**Item 1.02 Termination of a Material Definitive Agreement**

On March 27, 2008, the Registrant's subsidiary, GammaCan Ltd. (the "*Subsidiary*") sent a notice of termination, effective March 31, 2008, to Tel HaShomer-Medical Research Infrastructure and Services LTD. ("*THM*") terminating the Research and Licensing Agreement originally entered into on December 13, 2005, as amended during the term (the "*THM Agreement*"). Under the THM Agreement, the Subsidiary commissioned THM to conduct certain IgG related research activities in return for which THM was entitled to research fees, royalties and warrants.

Termination by the Subsidiary of the THM Agreement was based, in addition to other considerations, on Registrant's decision to increase the speed and efficiency at which third party research is conducted by shifting research activities from a university-driven model to a primarily contract research organization and otherwise commercially-driven model. The Registrant has already transitioned the majority of its research activities to contract research organizations. In addition, the Registrant is also evaluating whether to establish its own research facility to expedite research activities.
