Notes to the Unaudited Condensed Interim Consolidated Financial Statements

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for the publication in Argentina

1. The Group's business and general information

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA", "the Company", "Us" or "the Society") was founded in 1943 and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

As of December 31, 2014, the Group operates in six business segments. See Note 6 to the Consolidated Financial Statements as of June 30, 2014 for a description of such segments.

The group's real estate business operations are conducted primarily through IRSA and its principally subsidiary, IRSA Propiedades Comerciales S.A. ("IRSA Propiedades Comerciales" formerly company due to change of corporate name from Alto Palermo S.A. (APSA)). Through IRSA Propiedades Comerciales and IRSA, the Group owns, manages and develops shopping centers across Argentina, a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, and it entered the US real estate market in 2009, mainly through the acquisition of non-controlling interests in office buildings and hotels. Through IRSA or IRSA Propiedades Comerciales, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these consolidated financial statements to denote investment, development and/or trading properties activities.

During fiscal year 2014, the Group made an investment in the Israeli market, through Dolphin, in IDB Development Corporation (IDBD) (an Israeli Company), of an initial interest of 26.65%. As of December 31, 2014, the equity interest in IDBD amounts to a non-diluted 31.26% and a fully-diluted 32.38%. IDBD is one of the Israeli biggest and most diversified investment groups, which is involved, through its subsidiaries, in several markets and industry, including real estate, retail, agribusiness insurance, telecommunications, etc.; controlling companies as: Clal Insurance (Insurance Company), Cellcom (Mobile phone services), Adama (Agrochemicals), Super-Sol (supermarket), PBC (Real Estate), among others. IDBD went public in Tel Aviv Exchange in May, 2014.

The activities of the Group's segment "Financial operations and others" is carried out mainly through Banco Hipotecario S.A. ("BHSA"), where we have a 29.90% interest (without considering treasury shares of our own). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the Buenos Aires Stock Exchange ("BASE"). Besides that, the Group has a 43.08% interest in Tarshop S.A ("Tarshop"), which main activities are credit card and loan origination transactions.

2. Basis of preparation of the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

Acquisition of assets carried out between entities under common control

The Group has elected to recognize acquisition of assets or group of assets carried out between entities under common control who also qualify as “Business Combination” according to IFRS 3, using acquisition method.

Total or partial disposal of foreign operation

The disposal of a Group’s interest in any foreign operation amounts to any reduction of such ownership interest in the operation. The Group may fully or partially dispose its interest in foreign operation through sale, liquidation or return of contributed capital.

In the case of total or partial disposals of foreign operations and once such disposal becomes effective, the Group proportionally reclassifies the disposal made, the accumulated exchange differences related to the foreign operations recognized under Other comprehensive income and accumulated under a separate item in shareholders’ equity.

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Consolidated Financial Statements, the significant judgments made by Management in applying the Group’s accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the Annual Consolidated Financial Statements for the year ended June 30, 2014, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

2.4. Comparative Information

Balance items as of December 31, 2013 and June 30, 2014 shown in these financial statements for comparative purposes arise from Consolidated Financial Statements then ended. Certain reclassifications have been made in order to present figures comparatively with those of this period.

3. Seasonal effects on operations

The operations of the Group's shopping centers are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and year-end holidays (December) when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale

discounts at the end of each season also affect the business. As a consequence, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations.

6. Segment information (Continued)

Operating results of Joint ventures operations from Cyrsa S.A., Nuevo Puerto Santa Fe S.A. ("NPSF"), Puerto Retiro S.A., Baicom Networks S.A. and Quality Invest S.A. are presented under the method of proportionate consolidation. Under this method, the income/loss generated by joint businesses is reported in the income statements line-by-line, rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return, because the assets and income/loss generated by consolidated operations are similar to the assets and income/loss booked under the equity method. This is due to the fact that under the proportional consolidation method, revenues and expenses are reported separately, instead of offsetting and reporting them as a single item in the statement of income. Therefore, the proportional consolidation method is used by the Group's Executive Committee to assess and understand the return and the results of operations of the business as a whole. On the other hand, operating results of Entertainment Holding S.A. ("EHSA") joint venture is accounted for under the equity method. Management believes that, in this case, this method provides more adequate information for this type of investment, given its low materiality and considering it is a company without direct trade operations, where the main assets consists of an indirect interest of 25% of la Rural S.A..

The following tables present a reconciliation between the total results of segment operations and the results of operations as per the statements of income. The adjustments relate to the presentation of the results of operations of joint ventures accounted for under the equity method under IFRS and the non-elimination of the inter-segment transactions.

Restrictions, commitments and other matters in respect of associates

IDBD

As part of the purchase agreement, DN B.V. and ETH have agreed to participate jointly and severally in capital increases resolved by the Board of Directors of IDBD to carry out its business plan during 2014 and 2015, in amounts of at least NIS 300 million in 2014 and NIS 500 million in 2015 (approximately equal to US\$ 77 million and US\$ 128 million at the exchange rate prevailing on December 31, 2014). As of December 31, 2014, DN B.V. and ETH have contributed an amount of NIS 407 million (equal to approximately US\$104 million) thus complying with the amounts

committed for 2014, while NIS 393 are still to be contributed in 2015.

9. Interests in associates (Continued)

Furthermore, under the purchase agreement, DN B.V. and ETH have agreed jointly and severally to make one or more tender offers for the purchase of shares in IDBD for an aggregate amount of NIS 512.09 million (equal to approximately US\$ 131 million at the exchange rate prevailing on December 31, 2014), based on the following scheme: (i) before December 31, 2015, an amount of at least NIS 249.8 million at a share price of NIS 8.344 (subject to adjustments) and (ii) before December 31, 2016 an amount of at least NIS 512.09 million less the tender offer conducted in 2015, at a share price of NIS 8.7612 (subject to adjustments). To secure compliance with the tender offers, an aggregate amount of 29,937,591 shares of IDBD held by DN B.V. were pledged as of December 31, 2014. As of the balance sheet date, no tender offers had been made.

On the other hand, the purchase agreement provides that DN B.V. and ETH shall jointly and severally pay to creditors who participated in the restructuring arrangement indicated above the additional sum of NIS 100 million (equal approximately to US\$ 26 million at the exchange rate prevailing on December 31, 2014), in the event that IDBD executes the sale of its equity interest in the subsidiary Clal Insurance Enterprises Holdings Ltd. before December 31, 2014 and provided that: (i) the sale price shall not be lower than NIS 4,200 million (equal to approximately US\$ 1,078 million at the exchange rate prevailing on December 31, 2014) and (ii) the transaction is closed before June 30, 2015, provided that IDBD has received by the latter date a payment of at least NIS 1,344 million (gross) (equal to approximately US\$ 345 million at the exchange rate prevailing on December 31, 2014). As of December 31, 2014, IDBD did not execute the sale of its interest in Clal Insurance Enterprises Holdings Ltd. Given that, as of December 31, 2014, IDBD did not perfect the above mentioned sale, the additional commitment assumed by DN B.V. and ETH ceased to have effect.

On May 12, 2014, the shares of IDBD started to trade in the Tel Aviv Stock Exchange, Israel; as a result, all of the shares (including pledged shares) were held in trust at Bank Leumi Le-Israel to secure compliance with lock-up provisions of Chapter D of the Tel Aviv Stock Exchange Rules, whereby shares listed under an IPO (initial public offering) may not be freely disposed of for a term of 18 months, which are then released at a rate of 2.5% per month beginning on the fourth month of the IPO date.

Hence, in accordance with Tel Aviv Rules applicable as of December 31, 2014, 47,355,557 shares and 335,715 warrants of each of the Series 2 and 3 were still subject to lock-up provisions under the terms described above.

BHSA

On October 31, 2014 the Bank was notified of Ruling 685 dated October 29, 2014 issued by the Superintendence of Financial Entities and Exchange Offices in proceedings conducted pursuant to Financial Investigation Case Number 1320, whereby the Bank and its officers were charged with alleged infringements to rulings on assistance to Non-Financial Public Sector, excess credit risk exposure to non-financial public sector, excess collateralization, failure to comply with minimum capital requirements and objections to the accounting treatment afforded to the transaction “Cer Swap Linked to PG08 and External Debt”; and moreover, delays in communicating the appointment of new members of the board and to file documentation related to new members of the board designated by the Shareholders’ Meetings.

Such a ruling assessed a fine in the amount of Ps. 4.04 million to Banco Hipotecario S.A. and fines of diverse amounts to incumbent and former members of the Board and managers. Against such penalty, on November 25, 2014 Banco Hipotecario and other affected parties filed a writ of appeal, as per the provisions of section 42 of the Financial Entities Act, which was sent by the BCRA to the National Court of Appeals in Administrative Litigation Matters, and will be decided by Division I of said Court of Appeals. Moreover, the same Division will also decide on motions for injunctions filed on December 30, 2014 by the Bank and the persons affected by the collection proceedings filed by the BCRA for the collection of penalties. Notwithstanding the expectations to get a judicial revocation of the penalties applied by the BCRA, Banco Hipotecario S.A. has set up an allowance equal to 100% of the penalty applied by the ruling.

The following amounts have been recognized in the statement of income:

	December 31, 2014	December 31, 2013
Rental and service income	1,501,306	1,189,911
Direct operating expenses	(605,781)	(528,259)
Development expenditures	(4,674)	(2,673)
Gain from disposal of investment property	801,052	7,481

Properties under development mainly comprise works in Shopping Neuquén S.A. (Alto Comahue) and Arcos del Gourmet S.A. (Distrito Arcos). As of December 31, 2014 and June 30, 2014 works in Alto Comahue amount to Ps. 244,095 and Ps. 126,799, respectively. The project is expected to be completed in March, 2015. Works in Distrito Arcos as of December 31, 2014 and June 30, 2014 amount to Ps. 26,030 and Ps. 236,202, respectively.

In respect of Arcos del Gourmet S.A., on December 10, 2013, the Judicial Branch confirmed an injunction order that suspended the opening of the shopping center on the grounds that it did not have certain governmental permits. The Company carried out specific actions, challenged the ruling that imposed the penalty and requested that it be lifted with expectations of a favorable result. In this context, on April 10, 2014, the government of the City of Buenos Aires granted a new environmental clearing certificate.

On the other hand, in one of the two judicial processes (amparos – actions intended to protect constitutional rights) currently being heard, “Charlon, Marcelo Alejandro and others VS. GCBA on/ amparo”, the Court of Appeals referred to above confirmed the decision rendered by the lower court whereby the action was abated, as per notice served upon us on September 1, 2014. This means that, to date, the process has concluded with the decision being favorable to us.

As to the other process entitled “Federación de Comercio e Industria de la Ciudad de Buenos Aires (FECOBA) and others vs. GCBA on amparo”, on August 29, 2014 the lower court rendered a decision rejecting the case. This judgment was appealed and following the corresponding service of notices between the parties, the record of proceedings was submitted to the Court of Appeals in September 2014. Following the corresponding notification of the Court’s Prosecutor, the record of proceedings was docketed for a decision on October 8, 2014 following a decision by the Court of Appeals in early December 2014. Such decision confirmed the judgment rendered by the lower court where it held both FECOBA and Vicente Lourenzo lacked active legitimation to file an action to protect the environment and fair competition. As a result, on December 18, 2014 the Shopping Center was opened and thus, given that this decision confirmed the lower court’s decision, the injunction that had prevented the opening of the Shopping Center became ineffective.

It should be noted that the plaintiff filed an action in first instance requesting the continuation of the injunction on the grounds that it had filed an action for unconstitutionality, which is an extraordinary remedy to be decided by the CABA Higher Court of Justice.

10. Investment properties (Continued)

Even though we are not certain about the remedy being filed for we have not been notified of its existence and content as of the balance sheet date, the first instance court rejected the plaintiff's motion on the grounds that the decision rendered by the Court of Appeals has the same effects as a final judgment and, thus, the injunction is no longer in force.

15. Financial instruments by category

Determination of fair values

IFRS 9 defines the fair value of a financial instrument as the amount for which an asset could be exchanged, or a financial liability settled, between knowledgeable, willing parties in an arm's length transaction. All financial instruments recognized at fair value are allocated to one of the valuation hierarchy levels of IFRS 7. This valuation hierarchy provides for three levels.

In the case of Level 1, valuation is based on quoted prices (unadjusted) in active markets for identical assets and liabilities that the Company can refer to at the date of valuation. A market is deemed active if transactions of assets and liabilities take place with frequency and in sufficient quantity. Since a quoted price in an active market is the most reliable indicator of fair value, this should always be used if available. The financial instruments the Group has allocated to this level mainly comprise equity investments, mutual funds and mortgage bonds for which quoted prices in active markets are available. In the case of securities, the Group allocates them to this level when either a stock market price is available or prices are provided by a price quotation on the basis of actual market transactions.

In the case of Level 2, fair value is determined by using valuation methods based on inputs directly or indirectly observable in the market. If the financial instrument concerned has a fixed contract period, the inputs used for valuation must be observable for the whole of this period. The financial instruments the Group has allocated to this level mainly comprise interest rate swaps and foreign currency future contracts.

15. Financial instruments by category (Continued)

In the case of Level 3, the Group uses valuation techniques not based on inputs observable in the market. This is only permissible insofar as no market data are available. The inputs used reflect the Group's assumptions regarding the factors which market players would consider in their pricing. The Group uses the best available information for this, including internal company data. The Group has allocated to this level shares and warrants of Supertel, the call option of Arcos del Gourmet S.A. (with a fair value of zero at the end of the period) and commitment to tender offer of shares in IDBD.

The Group's Finance Division has a team in place in charge of estimating valuation of financial assets required to be reported in the financial statements, including the fair value of Level-3 instruments. The team directly reports to the Chief Financial Officer(CFO).

The CFO and the valuation team discuss the valuation methods and results upon the acquisition of an asset and, if necessary, on a quarterly basis, in line with the Group's quarterly reports.

According to the Group's policy, transfers among the several categories of valuation tiers are recognized when occurred, or when there are changes in the prevailing circumstances requiring the transfer.

15. Financial instruments by category (Continued)

Upon initial recognition (January, 2012), the consideration paid for the Shares and Warrants of Supertel was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair values of these instruments exceeded the price of the transaction and were assessed using a valuation method that incorporates unobservable market data. Given the fact that the fair value of these instruments was estimated by applying the mentioned method, the Group did not recognize a gain of US\$ 7.9 million at the time of initial recognition. As of June 30, 2014, the fair value of the Warrants of Supertel determined using the mentioned technique was minor than the gain not recognized at the time of initial recognition; remaining thus the Warrants remain valued at an amount of zero.

According to Group estimates, all things being constant, a 10% decline in the price of the underlying assets of Shares and Warrants of Supertel (data observed in the market) of Level 3 as of December 31, 2014, would reduce pre-tax income by Ps. 37 million.

According to Group estimates, all things being constant, a 10% decrease in the credit spread (data which is not observable in the market) of the Shares and Warrants of Supertel used in the valuation model applied to Level 3 financial instruments as of December 31, 2014, would increase pre-tax income by Ps. 0,01 million. The rate used as of December 31, 2014 was 14.07%.

When no quoted prices in an active market are available, fair values (particularly with derivatives) are based on recognized valuation methods. The Group uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model	Pricing method	Parameters	Range

39. Group of assets and liabilities held for sale

Assets and liabilities related to the operation of the building located in 183 Madison Av., NY, United States, owned by the subsidiary of the Group, Rigby 183 LLC, and that form part of the international business segment, have been reported in the balance sheet as of June 30, 2014 as available for sale as per the contract for the sale of the building entered into on May 16, 2014. The transaction is subject to compliance with certain conditions which were complied during September 2014. Once conditions are met, the company should leave the amount of US\$ 1 million in escrow for six months, because of possible latent defects.

Pursuant to IFRS 5, assets and liabilities available for sale have been valued at the lower of their book value or fair value less selling cost. Since fair value is higher than book value of the pool of assets available for sale including some goodwill related to the acquisition, no impairment has been recorded as of June 30, 2014.

The following table shows the main assets and liabilities available for sale:

Assets held for sale

	June 30, 2014
Investment properties	1,098,990
Intangible assets – Goodwill	77,086
Restricted assets	163,501
Trade and other receivables	17,990
Derivative financial instruments	299
Total	1,357,866

Liabilities directly associated with assets classified as held for sale

	June 30, 2014
Trade and other liabilities	170,245
Deferred income tax liabilities	33,346
Borrowings	603,021
Total	806,612

As indicated in note 3, on September 29, 2014, the sale of the Madison 183 Building was finalized in the amount of US\$ 185 million. Proceeds from the sale were Ps. 1,535 million, while associated costs amounted to Ps. 1,238 million, thus making a gain on the transaction of Ps. 296.5 million, included in the line item Gain / (loss) on sale of investment properties in the Statement of income.

Upon the sale, the Company deposited US\$ 1.037 million under escrow (approximately equals to Ps. 8.8 million at the exchange rate prevailing on December 31, 2014) to cover for potential additional costs that may arise in relation to the

transaction, which amount is accounted for under Restricted assets.

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements attached of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statements of financial position as of December 31, 2014, and the unaudited condensed interim consolidated statement of income and comprehensive income for the six and three-month periods ended December 31, 2014 and the unaudited condensed interim consolidated statement of changes in shareholders’ equity and unaudited condensed interim consolidated statement of cash flows for the six-month period ended December 31, 2014 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2014 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements mentioned in first paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34). REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of the International Accounting Standard No. 34.

1. General information and company's business

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA" or the "Company") was founded in 1943, primarily engaged in managing real estate holdings in Argentina since 1991.

IRSA is a corporation incorporated and domiciled in Argentina. The registered office is Bolívar 108, 1st Floor, Autonomous City of Buenos Aires, Argentina.

The Company owns, manages and develops, directly and indirectly through its subsidiaries, a portfolio of office and other rental properties in Buenos Aires. In addition, IRSA through its subsidiaries, associates and joint ventures manages and develops shopping centers and branded hotels across Argentina, and also office properties in the United States of America and Israel.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on February 9, 2015.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1. Basis of preparation

The Unaudited Condensed Interim Financial Statements have been prepared in accordance with the Technical Resolution No. 26 of the Argentine Federation of Professional Councils of Economic Science ("FACPCE", as per its Spanish acronym) and with IAS 34 "Interim Financial Reporting". Furthermore, some additional issues were included as required by the Business Companies Act and/or regulations of the CNV, including supplementary information provided in the last paragraph of section 1, Chapter III, Title IV of General Ruling 622/13 of the CNV. Such information is included in the Notes to these Unaudited Condensed Interim Separate Financial Statements according to IFRS.

These Financial Statements should be read together with the annual separate financial statements of the Company as of June 30, 2014 prepared in accordance with the Technical Resolution No. 26. These Unaudited Condensed Interim Separate Financial Statements are presented in Argentine Pesos.

These Unaudited Condensed Interim Separate Financial Statements corresponding to the six and three-month periods ended December 31, 2014 and 2013 have not been audited. The Company's Management believes they include all necessary adjustments to fairly present the results of each period. The Company's six and three-month periods ended December 31, 2014 and 2013 results do not necessarily reflect the proportion of the Company's full-year results.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

2.2. Significant accounting policies

The principal accounting policies adopted for the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the preparation of the information under RT 26 as of June 30, 2014, and are based on those IFRS in force as of June 30, 2014 (except for the accounting of investments in subsidiaries, associates and joint ventures, which are accounted for under the equity method as required in RT 26). In addition, the most significant accounting policies are described in the Annual Separate Financial Statements.

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimates and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the main significant judgments made by Management in applying the Company's accounting policies and the major sources of uncertainty were the same that the Company used in the preparation of financial statements as of and for the fiscal year ended June 30, 2013, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

2.4. Comparative Information

Balance items as of December 31, 2013 and June 30, 2014 shown in these financial statements for comparative purposes arise from financial statements then ended. Certain reclassifications have been made in order to present figures comparatively with those of this period.

(APSA)) whereby it conveyed title to properties identified as Bouchard 710, Suipacha 652, Torre BankBoston, Edificio República, Edificios Intercontinental Plaza and the land next to Intercontinental Plaza, for a total agreed price of US\$ 308 million, US\$ 61.6 million of which were paid as follows: i) US\$ 10.5 million in cash, ii) US\$ 1 million in corporate notes Class I maturing in 2017 issued by IRSA, for a nominal value of 1,000,000, iii) US\$ 14.7 million by netting off a receivable owed by IRSA Propiedades Comerciales to IRSA, iv) US\$ 4.1 million in corporate notes Class II maturing in 2020, issued by IRSA for a nominal value of 3,482,000, v) US\$ 21.3 million through an assignment of receivables due to IRSA Propiedades Comerciales by TYRUS; and the balance of US\$ 246.4 million – that shall accrue interest at a nominal rate of 8.5% per annum shall be payable semiannually, starting on January 12, 2015; it shall be paid up according to the following schedule: i) US\$ 150 million on January 23, 2017 and ii) US\$ 96.4 million due on July 6, 2020, plus accrued interest as of those dates. Related expenses amounted to Ps. 51.8 million and are disclosed net of the gain/loss on the sale of investment properties.

See other acquisitions and disposals made by the Company for the six-month period ended December 31, 2014 in Note 4 to the Unaudited Condensed Interim Consolidated Financial Statements.

4. Financial risk management and fair value estimates

4.1 Financial risks

The Company’s activities are exposed to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The Unaudited Condensed Interim Financial Statements do not include all the information and disclosures of the risk management, so they should be read together with the annual separate financial statements as of June 30, 2014. There have been no changes in the risk management or risk management policies applied by the Company since the end of the annual fiscal year.

4.2 Fair value estimates

Since June 30, 2014 there have been no significant changes in business or economic circumstances affecting the fair value of the Company's financial assets or liabilities (either measured at fair value or amortized cost) (see Note 5 to the Unaudited Condensed Interim Consolidated Financial Statements) nor any transfers between the different hierarchies used to assess the fair value of the Company's financial instruments.

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim separate financial statements attached of IRSA Inversiones y Representaciones Sociedad Anónima (hereinafter “the Company”) which included the unaudited condensed interim separate statements of financial position as of December 31, 2014, and the unaudited condensed interim separate statements of income and comprehensive income for the six and three-month periods ended December 31, 2014 and the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the six-month period ended December 31, 2014 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2014 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to these financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial Reporting Standards (IFRS) and, especially, from the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34) approved by the International Accounting Standard Board (IASB) and used for the preparation of the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima with its subsidiaries as to the aspects mentioned in note 2.2 to the unaudited condensed interim separate financial statements attached. Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph “Scope of our review”.

Free translation from the original prepared in Spanish for publication in Argentina

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina through Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and separate statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with the regulations of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences for separate financial statements of a parent company.

„Revenues for the second quarter of 2015 were 23.6% higher than in the second quarter of 2014 and 25.2% higher than in first six months of the previous fiscal year, mainly explained by the Shopping Centers and Offices segment, and to a lesser extent by the Hotels segment.

„Consolidated EBITDA for the first six-month period reached ARS 1,787.3 million, 179.1% higher than in the same period of the previous fiscal year, mainly due to higher sales of investment properties than in 2014, including the

sale of Madison 183 in the City of New York recorded in the first quarter of 2015 and the sale of various office floors in Maipú 1300, Libertador 498 and Bouchard Plaza 551 buildings, in which only 116 parking spaces are pending sale. Excluding the effect of these sales and the reversal of the conversion reserve generated in Rigby 183 as a result of the sale of Madison for ARS 188.3 million, the

Company's EBITDA rose 26.1% compared to the same six-month period of the previous fiscal year, reaching ARS 798.0 million.

„ Net Income for the first six-month period of fiscal year 2015 was ARS 46.9 million, explained mainly by the increase in Operating Income, offset by the losses from our investment in the Israeli company IDBD, whose stock prices fell significantly during the quarter, which is recorded at market value.

II. Shopping Centers

New Opening

On December 18, 2014, we opened our fourteenth shopping center, “Distrito Arcos”, located in the neighborhood of Palermo, City of Buenos Aires. “Distrito Arcos” is an Outlet center with a variety of premium brands in an open-air environment that has added, in a first stage, approximately 14,000 square meters of gross leaseable area, 52 stores and 15 stands to IRSA Propiedades Comerciales S.A.'s portfolio. The second stage of the project contemplates the construction of a gym, a home appliances store and an exceptional suite of cultural proposals, reaching an aggregate of 65 stores and 20 stands and adding approximately 2,000 further square meters of gross leaseable area.

The investment made in this project totaled approximately ARS 250 million.

Results

During the second quarter of fiscal year 2015, consumption levels in shopping centers have increased, with very satisfactory figures recorded in December, this month being highly seasonal as it includes Christmas purchases. According to the INDEC, shopping center sales for the second quarter posted an increase of 35.6% compared to the same period of 2014.

Our tenants' sales reached ARS 10,656.4 million during the first six months of fiscal year 2015, 31.8% higher than in the same period of 2014 (31.5% without considering sales from Distrito Arcos). In the second quarter, sales in the same shopping centers grew by 35.1% compared to 2014, up from 27.1% recorded in the first quarter of 2015. Our portfolio's leaseable area was 324,276 square meters during the period under review, whereas the occupancy rate remained stable, at 98.5%.

Investment in IDB Development Corporation

On July 1^o, 2014 DN B.V. exercised all rights granted and acquired as of June 30, 2014 to purchase additional shares of IDBD. As a result of exercising the granted rights, DN B.V. received 17.32 million shares and 11.99 million warrants of Series 1, 2 and 3. ETH received the same number of rights and therefore acquired the same number of shares and warrants as DN B.V. In addition, as a result of exercising of the rights purchased, DN B.V. acquired 5.79 million shares and 4.01 million warrants of Series 1, 2 and 3. ETH also acquired the same number of shares and warrants as DN B.V.

Between July 9 to July 14, 2014, DN B.V. acquired through transactions in the open market 0.42 million shares and 0.34 million additional Series 2 warrants for NIS 1.77 million (equivalent to approximately USD 0.52 million at such date). 50% of such shares and Series 2 warrants were sold to ETH in accordance with the terms and conditions of the agreement entered into between the parties.

On November 2, 2014, DN B.V. exercised 15,998,787 Series 1 warrants. Besides, ETH also exercised the same number of Series 1 warrants.

As a result of the above mentioned transactions, as of December 31, 2014, DN B.V. held an aggregate of 92,618,950 shares, 16,170,392 Series 2 warrants and 15,988,787 Series 3 warrants, representing a non-diluted equity interest of 31.26% and a fully diluted equity interest of 32.38% in IDBD. As of December 31, 2014, IDBD's Board of Directors consists of nine members, three of whom were appointed by DN B.V., namely, Eduardo Elsztain, Alejandro Elsztain and Saúl Zang.

Under the purchase agreement, DN B.V. and ETH have promised to participate on a joint and several basis in any capital increases resolved by IDBD's Board of Directors in order to carry out its business plan for 2014 and 2015, for at least NIS 300 million in 2014 and NIS 500 million in 2015 (equivalent to approximately USD 77 million and USD 128 million at the exchange rate prevailing as of December 31, 2014). As of December 31, 2014, DN B.V. and ETH have contributed NIS 407 million (equivalent to approximately USD 104 million) and thus completed performance of their obligations for 2014, with a balance of NIS 393 million to be contributed in 2015.

Moreover, under the purchase agreement, DN B.V. and ETH jointly and severally committed to make one or more tender offers for acquiring shares in IDBD for a total amount of NIS 512.09 million (equivalent to approximately USD 131 million at the exchange rate prevailing as of December 31, 2014) as per the following scheme: (i) before December 31, 2015, an amount of at least NIS 249.8 million for a price per share of NIS 8.344 (subject to adjustment); and (ii) before December 31, 2016, an amount of at least NIS 512.09 million less the offer made in 2015, for a price per share of NIS 8.7612 (subject to adjustment). As of the date of these financial statements, no tender offers had been made.

In addition, the purchase agreement provides that DN B.V. and ETH shall jointly and severally pay to the creditors who participated in the above mentioned restructuring agreement an additional amount of NIS 100 million (equivalent to approximately USD 26 million at the exchange rate prevailing as of December 31, 2014) in the event that IDBD consummates the sale of its interest in its subsidiary Clal Insurance Enterprises Holdings Ltd. before December 31, 2014 and

always provided that: (i) the sales price is not less than NIS 4,200 million (equivalent to approximately USD 1,078 million at the exchange rate prevailing as of December 31, 2014); and (ii) the closing of the transaction occurs before June 30, 2015, with IDBD having received by this last date a payment of not less than NIS 1,344 million (gross) (equivalent to approximately USD 345 million at the exchange rate prevailing as of December 31, 2014). As of December 31, 2014, IDBD had not executed the sale of its interest in Clal Insurance Enterprises Holdings Ltd. As IDBD had not consummated the above mentioned sale as of December 31, 2014, the additional commitment assumed by DN B.V. and ETH ceased to have effect.

On May 12, 2014, IDBD's shares started to trade in the Tel Aviv Stock Exchange, Israel. Consequently, all the shares (including the pledged shares) were deposited in escrow with Bank Leumi Le-Israel as security in compliance with the lock-up provisions set forth in Chapter D of the Tel Aviv Stock Exchange Regulations which provides that initially listed shares may not be disposed of for a term of 18 months, which are then released at a rate of 2.5% per month beginning on the fourth month since the initial listing date.

In this way, pursuant to the Tel Aviv Stock Exchange regulations, as of December 31, 2014, 47,355,557 shares and 335,715 warrants of each of Series 2 and 3 remained in escrow under the terms mentioned above.

On January 19, 2015, DFL purchased in the open market 94,000 shares of IDBD for a total amount of NIS 0.13 million (equivalent to USD 0.03 million as of the date of purchase) and then sold 50% to ETH pursuant to the terms of the agreement executed between the parties. In addition, DFL purchased 42,564 shares in Discount Investment Corporation Ltd., a subsidiary of IDBD, for NIS 0.24 million (equivalent to USD 0.06 million as of the date of purchase), out of which 50% were offered to ETH under the terms of the agreement executed between the parties. However, ETH decided not to acquire 50% of such shares.

On December 29, 2014, DN B.V. sent an irrevocable proposal to IDBD for launching a rights offering for approximately NIS 800 million (equivalent to USD 205 million as of December 31, 2014) (hereinafter, the "Maximum Immediate Payment") and the issuance of 3 series of warrants (the "New Warrants") exercisable for prices equivalent to 110%, 120% and 130% of the prices of the rights offered, respectively, and falling due within 1, 2 and 3 years, respectively (hereinafter, the rights offered and the New Warrants are referred to as the "Rights Offering").

Contingent upon the resolution to be adopted by IDBD's board of directors regarding the launching of the Rights Offering, DN B.V. promised to inject funds in IDBD for at least NIS 256 million and up to NIS 400 million, as follows: (i) NIS 256 million through the exercise of DN B.V.'s rights arising from the Rights Offering; (ii) an additional investment (the "Additional Investment") for an amount equivalent to (a) the Maximum Immediate Payment, less (b) the amount received by IDBD as a result of the Rights Offering, excluding the exercise of the New Warrants, but in no event for an amount higher than NIS 144 million. The Additional Investment would be made by DN B.V. by exercising additional rights to be acquired by DN B.V., or if such rights were not acquired, by participating in another rights offering to be conducted by IDBD.

IRSA Inversiones y Representaciones Sociedad Anónima

Summary as of December 31, 2014

Furthermore, DFL agreed to (i) exercise the first series of the New Warrants for a total amount of NIS 150 million (equivalent to USD 39 million as of December 31, 2014), provided that it is requested to do so by IDBD's Board of Directors within 6 to 12 months of the Rights Offering date; and (ii) exercise all the New Warrants received in the Rights Offering, subject to the simultaneous satisfaction of two conditions: (a) that IDBD and its lenders reach an agreement to amend certain covenants; and (b) that a control permit on Clal Insurance Company Ltd. ("Clal") is secured from the Capital Markets, Insurance and Savings Commissioner of Israel.

In addition, on January 19, 2015, IDBD issued a prospectus for the Rights Offering in accordance with the irrevocable offer submitted by DN B.V., so as to grant on January 26, 2015, 1 right (a "New Right") for every 25 shares of IDBD held. These new rights will entitle to subscribe on February 10, 2015 for 45 common shares of IDBD for a price of NIS 68.04 (NIS 1.512 per share) and 20 Series 4 warrants, 19 Series 5 warrants and 17 Series 6 warrants to be issued by IDBD, with no charge. Each warrant to be issued by IDBD will entitle to acquire one common share in IDBD. Series 4 falls due on December 10, 2016 and will be exercisable at NIS 1.663 per warrant. Series 5 falls due on February 12, 2017 and will be exercisable at NIS 1.814 per warrant. Series 6 falls due on February 12, 2018 and will be exercisable at NIS 1.966 per warrant. The Rights Offering prospectus also provides that on February 5, 2015 the rights received will be traded in the public market.

As part of the above mentioned Rights Offering, on January 26, 2015, DN B.V. received 3.7 million New Rights and DFL received 1,880 New Rights. Moreover, on February 5, 2015, DN B.V. acquired 2.05 million New Rights for a total amount of NIS 0.94 million (equivalent to USD 0.24 million as of the date of purchase) out of which 50% was offered to ETH pursuant to the terms of the agreement entered into between the parties.

On February 4, 2015, ETH sent a notice to IDBD stating that in view of the circumstances prevailing as of the date of the letter, it would not exercise the New Rights to which it is ratably entitled, yet making it clear that ETH retained the right to change its decision.

As a result of the New Rights, the prices corresponding to the tender offer commitments mentioned above have been accordingly adjusted to NIS 7.798 and NIS 8.188 per share for the 2015 and 2016 commitments, respectively, and the number of shares pledged by DN B.V. will be adjusted accordingly.

As of the date of issuance of these financial statements, DN B.V. had an aggregate of 92,618,950 common shares, 16,170,392 Series 2 warrants, 15,998,787 Series 3 warrants and 5,753,013 New Rights of IDBD, representing a 31.26% undiluted holding in IDBD and a fully diluted holding of 32.38%; however, such amounts will be changed based on the result of the Rights Offering, on February 10, 2015. Besides, DFL held 47,000 shares and 1,880 New Rights of IDBD, representing an undiluted holding of 0.02% and a fully diluted holding of 0.01%, subject to the same considerations as DNB.V. regarding the Rights Offering.

As of the date of issuance of these financial statements, the number of shares pledged as security for the tender offers is 29,937,591. After exercising the New Rights to be subscribed for

Since December 31, 2014, the value of IDBD's shares has decreased from NIS 1.97 per share to NIS 1.27 per share, and the NIS/USD exchange rate has gone from 3.8987 NIS per dollar to 3.899 NIS per dollar, resulting in a reduction in the Group's financial asset of USD 16.43 million (approximately \$ 142.7 million) and an increase in the liabilities derived from the tender offers' commitment of USD 5.1 million (approximately \$ 43.9 million).

Summary as of December 31, 2014

XVI. Brief comment on prospects for the next quarter

During the second quarter of 2015 we recovered the rate of growth of our shopping centers' sales and maintained optimum occupation levels. During December we opened our fourteenth shopping center, "Distrito Arcos", located in the neighborhood of Palermo, City of Buenos Aires. "Distrito Arcos" is an Outlet center with a variety of premium brands in an open-air environment that has added approximately 14,000 square meters of gross leaseable area and 65 stores to the company's portfolio. We expect to record satisfactory sales figures in this new shopping center in the next quarter ending on March 31, 2015.

In addition, we are moving ahead in the development of our next shopping center in the City of Neuquén, "Alto Comahue", whose degree of progress is 90%. We expect to open Alto Comahue next March. This project, much longed-for by the local population, which will add approximately 10,000 square meters to our portfolio, will be the company's first shopping center in the Argentine Patagonian region, and we believe that in light of the significant economic growth experienced by Neuquén in the past years, this project will be as successful as the rest of the shopping centers managed by IRSA Propiedades Comerciales in other locations in the interior of Argentina.

We will remain active throughout the year by encouraging marketing actions, events and promotions in our shopping centers, as they have proved to be highly effective in terms of sales and have been eagerly endorsed by the public. Moreover, we expect to continue working with the aim of optimizing the performance of our current shopping centers and offices through improvements that result in taking better advantage of the leaseable square meters and higher functionality and attractiveness for the benefit of consumers, stores and tenants.

As concerns the office business, we have continued to consolidate through our subsidiary IRSA Propiedades Comerciales the office buildings we transferred to this company during December, while we have kept approximately 18,000 square meters for potential sale. We will continue to optimize the best and most integrated premium office portfolio by selling selected non-strategic assets in our portfolio for attractive prices as we have been doing during the last months. Moreover, we will continue to work towards achieving maximum occupancy in our buildings and executing the most favorable lease agreements, attracting new firms wishing to relocate in our spaces.

In connection with the Sales and Developments segment, we expect to continue with the sale of non-strategic assets and small land reserves and to make progress in the sale and execution of title deeds in the remaining residential projects. Moreover, we hold a large land reserve for future developments which we will launch as soon as suitable financial, business and governmental conditions arise.

As concerns our investments outside of Argentina, we will continue working towards increasing occupancy levels and rental prices in our only rental property abroad: the Lipstick Building in Manhattan, New York. Concerning our investment in the hotel REIT, Supertel Hospitality Inc., we are working on changing the senior management team as we believe that it will help improve the company's performance and regain market trust so as to take advantage of future opportunity windows. Finally, despite the evolution of its stock prices during the last months, we are confident in the fundamentals of our investment in IDBD, one of the largest and most diversified investment groups in Israel that participates through its subsidiaries in numerous markets and

industry sectors, such as real estate, retail, agroindustry, oil and gas production, insurance, telecommunications, etc.

Considering the quality of the real estate assets that compose our portfolio, the company's financial position and low indebtedness level, experience in seizing market opportunities and franchise to access the capital markets, we are confident that we are on the right track of growth as we consolidate the best real estate portfolio in Argentina, taking advantage of the opportunities that arise in Argentina or abroad.
