(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2015 OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 333-177125

FS BANCORP, INC.

(Exact name of registrant as specified in its charter)

Washington
(State or other jurisdiction of incorporation or organization)

45-4585178
(IRS Employer Identification No.)

6920 220th Street SW, Mountlake Terrace, Washington 98043
(Address of principal executive offices; Zip Code)

(425) 771-5299
(Registrant's telephone number, including area code)

None
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Edgar Filing: FS Bancorp, Inc. - Form 10-Q

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: As of November 4, 2015, there were 3,241,120 outstanding shares of the registrant's common stock.

Table of Contents

FS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations – FS Bancorp, Inc. (the “Company”) was incorporated in September 2011 as the proposed holding company for 1st Security Bank of Washington (the “Bank”) in connection with the Bank's conversion from the mutual to stock form of ownership which was completed on July 9, 2012. The Bank is a community-based savings bank with seven branches and four loan production offices in suburban communities in the greater Puget Sound area, and one loan production office in the most recently entered market area of the Tri-Cities, Washington. The Bank provides loan and deposit services to customers who are predominantly small and middle-market businesses and individuals.

Financial Statement Presentation – The accompanying unaudited consolidated interim financial statements do not contain all necessary disclosures required by generally accepted accounting principles in the United States of America (“U.S. GAAP”) for complete financial statements and, therefore, should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 filed with the U.S. Securities and Exchange Commission (“SEC”) on March 27, 2015. These unaudited consolidated financial statements include all normal and recurring adjustments that management believes are necessary in order to conform to U.S. GAAP and have been reflected as required by Article 10 of Regulation S-X as promulgated by the SEC. The results for the three and nine months ended September 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015, or any other future period. Amounts presented in the financial statements and footnote tables are rounded and presented in thousands of dollars except per share amounts. In the narrative footnote discussion, amounts are rounded and presented in millions of dollars to one decimal point if the amounts are above \$1.0 million. Amounts below \$1.0 million are rounded and presented in dollars to the nearest thousands. Certain prior year amounts have been reclassified to conform to the 2015 presentation with no change to net income or stockholders' equity previously reported.

Conversion and Change in Corporate Form – On July 9, 2012, in accordance with a Plan of Conversion (the “Plan”) adopted by its Board of Directors and as approved by its depositors and borrower members, the Bank (i) converted from a mutual savings bank to a stock savings bank, and (ii) became the wholly-owned subsidiary of FS Bancorp, Inc., a bank holding company registered with the Board of Governors of the Federal Reserve System (“Federal Reserve”). In connection with the conversion, FS Bancorp, Inc. issued an aggregate of 3,240,125 shares of common stock at an offering price of \$10.00 per share for gross proceeds of \$32.4 million. From the proceeds, the Company made a capital contribution of \$15.5 million to the Bank. The Bank is using this additional capital for lending and investment activities and for general and other corporate purposes subject to regulatory limitations. The cost of conversion and the issuance of capital stock was approximately \$2.5 million, which was deducted from the proceeds of the offering.

Pursuant to the Plan, the Company's Board of Directors adopted an employee stock ownership plan ("ESOP") which purchased 8% of the common stock in the open market or 259,210 shares. As provided for in the Plan, the Bank also established a liquidation account in the amount of retained earnings at December 31, 2011. The liquidation account will be maintained for the benefit of eligible savings account holders at June 30, 2007, and supplemental eligible account holders as of March 31, 2012, who maintain deposit accounts at the Bank after the conversion. The conversion was accounted for as a change in corporate form with the historic basis of the Company's assets, liabilities, and equity unchanged as a result.

Use of Estimates – The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect amounts reported in the financial statements. Actual results could differ from these estimates. Material estimates that are particularly susceptible to change in the near term are allowances for loan losses, fair value of measurements, servicing assets, and deferred income taxes.

Principles of Consolidation – The consolidated financial statements include the accounts of FS Bancorp, Inc. and its wholly owned subsidiary, 1st Security Bank of Washington. All material intercompany accounts have been eliminated in consolidation.

Table of Contents

FS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Segment Reporting – The Company's major line of business is community banking. Management has determined that the Company operates as a single operating segment based on U. S. GAAP.

Subsequent Events – On September 1, 2015, 1st Security Bank, the wholly owned subsidiary of FS Bancorp, Inc. entered into a Purchase and Assumption Agreement with Bank of America, National Association to purchase four retail bank branches.

On October 15, 2015, FS Bancorp, Inc. issued an unsecured subordinated term note in the aggregate principal amount of \$10.0 million due October 1, 2025 bearing interest at a rate of 6.5% per annum.

For additional information regarding these subsequent events please see Note 16 Recent Developments.

Cash and Cash Equivalents – Cash and cash equivalents include cash and due from banks, and interest-bearing balances due from other banks and the Federal Reserve Bank of San Francisco ("Federal Reserve Bank") and have a maturity of 90 days or less at the time of purchase. At September 30, 2015 the Company had no cash and due from banks and interest-bearing deposits at other financial institutions in excess of Federal Deposit Insurance Corporation ("FDIC") insured limits and at December 31, 2014, the Company had cash and due from banks and interest-bearing deposits at other financial institutions in excess of FDIC insured limits. Because the Company places these deposits with major financial institutions and monitors the financial condition of these institutions, management believes the risk of loss to any deposits in excess of FDIC limits to be minimal.

RECENT ACCOUNTING PRONOUNCEMENTS

In January 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-01, Income Statement - Extraordinary and Unusual Items (Subtopic 225-20). The objective of this ASU is to simplify the income statement presentation requirements in Subtopic 225-20 by eliminating the concept of extraordinary items. Extraordinary items are events and transactions that are distinguished by their unusual nature and by the infrequency of their occurrence. Eliminating the extraordinary classification simplifies income statement presentation by altogether removing the concept of extraordinary items from consideration. This ASU is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015 with early adoption permitted. The Company does not expect this ASU to have a material impact on the Company's consolidated financial statements.

In February 2015, the FASB issued ASU No. 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis, which is intended to improve targeted areas of consolidation guidance for legal entities such as limited partnerships, limited liability corporations, and securitization structures (collateralized debt obligations, collateralized loan obligations, and mortgage-backed security transactions). The ASU focuses on simplifying the consolidation evaluation for reporting organizations that are required to evaluate whether they should consolidate certain legal entities by reducing the number of consolidation model from four to two, among other changes. The ASU will be effective for periods beginning after December 31, 2015, while early adoption is permitted. The Company does not

expect this ASU to have a material impact on the Company's consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected. The ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim

NOTE 1 – BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Table of Contents

FS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

periods within those fiscal years. ASU No. 2015-03 should be applied on a retrospective basis. The Company is currently evaluating the impacts of this ASU on the Company's consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement. The amendments in this ASU provide guidance to customers in cloud computing arrangements about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement does include a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The amendments are effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. This ASU is not expected to have a material effect on the Company's consolidated financial statements.

In June 2015, FASB issued ASU No. 2015-10, Technical Corrections and Improvements. On November 10, 2010 FASB added a standing project that will facilitate the FASB Accounting Standards Codification ("Codification") updates for technical corrections, clarifications, and improvements. These amendments are referred to as Technical Corrections and Improvements. Maintenance updates include non-substantive corrections to the Codification, such as editorial corrections, various link-related changes, and changes to source fragment information. This update contains amendments that will affect a wide variety of Topics in the Codification. The amendments in this ASU will apply to all reporting entities within the scope of the affected accounting guidance and generally fall into one of four categories: amendments related to differences between original guidance and the Codification, guidance clarification and reference corrections, simplification, and minor improvements. In summary, the amendments in this ASU represent changes to clarify the Codification, correct unintended application of guidance, or make minor improvements to the Codification that are not expected to have a significant effect on current accounting practice. Transition guidance varies based on the amendments in this ASU. The amendments in this ASU that require transition guidance are effective for fiscal years and interim reporting periods after December 15, 2015. Early adoption is permitted including adoption in an interim period. All other amendments are effective upon the issuance of this ASU. ASU 2015-10 did not have a material impact on the Company's consolidated financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensuses of the FASB Emerging Issues Task Force). The amendments of this ASU (i) require fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value, not fair value; (ii) simplify the investment disclosure requirements; and (iii) provide a measurement date practical expedient for employee benefit plans. This ASU is effective for fiscal years beginning after December 15, 2015, although earlier adoption is permitted. This ASU is not expected to have a material effect on the Company's consolidated financial statements.

In July 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers, deferring the effective date of the new revenue standard by one year. The standard also allows entities to choose to adopt the standard as of the original effective date. The FASB decided, based on its outreach to various stakeholders and the forthcoming amendments to the new revenue standard, that a deferral is necessary to provide adequate time to effectively

implement the new revenue standard.

In August 2015, the FASB issued ASU No. 2015-15, Interest-Imputation of Interest (Subtopic 835-30), Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements. The ASU provides guidance not previously included in ASU 2015-03 regarding debt issuance related to line-of-credit arrangements. The amendment allows an entity to present debt issuance costs as an asset and subsequently amortize the deferred debt issuance costs over the term of the line-of-credit arrangement, regardless if there are any outstanding borrowings on the line-of-credit arrangement. The amendment is effective for fiscal years beginning after December 15, 2015. This ASU is not expected to have a material effect on the Company's consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In September 2015, the FASB issued ASU No. 2015-16, Business Combinations (Topic 805). This ASU simplifies the accounting for adjustments made to provisional amounts recognized in a business combination during the measurement period. The amendments in this ASU require that the acquirer recognize the adjustments to provisional amounts in the reporting period in which the adjustment amount is determined. The acquirer must also record in the same period's financial statements, the effect on earnings of changes in depreciation, amortization or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. This ASU has a potential impact on the Company, and the Company is currently evaluating the impacts of this ASU on the Company's consolidated financial statements.

NOTE 2 – SECURITIES AVAILABLE-FOR-SALE (Continued)

Investment securities that were in an unrealized loss position at September 30, 2015 and December 31, 2014 are presented in the following tables, based on the length of time individual securities have been in an unrealized loss position. In the opinion of management, these securities are considered only temporarily impaired due to changes in market interest rates or the widening of market spreads subsequent to the initial purchase of the securities, and not due to concerns regarding the underlying credit of the issuers or the underlying collateral.

	September 30, 2015		12 Months or Longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
SECURITIES AVAILABLE-FOR-SALE

Total	\$7,703	\$(22)	\$12,214	\$(300)	\$19,917	\$(322)

There were seven investments with unrealized losses of less than one year, and eight investments with unrealized losses of more than one year at September 30, 2015. There were eight investments with unrealized losses of less than one year, and 13 investments with unrealized losses of more than one year at December 31, 2014. The unrealized losses associated with these investments are believed to be caused by changing market conditions that are considered to be temporary and the Company does not intend to sell the securities, and it is not likely to be required to sell these securities. No other-than-temporary impairment was recorded for the three and nine months ended September 30, 2015 and 2014.

Deferred costs, fees, and discounts, net	(729) (946
Total loans receivable, net	\$482,592	\$387,174

The Company has defined its loan portfolio into three segments that reflect the structure of the lending function, the Company's strategic plan and the manner in which management monitors performance and credit quality. The three loan portfolio segments are: (a) Real Estate Loans, (b) Consumer Loans and (c) Commercial Business Loans. Each of these segments is disaggregated into classes based on the risk characteristics of the borrower and/or the collateral type securing the loan. The following is a summary of each of the Company's loan portfolio segments and classes:

Real Estate Loans

Commercial Lending. Loans originated by the Company primarily secured by income producing properties, including retail centers, warehouses, and office buildings located in our market areas.

Construction and Development Lending. Loans originated by the Company for the construction of, and secured by, commercial real estate, one-to-four-family, and multi-family residences and tracts of land for development that are not pre-sold.

Home Equity Lending. Loans originated by the Company secured by second mortgages on one-to-four-family residences in our market areas.

Table of Contents

FS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 – LOANS RECEIVABLE AND ALLOWANCE FOR LOAN LOSSES (Continued)

One-to-Four-Family Real Estate Lending. Loans originated by the Company secured by first mortgages on one-to-four-family residences in our market areas that the Company intends to hold (excludes loans held for sale).

Multi-Family Lending. Apartment term lending (five or more units) to current banking customers and community reinvestment loans for low to moderate income individuals in the Company's footprint.

Consumer Loans

Indirect Home Improvement. Fixture secured loans are originated by the Company for home improvement and are secured by the personal property installed in, on, or at the borrower's real property, and may be perfected with a UCC-2 financing statement filed in the county of the borrower's residence. These indirect home improvement loans include replacement windows, siding, roofing, and other home fixture installations.

Solar. Fixture secured loans are originated by the Company for home improvement and are secured by the personal property installed in, on, or at the borrower's real property, and may be perfected with a UCC-2 financing statement filed in the county of the borrower's residence.

Marine, Automobile and Recreational. Loans originated by the Company secured by boats, automobiles, and RVs to borrowers primarily located in its market areas.

Other Consumer and Home Improvement. Loans originated by the Company, including direct home improvement loans, loans on deposits, and other consumer loans, primarily consisting of personal lines of credit.

Commercial Business Loans

Commercial Business Lending. Commercial business loans originated by the Company to local small and mid-sized businesses in our Puget Sound market area are secured primarily by accounts receivable, inventory, or personal property, plant and equipment. Commercial business loans are made on the basis of the borrower's ability to make repayment from the cash flow of the borrower's business.

Credit Quality Indicators

As part of the Company's on-going monitoring of credit quality of the loan portfolio, management tracks certain credit quality indicators including trends related to (i) the risk grading of loans, (ii) the level of classified loans, (iii) net charge-offs, (iv) non-performing loans and (v) the general economic conditions in the Company's markets.

The Company utilizes a risk grading matrix to assign a risk grade to its real estate and commercial business loans. Loans are graded on a scale of 1 to 10, with loans in risk grades 1 to 6 considered "Pass" and loans in risk grades 7 to 10 are reported as classified loans in the Company's allowance for loan loss analysis.

Table of Contents

FS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 – LOANS RECEIVABLE AND ALLOWANCE FOR LOAN LOSSES (Continued)

A description of the 10 risk grades is as follows:

Grades 1 and 2 – These grades include loans to very high quality borrowers with excellent or desirable business credit.

Grade 3 – This grade includes loans to borrowers of good business credit with moderate risk.

Grades 4 and 5 – These grades include “Pass” grade loans to borrowers of average credit quality and risk.

Grade 6 – This grade includes loans on management’s “Watch” list and is intended to be utilized on a temporary basis for “Pass” grade borrowers where frequent and thorough monitoring is required due to credit weaknesses and where significant risk-modifying action is anticipated in the near term.

Grade 7 – This grade is for “Other Assets Especially Mentioned” (“OAEM”) in accordance with regulatory guidelines and includes borrowers where performance is poor or significantly less than expected.

Grade 8 – This grade includes “Substandard” loans in accordance with regulatory guidelines which represent an unacceptable business credit where a loss is possible if loan weakness is not corrected.

Grade 9 – This grade includes “Doubtful” loans in accordance with regulatory guidelines where a loss is highly probable.

Grade 10 – This grade includes “Loss” loans in accordance with regulatory guidelines for which total loss is expected and when identified are charged off.

Consumer, Home Equity and One-to-Four-Family Real Estate Loans

Homogeneous loans are risk rated based upon the FDIC's Uniform Retail Credit Classification and Account Management Policy. Loans classified under this policy at the Company are consumer loans which include indirect home improvement, recreational, automobile, direct home improvement and other, and one-to-four-family first and second liens. Under the Uniform Retail Credit Classification Policy, loans that are current or less than 90 days past due are graded “Pass” and risk rated “4” internally. Loans that are past due more than 90 days are classified “Substandard” and risk rated “8” internally. Closed-end loans that are 120 days past due and open-end loans that are 180 days past due are charged off based on the value of the collateral less cost to sell.

NOTE 3 – LOANS RECEIVABLE AND ALLOWANCE FOR LOAN LOSSES (Continued)

Troubled Debt Restructured Loans

Troubled debt restructured (“TDR”) loans are loans for which the Company, for economic or legal reasons related to the borrower’s financial condition, has granted a significant concession to the borrower that it would otherwise not consider. The loan terms which have been modified or restructured due to a borrower’s financial difficulty include but are not limited to: a reduction in the stated interest rate; an extension of the maturity at an interest rate below current market; a reduction in the face amount of the debt; a reduction in the accrued interest; or re-aging, extensions, deferrals and renewals. TDR loans are considered impaired loans and are individually evaluated for impairment. TDR loans can be classified as either accrual or non-accrual. TDR loans are classified as non-performing loans unless they have been performing in accordance with their modified terms for a period of at least six months in which case they are placed on accrual status. The Company had two TDR loans on accrual and included in impaired loans at September 30, 2015, and four TDR loans at December 31, 2014. In addition, the Company had one TDR loan on non-accrual, and had no commitments to lend additional funds on these restructured loans at September 30, 2015 and no TDR loans on non-accrual at December 31, 2014.

A summary of TDR loan balances at the dates indicated is as follows:

	September 30, 2015	December 31, 2014
TDR loans still on accrual	\$211	\$783
TDR loans on non-accrual	525	—
Total TDR loan balances	\$736	\$783

There were no TDRs recorded in the twelve months prior to September 30, 2015 and 2014, that subsequently defaulted in the three or nine months ended September 30, 2015 and 2014.

At September 30, 2015, there was a \$525,000 mortgage loan collateralized by residential real estate property in process of foreclosure.

NOTE 4 – SERVICING RIGHTS

Loans serviced for others are not included on the Consolidated Balance Sheets. The unpaid principal balances of mortgage, commercial, and consumer loans serviced for others were \$568.8 million and \$345.9 million at September 30, 2015 and December 31, 2014, respectively and are carried at the lower of cost or market. At September 30, 2015 and December 31, 2014, servicing rights' assets are recorded on the Consolidated Balance Sheets at a book value of \$5.2 million and \$3.1 million, respectively. The fair market value of the servicing rights' assets was \$6.0 million and \$3.5 million at September 30, 2015 and December 31, 2014, respectively.

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 4 – SERVICING RIGHTS (Continued)

The following tables summarize servicing rights activity for the three and nine months ended September 30, 2015 and 2014:

	At or For the Three Months Ended	
	September 30,	
	2015	2014
Beginning balance	\$4,569	\$2,336
Additions	920	356
Mortgage, commercial, and consumer servicing rights amortized	(263)	(141)
Recovery on servicing rights	—	18
Ending balance	\$5,226	\$2,569

	At or For the Nine Months Ended	
	September 30,	
	2015	2014
Beginning balance	\$3,061	\$2,093
Additions	2,823	845
Mortgage, commercial, and consumer servicing rights amortized	(658)	(388)
Recovery on servicing rights	—	19
Ending balance	\$5,226	\$2,569

Fair value adjustments to mortgage, commercial, and consumer servicing rights were mainly due to market based assumptions associated with discounted cash flows, loan prepayment speeds, and changes in interest rates. A significant change in prepayments of the loans in the servicing portfolio could result in significant changes in the valuation adjustments, thus creating potential volatility in the carrying amount of servicing rights. Valuation assumptions used in determining the fair value of servicing rights at the dates indicated are as follows:

	September 30, 2015	December 31, 2014		
Key assumptions:				
Weighted average discount rate	8.5	% 8.5		%
Conditional prepayment rate ("CPR")	12.5	% 13.2		%
Weighted average life in years	6.4	6.1		

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 4 – SERVICING RIGHTS (Continued)

Key economic assumptions and the sensitivity of the current fair value for single family mortgage servicing rights ("MSR") to immediate adverse changes in those assumptions at September 30, 2015 and December 31, 2014 were as follows:

		September 30, 2015	December 31, 2014	
Aggregate portfolio principal balance		\$564,371	\$340,243	
Weighted average rate of note		4.0	% 4.1	%
At September 30, 2015	Base	0.5% Adverse Change	1.0% Adverse Change	
Fair value MSR	\$5,986	\$4,932	\$4,134	
Percentage of MSR	1.1	% 0.9	% 0.7	%
Discount rate	8.5	% 8.5	% 8.5	%
Conditional prepayment rate	12.5	% 18.2	% 24.7	%
At December 31, 2014	Base	0.5% Adverse Change	1.0% Adverse Change	
Fair value MSR	\$3,526	\$2,861	\$2,256	
Percentage of MSR	1.0	% 0.8	% 0.7	%
Discount rate	8.5	% 8.5	% 8.5	%
Conditional prepayment rate	13.2	% 19.4	% 28.0	%

The above tables show the sensitivity to market rate changes for the par rate coupon for a conventional one-to-four-family FNMA/FHLMC/GNMA serviced home loan. The above tables reference a 50 basis point and 100 basis point decrease in note rate.

These sensitivities are hypothetical and should be used with caution as the tables above demonstrate the Company's methodology for estimating the fair value of MSR is highly sensitive to changes in key assumptions. For example, actual prepayment experience may differ and any difference may have a material effect on MSR fair value. Changes in fair value resulting from changes in assumptions generally cannot be extrapolated because the relationship of the change in the assumption to the change in fair value may not be linear. Also, in these tables, the effects of a variation in a particular assumption on the fair value of the MSR is calculated without changing any other assumption; in reality, changes in one factor may be associated with changes in another (for example, decreases in market interest rates may provide an incentive to refinance; however, this may also indicate a slowing economy and an increase in the unemployment rate, which reduces the number of borrowers who qualify for refinancing), which may magnify or counteract the sensitivities. Thus, any measurement of MSR fair value is limited by the conditions existing and assumptions made as a particular point in time. Those assumptions may not be appropriate if they are applied to a

different point in time.

The Company recorded \$343,000 and \$187,000 of contractually specified servicing fees, late fees, and other ancillary fees resulting from servicing of mortgage, commercial and consumer loans for the three months ended September 30, 2015 and 2014, respectively, and \$857,000 and \$521,000 for the nine months ended September 30, 2015 and 2014, respectively, which was reported in noninterest income.

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 5 – DERIVATIVES

The Company regularly enters into commitments to originate and sell loans held for sale. The Company has established a hedging strategy to protect itself against the risk of loss associated with interest rate movements on loan commitments. The Company enters into contracts to sell forward To-Be-Announced ("TBA") mortgage-backed securities. These commitments and contracts are considered derivatives but have not been designated as hedging instruments. Rather, they are accounted for as free-standing derivatives, or economic hedges, with changes in the fair value of the derivatives reported in noninterest income. The Company recognizes all derivative instruments as either other assets or other liabilities on the Consolidated Balance Sheets and measures those instruments at fair value.

The following tables summarize the Company's derivative instruments at the dates indicated:

	September 30, 2015		
	Notional	Fair Value	
		Asset	Liability
Fallout adjusted interest rate lock commitments with customers	\$38,501	\$857	\$—
Mandatory and best effort forward commitments with investors	26,415	38	—
Forward TBA mortgage-backed securities	62,500	—	477
TBA mortgage-backed securities forward sales paired off with investors	26,000	—	110
	December 31, 2014		
	Notional	Fair Value	
		Asset	Liability
Fallout adjusted interest rate lock commitments with customers	\$16,516	\$396	\$—
Mandatory and best effort forward commitments with investors	10,763	12	—
Forward TBA mortgage-backed securities	30,000	—	194
TBA mortgage-backed securities forward sales paired off with investors	29,000	—	207

Changes in the fair value of the derivatives recognized in other noninterest income on the Consolidated Statements of Income and included in (loss) gain on sale of loans was (\$346,000) and \$143,000 for the three months ended September 30, 2015 and 2014, respectively, and \$1.1 million and \$464,000 for the nine months ended September 30, 2015 and 2014, respectively.

NOTE 6 – OTHER REAL ESTATE OWNED

Edgar Filing: FS Bancorp, Inc. - Form 10-Q

The following table presents the activity related to OREO for the three and nine months ended September 30, 2015 and 2014:

	At or For the Three Months Ended		At or For the Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Beginning balance	\$—	\$36	\$—	\$2,075
Additions	—	—	—	445
Fair value impairments	—	—	—	(40)
Disposition of assets	—	(36)	—	(2,480)
Ending balance	\$—	\$—	\$—	\$—

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 6 – OTHER REAL ESTATE OWNED (Continued)

There were no OREO properties at September 30, 2015, or at September 30, 2014. For the three months ended September 30, 2015 and 2014, the Company recorded no net gain or loss, and an \$11,000 net loss on disposals of OREO, respectively. For the nine months ended September 30, 2015 and 2014, the Company recorded no net gain or loss, and a \$2,000 net loss, respectively, on disposals of OREO. Holding costs associated with OREO were none and \$10,000 for the three months ended September 30, 2015 and 2014, respectively, and none and \$13,000 for the nine months ended September 30, 2015 and 2014, respectively.

NOTE 7 – DEPOSITS

Deposits are summarized as follows at September 30, 2015 and December 31, 2014:

	September 30, 2015	December 31, 2014
Noninterest-bearing checking	\$63,725	\$53,743
Interest-bearing checking	33,476	29,585
Savings	27,891	21,560
Money market	168,252	152,611
Certificates of deposit of less than \$100,000 ⁽¹⁾	68,329	52,323
Certificates of deposit of \$100,000 through \$250,000	97,248	74,008
Certificates of deposit of more than \$250,000 ⁽²⁾	34,963	33,623
Escrow accounts related to mortgages serviced	5,999	2,991
Total	\$499,883	\$420,444

(1) Includes \$30.5 million and \$19.1 million of brokered deposits at September 30, 2015 and December 31, 2014, respectively.

(2) Time deposits that meet or exceed the FDIC insurance limit.

Scheduled maturities of time deposits at September 30, 2015 for future periods ending is as follows:

	At September 30, 2015
2015	\$ 16,104
2016	81,957
2017	60,957
2018	34,013
2019	4,048
Thereafter	3,461
Total	\$ 200,540

The Bank pledged two securities held at the FHLB of Des Moines with a fair value of \$1.2 million to secure Washington State public deposits of \$1.7 million with a \$117,000 collateral requirement by the Washington Public Deposit Protection Commission at September 30, 2015.

Federal Reserve regulations require that the Bank maintain reserves in the form of cash on hand and deposit balances with the Federal Reserve Bank, based on a percentage of deposits. The amounts of such balances at September 30, 2015 and December 31, 2014 were \$2.6 million and \$1.9 million, respectively, and were in compliance with Federal Reserve regulations.

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7 – DEPOSITS (Continued)

Interest expense by deposit category for the three and nine months ended September 30, 2015 and 2014 is as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Interest-bearing checking	\$8	\$7	\$21	\$22
Savings and money market	262	137	760	385
Certificates of deposit	596	531	1,644	1,411
Total	\$866	\$675	\$2,425	\$1,818

NOTE 8 – INCOME TAXES

The Company recorded a provision for income taxes of \$3.7 million and \$1.5 million during the nine months ended September 30, 2015 and 2014, respectively.

The Company files a consolidated U.S. Federal income tax return, which is subject to examinations by tax authorities for years 2012 and later. At September 30, 2015, the Company had no uncertain tax positions. The Company recognizes interest and penalties in tax expense and at September 30, 2015, the Company had recognized no interest and penalties.

NOTE 9 – COMMITMENTS AND CONTINGENCIES

Commitments – The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit. These instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized on the balance sheet.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9 – COMMITMENTS AND CONTINGENCIES (Continued)

A summary of the Company's commitments at September 30, 2015 and December 31, 2014 is as follows:

	September 30, 2015	December 31, 2014
COMMITMENTS TO EXTEND CREDIT		
REAL ESTATE LOANS		
Construction and development	\$53,177	\$42,290
One-to-four-family (includes held for sale)	96,455	45,331
Home equity	17,110	13,735
Multi-family	2,441	474
Total real estate loans	169,183	101,830
CONSUMER LOANS		
Other	5,861	5,832
Total consumer loans	5,861	5,832
COMMERCIAL BUSINESS LOANS		
Total commitments to extend credit	\$235,344	\$162,326

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Since many of the commitments are expected to expire without being drawn upon, the amount of the total commitments do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon an extension of credit, is based on management's credit evaluation of the party. Collateral held varies, but may include accounts receivable, inventory, property and equipment, residential real estate, and income-producing commercial properties.

Unfunded commitments under commercial lines of credit, revolving credit lines and overdraft protection agreements are commitments for possible future extensions of credit to existing customers. These lines of credit are uncollateralized and usually do not contain a specified maturity date and ultimately may not be drawn upon to the total extent to which the Company is committed. The Company has established reserves for estimated losses from unfunded commitments of \$147,000 and \$124,000 at September 30, 2015 and December 31, 2014, respectively. One-to-four-family commitments included in the table above are accounted for as fair value derivatives and do not carry an associated loss reserve.

The Company has entered into a severance agreement with its Chief Executive Officer. The severance agreement, subject to certain requirements, generally includes a lump sum payment to the Chief Executive Officer equal to 24 months of base compensation in the event his employment is involuntarily terminated, other than for cause or the executive terminates his employment with good reason, as defined in the severance agreement.

The Company has entered into change of control agreements with its Chief Financial Officer and the Chief Operating Officer. The change of control agreements, subject to certain requirements, generally remain in effect until canceled by either party upon at least 24 months prior written notice. Under the change of control agreements the executive

generally will be entitled to a change of control payment from the Company if the executive is involuntarily terminated within six months preceding or 12 months after a change in control (as defined in the change of control agreements). In such an event, the executives would each be entitled to receive a cash payment in an amount equal to 12 months of their then current salary, subject to certain requirements in the change of control agreements.

Table of Contents

FS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9 – COMMITMENTS AND CONTINGENCIES (Continued)

Because of the nature of our activities, the Company is subject to various pending and threatened legal actions, which arise in the ordinary course of business. From time to time, subordination liens may create litigation which requires us to defend our lien rights. In the opinion of management, liabilities arising from these claims, if any, will not have a material effect on our financial position.

Contingent liabilities for loans held for sale - In the ordinary course of business, the Company sells loans without recourse that may have to subsequently be repurchased due to defects that occurred during the origination of the loan. The defects are categorized as documentation errors, underwriting errors, early payment defaults, breach of representation or warranty, servicing errors, and fraud. When a loan sold to an investor without recourse fails to perform according to its contractual terms, the investor will typically review the loan file to determine whether defects in the origination process occurred. If a defect is identified, the Company may be required to either repurchase the loan or indemnify the investor for losses sustained. If there are no such defects, the Company has no commitment to repurchase the loan. The Company has recorded reserves of \$514,000 and \$340,000 to cover loss exposure related to these guarantees for one-to-four-family loans sold into the secondary market at September 30, 2015 and December 31, 2014, respectively.

NOTE 10 – SIGNIFICANT CONCENTRATION OF CREDIT RISK

Most of the Company's business activity is with customers located in the greater Puget Sound area, and since the fourth quarter of 2014, one loan production office located in the Tri-Cities, Washington. The Company originates real estate and consumer loans and has concentrations in these areas. Generally, loans are secured by deposit accounts, personal property, or real estate. Rights to collateral vary and are legally documented to the extent practicable. Local economic conditions may affect borrowers' ability to meet the stated repayment terms.

NOTE 11 – REGULATORY CAPITAL

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's consolidated financial statements. Under capital adequacy guidelines of the regulatory framework for prompt corrective action, the Bank must meet specific capital adequacy guidelines that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital classification is also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of Tier 1 capital (as defined in the regulations) to total average assets (as defined), and minimum ratios of Tier 1 and total capital (as defined) to risk-weighted assets (as defined).

At September 30, 2015 and December 31, 2014, the Bank was categorized as "well capitalized" under the newly implemented Basel III revised capital adequacy standards and relevant provisions of the Wall Street Reform and Consumer Protection Act ("Dodd Frank Act"). The Bank must maintain minimum total risk-based, Tier 1 risk-based,

and Tier 1 leverage ratios as set forth in the table below to be categorized as well capitalized. There are no conditions or events since that notification that management believes have changed the Bank's category.

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11 – REGULATORY CAPITAL (Continued)

The Bank's capital amounts and ratios at September 30, 2015 and December 31, 2014 are presented as follows:

Bank Only	Actual		For Capital Adequacy Purposes		To be Well Capitalized Under Prompt Corrective Action Provisions			
	Amount	Ratio	Amount	Ratio	Amount	Ratio		
At September 30, 2015								
Total risk-based capital (to risk-weighted assets)	\$74,389	13.85	% \$42,984	8.00	% \$53,729	10.00	%	
Tier 1 risk-based capital (to risk-weighted assets)	\$67,658	12.59	% \$32,238	6.00	% \$42,984	8.00	%

(1) The CET1 ratio is a new regulatory capital ratio which became effective in the quarter ended March 31, 2015.

Regulatory capital levels reported above at the Bank differ from the Company's total equity, computed in accordance with U.S. GAAP with \$5.3 million of additional capital held at FS Bancorp, Inc.

	Company		Bank	
	September 30, 2015	December 31, 2014	September 30, 2015	December 31, 2014
Equity	\$73,238	\$65,836	\$67,892	\$55,887
Unrealized gain on securities available-for-sale	(234)	(117)	(234)	(117)
Total Tier 1 capital	73,004	65,719	67,658	55,770
Allowance for loan and lease losses for regulatory capital purposes	6,731	5,208	6,731	5,208
Total risk-based capital	\$79,735	\$70,927	\$74,389	\$60,978

Bank holding companies are subject to capital adequacy requirements of the Federal Reserve under the Bank Holding Company Act of 1956, as amended, and the regulations of the Federal Reserve. For a bank holding company with less than \$1.0 billion in assets, the capital guidelines apply on a bank only basis and the Federal Reserve expects the holding company's subsidiary banks to be well-capitalized under the prompt corrective action regulations. If the Company was subject to regulatory guidelines for bank holding companies with \$1.0 billion or more in assets, at September 30, 2015, the Company would have exceeded all regulatory capital requirements. The regulatory capital

ratios calculated for the Company at September 30, 2015 were 12.2% for Tier 1 leverage-based capital, 13.5% for Tier 1 risk-based capital, 14.7% for total risk-based capital, and 13.5% for CET1 capital ratio.

FS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 12 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company assumes interest rate risk (the risk that general interest rate levels will change) as a result of its normal operations. Consequently, the fair value of the Company's consolidated financial instruments will change when interest rate levels change and that change may either be favorable or unfavorable to the Company. Management attempts to match maturities of assets and liabilities to the extent believed necessary to minimize interest rate risk. However, borrowers with fixed interest rate obligations are less likely to prepay in a rising interest rate environment and more likely to prepay in a falling interest rate environment. Conversely, depositors who are receiving fixed interest rates are more likely to withdraw funds before maturity in a rising interest rate environment and less likely to do so in a falling interest rate environment. Management monitors interest rates and maturities of assets and liabilities, and attempts to minimize interest rate risk by adjusting terms of new loans, and deposits, and by investing in securities with terms that mitigate the Company's overall interest rate risk.

Accounting guidance regarding fair value measurements defines fair value and establishes a framework for measuring fair value in accordance with U.S. GAAP. Fair value is the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The following definitions describe the levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Determination of Fair Market Values:

Securities - Securities available-for-sale are recorded at fair value on a recurring basis. The fair value of investments and mortgage-backed securities are provided by a third-party pricing service. These valuations are based on market data using pricing models that vary by asset class and incorporate available current trade, bid, and other market information, and for structured securities, cash flow, and loan performance data. The pricing processes utilize benchmark curves, benchmarking of similar securities, sector groupings, and matrix pricing. Option adjusted spread models are also used to assess the impact of changes in interest rates and to develop prepayment scenarios. Transfers between the fair value hierarchy are determined through the third-party service provider which, from time to time will transfer between levels based on market conditions per the related security. All models and processes used, take into account market convention (Level 2).

Mortgage Loans Held for Sale - The fair value of loans held for sale reflects the value of commitments with investors and/or the relative price as delivered into a TBA mortgage-backed security (Level 2).

Derivative Instruments - The fair value of the interest rate lock commitments and forward sales commitments are estimated using quoted or published market prices for similar instruments, adjusted for factors such as pull-through

rate assumptions based on historical information, where appropriate. TBA mortgage-backed securities are fair valued on similar contracts in active markets (Level 2) while locks and forwards with customers and investors are valued using similar contracts in the market and changes in the market interest rates (Levels 2 and 3).

Impaired Loans - Fair value adjustments to impaired collateral dependent loans are recorded to reflect partial write-downs based on the current appraised value of the collateral or internally developed models, which contain management's assumptions (Level 3).

NOTE 12 – FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

	Forward Sale Commitments with Investors			Total	
	Level 1	Level 2	Level 3		
September 30, 2015	\$—	\$(477) \$38	\$(439)
December 31, 2014	\$—	\$(194) \$12	\$(182)

	Paired Off Commitments with Investors			Total	
	Level 1	Level 2	Level 3		
September 30, 2015	\$—	\$(110) \$—	\$(110)
December 31, 2014	\$—	\$(207) \$—	\$(207)

The following table presents impaired loans measured at fair value on a nonrecurring basis for which a nonrecurring change in fair value has been recorded during the reporting period. The amounts disclosed below represent the fair values at the time the nonrecurring fair value measurements were made, and not necessarily the fair value as of the dates reported upon.

	Impaired Loans			Total
	Level 1	Level 2	Level 3	
September 30, 2015	\$—	\$—	\$736	\$736
December 31, 2014	\$—	\$—	\$856	\$856

Quantitative Information about Level 3 Fair Value Measurements – The fair value of financial instruments measured under a Level 3 unobservable input on a recurring basis at September 30, 2015 is shown in the following table:

Level 3 Fair Value Instrument	Valuation Technique	Significant Unobservable Inputs	Range	Weighted Average
-------------------------------	---------------------	---------------------------------	-------	------------------

RECURRING

Interest rate lock commitments with customers	Quoted market prices	Pull-through expectations	80% - 99.99%	85.01%
Forward sale commitments with investors	Quoted market prices	Pull-through expectations	80% - 99.99%	85.01%

An increase in the pull-through rate utilized in the fair value measurement of the interest rate lock commitments with customers and forward sale commitments with investors will result in positive fair value adjustments (and an increase in the fair value measurement). Conversely, a decrease in the pull-through rate will result in a negative fair value adjustment (and a decrease in the fair value measurement).

NOTE 12 – FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

The following tables provide a reconciliation of assets and liabilities measured at fair value using significant unobservable inputs (Level 3) on a recurring basis during the three and nine months ended September 30, 2015 and 2014:

Three Months Ended September 30,	Beginning Balance	Purchases and issuances	Sales and settlements	Ending Balance	Net change in fair value for gains/(losses) relating to items held at end of period
2015					
Interest rate lock commitments with customers	\$934	\$2,720	\$(2,797)	\$857	\$(77)
Forward sale commitments with investors	110	(66)	(6)	38	(72)
2014					
Interest rate lock commitments with customers	\$651	\$1,527	\$(1,661)	\$517	\$(134)
Forward sale commitments with investors	(61)	(108)	187	18	79
Nine Months Ended September 30,					
2015					
Interest rate lock commitments with customers	\$396	\$8,683	\$(8,222)	\$857	\$461
Forward sale commitments with investors	12	21	5	38	26
2014					
Interest rate lock commitments with customers	\$166	\$4,455	\$(4,104)	\$517	\$351
Forward sale commitments with investors	45	(251)	224	18	(27)

Gains (losses) on interest rate lock commitments carried at fair value are recorded in other noninterest income. Gains (losses) on forward sale commitments with investors carried at fair value are recorded within other noninterest income.

Edgar Filing: FS Bancorp, Inc. - Form 10-Q

Fair Values of Financial Instruments – The following methods and assumptions were used by the Company in estimating the fair values of financial instruments disclosed in these financial statements:

Cash, and Cash Equivalents and Certificates of Deposit at Other Financial Institutions – The carrying amounts of cash and short-term instruments approximates their fair value (Level 1).

Federal Home Loan Bank stock – The par value of FHLB stock approximates its fair value (Level 2).

Accrued Interest – The carrying amounts of accrued interest approximates its fair value (Level 2).

Table of Contents

FS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 12 – FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Loans Receivable, Net – For variable rate loans that re-price frequently and have no significant change in credit risk, fair values are based on carrying values. Fair values for fixed rate loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers or similar credit quality (Level 3).

Servicing Rights – The fair value of mortgage, commercial and consumer servicing rights are estimated using net present value of expected cash flows using a third party model that incorporates assumptions used in the industry to value such rights, adjusted for factors such as weighted average prepayments speeds based on historical information, where appropriate (Level 3).

Deposits – The fair value of deposits with no stated maturity date is included at the amount payable on demand. Fair values for fixed rate certificates of deposit are estimated using a discounted cash flow calculation on interest rates currently offered on similar certificates (Level 2).

Borrowings – The carrying amounts of advances maturing within 90 days approximate their fair values. The fair values of long-term advances are estimated using discounted cash flow analyses based on the Bank's current incremental borrowing rates for similar types of borrowing arrangements (Level 2).

Off-Balance Sheet Instruments – The fair value of commitments to extend credit are estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreement and the present creditworthiness of the customers. The majority of the Company's off-balance sheet instruments consist of non-fee producing, variable-rate commitments, the Company has determined they do not have a distinguishable fair value. The fair value of loan lock commitments with customers and investors reflect an estimate of value based upon the interest rate lock date, the expected pull through percentage for the commitment, and the interest rate at year end (Levels 2 and 3).

NOTE 13 – EMPLOYEE BENEFITS

Employee Stock Ownership Plan

On January 1, 2012, the Company established an ESOP for eligible employees of the Company and the Bank. Employees of the Company and the Bank who have been credited with at least 1,000 hours of service during a 12-month period are eligible to participate in the ESOP.

The ESOP borrowed \$2.6 million from FS Bancorp, Inc. and used those funds to acquire 259,210 shares of FS Bancorp, Inc. common stock in the open market at an average price of \$10.17 per share during the second half of 2012. It is anticipated that the Bank will make contributions to the ESOP in amounts necessary to amortize the ESOP loan payable to FS Bancorp, Inc. over a period of 10 years, bearing interest at 2.30%. Intercompany expenses associated with the ESOP are eliminated in consolidation. Shares purchased by the ESOP with the loan proceeds are

held in a suspense account and allocated to ESOP participants on a pro rata basis as principal and interest payments are made by the ESOP to FS Bancorp, Inc. The loan is secured by shares purchased with the loan proceeds and will be repaid by the ESOP with funds from the Bank's discretionary contributions to the ESOP and earnings on the ESOP assets. Payments of principal and interest are due annually on December 31, the Company's fiscal year end. On December 31, 2014, the ESOP paid the third annual installment of principal in the amount of \$245,000, plus accrued interest of \$50,000 pursuant

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 13 – EMPLOYEE BENEFITS (Continued)

to the ESOP loan agreement. No payment of principal or interest was made during the nine months ended September 30, 2015.

As shares are committed to be released from collateral, the Company reports compensation expense equal to the average daily market prices of the shares at September 30, 2015 for the prior 90 days. These shares become outstanding for earnings per share computations. The compensation expense is accrued monthly throughout the year. Dividends on allocated ESOP shares are recorded as a reduction of retained earnings; dividends on unallocated ESOP shares are recorded as a reduction of debt and accrued interest.

Compensation expense related to the ESOP was \$148,000 and \$116,000 for the three months ended September 30, 2015 and 2014, respectively, and \$408,000 and \$335,000 for the nine months ended September 30, 2015 and 2014, respectively.

Shares held by the ESOP at September 30, 2015 were as follows:

	Balances
Allocated shares	77,141
Committed to be released shares	19,441
Unallocated shares	162,006
Total ESOP shares	258,588
Fair value of unallocated shares (in thousands)	 \$3,707

NOTE 14 – EARNINGS PER SHARE

Basic earnings per share are computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity.

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 14 – EARNINGS PER SHARE (continued)

The following table presents a reconciliation of the components used to compute basic and diluted earnings per share for the three and nine months ended September 30, 2015 and 2014:

	At or For the Three Months Ended September 30, 2015		At or For the Nine Months Ended September 30, 2014	
Numerator:				
Net income (in thousands)	\$1,995	\$1,146	\$6,859	\$3,007
Denominator:				
Basic weighted average common shares outstanding	2,984,164	2,922,593	2,967,284	2,994,596
Dilutive shares	55,843	9,658	42,108	4,013
Diluted weighted average common shares outstanding	3,040,007	2,932,251	3,009,392	2,998,609
Basic earnings per share	\$0.67	\$0.39	\$2.31	\$1.00
Diluted earnings per share	\$0.66	\$0.39	\$2.28	\$1.00
Potentially dilutive weighted average share options that were not included in the computation of diluted earnings per share— because to do so would be anti-dilutive		36,954	—	20,296

The Company purchased 259,210 shares in the open market during the year ended December 31, 2012, for the ESOP. For earnings per share calculations, the ESOP shares committed to be released are included as outstanding shares for both basic and diluted earnings per share. There were 162,006 shares in the ESOP that were not committed to be released at September 30, 2015.

NOTE 15 – STOCK-BASED COMPENSATION

Stock Options and Restricted Stock

In September 2013, the shareholders of FS Bancorp, Inc. approved the FS Bancorp, Inc. 2013 Equity Incentive Plan ("Plan"). The Plan provides for the grant of stock options and restricted stock awards.

Total share-based compensation expense for the Plan was \$186,000 and \$560,000 for the three and nine months ended September 30, 2015, respectively, and \$186,000 and \$297,000 for the three and nine months ended September 30, 2014, respectively.

Stock Options

The Plan authorizes the grant of stock options totaling 324,013 shares to Company directors and employees. Option awards are granted with an exercise price equal to the market price of FS Bancorp's common stock at the grant date, May 8, 2014, of \$16.89 per share. These option awards were granted as non-qualified stock options, having a vesting period of five years, with 20% vesting on the anniversary date of each grant date, and a contractual life of 10 years. Any unexercised stock options will expire 10 years after the grant date or sooner in the event of the award recipient's

termination of service with the Company or the Bank.

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 15 – STOCK-BASED COMPENSATION (Continued)

The fair value of each option award is estimated on the grant date using a Black-Scholes Option pricing model that uses the following assumptions. The dividend yield is based on the current quarterly dividend in effect at the time of the grant. Historical employment data is used to estimate the forfeiture rate. The Company became a publicly held company in July 2012, therefore historical data was not available to calculate the volatility for FS Bancorp stock. Given this limitation, management utilized a proxy to determine the expected volatility of FS Bancorp's stock. The proxy chosen was the NASDAQ Bank Index, or NASDAQ Bank (NASDAQ symbol: BANK). This index provides the volatility of the banking sector for NASDAQ traded banks. The majority of smaller banks are traded on the NASDAQ given the costs and daily interaction required with trading on the New York Stock Exchange. The Company utilized the comparable Treasury rate for the discount rate associated with the stock options granted. The Company elected to use Staff Accounting Bulletin 107, simplified expected term calculation for the "Share-Based Payments" method permitted by the SEC to calculate the expected term. This method uses the vesting term of an option along with the contractual term, setting the expected life at 6.5 years.

A summary of the Company's stock option plan awards during the nine months ended September 30, 2015 is as follows:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term In Years	Aggregate Intrinsic Value
Outstanding at January 1, 2015	322,000	\$ 16.89	9.36	\$—
Granted	—	—	—	—
Exercised	10,100	16.89	—	48,824
Forfeited or expired	—	—	—	—
Outstanding at September 30, 2015	311,900	\$ 16.89	8.61	\$2,086,611
Expected to vest, assuming a 0.31% annual forfeiture rate	310,221	\$ 16.89	8.61	\$2,075,378
Exercisable at September 30, 2015	54,300	\$ 16.89	8.61	\$363,267

At September 30, 2015, there was \$839,000 of total unrecognized compensation cost related to nonvested stock options granted under the Plan. The cost is expected to be recognized over the remaining weighted-average vesting period of 3.6 years.

Restricted Stock Awards

The Plan authorizes the grant of restricted stock awards totaling 129,605 shares to Company directors and employees, and all but 4,500 shares were granted on May 8, 2014. Compensation expense is recognized over the vesting period of the awards based on the fair value of the stock at the grant date of \$16.89 per share. The restricted stock awards' fair value is equal to the value on the grant date. Shares awarded as restricted stock vest ratably over a three-year period for directors and a five-year period for employees, beginning at the grant date. Any unexercised restricted stock awards

will expire after vesting or sooner in the event of the award recipient's termination of service with the Company or the Bank.

Table of ContentsFS BANCORP, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 15 – STOCK-BASED COMPENSATION (Continued)

A summary of the Company's nonvested awards during the nine months ended September 30, 2015 is as follows:

Nonvested Shares	Shares	Weighted-Average Grant-Date Fair Value Per Share	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2015	125,105	\$16.89	\$2,113,023
Granted	—	—	—
Vested	30,421	16.89	513,811
Forfeited or expired	—	—	—
Nonvested at September 30, 2015	94,684	\$16.89	\$1,599,212

At September 30, 2015, there was \$1.4 million of total unrecognized compensation costs related to nonvested shares granted as restricted stock awards. The cost is expected to be recognized over the remaining weighted-average vesting period of 3.1 years.

NOTE 16 – RECENT DEVELOPMENTS

Proposed Acquisition of Four Bank of America Branches

On September 1, 2015, 1st Security Bank, the wholly owned subsidiary of FS Bancorp, Inc. entered into a Purchase and Assumption Agreement for the acquisition of deposits totaling approximately \$268 million, loans totaling less than \$1 million in balances, and related assets, from Bank of America, National Association. The acquisition includes the branch banking operations of a total of four retail branches. The four retail branch locations are in the communities of Port Angeles, Sequim, Port Townsend and Hadlock, Washington. The purchase of the branches is subject to regulatory approval and the satisfaction of customary closing conditions, and is expected to be completed in the first quarter of 2016.

Subordinated Note

On October 15, 2015 (the "Closing Date"), FS Bancorp, Inc. issued an unsecured subordinated term note in the aggregate principal amount of \$10.0 million due October 1, 2025 (the "Subordinated Note") pursuant to a Subordinated Loan Agreement with Community Funding CLO, Ltd., a Cayman Islands exempted company incorporated with limited liability. The Subordinated Note bears interest at an annual interest rate of 6.50%, payable by the Company quarterly in arrears on January 1, April 1, July 1 and October 1 of each year, commencing on the first such date following the Closing Date and on the maturity date. The Subordinated Note is intended to qualify as Tier 2 capital under the applicable capital adequacy rules and regulations promulgated by the Federal Reserve. The Subordinated Note ranks equally with all other unsecured subordinated debt, except any which by its terms is expressly stated to be subordinated to the loan. The Subordinated Note rank's senior to all current and future junior subordinated debt obligations, preferred stock and common stock of FS Bancorp, Inc. The Subordinated Note is recorded as a long-term liability on the Company's balance sheet; however, for regulatory purposes the Subordinated Note is treated as Tier 2 capital by FS Bancorp, Inc. and, to the extent proceeds are contributed to the Bank, as Tier 1 capital by the Bank. The Subordinated Note will mature on October 1, 2025 but may be prepaid at the Company's option and with regulatory approval at any time on or after five years after the Closing Date or at any time upon certain events, such as a change in the regulatory capital treatment of the Subordinated Note or the interest on the Subordinated Note no longer being deductible by the Company for United States federal income tax purposes. The Company intends to use the net proceeds from the issuance of the Subordinated Note of \$9.8 million to fund general working capital and

operating expenses.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This report may contain forward-looking statements, which can be identified by the use of words such as “believes,” “expects,” “anticipates,” “estimates,” or similar expressions. Forward-looking statements include, but are not limited to:

- statements of our goals, intentions, and expectations;
- statements regarding our business plans, prospects, growth, and operating strategies;
- statements regarding the quality of our loan and investment portfolios; and
- estimates of our risks and future costs and benefits.

These forward-looking statements are subject to significant risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements due to, among others, the following factors:

- general economic conditions, either nationally or in our market area, that are worse than expected;
- the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write offs and changes in our allowance for loan losses and provision for loan losses that may be impacted by deterioration in the housing and commercial real estate markets;
- secondary market conditions and our ability to sell loans in the secondary market;
- fluctuations in the demand for loans, the number of unsold homes, land and other properties, and fluctuations in real estate values in our market area;
- increases in premiums for deposit insurance;
- the use of estimates in determining fair value of certain of our assets, which estimates may prove to be incorrect and result in significant declines in valuation;
- changes in the interest rate environment that reduce our interest margins or reduce the fair value of financial instruments;
- increased competitive pressures among financial services companies;
- our ability to execute our plans to grow our residential construction lending, our mortgage banking operations, our warehouse lending, and the geographic expansion of our indirect home improvement lending;
- our ability to attract and retain deposits;
- our ability to control operating costs and expenses;
- changes in consumer spending, borrowing, and savings habits;
- our ability to successfully manage our growth;
- legislative or regulatory changes that adversely affect our business, or increase capital requirements, including the effect of the Dodd-Frank Wall Street Reform and Consumer Protection Act, changes in regulation policies and principles, or the interpretation of regulatory capital or other rules, including as a result of Basel III;
- adverse changes in the securities markets;
- changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Public Company Accounting Oversight Board or the Financial Accounting Standards Board;
- costs and effects of litigation, including settlements and judgments;
- our ability to implement our branch expansion strategy;
- inability of key third-party vendors to perform their obligations to us; and

Table of Contents

other economic, competitive, governmental, regulatory, and technical factors affecting our operations, pricing, products, and services and other risks described elsewhere in this Form 10-Q and our other reports filed with the U.S. Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2014.

Any of the forward-looking statements made in this Form 10-Q and in other public statements may turn out to be wrong because of inaccurate assumptions we might make, because of the factors illustrated above or because of other factors that we cannot foresee. Forward-looking statements are based upon management's beliefs and assumptions at the time they are made. The Company undertakes no obligation to update or revise any forward-looking statement included in this report or to update the reasons why actual results could differ from those contained in such statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking statements discussed in this report might not occur and you should not put undue reliance on any forward-looking statements.

Overview

FS Bancorp, Inc. and its subsidiary bank, 1st Security Bank of Washington have been serving the Puget Sound area since 1936. Originally chartered as a credit union, previously known as Washington's Credit Union, the credit union served various select employment groups. On April 1, 2004, the credit union converted to a Washington state-chartered mutual savings bank. On July 9, 2012, the Bank converted from mutual to stock ownership and became the wholly owned subsidiary of FS Bancorp, Inc.

The Company is relationship-driven delivering banking and financial services to local families, local and regional businesses and industry niches within distinct Puget Sound area communities, and opened one loan production office located in the Tri-Cities, Washington during the fourth quarter of 2014. The Company also maintains its long-standing indirect consumer lending platform which operates up and down the West Coast. The Company emphasizes long-term relationships with families and businesses within the communities served, working with them to meet their financial needs. The Company is also actively involved in community activities and events within these market areas, which further strengthens our relationships within these markets.

The Company focuses on diversifying revenues, expanding lending channels, and growing the banking franchise. Management remains focused on building diversified revenue streams based upon credit, interest rate, and concentration risks. Our business plan remains as follows:

Growing and diversifying our loan portfolio;

Maintaining and improving asset quality;

Emphasizing lower cost core deposits to reduce the costs of funding our loan growth;

Capturing our customers' full relationship by offering a wide range of products and services; and

Expanding our reach by leveraging our well-established involvement in our communities and by selectively emphasizing products and services designed to meet our customers' banking needs.

The Company is a diversified lender with a focus on the origination of indirect home improvement loans, also referred to as fixture secured loans, commercial real estate mortgage loans, home loans, commercial business loans, and second mortgage/home equity loan products. Consumer loans, in particular indirect home improvement loans to finance window replacement, gutter replacement, siding replacement, solar panels, and other improvement renovations, represent the largest portion of the loan portfolio and have traditionally been the mainstay of our lending strategy. At September 30, 2015, consumer loans represented 31.5% of the Company's total gross loan portfolio, down from 34.7% at December 31, 2014, as real estate loan originations have increased at a faster pace than consumer loan originations during the nine months ended September 30, 2015.

Indirect home improvement lending is dependent on the Bank's relationships with home improvement contractors and dealers. The Company funded \$15.9 million, or 1,100 loans during the quarter ended September 30, 2015, using its indirect home improvement contractor/dealer network located throughout Washington, Oregon, and California with four contractors/dealers responsible for 46.2% of the funded loans dollar volume. The Company began originating consumer indirect loans during the fourth quarter of 2012 in the State of California and since the program's inception

Table of Contents

has originated \$68.4 million. During the nine months ended September 30, 2015, the Company originated \$16.6 million of consumer loans in California, and at September 30, 2015, the Company had \$25.3 million of consumer indirect solar loans outstanding that were originated in California. Management has established a limit of no more than 20% of the total consumer loan portfolio for loans originated in California. At September 30, 2015, the limit was \$30.9 million.

The Company originates loans secured by first mortgages on one-to-four-family residences primarily in the market area served by the Company. The Company originates one-to-four-family residential mortgage loans through referrals from real estate agents, financial planners, builders, and from existing customers. Walk-in customers are also an important source of the Company's loan originations. The Company originated \$486.3 million of one-to-four-family mortgages year to date as of September 30, 2015, of which \$395.1 million were sold to investors. Of the loans sold to investors, \$257.5 million were sold to Fannie Mae, Freddie Mac, and/or Ginnie Mae with servicing rights retained for the purpose of developing these customer relationships. At September 30, 2015, one-to-four-family residential mortgage loans, excluding loans held for sale of \$53.3 million, totaled \$92.0 million, or 18.8%, of the total gross loan portfolio.

The Company generally underwrites the one-to-four-family loans based on the applicant's ability to repay. This includes employment and credit history and the appraised value of the subject property. The Company lends up to 100% of the lesser of the appraised value or purchase price for one-to-four-family first mortgage loans. For first mortgage loans with a loan-to-value ratio in excess of 80%, the Company generally requires either private mortgage insurance or government sponsored insurance in order to mitigate the higher risk level associated with higher loan-to-value loans. Fixed-rate loans secured by one-to-four-family residences have contractual maturities of up to 30 years and are generally fully amortizing, with payments due monthly. Adjustable-rate mortgage loans may pose different credit risks than fixed-rate loans, primarily because as interest rates increase, the borrower's payments rise, increasing the potential for default. Properties securing the one-to-four-family loans are appraised by independent fee appraisers who are selected in accordance with industry and regulatory standards. The Company requires borrowers to obtain title and hazard insurance, and flood insurance, if necessary. Loans are generally underwritten to the secondary market guidelines with additional requirements as determined by the internal underwriting department.

The Company is significantly affected by prevailing economic conditions, as well as government policies and regulations concerning, among other things, monetary and fiscal affairs. Deposit flows are influenced by a number of factors, including interest rates paid on time deposits, other investments, account maturities, and the overall level of personal income and savings. Lending activities are influenced by the demand for funds, the number and quality of lenders, and regional economic cycles. Sources of funds for lending activities include primarily deposits, including brokered deposits, borrowings, payments on loans and income provided from operations.

The Company's earnings are primarily dependent upon net interest income, the difference between interest income and interest expense. Interest income is a function of the balances of loans and investments outstanding during a given period and the yield earned on these loans and investments. Interest expense is a function of the amount of deposits and borrowings outstanding during the same period and interest rates paid on these deposits and borrowings. The Company's earnings are also affected by the provision for loan losses, service charges and fees, gains from sales of assets, operating expenses and income taxes.

Critical Accounting Policies and Estimates

Certain of the Company's accounting policies are important to the portrayal of the Company's financial condition, since they require management to make difficult, complex, or subjective judgments, some of which may relate to matters that are inherently uncertain. Estimates associated with these policies are susceptible to material changes as a result of changes in facts and circumstances. Facts and circumstances which could affect these judgments include, but are not limited to, changes in interest rates, changes in the performance of the economy and changes in the financial condition of borrowers. Management believes that its critical accounting policies include the following:

Allowance for Loan Loss. The allowance for loan losses is the amount estimated by management as necessary to cover probable losses inherent in the loan portfolio at the balance sheet date. The allowance is established through the provision for loan losses, which is charged to income. Determining the amount of the allowance for loan losses necessarily involves a high degree of judgment. Among the material estimates required to establish the allowance are: loss exposure at default; the amount and timing of future cash flows on impacted loans; value of collateral; and determination of loss factors to be applied to the various elements of the portfolio. All of these estimates are susceptible

Table of Contents

to significant change. Management reviews the level of the allowance at least quarterly and establishes the provision for loan losses based upon an evaluation of the portfolio, past loss experience, current economic conditions, and other factors related to the collectability of the loan portfolio. Although the Company believes it uses the best information available to establish the allowance for loan losses, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluation. As the Company adds new products to the loan portfolio and expands the Company's market area, management intends to enhance and adapt our methodology to keep pace with the size and complexity of the loan portfolio. Changes in any of the above factors could have a significant effect on the calculation of the allowance for loan losses in any given period. Management believes that its systematic methodology continues to be appropriate given our size and level of complexity.

Derivative and Hedging Activity. ASC 815, "Derivatives and Hedging," requires that derivatives of the Company be recorded in the consolidated financial statements at fair value. Management considers its accounting policy for derivatives to be a critical accounting policy because these instruments have certain interest rate risk characteristics that change in value based upon changes in the capital markets. The Company's derivatives are primarily the result of its mortgage banking activities in the form of commitments to extend credit, commitments to sell loans, TBA MBS trades and option contracts to mitigate the risk of the commitments to extend credit. Estimates of the percentage of commitments to extend credit on loans to be held for sale that may not fund are based upon historical data and current market trends. The fair value adjustments of the derivatives are recorded in the Consolidated Statements of Income with offsets to other assets or other liabilities in the Consolidated Balance Sheets.

Income Taxes. Income taxes are reflected in the Company's consolidated financial statements to show the tax effects of the operations and transactions reported in the financial statements and consist of taxes currently payable plus deferred taxes. Accounting Standards Codification, ASC 740, "Accounting for Income Taxes," requires the asset and liability approach for financial accounting and reporting for deferred income taxes. Deferred tax assets and liabilities result from differences between the financial statement carrying amounts and the tax bases of assets and liabilities. They are reflected at currently enacted income tax rates applicable to the period in which the deferred tax assets or liabilities are expected to be realized or settled and are determined using the assets and liability method of accounting. The deferred income provision represents the difference between net deferred tax asset/liability at the beginning and end of the reported period. In formulating the deferred tax asset, the Company is required to estimate the income and taxes in the jurisdiction in which it operates. This process involves estimating actual current tax exposure for the reported period together with assessing temporary differences resulting from differing treatment of items, such as depreciation and the provision for loan losses, for tax and financial reporting purposes.

Deferred tax assets are attributable to deductible temporary differences and carryforwards. After the deferred tax asset has been measured using the applicable enacted tax rate and provisions of the enacted tax law, it is then necessary to assess the need for a valuation allowance. A valuation allowance is needed when, based on the weight of the available evidence, it is more likely than not that some portion of the deferred tax asset will not be realized. Management determined there was no valuation allowance necessary at September 30, 2015 and December 31, 2014.

Comparison of Financial Condition at September 30, 2015 and December 31, 2014

Assets. Total assets increased \$132.2 million, or 25.9%, to \$642.0 million at September 30, 2015, from \$509.8 million at December 31, 2014, primarily as a result of a \$95.4 million, or 24.6% increase in net loans receivable, a \$27.4 million, or 105.3% increase in loans held for sale, a \$6.6 million, or 146.1% increase in certificates of deposit at other financial institutions, a \$4.9 million, or 10.1% increase in securities available-for-sale, a \$3.1 million, or 48.0% increase in bank owned life insurance, a \$2.2 million, or 70.7% increase in servicing rights, and a \$1.3 million, or 80.1% increase in FHLB stock, at cost, partially offset by a \$10.1 million, or 65.1% decrease in cash and cash

equivalents. The increase in assets was funded by increases in deposits and borrowings.

Loans receivable, net increased \$95.4 million, or 24.6%, to \$482.6 million at September 30, 2015, from \$387.2 million at December 31, 2014. The increase in loans receivable, net was primarily a result of a \$72.9 million increase in total real estate loans, including increases in one-to-four-family, construction and development, and multi-family real estate loans, a \$17.7 million increase in consumer loans, and a \$5.9 million increase in commercial business loans. The increase in one-to-four-family loans includes the acquisition of \$16.1 million in adjustable rate one-to-four-family, non-owner occupied loans secured by properties located in the Puget Sound market.

Table of Contents

Loans held for sale, consisting of one-to-four-family loans, increased by \$27.3 million, or 105.3%, to \$53.3 million at September 30, 2015, from \$26.0 million at December 31, 2014 due to increased loan originations and the timing difference between loan fundings and loan sale settlements. The Company continues to expand its home lending operations by hiring additional lending staff and will continue selling one-to-four-family mortgage loans into the secondary market for asset/liability management purposes. During the quarter ended September 30, 2015, the Company sold \$137.5 million of one-to-four-family mortgage loans to investors, compared to sales of \$74.4 million for the quarter ended September 30, 2014.

One-to-four-family originations of loans held for sale, including loans brokered to other institutions, increased 103.7% to \$165.4 million during the three months ended September 30, 2015, compared to \$81.2 million for the three months ended September 30, 2014. The year over year increase in originations was as a result of key production staff hired in the third and fourth quarters of 2014 and continued favorable market interest rates.

The allowance for loan losses at September 30, 2015 was \$7.4 million, or 1.5% of gross loans receivable, compared to \$6.1 million, or 1.5% of gross loans receivable, at December 31, 2014. Substandard loans increased \$595,000, or 27.0%, to \$2.8 million at September 30, 2015, compared to \$2.2 million at December 31, 2014, primarily due to one commercial business loan of \$2.0 million downgraded as a result of the financial performance of the borrower. Non-performing loans, consisting of non-accruing loans, increased \$408,000, or 94.2%, to \$841,000 at September 30, 2015, from \$433,000 at December 31, 2014. At September 30, 2015, non-performing loans consisted of \$525,000 of one-to-four-family loans, \$257,000 of indirect fixture loans, \$49,000 of home equity loans, and \$10,000 in other consumer loans. Non-performing loans to total gross loans increased to 0.2% at September 30, 2015, compared to 0.1% at December 31, 2014. The Company had no OREO at September 30, 2015 or at December 31, 2014. At September 30, 2015, the Company had \$736,000 in TDRs, one TDR on non-accrual status with a balance of \$525,000, and the remaining TDR loans totaling \$211,000 performing in accordance with their modified terms, compared to \$783,000 in TDRs at December 31, 2014, of which all were performing in accordance with their modified payment terms.

Liabilities. Total liabilities increased \$124.8 million, or 28.1%, to \$568.7 million at September 30, 2015, from \$443.9 million at December 31, 2014. Deposits increased \$79.5 million, or 18.9%, to \$499.9 million at September 30, 2015, from \$420.4 million at December 31, 2014. Relationship-based transactional accounts (noninterest-bearing checking, interest-bearing checking, and escrow accounts) increased \$16.9 million, or 19.6%, to \$103.2 million as of September 30, 2015, from \$86.3 million at December 31, 2014. Money market and savings accounts increased \$21.9 million, or 12.6%, to \$196.1 million at September 30, 2015, from \$174.2 million at December 31, 2014. Time deposits increased \$40.5 million, or 25.4%, to \$200.5 million at September 30, 2015, from \$160.0 million at December 31, 2014. Non-retail deposits which include \$30.5 million of brokered certificates of deposit, \$21.0 million of online certificates of deposit, and \$1.7 million of public funds, increased to \$53.2 million as of September 30, 2015, compared to \$36.4 million at December 31, 2014. The Company continues its focus on relationship deposit growth with new and existing customers as the primary source of funds for loan growth. The proposed acquisition of four retail banking branches (two in Jefferson County and two in Clallam County) is expected to provide immediate core deposit liquidity and expand the Bank's footprint into a contiguous market. The branch acquisition is expected to close in the first quarter of 2016, subject to regulatory approval and other closing conditions.

Total borrowings, which consisted of FHLB advances and FHLB Fed Funds, increased \$42.3 million, or 247.9%, to \$59.3 million at September 30, 2015, from \$17.0 million at December 31, 2014. The increase in borrowings was primarily due to match funding loan growth through similar duration borrowings to manage interest rate risk.

Stockholders' Equity. Total stockholders' equity increased \$7.4 million, or 11.2%, to \$73.2 million at September 30, 2015, from \$65.8 million at December 31, 2014. The increase in stockholders' equity was primarily a result of net

income of \$6.9 million, and a \$117,000 increase in other comprehensive income as unrealized gains in our investment portfolio increased reflecting lower market rates, partially offset by \$611,000 of dividends paid for the nine months ended September 30, 2015. Book value per common diluted shares outstanding was \$24.54 at September 30, 2015, compared to \$22.48 at December 31, 2014.

Table of Contents

Comparison of Results of Operations for the Three and Nine Months Ended September 30, 2015 and 2014

General. Net income for the three months ended September 30, 2015, increased \$849,000, or 74.1%, to \$2.0 million, from \$1.1 million for the three months ended September 30, 2014. The increase in net income was primarily a result of a \$2.0 million, or 83.6% increase in noninterest income, and a \$1.5 million, or 22.1% increase in interest income, partially offset by a \$1.8 million, or 28.9% increase in noninterest expense, a \$522,000, or 92.6% increase in the provision for income tax expense and a \$171,000, or 22.8% increase in interest expense.

Net income for the nine months ended September 30, 2015, increased \$3.9 million, or 128.1%, to \$6.9 million, from \$3.0 million for the nine months ended September 30, 2014. The increase in net income was primarily attributable to a \$6.8 million, or 99.1% increase in noninterest income, and a \$5.0 million, or 27.6% increase in interest income, partially offset by a \$4.7 million, or 27.8% increase in noninterest expense, a \$2.2 million, or 144.5% increase in the provision for income tax expense, and a \$605,000, or 30.0% increase in interest expense.

The following table sets forth the average balances of all major categories of interest-earning assets and interest-bearing liabilities to calculate the comparison of results of operations for the three and nine months ended September 30, 2015 and 2014:

Average Balances	For the Three Months Ended		For the Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Assets				
Loans receivable ⁽¹⁾	\$501,852	\$378,293	\$471,333	\$334,904
Securities available-for-sale, at fair value	50,518	53,791	47,416	62,396
Interest-bearing deposits and certificates of deposit at other financial institutions	17,060	7,425	17,000	19,677
Total interest-earning assets	569,430	439,509	535,749	416,977
Noninterest-earning assets	26,847	20,684	26,064	21,433
Total assets	\$596,277	\$460,193	\$561,813	\$438,410
Liabilities and Stockholders' Equity				
Interest-bearing deposits	\$417,798	\$312,125	\$392,141	\$300,878
Borrowings	28,232	30,804	29,105	22,843
Total interest-bearing liabilities	446,030	342,929	421,246	323,721
Noninterest-bearing deposits	71,815	50,558	65,029	48,244
Other noninterest-bearing liabilities	7,620	3,920	7,011	3,678
Stockholders' equity	70,812	62,786	68,527	62,767
Total liabilities and stockholders' equity	\$596,277	\$460,193	\$561,813	\$438,410

(1) Includes loans held for sale

Net Interest Income. Net interest income increased \$1.3 million, or 22.0%, to \$7.1 million for the three months ended September 30, 2015, from \$5.8 million for the three months ended September 30, 2014. The increase in net interest income was attributable to a \$1.4 million, or 21.9% increase in loans receivable interest income primarily due to an increase in the average loans receivable balance, a \$65,000, or 24.6% increase in interest and dividends on investment securities, cash and cash equivalents, and certificates of deposit at other financial institutions, partially offset by a \$171,000, or 22.8% increase in interest expense, primarily due to increases in the average balances of interest-bearing deposits as compared to the same period last year.

Net interest income increased \$4.4 million, or 27.3%, to \$20.3 million for the nine months ended September 30, 2015, from \$15.9 million for the nine months ended September 30, 2014. The increase in net interest income was primarily attributable to a \$5.0 million, or 29.6% increase in loan receivable interest income, partially offset by a \$605,000, or 30.0% increase in interest expense as a result of increases in the average balances of interest-bearing deposits and

Table of Contents

borrowings, and a \$76,000, or 8.0% decrease in interest and dividends on investment securities, cash and cash equivalents, and certificates of deposit at other financial institutions, compared to the same period last year.

The net interest margin ("NIM") decreased 31 basis points to 4.97% for the three months ended September 30, 2015, from 5.28% for the three months ended September 30, 2014, and decreased five basis points to 5.06% for the nine months ended September 30, 2015, from 5.11% for the same period of the prior year. The decrease reflects an increase in lower yielding loan types, including recently acquired one-to-four-family loans. Our strategy to increase the loan portfolio through diversified lending channels has pressured the NIM as the increase in lower yielding real estate and commercial business loans has offset the increase in higher yielding consumer loan products. As a percentage, consumer loans to total loans were 31.5% at September 30, 2015, compared to 35.8% at September 30, 2014. The average cost of funds decreased five basis point to 0.71% for the three months ended September 30, 2015, from 0.76% for the three months ended September 30, 2014, and remained unchanged at 0.72% for the nine months ended September 30, 2015 and 2014. Management is focused on matching deposit duration with the duration of earning assets where appropriate.

Interest Income. Interest income for the three months ended September 30, 2015, increased \$1.5 million, or 22.1%, to \$8.1 million, from \$6.6 million for the three months ended September 30, 2014. The increase during the period was primarily attributable to the increase in the average balance of loans receivable to \$501.9 million for the three months ended September 30, 2015, compared to \$378.3 million for the three months ended September 30, 2014. The average yield on interest-earning assets decreased 35 basis points to 5.61% for the three months ended September 30, 2015, compared to 5.96% for the three months ended September 30, 2014.

Interest income for the nine months ended September 30, 2015, increased \$5.0 million, or 27.6%, to \$22.9 million, from \$18.0 million for the nine months ended September 30, 2014. The increase during the period was primarily attributable to the increase in the average balance of loans receivable to \$471.3 million for the nine months ended September 30, 2015, compared to \$334.9 million for the nine months ended September 30, 2014. The average yield on interest-earning assets decreased four basis points to 5.72% for the nine months ended September 30, 2015, compared to 5.76% for the nine months ended September 30, 2014.

Interest Expense. Interest expense increased \$171,000, or 22.8%, to \$922,000 for the three months ended September 30, 2015, from \$751,000 for the same period of the prior year. The increase during the period was primarily attributable to the \$105.7 million, or 33.9% increase in the average balance of interest-bearing deposits to \$417.8 million for the quarter ended September 30, 2015, from \$312.1 million for the quarter ended September 30, 2014. The average cost of deposits increased four basis point to 0.86% for the three months ended September 30, 2015, compared to 0.82% for the three months ended September 30, 2014.

Interest expense increased \$605,000, or 30.0%, to \$2.6 million for the nine months ended September 30, 2015, from \$2.0 million for the same period of the prior year as a result of increases in the average balances of interest-bearing deposits and borrowings. The average balance of interest-bearing deposits increased \$91.3 million or 30.3% to \$392.1 million for the nine months ended September 30, 2015, while the average balance of borrowings increased \$6.3 million or 27.4% to \$29.1 million as compared to the same period last year. As a result of minimal changes in interest rates year over year, the average cost of funds for total interest-bearing liabilities remained unchanged at 0.72% for the nine months ended September 30, 2015 and 2014.

Provision for Loan Losses. The provision for loan losses was \$600,000 for the three months ended September 30, 2015, compared to \$450,000 for the three months ended September 30, 2014. The \$150,000 increase in the provision during the current quarter over the comparable quarter last year is due to the significant increases in real estate loans, specifically, one-to-four-family, construction and development, and multi-family loans, as well as an increase in

consumer loans compared to the same quarter one year ago. During the three months ended September 30, 2015, net charge-offs totaled \$139,000, compared to \$186,000 during the same period last year.

The provision for loan losses was \$1.8 million for the nine months ended September 30, 2015, compared to \$1.4 million for the nine months ended September 30, 2014. The \$450,000 increase in the provision during the current nine months over the comparable period last year is due to the significant increases in real estate loans, primarily in one-to-four-family, construction and development, and multi-family, as well as in consumer loans. Substandard loans increased \$1.5 million, or 111.7%, to \$2.8 million at September 30, 2015, compared to \$1.3 million at September 30, 2014. The increase from one year ago was primarily associated with the downgrade of one \$2.0 million commercial business loan

Table of Contents

as a result of the financial performance of the borrower. During the nine months ended September 30, 2015, net charge-offs totaled \$502,000, compared to \$630,000 during the same period last year.

Noninterest Income. Noninterest income increased \$2.0 million, or 83.6%, to \$4.4 million for the three months ended September 30, 2015, from \$2.4 million for the three months ended September 30, 2014. The increase during the period was primarily due to an increase of \$1.8 million in gain on sale of loans to investors. One-to-four-family originations of loans held for sale, including loans brokered to other institutions, increased 103.7% to \$165.4 million during the quarter ended September 30, 2015, compared to \$81.2 million for the same quarter one year ago. The increase in originations was attributed to continued low rates and new loan production employees hired in the second half of 2014. Purchase production increased by \$58.1 million, or 78.9% with \$131.7 million in closed purchase loans for the three months ended September 30, 2015, up from \$73.6 million for the three months ended September 30, 2014. Refinances increased by \$15.3 million, or 83.6%, to \$33.6 million for the three months ended September 30, 2015, from \$18.3 million for the same period last year. The percentage of one-to-four-family mortgage loan originations for home purchases was 79.7% of third quarter volume versus 20.3% of third quarter volume for refinance activity. This compares to 80.1% of third quarter volume to purchase a home versus 19.9% to refinance their home in the third quarter of 2014.

Noninterest income increased \$6.8 million, or 99.1%, to \$13.7 million for the nine months ended September 30, 2015, from \$6.9 million for the nine months ended September 30, 2014. The increase during the period was primarily due to an increase of \$6.5 million in gain on sale of loans to investors, as well as a \$151,000 increase in service charges and fee income reflecting our deposit growth, and a \$146,000 increase in earnings on cash surrender value of BOLI.

Noninterest Expense. Noninterest expense increased \$1.7 million, or 28.9% to \$7.8 million for the three months ended September 30, 2015, from \$6.1 million for the three months ended September 30, 2014. Noninterest expense increased during the three months ended September 30, 2015, primarily due to a \$738,000, or 20.7% increase in salaries and benefits associated with the continued investment in growing the lending and deposit franchise primarily as a result of the hiring of additional employees in mortgage-related lending, a \$432,000, or 100.0% increase in acquisition costs, a \$186,000, or 20.0% increase in operations, a \$162,000, or 51.1% increase in professional and board fees, a \$77,000, or 18.3% increase in occupancy expense, and a \$63,000, or 19.9% increase in loan costs as compared to the same quarter last year.

Expenses related to our proposed branch acquisition were \$432,000 during the three months ended September 30, 2015, and are expected to continue through the first quarter of 2016.

Noninterest expense increased \$4.7 million, or 27.8% to \$21.7 million for the nine months ended September 30, 2015, from \$17.0 million for the nine months ended September 30, 2014. The increase in noninterest expense during the nine months ended September 30, 2015 included a \$2.5 million, or 25.6% increase in salaries and benefits, an \$806,000, or 33.5% increase in operations, a \$432,000, or 100.0% increase in acquisition costs, a \$349,000, or 38.0% increase in professional and board fees, a \$214,000, or 23.3% increase in data processing, a \$167,000, or 13.7% increase in occupancy expense, a \$117,000, or 11.6% increase in loan costs, and an \$87,000, or 23.5% increase in marketing and advertising expense as compared to the same period last year.

The efficiency ratio, which is noninterest expense as a percentage of net interest income and noninterest income, improved to 68.0% for the three months ended September 30, 2015, compared to 73.8% for the three months ended September 30, 2014, and improved to 63.8% for the nine months ended September 30, 2015, compared to 74.4% for the nine months ended September 30, 2014, primarily as a result of a greater increase in noninterest income, compared to smaller increases in noninterest expense and net interest income for both periods.

Provision for Income Tax. For the nine months ended September 30, 2015, the Company recorded a provision for income tax expense of \$3.7 million on pre-tax income as compared to \$1.5 million for the nine months ended September 30, 2014. The effective tax rate for the nine months ended September 30, 2015 and 2014 was 34.8% and 33.2%, respectively.

Liquidity

Management maintains a liquidity position that it believes will adequately provide funding for loan demand and deposit runoff that may occur in the normal course of business. The Company relies on a number of different sources in order

Table of Contents

to meet its potential liquidity demands. The primary sources are increases in deposit accounts, FHLB advances, purchases of Fed Funds, sale of securities available-for-sale, cash flows from loan payments, sales of one-to-four-family loans held for sale, and maturing securities.

At September 30, 2015, the Bank's total borrowing capacity was \$125.6 million with the FHLB of Des Moines, with unused borrowing capacity of \$66.3 million. The FHLB borrowing limit is based on certain categories of loans, primarily real estate loans that qualify as collateral for FHLB advances. At September 30, 2015, the Bank held approximately \$178.0 million in loans that qualify as collateral for FHLB advances. In addition to the availability of liquidity from the FHLB of Des Moines, the Bank maintained a short-term borrowing line with the Federal Reserve Bank, with a current limit of \$78.0 million, and a combined credit limit of \$40.0 million in written Fed Funds lines of credit through correspondent banking relationships as of September 30, 2015. The Federal Reserve Bank borrowing limit is based on certain categories of loans, primarily consumer loans that qualify as collateral for Federal Reserve Bank line of credit. At September 30, 2015, the Bank held approximately \$191.0 million in loans that qualify as collateral for the Federal Reserve Bank line of credit.

At September 30, 2015, \$59.3 million in FHLB advances and FHLB Fed Funds were outstanding, and no advances were outstanding against the Federal Reserve Bank line of credit, and Fed Funds lines of credit. The Bank's Asset Liability Management Policy permits management to utilize brokered deposits up to 20% of deposits or \$100.0 million as of September 30, 2015. Total brokered deposits as of September 30, 2015 were \$30.5 million. Management utilizes brokered deposits to mitigate interest rate risk exposure where appropriate.

Liquidity management is both a daily and long-term function of Company management. Excess liquidity is generally invested in short-term investments, such as overnight deposits and Fed Funds. On a longer-term basis, a strategy is maintained of investing in various lending products and investment securities, including U.S. Government obligations and federal agency securities. The Company uses sources of funds primarily to meet ongoing commitments, pay maturing deposits and fund withdrawals, and to fund loan commitments. At September 30, 2015, the approved outstanding loan commitments, including unused lines of credit amounted to \$235.3 million. Certificates of deposit scheduled to mature in three months or less at September 30, 2015, totaled \$16.1 million. It is management's policy to offer deposit rates that are competitive with other local financial institutions. Based on this management strategy, the Company believes that a majority of maturing deposits will remain with the Bank.

As a separate legal entity from the Bank, FS Bancorp, Inc. must provide for its own liquidity. Sources of capital and liquidity for the FS Bancorp, Inc. include distributions from the Bank and the issuance of debt or equity securities. Dividends and other capital distributions from the Bank are subject to regulatory notice. At September 30, 2015, FS Bancorp, Inc. had \$218,000 in cash to meet liquidity needs.

Subsequent to September 30, 2015, FS Bancorp issued a \$10.0 million subordinated note. The Company intends to use the net proceeds from the issuance of the subordinated note of \$9.8 million to fund general working capital and operating expenses.

For additional information see the Consolidated Statements of Cash Flows and Note 16-Recent Developments in Part I. Item 1 of this report.

Commitments and Off-Balance Sheet Arrangements

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business in order to meet the financing needs of its customers. For information regarding our commitments and off-balance sheet arrangements, see Note 9 of the Notes to Consolidated Financial Statements included in Part I. Item 1 of this report.

Capital Resources

The Bank is subject to minimum capital requirements imposed by the FDIC. Based on its capital levels at September 30, 2015, the Bank exceeded these requirements as of that date. Consistent with our goals to operate a sound and profitable organization, our policy is for the Bank to maintain a “well capitalized” status under the capital categories of the FDIC. Based on capital levels at September 30, 2015, the Bank was considered to be "well capitalized". At September 30, 2015, the Bank exceeded all regulatory capital requirements with Tier 1 leverage-based capital, Tier 1

Table of Contents

risk-based capital, total risk-based capital, and CET1 capital ratios of 11.4%, 12.6%, 13.9%, and 12.6%, respectively. For additional information regarding the Bank's regulatory capital compliance, see the discussion included in Note 11 to the Notes to Consolidated Financial Statements included in Part I. Item 1 of this report.

For a bank holding company with less than \$1 billion in consolidated assets, such as FS Bancorp, Inc., the capital guidelines apply on a bank only basis and the Federal Reserve requires the holding company's subsidiary banks to be well capitalized under the prompt corrective action regulations. If FS Bancorp, Inc. was subject to regulatory guidelines for bank holding companies with \$1 billion or more in assets, at September 30, 2015, FS Bancorp, Inc. would have exceeded all regulatory capital requirements.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Not required for smaller reporting companies.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

An evaluation of the disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934 (the "Act")) as of September 30, 2015 was carried out under the supervision and with the participation of the Company's Chief Executive Officer, Chief Financial Officer and several other members of the Company's senior management. The Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures in effect as of September 30, 2015 were effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Act is: (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and Chief Financial Officer) in a timely manner and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

(b) Changes in Internal Controls.

There have been no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) of the Act) that occurred during the three months ended September 30, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The Company does not expect that its disclosure controls and procedures and internal control over financial reporting will prevent all error and all fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls may be circumvented by the individual acts of some persons, by collusion of two or more people, or by override of the control. The design of any control procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In the normal course of business, the Company occasionally becomes involved in various legal proceedings. In the opinion of management, any liability from such proceedings would not have a material adverse effect on the business or financial condition of the Company.
