LETTER FROM THE ADVISER

NOVEMBER 8, 2004

#### DEAR SHAREHOLDERS:

The Fund returned 6.7% on NAV for the six months ending September 30, 2004. While we do not manage for short-term results, our returns exceeded those of our benchmarks. Given our new flexibility to invest more in financial service firms not classified as either bank or thrift and given the recent addition of non-U.S. financials, we may find the current benchmarks less relevant. The Fund's aim was, is, and always will be to find ways of making a satisfactory long-term return on our investment in financial stocks. Wellington Management and the Fund's Board of Directors feel strongly that the increased scope of the Fund will help us meet this goal.

Periods greater than one year are annualized

The grudging but determined rebound of the domestic economy continued this past six months, with profit growth strong but job creation relatively tepid. Treasury bond yields shot up in April only to fall back again in August and September. As expected, the Fed raised rates, leaving the yield curve flatter and economists, in general, a little more perplexed about the economy's stamina. Emerging country economies appear less ambiguously robust. For our part, we see a domestic economy with strong momentum and worry more over the possibility and impact of significantly higher interest rates over the next 12 to 18 months.

We continue to benefit from an active merger market. Unsustainably low levels of loan losses combined with good loan growth at the small community bank level have also favored our investments. The Fund's weighting of banks and thrifts has increased modestly, both due to appreciation and a number of capital raising opportunities in the community bank arena. Bank stocks, however, are expensive. After a torrid run, we have taken more profits off the table among our mortgage bankers. Countrywide Financial was again

among our top contributors. Other mortgage related winners included Freddie Mac, First Republic, Provident Financial and Mortgage IT. Partially offsetting these returns were generally negative to lackluster results in the property and commercial insurance sector. They gave back some of the nice gains chalked up over the previous six months. For the past 12 months, the Fund has been blessed

with a paucity of significant losses.

Looking forward, we find no shortage of possible stumbling blocks for financial service stocks. Chief among these include a flattening yield curve, real estate prices rolling over, questionable sub-prime lending and, not least, the resurgence of regulatory risk. Valuations in most areas of financial services leave little room for surprise or error, and earnings quality, in many cases, has deteriorated. Offsetting positives include the continued torrid merger activity, the elections and what may be a stronger world economy than most expect. Overall, emerging economies appear more promising than the U.S.

As mentioned earlier, new and follow-on equity deals have picked up in our area. Continued volatility, too, has provided entry points for the disciplined investor. Both of these trends should provide opportunities that, with a little patience, we can exploit.

We appreciate your trust in us.

Sincerely,

/S/NICHOLAS C. ADAMS Nicholas C. Adams

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

FIRST FINANCIAL FUND, INC.

First Financial Fund, Inc. (the "Fund") was incorporated in Maryland on March 3, 1986, as a closed-end, diversified management investment company. The Fund's primary investment objective is to achieve long-term capital appreciation with the secondary objective of current income by investing, under normal conditions, at least 65% of its assets in financial services companies, including savings and banking institutions and their holding companies, except for temporary or

#### NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

defensive purposes.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

SECURITIES VALUATION: Securities for which market quotations are readily available-including securities listed on national securities exchanges and those traded over-the-counter- are valued at the last quoted sales price on the valuation date on which the security is traded. If such securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by principal market makers. Securities traded via NASDAQ are valued at the NASDAQ Official Close Price ("NOCP"). Securities for which market quotations are not readily available or for which the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgement of the adviser, does not represent fair value ("Fair Value Securities"), are valued at fair value by a Pricing Committee appointed by the Board of Directors, in consultation with the adviser. In such circumstances, the adviser makes an initial written recommendation to the Pricing Committee regarding valuation methodology for each Fair Value Security. Thereafter, the adviser conducts periodic reviews of each Fair Value Security to consider whether the respective methodology and its application is appropriate and recommends methodology changes when appropriate. Prior to implementation, the Pricing Committee reviews and makes a determination regarding each initial methodology recommendation and any subsequent methodology changes. All methodology recommendations and any changes are reviewed by the entire Board of Directors on a quarterly basis.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates fair value.

REPURCHASE AGREEMENTS: In connection with the repurchase agreement transactions with United States financial institutions, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. If the seller defaults, and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

FOREIGN CURRENCY: The books and records of the Fund are maintained in US dollars. Foreign currencies, investments and other assets and liabilities are translated into US dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses are translated on the dates of such transactions. Unrealized gains and losses which result from changes in foreign currency exchange rates have been included in the unrealized appreciation/(depreciation) of currencies and net other assets. Net realized foreign currency gains and losses between trade date and settlement date on investments, securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in the exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gains and losses on investment securities sold.

SECURITIES TRANSACTIONS AND NET INVESTMENT INCOME: Securities transactions are recorded on the trade date. Realized gains or losses on sales of securities are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date; interest income including amortization of premium and accretion of discount on debt securities, as required is recorded on the accrual basis, which may require the use of certain estimates by management.

FEDERAL INCOME TAX: It is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to dis-

tribute all of its taxable net income and capital gains, if any, to shareholders. Therefore, no federal income tax provision is required.

DIVIDENDS AND DISTRIBUTIONS: For 2004, the Fund expects to declare and pay dividends from net investment income and distributions of net realized capital gains in December. Dividends and distributions to shareholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-dividend date. Permanent book/tax differences related to income and gains are reclassified to paid-in capital when they arise.

OTHER: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

DIVIDEND REINVESTMENT PLAN. Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested in Fund shares (Shares) pursuant to the Fund's Dividend Reinvestment Plan (the Plan). Shareholders who do not participate in the Plan will normally receive all distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in street name or other nominee name, then to the nominee) by the custodian, as dividend disbursing agent, unless the Fund declares a distribution payable in shares, absent a shareholder's specific

Equiserve Trust Company, N.A. (the Plan Agent) serves as agent for the shareholders in administering the Plan. After the Fund declares a dividend or a capital gains distribution, if (1) the market price is lower than net asset value, the participants in the Plan will receive the equivalent in Shares valued at the market price determined as of the time of purchase (generally, following the payment date of the dividend or distribution); or if (2) the market price of Shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued Shares at the higher of net asset value or 95% of the market price. If the Fund declares a dividend or other distribution payable only in cash and the net asset value exceeds the market price of Shares on the valuation date, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Shares on the open market. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share, the Plan Agent will halt open-market purchases of the Fund's shares for this purpose, and will request that the Fund pay the remainder, if any, in the form of newly-issued shares.

The Fund will not issue Shares under the Plan below net asset value.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. There will be brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchase in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

The Fund reserves the right to amend or terminate the Plan upon 90 days' written notice to shareholders of the Fund.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent or by telephone in accordance with specific procedures and will receive certificates for whole Shares and cash for fractional Shares.

All correspondence concerning the Plan should be directed to the Plan Agent, Equiserve Trust Company, N.A., P.O. Box 43011, Providence, RI 02940-3011.
