FIRST BANCSHARES, INC.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed for interim reporting by First Bancshares, Inc. (the "Company") and its consolidated subsidiaries, First Home Savings Bank (the "Bank") and SCMG, Inc. are consistent with the accounting policies followed for annual financial reporting. All adjustments that, in the opinion of management, are necessary for a fair presentation of the results for the periods reported have been included in the accompanying unaudited consolidated financial statements, and all such adjustments are of a normal recurring nature. The accompanying consolidated statement of financial condition as of June 30, 2007, which has been derived from audited financial statements, and the unaudited interim financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. It is suggested that these consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in the Company's latest shareholders' Annual Report on Form 10-KSB for the year ended June 30, 2007 (Form 10-KSB). The results for these interim periods may not be indicative of results for the entire year or for any other period.

2. ACCOUNTING DEVELOPMENTS

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". This Statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. It clarifies

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. This Statement does not require any new fair value measurements, but rather, it provides enhanced guidance to other pronouncements that require or permit assets or liabilities to be measured at fair value. This Statement is effective for fiscal years beginning after November 15, 2007. The Company does not expect that the adoption of this Statement will have a material impact on its financial position, results of operation and cash flows.

In February 2007, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115", which provides all entities, including not-for-profit organizations, with an option to report selected financial assets and liabilities at fair value. The objective of the Statement is to improve financial reporting by providing entities with the opportunity to mitigate volatility in earnings caused by measuring related assets and liabilities differently without having to apply the complex provisions of hedge accounting. Certain specified items are eligible for the irrevocable fair value measurement option as established by Statement No. 159. Statement No. 159 is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. The Company is currently evaluating the impact that the adoption of this Statement will have on its financial position, results of operation and cash flows.

In September 2006, the Emerging Issues Task Force ("EITF") reached a final consensus on Issue 06-04, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements." The consensus stipulates that an agreement by an employer to share a portion of the proceeds of a life insurance policy with an employee during the postretirement period is a postretirement benefit arrangement required to be accounted for under SFAS No. 106 or Accounting

7

Principles Board Opinion ("APB") No. 12, "Omnibus Opinion - 1967." The consensus concludes that the purchase of a split-dollar life insurance policy does not constitute a settlement under SFAS No. 106 and, therefore, a liability for the postretirement obligation must be recognized under SFAS No. 106 if the benefit is offered under an arrangement that constitutes a plan or under APB No. 12 if it is not part of a plan. Issue 06-04 is effective for annual or interim reporting periods beginning after December 15, 2007. The Company does not expect that the adoption of EITF 06-04 will have a material impact on its financial position, results of operation and cash flows.

In March 2007, the Emerging Issues Task Force ("EITF") reached a final conclusion on Issue 06-10, "Accounting for Collateral Assignment Split-Dollar Life Insurance Arrangements". The consensus concludes that a liability must be recognized for the postretirement obligation related to a collateral assignment split-dollar life insurance arrangement in accordance with SFAS No. 106 or APB No. 12. Any asset should be recognized and measured based on the nature and substance of the collateral assignment split-dollar life insurance arrangement. The effective date of EITF 06-10 is for fiscal years beginning after December 15, 2007. The Company does not expect that the adoption of EITF 06-10 will have a material impact on its financial position, results of operation and cash flows.

In December 2007, FASB issued SFAS No. 141(revised), "Business Combinations". The Statement establishes principles and requirements for how an acquirer recognizes and measures tangible assets acquired, liabilities assumed, goodwill and any noncontrolling interests and identifies related disclosure

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

requirements for business combinations. Measurement requirements will result in all assets, liabilities, contingencies and contingent consideration being recorded at fair value on the acquisition date, with limited exceptions. Acquisition costs and restructuring costs will generally be expensed as incurred. This Statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company does not expect the adoption of this Statement will have a material impact on its financial position or results of operations.

In December 2007, FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51". The Statement establishes accounting and reporting standards for noncontrolling interests in a subsidiary and for the deconsolidation of a subsidiary. Minority interests will be recharacterized as noncontrolling interests and classified as a component of equity. It also establishes a single method of accounting for changes in a parent's ownership interest in a subsidiary and requires expanded disclosures. This Statement is effective for fiscal years beginning on or after December 15, 2008. The Company does not expect the adoption of this Statement will have a material impact on its financial position or results of operations.

3. EARNINGS PER SHARE

Basic earnings per share is based on net income divided by the weighted average number of shares outstanding during the period. Diluted earnings per share includes the effect of the issuance of shares eligible to be issued pursuant to stock option agreements.

The table below presents the numerators and denominators used in the basic earnings per common share computations for the three month and six month periods ended December 31, 2007 and 2006.

	Three Months Ended December 31,		Six Months Ended December 31,	
	2007	2006	2007	2006
Basic earnings per common share:				
Numerator:				
Net income	\$ 86,719	\$ 957	\$ 312,091	\$ 72,669
	=====	=====	=====	=====
8				
Denominator:				
Weighted average common shares outstanding	1,550,815	1,551,715	1,550,815	1,552,040
	=====	=====	=====	=====
Basic earnings per common share	\$ 0.05	\$ 0.00	\$ 0.20	\$ 0.05
	=====	=====	=====	=====
Diluted earnings per common share:				
Numerator:				
Net income	\$ 86,719	\$ 957	\$ 312,091	\$ 72,669

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

Denominator:	=====	=====	=====	=====
Weighted average common shares outstanding	1,550,860	1,551,715	1,550,835	1,552,040
	=====	=====	=====	=====
Basic earnings per common share	\$ 0.05	\$ 0.00	\$ 0.20	\$ 0.05
	=====	=====	=====	=====

4. COMMITMENTS

At December 31, 2007 and June 30, 2007, the Company had outstanding commitments to originate loans and fund unused lines of credit totaling \$4.9 million and \$5.1 million, respectively. It is expected that outstanding loan commitments will be funded with existing liquid assets.

5. STOCK OPTION PLAN

Effective July 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123(R), Share-Based Payment, using the modified-prospective-transition method. Under that transition method, compensation cost recognized in the three-month and six-month periods ended December 31, 2007 and 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of July 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123, and (b) compensation cost for all share-based payments granted subsequent to July 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of Statement 123(R).

The Company uses historical data to estimate the expected term of the options granted, volatilities, and other factors. Expected volatilities are based on the historical volatility of the Company's common stock over a period of time. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The dividend rate is equal to the dividend rate in effect on the date of grant. The Company used the following assumptions for grants in fiscal 2007, respectively: dividend rates of .00% to .99%, price volatility of 18.36% to 20.29%, risk-free interest rates of 4.58% to 5.02%, and an expected life of 7.5 to 10 years. There were no grants made during the six months ended December 31, 2007.

A summary of option activity under the Plan as of December 31, 2007, and changes during the six months ended December 31, 2007, is presented below:

Options	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term
-----	-----	-----	-----
			(in months)
Outstanding at beginning of period	64,500	\$ 16.76	113
Granted	-	-	
Exercised	-	-	
Forfeited or expired	-	-	
	-----	-----	
Outstanding at end of period	64,500	\$ 16.76	107

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

A summary of the Company's non-vested shares as of December 31, 2007, and changes during the six months ended December 31, 2007, is presented below:

Non-vested Options -----	Options -----	Weighted- Average Grant Date Fair Value -----
Outstanding at beginning of period	61,100	\$ 6.02
Granted	-	-
Exercised	-	-
Vested	3,000	5.84
Forfeited or expired	-	-
	-----	-----
Outstanding at end of period	58,100	\$ 6.03
	=====	=====

As of December 31, 2007, there was \$135,000 of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the Plan. That cost is expected to be recognized over a weighted-average period of approximately 16 months.

6. RECLASSIFICATIONS

Certain amounts in the prior period financial statements have been reclassified, with no effect on net income or stockholders' equity, to be consistent with the current period classification.

10

Item 2. Management's Discussion and Analysis or Plan of Operation

General

First Bancshares, Inc. (the "Company") is a unitary savings and loan holding company whose primary assets are First Home Savings Bank and SCMG, Inc. The Company was incorporated on September 30, 1993, for the purpose of acquiring all of the capital stock of First Home Savings Bank in connection with Bank's conversion from a state-charted mutual to a state-chartered stock form of ownership. The transaction was completed on December 22, 1993.

On December 31, 2007, the Company had total assets of \$243.4 million, net loans receivable of \$158.7 million, total deposits of \$192.0 million and stockholders' equity of \$27.3 million. The Company's common shares trade on The Nasdaq Global Market of The NASDAQ Stock Market LLC under the symbol "FBSI."

The following discussion focuses on the consolidated financial condition of the Company and its subsidiaries, at December 31, 2007, compared to June 30, 2007, and the consolidated results of operations for the three-month and six-month periods ended December 31, 2007, compared to the three-month and six-month periods ended December 31, 2006, respectively. This discussion should be read in conjunction with the Company's consolidated financial

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

statements, and notes thereto, for the year ended June 30, 2007.

Corporate Developments and Overview

During the six month period ended December 31, 2007, the Company entered into a lease agreement for approximately 5,100 square feet of office space in Springfield, Missouri. The new space will house the Bank's Loan Production Office, which has been operating out of a much smaller location since it was approved by the State of Missouri during the third quarter of fiscal 2007. In addition to the Loan Production Office, there will be offices for senior officers of the Company and the Bank, who spend time in Springfield, as well as, the Company home office in Mountain Grove, Missouri. The move to the larger facility was completed in November 2007.

During the six month period ended December 31, 2007, the operations of the in-house brokerage service, which was based in Mountain Grove, Missouri, were discontinued due to staffing difficulties. This brokerage service operated under a Bank subsidiary, First Home Investments. The Company entered into an agreement with an outside company based in Springfield, Missouri to provide brokerage services to the Bank's customers.

The Bank continues to operate under a Memorandum of Understanding (the "MOU") with the Office of Thrift Supervision (the "OTS"). The MOU was entered into during the December 31, 2006 quarter. The MOU dealt with various issues affecting the operations of the Bank. While the Bank has sought to resolve all the issues raised in the MOU, at September 30, 2007, there was one item of the MOU outstanding, namely the completion and filing with the OTS of a three-year business plan for the Bank. The business plan was due by October 31, 2007. The three year business plan was approved by the Bank's board of directors at its meeting on October 26, 2007, and was submitted to the OTS on October 29, 2007.

For more information concerning the MOU or the activities of and developments about the Company during the fiscal year ended June 30, 2007, please refer to the sections titled "Corporate Developments and Overview" and "Risk Factors" on pages one through three of the Company's Form 10-KSB, which was filed with the Securities and Exchange Commission on September 28, 2007.

Financial Condition

As of December 31, 2007, First Bancshares, Inc. had assets of \$243.4 million, compared to \$241.3 million at June 30, 2007. The increase in total assets of \$2.1 million, or 0.9%, was primarily the result of increases in cash and cash equivalents, securities and other assets of \$1.1 million, \$711,000 and \$1.1 million, respectively. These increases were

11

partially offset by a decrease in net loans receivable of \$261,000 during the six-month period ended December 31, 2007. The growth in cash and cash equivalents and in investments was funded by deposit growth of \$1.9 million during the six month period. At December 31, 2007, there was a total of \$795,000 in loans originated for sale which were not yet funded by the purchasers. The increase in deposits was partially offset by a decrease of \$967,000 in retail repurchase agreements. Advances from the Federal Home Loan Bank of Des Moines remained constant during the six month period.

Loans receivable, net totaled \$158.7 million at December 31, 2007, a decrease

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

of \$261,000 from \$159.0 million at June 30, 2007. The decrease in loans is, in part, the result of decreased originations because of the current uncertainty in the economy, both local and national, brought about by problems in the sub-prime mortgage market. These problems have affected many sectors of the economy and have created concerns for individuals and businesses. Housing sales, both new and existing, consumer confidence and other indicators of economic health in our market area have decreased over the last few months.

The Company's deposits grew \$1.9 million from \$190.1 million as of June 30, 2007 to \$192.0 million as of December 31, 2007. The growth is the result of efforts made by the Company to attract core deposits through new products introduced during fiscal 2007 and internal emphasis on business development. The balance of the Company's retail repurchase agreements, first introduced during fiscal 2007, decreased by \$967,000 from \$2.1 million at June 30, 2007 to \$1.1 million at December 31, 2007.

As of December 31, 2007 the Company's stockholders' equity totaled \$27.3 million, compared to \$26.5 million as of June 30, 2007. The increase of \$784,000 was due to net income of \$312,000 during the first six months of the fiscal year and a positive change in the mark-to-market adjustment, net of taxes, of \$425,000 on the Company's available for sale securities portfolio. In addition, there was a \$47,000 increase resulting from the accounting treatment of stock based compensation. There were no dividends paid during the period and the Company does not currently have a stock repurchase program in place.

Non-performing Assets and Allowance for Loan Losses

Generally, when a loan becomes delinquent 90 days or more, or when the collection of principal or interest becomes doubtful, the Company will place the loan on non-accrual status and, as a result of this action, previously accrued interest income on the loan is reversed against current income. The loan will remain on non-accrual status until the loan has been brought current or until other circumstances occur that provide adequate assurance of full repayment of interest and principal.

Non-performing assets decreased from \$3.5 million, or 1.5% of total assets, at June 30, 2007 to \$3.4 million, or 1.4% of total assets at December 31, 2007. The Bank's non-performing assets consist of non-accrual loans, past due loans over 90 days, impaired loans not past due or past due less than 60 days, real estate owned and other repossessed assets. The decrease in non-performing assets consisted of a decrease of \$315,000 in non-accrual loans and a decrease of \$285,000 in loans 90 days or more delinquent and still accruing interest, which were partially offset by an increase of \$436,000 in real estate owned and other repossessed assets. A portion of the decrease in the two loan categories was the result of transfers to real estate owned and other repossessed assets, and a portion was the result of charge offs totaling \$621,000 during the six month period.

Classified assets. Federal regulations provide for the classification of loans and other assets as "substandard", "doubtful" or "loss", based on the level of weakness determined to be inherent in the collection of the principal and interest. When loans are classified as either substandard or doubtful, the Company may establish general allowances for loan losses in an amount deemed prudent by management. General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending activities, but which, unlike specific allowances, have not been allocated to particular problem loans. When assets are classified as loss, the Company is required either to establish a specific allowance for loan losses equal to 100% of that portion of the loan so classified, or to charge-off such amount. The Company's determination as to the

classification of its loans and the amount of its allowances for loan losses are subject to review by its regulatory authorities, which may require the establishment of additional general or specific allowances for loan losses.

On the basis of management's review of its loans and other assets, at December 31, 2007, the Company had classified a total of \$3.1 million of its assets as substandard, \$184,000 as doubtful and none as loss. This compares to classifications at June 30, 2007 of \$4.2 million substandard, \$101,000 doubtful and none as loss. This reduction in classified assets to \$3.3 million from \$4.3 million is the result transfers to real estate owned and other repossessed assets of loans totaling \$685,000 and to the write-off of loans during the six month period. In addition, classified assets at December 31, 2007 and June 30, 2007 included real estate owned and other repossessed assets of \$727,000 and \$293,000, respectively.

In addition to the classified loans, the Bank has identified an additional \$1.9 million of credits at December 31, 2007 on its internal watch list compared to \$4.8 million at June 30, 2007 and \$7.3 million at December 31, 2006. Management has identified these loans as high risk credits and any deterioration in their financial condition could increase the classified loan totals. The decrease in the internal watch list is the result of the stricter internal policies relating to the identification and monitoring of problem loans. During the six months ended December 31, 2007, eight loans totaling \$3.1 million were removed from the watch list due to the resolution of the reasons they were on the watch list.

Allowance for loan losses. The Company establishes its provision for loan losses, and evaluates the adequacy of its allowance for loan losses based upon a systematic methodology consisting of a number of factors including, among others, historic loss experience, the overall level of classified assets and non-performing loans, the composition of its loan portfolio and the general economic environment within which the Bank and its borrowers operate.

At December 31, 2007, the Company has established an allowance for loan losses totaling \$2.1 million compared to \$2.6 million at June 30, 2007. The allowance represents approximately 78.2% and 82.4% of the total non-performing loans at December 31, 2007 and June 30, 2007, respectively.

The allowance for loan losses reflects management's best estimate of probable losses inherent in the portfolio based on currently available information. Future additions to the allowance for loan losses may become necessary based upon changing economic conditions, increased loan balances or changes in the underlying collateral of the loan portfolio.

Critical Accounting Policies

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The financial information contained within these statements is, to a significant extent, financial information that is based on approximate measures of the financial effects of transactions and events that have already occurred. Based on its consideration of accounting policies that involve the most complex and subjective decisions and assessments, management has identified its most critical accounting policy to be the policy related to the allowance for loan losses.

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

The Company's allowance for loan loss methodology incorporates a variety of risk considerations, both quantitative and qualitative, in establishing an allowance for loan loss that management believes is appropriate at each reporting date. Quantitative factors include the Company's historical loss experience, delinquency and charge-off trends, collateral values, changes in non-performing loans, and other factors. Quantitative factors also incorporate known information about individual loans, including borrowers' sensitivity to interest rate movements. Qualitative factors include the general economic environment in the Company's markets, including economic conditions throughout the Midwest and, in particular, the state of certain industries. Size and complexity of individual credits in relation to loan structure, existing loan policies, and pace of portfolio growth are other qualitative factors that are considered in the methodology. As the Company adds new products and

13

increases the complexity of its loan portfolio it will enhance its methodology accordingly. Management may have reported a materially different amount for the provision for loan losses in the statement of operations to change the allowance for loan losses if its assessment of the above factors were different. This discussion and analysis should be read in conjunction with the Company's financial statements and the accompanying notes presented elsewhere herein, as well as the portion of this Management's Discussion and Analysis section entitled "Non-performing Assets and Allowance for Loan Losses." Although management believes the levels of the allowance as of both September 30, 2007 and June 30, 2007 were adequate to absorb probable losses inherent in the loan portfolio, a decline in local economic conditions, or other factors, could result in increasing losses.

Results of Operations for the Three Months Ended December 31, 2007 Compared to the Three Months Ended December 31, 2006

General. For the three months ended December 31, 2007, the Company reported net income of \$87,000, or \$0.05 diluted share, compared to net income of \$1,000, or \$0.00 per diluted share, for the same period in 2006. The increase in net income for the 2007 period included increases in net interest income and non-interest income, and a decrease in the provision for loan losses, which were partially offset by increases in non-interest expense and income taxes.

Net interest income. The Company's net interest income for the three months ended December 31, 2007 was \$1.8 million, compared to \$1.6 million for the same period in 2006. The increase reflects a \$390,000 increase in interest income partially offset by a \$189,000 increase in interest expense.

Interest income. Interest income for the three months ended December 31, 2007 increased \$390,000, or 11.4%, to \$3.8 million compared to \$3.4 million for the same period in 2006. Interest income from loans increased \$245,000 to \$3.0 million from \$2.8 million in 2006. This was attributable to an increase in average loans to \$158.1 million during the 2007 period from \$152.5 million during the comparable 2006 period, and to an increase in the yield on loans to 7.58% during the three months ended December 31, 2007 from 7.22% during the comparable period in 2006. The increase in average loans was the result of an increase in lending volume during the last six months of fiscal 2007, and the increase in yield was the result of an upward trend in interest rates between periods.

Interest income from investment securities and other interest-earning assets

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

for the three months ended December 31, 2007 increased \$146,000 to \$789,000 from \$643,000 for the same period in 2006. The increase was the result of an increase in the average balance of these assets of \$11.2 million to \$65.5 million for the quarter ended December 31, 2007 from \$54.3 million for the same period in 2006, and to an increase in the yield on these assets to 4.78% for the 2007 period from 4.69% for the 2006 period.

Interest expense. Interest expense for the three months ended December 31, 2007 increased \$189,000 or 10.5%, to \$2.0 million from \$1.8 million for the same period in 2006. Interest expense on deposits increased \$216,000 to \$1.7 million in the three months ended December 31, 2007 from \$1.4 million in the same period in 2006. The increase resulted from an increase in average interest-bearing deposit balances of \$13.8 million to \$181.3 million in the 2007 period from \$167.5 million in the 2006 period. The increase was also attributable to an increase in the average cost of deposits to 3.63% in the 2007 period from 3.42% in the 2006 period. Interest expense on other interest-bearing liabilities decreased \$27,000 to \$335,000 in the three months ended December 31, 2007 from \$362,000 in the comparable period in 2006. Virtually all of the decrease in interest expense on other interest-bearing liabilities was due to a decrease in the average outstanding balances of other interest-bearing liabilities to \$22.0 million during the 2007 period from \$25.0 million during the 2006 period. The average outstanding balance of retail repurchase agreements increased to \$1.6 million from \$93,000 between periods. The Company began to offer retail repurchase agreements during the 2006 period.

Net interest margin. Net interest margin increased to 3.22% for the three months ended December 31, 2007 from 3.09% for the three months ended December 31, 2006.

14

Provision for loan loss. During the quarter ended December 31, 2007, the provision for loan losses was \$145,000, compared to \$130,000 for the quarter ended December 31, 2006. For a discussion of this change, see "Non-performing Assets and Allowance for Loan Losses" herein.

Non-interest income. For the three months ended December 31, 2007, non-interest income totaled \$681,000, compared to \$636,000 for the three months ended December 31, 2006. The \$44,000 increase between the two periods resulted primarily from profit of \$112,000 on the sale of loans, and to an increase in service charges and fee income of \$27,000. There was no profit on the sale of loans during the 2006 period. It is expected that we will continue to generate profit on the sale of loans, but in light of the current real estate climate it is likely that the amount of profit will be less than anticipated over the balance of the fiscal year. These increases were partially offset by decreases of \$70,000, \$14,000 and \$11,000 in gain on the sale of property and equipment and real estate owned, income from bank owned life insurance and other non-interest income, respectively.

Non-interest expense. Non-interest expense totaled \$2.1 million for both the three months ended December 31, 2007 and the three months ended December 31, 2006, increasing by only \$21,000. This was the result of increases of \$24,000, \$21,000 and \$12,000 in professional fees, deposit insurance premiums and other non-interest expense, respectively. These increases were partially offset by decreases of \$19,000 in compensation expense and \$18,000 in occupancy and equipment. The increase in professional fees was due to additional internal audit work performed during the period, compared to the

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

prior year and other accounting and legal issues. The increase in deposit insurance premiums was the result of an increase in the assessment rates by the Federal Deposit Insurance Corporation.

Income tax expense. State income tax expense and income tax benefits are recorded based on the taxable income or loss of each of the companies. Federal income taxes are calculated based on the combined income of the consolidated group. Pre-tax net income is reduced by non-taxable income items and increased by non-deductible expense items. The increase in income taxes is primarily the result of the increase in pre-tax income. The tax provision for the quarter ended December 31, 2007 was larger than anticipated due to the effect of the loan write offs recorded during the quarter. Those write offs created a shift in deferred tax assets. The current tax liability increased at the effective current tax rate, while the deferred tax benefit from the timing difference decreased at the higher rate that the Company applies to its timing differences.

Results of Operations for the Six Months Ended December 31, 2007 Compared to the Six Months Ended December 31, 2006

General. For the six months ended December 31, 2007, the Company reported net income of \$312,000, or \$0.20 diluted share, compared to net income of \$73,000, or \$0.05 per diluted share, for the same period in 2006. The increase in net income for the 2007 period included increases in net interest income and non-interest income, and a decrease in the provision for loan losses, which were partially offset by increases in non-interest expense and income taxes.

Net interest income. The Company's net interest income for the six months ended December 31, 2007 was \$3.5 million, compared to \$3.2 million for the same period in 2006. The increase reflects a \$909,000 increase in interest income partially offset by a \$635,000 increase in interest expense.

Interest income. Interest income for the six months ended December 31, 2007 increased \$909,000, or 16.7%, to \$7.6 million compared to \$6.7 million for the same period in 2006. Interest income from loans increased \$631,000 to \$6.0 million from \$5.3 million in 2006. This was attributable to an increase in average loans to \$157.8 million during the 2007 period from \$148.6 million during the comparable 2006 period, and to an increase in the yield on loans to 7.51% during the six months ended December 31, 2007 from 7.13% during the comparable period in 2006. The increase in average loans was the result of an increase in lending volume during the last six months of fiscal 2007, and the increase in yield was the result of an upward trend in interest rates between periods.

15

Interest income from investment securities and other interest-earning assets for the six months ended December 31, 2007 increased \$278,000 to \$1.6 million from \$1.3 million for the same period in 2006. The increase was the result of an increase in the average balance of these assets of \$9.0 million to \$64.9 million for the six months ended December 31, 2007 from \$55.9 million for the same period in 2006, and to an increase in the yield on these assets to 4.83% for the 2007 period from 4.62% for the 2006 period.

Interest expense. Interest expense for the six months ended December 31, 2007 increased \$635,000 or 18.5%, to \$4.1 million from \$3.4 million for the same period in 2006. Interest expense on deposits increased \$645,000 to \$3.4 million in the six months ended December 31, 2007 from \$2.7 million in the

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

same period in 2006. The increase resulted from an increase in average interest-bearing deposit balances of \$14.4 million to \$180.5 million in the 2007 period from \$166.1 million in the 2006 period. The increase was also attributable to an increase in the average cost of deposits to 3.73% in the 2007 period from 3.28% in the 2006 period. Interest expense on other interest-bearing liabilities decreased \$10,000 to \$675,000 in the six months ended December 31, 2007 from \$685,000 in the comparable period in 2006. Virtually all of the decrease in interest expense on other interest-bearing liabilities was due to a decrease in the average outstanding balances of other interest-bearing liabilities to \$22.0 million during the 2007 period from \$23.7 million during the 2006 period. The average outstanding balance of retail repurchase agreements increased to \$1.8 million from \$46,000 between periods. The Company began to offer retail repurchase agreements during the 2006 period.

Net interest margin. Net interest margin decreased to 3.10% for the six months ended December 31, 2007 from 3.12% for the six months ended December 31, 2006.

Provision for loan loss. During the six months ended December 31, 2007, the provision for loan losses was \$153,000, compared to \$240,000 for the six months ended December 31, 2006. For a discussion of this change, see "Non-performing Assets and Allowance for Loan Losses" herein.

Non-interest income. For the six months ended December 31, 2007, non-interest income totaled \$1.5 million, compared to \$1.2 million for the six months ended December 31, 2006. The \$237,000 increase between the two periods resulted primarily from profit of \$265,000 on the sale of loans, and to an increase in service charges and fee income of \$83,000. There was no profit on the sale of loans during the 2006 period. It is expected that we will continue to generate profit on the sale of loans, but in light of the current real estate climate it is likely that the amount of profit will be less than anticipated over the balance of the fiscal year. These increases were partially offset by decreases of \$80,000, \$15,000 and \$15,000 in gain on the sale of property and equipment and real estate owned, income from bank owned life insurance and other non-interest income, respectively.

Non-interest expense. Non-interest expense totaled \$4.3 million for the six months ended December 31, 2007, compared to \$4.1 million for the six months ended December 31, 2006, increasing by \$174,000. This was the result of increases of \$45,000, \$112,000, \$43,000 and \$21,000 in occupancy and equipment, professional fees, deposit insurance premiums and other non-interest expense, respectively. These increases were partially offset by a decrease of \$48,000 in compensation expense. The increase in professional fees was due to additional internal audit work performed during the period, compared to the prior year and other accounting and legal issues. The increase in deposit insurance premiums was the result of an increase in the assessment rates by the Federal Deposit Insurance Corporation.

Income tax expense. State income tax expense and income tax benefits are recorded based on the taxable income or loss of each of the companies. Federal income taxes are calculated based on the combined income of the consolidated group. Pre-tax net income is reduced by non-taxable income items and increased by non-deductible expense items. The increase in income taxes is primarily the result of the increase in pre-tax income.

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

The Company's primary sources of funds are deposits, borrowings, principal and interest payments on loans, investments, and mortgage-backed securities, and funds provided by other operating activities. While scheduled payments on loans, mortgage-backed securities, and short-term investments are relatively predictable sources of funds, deposit flows and early loan repayments are greatly influenced by general interest rates, economic conditions, and competition.

The Company uses its capital resources principally to meet ongoing commitments to fund maturing certificates of deposits and loan commitments, to maintain liquidity, and to meet operating expenses. At December 31, 2007, the Company had commitments to originate loans and fund unused lines of credit totaling \$4.9 million. The Company believes that loan repayment and other sources of funds will be adequate to meet its foreseeable short- and long-term liquidity needs.

Regulations require First Home Savings Bank to maintain minimum amounts and ratios of total risk-based capital and Tier 1 capital to risk-weighted assets, and a leverage ratio consisting of Tier 1 capital to average assets. The following table sets forth First Home Savings Bank's actual capital and required capital amounts and ratios at September 30, 2007 which, at that date, exceeded the minimum capital adequacy requirements.

	Actual		Minimum Requirement For Capital Adequacy Purposes		Minimum Requirement To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
At December 31, 2007						
(Dollars in thousands)						
Tangible Capital (to adjusted total assets)	\$24,567	10.22%	\$ 3,607	1.50%	-	-
Tier 1 (Core) Capital (to adjusted total assets)	24,567	10.22	9,619	4.00	\$12,024	5.00%
Total Risk Based Capital (to risk weighted assets)	26,475	17.14	12,361	8.00	15,451	10.00

The Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) established five regulatory capital categories and authorized the banking regulators to take prompt corrective action with respect to institutions in an undercapitalized category. At December 31, 2007, First Home Savings Bank exceeded minimum requirements for the well-capitalized category.

Forward Looking Statements

The Company, and its wholly-owned subsidiaries, First Home Saving Bank and SCMG, Inc., may from time to time make written or oral "forward-looking statements," including statements contained in its filings with the Securities and Exchange Commission, in its reports to shareholders, and in other communications by the Company, which are made in good faith by the Company pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements include statements with respect to the Company's beliefs, expectations, estimates and intentions that are subject to

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

significant risks and uncertainties, and are subject to change based on various factors, some of which are beyond the Company's control. Such statements may address: future operating results; customer growth and retention; loan and other product demand; earnings growth and expectations; new products and services; credit quality and adequacy of reserves; technology; and our employees. The following factors, among others, could cause the Company's financial performance to differ materially from the expectations, estimates, and intentions expressed in such forward-looking statements: the strength of the United States economy in general and the strength of the local economies in which the Company conducts

17

operations; the effects of, and changes in, trade, monetary, and fiscal policies and laws, including interest rate policies of the Federal Reserve Board; inflation, interest rate, market, and monetary fluctuations; the timely development of and acceptance of new products and services of the Company and the perceived overall value of these products and services by users; the impact of changes in financial services' laws and regulations; technological changes; acquisitions; changes in consumer spending and saving habits; and the success of the Company at managing its "litigation", improving its loan underwriting and related lending policies and procedures, collecting assets of borrowers in default, successfully resolving the MOU and managing the risks involved in the foregoing.

The foregoing list of factors is not exclusive. Additional discussions of factors affecting the Company's business and prospects are contained in the Company's periodic filings with the SEC. The Company expressly disclaims any intent or obligation to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company.

18

Item 3. Controls and Procedures

Any control system, no matter how well designed and operated, can provide only reasonable (not absolute) assurance that its objectives will be met. Furthermore, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (Exchange Act) as of the end of the period covered by the report.

Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that as of December 31, 2007 the Company's disclosure controls and procedures were effective to provide reasonable assurance that (i) the information required to be disclosed by the Company in this Report was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) information required

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

to be disclosed by the Company in the reports that its files or submits under the Exchange Act is accumulated and communicated to its management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting

During the quarter ended December 31, 2007, there have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

The Company does not expect that its disclosure controls and procedures and internal control over financial reporting will prevent all error and all fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any control procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

The Company intends to continually review and evaluate the design and effectiveness of its disclosure controls and procedures and to improve its controls and procedures over time and to correct any deficiencies that it may discover in the future. The goal is to ensure that senior management has timely access to all material financial and non-financial information concerning the Company's business. While the Company believes the present design of its disclosure controls and procedures is effective to achieve its goal, future events affecting its business may cause the Company to modify its disclosure controls and procedures.

Exhibit 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Daniel P. Katzfey, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of First Bancshares, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;

Edgar Filing: FIRST BANCSHARES INC /MO/ - Form 10QSB

and

(c) Disclosed in this report any changes in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter ended (the registrant's fourth fiscal quarter in the case of an annual report), that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
