Note:

- (a) *Net income of the three months ended September 30, 2011 included interest income of \$0.6 million, exchange gain of \$0.9 million and a deferred tax credit of \$0.4 million arising from the tax losses of Wuxi FPC (Flexible Printed Circuit) business, whereas the actual utilization of such deferred tax asset depends on future profit streams of that business.*
- (b) *Net income of the nine months ended September 30, 2011 included interest income of \$2.1 million, exchange gain of \$3.5 million and a deferred tax credit of \$2.1 million arising from the tax losses of Wuxi FPC (Flexible Printed Circuit) business, whereas the actual utilization of such deferred tax asset depends on future profit streams of that business.*

In addition to the results in the table above determined in accordance with accounting principles generally accepted in the United States (US GAAP), management utilizes a measure of operating income / (loss), net income / (loss) and earnings (loss) per share on a non-GAAP basis that excludes certain income and expenses to better assess operating performance. Those non-GAAP financial measures exclude certain items, such as share-based compensation expenses and employee severance benefits in PRC subsidiaries. By disclosing the non-GAAP information, management intends to provide investors with additional information to analyze the Company's performance, core results and underlying

trends. Non-GAAP information is not determined using US GAAP; therefore, the information is not necessarily comparable to other companies and should not be used to compare the Company's performance over different periods.

Non-GAAP information should not be viewed as a substitute for, or superior to, net income/(loss) or other financial data prepared in accordance with US GAAP as measures of our operating results or liquidity. Users of this non-GAAP information should consider the types of events and transactions for which adjustments have been made. The table below provides a reconciliation of non-GAAP amounts to amounts reported under US GAAP.

SUPPLEMENTARY INFORMATION (UNAUDITED) IN THE THIRD QUARTER OF 2011

1. Quarterly Sales Breakdown

(In thousands of US Dollars, except percentage information)

Quarter	2011	2010	YoY(%)	YoY(%)
			(Quarterly)	(Quarterly accumulated)
1 st Quarter	\$ 161,896	\$ 79,266	104.2	104.2

3 rd Quarter	\$ 147,438	\$ 174,744	(15.6)	24.2
4 th Quarter		\$ 166,498		
Total	\$ 457,039	\$ 534,420		

2. Breakdown of Net Sales by Product Segment (as a percentage of Total Net Sales)

Segments	2011		2010	
	Q3 (%)	YTD (%)	Q3 (%)	YTD (%)
Key Components Assembly (TCA)	87	86	71	73
Consumer Electronic and Communication Products (CECP)	13	14	29	27
	100	100	100	100

Prior to year 2010, the Company operated in three reportable segments – telecommunication components assembly (TCA), consumer electronics and communication products (CECP), and LCD products (LCDP). In 2010 we consolidated our business into two segments, TCA and CECP, following the merger of the Company's LCDP and TCA segments. Our chief operating decision maker reviews the segment results of TCA and CECP when allocating resources and assessing performance. The change in segment reporting was due to the following:

Most of the LCDP business has been LCD module assembly for telecommunication products since 2010, which is similar to the business operated by TCA. In view of the similarity of the products, the Company has merged the LCDP segment into the TCA segment; and

Since the merger, the combined segments can now be run by a single management team.

The segment information for 2010 time periods have been restated in order to conform to the change in presentation of segment reporting in 2011 in accordance with FASB ASC 280-10-50-34. The results of the former LCDP segment were included in the TCA segment in 2010. We continue to evaluate our segmentation. In reviewing our segmentation, we note that the Company discontinued CECP production for bluetooth headsets and calculators with two major box-built customers in the fourth quarter of 2010. Should the CECP segment fall below the threshold prescribed under Financial Accounting Standard Board (FASB) Accounting Standards Codification (ASC) 280-10-50-12, management may aggregate this segment to TCA. In addition, the Company's Flexible Printed Circuit Board (FPCB) business is too small to be designated as a separate business segment.

OPERATING RESULTS

Net sales in the third quarter of 2011 were \$147.4 million, down 15.6% from net sales of \$174.7 million in the same quarter of 2010. Gross profit of \$8.1 million in the third quarter 2011 decreased 54.6% from \$17.9 million in the same quarter last year. Gross profit margin in third quarter of 2011 decreased to 5.5%, down from 10.2% in the third quarter of 2010. The gross profit margin decrease was mainly due to three factors. First, product mix, box-built products with higher gross margin such as Bluetooth headset and calculators have been discontinued. Consistent with its long-term business strategy the Company is narrowing its focus to higher-growth, lower-margin business opportunities, such as key component assembly for telecommunication products, which leverage the Company's core strengths. Second, increased labor costs, including increases in basic wages for labor since last year decreased margins in the third quarter of 2011. Third, startup costs and operating losses at the Company's facility in Wuxi continued although our Wuxi facility was completed in 2009 and began manufacturing and assembling flexible printed circuit boards in 2010. Lower gross margins resulted in operating income of \$0.1 million in the third quarter of 2011, down from \$7.3 million in the third quarter of 2010. With interest income of \$0.6 million and currency exchange gains of \$0.9 million, the Company earned net income of \$1.1 million in the third quarter of 2011 compared with the \$7.6 million for the third quarter of last year.

For the nine months ended September 30, 2011, our net sales were \$457.0 million, an increase of 24.2% as compared to \$367.9 million in the same period last year. The Company's gross profit margin was 5.6% as compared to 10.1% in the same period of 2010. Gross profit was \$25.8 million, down 30.4% as compared to \$37.1 million in the same period last year. Operating income for the first nine months of 2011 was \$1.1 million, compared to operating income of \$10.5 million in the same period last year. Our net income for the nine months ended September 30, 2011 was \$6.1 million, or \$0.14 per share (diluted), as compared to net income of \$9.7 million, or \$0.22 per share (diluted), in the same period last year.

EXPANSION PROJECTS

The Company has two separate site-expansion projects in progress, one in Shenzhen and one in Wuxi. Both projects are critical to the Company's future growth and both depend upon the prompt action and cooperation of the local PRC government.

Following the report in the second quarter 2011, the raw land in Guangming Hi-Tech Industrial Park, Shenzhen, PRC, approximately 30 minutes driving distance from existing facilities in Gushu, Shenzhen and one hour driving distance from Hong Kong, has not yet been delivered to the Company. Although the

Company fully paid for the land use rights for this land four years ago and additionally compensated farmers occupying the land, the local Government has not yet indicated when the land will be released. The Company is actively working to resolve this matter.

The other expansion project involves the acquisition of land use rights for approximately 500,000 square feet of raw land adjacent to the Company's operational manufacturing facility in Wuxi in order to construct structures, such as dormitories, canteens, labor activity centers, research laboratories, and testing and training centers, to support operations at the Wuxi manufacturing facility. The local Wuxi government has indicated that it strongly supports the Company's planned expansion and development. However, the project was delayed in the third quarter while revisions were made to the Company's expansion plans to conform with recently identified zoning and environmental regulations restricting usage of the land originally under consideration. With continued local government support, the Company expects to move forward with the initial purchase of land use rights in the fourth quarter of 2011.

Non-GAAP Financial Information

Non-GAAP operating income for the third quarter of 2011 was \$0.1 million, or \$0.00 per share (diluted), compared to \$7.3 million, or \$0.16 per share (diluted) in the third quarter of 2010. Non-GAAP net income for the third quarter of 2011 was \$1.1 million or \$0.02 per share (diluted), compared to \$7.6 million, or \$0.17 per share (diluted), in the third quarter of 2010.

COMPANY OUTLOOK

The Company has sustained year-to-date revenue growth of 24.2% at the end of third quarter 2011, but third quarter revenue growth that normally follows the second quarter seasonal slow period was hindered by global economic conditions. The significant reduction in the Consumer Electronic and Communication Product (CECP) business segment revenue year-to-date as a percentage of total company revenue resulted from the Company's continuing focus on core competencies in the Telecommunications Key Components Assembly (TCA) segment. The Company has identified significant revenue growth opportunities within this segment assembling telecommunication product LCD modules for Japanese multinational corporations (MNCs) that supply global customers.

The Company believes global demand for telecommunications subassemblies will continue to grow in the long term. The Company is well-positioned to benefit from this expected trend with plans to increase manufacturing capacity for telecommunications subassemblies in Wuxi and in Shenzhen in a two-phase capital investment program over the next nine months. In the third quarter the Company began Phase I of the program which involves investing about \$70 million in LCD module manufacturing equipment and facilities in the Wuxi site. Phase II of the program, an additional investment in LCD module manufacturing equipment and facilities in the Shenzhen site of about \$60 million, is expected to begin in early 2012.

The capacity resulting from the Company's investment program is planned to meet growing global demand for LCD modules in devices such as smart phones and tablets. The Company is actively engaged in negotiations with customers who forecast demand with potential to more than double the Company's 2012 sales revenue from 2011 revenue levels. But firm orders have not yet been received.

Mass production resulting from Phase I of the investment program is projected to begin near the end of the fourth quarter of 2011. However, as of the end of the third quarter the Company had not yet received binding customer commitments to production volumes. Success of the expansion program is at risk until

negotiations are concluded and the Company has firm orders in hand. In addition, the LCD module assembly business is highly competitive. Future increases in sales revenue are not expected to relieve pressure on margins. Continuing inflation in China and appreciation of the PRC renminbi are expected to further increase overhead and cost pressure on margins, necessitating ongoing cost control measures to sustain profitability.

PAYMENT OF QUARTERLY DIVIDENDS FOR 2011 AND 2012

As announced on November 1, 2010, the Company resumed payment of quarterly dividends in 2011. All quarterly dividends scheduled for payment in 2011 have been paid as scheduled. The following table repeats and updates the previously announced schedule for declaration and payment of quarterly dividends in 2011.

Quarterly Payment	Record Date	Payment Date	Dividend (per share)	Status
Q1 2011	December 31, 2010	January 20, 2011	\$0.05	PAID
Q2 2011	March 31, 2011	April 20, 2011	\$0.05	PAID
Q3 2011	June 30, 2011	July 20, 2011	\$0.05	PAID
Q4 2011	September 30, 2011	October 20, 2011	\$0.05	PAID
		Total for Full Year 2011	\$0.20	

We are pleased to announce that, considering the Company's cash position and the promising outlook for continued profitable growth in 2012, our Board of Directors has determined to increase quarterly dividend payments in 2012 according to the Schedule set forth below.

Quarterly Payment	Record Date	Payment Date	Dividend (per share)
Q1 2012	December 31, 2011	January 20 - 31, 2012	\$0.07
Q2 2012	March 31, 2012	April 20 - 30, 2012	\$0.07
Q3 2012	June 30, 2012	July 20 - 31, 2012	\$0.07
Q4 2012	September 30, 2012	October 20 - 31, 2012	\$0.07
		Total for Full Year 2012	\$0.28

The Company's decision to continue dividend payments in 2012 does not necessarily mean that dividend payments will continue thereafter. Whether future dividends will be declared will depend upon the Company's future growth and earnings, of which there can be no assurance, and the Company's cash flow needs for future expansion. Accordingly, there can be no assurance that cash dividends on the Company's common shares will be declared beyond those declared for 2012, what the amounts of such dividends will be or whether such dividends, once declared for a specific period, will continue for any future period, or at all.

FORWARD-LOOKING STATEMENTS AND FACTORS THAT COULD CAUSE OUR SHARE PRICE TO DECLINE

This news release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Actual results could differ materially from those projected in these forward-looking statements as a result of a number of factors, including: a deterioration of the markets for the Company's customers' products and the global economy as a whole, which could negatively impact the Company's revenue and the ability of the Company's customers to pay for the Company's products; customer bankruptcy filings; the sufficiency of the Company's cash position and other sources of liquidity to operate its business; the negative effects of increased competition on the Company's revenues and margins; and one or more of the factors discussed in Item 3. Key Information Risk Factors in the Company's Annual Report on Form 20-F for the year ended December 31, 2010 as filed on March 16, 2011 with the Securities and Exchange Commission. The words believe, may, will, project, continue, anticipate, intend, expect, and similar words are intended to identify forward-looking statements. Forward-looking statements include both the express and implied statements made in Expansion Projects, Company Outlook and elsewhere in this news release, particularly statements regarding: management's intention to focus its business on key components assembly for telecommunication products and expectations expressed regarding the action and cooperation of the local PRC government as to our expansion projects in Shenzhen and Wuxi; the expansion of our manufacturing capacity to meet the growing demand for LCD modules we anticipate; the development of new product segments and new customer bases; the perception of increasing inflation and appreciation of PRC renminbi; and the Company's ability to control costs and to invest in new technology.
