(1) Operating profit and net income for the first half Fiscal 2005 include a provision for 60 million euro (40 million euro after tax) corresponding to the estimated charge at the time of the settlement of this litigation.

(2) For the first time in three years, the translation of the U.S. dollar into euro resulted in a favorable exchange rate impact on the consolidated income statement.

PRESS RELEASE...

Organic revenue growth of 5.5%

Organic revenue growth for the first half of fiscal 2006 was solid in all activities, particularly in the Healthcare and Seniors segment (+8.2%) in Food and Management Services and also in Service Vouchers & Cards (+16.8%) .

Revenues for the first half of fiscal 2006 were reported on April 5, 2006, and the related press release is available on the Group's website : www.sodexo.com

Operating profit: +11.4% excluding currency impact

In Service Vouchers & Cards, operating profit was 53 million euro, a particularly strong improvement (+43.5%) (1) resulting from very positive business development, notably in Latin America.

Food and Management Services⁽¹⁾:

In **North America**, operating profit was 152 million euro, an increase of 7.8%. This results notably from improved performance both from volume growth and on- site productivity in the Healthcare and Seniors and Education segments.

The modest improvement in operating profit (+1.5%) in **Continental Europe** to 103 million euro resulted primarily from:

- the impact of start-up expenses of certain significant new contracts signed last year in France and,
- continuing client headcount decreases, most particularly in Northern Europe.

In the **United Kingdom and Ireland**, operating profit was 17 million euro and in line with the Group's recovery strategy. This represents a significant improvement over the comparable period in Fiscal 2005.

In the **Rest of the World** (Latin America, Asia, Oceania and Remote Sites), operating profit was 11 million euro. This performance reflects both the scheduled completion of certain infrastructure development contracts in the Remote Sites activity in Australia and slightly decreased activity levels in the Gulf of Mexico following the hurricanes at the beginning of the fiscal year.

Group net income

Group net income rose by 70.9% or 62.5% at constant currency during the first half of Fiscal 2006. First half Fiscal 2005 net income included a 40 million euro (net of taxes) charge for resolution of the U.S. litigation. After adjusting the prior comparable base for this effect, Group net income increased 20%, or 11.6% at constant currency.

Financial situation

At February 28, 2006, net debt amounted to 683 million euro, representing 31% of Group shareholders' equity.

(1) Comparisons with the prior year are at constant currency and excluding settlement of the U.S. litigation.
