Item 1.01 Entry Into a Material Definitive Agreement.

Asset Purchase Agreement

ImaRx Therapeutics, Inc. (the Company) entered into an Asset Purchase Agreement with WA 32609, Inc., a Delaware corporation (Purchaser) dated June 15, 2009 (the Agreement). Under the terms of the Agreement, Purchaser will purchase from the Company substantially all of the assets related to its therapy programs for the treatment of ischemic stroke as well as other vascular disorders associated with blood clots, including but not limited to, the Company's clinical-stage SonoLysis product candidate, which involves the administration of Company's proprietary MRX-801 microspheres, a proprietary formulation of a lipid shell encapsulating an inert biocompatible gas, and ultrasonic device technologies to penetrate and break up blood clots and restore blood flow to oxygen deprived tissues (the business assets). The purchase price paid by Purchaser to the Company for the business assets will be \$500,000 in cash, subject to certain potential adjustments specified in the Agreement. \$400,000 of the cash consideration will be paid at closing and the remaining \$100,000 will be placed into an escrow account to satisfy certain claims by Purchaser that may arise post-closing. Following expiration of an approximately six (6) month holdback period the remaining proceeds will be released from escrow and distributed to the Company.

The Board of Directors of the Company approved the transaction contemplated by the Agreement. The closing of the proposed transaction is expected to occur in the third quarter of 2009 and is subject to customary closing conditions and regulatory approvals, including stockholder approval.

The Company has made representations and warranties in the Agreement regarding the business assets. The assertions embodied in the representations and warranties were made for the purpose of the Agreement and are subject to certain qualifications and limitations agreed to by the Company in connection with negotiating the terms of the Agreement.

The Company has agreed to certain covenants, including covenants regarding the operation of the business prior to closing and covenants prohibiting the Company from soliciting or providing information or entering into discussions concerning proposals relating to alternative offers for the assets or ownership interests in the Company, except in limited circumstances to permit the Company's board of directors to comply with its fiduciary duties or as otherwise provided in the Agreement. The Company has agreed to a covenant not to compete with Purchaser for a period of two years following the closing.

Either the Company or Purchaser can terminate the Agreement in certain specified instances, and the Agreement provides that under certain circumstances, each may be required to pay the other \$100,000 upon termination.

Item 8.01 Other Events.

The transaction with the Purchaser arose out of the Company's efforts to seek out strategic alternatives for its clinical-stage SonoLysis program and other Company assets. The Company will continue to evaluate other opportunities involving the Company and its remaining assets.
