Proxy Statement

Beginning March 27, 2003, this proxy statement is being sent to shareholders who were shareholders of record as of March 21, 2003, as part of the Board of Directors' solicitation of proxies for ITT Industries' 2003 Annual Meeting.

Information about Voting

Why the Board solicits proxies from shareholders. In order to vote your shares, you must appoint a proxy to vote on your behalf, or attend the annual meeting and vote in person. Because it would be impossible for all shareholders to attend the meeting in person, the Board of Directors recommends that you appoint the two people named on the accompanying proxy form to act as your proxies at the 2003 Annual Meeting.

If you appoint the proxies, they will vote your shares in accordance with your voting instructions. If you appoint the proxies but do not provide voting instructions, they will vote as recommended by the Board of Directors. The proposals to be voted on and the Board's voting recommendations are described on the following pages 4 through 18. If any other matters not described in this proxy statement are properly brought before the meeting for a vote, the proxies will use their discretion in deciding how to vote on those matters.

This proxy statement and ITT Industries' 2002 Annual Report to Shareholders (which has been mailed to shareholders eligible to vote at the 2003 annual meeting) contain information that the Board of Directors believes offers an informed view of the Company and meets the regulations of the Securities and Exchange Commission for proxy solicitations.

Proxy voting procedures. You may vote in any one of the following ways:

By the Internet, if you have Internet access. To vote by the Internet, follow the Internet voting instructions on the proxy form that is enclosed with this proxy statement.

By telephone, if you call from the United States. To vote by telephone, follow the telephone voting instructions on the proxy form.

By mail. To vote by mail, mark your voting instructions on the proxy form, sign the form, and return it in the enclosed envelope. If you do that, the proxies who are named on the proxy form will vote your shares as you have instructed them to do. If you wish, you may simply sign and return the proxy form without specifying how you want your shares to be voted. If you return the proxy without specifying how you want your shares voted, you are giving discretionary authority to the proxies to vote your shares as recommended by the Board of Directors for election of the ten nominees for Director, for ratification of the appointment of the Company's independent auditors for 2003, for approval of the ITT Industries, Inc. 2003 Equity Incentive Plan and with respect to such other matters as may properly come before the meeting.

Counsel has advised the Company that the Internet and telephone voting procedures meet legal requirements for proxy voting.

Table of Contents

Discretionary voting by proxies. There are three formal items scheduled to be voted upon at the annual meeting: election of Directors, ratification of the appointment of the independent auditors, and approval of the ITT Industries, Inc. 2003 Equity Incentive Plan. The Board of Directors did not receive any notice during the advance notice period that ended November 27, 2002 that any other matter might be presented for a vote at the 2003 Annual Meeting. However, if another matter were to be properly presented, the proxies would use their discretion in deciding whether to vote for or against it.

Revoking your proxy. You may revoke your proxy at any time before it is voted by granting a new proxy or by voting in person at the 2003 Annual Meeting.

Shares outstanding. As of the March 21, 2003 record date for the 2003 Annual Meeting, 91,853,309 shares of the Company's common stock were outstanding. Each of those outstanding shares is entitled to one vote on each matter to be voted on at the 2003 Annual Meeting.

Quorum. In order for business to be conducted at the 2003 Annual Meeting, there must be a quorum. If the holders of a majority of ITT Industries' outstanding shares, as of the record date, are present in person or represented by proxies at the meeting, there will be a quorum.

Votes required to elect Directors or approve a proposal. Indiana law, the law of the state in which ITT Industries is incorporated, provides that directors are elected by a plurality of the votes cast. This means that the ten nominees who receive the highest number of votes will be elected as the Directors of ITT Industries. Approval of the 2003 Equity Incentive Plan requires, for purposes of the New York Stock Exchange (the "NYSE") and the Internal Revenue Code, as applicable, the affirmative vote of a majority of the votes cast, provided that the total votes cast represent over 50 percent in interest of all securities entitled to vote on the plan. Each of the other matters to be voted on at the 2003 Annual Meeting, including the ratification of the appointment of auditors, will be approved if the number of shares voted in favor of it is greater than the number of shares voted against it.

Abstentions and broker non-votes. Indiana law provides that abstentions and broker non-votes will be counted in order to determine whether there is a quorum; however, they will not be counted as votes for or against any matter. Therefore abstentions and broker non-votes will have no impact on the election of directors or ratification of the appointment of auditors. For NYSE purposes, abstentions will have the effect of a vote against the ITT Industries, Inc. 2003 Equity Incentive Plan and broker non-votes will have no effect, except to the extent they impact whether the 50 percent test has been satisfied. For the purpose of determining whether the number of votes cast represents more than 50 percent of the shares of common stock entitled to vote, abstentions will count as votes cast and broker non-votes will not count as votes cast.

Voting by employee participants in ITT Industries' savings plans. If you participate in any of ITT Industries' savings plans for salaried or hourly employees, your plan trustee will vote the ITT Industries shares credited to

Table of Contents

your savings plan account in accordance with your voting instructions. The trustee votes the shares on your behalf because you are the beneficial owner, not the record owner, of the shares credited to your account. The trustees will vote the savings plan shares for which they do not receive voting instructions in the same proportion as the shares for which they received voting instructions.

If you are a participant in the ITT Industries Investment and Savings Plan for Salaried Employees and also are a record owner of ITT Industries common stock, you will receive one proxy form that reflects your savings plan shares and the other shares you own, including any shares held in the Direct Purchase, Sale & Dividend Reinvestment Plan for ITT Industries, Inc. The number of savings plan and other shares that you own will be set out separately on the proxy form.

Number of ITT Industries shares held by participants in the Company's employee savings plans. As of March 21, 2003, Deutsche Bank Trust Company Americas held 8,918,708 shares of ITT Industries common stock (approximately 9.7% of the outstanding shares) as trustee of the salaried employees savings plan, and Northern Trust Company, Inc. held 484,475 shares (approximately .53% of the outstanding shares) as trustee for the hourly employees savings plans.

Inspectors of Election and confidential voting. Representatives of IVS Associates, Inc. will act as the Inspectors of Election for the 2003 Annual Meeting. They will monitor the voting and certify whether the votes of shareholders are being kept in confidence in compliance with ITT Industries confidential voting policy.

Cost of the solicitation. ITT Industries has appointed Georgeson & Company Inc. to assist with the solicitation of proxies from its registered owners for a fee of \$20,000 plus expenses. ITT Industries also will reimburse brokers, nominees, custodians and fiduciaries for their costs of sending the proxy materials to the beneficial owners. Directors, officers or other regular employees of ITT Industries also may solicit proxies from shareholders in person, or by telephone, facsimile transmission or other electronic means of communication.

Shareholder proposals for the 2004 Annual Meeting. Rule 14a-8 of the Securities and Exchange Commission establishes the eligibility requirements and the procedures that must be followed for a shareholder's proposal to be included in a public company's proxy materials. Under the rule, if a shareholder wishes to include a proposal in ITT Industries proxy materials for its next annual meeting, those eligibility requirements and procedures must be complied with and the proposal must be received by ITT Industries at its principal executive offices on or before November 28, 2003. An ITT Industries shareholder who wishes to present a matter for action at ITT Industries next annual meeting, but chooses not to do so under SEC Rule 14a-8, must deliver to ITT Industries, at its principal executive offices, on or before November 28, 2003 a written notice to that effect. In either case, as well as for shareholder nominations for Directors, the shareholder must also comply with the

Table of Contents

requirements in the Company's By-laws with respect to a shareholder properly bringing business before the annual meeting. A copy of the By-laws may be obtained from the Secretary of ITT Industries.

Proposals to be voted on at the 2003 Annual Meeting

A. Election of Directors

The Board of Directors has nominated ten individuals for election as Directors at the 2003 Annual Meeting. Each of the nominees is currently serving as a Director of ITT Industries and has agreed to continue to serve if elected. If unforeseen circumstances arise before the annual meeting and a nominee becomes unable to serve, the Board of Directors could reduce the size of the Board or nominate someone else for election. If the Board nominates someone else, the proxies could use their discretion to vote for that other person. Each Director elected at the 2003 Annual Meeting will be elected to serve as a Director until ITT Industries' next annual meeting.

B. Ratification of Appointment of the Independent Auditors

Subject to shareholders ratification, the Board of Directors has appointed Deloitte & Touche LLP as ITT Industries independent auditors (the Independent Auditor) for 2003.

Representatives of Deloitte & Touche LLP attended all meetings of the Audit Committee after engagement as Independent Auditors in April of 2002. The Audit Committee reviewed the non-audit services provided by Deloitte & Touche LLP to ITT Industries in 2002. Based on that review, the Audit Committee determined that the provision of certain non-audit services was compatible with the provision of independent auditor services.

Representatives of the Independent Auditor will be present at the Annual Meeting to answer questions. They also will have the opportunity to make a statement if they desire to do so.

Independent Auditor Fees

Aggregate fees billed to the company for the fiscal year ended December 31, 2002 represent fees billed by the Company's independent auditor, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates (collectively, Deloitte & Touche). Aggregate fees billed

Change in Independent Auditor

In April 2002, the Company engaged Deloitte & Touche LLP to serve as ITT's independent auditor for 2002. Prior to that date, Arthur Andersen LLP (Andersen) had served as the Company's independent public accountants.

The reports by Andersen on the Company's consolidated financial statements for the past two years did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles. Andersen's report on ITT's consolidated financial statements for 2001 was issued on an unqualified basis in conjunction with the publication of ITT's 2001 Annual Report to Shareowners and the filing of ITT's Annual Report on Form 10-K.

During the Company's two most recent fiscal years, and through the date of the change, there were no disagreements with Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures which, if not resolved to Andersen's satisfaction, would have caused them to make reference to the subject matter in connection with their report on the Company's consolidated financial statements for such years; and there were no reportable events, as listed in Item 304(a)(1)(v) of Regulation S-K.

Table of Contents

The decision to change accountants was recommended by the Audit Committee and approved by the Board of Directors on March 22, 2002.

Pre-Approval of Non-Audit Services

The Audit Committee has adopted a policy addressing pre-approval of services provided by the Independent Auditor, and services provided by the Company's outsourced internal auditor (Internal Auditor). The purpose of the policy is to clearly identify circumstances where the Independent Auditor and the Internal Auditor may perform non-audit services and where such services shall require further approval by the Audit Committee. The Audit Committee has determined that, where practical, all non-audit services shall first be placed for competitive bid prior to selection of a service provider. Management may select the party deemed best suited for the particular engagement, which may or may not be the Independent Auditor and the Internal Auditor. Providers other than the Independent Auditor and Internal Auditor shall be preferred in the selection process. The policy is reviewed and reaffirmed on a regular basis to assure conformance with applicable rules.

If billable fees for pre-approved non-audit services provided by each of the Independent Auditor or the Internal Auditor exceed a pre-determined threshold during any calendar year, any additional proposed non-audit services provided by that service provider must be submitted for prior approval by the Audit Committee. The Audit Committee reviews the fees paid or committed to the Independent Auditor and the Internal Auditor on a quarterly basis.

The Audit Committee approved specific categories of audit-related services and tax services incidental to the normal auditing function which the Independent Auditor may provide without further Audit Committee approval. These categories are:

1. due diligence, closing balance sheet audit services, purchase price dispute support and other services related to mergers, acquisitions and divestitures;
2. employee benefit advisory services, independent audits and preparation of tax returns for the Company's defined contribution, defined benefit and health and welfare benefit plans, preparation of the associated tax returns or other employee benefit advisory services; and
3. tax work incidental to the normal auditing functions.

The Audit Committee has also approved specific categories of audit-related services, including assessment and review of internal controls and effectiveness of those controls, which the Internal Auditor may provide without further approval.

Other audit-related and tax services are subject to specific prior approval if the prospective fee exceeds a pre-determined threshold.

Table of Contents

The Company may not engage the Independent Auditor to provide the services described below:

1. Bookkeeping or other services related to the accounting records or financial statements of the Company.
2. Financial information systems design and implementation.
3. Appraisal or valuation services, fairness opinions, or contribution-in-kind reports.
4. Actuarial services.
5. Internal auditing services.
6. Management functions or human resources services.
7. Broker-dealer, investment adviser or investment banking services.
8. Legal services and other expert services unrelated to the audit.

Employees of the Independent Auditor and the Internal Auditor who are senior manager level or above and have had any involvement with the Company in the independent audit and/or internal audit activities shall not be employed by the Company in any capacity for a period of five years after the termination of their activities on behalf of the Company.

The Board of Directors recommends you vote FOR ratification of appointment of the Company's Independent Auditor.

C. Approval of the ITT Industries, Inc. 2003 Equity Incentive Plan

Upon approval and effectiveness of this plan, no new awards will be made under the 1994 ITT Industries Incentive Stock Plan, the ITT Industries 1996 Restricted Stock Plan for Non-Employee Directors or the 2002 ITT Industries Stock Option Plan for Non-Employee Directors.

ITT Industries, Inc. 2003 Equity Incentive Plan

Summary Description of the Plan

The following summary of the terms of the Plan is qualified in its entirety by reference to the text of the Plan, which is attached as Appendix I. If approved, the Plan will be effective as of May 13, 2003.

Administration. The Plan will be administered by the Compensation and Personnel Committee of the Board of Directors (the Committee).

Eligibility. All employees of ITT Industries, Inc., its subsidiaries and affiliates and all Directors of ITT Industries, Inc. are eligible to participate in the Plan.

Approximately 38,000 employees of ITT Industries, Inc., its subsidiaries and affiliates and nine non-employee Directors will currently be eligible to participate; however, because the Plan provides for broad discretion in selecting

Table of Contents

participants and in making awards, the total number of persons who will participate and the respective benefits to be accorded to them cannot be determined at this time.

Stock Available for Issuance Through the Plan. The Plan provides for a number of forms of stock-based compensation, as further described below. Up to 6,100,000 shares of ITT Industries' common stock will be authorized for issuance through the Plan. The number of shares that may be issued under the Plan for awards other than stock options or SARs (both with a grant price equal to at least fair market value) will not exceed 1,000,000 shares. Provisions in the Plan permit the reuse or reissuance by the Plan of shares of common stock underlying canceled, terminated, expired, forfeited, or lapsed awards of stock-based compensation.

Stock-based compensation will typically be issued in consideration for the performance of services to ITT Industries and its affiliates.

Description of Awards Under the Plan. The Committee may award to eligible employees incentive and nonqualified stock options, stock appreciation rights, restricted stock, and restricted stock units. The forms of awards are described in greater detail below.

Stock Options. The Committee will have discretion to award incentive stock options (ISOs), which are intended to comply with Section 422 of the Internal Revenue Code, or nonqualified stock options (NQSOs), which are not intended to comply with Section 422 of the Internal Revenue Code. Each option issued under the Plan must be exercised within a period from the date of grant to be determined by the Committee (not to exceed ten years), and the exercise price of an option may not be less than the fair market value of the underlying shares of common stock on the date of grant; provided, however, that a NQSO granted outside the United States may be granted with an exercise price less than the fair market value of the underlying shares of common stock on the date of grant if necessary to comply with local tax laws and regulations. Subject to the specific terms of the Plan, the Committee will have discretion to set such additional limitations on option grants as it deems appropriate.

Each option award agreement will set forth the extent to which the participant will have the right to exercise the option following termination of the participant's employment or service as a Director. The termination provisions will be determined within the discretion of the Committee, need not be uniform among all participants and may reflect distinctions based on the reasons for termination of employment or service as a Director.

Upon the exercise of an option granted under the Plan, the exercise price is payable in full to ITT Industries either: (a) in cash or its equivalent; or (b) if permitted in the award agreement, by tendering shares having a fair market value at the time of exercise equal to the total exercise price (provided such shares have been held for at least six months prior to their tender); or (c) if

Table of Contents

permitted in the award agreement, a combination of (a) and (b); or (d) any other method approved by the Committee in its discretion.

Stock Appreciation Rights (SARs). The Committee may grant SARs in tandem with stock options, freestanding and unrelated to options, or any combination of these forms. In any case, the form of payment of a SAR will be determined by the Committee either at grant time or when exercised, and may be in shares of common stock, cash, or a combination of the two. If granted other than in tandem, the Committee will determine the number of shares of common stock covered by and the exercise period for the SAR.

Upon exercise of the SAR, the participant will receive an amount equal to the excess of the fair market value of one share of stock on the date the exercise is received by ITT Industries over the fair market value of one share of the stock on the grant date, multiplied by the number of shares of stock covered by the SAR exercise. If granted in tandem with an option, a SAR's exercise period may not exceed that of the option. The participant may exercise a tandem SAR when the option is exercisable, surrender the option, and receive on exercise an amount equal to the excess of fair market value of one share of stock on the date the election to surrender is received by ITT Industries over the option exercise price, multiplied by the number of shares of stock covered by the SAR exercise.

Each SAR award agreement will set forth the extent to which the participant will have the right to exercise the SAR following termination of the participant's employment or service as a director. The termination provisions will be determined within the discretion of the Committee, need not be uniform among all participants and may reflect distinctions based on the reasons for termination of employment or service as a director.

Restricted Stock. The Committee will also be authorized to award shares of restricted common stock under the Plan upon such terms and conditions as it shall establish. The participants may be required to pay a purchase price for each share of restricted stock granted. The award agreement will specify the period(s) of restriction, the number of shares of restricted common stock granted, such other provisions as the Committee shall determine and/or restrictions under applicable federal or state securities laws. Although participants may have the right to vote these shares from the date of grant, they will not have the right to sell or otherwise transfer the shares during the applicable period of restriction or until satisfaction of other conditions imposed by the Committee in its sole discretion. Participants may also receive dividends on their shares of restricted stock and the Committee, in its discretion, will determine how such dividends on restricted shares are to be paid.

Each award agreement for restricted stock will set forth the extent to which the participant will have the right to retain unvested restricted stock following termination of the participant's employment or service as a Director. These provisions will be determined in the sole discretion of the Committee, need not be uniform among all shares of restricted stock issued pursuant to the Plan and

Table of Contents

may reflect distinctions based on reasons for termination of employment or service as a Director.

Restricted Stock Units. The Committee will also be authorized to award restricted stock units under the Plan upon such terms and conditions as it shall establish. The award agreement will specify the period(s) of restriction, the number of restricted stock units granted, such other provisions as the Committee shall determine and/or restrictions under applicable federal or state securities laws. The participants shall have no voting rights with respect to the restricted stock units and will not have the right to sell or otherwise transfer the units during the applicable period of restriction or until earlier satisfaction of other conditions imposed by the Committee in its sole discretion. Participants may receive dividends on their shares of restricted stock units and the Committee, in its discretion, will determine how such dividends on restricted stock units are to be paid.

Each award agreement for restricted stock units will set forth the extent to which the participant will have the right to retain unvested restricted stock units following termination of the participant's employment or service as a director. These provisions will be determined in the sole discretion of the Committee, need not be uniform among all awards of restricted stock units issued pursuant to the Plan and may reflect distinctions based on reasons for termination of employment or service as a Director.

Performance Measures. The Committee may grant awards under the Plan to eligible employees subject to the attainment of certain specified performance measures. The performance measures are net earnings, earnings per share, net income, net sales growth, net operating profit, return measures (including, but not limited to, return on assets, equity, or sales), productivity ratios, expense targets, working capital targets, cash flow, cash flow return on capital, earnings before or after taxes, interest, depreciation and/or amortization, gross revenues, margins, operating efficiency, customer satisfaction, employee satisfaction metrics, human resources metrics, share price (including, but not limited to, growth measures and total shareholder return), and EVA®.

Subject to the individual and Plan limits described herein, the number of performance-based awards granted to any participant in any year is determined by the Committee in its sole discretion. Following the end of a performance period, the Committee shall determine the value of the performance-based awards granted for the period based on the attainment of the preestablished objective performance goals. The Committee shall also have discretion to reduce (but not to increase) the value of a performance-based award.

Individual Limits. The maximum number of shares with respect to which stock options may be granted to an individual during any one year shall be 300,000. The maximum number of shares with respect to which SARs may be granted to any individual during any one year shall be 300,000. The maximum

Table of Contents

number of shares of restricted stock or restricted stock units that may be granted to an individual during any one year shall be 150,000.

Adjustment and Amendments. The Plan provides for appropriate adjustments in the number and nature of shares of common stock subject to awards and available for future awards and in the exercise price of options and the grant price of SARs, in the event of changes in outstanding common stock by reason of a merger, stock split, or certain other events. The Committee shall specify in each Participant's award agreement the treatment of outstanding awards upon a change in control.

The Plan may be modified or amended by the Committee at any time and for any purpose which the Committee deems appropriate; no such amendment shall adversely affect any outstanding awards in a material way without the affected holder's consent. However, options issued under the Plan may not be repriced without the approval of shareholders.

Nontransferability. Unless otherwise determined by the Committee and provided in a participant's award agreement, no award (including, without limitation, options) granted pursuant to, and no right to payment under, the Plan shall be assignable or transferable by a Plan participant except by will or by the laws of descent and distribution, and any option or similar right shall be exercisable during a participant's lifetime only by the participant or by the participant's guardian or legal representative.

Duration of the Plan. The Plan will remain in effect until all options and rights granted thereunder have been satisfied or terminated pursuant to the terms of the Plan, and all performance periods for performance-based awards granted thereunder have been completed.

Prior Plans. The Plan will replace, on a prospective basis, the 2002 ITT Industries Stock Option Plan for Non-Employee Directors, the ITT Industries 1996 Restricted Stock Plan for Non-Employee Directors, and the 1994 ITT Industries Incentive Stock Plan (collectively, the "Prior Plans"). If the Plan is approved by the shareholders, no new grants will be made from the Prior Plans. All awards granted under the Prior Plans shall continue to vest and/or be exercisable in accordance with their original terms and conditions.

Federal Income Tax Consequences. The following discussion covers some of the United States federal income tax consequences with respect to awards that may be granted under the Plan. It is a brief summary only. Participants should consult with their tax advisors for a complete statement of all relevant federal tax consequences. This summary does not describe state, local, or foreign tax consequences of an individual's participation in the Plan.

Federal Income Tax Consequences - Participants

Options. With respect to options which qualify as ISOs, a Plan participant will not recognize income for federal income tax purposes at the time options are granted or exercised. If the participant disposes of shares acquired by exercise of an ISO either before the expiration of two years from the date the

Table of Contents

options are granted or within one year after the issuance of shares upon exercise of the ISO (the holding periods), the participant will recognize in the year of disposition: (a) ordinary income, to the extent the lesser of either (i) the fair market value of the shares on the date of option exercise, or (ii) the amount realized on disposition, exceeds the option exercise price; and (b) capital gain, to the extent the amount realized on disposition exceeds the fair market value of the shares on the date of option exercise. If the shares are sold after expiration of the holding periods, the participant generally will recognize capital gain or loss equal to the difference between the amount realized on disposition and the option exercise price.

The exercise of an ISO may result in alternative minimum tax (AMT) liability. The excess of the fair market value of the shares purchased on exercise of an ISO over the exercise price paid for such shares is considered alternative minimum taxable income for AMT purposes.

With respect to NQSOs, the participant will recognize no income upon grant of the option, and, upon exercise, will recognize ordinary income to the extent of the excess of the fair market value of the shares on the date of option exercise over the option (exercise) price. Upon a subsequent disposition of the shares received from the exercise of an option, the participant generally will recognize capital gain or loss to the extent of the difference between the fair market value of the shares at the time of exercise and the amount realized on the disposition.

SARs. The recipient of a grant of SARs will not realize taxable income and ITT Industries will not be entitled to deduction with respect to such grant on the date of such grant. Upon the exercise of a SAR, the recipient will realize ordinary income, and ITT Industries will be entitled to a corresponding deduction, equal to the amount of cash or fair market value of stock received.

Restricted Stock. A participant holding restricted stock will, at the time the shares vest, realize ordinary income in an amount equal to the fair market value of the shares and any cash received at the time of vesting, and ITT Industries will be entitled to a corresponding deduction for federal income tax purposes. Dividends paid to the participant on the restricted stock during the restriction period will generally be ordinary income to the participant and deductible as such by ITT Industries.

Restricted Stock Units. A participant holding restricted stock units will, at the time the units vest, realize ordinary income in an amount equal to the fair market value of the shares and any cash received at the time of vesting, and ITT Industries will be entitled to a corresponding deduction for federal income tax purposes.

Federal Tax Consequences ITT Industries. In general, ITT Industries will receive an income tax deduction at the same time and in the same amount as the amount which is taxable to the employee as compensation, except as provided below under Section 162(m). To the extent a participant realizes capital gains, as described above, ITT Industries will not be entitled to any corresponding deduction for federal income tax purposes.

Table of Contents

Section 162(m). Under Section 162(m) of the Internal Revenue Code, compensation paid to Covered Employees in excess of \$1 million for any taxable year generally is not deductible by ITT Industries unless such compensation meets the IRS guidelines as performance-based compensation, and is paid pursuant to a plan the material terms of which have been approved by shareholders of ITT Industries.

Generally, Covered Employee under Section 162(m) means the chief executive officer and the four other highest paid executive officers of ITT Industries as of the last day of the applicable taxable year.

It is presently anticipated that the Committee will at all times consist of outside directors as required for purposes of Section 162(m), and that the Committee will take the effect of Section 162(m) into consideration in structuring Plan awards.

New Plan Benefits. The benefits that will be received under the Plan by particular individuals or groups are not determinable at this time.

Board of Directors Recommendation. The accompanying proxy will be voted in favor of approval of the Plan unless contrary instructions are noted on the proxy. The affirmative vote of a majority of the shares of common stock present in person or by proxy are entitled to vote at the annual meeting is required for adoption of the Plan.

The Board of Director recommends you vote FOR approval of the ITT Industries, Inc. 2003 Equity Incentive Plan.

Responsibilities: In the event it is necessary to select a new chief executive officer, lead the process for candidate evaluation, consideration and screening. The full Board of Directors has the final responsibility to select the Company's chief executive officer.

Evaluate and make recommendations to the Board of Directors concerning the composition and structure of the Board.

Make recommendations to the Board of Directors concerning the qualifications, compensation and retirement age of Directors.

Administer the Board of Directors evaluation process.

Evaluate and propose nominees for election to the Board of Directors.

Make recommendations to the Board of Directors concerning the appointment of Directors to Board Committees and the selection of Board Committee Chairs.

Regularly review its performance.

During 2002, there were 6 regularly scheduled Board meetings, three special Board meetings and 27 Committee meetings. All Directors attended at least 75% of the aggregate of all meetings of the Board and the Committees on which they served. For 2003, the Board has scheduled six regular meetings. In conjunction with the regular meetings, those Directors who are not employees of ITT Industries are scheduled to meet privately several times during the year. The Board of Directors has identified Ralph F. Hake and Raymond W. LeBoeuf as audit committee financial experts.

Compensation of Directors. Non-employee Directors are paid annual retainers of \$50,000 and attendance fees of \$2,000 for each Board and \$1,000 for each Committee meeting (of which they are a member) they attend. The annual retainer is paid in shares of restricted stock that are held in escrow until the restrictions lapse. The number of restricted shares is determined by dividing into \$50,000 the average of the high and low sales prices per share of ITT Industries common stock on the date of the annual meeting or as soon thereafter as legally permissible. Any fractional share is paid in cash. If the ITT Industries, Inc. 2003 Equity Incentive Plan is approved, we expect that restricted stock grants to Directors for their 2003 annual retainer will be determined and awarded on a date subsequent to the 2003 Annual Meeting in order to permit the Company to complete the Securities Act registration and NYSE listing of shares of restricted stock to be granted under the ITT Industries, Inc. 2003 Equity Incentive Plan.

Table of Contents

Directors receive dividends on the restricted shares and may vote the shares during the restriction period. Directors may choose to extend the restriction period for up to two successive five year periods, or until six months and one day following the Director's termination of service from the Board under certain permitted circumstances. Attendance fees are paid in cash. Directors can annually irrevocably elect to defer receipt of attendance fees to a future date, up to the time the Director's service on the Board ends. Such fees are treated as though invested in an interest bearing account. Mr. Giuliano, as an employee Director, does not receive compensation for his Board service.

Each Director's restricted shares are held in escrow and may not be transferred in any manner until one of the following events occurs:

the fifth anniversary of the grant of the shares unless extended as provided for above;

the Director retires at age 72;

there is a change of control of the Company;

the Director becomes disabled or dies;

the Director's service is terminated in certain specified, limited circumstances; or

any other circumstance in which the Compensation and Personnel Committee believes, in its sole discretion, that the purposes for which the grants of restricted stock were made have been fulfilled and, as such, is consistent with the intention of the Plan.

The ITT Industries 1996 Restricted Stock Plan for Non-Employee Directors provides that if a Director ceases serving on the Board under any other circumstances, shares with respect to which the Plan restrictions have not been lifted will be forfeited.

Non-employee Directors also receive an annual grant of stock options. On May 7, 2002 each non-employee Director received a grant of stock options for 1,780 shares priced at the closing price of ITT Industries stock as of the May 7, 2002 annual meeting at which the 2002 ITT Industries Stock Option Plan for Non-Employee Directors was adopted by the Company's shareholders. In subsequent years, non-employee Directors' stock option grants will be priced and awarded on the same day that employee stock options are priced and awarded.

If the Company's 2003 Equity Incentive Plan is adopted by shareholders at the 2003 Annual Meeting, no further awards will be made under the ITT Industries 1996 Restricted Stock Plan for Non-Employee Directors and the 2002 ITT Industries Stock Option Plan for Non-Employee Directors.

The Board of Directors has established Director share ownership guidelines. The guidelines currently provide for desired Director share ownership levels at four times the annual retainer amount.

Directors are reimbursed for the expenses they incur to travel to Board and Committee meetings.

Table of Contents

Director Nomination Policy. No one may be nominated for election as a Director after he or she has reached 72 years of age. The Nominating and Governance Committee will consider shareholder nominations for Directors that meet the requirements of ITT Industries By-laws. (A copy of the nomination requirements may be obtained from the Secretary of ITT Industries.)

Indemnification and Insurance. As permitted by its By-laws, ITT Industries indemnifies the Directors to the full extent permitted by law and maintains insurance to protect the Directors from liabilities, including certain instances where it could not otherwise indemnify them. All Directors are covered under a non-contributory group accidental death and dismemberment policy that provides each of them with \$750,000 of coverage. They may elect to purchase additional coverage under that policy. Non-employee Directors also may elect to participate in an optional non-contributory group life insurance plan that would provide \$100,000 of coverage.

Report of the Audit Committee

The following Report of the Audit Committee does not constitute soliciting material and the Report should not be deemed filed or incorporated by reference into any other previous or future filings by the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

Role of the Audit Committee.

The Audit Committee of the Board of Directors provides oversight on matters relating to the Company's financial reporting process and assures that the Company develops and maintains adequate financial controls and procedures, and monitors compliance with these processes. This includes responsibility for, among other things, 1) the appointment, compensation and oversight of the independent auditors in preparing or issuing audit reports and related work; 2) review of financial reports and other financial information provided by the Company, its systems of internal accounting and financial controls, and the annual independent audit of the Company's financial statements; 3) oversight and review of procedures developed for consideration of accounting, internal accounting controls and auditing related complaints; 4) review of risk assessment processes; and 5) adoption of and monitoring the implementation and compliance with a non-audit services policy. The Audit Committee also has oversight responsibility for confirming the scope and monitoring the progress and results of internal audits conducted by the Company's outsourced internal auditor. The Audit Committee discussed with the Company's outsourced internal auditors and independent auditors the plans for their respective audits. The Audit Committee met with the outsourced internal auditors and independent auditors, with and without management present, and discussed results of their examinations, their evaluation of the Company's internal controls, and the availability of the Company's financial reporting.

Table of Contents

The Company's management has primary responsibility for the financial statements, including the Company's system of disclosure and internal controls. The Audit Committee may investigate any matter brought to its attention. In that regard, the Audit Committee has full access to all books, records, facilities and personnel of the Company. Any individual may also bring matters to the Audit Committee confidentially or on an anonymous basis.

Audit Committee Charter.

The Board of Directors has adopted a written charter for the Audit Committee, which it reviews, and at least annually updates and/or reaffirms. The Charter sets out the purpose, membership and organization, and key responsibilities of the Audit Committee.

Composition of the Audit Committee.

The Audit Committee is comprised of five members of the Company's Board. The Board of Directors has determined that each Audit Committee member meets the independence standards set out in the Audit Committee Charter and Director Independence Appendix and the requirements of the New York Stock Exchange currently in effect. No member of the Audit Committee has any relationship with the Company that may interfere with the exercise of independence from management and the Company. All members of the Audit Committee, in the business judgment of the full Board of Directors, are financially literate and several have accounting or related financial management expertise. The Board of Directors has identified Ralph F. Hake and Raymond W. LeBoeuf as audit committee financial experts.

Regular Review of Financial Statements.

During 2002, the Audit Committee reviewed and discussed the Company's 2002 audited financial statements with management. The Audit Committee, management and the Company's independent auditors reviewed and discussed the Company's unaudited financial statements before the release of each quarters' earnings report and filing on Form 10-Q, and the Company's audited financial statements before the annual earnings release and filing on Form 10-K.

Communications with Independent Auditors.

The Audit Committee has discussed with Deloitte & Touche LLP, the independent auditors, the matters required by Statement on Auditing Standards No. 61, *Communication with Audit Committees* (SAS 61), as modified or supplemented by the Auditing Standards Boards of the American Institute of Certified Public Accountants. These discussions included all matters required by SAS 61, including independent auditors' responsibilities under generally accepted auditing standards in the United States, significant accounting policies and management judgments, the quality of the Company's accounting

principles and accounting estimates. The Audit Committee met privately with the independent auditors three times during 2002.

Independence of Independent Auditors.

The Company's independent auditors are directly accountable to the Audit Committee and the Board. The Audit Committee has received from the independent auditors required written disclosures, including a formal written statement, setting out all the relationships between the Company and its independent auditors, as required by Independence Standard No. 1, *Independence Discussions with Audit Committees*, as amended by the Independence Standards Board. The Audit Committee has discussed the independent auditors' independence, any disclosed relationships and the impact of those relationships on the independent auditors' independence.

Recommendation Regarding Annual Report on Form 10-K.

In performing its oversight function during 2002 with regard to financial statements for 2002, the Audit Committee relied on financial statements and information prepared by the Company's management. It also relied on information provided by the internal audit staff as well as the Independent Auditors. The Audit Committee reviewed and discussed with management the Company's audited financial statements as of and for the year ended December 31, 2002. Based on these discussions, and the information received and reviewed, the Audit Committee recommended to the Company's Board that the financial statements be included in the Annual Report on Form 10-K for that year (or the Annual Report to Shareholders if distributed prior to the filing of Form 10-K).

This report is furnished by the members of the Audit Committee during 2002 and 2003.

Executive Compensation

Report of the Compensation and Personnel Committee

The Compensation and Personnel Committee of the Board of Directors establishes executive compensation policies. This report discusses the application of these policies to ITT Industries' executive officers in general, and the rationale for the decisions affecting the compensation as reported for 2002 of Louis J. Giuliano and each of the four other named executive officers in the Summary Compensation Table.

ITT Industries is a global, multi-industry engineering and manufacturing company with leading positions in the markets that it serves. ITT Industries has approximately 38,000 employees located in 48 countries with 2002 sales of approximately \$4.99 billion and assets of approximately \$5.39 billion. In establishing compensation policies and programs for 2002, the Committee considered compensation provided to executives of corporations similar to ITT Industries in terms of assets, sales and revenues, and earnings. These corporations consisted of leading manufacturing companies in the S&P Industrials Index.

ITT Industries' executive compensation program historically has been designed to attract, engage, reward, and retain capable and motivated executives and to provide incentives that vary depending upon the attainment of short-term performance objectives and strategic long-term performance goals. The major objective of the long-term incentive program has been to provide ITT Industries' executives with incentives directly linked to shareholder value. In reviewing ITT's compensation programs, the Committee has agreed with management's desire to provide a closer link between compensation and performance. The Company believes that the measures of performance in its compensation programs must be aligned with the measures that are key to the success of its businesses. The stronger link between compensation and performance is intended to provide incentives for achieving financial and business objectives, increasing the value of the Company's stock and increasing value to our shareholders.

The Compensation Program. The executive compensation program of ITT Industries is based on current competitive compensation practices as well as on performance measures and policies that focus on the continued growth of shareholder value. The compensation for ITT Industries' executives consists of base salary, annual incentives, stock-based programs, long-term incentives, and employee benefits. The Summary Compensation Table reflects payments and awards made to Louis J. Giuliano and each of the four other named executive officers during the three years ended 2002.

Base Salary.

Salaries are set and administered to reflect the value of the job in the marketplace and individual contribution and performance. Based on a recent

Table of Contents

ITT Industries' compensation survey, ITT Industries' senior executive salaries are at competitive levels. Salaries provide a necessary element of stability in the total pay program. Salary increases are based primarily on merit, and during 2002 the normal interval between salary reviews for all executives was twelve months.

The Committee reviewed the performance of the named executive officers of ITT Industries during 2002. The Committee will continue to review and assess the performance of the chief executive officer and all senior executives and will authorize salary actions as are appropriate, commensurate with relevant competitive data and the approved ITT Industries' salary administration program. As of March 1, 2003, the annual salaries of the named executive officers of ITT Industries were as follows: Mr. Giuliano, \$950,000; Mr. Anderson, \$530,000; Mr. Ayers, \$445,000; Mr. Maffeo, \$395,000; and Mr. Driesse, \$360,000.

Annual Incentive Plan.

For 2002, the named executive officers participated in the ITT Industries 1997 Annual Incentive Plan for Executive Officers approved by ITT Industries' shareholders in 1997. Bonus amounts paid under the plan were based on the financial performance of ITT Industries during 2002 as compared with the annual performance goals established and approved by the Committee at the beginning of the 2002 performance year. The amounts paid with respect to performance year 2002 reflect ITT Industries' outstanding overall operational and financial performance during the year. The bonus awards for 2002 shown in the Summary Compensation Table following this report include payments in accordance with the annual incentive plan as well as supplemental payments outside the plan to Messrs. Giuliano, Anderson, Ayers and Maffeo in recognition of additional performance factors.

Long-Term Incentive Award Program

ITT Industries' Long-Term Incentive Award Program is based on the competitive market and designed to link incentive awards to shareholder value. The target value of each award is determined as a percent of base salary and program parameters are approved each year by the Compensation and Personnel Committee. All executives are eligible to participate in the program through non-qualified stock options. For senior executives, the total award value is split equally between non-qualified stock options and target cash awards.

Stock-Based Awards.

Stock options are the incentive component utilized for all executive participants in the Company's Long-Term Incentive Award Program described above. Stock options provide long-term incentives that are directly related to the performance of ITT Industries' common stock. Non-qualified stock options have terms of ten years and two days, and closely align executives' interests with those of other shareholders. The stock option tables on pages 39 and 40 provide

Table of Contents

information relating to stock options held by the individuals named in the Summary Compensation Table.

Approximately 1,866,150 shares of non-qualified stock options were granted effective January 2, 2003 to approximately 486 executives under the 1994 ITT Industries Incentive Stock Plan (the 1994 Plan). Grants to the named executive officers were as follows: Mr. Giuliano, 80,000 shares; Mr. Anderson, 30,000 shares; Mr. Ayers, 21,000 shares; Mr. Maffeo, 20,000 shares; and Mr. Driesse, 20,000 shares. For Mr. Giuliano, and the other named executive officers, such options were granted at an option exercise price of \$61.82 per share and will become exercisable upon the earlier of an appreciation in ITT Industries common stock price of 25% above the grant price for ten consecutive trading days, or nine years from the date of grant.

ITT Industries is presenting to the shareholders at the annual meeting the new ITT Industries 2003 Equity Incentive Plan for approval. If this Plan is adopted by shareholders, no further awards will be made to employees under the 1994 Plan. See page 12, Proposal C. ITT Industries, Inc. 2003 Equity Incentive Plan, herein for summary information regarding this Plan and Appendix I hereto for the provisions of the Plan itself.

Long-Term Incentive Plan.

The ITT Industries 1997 Long-Term Incentive Plan approved by shareholders in 1997 authorizes performance awards to be made to key employees of ITT Industries at the discretion of the Committee. It has been Company practice that only senior executives participate in this plan. Awards made under this plan are expressed as target cash awards and comprise one-half of the total long-term incentive value for senior executives. The nonqualified stock options described above comprise the other half.

The Long-Term Incentive Plan provides that the Committee shall determine the size and frequency of awards, performance measures, performance goals and performance periods. The size of the awards is determined by the Committee in order to meet competitive practice. Payment, if any, of awards generally will be made at the end of the applicable performance period and will be based on ITT Industries performance as compared with the performance measures approved by the Committee prior to the performance period.

Payment, if any, of awards may be made in whole or in part, at the discretion of the Committee, in the form of cash and/or common stock of ITT Industries. The Committee determined that payment for the 2000 awards be made wholly in cash. It is anticipated that future payments under the Plan will also be made entirely in cash.

The Long-Term Incentive Plan enables the Committee to make adjustments to awards and increase or decrease payment values based upon events or circumstances, including but not limited to acquisitions or divestitures, having a material impact on the overall performance of ITT Industries.

On January 2, 2003 the Committee granted target awards under the long-term incentive plan to 52 key employees, including Messrs. Giuliano, Anderson,

Table of Contents

Ayers, Maffeo, and Driesse. The performance period with respect to the 2003 awards is three years beginning January 1, 2003. The 2003 target awards made to each of the individuals named in the Summary Compensation Table are as follows: Mr. Giuliano, \$1,653,600; Mr. Anderson, \$620,100; Mr. Ayers, \$434,100; Mr. Maffeo, \$413,400; and Mr. Driesse, \$413,400. The ultimate value, if any, of each of these awards will be determined in accordance with the established performance measurement formula for the target awards granted in 2003. The award amounts set forth above would be the amounts payable if the formula results in payment at the 100% level. Payment, if any, with respect to the 2003 target awards will be based on the Company's total shareholder return performance compared with the other S&P® Industrial companies.

Messrs. Giuliano, Anderson, Ayers, Maffeo and Driesse received grants of awards in 2000 under the ITT Industries 1997 Long-Term Incentive Plan. These awards were subject to a three-year performance period ending December 31, 2002 and were subject to achievement of pre-established goals, as approved by the Committee in 2000, measuring ITT Industries' performance with respect to total shareholder return against the performance of the other S&P® Industrial companies. Long-Term Incentive Plan payments were made in strict accordance with the plan as measured for the period January 1, 2000 through December 31, 2002 and are shown in the Summary Compensation Table on page 38. Based on the Company's performance at the 93.6 percent rank of the S&P® Industrial companies, payout was at 200% of target, which was in accordance with the approved formula. The Committee determined that payment be made wholly in cash.

Share Ownership Guidelines

At their meeting on March 5, 2001, the Committee endorsed Share Ownership Guidelines for corporate officers of ITT Industries, and such guidelines were approved by the ITT Industries Board of Directors on March 6, 2001. These guidelines specify the desired levels of Company stock that each officer should own and encourage a set of behaviors to enable each officer to reach the guideline levels of ownership.

The approved guidelines require share ownership expressed as a multiple of base salary for all corporate officers. Specifically the guidelines apply as follows: chief executive officer at four times base salary; chief financial officer at three times base salary; senior vice presidents and management company presidents at two times base salary; and all other corporate vice presidents at one times base salary.

In achieving these ownership levels, shares owned outright, Company restricted stock, shares held in the Company's dividend reinvestment plan, shares owned in the Company's investment and savings plan, and phantom shares held in the deferred compensation plan are considered. To attain the ownership levels set forth in the guidelines it is expected that any restricted shares that become

Table of Contents

unrestricted will be held, that all shares earned through any payout of the Company's long-term incentive plan will be held, and that all shares acquired through exercise of stock options will be held, except in all cases to the extent that tax obligations need to be met. The Committee will monitor compliance with the guidelines periodically. As of January 1, 2003, substantially all of the Company's corporate officers have met their share ownership levels.

Employee Benefits.

Executives also participate in ITT Industries' broad-based employee benefits program that includes a pension program, an investment and savings plan, group medical and dental coverage, group life insurance, and other benefit plans. The named executive officers also participate in certain other benefit programs that are described on pages 41 through 46.

Under the deferred compensation plan, executives with an annual base salary of \$200,000 or more may elect to defer receipt of all or a portion of their annual incentive. The amount of deferred compensation ultimately received is based on the performance of benchmark investment funds made available under the plan as selected by the executive. Participants in the plan may elect a fund that tracks the performance of ITT Industries common stock.

Although the Committee believes that ITT Industries should strive to structure its compensation program for senior executives in a manner that would permit deductibility under the Internal Revenue Code, it realizes that the evaluation of the overall performance of the senior executives cannot be reduced in all cases to a fixed formula. There may be situations in which the prudent use of discretion in determining pay levels is in the best interest of ITT Industries and its shareholders. Under some circumstances the use of discretion in determining appropriate amounts of compensation may be desirable. In those situations where discretion is used, compensation may not be fully deductible on ITT Industries' tax return. However, the Committee does not believe that such loss of deductibility would have any material impact on the financial condition of ITT Industries.

Senior Executive Severance Pay Arrangements

Senior executives who are U.S. citizens or who are employed in the United States are covered by the ITT Industries, Inc. Senior Executive Severance Pay Plan. If a covered executive is terminated by ITT Industries, that executive would be eligible to receive severance pay unless the executive is terminated for cause, terminated after the executive's normal retirement date, or in certain divestiture instances where the executive accepts employment or refuses comparable employment. There is no severance in cases where the executive voluntarily leaves the Company. The amount of severance pay depends upon the executive's base pay and years of service. The amount will not exceed 24 months of base pay, or be greater than two times the executive's total annual compensation during the year immediately preceding termination. ITT Industries' obligation to continue severance payments stops if the executive does not comply with non-competition provisions of the plan or with ITT Industries' Code of Corporate Conduct.

If a covered executive receives or is entitled to receive other compensation from ITT Industries, the amount of that compensation could be used to offset amounts otherwise payable under the plan. During the period in which the executive continues to receive severance payments, the executive will have a limited right to continue to be eligible for participation in certain benefit plans.

Messrs. Giuliano, Anderson, Ayers, Maffeo, and Driesse participate in the plan.

Special Senior Executive Severance Pay Plan

The ITT Industries, Inc. Special Senior Executive Severance Pay Plan provides severance benefits for covered executives whose employment is terminated other than for cause or where the covered executive terminates his or her employment for good reason within two years after the occurrence of an *acceleration event* as defined in the **Change of Control Arrangements** described below. The plan provides two levels of benefits for covered executives, based on

Table of Contents

their position within the Company. If an executive were terminated within two years of an *acceleration event*, he or she would be entitled to

two or three times the highest annual base salary rate during the three years immediately preceding termination and two or three times the highest bonus paid or awarded in the three years preceding an acceleration event;

continuation of health and life insurance benefits and certain perquisites at the same levels for two or three years;

a lump sum payment equal to the difference between the total lump sum value of his or her pension benefit under the Company's pension plans and the total lump sum value of his or her pension benefit under the pension plans after crediting an additional two or three years of age and eligibility and benefit service using the highest annual base salary rate and bonus for purposes of determining final average compensation under the pension plans;

credit for an additional two or three years of age and two or three years of eligibility service under the retiree health and retiree life insurance benefits;

a lump sum payment equal to two or three times the highest annual base salary rate during the three years preceding termination times the highest percentage rate of the company's contributions to the ITT Industries Investment and Savings Plan for Salaried Employees and the Excess Savings Plan; and

tax gross-up of certain of the payments.

Messrs. Giuliano, Anderson, Ayers, Maffeo, and Driesse are covered at the highest level of benefits.

Change of Control Arrangements

The payment or vesting of awards or benefits under the plans listed below would be accelerated upon the occurrence of a *change of control* of ITT Industries. There would be a *change of control* if one of the following *acceleration events* occurred:

1. A report on Schedule 13D would be filed with the Securities and Exchange Commission disclosing that any person, other than ITT Industries or one of its subsidiaries or any employee benefit plan that is sponsored by ITT Industries or a subsidiary, had become the beneficial owner of 20% or more of ITT Industries' outstanding stock;
2. A person other than ITT Industries or one of its subsidiaries or any employee benefit plan that is sponsored by ITT Industries or a subsidiary would purchase ITT Industries' shares in connection with a tender or exchange offer, if after consummation of the offer the person purchasing

Table of Contents

the shares is the beneficial owner of 15% or more of ITT Industries' outstanding stock;

3. The shareholders would approve

(a) any consolidation or merger of ITT Industries in which it would not be the continuing or surviving corporation or the common stock of ITT Industries would be converted into cash, securities or other property, unless the transaction was a merger in which the shareholders of ITT Industries immediately prior to the merger would have the same proportionate ownership of common stock of the surviving corporation that they held in ITT Industries immediately prior to the merger; or

(b) any sale, lease, exchange or other transfer of all or substantially all of the assets of ITT Industries; or

4. A majority of the members of the Board of Directors would change within a 12-month period, unless the election or nomination for election of each of the new Directors by ITT Industries' stockholders had been approved by two-thirds of the Directors still in office who had been Directors at the beginning of the 12-month period.

The following ITT Industries plans have *change of control* provisions:

the 1986 Incentive Stock Plan;

Salaried Retirement Plan

Most of ITT Industries' salaried employees who work in the United States participate in the Salaried Retirement Plan. Under the plan, participants have the option, on an annual basis, to elect to be covered under either the Traditional Pension Plan (TPP) or a Pension Equity Plan (PEP) formula for future pension accruals. While the TPP formula pays benefits on a monthly basis after retirement, the PEP formula enables participants to elect to have benefits paid as a single sum payment upon employment termination, regardless of the participant's age.

Under the TPP, a participant first employed prior to January 1, 2000, would receive an annual pension that would be the total of:

2% of his or her *average final compensation* for each of the first 25 years of benefit service, plus

1 1/2% of his or her *average final compensation* for each of the next 15 years of benefit service, reduced by

1 1/4% of his or her primary Social Security benefit for each year of benefit service up to a maximum of forty years, except that no more than one-half of the primary Social Security benefit would be taken into account to calculate the reduction.

Average final compensation (including salary plus approved bonus payments) is the total of:

the participant's average annual base salary for the five calendar years of the last 120 consecutive calendar months of eligibility service that would result in the highest average annual base salary amount, plus

the participant's average annual pension eligible compensation, not including base salary, for the five calendar years of the participant's last 120 consecutive calendar months of eligibility service that would result in the highest average annual compensation amount.

The following table illustrates estimated annual benefits (not including Social Security reductions) that would be payable under the TPP formula to a participant who retired at age 65:

- (1) Amounts shown under Salary and Bonus opposite the names of the executive officers shown on the Summary Compensation Table comprise their compensation for purposes of determining *average final compensation*.
- (2) The years of benefit service through December 31, 2002 are: Mr. Giuliano, 14.50 years; Mr. Ayers, 4.25 years; Mr. Driesse, 21.95 years; and Mr. Maffeo, 25.49 years.
- (3) At December 31, 2002, Mr. Anderson had 3.05 years of benefit service under the ITT Industries Salaried Retirement Plan. The Compensation and Personnel Committee has approved an *ex-gratia* pension benefit in the form of a life annuity for Mr. Anderson. Such benefit will be in the amount of \$125,000 annually provided that Mr. Anderson completes at least ten years of eligibility service under the plan. In the event that he is terminated by the Company, other than for cause, after he has completed at least five years of eligibility service, payment will commence as of January 1, 2010. In the event of a *change of control*, payment will commence as of January 1, 2010, regardless of the number of years of eligibility service completed by Mr. Anderson as of the date of the *change of control*.

Participants who retire at or after they reach 60 years of age and have completed at least 15 years of eligibility service would receive undiscounted early retirement pensions.

At the present time, none of the individuals named in the Summary Compensation Table have elected to accrue benefits under the PEP formula.

Employees first hired on or after January 1, 2000 are eligible to make an annual election to be covered under either the PEP formula referred to above or a TPP formula (post-2000 TPP) which provides for a lower accrual rate than the TPP formula described above which is available to employees hired before January 1, 2000.

Regardless of the formula elected, participants become vested in their accrued pension benefits after they complete five years of eligibility service.

Table of Contents

Federal law limits the amount of benefits that could be paid and the amount of compensation that could be recognized under tax-qualified retirement plans. As a consequence, ITT Industries has established and maintains non-qualified, unfunded *Excess Pension Plans* to pay retirement benefits that could not be paid from the Salaried Retirement Plan. Benefits under the *Excess Pension Plans* are generally paid directly by ITT Industries. There also is an excess plan trust under which excess benefits accrued by certain of the officers are funded. Generally, participating officers may elect, upon retirement, to receive their excess benefit in a single discounted lump sum payment, if approved by the Compensation and Personnel Committee of the Board.

In the event of a *change of control*, any excess benefit would be immediately payable and would be paid in a single discounted lump sum.

Article 3. Administration

3.1 General. The Committee shall be responsible for administering the Plan. All actions taken and all interpretations and determinations made by the Committee shall be final and binding upon the Participants, the Company, and all other interested persons.

3.2 Authority of the Committee. The Committee shall have full and exclusive discretionary power to interpret the terms and the intent of the Plan and to determine eligibility for Awards and to adopt such rules, regulations, and guidelines for administering the Plan as the Committee may deem necessary or proper. Such authority shall include, but not be limited to, selecting Award recipients, establishing all Award terms and conditions and, subject to Article 13, adopting modifications and amendments to the Plan or any Award Agreement, including without limitation, any that are necessary to comply with the laws of the countries in which the Company and its Affiliates operate.

3.3 Delegation. The Committee may delegate to one or more of its members or to one or more agents or advisors such administrative duties as it may deem advisable, and the Committee or any person to whom it has delegated duties as aforesaid may employ one or more persons to render advice with respect to any responsibility the Committee or such person may have under the Plan. The Committee may, by resolution, authorize one or more officers of the Company to do one or both of the following: (a) designate

Table of Contents

Employees and Directors to be recipients of Awards; and (b) determine the size of the Award; provided, however, the Committee shall not delegate such responsibilities to any such officer for Awards granted to an Employee that is considered an elected officer of the Company, or to the extent it would unintentionally cause Performance-Based Compensation to lose its status as such.

Article 4. Shares Subject to the Plan and Maximum Awards

4.1 Number of Shares Available for Awards. Subject to adjustment as provided in Section 4.2 herein, the number of Shares hereby reserved for issuance to Participants under the Plan shall be six million one hundred thousand (6,100,000).

The number of Shares that may be issued under the Plan for Awards other than Options granted with an Option Price equal to at least Fair Market Value on the date of grant or SARs with a Grant Price equal to at least Fair Market Value on the date of grant shall not exceed one million (1,000,000).

All of the reserved Shares may be used as ISOs.

Any Shares related to Awards which terminate by expiration, forfeiture, cancellation, or otherwise without the issuance of such Shares, are settled in cash in lieu of Shares, or are exchanged with the Committee's permission for Awards not involving Shares, shall be available again for grant under the Plan. Moreover, if the Option Price of an NQSO under the Plan or the tax withholding requirements with respect to any Award (other than an ISO) granted under the Plan are satisfied by tendering Shares to the Company (by either actual delivery or by attestation), or if a SAR is exercised, only the number of Shares issued, net of the Shares tendered, if any, will be deemed delivered for purposes of determining the maximum number of Shares available for delivery under the Plan. The maximum number of Shares available for issuance under the Plan shall not be reduced to reflect any dividends or dividend equivalents that are reinvested into additional Shares or credited as additional Restricted Stock, or Restricted Stock Units. In addition, the Committee, in its discretion, may establish any other appropriate methodology for calculating the number of Shares issued pursuant to the Plan. The Shares available for issuance under the Plan may be authorized and unissued Shares or treasury Shares.

The following limits (Award Limits) shall apply to Awards:

- (a) **Options:** The maximum aggregate number of Shares that may be granted in the form of Options, pursuant to any Award granted in any one Plan Year to any one Participant shall be three hundred thousand (300,000).
- (b) **SARs:** The maximum number of Shares that may be granted in the form of Stock Appreciation Rights, pursuant to any Award granted in

Table of Contents

any one Fiscal Year to any one Participant shall be three hundred thousand (300,000).

- (c) **Restricted Stock or Restricted Stock Units:** The maximum aggregate grant with respect to Awards of Restricted Stock or Restricted Stock Units granted in any one Plan Year to any one Participant shall be one hundred fifty thousand (150,000).

4.2 Adjustments in Authorized Shares. In the event of any corporate event or transaction (including, but not limited to, a change in the shares of the Company or the capitalization of the Company) such as a merger, consolidation, reorganization, recapitalization, separation, stock dividend, stock split, reverse stock split, split up, spin-off, or other distribution of stock or property of the Company, combination of shares, exchange of shares, dividend in kind, or other like change in capital structure or distribution (other than normal cash dividends) to shareholders of the Company, or any similar corporate event or transaction, the Committee, in its sole discretion, in order to prevent dilution or enlargement of Participants' rights under the Plan, shall substitute or adjust, in an equitable manner, as applicable, the number and nature of Shares that may be issued under the Plan, the number and nature of Shares subject to outstanding Awards, the Option Price and the Grant Price applicable to outstanding Awards, the Award Limits, and other value determinations applicable to outstanding Awards.

Except to the extent it would unintentionally cause Performance Based Compensation to fail to qualify for the performance based exception to Code Section 162(m), appropriate adjustments may also be made by the Committee in the terms of any Awards under the Plan to reflect such changes or distributions and to modify any other terms of outstanding Awards on an equitable basis, including modifications of performance goals and changes in the length of Performance Periods. The determination of the Committee as to the foregoing adjustments, if any, shall be conclusive and binding on Participants under the Plan.

Subject to the provisions of Article 12, without affecting the number of Shares reserved or available hereunder, the Committee may authorize the issuance or assumption of benefits under this Plan in connection with any merger, consolidation, acquisition of property or stock, share exchange, amalgamation, reorganization or similar transaction upon such terms and conditions as it may deem appropriate; provided, however, that no such issuance or assumption shall be made without affecting the number of Shares reserved or available hereunder if it would prevent the granting of ISOs under the Plan.

Article 5. Eligibility and Participation

5.1 Eligibility. Individuals eligible to participate in this Plan include all Employees and Directors.

Table of Contents

5.2 Actual Participation. Subject to the provisions of the Plan, the Committee may, from time to time, select from all eligible individuals, those to whom Awards shall be granted and shall determine the form and amount of each Award.

Article 6. Stock Options

6.1 Grant of Options. Subject to the terms and provisions of the Plan, Options may be granted to Participants in such number, and upon such terms, and at any time and from time to time as shall be determined by the Committee.

ISOs may not be granted following the ten-year (10) anniversary of the Effective Date. ISOs may be granted only to Employees.

6.2 Award Agreement. Each Option grant shall be evidenced by an Award Agreement that shall specify the Option Price, the duration of the Option, the number of Shares to which the Option pertains, the conditions upon which an Option shall become vested and exercisable, and such other provisions as the Committee shall determine which are not inconsistent with the terms of the Plan. The Award Agreement also shall specify whether the Option is intended to be an ISO or an NQSO.

6.3 Option Price. Subject to the following sentence, the Option Price for each grant of an Option under this Plan shall be as determined by the Committee; provided, however, the Option Price shall not be less than one hundred percent (100%) of the Fair Market Value of a Share on the date the Option is granted. For Options granted to Participants outside the United States, the Committee, in order to comply with local tax laws and regulations, has the authority to grant Options at a price that is less than the Fair Market Value of a Share on the date of grant.

6.4 Duration of Options. Each Option granted to a Participant shall expire at such time as the Committee shall determine at the time of grant; provided, however, no Option shall be exercisable later than the tenth (10th) anniversary of its grant.

6.5 Exercise of Options. Options granted under this Article 6 shall be exercisable at such times and be subject to such terms and conditions as the Committee shall in each instance approve, which need not be the same for each grant or for each Participant.

6.6 Payment. Options granted under this Article 6 shall be exercised by the delivery of notice of exercise to an agent designated by the Company or by complying with any alternative procedures which may be authorized by the Committee, setting forth the number of Shares with respect to which the Option is to be exercised.

Table of Contents

A condition of the issuance of the Shares as to which an Option shall be exercised shall be the payment of the Option Price. The Option Price of any Option shall be payable to the Company in full either: (a) in cash or its equivalent, (b) by tendering (either by actual delivery or attestation) previously acquired Shares having an aggregate Fair Market Value at the time of exercise equal to the Option Price (provided the Shares tendered must have been held by the Participant for at least six (6) months prior to their tender to satisfy the Option Price or have been purchased on the open market), (c) by a combination of (a) and (b), or (d) any other method approved by the Committee in its sole discretion. The Committee shall determine acceptable methods for tendering Shares as payment upon exercise of an Option and may impose such limitations and prohibitions on the use of Shares to exercise an Option as it deems appropriate.

Subject to any governing rules or regulations, as soon as practicable after receipt of written notification of exercise and full payment (including satisfaction of any applicable tax withholding), the Company shall deliver to the Participant evidence of book entry Shares, or upon the Participant's request, Share certificates in an appropriate amount based upon the number of Shares purchased under the Option(s).

Unless otherwise determined by the Committee, all payments under all of the methods indicated above shall be paid in United States dollars.

6.7 Restrictions on Share Transferability. The Committee may impose such restrictions on any Shares acquired pursuant to the exercise of an Option granted under this Article 6 as it may deem advisable, including, without limitation, restrictions under applicable federal securities laws, under the requirements of any stock exchange or market upon which such Shares are then listed and/or traded, and under any blue sky or state securities laws applicable to such Shares.

6.8 Termination of Employment. The impact of a termination of a Participant's employment or service as a Director on an Option's vesting and exercise period shall be determined by the Committee, in its sole discretion, in the Participant's Award Agreement, and need not be uniform among Option grants or Participants.

6.9 Transferability of Options. During his or her lifetime, only the Participant shall have the right to exercise the Options. After the Participant's death, the Participant's estate or beneficiary shall have the right to exercise such Options.

Article 7. Stock Appreciation Rights

7.1 Grant of SARs. Subject to the terms and conditions of the Plan, SARs may be granted to Participants at any time and from time to time as shall be determined by the Committee. The Committee may grant Freestanding SARs, Tandem SARs, or any combination of these forms of SARs.

Subject to the terms and conditions of the Plan, the Committee shall have complete discretion in determining the number of SARs granted to each Participant and, consistent with the provisions of the Plan, in determining the terms and conditions pertaining to such SARs.

The SAR Grant Price for each grant of a Freestanding SAR shall be determined by the Committee and shall be specified in the Award Agreement. The SAR Grant Price may include (but shall not be limited to) a Grant Price based on one hundred percent (100%) of the Fair Market Value of the Shares on the date of grant, a Grant Price that is either set at a discount or premium to the Fair Market Value of the Shares on the date of grant, or is indexed to the Fair Market Value of the Shares, with the index determined by the Committee, in its discretion. The Grant Price of Tandem SARs shall be equal to the Option Price of the related Option.

7.2 SAR Agreement. Each SAR Award shall be evidenced by an Award Agreement that shall specify the Grant Price, the term of the SAR, and such other provisions as the Committee shall determine.

7.3 Term of SAR. Subject to the following sentence, the term of a SAR granted under the Plan shall be determined by the Committee, in its sole discretion, provided that, except as determined otherwise by the Committee and specified in the SAR Award Agreement, no SAR shall be exercisable later than the tenth (10th) anniversary of its grant. For SARs granted to Participants outside the United States, the Committee has the authority to grant SARs that have a term greater than ten (10) years.

7.4 Exercise of Freestanding SARs. Freestanding SARs may be exercised upon whatever terms and conditions the Committee, in its sole discretion, imposes upon them.

Table of Contents

7.5. Exercise of Tandem SARs. Tandem SARs may be exercised for all or part of the Shares subject to the related Option upon the surrender of the right to exercise the equivalent portion of the related Option. A Tandem SAR may be exercised only with respect to the Shares for which its related Option is then exercisable.

Notwithstanding any other provision of this Plan to the contrary, with respect to a Tandem SAR granted in connection with an ISO: (a) the Tandem SAR will expire no later than the expiration of the underlying ISO; (b) the value of the payout with respect to the Tandem SAR may be for no more than one hundred percent (100%) of the difference between the Option Price of the underlying ISO and the Fair Market Value of the Shares subject to the underlying ISO at the time the Tandem SAR is exercised; and (c) the Tandem SAR may be exercised only when the Fair Market Value of the Shares subject to the ISO exceeds the Option Price of the ISO.

7.6 Payment of SAR Amount. Upon the exercise of a SAR, a Participant shall be entitled to receive payment from the Company in an amount determined by multiplying:

- (a) The difference between the Fair Market Value of a Share on the date of exercise over the Grant Price; by
- (b) The number of Shares with respect to which the SAR is exercised.

At the discretion of the Committee, the payment upon SAR exercise may be in cash, in Shares of equivalent value, in some combination thereof, or in any other manner approved by the Committee at its sole discretion. The Committee's determination regarding the form of SAR payout shall be set forth in the Award Agreement pertaining to the grant of the SAR.

7.7 Termination of Employment. The impact of a termination of a Participant's employment or service as a Director on a SAR's vesting and exercise period shall be determined by the Committee, in its sole discretion, in the Participant's Award Agreement, and need not be uniform among SAR grants or Participants.

7.8 Nontransferability of SARs. Except as otherwise provided in a Participant's Award Agreement, no SAR granted under the Plan may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Further, except as otherwise provided in a Participant's Award Agreement, all SARs granted to a Participant under the Plan shall be exercisable during his or her lifetime only by such Participant.

7.9 Other Restrictions. The Committee shall impose such other conditions and/or restrictions on any Shares received upon exercise of a SAR granted pursuant to the Plan as it may deem advisable. This includes, but is not limited to, requiring the Participant to hold the Shares received upon exercise of a SAR for a specified period of time.

To the extent deemed appropriate by the Committee, the Company may retain the certificates representing Shares of Restricted Stock in the Company's possession until such time as all conditions and/or restrictions applicable to such Shares have been satisfied or lapse.

If a Participant makes an election pursuant to Section 83(b) of the Code concerning a Restricted Stock Award, the Participant shall be required to file promptly a copy of such election with the Company.

Neither an Award nor any benefits arising under this Plan shall constitute an employment contract with the Company and, accordingly, subject to Article 3 and Section 13.1, this Plan and the benefits hereunder may be terminated at any time in the sole and exclusive discretion of the Committee without giving rise to any liability on the part of the Company, its Affiliates, and/or its Subsidiaries.
