## OPERATIONS REVIEW

Sales in the fourth quarter of 2008 were \$169.0 million, a decrease of 9.6% as compared to sales of \$186.9 million in the fourth quarter of 2007. Sales in the Company's TCA segment for the fourth quarter of 2008 decreased by 11.0% as compared to the same quarter of 2007 mainly because of the declining demand encountered in the mobile device market and the persistent pressure to lower unit prices. Sales in LCDP segment and CECP segment also dropped by 27.2% and 1.4%, respectively, during the fourth quarter of 2008 as compared to sales of the corresponding quarter of 2007. The decrease in sales in LCDP segment was principally a consequence of the decrease in sales of LCD modules products. Sales in our CECP segment declined principally because of lower sales of educational products and optical products, which declines were partially offset by an increase in sales of headsets containing Bluetooth<sup>®1</sup> wireless technology.

The Company's gross profit margin in the fourth quarter of 2008 was 8.7% compared to 11.3% in the fourth quarter of 2007, primarily resulting from the decline in 2008 sales. The lower margin was also caused by continuing price erosion, which was encountered in both TCA and LCDP segments. Gross profit in the fourth quarter of 2008 was \$14.6 million, a decrease of 30.4% as compared to \$21.0 million in the fourth quarter of 2007.

Net loss in the fourth quarter of 2008 was \$14.4 million (principally due to \$17.3 million impairment loss on goodwill), compared to net income of \$9.6 million reported in the fourth quarter of 2007. Excluding impairment loss on goodwill and compensation paid to employees who were laid off, Nam Tai was still able to report an operating income in the fourth quarter of 2008 of \$3.5 million, or \$0.08 per share (diluted), compared to operating income of \$7.7 million, or \$0.17 per share (diluted) in the fourth quarter of 2007. Basic and diluted loss per share in the fourth quarter of 2008 were \$0.32 per share, compared to basic and diluted earnings per share of \$0.21 in the fourth quarter of 2007.

Providing dramatic evidence of the prevailing global economic environment, Nam Tai recorded a monthly non-GAAP operating loss of \$800,000 in December 2008, a rare loss in any monthly, quarterly or annual period since 1989, in span of 20 years.

For the twelve months ended December 31, 2008, Nam Tai's sales were \$622.9 million, a decrease of 20.2% as compared to \$780.8 million in the same period of 2007. Gross profit was \$70.7 million, a decrease of 18.8% as compared to \$87.0 million in the same period in 2007. Operating income for the twelve months of 2008 decreased 84.3% to \$6.4 million, or \$0.14 per share (diluted), compared to \$40.7 million, or \$0.91 per share (diluted), in the same period in 2007. Net income was \$30.6 million, or \$0.68 per share (diluted), a decrease of 55.9% as compared to \$69.5 million or \$1.55 per share (diluted) in the same period of 2007.

### ***Non-GAAP Financial Information***

Non-GAAP operating income for the fourth quarter of 2008 was \$3.5 million, or \$0.08 per share (diluted), compared to non-GAAP operating income of \$9.6 million, or \$0.21 per share (diluted), in the fourth quarter of 2007.

Non-GAAP net income for the fourth quarter of 2008 decreased by 68.8% over the fourth quarter of 2007 to \$3.5 million, or \$0.08 per share (diluted), compared to \$11.2 million, or \$0.25 per share (diluted), in the fourth quarter of 2007.

Non-GAAP operating income for year 2008 was \$25.5 million, or \$0.57 per share (diluted), compared to non-GAAP operating income of \$43.0 million, or \$0.96 per share (diluted) for the same period of 2007.

Non-GAAP net income for the year 2008 was \$26.6 million or \$0.59 per share (diluted), a decrease of 38.3% as compared to \$43.1 million, or \$0.96 per share (diluted), for the same period of 2007.

#### **LIQUIDITY AND FINANCIAL RESOURCES**

Despite current economic conditions, Nam Tai's financial position remains strong with \$237.0 million cash on hand, out of which \$129.3 million was in the subsidiaries of NTEEP (a subsidiary of the Company listed on the Hong Kong Stock Exchange (Stock Code: 2633)) and was mainly located in the People's Republic of China (the PRC). Such cash is, accordingly, restricted from use outside of the PRC under its tight currency control policy. Net cash provided by operating activities in the fourth quarter was \$11.7 million. During the fourth quarter, the Company made capital expenditures of \$13.9 million and paid cash dividends of \$9.9 million to shareholders.

Nam Tai's cash on hand has been invested in term deposits, generating minimal income in current environment that offers low interest rates on such deposits. We are therefore seeking and exploring opportunities for our cash in excess of amounts needed to fund ongoing operations that offer quality, safety and the potential for higher returns.

The Company continues to exercise rigorous corporate governance and control policies and is not involved in trading of any debt securities or financial derivative products.

#### **OUTLOOK**

Under the current global economic downturn, we continue to experience weaker demand across all of our product segments. However, Nam Tai is financially sound with a strong cash position and adequate liquidity to weather these challenging market conditions. To offset the decline and potential further decline in our sales during 2009, management has remained focused on efforts to reduce cost, improve operating and manufacturing efficiencies and deliver advanced technologies and innovative manufacturing solutions that offer value to our customers. Recent actions taken to reduce costs and conserve cash include:

We have reduced headcount from 9,700 (as at the end of the third quarter of 2008) to 7,100 (as at the end of the fourth quarter of 2008), accounting for about 27% reduction of the total workforce from levels as at September 30, 2008. We continue to monitor effects of market conditions on the businesses of our customers and may reduce our workforce further if reduced customer demand and market conditions so require.

We have frozen salaries and are considering, in the worst scenario, additional steps to reduce employee compensation which depending on prevailing market conditions during 2009, could result in 2009 compensation reductions of up to 30 percent. Our management team will also step up internal control measures and work hard to look for effective ways to cut more costs.

We have determined *not* to declare dividends for 2008 to be paid in 2009 in order to maintain cash reserves during the continuing economic turmoil.

We have determined to postpone until at least mid-2009 the further implementation of our expansion plans for new factories additions, except for our new facilities in Wuxi, PRC, to be used for the manufacture of flexible printed circuit (FPC) boards and other components subassemblies. That project is on schedule and nearing completion.

Although we are taking a conservative position regarding expected demand during 2009 as the economic downturn continues or worsens, and expect further near-term declines in revenues that could even result in losses from operations during periods in 2009, we are nevertheless seeking to take advantage of

perceived opportunities to expand our market share in targeted areas. Accordingly, we plan to strengthen our sales force and customer and technical support by establishing local sales and support offices in Japan and Taiwan to increase our presence and better serve our customers in those markets. By seeking to capitalize on these opportunities, we hope to ensure a more robust future when end markets stabilize and the recovery cycle begins.

#### **DIVIDEND**

We have determined not to declare dividends for 2008 to be paid in 2009 in order to maintain cash reserves during the continuing economic turmoil.

These risks and uncertainties include whether the effects of management's efforts or actions to reduce costs, improve operating and manufacturing efficiencies will achieve material improvements or maintain gross margins, will offset expected declines in revenues, whether management's actions to capitalize on perceived opportunities in targeted markets, such as Japan and Taiwan will have a meaningful effect on sales or justify the funds expended in the process, whether management's cost reduction measures will enable Nam Tai to emerge from current economic conditions stronger or overcome or even cope with adverse global economic conditions generally or the fallout from such conditions on Nam Tai's business specifically, the effect of increasing taxes and labor costs from new tax and labor legislation in the PRC, and whether Nam Tai's decision to eliminate the declaration of dividends during 2009 (or beyond should conditions warrant) will be sufficient to conserve sufficient cash to fund future operations. Product orders and Nam Tai's operating results, available cash, cash flows, operating results and levels of capital expenditures may be adversely affected by numerous factors including adverse global economic conditions generally and the growing uncertainties and fears regarding the world's and nations' economies, Nam Tai's dependence on a few large customers; intense competition in the electronics industry in which the Company participates, particularly in markets that place constant pressure on the Company to reduce unit prices; continuing competitive pressures that adversely affect its profit margins; its operating results fluctuating and lacking predictability; risks relating to its doing business in the PRC such as arising from changes in governmental policies, trade regulation, currency exchange rates, particularly from the appreciation of the renminbi to the U.S. dollar which has occurred since June 2005 and has shown no signs of abating, inflation in the PRC and elsewhere globally; the timing and amount of significant orders from customers; Nam Tai's success at attracting*

*new customers, delays in product development and related product release schedules; obsolete inventory or product returns; warranty and other claims on products; technological shifts; the availability of competitive products of comparable quality at prices below Nam Tai's prices; maturing product life cycles of the products manufactured by Nam Tai; concessions Nam Tai may make on product sale terms and conditions; implementation of operating cost structures that align with revenue, the financial condition of Nam Tai's customers and vendors; the availability and increasing costs of materials and other components needed to manufacture Nam Tai's products; potential shortages of materials or skilled labor needed for its planned expansion projects or for its existing facilities; unforeseen engineering problems, work stoppages, weather interference, flood, earthquake or other acts of God, delays in obtaining or failure to obtain necessary permits from regulatory authorities needed for completion of its planned new Wuxi facility or to continue existing operations, other unexpected project delays or unanticipated cost increases; risks of expanding into a new area of the PRC where Nam Tai's has not yet conducted business, diversion of management's attention to expansion and its management to a new location and to other business concerns; the impact of legislative actions, higher insurance costs and potential new accounting pronouncements; a worsening of relations between the PRC and the United States or Taiwan; the effects of terrorist activity and armed conflict that cause disruptions in general economic activity and changes in Nam Tai's operations and security arrangements; the effects of travel restrictions and quarantines associated with major health problems, such as the Severe Acute Respiratory Syndrome or Bird Flu, on general economic activity; or other changes in general economic conditions, including an exacerbation of the current global economic weaknesses that continue to adversely affect, or further reduce, demand for Nam Tai's products. In addition, factors, among others, that could cause the market price of our shares to decline in the future could include further decreases in our revenues from those we reported in earlier periods, our operating results or those of our competitors or customers to meet the expectations of public market analysts and investors who follow the electronics manufacturing services, or EMS, industry, or one or more of the factors discussed in Item 3. Key Information Risk Factors in our Annual Report on Form 20-F for the year ended December 31, 2007 as filed on March 17, 2008 with the Securities and Exchange Commission (SEC).*
