ITEM 1. REPORTS TO STOCKHOLDERS.

The Report to Shareholders is attached herewith.

THE GABELLI GLOBAL DEAL FUND

Semi-Annual Report  
June 30, 2007

TO OUR SHAREHOLDERS,

Thank you for your continuing investment in The Gabelli Global Deal Fund (the "Fund"). We are pleased to present you with our initial semi-annual report.

Shares of the Fund began trading on the New York Stock Exchange ("NYSE") under the symbol "GDL" on January 26, 2007 at the public offering price of \$20.00. The Fund commenced investment operations on January 31, 2007 with an initial net asset value ("NAV") of \$19.06 after underwriting fees and offering expenses. Including the initial distribution of \$0.40 per share paid on June 25, 2007, the Fund's net asset value ("NAV") total return was 2.94% since inception of investment operations, compared with a gain of 2.12% for the 3 Month U.S. Treasury Bill Index. From the inception of investment operations on January 31, 2007 to June 30, 2007, the closing market price of the publicly traded shares ranged from \$18.50 to \$20.95. On June 30, 2007, the Fund's NAV per share was \$19.22, while the price of the publicly traded shares closed at \$18.50 on the NYSE.

Enclosed are the financial statements and the investment portfolio as of June 30, 2007.

- (a) RETURNS REPRESENT PAST PERFORMANCE AND DO NOT GUARANTEE FUTURE RESULTS. INVESTMENT RETURNS AND THE PRINCIPAL VALUE OF AN INVESTMENT WILL FLUCTUATE. WHEN SHARES ARE SOLD, THEY MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE PERFORMANCE DATA PRESENTED. VISIT WWW.GABELLI.COM FOR PERFORMANCE INFORMATION AS OF THE MOST RECENT MONTH END. PERFORMANCE RETURNS FOR PERIODS LESS THAN ONE YEAR ARE NOT ANNUALIZED. INVESTORS SHOULD CAREFULLY CONSIDER THE INVESTMENT OBJECTIVES, RISKS, CHARGES, AND EXPENSES OF THE FUND BEFORE INVESTING. THE 3 MONTH U.S. TREASURY BILL INDEX IS COMPRISED OF A SINGLE ISSUE PURCHASED AT THE BEGINNING OF THE MONTH AND HELD FOR A FULL MONTH. AT THE END OF THE MONTH, THAT ISSUE IS SOLD AND ROLLED INTO THE OUTSTANDING TREASURY BILL THAT MATURES CLOSEST TO, BUT NOT BEYOND THREE MONTHS FROM THE RE-BALANCING DATE. TO QUALIFY FOR SELECTION, AN ISSUE MUST HAVE SETTLED ON OR BEFORE THE RE-BALANCING (MONTH END) DATE. THE STANDARD & POOR'S ("S&P") 500 INDEX IS AN UNMANAGED INDICATOR OF STOCK MARKET PERFORMANCE. YOU CANNOT INVEST DIRECTLY IN AN INDEX.
- (b) TOTAL RETURNS AND AVERAGE ANNUAL RETURNS REFLECT CHANGES IN NAV PER SHARE

### THE GABELLI GLOBAL DEAL FUND NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION. The Gabelli Global Deal Fund (the "Fund") is a non-diversified closed-end management investment company organized as a Delaware statutory trust on October 17, 2006 and registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund sold 5,236 shares to Gabelli Funds, LLC (the "Adviser") for \$100,008 on December 22, 2006. Investment operations commenced on January 31, 2007 upon the settlement of the sale of 18,750,000 shares of beneficial interest in the amount of \$357,375,000 (net of underwriting fees and expenses of \$17,625,000). In addition, on March 9, 2007, the Fund issued 2,500,000 shares of beneficial interest in the amount of \$47,650,000 (net of underwriting fees and expenses of \$2,350,000) in conjunction with the exercise of the underwriters' overallotment option. The Adviser agreed to pay all the Fund's organizational costs and the amount by which the Fund's offering costs (other than the underwriting fees) exceed \$0.04 per common share.

The Fund's primary investment objective is to achieve absolute returns in various market conditions without excessive risk of capital. The Fund will seek to achieve its objective by investing primarily in merger arbitrage transactions and, to a lesser extent, in corporate reorganizations involving stubs, spin-offs, and liquidations. Under normal market conditions, the Fund will invest at least 80% of its assets in securities or hedging arrangements relating to companies involved in corporate transactions or reorganizations, giving rise to the possibility of realizing gains upon or within relatively short periods of time after the completion of such transactions or reorganizations.

2. SIGNIFICANT ACCOUNTING POLICIES. The preparation of financial statements in accordance with United States ("U.S.") generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Trustees (the "Board") so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by the Adviser.

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of 60 days or less that are not credit impaired are valued at amortized cost, unless the Board determines such

## Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than 60 days for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

8

### THE GABELLI GLOBAL DEAL FUND NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons to the valuation and changes in valuation of similar securities, including a comparison of foreign securities to the equivalent U.S. dollar value ADR securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

In September 2006, the Financial Accounting Standards Board (the "FASB") issued Statement of Financial Accounting Standards ("SFAS") 157, Fair Value Measurements, which clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. Adoption of SFAS 157 requires the use of the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. At this time, management is in the process of reviewing the requirements of SFAS 157 against its current valuation policies to determine future applicability.

**REPURCHASE AGREEMENTS.** The Fund may enter into repurchase agreements with primary government securities dealers recognized by the Federal Reserve Board, with member banks of the Federal Reserve System, or with other brokers or dealers that meet credit guidelines established by the Adviser and reviewed by the Board. Under the terms of a typical repurchase agreement, the Fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. The Fund will always receive and maintain securities as collateral whose market value, including accrued interest, will be at least equal to 102% of the dollar amount invested by the Fund in each agreement. The Fund will make payment for such securities only upon physical delivery or upon evidence of book entry transfer of the collateral to the account of the custodian. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited. At June 30, 2007, the Fund had an investment of \$27,401,000 in a repurchase agreement.

**SWAP AGREEMENTS.** The Fund may enter into equity swap transactions. The use of equity swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. An equity swap is a swap where a set of future cash flows are exchanged between two counterparties. One of these cash flow streams will

## Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

typically be based on a reference interest rate combined with the performance of a notional value of shares of a stock. The other will be based on the performance of the shares of a stock. There is no assurance that the swap contract counterparties will be able to meet their obligations pursuant to the swap contracts, or that, in the event of default, the Fund will succeed in pursuing contractual remedies. The Fund thus assumes the risk that it may be delayed in or prevented from obtaining payments owed to it pursuant to the swap contracts. The creditworthiness of the swap contract counterparties is closely monitored in order to minimize the risk. Depending on the general state of short-term interest rates and the returns of the Fund's portfolio securities at that point in time, such a default could negatively affect the Fund's ability to make dividend payments on the common shares. In addition, at the time an equity swap transaction reaches its scheduled termination date, there is a risk that the Fund will not be able to obtain a replacement transaction or that the terms of the replacement will not be as favorable as on the expiring transaction. If this occurs, it could have a negative impact on the Fund's ability to make dividend payments.

9

### THE GABELLI GLOBAL DEAL FUND NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

The use of derivative instruments involves, to varying degrees, elements of market and counterparty risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Unrealized gains related to swaps are reported as an asset and unrealized losses are reported as a liability in the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps is reported as unrealized gains or losses in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of periodic payment or termination of swap agreements.

The Fund has entered into equity swap agreements with Bear, Stearns International Limited. Details of the swaps at June 30, 2007 are as follows:

NOTIONAL AMOUNT -----	EQUITY SECURITY RECEIVED -----	INTEREST RATE/ EQUITY SECURITY PAID -----
	Market Value	Overnight LIBOR plus
	Appreciation on:	Market Value Depreciation
\$11,115,993 (500,000 shares)	Alliance Boots plc	Alliance Boots plc

5,318,582 (250,000 shares)	Hanson plc	Hanson plc
313,225 (25,000 shares)	Imperial Chemical Industries plc	Imperial Chemical Industr

FUTURES CONTRACTS. The Fund may engage in futures contracts for the purpose of hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase. Upon entering into a futures

## Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

contract, the Fund is required to deposit with the broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as the "initial margin". Subsequent payments ("variation margin") are made or received by the Fund each day, depending on the daily fluctuations in the value of the contract, which are included in unrealized appreciation/depreciation on investments and futures contracts. The Fund recognizes a realized gain or loss when the contract is closed.

There are several risks in connection with the use of futures contracts as a hedging instrument. The change in value of futures contracts primarily corresponds with the value of their underlying instruments, which may not correlate with the change in value of the hedged investments. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market. At June 30, 2007, there were no open futures contracts.

**SECURITIES SOLD SHORT.** The Fund may enter into short sale transactions. Short selling involves selling securities that may or may not be owned and, at times, borrowing the same securities for delivery to the purchaser, with an obligation to replace such borrowed securities at a later date. The proceeds received from short sales are recorded as liabilities and the Fund records an unrealized gain or loss to the extent of the difference between the proceeds received and the value of an open short position on the day of determination. The Fund records a realized gain or loss when the short position is closed out. By entering into a short sale, the Fund bears the market risk of an unfavorable change in the price of the security sold short. Dividends on short sales are recorded as an expense by the Fund on the ex-dividend date and interest expense is recorded on the accrual basis. The Fund did not hold any short positions as of June 30, 2007.

10

### THE GABELLI GLOBAL DEAL FUND NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

**FORWARD FOREIGN EXCHANGE CONTRACTS.** The Fund may engage in forward foreign exchange contracts for hedging a specific transaction with respect to either the currency in which the transaction is denominated or another currency as deemed appropriate by the Adviser. Forward foreign exchange contracts are valued at the forward rate and are marked-to-market daily. The change in market value is included in unrealized appreciation/depreciation on investments and foreign currency translations. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of forward foreign exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's portfolio securities, but it does establish a rate of exchange that can be achieved in the future. Although forward foreign exchange contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts. At June 30, 2007, there were no open forward foreign exchange contracts.

**FOREIGN CURRENCY TRANSLATIONS.** The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign

## Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

**FOREIGN SECURITIES.** The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the ability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

**FOREIGN TAXES.** The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

**CONCENTRATION RISKS.** The Fund may invest a high percentage of its assets in specific sectors of the market in order to achieve a potentially greater investment return. As a result, the Fund may be more susceptible to economic, political, and regulatory developments in a particular sector of the market, positive or negative, and may experience increased volatility to the Fund's NAV and a magnified effect in its total return.

**MERGER ARBITRAGE RISK.** The principal risk associated with the Fund's investment strategy is that certain of the proposed reorganizations in which the Fund invests may involve a longer time frame than originally contemplated, or be renegotiated or terminated in which case losses may be realized. The Fund invests all or a portion of its assets to seek short-term capital appreciation. This can be expected to increase the portfolio turnover rate and cause increased brokerage commission costs.

11

### THE GABELLI GLOBAL DEAL FUND NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

**SECURITIES TRANSACTIONS AND INVESTMENT INCOME.** Securities transactions are accounted for on the trade date with realized gain or loss on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on the accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date except for certain dividends which are recorded as soon as the Fund is informed of the dividend.

**CUSTODIAN FEE CREDITS AND INTEREST EXPENSE.** When cash balances are maintained in the custody account, the Fund receives credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as "custodian fee credits". When cash balances are overdrawn, the Fund is charged an overdraft fee equal to 110% of the 90 day

## Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

Treasury Bill rate on outstanding balances. This amount, if any, would be shown as "interest expense" in the Statement of Operations.

**DISTRIBUTIONS TO SHAREHOLDERS.** Distributions to shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under U.S. generally accepted accounting principles. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Fund.

**PROVISION FOR INCOME TAXES.** The Fund intends to qualify and elect to be treated as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

The following summarizes the tax cost of investments and the related unrealized appreciation/(depreciation) at June 30, 2007:

	COST ----	GROSS UNREALIZED APPRECIATION -----	GROSS UNREALIZED DEPRECIATION -----	NET UNRE APPRECI -----

		=====	=====	=====

In July 2006, the FASB issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109" ("the Interpretation"). The Interpretation established for all entities, including pass-through entities such as the Fund, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and required certain expanded tax disclosures. The Interpretation was implemented by the Fund on June 29, 2007 and applied to all open tax years as of the effective date. Management has evaluated the application of the Interpretation to the Fund, and the adoption of the Interpretation had no impact on the amounts reported in the financial statements.

THE GABELLI GLOBAL DEAL FUND  
NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

**3. AGREEMENTS AND TRANSACTIONS WITH AFFILIATES.** The Fund has entered into an investment advisory agreement (the "Advisory Agreement") with the Adviser which

## Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

provides that the Fund will pay the Adviser a base fee, computed weekly and paid monthly, equal on an annual basis to 0.50% of the value of the Fund's average weekly managed assets. Managed assets consist of all of the assets of the Fund without deduction for borrowings, repurchase transactions and other leveraging techniques, the liquidation value of any outstanding preferred shares, or other liabilities except for certain ordinary course expenses. In addition, the Fund may pay the Adviser an annual performance fee at calendar year end if the Fund's total return on its managed assets during the calendar year in question exceeds the total return of the 3 Month U.S. Treasury Bill Index (the "T-Bill Index") during the same period. For every 4 basis points that the Fund's total return exceeds the T-Bill Index, the Fund will accrue weekly and pay annually 1 basis point performance fee up to a maximum performance fee of 150 basis points. Under the performance fee arrangement, the annual rate of the total fees paid to the Adviser can range from 0.50% to 2.00% of the average weekly managed assets. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs.

During the period ended June 30, 2007, the Fund paid brokerage commissions of \$589,592 to Gabelli & Company, Inc. ("Gabelli & Company"), an affiliate of the Adviser.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement between the Fund and the Adviser. During the period ended June 30, 2007, the Fund paid or accrued \$18,992 to the Adviser in connection with the cost of computing the Fund's NAV.

As per the approval of the Board, the Fund compensates officers of the Fund that are employed by the Fund and are not employed by the Adviser (although the officers may receive incentive-based variable compensation from affiliates of the Adviser). For the six months ended June 30, 2007 the Fund paid or accrued \$15,343, which is included in payroll expenses in the Statement of Operations.

The Fund pays each Trustee that is not considered to be an affiliated person an annual retainer of \$3,000 plus \$1,000 for each Board meeting attended in person (\$500 if attended telephonically) and they are reimbursed for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$500 per committee meeting attended. Trustees who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

4. PORTFOLIO SECURITIES. Purchases and proceeds from the sales of securities for the period ended June 30, 2007, other than short-term and U.S. Government securities, aggregated \$907,843,075 and \$218,230,216, respectively.

5. CAPITAL. The Fund is authorized to issue an unlimited number of common shares of beneficial interest (par value \$0.001). The Board has authorized the repurchase of its shares in the open market when the shares are trading at a discount of 7.5% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the period ended June 30, 2007, the Fund did not repurchase any shares of beneficial interest in the open market.

Transactions in shares of beneficial interest were as follows:

NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

6. INDEMNIFICATIONS. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

7. OTHER MATTERS. The Adviser and/or affiliates received subpoenas from the Attorney General of the State of New York and the SEC requesting information on mutual fund share trading practices involving certain funds managed by the Adviser. GAMCO Investors, Inc. ("GAMCO"), the Adviser's parent company, responded to these requests for documents and testimony. In June 2006, GAMCO began discussions with the SEC regarding a possible resolution of their inquiry. In February 2007, the Adviser made an offer of settlement to the staff of the SEC for communication to the Commission for its consideration to resolve this matter. This offer of settlement is subject to agreement regarding the specific language of the SEC's administrative order and other settlement documents. On a separate matter, in September 2005, the Adviser was informed by the staff of the SEC that the staff may recommend to the Commission that an administrative remedy and a monetary penalty be sought from the Adviser in connection with the actions of two of seven closed-end funds managed by the Adviser relating to Section 19(a) and Rule 19a-1 of the 1940 Act. These provisions require registered investment companies to provide written statements to shareholders when a dividend is made from a source other than net investment income. While the two closed-end funds sent annual statements and provided other materials containing this information, the funds did not send written statements to shareholders with each distribution in 2002 and 2003. The Adviser believes that all of the funds are now in compliance. The Adviser believes that these matters would have no effect on the Fund or any material adverse effect on the Adviser or its ability to manage the Fund. The staff's notice to the Adviser did not relate to the Fund.

### THE GABELLI GLOBAL DEAL FUND CONSIDERATION OF INVESTMENT ADVISORY AGREEMENT WITH GABELLI FUNDS, LLC (UNAUDITED)

At its meeting on November 8, 2006, the Board of Trustees ("Board") of the Fund approved the investment advisory agreement with the Adviser for the Fund on the basis of the recommendation by the trustees who are not "interested persons" of the Fund (the "Independent Board Members"). The following paragraphs summarize the material information and factors considered by the Independent Board Members as well as their conclusions relative to such factors.

**NATURE, EXTENT AND QUALITY OF SERVICES.** The Independent Board Members considered information regarding the Fund's portfolio management team, the team leader, the depth of the analyst pool available to the Adviser and portfolio team, the scope of services proposed to be provided by the Adviser and its track record in providing similar services to other open- and closed-end funds. The Independent Board Members noted the experience, length of service, and reputation of the portfolio team, including in the merger arbitrage area.

**INVESTMENT PERFORMANCE.** The Independent Board Members reviewed information regarding the investment performance of other registered and unregistered funds advised or subadvised by the Adviser and its affiliates that invest regularly in arbitrage situations and noted that, although the Fund had no performance history as it had not yet commenced operations, the Adviser appeared to have the capability of achieving reasonable investment performance.

**PROFITABILITY.** The Independent Board Members reviewed summary data regarding the potential profitability of the Fund to the Adviser and noted that the fulcrum fee was designed so that the Adviser would likely experience substantially below average profitability from the Fund if the Fund did not outperform the T-Bill Index and higher than average profitability if the Fund reached a reasonable size and substantially outperformed the T-Bill Index.

**ECONOMIES OF SCALE.** The Independent Board Members noted that after completion of the initial offering, meaningful economies of scale could not occur in the absence of secondary offerings.

**SHARING OF ECONOMIES OF SCALE.** The Independent Board Members noted that the investment advisory fee for the Fund did not take into account any potential economies of scale that might develop.

**SERVICE AND COST COMPARISONS.** The Independent Board Members reviewed the Fund's pro forma expense ratios and also compared the structure of the investment advisory fee to the fees for other funds managed by the Adviser and selected private arbitrage funds as to which information was available.

**CONCLUSIONS.** The Independent Board Members concluded that the Fund would enjoy highly experienced portfolio management services and good ancillary services. The Independent Board Members determined that the reference index chosen for the fulcrum fee structure was appropriate inasmuch as arbitrage performance is often measured against risk free returns, that the rate of profit sharing built into the formula was fair, that the maximum fee was not unreasonable (particularly in light of the requirement of earning the higher returns necessary for higher fee levels net of the higher fees), and that the one year measuring period was sufficient and consistent with the short-term nature of the Fund's investment program. The Independent Board Members also concluded that the fee was structured in a favorable manner to investors in relation to the performance of the Fund and in relation to other arbitrage funds of which they were aware. The Board concluded that the potential profitability of the Fund to the Adviser would be reasonable in view of the performance necessary to achieve any

## Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

particular level of profitability and that economies of scale and potential additional profit to the Adviser and its affiliates from portfolio execution services were not material to their decision. The Independent Board Members noted, but did not take into account in their evaluation of the reasonableness of the fee, that the Adviser and/or its affiliates were proposing to pay structuring amounts and/or continuing payments to certain of the underwriters out of their own assets. On the basis of the foregoing and without assigning particular weight to any single conclusion, the Independent Board Members determined to recommend approval of the investment advisory agreement to the full Board.

### AUTOMATIC DIVIDEND REINVESTMENT AND VOLUNTARY CASH PURCHASE PLANS

#### ENROLLMENT IN THE PLAN

It is the policy of The Gabelli Global Deal Fund (the "Fund") to automatically reinvest dividends payable to common shareholders. As a "registered" shareholder you automatically become a participant in the Fund's Automatic Dividend Reinvestment Plan (the "Plan"). The Plan authorizes the Fund to issue common shares to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Fund. Plan participants may send their share certificates to American Stock Transfer ("AST") to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distributions in cash must submit this request in writing to:

The Gabelli Global Deal Fund  
c/o American Stock Transfer  
6201 15th Avenue  
Brooklyn, NY 11219

Shareholders requesting this cash election must include the shareholder's name and address as they appear on the share certificate. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan may contact AST at (888) 422-3262.

If your shares are held in the name of a broker, bank, or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of "street name" and re-registered in your own name. Once registered in your own name your distributions will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in "street name" at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of common shares distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Fund's common shares is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued common shares valued at the greater of (i) the net asset

## Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

value as most recently determined or (ii) 95% of the then current market price of the Fund's common shares. The valuation date is the dividend or distribution payment date or, if that date is not a New York Stock Exchange ("NYSE") trading day, the next trading day. If the net asset value of the common shares at the time of valuation exceeds the market price of the common shares, participants will receive common shares from the Fund valued at market price. If the Fund should declare a dividend or capital gains distribution payable only in cash, AST will buy common shares in the open market, or on the NYSE, or elsewhere, for the participants' accounts, except that AST will endeavor to terminate purchases in the open market and cause the Fund to issue shares at net asset value if, following the commencement of such purchases, the market value of the common shares exceeds the then current net asset value.

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for federal income tax purposes as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

17

### VOLUNTARY CASH PURCHASE PLAN

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Fund. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to AST for investments in the Fund's common shares at the then current market price. Shareholders may send an amount from \$250 to \$10,000. AST will use these funds to purchase shares in the open market on or about the 1st and 15th of each month. AST will charge each shareholder who participates a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to American Stock Transfer, 6201 15th Avenue, Brooklyn, NY 11219 such that AST receives such payments approximately 10 days before the investment date. Funds not received at least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by AST at least 48 hours before such payment is to be invested.

SHAREHOLDERS WISHING TO LIQUIDATE SHARES HELD AT AST must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address, and account number. The cost to liquidate shares is \$1.00 per transaction as well as the brokerage commission incurred. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

For more information regarding the Automatic Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Fund.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to

Edgar Filing: Gabelli Global Deal Fund - Form N-CSRS

written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by AST on at least 90 days written notice to participants in the Plan.
