RIVIERA TOOL COMPANY
NOTES TO FINANCIAL STATEMENTS
NOVEMBER 30, 2006

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim financial statements (the "Financial Statements") of Riviera Tool Company (the "Company") have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, the Financial Statements do not include all the information and footnotes normally included in the annual financial statements prepared in accordance with generally accepted accounting principles.

In the opinion of management, the Financial Statements have been prepared and reflect all adjustments (consisting only of normal recurring adjustments) necessary to present fairly such information in accordance with generally accepted accounting principles. These Financial Statements should be read in

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

conjunction with the financial statements and footnotes thereto included in the Company's Form 10-K dated November 30, 2006, for the fiscal year ended August 31, 2006.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During fiscal 2006, the Company sustained a net loss of \$1,639,218. This loss resulted in an accumulated deficit of \$14,787,953 as of August 31, 2006. These factors, among other things, raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company believes that the revolving line of credit, overadvance facility and the funds generated from operations, should be sufficient to cover anticipated cash needs through fiscal 2007. However, depending on Company's primary lenders' willingness to extend the due date of the overadvance facility as well as the level of future sales, terms of such sales, financial performance and cash flow of existing contracts such financing may not be sufficient to support operations. Therefore, the Company may be required to seek additional sources of funding. The results of operations for the three-month period ended November 30, 2006 may not be indicative of the results to be expected for the full year.

Basic earnings per share ("EPS) excludes dilution and is computed by dividing earnings/(loss) available to common stockholders by the weighted-average common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised. Diluted EPS is computed by increasing the weighted average number of shares outstanding by the dilutive effect, if any, of the issuance of common stock for options outstanding under the 1996 Incentive Employee Stock Option Plan, as amended, 1998 Key Employee Stock Option Plan, convertible debt and the other non-employee options. Weighted average shares issuable upon the exercise of stock options that were not included in the (loss) earnings per share calculations were 831,000 in the quarter ended November 30, 2006.

In July 2006, the FASB issued FIN 48, "Accounting for Uncertainty in Income Taxes", which clarifies the accounting for uncertainty in tax positions. This Interpretation requires that the Company recognize in its financial statements, the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 are effective for our fiscal year ended August 31, 2007, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. The Company is currently evaluating the impact of adopting FIN 48 on its financial statements.

	=====	=====

On May 17, 2005, the Company entered into a new senior loan facility with Laurus Master Fund LTD. ("Laurus"). In connection with such financing, the Company entered into a Securities Purchase Agreement and a Security Agreement (collectively, the "Agreements"). Pursuant to these Agreements, the Company received a Secured Convertible Term Loan (the "Term Loan") in the aggregate principal amount of \$3.2 million as well as a Revolving Credit Note (the "Revolving Facility") with a maximum availability of \$11.0 million. The Revolving Facility is convertible by Laurus into shares of the Company's common stock at a rate of \$1.66 per share. The Agreements are subject to certain restrictions and various covenants, including a borrowing base formula of ninety percent of eligible accounts receivable and fifty percent of the lesser of work-in-process inventory or \$5 million. The Term Loan monthly installments may be paid in Company common stock if the average closing price of the Company's common stock for five trading days prior to due date is greater or equal to 115%

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

of the fixed conversion price (\$1.66) and the amount of such conversion does not exceed 25% of the aggregate trading dollar volume of the Company's common stock for the period of 22 trading days immediately preceding such conversion date. In addition, the Company issued an option to purchase 650,000 shares of its Common Stock at an exercise price of \$.01. The Company recorded the cost of this option as debt discount. The debt discount was determined by calculating the difference between the closing price of the stock on May 17, 2005 (the date of the option issuance) and the option exercise price of \$.01 per share. The closing price on May 17, 2005 was \$.93 per share, thus the total debt discount of the option was \$702,000. The debt discount is being amortized over the term of the financing. During the first quarter of fiscal 2006 and 2007 the Company recorded \$22,750 and \$58,500 in debt discount expense, respectively.

Laurus has agreed that it will not convert either the Term Loan or any loans under the Revolving Facility into shares of the Company's Common Stock in amounts that would cause it to obtain an aggregate beneficial ownership of the Company's Common Stock exceeding 4.99% at any given time (or 19.99% in the event such limitation is suspended

8

upon the occurrence of an "event of default" under any of the Agreements). The Company and Laurus agreed to customary terms and conditions including, but not limited to, the filing of a registration statement within 60 days from the date of the Agreements of shares of the Company's Common Stock issuable (i) upon exercise of the Option, (ii) upon conversion of the Term Loan, and (iii) upon conversion of up to \$2.0 million under the Revolving Facility. The Company has an obligation to register an additional \$2.0 million under the Revolving Facility upon issuance by the Company of an additional note evidencing such indebtedness.

On December 9, 2005, the Company agreed to convert \$150,000 of principal of its Convertible Term Note into 272,727 shares of common stock at a conversion rate of \$.55 per share.

On September 1, 2006, the Company agreed to convert \$50,000 of principal of its Convertible Note Payable into 142,857 shares of common stock at a conversion rate of \$.35 per share.

On October 31, 2006, the Company amended and restated the Overadvance Side Letter Agreement with Laurus. Under the original Overadvance Side Letter Agreement, dated May 17, 2005, the Company received a loan in excess of the formula amount allowable under the Revolving Facility totaling \$2.3 million. As of August 31, 2006, the Company had lowered the overformula loan balance to \$550,000. Under the October 31, 2006 amended agreement, such amount was increased to \$1,550,000 and will expire June 30, 2007.

As of November 31, 2006, the Company was in non-compliance with its Notes Payable to Bank for delinquent payments. As this note payable is subordinate to the Convertible Revolving Note, Overformula and Secured Convertible Term Note there is no acceleration clause under which they can accelerate payment. As such, the debt is recorded as long-term, net of current portion of long-term debt.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENT; RISKS AND UNCERTAINTIES

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

CERTAIN INFORMATION INCLUDED IN THIS QUARTERLY REPORT ON FORM 10-Q AND OTHER MATERIALS FILED OR TO BE FILED BY THE COMPANY WITH THE SECURITIES AND EXCHANGE COMMISSION CONTAIN CERTAIN STATEMENTS THAT MAY BE CONSIDERED FORWARD-LOOKING. FOR THIS PURPOSE, ANY STATEMENTS CONTAINED IN THIS REPORT THAT ARE NOT STATEMENTS OF HISTORICAL FACT MAY BE DEEMED TO BE FORWARD-LOOKING STATEMENTS. WITHOUT LIMITING THE FOREGOING, WORDS SUCH AS "MAY," "WILL," "EXPECT," "BELIEVE," "ANTICIPATE," "UNDERSTANDING," OR "CONTINUE," THE NEGATIVE OR OTHER VARIATION THEREOF, OR COMPARABLE TERMINOLOGY, ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS. IN ADDITION, FROM TIME TO TIME, THE COMPANY MAY RELEASE OR PUBLISH FORWARD-LOOKING STATEMENTS RELATING TO SUCH MATTERS AS ANTICIPATED FINANCIAL PERFORMANCE, BUSINESS PROSPECTS, TECHNOLOGICAL DEVELOPMENTS AND SIMILAR MATTERS. THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995 PROVIDES A SAFE HARBOR FOR FORWARD-LOOKING STATEMENTS. IN ORDER TO COMPLY WITH THE TERMS OF THE SAFE HARBOR, THE COMPANY NOTES THAT A VARIETY OF FACTORS COULD CAUSE THE COMPANY'S ACTUAL RESULTS AND EXPERIENCE TO DIFFER MATERIALLY FROM THE ANTICIPATED RESULTS OR OTHER EXPECTATIONS EXPRESSED IN THE COMPANY'S FORWARD-LOOKING STATEMENTS. THESE STATEMENTS BY THEIR NATURE INVOLVE SUBSTANTIAL RISKS AND UNCERTAINTIES, AND ACTUAL RESULTS MAY DIFFER MATERIALLY DEPENDING UPON A VARIETY OF FACTORS, INCLUDING CONTINUED MARKET DEMAND FOR THE TYPES OF PRODUCTS AND SERVICES PRODUCED AND SOLD BY THE COMPANY.

CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon the Company's Financial Statements. These financial

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

statements have been prepared in accordance with accounting principles generally accepted in the United States of America. These principles require the use of estimates and assumptions that affect amounts reported and disclosed in the financial statements and related notes. The accounting policies that may involve a higher degree of judgment, estimates and complexity include revenue recognition using percentage of completion estimates and the assessment of asset impairments. The Company uses the following methods and assumptions in its estimates.

- Revenue recognition - The Company recognizes revenue on time and material contracts utilizing the completed-contract method. Revenue is recognized on all other contracts utilizing the percentage-of-completion method. Under the completed-contract method, the contract is considered complete when all costs except for insignificant items have been incurred and the project has been approved by the customer. Under the percentage-of-completion method, estimated contract earnings are based on total estimated contract profits multiplied by the ratio of labor hours incurred to total estimated labor hours on the contract. Provisions for total estimated losses on contracts in process are recognized in the period such losses are determined. Changes in job performance, conditions and estimated profitability may result in revisions to costs and income and are recognized in the period such revisions are determined.
- Impairment of long-lived assets - The Company reviews long-lived assets for impairment if changes in circumstances or the occurrence of events suggest the remaining carrying value may not be recoverable. This review is performed using estimated future undiscounted cash flows. If the carrying value of a long-lived asset is considered to be impaired, an impairment charge is recorded for the amount that the carrying value of the long-lived asset exceeds its fair value.

BASIS OF PRESENTATION

The accompanying unaudited interim financial statements (the "Financial Statements") of Riviera Tool Company (the "Company") have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, the Financial Statements do not include all the information and footnotes

10

normally included in the annual financial statements prepared in accordance with generally accepted accounting principles.

In the opinion of management, the Financial Statements reflect all adjustments (consisting only of normal recurring adjustments) necessary to present fairly such information in accordance with generally accepted accounting principles. These Financial Statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's Form 10-K dated November 30, 2006, for the fiscal year ended August 31, 2006.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During fiscal 2006, the Company sustained a net loss of \$1,639,218. This loss resulted in an accumulated deficit of \$14,787,953 as of August 31, 2006. These factors, among other things, raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

unable to continue as a going concern.

The Company believes that the revolving line of credit, overadvance and the funds generated from operations, should be sufficient to cover anticipated cash needs through fiscal 2007. However, depending on Company's primary lenders' willingness to extend the due date of the overadvance facility as well as the level of future sales, terms of such sales, financial performance and cash flow of existing contracts such financing may not be sufficient to support operations. Therefore, the Company may be required to seek additional sources of funding.

The results of operations for the three-month period ended November 30, 2006 may not be indicative of the results to be expected for the full year.

COMPARISON OF THE THREE MONTHS ENDED NOVEMBER 30, 2005 TO THE THREE MONTHS ENDED NOVEMBER 30, 2006.

REVENUES

REVENUE	FIRST QUARTER ENDED		INCREASE/ (DECREASE)	PERCENT INCREASE/ (DECREASE)
	2005	2006		
Total Revenue	\$ 6.1m	\$ 4.3m	\$ (1.8)m	(30%)
Contract Backlog ..	\$ 12.9m	\$ 3.9m	\$ (9.0m)	(70%)
Shop Floor Hours ..	72,800	61,700	(11,100)	(15%)

Revenues for the three months ended November 30, 2006 totaled \$4.3 million as compared to \$6.1 million for the three months ended November 30, 2005, a decrease of \$1.8 million or 30%. This decrease was a result of the Company having a lower contract backlog at the start of the first quarter of 2006 as compared to 2005. The Company experienced a total of 61,700 shop floor hours for the first quarter of 2006 as compared to 72,800 in the first quarter of 2005, a decrease of 15%.

The Company's backlog of awarded contracts, which are all believed to be firm, was approximately \$3.9 million and \$12.9 million as of November 30, 2006 and 2005, respectively. The Company expects all backlog contracts will be reflected in sales during fiscal year ending August 31, 2007.

The Company believes the domestic tooling industry continues to be unstable, as does the overall domestic automotive industry. With the prevalence of global sourcing and related pricing pressure issues, uncertainty to the domestic tooling industry will continue. These issues in conjunction with delayed new model developments have contributed to the Company's decreased backlog and related revenues. The Company recently has seen an increase in domestic quoting activity, which may result in future orders.

COST OF SALES

COST OF GOODS SOLD	ENDED		INCREASE/ (DECREASE)	PERCENT INCREASE/ (DECREASE)
	2005	2006		
Direct Costs	\$3.2m	\$1.5m	\$ (1.7)m	(53%)
Engineering Expense	\$0.6m	\$0.4m	\$ (0.2)m	(33%)
Manufacturing Overhead	\$1.7m	\$1.7m	\$ --	--
Total Cost of Goods Sold ..	\$5.5m	\$3.6m	\$ (1.9)m	(33%)
	====	====	=====	=====

Cost of goods sold decreased from \$5.5 million for the first quarter of fiscal 2006 to \$3.6 million for 2007 and, as a percent of sales, decreased from 90% for 2006 to 85% for 2007. Gross margin increased to 15% for 2007 from 10% for 2006. This 5 percent change in gross margin was impacted by a number of factors including volume and the mix of projects from the comparable quarter in the prior year and, changes in estimated costs to complete on projects in process. Direct costs (materials and labor) decreased by \$1.7 million, from \$3.2 million for 2006 to \$1.6 million for 2007. Engineering expense increased by \$133,000 from \$540,000 for 2006 to \$407,000 for 2007. Lastly, of the cost of goods sold, manufacturing overhead decreased by \$37,000 from \$1.71 million for 2006 to \$1.67 million for 2007. Additional details of these changes in cost of sales for the first quarters of fiscal 2006 and 2007 are as follows:

- Direct materials expense decreased from \$1.3 million for 2006 to \$0.3 million for 2007 and decreased as a percent of sales from 21% to 6%. This decrease was largely due to lower contract volume requirements and the mix of contracts. During the first quarter of 2007, much of the contracts in process were in the later stage of completion as compared to 2006 and resulted in lower direct material requirements and expense. Outside services expense decreased from \$585,000 for 2006 to \$117,000 for 2007 and as a percent of sales from 9% to 3%, respectively. This decrease was largely due to the Company contracts during 2007 being at a stage of completion whereas less outside machining, die patterns, laser cutting and heat treat services were required.
- Direct labor expense decreased from \$1.3 million for 2006 to \$1.2 million for 2007 however, as a percent of sales, increasing from 22% to 27%. This change was a result of the Company incurring a \$1.8 million decrease in revenues while direct labor expense decreased by only \$145,000. Of the total direct labor expense, regular or straight time decreased by \$34,000 however as a percent of sales, increased from 14% for 2006 to 19% for 2007. Overtime expense decreased from \$475,000 for 2006 to \$364,000 for 2007, however as a percent of sales, remained consistent at 8%.
- Engineering expense increased from \$540,000, 9% of sales, for 2006 to \$407,000, 9% of sales, for 2007. This decrease was due to the Company's decrease in awarded contracts and backlogs, and the resulting decrease in the number of engineering personnel necessary to fulfill the design and project management portions of the Company's current contract backlog.
- Manufacturing overhead was \$1.71 million or 28% of sales for 2006 as compared to \$1.68 million or 39% of sales for 2007. During 2007, decreases in manufacturing overhead were largely due to a \$34,000 decrease in perishable tool expense and a \$31,000 decrease in manufacturing supplies expense. These decreases were offset by increases of \$11,000 in utilities expense, \$9,000 maintenance supplies and machinery repairs, \$8,000 in general, health and workers compensation insurance expense and \$8,000 in building rent expense.

Selling and administrative expense increased from \$566,000 for the first quarter of 2006 to \$593,000 for 2007. As a percent of sales, selling and administrative expense increased from 9% for 2006 to 14% for 2007. The largest selling and administrative expense increases included \$26,000 in travel expenses and \$21,000 in legal and professional expense. These increases were offset by decreases of \$14,000 in public company and director fee expense, \$6,000 in 401(K) expense, as well as decreases in office supplies expense, office salaries expense and payroll tax expenses.

INTEREST EXPENSE

INTEREST EXPENSE	FIRST QUARTER ENDED		INCREASE/ (DECREASE)	PERCENT INCREASE/ (DECREASE)
	2005	2006		
Interest Expense...	\$465,000	\$436,000	\$(29,000)	(6%)

Interest expense decreased from \$465,000 for 2006 to \$436,000 for 2007. This decrease was largely due to the Company's mix of debt during the first quarter of 2007 as compared to 2006. The Company's higher interest debt during the first quarter of 2007 was lower than the same period of 2006. Offsetting this decreased interest expense, the Company incurred increased debt discount expense during the first quarter of 2007 as compared to 2006. During the first quarter of 2007, the Company recorded \$58,500 in debt discount expense versus \$22,750 in 2006.

The following table illustrates the Company's total long-term debt on a quarterly basis during fiscal 2007 and fiscal 2006.

FEDERAL INCOME TAXES

For the three months ended November 30, 2006, the Company recorded a valuation allowance of approximately \$123,000 to offset the income tax benefit utilizing a 34% statutory tax rate. For the three months ended November 30, 2005, the Company recorded a valuation allowance of approximately \$150,000 to offset the income tax benefit. For the year ended August 31, 2007, the Company anticipates utilizing a 34% statutory tax rate in establishing its provision for income taxes.

LIQUIDITY AND CAPITAL RESOURCES

LIQUIDITY AND CAPITAL RESOURCES	FIRST QUARTER ENDED	
	2005	2006
Cash Flow From/(Used in):		
- Operations	\$ (757,382)	\$479,319
- Investing Activities ...	\$ 7,912	\$(37,909)
- Financing Activities ...	\$ 787,680	\$(93,038)

During the three months ended November 30, 2006, the Company's cash from operating activities was \$479,000. This largely resulted from decreases of \$1.4 million in account receivables and \$164,000 in accrued liabilities offset an increase of \$330,000 in contracts in process and a decrease of \$944,000 in accounts payable. The Company utilized a portion of its cash from operating activities by decreasing overall debt by \$93,000.

The Company believes that the revolving line of credit and the funds generated from operations, should be sufficient to cover anticipated cash needs through fiscal 2007. However, depending on the Company's primary lenders willingness to extend the due date of the overformula facility as well as the level of future sales, terms of such sales, financial performance and cash flow of existing contracts, such financing may not be sufficient to support operations. Therefore, the Company may be required to seek additional sources of funding.
