determined by the Board in its sole discretion. In addition, our independent directors are paid (U.S.) \$5,000 per quarter for serving as a director and receive (U.S.) \$1,000 for each Board meeting which they attend in person. On May 12, 2004, the Board granted to each director who was not also an executive officer of the Company an option to purchase 25,000 ordinary shares (equivalent to 25,000 ADSs) with an exercise price equivalent to the closing market price on the date of grant.

C. BOARD PRACTICES

Our Board of Directors may consist of between three and seven members. As of May 20, 2005, the Board consisted of five members. Under certain provisions of the Danish Companies Act, our employees have the right to elect three board members. However, our employees have not exercised this right.

Each director is elected by a vote at the annual or special meeting of the shareholders and serves for a term of one year. All of our current directors were elected or re-elected at the annual general meeting held on May 19, 2005.

There is no restriction on the re-election of directors. The quorum for a meeting of the Board of Directors is a simple majority. All members of the Board of Directors have equal voting rights and all resolutions are passed by a simple majority.

The citizenships of the directors are as follows:

| Name | Country of Citizenship |
|----------------------|------------------------|
| ALDO M.N. PETERSEN | Denmark |
| KAROLY LASZLO NEMETH | Denmark |
| JOHN J. STUART, JR. | United States |
| JAN BERGER | Norway |
| ROBERT M. GUTKOWSKI | United States |

There are no agreements with our Board members that provide for the payment of benefits upon termination of their directorship.

The Board has determined that Messrs. Berger, Gutkowski and Stuart meet the standard for independent directors as required by the listing standards of NASDAQ.

BOARD COMMITTEES

Our Board of Directors has an audit committee and a compensation committee.

The audit committee reviews our financial statements and accounting practices, approves the selection of the Company's independent auditors and meets and interacts with the independent auditors to discuss questions in regard to the Company's financial reporting, reviews the results and scope of the audit and other services provided by our independent auditors, and our internal controls. The audit committee consists of Messrs. Berger, Gutkowski and Stuart. The Board has determined that Mr. Stuart is an "audit committee financial expert", as defined under the rules promulgated by the United States Securities and Exchange Commission.

The compensation committee makes recommendations to the Board regarding remuneration of executive officers and reviews our compensation plans and policies. The compensation committee consists of Messrs. Berger, Gutkowski and Stuart.

INDEMNIFICATION

Except to the extent indicated below, neither our Articles of Association nor any contract or other arrangement to which we are a party contains any provision under which any of our directors, members of management or officers are insured or indemnified in any manner against any liability that he or she may incur in his or her capacity as a director or an officer.

We have obtained an insurance policy under which our directors and officers are insured against losses arising from their acts or omissions in their capacities as directors or officers up to DKK 40 million. This policy has a DKK 50,000 deductible.

Under the Danish Act on Limited Companies, our directors and officers, who are registered as managers with the Danish Commerce and Companies Agency, are liable for losses caused deliberately or by negligence in connection with the performance of their duties to us and to third parties. Officers not so registered are indemnified by us under applicable Danish law in respect of actions taken by them in their official capacity.

Insofar as indemnification for liabilities under the Securities Act of 1933, as amended, may be permitted to our directors, officers or controlling persons as set forth above, we have been informed that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

D. EMPLOYEES

As of December 31, 2004, we had 101 employees, a decrease of 36 employees from the prior year. All of our employees are located in Denmark (see the following table.) This decrease is primarily attributable to the selling of our e-security businesses, partially offset by a growth of 33% in our broadcast media segment. The table below gives a breakdown of our employees and area of employment:

| | Denmark | Total |
|------------------------------|---------|-------|
| Sales and marketing | 5 | 5 |
| Customer service and support | 5 | 5 |
| Technical | 76 | 76 |
| Finance and administration | 15 | 15 |
| | -- | -- |
| Totals | 101 | 101 |
| | === | === |

Some of our employees are members of various labor unions; however, we are not required to, and we do not have agreements with any union. We have not experienced any work stoppages, and we consider our relations with our employees to be good.

Competition in the recruiting of highly-qualified personnel is intense. We believe that our future success will depend, in part, on our continued ability to hire, motivate and retain qualified management, marketing and technical personnel. To date, we have not experienced any difficulty in attracting and retaining qualified personnel, but we can provide no assurance that we will be able to continue to attract and retain qualified personnel in the future.

We believe that our relations with our union and non-union employees are good.

E. SHARE OWNERSHIP

The following table sets forth the ownership of our ordinary shares by the individuals named in Item 6.A., as of May 13, 2005 after giving effect to a 1 for 6 reverse stock split on May 19, 2005

- (8) Includes 320,276 ordinary shares underlying exercisable options and warrants.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

Edgar Filing: EUROTRUST A/S - Form 20-F/A

A. MAJOR SHAREHOLDERS

The following table sets forth information, as of May 13, 2005 with respect to the beneficial ownership of our ordinary shares (after giving effect to a 1 for 6 reverse stock split on May 19, 2005) by each shareholder known by us to beneficially own more than 5% of our ordinary shares.

| NAME OF BENEFICIAL OWNER(1) | SHARES BENEFICIALLY OWNED | |
|-----------------------------|---------------------------|---------|
| | NUMBER(1) | PERCENT |
| Aldo M.N. Petersen (2)..... | 924,742 | 16.84% |
| TOTAL | 924,742 | 16.84% |

(1) Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Ordinary shares issuable upon currently exercisable or convertible securities or securities exercisable or convertible within 60 days of May 13, 2005 are deemed beneficially owned and outstanding for computing the percentage owned by the person holding such securities, but are not considered outstanding for computing the percentage of any other person.

(2) Includes an aggregate of (i) 836,373 ordinary shares beneficially owned by Mr. Petersen and (ii) 88,369 currently exercisable options to purchase ordinary shares, expiring on March 31, 2009.

Except, as set forth in the table above, to our knowledge, in the last three years, there has not been any significant change in ownership by major shareholders. Our major shareholders do not have different voting rights. We are not owned or controlled, directly or indirectly, by another corporation or by any foreign government. We are not aware of any arrangement that may at a subsequent date result in a change of control.

B. RELATED PARTY TRANSACTIONS

In the ordinary course of business, EuroTrust engages in transactions with certain entities and individuals that are considered to be related parties as follows:.

VERISIGN, INC

VeriSign, Inc. ("VeriSign") was a minority shareholder in EuroTrust A/S owning approximately 18% until April 1, 2004. The transactions entered into during the year and the accounts payable at the year end shown below are a result of commercial trade with VeriSign. Current accounts with VeriSign are not carrying any interest.

| | ===== | ===== |

During 2001 we sold our domain name registration business to VeriSign for a gross cash consideration of DKK 210,687. Originally, during 2000 and 2001, we had purchased rights from VeriSign for DKK 75,305, which allowed us to sell VeriSign products in a number of European countries including, Denmark, Sweden, Norway, Finland, Austria, Switzerland and Italy. However, during 2002 the balance on the amount capitalized for the rights acquired from VeriSign was written-off due to the poor financial performance of the business.

On April 1, 2004, we sold the Secure Socket Layer (SSL) certificate assets of EuroTrust PKI to VeriSign. EuroTrust PKI, a wholly-owned subsidiary, is the operation through which we sold Public Key Infrastructure (PKI) Services, including VeriSign's SSL certificates and related services in Austria, Switzerland, Finland, Norway, Sweden and Denmark. Under the terms of the agreement, VeriSign paid us \$8.5 million U.S. in cash and assumed the ongoing obligations of EuroTrust PKI SSL contracts.

Simultaneously with the closing of the transaction to sell the assets of EuroTrust PKI to VeriSign, we repurchased 2,748,720 (458,120 after giving effect to the 6 reverse stock split) of our ordinary shares (equivalent to 458,120 American Depository Shares or "ADSs") from VeriSign for \$1,136,138 U.S. The repurchase was authorized by our shareholders.

NEMETH & SIGETTY A/S

Mr. Karoly Laszlo Nemeth is the Chairman of the board of directors of EuroTrust A/S and is also the joint owner of Nemeth & Sigetty A/S. Nemeth & Sigetty A/S provided legal services to the Company during the three years ended December 31, 2004. For the years ended December 31, 2002, 2003 and 2004 Nemeth & Sigetty A/S has been paid DKK 1,115, DKK 418 and DKK 962, respectively. There were no outstanding payables due to Nemeth & Sigetty A/S as at December 31, 2003 and December 31, 2004.

C. INTERESTS OF EXPERTS AND COUNSEL.

Not applicable because this is an Annual Report filed under the Exchange Act of 1934.

ITEM 8. FINANCIAL INFORMATION

A. CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

See Item 18. "Financial Statements" and pages F-1 through F-43 of this report.

LEGAL PROCEEDINGS

We recorded a provision in 2003 of DKK 1 million for expenses relating to an arbitration court settlement regarding the construction of our building

Edgar Filing: EUROTRUST A/S - Form 20-F/A

located in Soeborg, Denmark. The result of the arbitration court was a net payment to the contractor of approximately DKK 1 million. The case was fully settled in 2004.

Other than as described above, neither we nor our property is a party in any other pending material legal proceeding.

DIVIDEND PAYMENT POLICY

We have not paid out any dividend to our shareholders in the last three financial years. Payment of any future dividends will depend on our earnings and capital requirements, and other factors our board of directors deem appropriate.

B. SIGNIFICANT CHANGES

None.

ITEM 9. THE OFFER AND LISTING

A. TITLE

Our ordinary shares are not traded on any stock exchange or over-the-counter market. However, our ADS are traded on the Nasdaq SmallCap Market under the symbol "EURO".

On August 29, 2002, we implemented a one for six reverse ratio change in the number of ordinary shares represented by each ADS such that each new ADS issued subsequent to the ratio change will represent six ordinary shares (prior the ratio change, each ADS represented one ordinary share). Holders of our ADSs prior to the ratio change, each of which represents one ordinary share ("Old ADSs"), exchanged their Old ADSs for new ADSs, each of which represents six ordinary shares ("New

45

ADSs"). On May 19, 2005 our shareholders approved a one for six reverse split of our ordinary shares such that six ordinary shares nominal value DKK 1.25 were combined into one ordinary share nominal value DKK 7.50 ("New Ordinary Shares"). Therefore, each ADS now represents one New Ordinary Share.

On December, 31, 2004, there were 5,108,267 New ADSs issued and outstanding representing 5,108,267 ordinary shares.

The following table sets forth, for the periods indicated, the range of high and low market prices per ADS as quoted on the Nasdaq SmallCap Market. The prices shown below (in US Dollars) are adjusted to reflect the 1 for 6 reverse ratio change in our ADSs, described above, and represent quotations among securities dealers, do not include retail markups, markdowns or commissions and may not represent actual transactions.

C. MATERIAL CONTRACTS

Edgar Filing: EUROTRUST A/S - Form 20-F/A

On September 30, 2004, we sold our Internet security division, Virus 112, to Comendo A/S, one of the largest providers of managed anti-virus and anti-spam system solutions in Denmark, at a purchase price of approximately U.S. \$2.5 million. The purchase price was paid to us in the following manner: U.S. \$700,000 in cash and U.S. \$1.8 million 5-year, debenture bearing 6% interest. In accordance with the sale agreement, Comendo agreed to hire the Virus 112 employees and assume the employee obligations of Virus 112. In addition, Comendo entered into a 5-year lease for the portion of the facility then occupied by Virus 112.

On April 1, 2004, we sold our PKI services business to VeriSign and terminated the international affiliate agreement ("Affiliate Agreement") with VeriSign which we entered into on November 17, 2000 pursuant to which we became an affiliate of VeriSign, as a member of the VeriSign Global Affiliate Network, for the distribution and delivery of VeriSign's Internet Trust services and products within Denmark, Norway, Sweden, Finland, Austria, Switzerland and Italy. Under the terms of the sale agreement, VeriSign paid us \$8.5 million U.S. in cash and assumed the ongoing obligations of EuroTrust PKI SSL contracts.

D. EXCHANGE CONTROLS AND OTHER LIMITATIONS AFFECTING SECURITY HOLDERS

There are no governmental laws, decrees or regulations of the Kingdom of Denmark that restrict the export or import of capital (including, without limitation, foreign exchange controls), or that affect

47

the remittance of dividends, interest or other payments to nonresident holders of ordinary shares. There are no limitations imposed by the laws of the Kingdom of Denmark or our Articles of Association on the right of nonresident or foreign holders to hold or vote ordinary shares.

E. TAXATION

The following summary contains a description of the material United States federal income tax and Danish tax consequences of the purchase, ownership and disposition of ordinary shares or ADSs by a beneficial owner that (i) is an individual citizen or resident in the United States (for United States federal income tax purposes), a corporation or partnership organized under the laws of the United States or any state thereof, or estates or trusts the income of which is subject to United States federal income tax regardless of its source, (ii) is not also a resident or corporation of Denmark and is not domiciled in Denmark, (iii) does not hold ordinary shares or ADSs in connection with any permanent establishment or fixed base in Denmark, (iv) does not own, and has not owned (directly, indirectly or by attribution) at any time, 10% or more of our total combined voting power or equity, and (v) holds ordinary shares or ADSs as capital assets. The term "United States holder," as used in this summary, means a beneficial owner of ordinary shares or ADSs meeting these requirements.

The following summary of certain United States federal and Danish tax matters is based on tax laws of the United States and Denmark as in effect on the date of this report and the current Income Tax Treaty between the United States and the Kingdom of Denmark (the "Treaty"), which is a generally effective as of January 1, 2001. We cannot assure you that future legislation, regulations, administrative rulings or court decisions will not adversely affect the accuracy of the statements contained in this report. Also, changes in United States and Danish law and the Treaty made after the date of this report could have retroactive effect.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

The following summary does not consider or discuss the tax laws of any country other than the United States or Denmark. This summary does not describe United States federal estate and gift tax considerations, or state, local or provincial tax considerations. Furthermore, it does not address United States federal income tax or Danish tax considerations that apply to United States holders of our ordinary shares or ADSs who are also subject to taxing jurisdictions other than or in addition to the United States. Finally, it does not address all possible categories of United States holders, some of whom (such as financial institutions, trusts, estates, insurance companies, dealers in securities, certain retirement plans and tax exempt organizations) may be subject to special rules.

THE FOLLOWING DISCUSSION DOES NOT PURPORT TO BE EXHAUSTIVE OF ALL POSSIBLE TAX CONSIDERATIONS. UNITED STATES HOLDERS OF ORDINARY SHARES OR ADSs SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE UNITED STATES, DANISH OR OTHER TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF ORDINARY SHARES OR ADSs.

UNITED STATES TAX CONSEQUENCES OF OWNERSHIP OF ORDINARY SHARES OR ADSS

DIVIDENDS. For United States federal income tax purposes, the gross amount of all dividends (that is, the amount before reduction for Danish withholding tax) paid to a United States holder with respect to ordinary shares or ADSs out of our current or accumulated earnings and profits ("E&P") will be taxable for United States federal income taxation as a foreign source dividend income. As such, these dividends are not eligible for the dividends received deduction otherwise available to United States corporations in connection with dividends received from United States corporations. To the extent that a

48

distribution exceeds E&P, it will be treated first as a return of capital to the extent of the United States holder's basis, and then, as gain from the sale of a capital asset.

For United States federal income tax purposes, the amount of any dividend paid in Danish kroner will be the United States dollar value of the kroner at the exchange rate in effect on the date of receipt, whether or not the kroner is converted into United States dollars at that time.

The withholding tax imposed by Denmark generally is a creditable foreign tax for United States federal income tax purposes. As a result, a United States holder generally will be entitled to include the amount withheld as foreign tax paid in computing a foreign tax credit (or in computing a deduction for foreign income taxes paid, if the United States holder does not elect to use the foreign tax credit provisions of the Internal Revenue Code of 1986, as amended (the "Code")). The Code, however, imposes a number of limitations on the use of foreign tax credits, based on the particular facts and circumstances of each taxpayer. United States holders who hold ordinary shares or ADSs should consult their tax advisors regarding the availability of the foreign tax credit.

Backup withholding, imposed at the rate of 31%, may apply to a United States holder in connection with the sale or exchange of ordinary shares or ADSs. Generally, backup withholding does not apply to a United States holder (i) that is a corporation or comes within certain other exempt categories or (ii) provides a taxpayer identification number, certifies as to no loss of exemption from backup withholding and otherwise complies with applicable requirements of the backup withholding rules.

SALE OR OTHER DISPOSITION OF ORDINARY SHARES OR ADSS. Gain or loss recognized by a United States holder on the sale or other disposition of

Edgar Filing: EUROTRUST A/S - Form 20-F/A

ordinary shares or ADSs will be taxable for United States federal income tax purposes as capital gain or loss in an amount equal to the difference between such United States holder's basis in the ordinary shares or ADSs and the amount realized on the disposition. The capital gain or loss will be long term if the securities were held for more than 12 months and will be short term if they were held for less than 12 months. Capital losses are generally deductible only against capital gains and not against ordinary income.

Capital gain recognized by a United States holder on the sale or other disposition of ordinary shares or ADSs will be United States source gain. Losses from the sale of ordinary shares or ADSs would generally be sourced in the same manner as gains from the sale of such ordinary shares or ADSs. However, treasury regulations include a dividend recapture rule and other exceptions that may apply. United States holders of ordinary shares or ADSs should consult their tax advisors regarding the proper treatment of such losses.

DANISH TAX CONSEQUENCES OF OWNERSHIP OF ORDINARY SHARES OR ADSS.

DIVIDENDS. For Danish income tax purposes, the gross amount of all distributions made by us to our shareholders is taxed as a dividend. However, a distribution of liquidation proceeds made by us to our shareholders during the calendar year in which we are finally liquidated and dissolved is taxed as capital gain. In addition, the gross amount paid by us to redeem ordinary shares or ADSs are generally taxed as a dividend. However, a shareholder may apply to Danish tax authorities for a ruling allowing for capital gains treatment. If the ruling is obtained before the distribution is decided the ruling includes an exemption from the dividend tax. If the exemption request is granted, the consideration will be taxed as capital gain.

49

The granting of bonus shares to shareholders, and the right of shareholders to subscribe for ordinary shares or ADSs at a price that is less than the current trading value of such ordinary shares or ADSs, are not considered taxable distributions to shareholders.

In general, a Danish withholding tax of 28% is levied on all dividends. However, corporate shareholders holding at least 20 % of the share capital for a consecutive period for at least one year may be exempt from Danish withholding tax on dividends. The dividend in question must be covered by the double tax treaty between Denmark and United States. Further, a United States holder (individual or a company) may apply to the Danish tax authorities for a partial refund of the dividends tax that has been withheld under the Treaty. If this refund request is granted, the Danish withholding tax on such dividends is effectively reduced to 15%. The rate is reduced to 5% for corporate shareholders holding at least 10% of the share capital. We do not presently contemplate the payment of any dividends on our ordinary shares or ADSs. However, should we decide to make payment of dividend, we will apply to the Danish tax authorities for a blanket exemption allowing us to withhold only 15% of all gross dividends paid to a United States holder. While we believe that such an exemption will be granted, there can be no assurance that this will occur. Shareholders eligible for further reduction must apply individually for such reduction.

SALE OR OTHER DISPOSITION OF ORDINARY SHARES OR ADSS. Capital gains realized by United States holders upon the sale or other disposition of ordinary shares or ADSs may be exempt from Danish tax.

DANISH SHARE TRANSFER DUTY.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

No Danish share transfer duty is levied on the disposal of ordinary shares or ADSs.

DANISH ESTATE AND GIFT TAXES.

Generally, if a United States holder acquires or disposes of ordinary shares or ADSs by inheritance, legacy or gift, such holder will not be subject to Danish gift or inheritance taxes. If a United States holder should make a gift of ordinary shares or ADSs to any person resident in Denmark the gift can only be subject to Danish gift tax when forming part of the business property of a permanent establishment in Denmark. Other transfers of shares or ADS's shall be taxable only in the state in which the transferor was domiciled at the time of his death or when making the gift according to the United States-Denmark Double Taxation Convention with respect to taxes on estates, inheritance and gifts.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At December 31, 2004, we did not believe that market risk financial instruments would have a material affect on future operations or cash flows nor did we view currency exchange risk or interest rate risk as material. Operational currency exchange risk would arise if we priced products in one currency while material costs and expenses were denominated in a different currency. We do not believe that the operational currency exchange risk is material. However, from time to time we enter into a contract denominated in a currency other than the currency of operating expenses and, in such cases, may enter into currency forward arrangements with respect to and for the period covering such contract. Throughout the year 2004 and specifically at December 31, 2004, we had no material foreign exchange contracts outstanding.

ITEM 15. CONTROLS AND PROCEDURES

a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. EuroTrust's management, with the participation of the chief executive officer and the chief financial officer, carried out an evaluation of the effectiveness of EuroTrust's "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 (the "Exchange Act") Rules 13a-15(e) and 15-d-15(e)) as of the end of the fiscal year covered by this Annual Report (the "Evaluation Date"). Based upon that evaluation, the chief executive officer and the chief financial officer concluded that, as of the Evaluation Date, EuroTrust's disclosure controls and procedures are effective, providing them with material information relating to EuroTrust as required to be disclosed in the reports EuroTrust files or submits under the Exchange Act on a timely basis.

b) MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING. Not applicable for fiscal years ending before July 15, 2006. c) ATTESTATION REPORT OF THE REGISTERED PUBLIC ACCOUNTING FIRM. Not applicable for fiscal years ending before July 15, 2006.

d) CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING. There were no changes

Edgar Filing: EUROTRUST A/S - Form 20-F/A

in EuroTrust's internal controls over financial reporting, known to the chief executive officer or the chief financial officer, that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, EuroTrust's internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
EuroTrust A/S AND SUBSIDIARIES

We have audited the accompanying consolidated balance sheets of EuroTrust A/S and Subsidiaries as of December 31, 2004 and 2003 and the related consolidated statements of operations, comprehensive income, shareholders' equity and cash flows for the years ended December 31, 2004, 2003 and 2002. The financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of EuroTrust A/S and Subsidiaries at December 31, 2004 and 2003 and the consolidated results of its operations and its cash flows for the year ended December 31, 2004, 2003 and 2002, in conformity with accounting principles generally accepted in the United States.

As discussed in Note 1 and Note 6, the financial statements for all periods presented have been restated to reclassify the assets, liabilities, result of operations and cash flow for certain disposed components to discontinued operations. The effect of the restatement on revenues and income from continuing operations is described in Note 1.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(DKK AND US\$ AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS AND WHERE OTHERWISE INDICATED)

REPORTING CURRENCY

The consolidated financial statements are stated in Danish Kroner ("DKK"), the currency of the country in which the Company and its major subsidiaries are incorporated and operate. Balance sheet accounts of foreign subsidiaries are translated into DKK at the year-end exchange rate and items in the statement of operations are translated at the average exchange rate. Resulting translation adjustments are recorded to other accumulated comprehensive income, a separate component of shareholders' equity.

Translation adjustments arising from inter-company financing of a long-term investment nature are accounted for similarly. Some transactions of the Company and its subsidiaries are made in currencies other than the reporting currency. Gains and losses from these transactions are included in the statement of operations as foreign currency transaction gains and losses.

INFORMATION EXPRESSED IN US DOLLARS

Translation of DKK amounts into US Dollar amounts is included solely for the convenience of the reader and has been made at the rate of 5.4676 DKK to one US Dollar, the approximate exchange rate at December 31, 2004. Such translation should not be construed as a representation that the DKK amounts could be converted into US Dollars at that or any other rate.

USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates are used when accounting for items and matters such as the allowance for uncollectible accounts, inventory obsolescence, amortization, asset valuations, impairment assessments, taxes, guarantees and contingencies. Management bases its estimates on historical experience and on other assumptions

Edgar Filing: EUROTRUST A/S - Form 20-F/A

that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash and short-term deposits with maturities of less than three months at the time of purchase.

RESTRICTED CASH

Restricted cash as of December 31, 2004, included an escrow account with respect to the secure communications, on-site solutions, and payment platforms to website owners, commercial enterprises and electronic commerce service providers business (PKI) that was sold in April 2004 amounting to DKK

5,352. 50% of the holdback amount was released five business days following December 31, 2004 and the last 50% of the holdback amount is to be released five business days following September 30, 2005.

MARKETABLE SECURITIES - AVAILABLE FOR SALE

The Company accounts for investments in Marketable securities in accordance with Statement of Financial Accounting Standard (SFAS) 115, "Accounting for Certain Investments in Debt and Equity Securities". Under SFAS 115 the Company's investments in public companies are classified as "available-for-sale". These investments are carried at fair value based on quoted market prices. We review the marketable equity holdings in publicly traded companies on a regular basis to determine if any of the marketable securities have experienced an other-than-temporary decline in its fair value. We consider the investee company's cash position, earnings and revenue outlook, stock price performance over the past six months, liquidity and management, among other factors, when reviewing the marketable equity securities. If it is determined that an other-than-temporary decline in fair value exists in a marketable equity security, we record an investment loss in the consolidated statement of operations. Marketable securities are classified as current if the Company has the ability or intention of selling the security within 12 months.

LONG-TERM INVESTMENTS

Investments in non-public companies are included in long-term investments in the consolidated balance sheet and are accounted for under the cost method and equity method. For these non-quoted investments, we regularly review the assumptions underlying the operating performance and cash flow forecasts based on information requested from these privately held companies. Generally, this information may be more limited, may not be as timely as and may be less accurate than information available from publicly traded companies. Assessing each investment's carrying value requires significant judgment by management. If it is determined that there is an other-than-temporary decline in the fair value of a non-public equity security, we write-down the investment to its fair value and record the related write-down as an investment loss in the

Edgar Filing: EUROTRUST A/S - Form 20-F/A

consolidated statement of operations.

TRADE ACCOUNTS RECEIVABLE

Trade accounts receivable are recorded at the amount invoiced to customers and they do not bear interest. The allowance for doubtful accounts is the Company's best estimate of amount of probable losses resulting from the inability of our customers to make required payments. We regularly review the adequacy of our accounts receivable allowance after considering the size of the accounts receivable balance, each customer's expected ability to pay and our collection history with each customer. We review significant invoices that are past due to determine if an allowance is appropriate based on the risk category using the factors described above.

(DKK AND US\$ AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS AND WHERE OTHERWISE INDICATED)

The following includes the changes in the allowance for doubtful accounts for the years ended December 31, 2002 to December 31, 2004:

| Allowance for doubtful accounts: | Balance at January 1 | Amounts charged (credited) to Operating Expenses | Write-offs | Balance at December 31 |
|----------------------------------|-------------------------|--|------------|---------------------------|
| | ----- | ----- | ----- | ----- |
| Year ended December 31, 2002 | 7,640 | 0 | (3,011) | 4,629 |
| Year ended December 31, 2003 | 4,629 | (699) | (1,691) | 2,239 |
| Year ended December 31, 2004 | 2,239 | (720) | (927) | 592 |

NOTES RECEIVABLE

Notes receivable were recorded as a result of the sale of Virus 112 and totaled DKK 11,000 at December 31, 2004. Interest of 6% per annum is recorded and receivable on a quarterly basis beginning December 31, 2004. Principal payments of DKK 550 are payable quarterly beginning March 31, 2005 through December 31, 2009. No allowance for doubtful accounts has been recorded on the notes as they are deemed collectable. The Company's policy for putting the loan on non-accrual status and to record an allowance for doubtful accounts is based upon management's best estimate of amount of probable losses resulting from the purchaser inability to make required payments.

BROADCASTING PROGRAMMING RIGHTS

The Company acquires rights to broadcasting programming and produces programming for exhibit on its cable television station. The costs incurred in acquiring and producing programs are capitalized and amortized over the greater of when the program is aired or the license period or the projected useful life of the programming, currently 12 to 28 months. Program rights and the related liabilities are recorded at the gross amount of the liabilities when the license period has begun, the cost of the program is determinable, and the program is

Edgar Filing: EUROTRUST A/S - Form 20-F/A

accepted and available for airing.

INVENTORIES

Inventories principally consist of 38,000 (not in thousands) IBM Tivoli licenses at both December 31, 2003 and 2004, relating to our remote back-up business. Inventories are stated at the lower of cost or market with cost determined on the basis of the first-in, first-out method. In order to evaluate the designated market value of such assets the company investigates the available market for these products and their expected sales price. As of December 31, 2002 these licenses were written-down by DKK 21.7 million to DKK 0. During 2003, the Company recognized a DKK 3,367 reduction in cost of revenues for inventory credits given on the return of 7,000 IBM Tivoli licenses. As of December 31, 2004 these licenses were valued at DKK 0, net of allowance for obsolescence or DKK 18,333.

PROPERTY, PLANT AND EQUIPMENT

Buildings, production and technical equipment, furniture and fixtures, automobiles and leasehold improvements are carried at cost less accumulated depreciation. Assets held under capital leases are recorded at the present value of minimum lease payments less accumulated depreciation. Land is carried at cost and is not depreciated.

Buildings are depreciated on a straight-line basis over 50 years. Production and technical equipment, furniture and fixtures and automobiles are depreciated on a straight-line basis over the expected useful lives

F-13

EUROTRUST A/S AND SUBSIDIARIES

of between three and ten years. Leasehold improvements are amortized over the shorter of their expected lives, which is ten years or the non-cancelable term of the leases.

GOODWILL AND OTHER DEFINITE LIFE INTANGIBLE ASSETS

Goodwill represents the excess of costs over the fair value of the identifiable net assets of businesses or remaining minority interest of businesses acquired. Other definite life intangibles assets consisted in 2003 of license rights to virus scanning software and other intangible assets. The Company accounts for Goodwill and Other Intangible Assets in accordance with SFAS No. 142, GOODWILL AND OTHER INTANGIBLE ASSETS, and accordingly Goodwill and indefinite intangible assets are tested for impairment at least annually or when circumstances change that could result in impairment; definite-life intangible assets with estimable useful lives are amortized over their respective estimated useful lives, and reviewed for impairment in accordance with SFAS No. 144, Accounting for Impairment or Disposal of Long-Lived Assets.

IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS No. 144, long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are

Edgar Filing: EUROTRUST A/S - Form 20-F/A

reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed of significantly before the end of its estimated useful life.

Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and would no longer be depreciated. The depreciable basis of assets that are impaired and continue in use is their respective fair values

REVENUE RECOGNITION

The Company derives revenues from two primary categories: (i) Broadcasting, which includes cable and digital television subscriber income and program production income; and (ii) Internet services, which include managed public key infrastructure ("PKI") services and digital certificate services (through April 1, 2004), virus surveillance and detection services (through September 30, 2004), and royalty relating to remote data backup services. The Company's revenue recognition policies are in accordance with SEC Staff Accounting Bulletin ("SAB") No. 104, "REVENUE RECOGNITION, unless otherwise noted below. The revenue recognition policy for each of these categories is as follows:

BROADCASTING

The Company recognizes cable and digital television revenue in accordance with the terms of the contracts entered into with cable and digital television providers, which are based on the number of subscribers for the Company's television channel and as programming, is made available to viewers. Revenue and costs associated with program production are recognized when persuasive evidence of an arrangement exists, programs are completed and delivered to our customers, and fees are fixed and collectable with no further future obligation to the customer.

INTERNET SERVICES

The Company previously recognized revenues from issuances of digital certificates and managed PKI services, virus surveillance and detection services, and remote data backup, previous to the divestitures of these businesses in 2003 and 2004, when all of the following criteria were met:

Edgar Filing: EUROTRUST A/S - Form 20-F/A

(1) persuasive evidence of an arrangement exists, (2) delivery of products and services has occurred, (3) the fee is fixed or determinable and (4) collectibility is reasonably assured. We determine each of the criteria in our revenue recognition as follows:

PERSUASIVE EVIDENCE OF AN ARRANGEMENT EXISTS. We enter into written agreements with our customers, that are signed by both the customer and the Company, or other related documentation from those customers who have previously negotiated an arrangement.

DELIVERY OF PRODUCTS AND SERVICES HAS OCCURRED. Certificate and security technologies may be delivered physically or downloaded by the customer. Undelivered components of these technologies that are essential to the functionality of the products, if any are not recognized until delivery in full is complete.

THE FEE IS FIXED OR DETERMINABLE. Agreements with customers do not include a right to return. The majority of the initial fees are due within one year or less. Should there be arrangements with payment terms that extending beyond customary payment terms, the fees then are considered not to be fixed or determinable, and revenues from such arrangements are recognized as payments become due and realizable.

COLLECTIBILITY IS PROBABLE. Collectibility is assessed for each customer class of which there is a history of successful collection based upon a credit review. Initial determination that collectibility is not probable results in the revenues being recognized as cash is collected.

In software arrangements involving multiple elements, as required by the EITF Issue 00-21, "Revenue Arrangements with Multiple Deliverables" and American Institute of Certified Public Accountants Statement of Position ("SOP") 97-2, as amended by SOP 98-9, the Company allocates and defers revenue for the undelivered elements based on vendor-specific objective evidence, or VSOE, of the fair value of the undelivered elements, and recognizes the difference between the total arrangement fee and the amount deferred for the undelivered elements as revenue. VSOE of each element is based on the price for which the undelivered element is sold separately. If VSOE does not exist for undelivered elements such as maintenance services, then the entire arrangement fee is recognized over the performance period.

Fees from the sales of digital certificates and managed PKI services, which include bundled

maintenance services that are not sold separately, were deferred and recognized ratably over the period that such contracted services were provided, usually 12 to 24 months.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

Revenues from virus surveillance and detection services, which include bundled maintenance services that were not sold separately, were deferred and recognized ratably over the period that the service was provided, usually 3 to 36 months.

Up-front fees from hosting and remote data backup services were deferred and recognized ratably over the period that the services are provided, usually 3 to 12 months.

The Company's consulting and installation services relating to secure communication, virus protection and network security were not essential to the functionality of the software. These software products were fully functional upon delivery and did not require any significant modification or alteration. Revenues from consulting and installation services, which were provided on a time and materials basis, were recognized as the services were performed and accepted by the customer.

Currently, the Company receives royalties on the sales of Internet products and services of divested subsidiaries. These royalties are recognized as revenues in the periods in which they are earned and deemed collectable.

ADVERTISING COSTS

Advertising costs are expensed as incurred. Advertising expenses totaled DKK 4.0 million, DKK 3.9 million and DKK 5.0 million in 2002, 2003 and 2004, respectively.

INCOME TAXES

The Company utilizes the asset and liability method to account for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and to operating loss carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records a valuation allowance to reduce deferred tax assets to an amount which realization is more likely than not.

STOCK OPTIONS

At December 31, 2004, the Company has a number of stock options outstanding. We apply the intrinsic value-based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES", and related interpretations including FASB Interpretation No. 44, "ACCOUNTING FOR CERTAIN TRANSACTIONS INVOLVING STOCK COMPENSATION AN INTERPRETATION OF APB NO. 25" issued in March 2000, to account for our fixed plan stock options.

Under this method, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. SFAS No. 123 "ACCOUNTING FOR STOCK-BASED COMPENSATION," established accounting and disclosure requirements using a fair value-based method of accounting for stock-based employee compensation plans. As allowed by SFAS No. 123, we have elected to continue to apply the intrinsic value-based method of accounting described above, and have adopted the disclosure requirements of SFAS No. 123. The following table (in DKK) illustrates the effect on net loss and net loss per share if we had applied the fair value recognition provisions of SFAS No. 123, "ACCOUNTING FOR STOCK-BASED COMPENSATION," to stock-based employee compensation under which the estimated fair value of the options would have been over the options' vesting periods:

| | 2002 | 2003 | 2004 |

CONCENTRATION OF CREDIT RISK

Cash and cash equivalents are, for the most part, maintained with several major financial institutions in Scandinavia. These balances are insured up to DKK 300 per account.

The company has one large customer in the broadcasting segment which alone accounts for 28% and 25% of the company's consolidated revenue for 2002, 2003, respectively. The company has two large customers

in the broadcasting segment which accounts for 32% and 16%, respectively of the company's consolidated revenue for 2004. These two customers account for approximately 33% and 22% of our outstanding receivables at December 31, 2004.

PENSIONS AND OTHER POST-RETIREMENT AND POST-EMPLOYMENT BENEFITS

The Company contributes to insurance companies for defined contribution pension benefits agreements between employees and insurance companies. The Company's contributions are expensed as incurred. The Company has no future liabilities related to pensions beyond the contribution.

Other than the pension benefits described above, the Company does not provide its employees with post-retirement and post-employment benefits.

RESTATEMENT

The financial statements have been restated for all periods presented to reflect a one-for-six reverse stock split of its ordinary common shares effected May 19, 2005 (See Note 14).

The financial statements for all periods presented have been restated to reclassify the assets, liabilities, result of operations and cash flow for the disposed components of EuroTrust Virus 112 A/S, EuroTrust PKI Services A/S, EuroTrust Sweden, Telefax Scandinavia AB, EuroTrust E-Security SARL, and EuroTrust France SAS to discontinued operations.

The effect of the restatement reduced revenues from continuing operations from DKK 135,789 to DKK 92,028 for 2002, from DKK 166,411 to DKK 109,822 for 2003 and DKK 112,111 to DKK 91,036 for 2004. The effect of the restatement reduced the (loss) from continuing operations from DKK (277,348) or DKK (63.61) per share to DKK (97,363) or DKK (22.33) per share for 2002; resulted in the (loss) from operation of DKK (8,930) or DKK (1.91) per share changing to income from continuing operations of DKK 2,041 or DKK 0.44 per share for 2003; and income from continuing operations changing from DKK 58,454 or DKK 11.82 per share to a (loss) from continuing operations of DKK (26,251) or DKK (5.30) per share in 2004. The restatement had no effect on net loss or loss per share for 2002 and 2003 or net income or income per share for 2004.

RECLASSIFICATIONS

Certain balances in the financial statements for December 31, 2002 and 2003 have been reclassified to conform to the headings and classifications used in the December 31, 2004 financial statements

RECENTLY ISSUED ACCOUNTING STANDARDS

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs". SFAS No. 151 requires abnormal amounts of inventory costs related to idle facility, freight handling and wasted material (spoilage) to be recognized as current-period charges. In addition, SFAS No. 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The Company will be required to adopt the provisions of SFAS No. 151 for fiscal years beginning after June 15, 2005. Management believes the provisions of this Standard will have no effect on our

Edgar Filing: EUROTRUST A/S - Form 20-F/A

financial position or results of operations.

In December 2004, the FASB issued SFAS No. 123(R), "Share-Based Payment". This Statement revises SFAS No. 123, "Accounting for Stock-Based Compensation" and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees."

SFAS No. 123(R) requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. The cost will be measured based on the fair value of the instruments issued. The Company will be required to apply SFAS No. 123(R) as of the first fiscal year begins after June 30, 2005. Accordingly, The Company will adopt SFAS No. 123(R) during the first quarter of fiscal 2006. Management is currently evaluating the impact SFAS No. 123(R) will have on the Company's results of operations as a result of adopting this new Standard. Upon adopting SFAS 123(R)

the Company's income will decrease as a result of the additional compensation expense if additional options are granted.

In January 2003, the FASB issued Interpretation No. 46, "CONSOLIDATION OF VARIABLE INTEREST ENTITIES, AN INTERPRETATION OF ACCOUNTING RESEARCH BULLETIN ("ARB") NO. 51." In December 2003, the FASB issued a revision to Interpretation No. 46, and interpretation of ARB Opinion No. 51 ("FIN 46R"). FIN 46R clarifies the application of ARB 51 "CONSOLIDATED FINANCIAL STATEMENTS," to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support provided by any parties, including the equity holders. FIN 46R requires the consolidation of these entities, known as variable interest entities ("VIE's"), by the primary beneficiary of the entity. The primary beneficiary is the entity, if any, that will absorb a majority of the entity's expected losses, receive a majority of the entity's expected residual returns, or both.

Among other changes, the revisions of FIN 46R (a) clarified some requirements of the original FIN 46, which had been issued in January 2003, (b) eased some implementation problems, and (c) added new scope exceptions. FIN 46R deferred the effective date of the interpretation for public companies to the end of the first reporting period ending after March 15, 2004, except that all public companies must at a minimum apply the unmodified provisions of the interpretation to entities that were previously considered "special-purpose entities" in practice and under the FASB literature prior to the issuance of FIN 46R by the end of the first reporting period ending after December 15, 2003.

Among the scope expectations, companies are not required to apply FIN 46R to an entity that meets the criteria to be considered a "business" as defined in the interpretation unless one or more of four named conditions exist. FIN 46R applies immediately to a VIE created or acquired after January 31, 2003. EuroTrust does not have any interests in VIE's and the adoption of FIN 46R did not have a material impact on EuroTrust financial position, results of operations or cash flows.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

In March 2004, the FASB issued EITF Issue No. 03-1 ("EITF 03-1"), "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments." EITF 03-1 includes new guidance for evaluating and recording impairment losses on debt and equity instruments, as well as new disclosure requirements for investments that are deemed to be temporarily impaired. The accounting guidance provided in EITF 03-1 is effective for fiscal years beginning after June 15, 2004, while the disclosure requirements are effective for annual periods ending after June 15, 2004. The Company does not expect the adoption of EITF 03-1 will have a material impact on its financial position, results of operations, or cash flows.

EXCELSA SA S.R.L.

During the second half of 2004, the Company acquired additional 139,322 (not in thousands) ordinary shares of Excelsa S.P.A. for a total cash amount of DKK 11,948 or Euro 1,659. Subsequent to year ended December 31, 2004, Eurotrust discovered that Excelsa SA had overstated their 2004 and 2003 results. EuroTrust, MSGI and one other significant shareholders entered into negotiations with Excelsa to attempt to remediate the damages. As a result of overstatement and uncertainty of Excelsa ability to continue as a going concern management recorded an impairment charge of DKK 14,442 during 2004.

TRUST ITALIA S.P.A.

On September 1, 2004, the Company sold its approximately 16% interest in Trust Italia S.p.A. to Excelsa SA for a total consideration of DKK 7,436 or Euros 1,000. The investment was written down to zero at December 31, 2002 based on an impairment test.

On April 1, 2004, Prime Vision A/S purchased the remaining 25% of Mobile Broadcast A/S, from Euro Broadcast Hire A/S thereby becoming the 100% owner of Mobile Broadcast A/S. The purchase price exceeded the fair market value of net assets acquired by approximately DKK 620, which was recorded as goodwill.

On April 23, 2004, the Company's subsidiary InAphone (formerly known as 909.909 A/S) acquired the assets of Ideation House ApS. The purchase price exceeded the fair value of the net assets acquired by approximately DKK 965, which was recorded as Goodwill. At December 31, 2004, the Company recorded an impairment charge of DKK 965 related to the purchase as the projected future cash flows from the subsequent sale of InAphone were insufficient to realize the related goodwill.

On December 31, 2003, EuroTrust A/S purchased the remaining 15% of Europe-Visions A/S (formerly Euro909Media A/S), from Parken Sport & Entertainment thereby becoming the 100% owner of Europe-Visions A/S. The purchase price exceeded the fair market value of net assets acquired by approximately DKK 2,977, which was recorded as goodwill.

During the fourth quarter of 2003 and 2004, the Company performed the annual impairment test and recorded an impairment charge of DKK 0 and DKK 965, respectively.,

Fair value was estimated for each reporting unit, within EuroTrust, using the expected present value of discounted future cash flows the unit is expected to generate over its remaining life. When making these estimates, we were required to make estimates of future operating trends and judgments on discount rates and other variables. Actual future results and other assumed variables could differ from these estimates. The discount rates used ranged from 14 to 16 percent and the terminal values were estimated based on terminal growth rates of two percent. The assumptions supporting the estimated future cash flows, including the discount rate and estimated terminal values, reflect management's best estimates.

During 2004, the Company sold the remaining software licensing rights in connection with the sale of Virus 112 (See Note 7).

7. BUSINESS ACQUISITIONS, DIVESTITURES AND DISCONTINUED OPERATIONS

ACQUISITIONS DURING 2004

On April 1, 2004, Prime Vision A/S purchased the remaining 25% of Mobile Broadcast A/S, from Euro Broadcast Hire A/S thereby becoming the 100% owner of Mobile Broadcast A/S. The purchase price exceeded the fair market value of net assets acquired by approximately DKK 620, which was recorded as goodwill.

On April 23, 2004, the Company's subsidiary formerly known as 909.909 A/S changed it's name to InAphone A/S and acquired, in a transaction accounted for as a purchase, the assets and operations of Ideation House ApS which engages in the development and marketing of mobile phone software technologies. The terms of the purchase required the Company to surrender 40% of the outstanding equity of InAphone A/S to the current management and to loan DKK 3,000 of working capital to InAphone A/S. The purchase price exceeded the fair value of the net assets acquired by approximately DKK 965, which was recorded as Goodwill. The consolidated financial statements include the results of operations of InAphone A/S from April 23, 2004 through December 31, 2004. Further, the net loss for InAphone A/S for the period from April 23, 2004 through December 31, 2004 applicable to the 40% minority interest were not allocated to the holders of the non-controlling interest as there is an inability of the minority shareholders to share in such losses.

On January 1, 2005, and subsequent to December 31, 2004, the Company sold InAphone A/S as InAphone A/S had depleted the capital management was willing to allocate, without showing any significant increase in sales from the use of media in mobile phones and hand-held personal organizers. The minority shareholders paid DKK 1 for the Company's 60% interest and assumed the net liabilities of InAphone A/S as of December 31, 2004. The subsequent sale resulted in no gain or loss.

On December 31, 2003, EuroTrust A/S purchased the remaining 15% of Europe-Visions A/S (formerly Euro909Media A/S), from Parken Sport & Entertainment thereby becoming the 100% owner of Europe-Visions A/S. The purchase price exceeded the fair market value of net assets of Europe-Visions acquired by approximately DKK 2.9 million, which was recorded as goodwill.

ACQUISITIONS DURING 2002

ALPHASYS SAS

As of January 2002, the Company acquired 100% of the French IT-security company Alphasys SAS, for a cash consideration of DKK 40.2 million. This consideration was subsequently reduced by DKK 5,057 after a loss guarantee was negotiated and a refund paid by the vendor of Alphasys SAS in June 2002.

Alphasys was purchased from Synerco ApS, a Danish company, also known as Venture 2000. Peter Forchhammer is a majority shareholder of Synerco ApS and was one of the original founders of EuroTrust in 1985 and is currently a shareholder in EuroTrust.

The total purchase price has been allocated to the assets acquired and the liabilities assumed on the acquisition date. In the provisional purchase price allocation goodwill of DKK 33.2 million was recorded in connection with this acquisition, which forms part of The Company's Internet Security Product and Services Segment. The results of these operations have been reclassified to discontinued operations in the Company's financial statements.

As of December 31, 2002, following an assessment of the current and future performance of the Alphasys business, we tested the goodwill arising on this acquisition for impairment. As a result of this test we wrote down the carrying value of the goodwill from DKK 33.2 million to zero. The tangible fixed assets acquired were also written down to zero as a result of this impairment test.

EUROTRUST NETVAULTING A/S (FORMERLY WISEHOUSE A/S)

As of December 31, 2002 Medani A/S exercised the written option issued at the time of the Company's purchase of an 85% equity interest in EuroTrust NetVaulting A/S to sell its remaining equity interest of 15% in EuroTrust NetVaulting A/S to the company. The consideration comprised 134,083 ADR's, valued at DKK 5,000. The share purchase was made in accordance with the terms of a shareholder agreement with the minority shareholder Medani A/S. The EuroTrust ADR's issued to Medani A/S in this transaction were purchased from a shareholder who had purchased the shares in the

market, at the request of the Company, during the period August 2002 to November 2002. The shares were sold to the Company at the same price that the shareholder had paid in the market with an additional 1% to cover transaction costs. The shareholder has been working as a consultant to EuroTrust NetVaulting A/S.

The Company experienced a loss of DKK 4,923 with regard to this option which is included within other (expenses) income in the consolidated statement of operations as of December 31, 2002. The difference between the actual purchase price for the ADR's of DKK 4,575 and the fair value of the option of DKK 5,000 has been included within other (expenses) income, net in the consolidated statement of operations as a gain amounting to DKK 425.

EUROTRUST SECURE HOSTING A/S

As of January 1, 2002, we combined our Digiweb activity with DHT Hosting ApS (a Danish automated hosting company) to form EuroTrust Secure Hosting A/S, our secure web hosting subsidiary, in which we have a 75% ownership interest. DHT Hosting ApS has an option to sell its 25% interest in EuroTrust Secure Hosting A/S to us in 2004 and forward at a price based on the future profitability of Hosting or for a minimum of DKK 2,500. In addition, DHT Hosting ApS has an option to acquire an additional 10% of EuroTrust Secure Hosting A/S for a price of DKK 50 (at par). These options have been included in the financial statements at their respective fair values, resulting in an expense of DKK 2,287 in 2002 which is included within other (expenses) income, net in the consolidated statement of operations for the year ended December 31, 2002.

DISCONTINUED OPERATIONS

During 2004 and 2003, the company elected to divest the operations of the internet services segment. The divestitures were completed during 2004 and 2003 with the operations of EuroTrust Virus 112 A/S, EuroTrust PKI Services A/S, EuroTrust Sweden, Telefax Scandinavia AB, EuroTrust E-Security SARL, and EuroTrust France SAS being reclassified in the accompanying statement of operations to discontinued operations as the Company will not have any continuing involvements in the components or cash flows from their operations. Revenues of the discontinued components for the years ended December 31, 2004, 2003 and 2002 were DKK 21,075, DKK 56,589, and DKK 43,761. The pretax income or (loss) from the operations of the discontinued components was DKK(179,985), DKK(18,420) and DKK1,090 for the 2002, 2003 and 2004, respectively. The gain (loss) on disposal of the discontinued components was DKK (6,000), DKK 10,049 and DKK 83,615 for 2002, 2003 and 2004, respectively.

DIVESTITURES DURING 2004

VIRUS 112

On September 30, 2004 the Company sold the assets of Virus112, to Comendo A/S. Virus112 A/S, a wholly-owned subsidiary of the Company, through which the Company offered virus detection products and services. The purchase price was approximately U.S. \$2.5 million, of which U.S. \$700,000 was paid in cash and the balance was paid by a five-year note receivable in the principal amount of U.S. \$1.8 million, bearing interest of 6% per annum, and payable in quarterly installments. Comendo will also hire the Virus112 employees and assume the employee and the ongoing contractual obligations of Virus112. In addition, Comendo will enter into a 5-year lease for the portion of the facility owned by

Edgar Filing: EUROTRUST A/S - Form 20-F/A

the Company that is occupied by Virus 112.

In connection with the sale Comendo agreed to lease certain office space and equipment from the Company. The lease calls for Comendo to make monthly payments of DKK 79 the first 6 months and afterwards DKK 113 per month through September 30, 2009.

Secure Hosting A/S

In January 2004, the Company sold its hosting subsidiary, EuroTrust Secure Hosting A/S, to Mondo A/S. The consideration we received includes a three-year royalty agreement on future sales generated from our transferred customer base and thus has not been classified as a discontinued operations. The agreement includes a minimum royalty of DKK 7,100 over the three-year period. During 2004, the Company received royalty payment of DKK 1,435 which have been included in the gain from sales of business line item on the consolidated statements of operations.

DIVESTITURES DURING 2003

NetVaulting A/S

On November 30, 2003, the Company sold the assets in its secure remote back-up business, EuroTrust NetVaulting A/S, to Munk IT. The consideration includes a 10-year royalty agreement on future sales generated from our transferred customer base and thus has not been classified as discontinued operations.

EuroTrust Sweden AB

On December 31, 2003, the Company sold its 70% interest in EuroTrust Sweden AB to CEO/shareholder (30% of EuroTrust Sweden - Klas Carlin) and our previous CTO Tobias Wahlgren for DKK 1. The operations have been reclassified as discontinued operations in the accompanying financial statements. All employment liabilities for Tobias Wahlgren is in connection with the agreement transferred from EuroTrust PKI Services A/S to EuroTrust Sweden AB. EuroTrust Sweden AB had a negative equity of approx. DKK 1,400 as of December 31, 2003. Due to the negative equity EuroTrust has given EuroTrust Sweden AB the possibility for a loan of a maximum of DKK 1,600 forward for the period ending December 31, 2005. The loan can at anytime be transferred into equity of a maximum of 25% in EuroTrust Sweden AB.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

On December 31, 2003 we sold our interest in Alphasys for DKK 1 and recognized a gain of approximately DKK 6,400 gain on sale of subsidiary. The operations have been reclassified to discontinued operations in the accompanying financial statements. Alphasys had previously been forced into liquidation in October 2003. Management believes in consultation with its French attorney that no liability will be raised against EuroTrust A/S.

On November 30, 2003 the Company disposed of the operations and assets of Realtime Security A/S for DKK 400 resulting in the Company recognizing a loss of DKK 520 on the sale. The operations have been reclassified as discontinued operations in the accompanying financial statements.

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of the Company's cash equivalents and restricted cash, receivables, marketable securities, long-term investments, line of credit and long-term debt, payables and lease obligations approximates the carrying amount, which is the amount for which the instrument could be exchanged in a current transaction between willing parties. Information about each instrument follows:

CASH, CASH EQUIVALENTS AND RESTRICTED CASH

The carrying amount of cash, cash equivalents and restricted cash approximates their fair value as of December 31, 2003 and 2004, because of the short term maturities of those instruments.

ACCOUNTS RECEIVABLE, RECEIVABLES FROM RELATED PARTIES, VAT RECEIVABLE AND OTHER RECEIVABLES

The carrying amounts of accounts receivable, receivables from related parties, VAT receivable and other receivables approximate their fair value as of December 31, 2003 and 2004 because of the expected short term collection of those instruments.

NOTES RECEIVABLE,

The carrying amount of notes receivable approximates their fair value as of December 31, 2003 and 2004 because the interest rates approximate the rate of similar instruments as of December 31, 2004.

Marketable securities

The fair values of investment securities are estimated based on quoted market prices as of December 31, 2003 and 2004 and are stated at fair value.

LONG TERM INVESTMENTS

For long-term other investments for which there are no quoted market prices, a reasonable estimate of fair value as of December 31, 2003 and 2004 is based on a review of the assumptions underlying the operating performance of the privately held companies.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

LINE OF CREDIT AND LONG- TERM DEBT

The fair values of the Company's line of credit and long-term debt as of December 31, 2003 and 2004 approximate recorded values as of December 31, 2004, based on similar current rates offered to the Company for debt of the same remaining maturities.

ACCOUNT PAYABLE AND ACCOUNTS PAYABLE, RELATED PARTIES

The carrying amount of accounts payable and accounts payable -related party approximates fair value as of December 31, 2003 and 2004, because of the short term maturity of those instruments.

LEASE OBLIGATIONS

The fair value of the Company's lease obligations is estimated by discounting the future cash flows at rates currently offered to the Company for debt of comparable maturities by the Company's bankers and is similar to recorded amounts as of December 31, 2004.

For the year ended December 31, 2004 the Company recorded depreciation expense on assets held under capital leases of DKK 1,172 which was included in depreciation expense on the statements of operations.

In 2002 the Company entered into a sale and lease back agreement with IBM regarding the company's inventories of Tivoli licenses. The lease payments amount to DKK 3,706 per year and the agreement expires April 30, 2004. The lease is secured by 15,000 Tivoli licenses valued at approximately DKK 7,215 before their impairment in 2002. During 2003 the Company stopped making payments on the lease obligations due to disagreements regarding the underlying Tivoli Licenses; resulting in the lease obligation being in default according to the terms of the lease agreement. At December 31, 2003 and 2004 the Company has included approximately DKK 3,839, in accounts payable representing approximately DKK 3,744 in principal and DKK 95 in interest relating to unpaid lease commitments. The Company is from time to time in discussions with IBM to resolve the underlying disagreements and to potentially renegotiate the terms of the lease agreement.

The Company also has several non-cancelable operating leases, primarily for office space, that expire over the next two years. These leases generally contain renewal options for one year and require the Company to pay all executory costs such as maintenance and insurance. Expenses under operating leases, amounted to DKK 3.4 million, DKK 1.8 million and DKK 1.3 million in the years ended December 31, 2002, 2003 and 2004, respectively.

The recognized tax assets as of December 2003 and 2004 are related to temporary differences between the book and fiscal values of fixed assets in the profitable broadcasting segment and for the company EuroTrust Secure Hosting A/S.

The Company assessed the realization of the deferred tax assets based on available evidence, both positive and negative, to determine whether it is more likely than not that all or a portion of the deferred tax assets will be realized. The conclusion as to whether it is more likely than not that some portion of these assets will not be realized takes into consideration the following factors, among others:

- o Future earnings potential determined through the use of internal forecasts
- o The carry forward period associated with the deferred tax assets and
- o The nature of the income that can be used to realize the deferred tax assets

To the extent that the Company determines it is more likely than not that all or a portion of the deferred tax assets will not be realized, a valuation allowance is recorded.

The tax loss carry-forwards available at December 31, 2004 and their expiration years are as follows (in DKK):

COMMON STOCK

During 2004, the Company issued 345,254 shares (not in thousands) upon the exercise of options at pricing ranging from \$1.32 to \$2.46 per share.

During 2003, the Company issued 758,079 shares (not in thousands) upon the exercise of options at pricing ranging from \$1.26 to \$1.50 per share.

1 FOR 6 REVERSE STOCK SPLIT OF ORDINARY SHARES

On May 19, 2005, and reflected in the accompanying financial statements the Company effected a 1 for 6 reverse stock split of its ordinary shares wherein in lieu of issuing a fraction of a New Share, to pay to each holder the value thereof based upon the closing price of an ADR on the NASDAQ Small Cap Market on the day on which the change shall have occurred. The Company further effected a change in the par value of each ordinary common share of the Company from DKK1.25 to DKK 7.50.

15. EARNINGS PER SHARE

Basic net (loss) income per share is computed by dividing net (loss) income (numerator) by the weighted-average number of shares of common stock outstanding during the period (denominator). Diluted net (loss) income per share gives effect to stock options considered to be potential common shares, if dilutive. Potential common shares consist of shares issuable upon the exercise of stock options computed using the treasury stock method.

The following table presents the computation of basic and diluted average common shares outstanding:

| | YEAR ENDED DECEMBER 31, | | |
|--|-------------------------|------|------|
| | 2002 | 2003 | 2004 |
| Determination of basic and diluted shares: | | | |
| Weighted-average shares outstanding | | | |

Edgar Filing: EUROTRUST A/S - Form 20-F/A

| | | | |
|---|-------|-------|-------|
| | 4,360 | 4,671 | 4,947 |
| Potential common shares--dilutive stock options | -- | -- | 319 |
| | ----- | ----- | ----- |
| Basic and diluted average common shares outstanding | 4,360 | 4,671 | 5,266 |

In 2004, the Company excluded 267 common share equivalents with a weighted-average share price of \$5.52, in 2003, the Company excluded 136 weighted-average common share equivalents with a weighted-average share price of \$1.38 and in 2002, the Company excluded 14 weighted-average common share equivalents with a weighted-average share price of \$5.04 from the potential common shares because their effect would have been anti-dilutive. Weighted-average common share equivalents do not include stock options with an exercise price that exceeded the average fair market value of the Company's common stock for the period.

21. SEGMENT REPORTING

The Company's Chief Operating Decision-maker, as defined in SFAS No. 131, is considered to be EuroTrust's CEO. The Chief Operating Decision-maker reviews separate consolidated financial information for the Internet services business segment, the broadcast media business segment and prior to 2002 other segments. Each of the Company's business segments are managed separately because they offer and distribute distinct services to different customer segments. The Company therefore considers that it has three reportable segments under SFAS 131 from 2002 to 2004 as follows: (i) Internet services, and (ii) broadcast media. The print and online media segment was disposed of in December 2001 and is, therefore, treated as a discontinued operation thereafter. The internet services segment was disposed of during 2004 and 2003 with the operations being classified as discontinued operations with the exception of the operations of the EuroTrust Secure Hosting and NetVaulting components as the Company continued to receive royalties from the existing customers at the time of their sale.

The Chief Operating Decision-maker evaluates performance and allocates resources based on profit or loss from operations before interest, gains and losses on the Company's investment portfolio, and income taxes. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies. It is the Company's policy that trade between the segments is entered into on an arms-length basis.

Edgar Filing: EUROTRUST A/S - Form 20-F/A

Net sales by geographical location and reportable segment information for each and business segment for each of the years ended December 31, 2002, 2003 and 2004 is presented in the following tables:
