Statement Regarding Forward-Looking Statements

This document includes forward-looking statements which generally relate to future events or future performance. In some cases, you can identify forward-looking statements by terminology such as may, will, should, it is likely, expect, plan, anticipate, believe, estimate, predict, potential or the negative of these terms or other comparable terminology.

All statements (other than statements of historical fact) included in this document that address activities, events or developments that will or may occur in the future, including such matters as changes in commodity prices and market conditions (for gold and the Shares), the Trust's operations, the plans of the World Gold Trust Services LLC (the Sponsor) and references to the Trust's future success and other similar matters are forward-looking statements.

Investors are cautioned that these statements are only projections. Actual events or results may differ materially. These statements are based upon certain assumptions and analyses the Marketing Agent made based on its perception of historical trends, current conditions and expected future developments, as well as other factors believed appropriate in the circumstances. Whether or not actual results and developments will conform to the Marketing Agent's expectations and predictions, however, is subject to a number of risks and uncertainties, including the factors identified in the Risk Factors section of the Prospectus filed with the SEC and in other filings made by the Trust from time to time with the SEC. Consequently, all the forward-looking statements made in this material are qualified by these cautionary statements, and there can be no assurance that the actual results or developments the Sponsor or Marketing Agent anticipates will be realized or, even if substantially realized, that they will result in the expected consequences to, or have the expected effects on, the Trust's operations or the value of the Shares. Neither the Sponsor, Marketing Agent nor any other person assumes responsibility for the accuracy or completeness of the forward-looking statements. Neither the Trust, Marketing Agent nor the Sponsor is under a duty to update any of the forward-looking statements to conform such statements to actual results or to reflect a change in the Sponsor's or Marketing Agent's expectation or projections.

The value of the Shares relates directly to the value of the gold held by the Trust (less Trust expenses) and fluctuations in the price of gold could materially adversely affect an investment in the Shares.

Investors should be aware that there is no assurance that gold will maintain its long-term value in terms of purchasing power in the future. In the event that the price of gold declines, the Sponsor and the Marketing Agent expect the value of an investment in the Shares to similarly decline proportionately.
