(1) Information about other selling securityholders may be provided in prospectus supplements or post-effective amendments.

(2) In each case, none of these securities were held prior to this offering.

(3) Based on the principal amount of convertible subordinated debentures originally issuable in exchange for the preferred stock, calculated by reference to the initial liquidation preference of the preferred stock of \$1,000.00 per share. The principal amount is subject to increase as a result of increases in the liquidation preference of the preferred stock to reflect the accretion of unpaid dividends. See "Description of Preferred Stock -- Exchange Right" in the accompanying prospectus.

Edgar Filing: LUCENT TECHNOLOGIES INC - Form 424B3

- (4) Based on the shares of common stock originally issuable upon exercise of the conversion privilege attached to the preferred stock or the convertible subordinated debentures with fractions rounded up to the nearest whole share. The number of shares of common stock so issuable is subject to increase as a result of antidilution adjustments and, in the case of conversion of the preferred stock, increases in the liquidation preference of the preferred stock to reflect the accretion of unpaid dividends. No fractional shares of common stock will be issued upon conversion of the preferred stock. Instead of issuing fractional shares, we will deliver scrip that will entitle the holder to receive a full share upon surrender of such scrip aggregating a full share. See "Description of Preferred Stock -- Conversion

Rights" and Description of the Convertible Subordinated Debentures -- Conversion," in the accompanying prospectus.

- (5) The number of securities listed in this prospectus supplement against the name of this selling securityholder is in addition to the number of securities listed against the name of this selling securityholder in the accompanying prospectus.
