Table of Contents**II. BUSINESS****1. Business Overview****A. Industry Characteristics**

As of June 30, 2009, the number of domestic mobile phone subscribers reached 47.1 million and, with a 95.6% penetration rate, the Korean mobile communication market can be considered to have reached its maturation stage. However, considering the number of European countries with penetration rates exceeding 100%, additional future growth of the domestic market may be possible.

The Korean mobile communications market continues to improve with the help of advances in network-related technology evidenced by the world's first commercialization of CDMA2000 1x, CDMA 1x EV-DO, and the development of highly advanced handsets that enables the provision of convergence services for multimedia contents, mobile commerce, telematics, satellite DMB, digital home services and other related contents.

C. Domestic and Overseas Market Conditions

The Korean mobile communication market includes the entire population of Korea with mobile communication service needs, and almost every Korean is considered a potential user. Although demand has primarily been in the domestic market, as the business territory expands to overseas market, the size of overseas sales is expected to grow in the near future. Seasonal and economic fluctuations have much less impact on the Korean mobile communication market compared to other industries.

5. Derivative Transactions

In order to hedge risks related to fluctuations in currency exchange rates and interest rates, the Company enters into currency swap contracts and interest rate swap contracts. The gain or loss generated from the derivatives contracts is recognized as the gains/losses for the current period or other comprehensive income/loss, in accordance with Korean GAAP. Fair value of our derivatives is calculated using our transaction bank's valuations. In accordance with the derivatives contracts, our estimated gain/loss on the date of expiration is zero.

A. Currency Swap**(1) Purpose of Contracts: Currency Exchange Rate Risk Hedging****(2) Contract Terms****Currency swap contract applying cash flow risk hedge accounting**

The Company has entered into a fixed-for-fixed cross currency swap contracts with three banks including Citibank in order to hedge the foreign currency risk of unguaranteed U.S. dollar denominated bonds (face amounts totaling US\$ 300,000,000) issued on April 1, 2004. As of June 30, 2009, in connection with unsettled foreign currency swap contracts to which the cash flow risk hedge accounting is applied, an accumulated loss on valuation of derivatives amounting to Won 9,014,479,000 (excluding tax effect

2. Contingent Liabilities**A. Material Legal Proceedings**

(1) Claim for damages by G. Mate Inc.

(a) Details: G.Mate alleged that the Company had engaged G.Mate to develop and deliver certain PDA units, but the Company subsequently refused to take delivery of such units. We appealed against G.Mate's claim for approximately Won 4 billion in damages.

(b) Date of the Appeal: February 3, 2009

Table of Contents

(c) Parties to the lawsuit: G.Mate Inc. (plaintiff) vs. the Company (defendant)

(d) Progress: A mediation requested by G.Mate could not reach an agreement (in January 2007) thus an action for monetary damages was brought before the Seoul Central District Court, to which seven creditors of G.Mate, including DNF Consulting Co., Ltd., requested intervenient participation as successors to part of the claim. On December 4, 2008, the trial court awarded the plaintiffs approximately Won 420 million in damages, to which all of plaintiff, defendant and successors appealed, and the case was submitted as of February 3, 2009 and is currently pending before the Seoul High Court. Two trial sessions were held on May 19, 2009 and June 25, 2009.

(e) Future court dates and the Company's position: The third trial session is scheduled on August 20, 2009. As to the denied claims concerning the YP3600 model, the Company will continue its defense that no valid contract was executed. As to the partial loss concerning the YP3700 model, the Company will do its best to question the statute of limitations and contest the alleged damage claims to either reduce the award amount or to get the claim completely dismissed.

(f) Impacts on operation and finance: As the original judgment was found in our favor in most of the disputed amount except Won 420 million, a similar judgment will not materially adversely impact the Company's operation and finance. However, as both parties to the lawsuit appealed, it is difficult to anticipate the outcome of the appeals proceedings with certainty. These results and analysis on impact are only anticipations. Actual results of the litigation and actual impact on the Company's operations and finances may differ depending on future events.

B. Other Matters

The Company has no other blank bills, mortgage bills, assumption of debt agreement or other contingent liabilities.

3. Status of sanctions, etc.

A. Status of sanctions

The Company was sanctioned with a fine of Won 50 million on December 30, 2008 for a violation of Telecommunications Law involving its mismanagement of privacy policy. The Company continues to improve related system security and is implementing system enhancements, such as introduction of scanning devices, to avoid unnecessary keeping of applications at the distributor level.

Due to the Company's ineffective measures taken with respect to phone numbers that are used for sending illegal unsolicited bulk messages, the Korea Communications Committee ordered the Company to improve its work procedures. The Company expects to complete the upgrade of the related computer system to prevent illegal messages by September 2009.

In addition, on January 21, 2009, the Company was sanctioned for unfair business practices with a fine of Won 1.268 billion by the Fair Trade Commission of Korea along with a correction order of its policy of restricting certain rate plan subscribers from using third party portal contents. The Company has taken efforts to educate applicable divisions of the issue and to improve the level of the voluntary compliance program to comply with fair trade laws to prevent a repeat of the same violation.

Also on February 3, 2009, the Company received a correctional order and a fine of Won 500 million involving an unfair trade interference practice including refusal of applications for subscription for certain PDA phones distributed by third party manufacturers. The Company paid fines related to the sanction and is currently seeking a suspension of execution and is preparing an administrative litigation.

Independent Accountants' Review Report

English Translation of a Report Originally Issued in Korean

To the Stockholders and Board of Directors of

SK Telecom Co., Ltd.

We have reviewed the accompanying non-consolidated statement of financial position of SK Telecom Co., Ltd. (the Company) as of June 30, 2009, the related non-consolidated statements of income for the three months and six months ended June 30, 2009 and 2008, and non-consolidated statements of changes in stockholders' equity and cash flows for the six months ended June 30, 2009 and 2008, all expressed in Korean won. These non-consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these non-consolidated financial statements based on our reviews.

We conducted our reviews in accordance with standards for review of interim financial statements in the Republic of Korea. Those standards require that we plan and perform the review to obtain moderate assurance as to whether the non-consolidated financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data, and this provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our reviews, nothing has come to our attention that causes us to believe that the non-consolidated financial statements referred to above are not presented fairly, in all material respects, in conformity with accounting principles generally accepted in the Republic of Korea.

We have previously audited, in accordance with auditing standards generally accepted in the Republic of Korea, the non-consolidated statement of financial position of the Company as of December 31, 2008, and the related non-consolidated statements of income, appropriations of retained earnings, changes in stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated January 30, 2009, we expressed an unqualified opinion on those non-consolidated financial statements. The accompanying non-consolidated statement of financial position as of December 31, 2008, which is comparatively presented, does not differ in material respects from such audited non-consolidated statement of financial position.

Our reviews also comprehended the translation of the Korean won amounts into U.S. dollar amounts and nothing has come to our attention that causes us to believe that such translation has not been made in conformity with the basis stated in Note 2. Such U.S. dollar amounts are presented solely for the convenience of readers of financial statements.

Accounting principles and review standards and their application in practice vary among countries. The accompanying financial statements are not intended to present the financial position, results of operations, changes in stockholders equity and cash flows in accordance with accounting principles and practices generally accepted in countries other than the Republic of Korea. In addition, the procedures and practices utilized in the Republic of Korea to review such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying non-consolidated financial statements are for use by those knowledgeable about Korean accounting procedures and review standards and their application in practice.

On the other hand, the bond holders may redeem their notes at 100% of the principal amount on April 7, 2012 (3 years from the issuance date). The conversion right may be exercised during the period from May 18, 2009 to March 24, 2014 and the number of common shares to be converted as of June 30, 2009 is 1,999,997 shares.

Conversion of notes to common shares may be prohibited under the Telecommunications Law or other legal restrictions which restrains foreign governments, individuals and entities from owning more than 49% of the Company's voting stock, if this 49% ownership limitation is violated due to the exercise of conversion rights. In this case, the Company will pay a bond holder as cash settlement determined at the average price of one day after a holder exercises its conversion right or the weighted average price for the following five or twenty business days. The Company intends to sell treasury shares held in trust by the Company that corresponds to the number of shares of common stock that would have been delivered in the absence of the 49% foreign shareholding restrictions. Unless either previously redeemed or converted, the notes are redeemable at 100% of the principal amount at maturity.

During the six months ended June 30, 2009, no conversion was made.
