THE CHINA FUND, INC.
CHAIRMAN'S STATEMENT (UNAUDITED)

Dear Stockholders,

In July of this year, Alan Tremain resigned as Chairman of your Fund and I was elected by the Board to replace him. Alan has been a Board member since 1992 and was Chairman for 6 years. He saw the Fund through a number of testing markets and was a primary architect of the highly successful rights offering in 2005. He will remain as a member of the Board until March 2008, when his current term expires. On behalf of the Board, I would like to thank Alan for his contributions to the Fund over the years.

Your Fund enjoyed a good year in 2006. The Chinese economy remained buoyant, attracting increasing interest from international investors. The breadth of the stock market increased. Although the listing of China's large banks and other state-owned enterprises gained the most media attention, your Fund looked to benefit from the increasing number of fast-growing entrepreneurial companies that are now coming to market. Also, last year's rights issue, which allowed the Fund's Listed Investment Manager, Martin Currie, Inc. to reallocate a substantial portion of the Fund's portfolio to A-shares, benefited the Fund. Foreign investors still represent less than 2% of the market capitalization of the domestic Chinese stock market, which indicates that your Fund is uniquely positioned. Overall, the net asset value of your Fund increased by 49.6% during the year, well ahead of the 32.3% increase in the benchmark index (MSCI Golden Dragon).

Looking to the future, there are some important economic and political developments which could benefit your Fund. The expectation is that the government will increase spending on healthcare and education, opening these sectors to increased private participation. Initiatives to stimulate the rural economy could be accelerated. Growing wealth could increase domestic and outbound tourism. In Taiwan, the expectation is that substantial changes in policy towards mainland China will have a positive effect on the Taiwanese market. These themes, already reflected in the portfolio, will be given added emphasis over the coming year.

The Chinese economy's growth is being accompanied by a high rate of regulatory and structural change. A number of these changes could favorably affect the direct investment portfolio of the Fund. Issues related to the State

Edgar Filing: CHINA FUND INC - Form N-CSR

Administration of Foreign Exchange circular adversely impacted many deal closings in 2005. These have now been resolved. New rules governing spin-offs from State Owned Enterprises could facilitate deal flow, a new bankruptcy law has been enacted and changes by the China Securities Regulatory Commission in the rules regulating offshore and domestic listings were introduced. Importantly the latter may aid exits from private companies through the A-share market. We therefore anticipate a higher level of activity in the direct investment portfolio during 2007.

Your Fund will, for the fourth year in succession, be paying a substantial cash dividend. Shareholders have the possibility of reinvesting their dividends through the Fund's Dividend Reinvestment and Cash Purchase Plan. For information on the Plan and for monthly updates detailing your Fund's investments, please visit the Fund's website (www.chinafundinc.com).

Thank you for your continued interest in The China Fund, Inc.

Sincerely,

James J. Lightburn
Chairman

THE CHINA FUND, INC.
INVESTMENT MANAGERS' STATEMENTS (UNAUDITED)

REVIEW OF LISTED INVESTMENTS

Over the past twelve months, the listed portfolio has outperformed the MSCI Golden Dragon index by 18.94% in relative terms, enjoying net asset value growth of 57%.

Martin Currie Inc.'s ("Martin Currie") investment approach hasn't changed. Martin Currie invests in what it considers the best Chinese companies wherever they are listed, with a bias towards smaller, management-owned companies and a focus on growth and entrepreneurship. Martin Currie believe that such companies will be the main beneficiaries of China's continuing economic growth.

Martin Currie has, however, substantially increased the Fund's weighting to Taiwan in the six months since the Fund's last interim report. During this period, investors have been nervous about the island, as President Chen Shui-bian has been embroiled in political turmoil and corruption scandals. Taiwan has thus lagged the rest of the Greater China region recently. But Martin Currie expects the market to appreciate the value of Taiwanese companies in early 2007, as the presidential election could bring matters into focus. All candidates for the presidency -- not just the Kuomintang party -- are likely to advocate closer links with the mainland.

On the mainland, a staggering amount of money has been looking for a home in the flotation of state-owned enterprises. Martin Currie generally does not invest in poorly managed state-owned companies, but Martin Currie deviated somewhat from these principles to invest in recent Initial Public Offerings ("IPOs"), including the Hong Kong listing of CHINA MERCHANTS BANK.

Martin Currie did not, however, participate in the world's largest IPO, that of INDUSTRIAL & COMMERCIAL BANK OF CHINA ("ICBC"). Martin Currie's reasoning was that a bank of that size could not change the culture of state-ownership so easily. Only last year, the Chinese government had to pay out US\$15 billion to

Edgar Filing: CHINA FUND INC - Form N-CSR

cover non-performing loans at ICBC. With the bank running some 18,764 outlets and a staff of 360,000, Martin Currie remains sceptical about ICBC'S ability to meet expectations -- not that this has stopped other investors from investing.

At the stock level, the Fund saw strong performance from CHINA METAL PRODUCTS and ZIJIN MINING GROUP, which rose by 270% and 268% respectively. CHINA MERCHANTS BANK, CHAODA MODERN AGRICULTURE, TRIPOD TECHNOLOGY and GOLDEN MEDITECH also outperformed. BIO-TREAT, BYD and CHINA FIRE SAFETY underperformed.

To increase the Fund's Taiwanese weighting, Martin Currie built new positions in tech firms LITE-ON IT and WAH LEE, as well as in the conglomerate, LIEN HWA INDUSTRIAL, and in FUBON, CHUNG HWA TELECOM and FAR EAST DEPARTMENT STORES. The Fund also added a holding in solder specialist SHENMAO, and invested in food giant UNI-PRESIDENT.

The Fund built an 11.6% stake in FAR EAST ENERGY, which is developing high-potential coal-bed methane properties in China's Shanxi province, and looks set to benefit from the government's efforts to develop alternative energy sources. Earlier in the year, the Martin Currie increased the Fund's exposure to the A-share market, adding to holdings in leading garment maker YOUNGOR, in YANGTZE POWER and in ZHENHUA PORT MACHINERY, and adding a holding in the utility HUANENG. Martin Currie's also invested in transformer

INVESTMENT MANAGERS' STATEMENTS (CONTINUED) (UNAUDITED)

manufacturer BAODING TIANWEI BAOBIAN ELECTRIC, whose subsidiary is the first and largest producer of photovoltaic cells in China.

Martin Currie cut some of the Fund's poor performing positions, including TECHFAITH, CHINA TING, COMBA, LITE-ON IT and NOVATEK. Although markets were unmoved by the arrest of Shanghai party boss Chen Liangyu, the Fund realized gains in SHIMAO, the Shanghai-focused property developer. Martin Currie also took advantage of strong interim results to realized gains in DIGITAL CHINA, and to sell SOLOMON SYSTECH. In Hong Kong, the Fund realized gains in CHINA LIFE INSURANCE.

Looking forward, Martin Currie expects valuations to be problematic. While growth prospects are good and liquidity is strong, this seems to be largely reflected in prices. Most good companies in the consumer sector, which has led the market for a while, now trade on forward P/E ratios of around 30x. With the exception of the inexpensive Taiwanese market, value resides only in deeply unfashionable sectors (textiles, infrastructure, IPPs) or undiscovered small caps.

THE CHINA FUND, INC.
INVESTMENT MANAGERS' STATEMENTS (CONTINUED) (UNAUDITED)

REVIEW OF DIRECT INVESTMENTS

As of October 31, 2006 the Fund's Direct Investment portfolio comprised the

Edgar Filing: CHINA FUND INC - Form N-CSR

following investments:

CAPTIVE FINANCE LIMITED ("CAPTIVE")

Captive is engaged in providing operating and financial leases for technology products (PCs, servers, telecom equipment etc.). It has operations in Greater China, Singapore, Malaysia and Europe.

CDW HOLDING LIMITED ("CDW")

CDW manufactures a range of component parts for mobile telephones, office equipment and household appliances manufactured by Japanese companies in China. Its fastest growing business is the assembly of backlight unit components (BLU) for the mobile phone industry. CDW continues to expand its production capacity to meet the demands of its customers. The company is listed on the Singapore Stock Exchange.

Shareholders of CDW approved the acquisition of the share capital of the Japanese operations of its Chief Executive Officer. This will facilitate the development of higher margin products and capture more manufacturing outsourcing business from Japanese multinationals.

For the nine months ended September 30, 2006, the Company reported revenue of US\$113.8 mn (up 51.0% year over year ("yoy")) but net profit of US\$4.3 mn (down 43.4% yoy). The profit decline mainly reflected continuous price pressure particularly in its BLU business prior to the introduction of the next product cycle.

TECO OPTRONICS CORP. ("TECO")

teco designs and manufactures organic light emitting diodes (OLED) displays. It has a technology licensing agreement with Kodak. OLED is a new flat screen display technology that is competing with liquid crystal displays (LCDs) and though demand is growing rapidly excess manufacturing capacity in the industry has eroded margins. teco is a subsidiary of the TECO Group, a large Taiwanese business group.

On July 8, 2005, the carrying value of teco was reduced to US\$150,000 from cost of about US\$590,000.

THE CHINA FUND, INC.
NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2006

NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The China Fund, Inc. (the "Fund") was incorporated under the laws of the State of Maryland on April 28, 1992, and is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended. The Fund's investment objective is long-term capital appreciation through investments in the equity securities of companies engaged in a substantial amount of business in the People's Republic of China. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Edgar Filing: CHINA FUND INC - Form N-CSR

USE OF ESTIMATES: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from these estimates. The significant estimates made as of, and for the year ended, October 31, 2006 relate to the valuation of the Fund's Direct Investments, as further discussed below.

SECURITY VALUATION: Portfolio securities listed on recognized United States or foreign securities exchanges are valued at the last quoted sales price in the principal market where they are traded. Listed securities with no such sales price and unlisted securities are valued at the mean between the current bid and asked prices, if any, of two brokers. Short-term investments having maturities of sixty days or less are valued at amortized cost (original purchase cost as adjusted for amortization of premium or accretion of discount) which when combined with accrued interest approximates market value. Securities for which market quotations are readily available are valued at current market value. Securities for which market quotations are not readily available are valued in good faith at fair value using methods determined by the Board of Directors. Direct Investments not traded on an exchange are valued at fair value as determined by the Board of Directors based on advice from the Direct Investment Manager.

REPURCHASE AGREEMENTS: In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

FOREIGN CURRENCY TRANSLATIONS: The records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities and income and expenses, including stock dividend tax expense, are translated on the respective dates of such transactions. Net realized gains and losses on foreign currency transactions represent net gains and losses from the disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments.

19

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

OPTION CONTRACTS: The Fund may purchase and write (sell) call options and put options provided the transactions are for hedging purposes and the initial margin and premiums do not exceed 5% of total assets. Option contracts are valued daily and unrealized gains or losses are recorded based upon the last sales price on the principal exchange on which the options are traded. The Fund will realize a gain or loss upon the expiration or closing of the option contract. When an option is exercised, the proceeds on sales of the underlying security for a written call option, the purchase cost of the security for a written put option, or the cost of the security for a purchased put or call option is adjusted by the amount of premium received or paid.

Edgar Filing: CHINA FUND INC - Form N-CSR

The risk in writing a call option is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying an option is that the Fund pays a premium whether or not the option is exercised. Risks may also arise from an illiquid secondary market or from the inability of counter parties to meet the terms of the contract.

EQUITY LINKED SECURITIES: The Fund may invest in equity-linked securities such as linked participation notes, equity swaps and zero-strike options and securities warrants collectively, ("Access Products"). Equity-linked securities are privately issued securities whose investment results are designed to correspond generally to the performance of a specified stock index or "basket" of stocks, or a single stock. These securities may be used by the Fund to gain exposure to countries that place restrictions on investments by foreigners. To the extent that the Fund invests in equity-linked securities whose return corresponds to the performance of a foreign securities index or one or more foreign stocks, investing in equity-linked securities will involve risks similar to the risks of investing in foreign securities. In addition, the Fund bears the risk that the issuer of an equity-linked security may default on its obligation under the terms of the arrangement with the counterparty. Equity-linked securities are often used for many of the same purposes as, and share many of the same risks with, derivative instruments. In addition, equity-linked securities may be considered illiquid and subject to the Fund's restrictions on investments in illiquid securities.

At October 31, 2006, the Fund held equity-linked Access Product warrants through Credit Lyonnais ("CLSA") and Citigroup Global Markets Holdings, the issuers. Under the terms of the agreements, each warrant entitles the Fund to receive from the issuers an amount in U.S. dollars linked to the performance of specific equity shares.

INDEMNIFICATION OBLIGATIONS: Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

SECURITY TRANSACTIONS AND INVESTMENT INCOME: Security transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date, or, in the case of dividend income on foreign securities, on the ex-dividend date or when the

20

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Fund becomes aware of its declaration. Interest income is recorded on the accrual basis. All premiums and discounts are amortized/accreted for both financial reporting and federal income tax purposes.

Dividend and interest income generated in Taiwan is subject to a 20% withholding tax. Stock dividends received (except those which have resulted from capitalization of capital surplus) are taxable at 20% of the par value of the stock dividends received. The Fund records the taxes paid on stock dividends as

Edgar Filing: CHINA FUND INC - Form N-CSR

an operating expense.

DIVIDENDS AND DISTRIBUTIONS: The Fund intends to distribute to its shareholders, at least annually, substantially all of its net investment income and any net realized capital gains. Income and capital gains distributions are determined in accordance with U.S. income tax regulations, which may differ from generally accepted accounting principles. These differences are primarily due to differing book and tax treatments for foreign currency transactions.

The Fund made distribution of \$3,124,848 from Ordinary Income and \$33,017,522 from Long-Term Capital Gains during the year ended October 31, 2006. For the year ended October 31, 2005 the Fund made distributions of \$3,061,875 from Ordinary Income and \$32,931,562 from Long-Term Capital Gains. As of October 31, 2006, the components of distributable earnings on a tax basis were \$18,542,075 for undistributed ordinary income and \$39,587,677 for undistributed long-term capital gains. At that date, the Fund had \$143,117,186 of net unrealized appreciation on a tax basis. Income and capital gains distributions are determined in accordance with U.S. income tax regulations, which may differ from generally accepted accounting principles. These differences are primarily due to differing book and tax treatments for foreign currency transactions.

FEDERAL INCOME TAXES: The Fund has qualified and intends to qualify in the future as a regulated investment company by complying with the provisions of Subchapter M of the Internal Revenue Code available to certain investment companies, including making distributions of taxable income and capital gains sufficient to relieve it from all, or substantially all, federal income and excise taxes.

No director, officer or employee of the Investment Manager or Direct Investment Manager or any affiliates of those entities will receive any compensation from the Fund for serving as an officer or director of the Fund. Edgar Filing: CHINA FUND INC - Form N-CSR

affiliate thereof) an annual fee of \$27,500 and \$12,000, respectively, plus \$2,000 for each Board of Directors' meeting or Audit Committee meeting attended. In addition, the Fund will reimburse each of the directors for travel and out-of-pocket expenses incurred in connection with attending Board of Directors' meetings.

State Street Bank and Trust Company ("State Street") provides, or arranges for the provision of certain administrative services for the Fund, including preparing certain reports and other documents required by federal and/or state laws and regulations. The Fund pays State Street a fee at an annual rate of .13% of the Fund's average daily net assets up to \$150 million, .11% of the next \$150 million and .06% of those assets in excess of \$300 million subject to certain minimum requirements for fund administration services. The Fund also pays State Street \$100,000 per year for certain legal administration services, including corporate secretarial services and preparing regulatory filings.

The Fund also has a contract with State Street to provide custody and fund accounting services to the Fund. For these services, the Fund pays State Street asset-based fees that vary according to the number of positions and transactions plus out of pocket expenses.

NOTE C -- CAPITAL STOCK

The Board of Directors of the Fund has approved a share repurchase plan. Under the program, the Fund will repurchase shares at management's discretion at times when it considers the repurchase to be consistent with the objectives of the program. For the year ended October 31, 2006, the Fund did not participate in this program.

NOTE D -- INVESTMENT TRANSACTIONS

For the year ended October 31, 2006, the Fund's cost of purchases and proceeds from sales of investment securities, other than short-term securities, were \$197,955,036 and \$210,618,830, respectively. At October 31, 2006, the cost of investments for federal income tax purposes was \$285,578,569. Gross unrealized appreciation of investments was \$152,892,206, while gross unrealized depreciation of investments was \$9,766,093, resulting in net unrealized appreciation of investments of \$143,126,113.

NOTE E -- INVESTMENTS IN CHINA

The Fund's investments in China companies involve certain risks not typically associated with investments in securities of U.S. companies or the U.S. Government, including risks relating to (1) social, economic and political uncertainty; (2) price volatility, lesser liquidity and smaller market capitalization of securities markets in which securities of China companies trade; (3) currency exchange fluctuations, currency blockage and higher

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

rates of inflation; (4) controls on foreign investment and limitations on repatriation of invested capital and on the Fund's ability to exchange local currencies for U.S. dollars; (5) governmental involvement in and control over the economy; (6) risk of nationalization or expropriation of assets; (7) the nature of the smaller, less seasoned and newly organized China companies, particularly in China; and (8) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements and less government supervision and regulation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of The China Fund, Inc.:

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of The China Fund, Inc. (the "Fund") as of October 31, 2006, and the related statement of operations for the year then ended, and the statement of changes in net assets and the financial highlights for each of the two years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights for each of the three years in the period ended October 31, 2004 were audited by other auditors whose report, dated December 10, 2004, expressed an unqualified opinion on the financial highlights.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2006, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of October 31, 2006, the results of its operations for the year then ended, and the changes in its net assets and the financial highlights for each

of the two years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

BOARD DELIBERATIONS REGARDING APPROVAL OF
INVESTMENT MANAGEMENT AGREEMENTS (UNAUDITED)

GENERAL BACKGROUND

Martin Currie Inc. ("Martin Currie") acts as the Fund's investment manager, with exclusive investment discretion over the Fund's assets, other than those invested in direct investments (the "Listed Assets"), pursuant to a Management Agreement with the Fund. The Fund pays Martin Currie a fee for its investment management services, computed weekly and payable monthly, at an annual rate of 0.70% of the Fund's average weekly net assets consisting of Listed Assets up to US\$315 million and 0.50% of the Fund's average weekly net assets consisting of Listed Assets in excess of US\$315 million. Martin Currie is a registered investment adviser under the U.S. Investment Advisers Act of 1940, as amended (the "Advisers Act").

Asian Direct Capital Management ("ADCM") acts as investment manager to the Fund with exclusive investment discretion over the portion of the Fund's assets that is invested in direct investments pursuant to the terms of a Direct Investment Management Agreement between the Fund and ADCM (the "Direct Management Agreement"). The Fund may invest up to 25% of the net proceeds of its offerings of its outstanding common stock in direct equity investments. For its direct

Edgar Filing: CHINA FUND INC - Form N-CSR

investment management services, ADCM receives from the Fund a fee, payable monthly, at an annual rate of the greater of US\$300,000 or 2.2% of the average weekly assets of the Fund allocated to direct investments. ADCM is a registered investment adviser under the Advisers Act. ADCM is a wholly owned, indirect subsidiary of State Street Global Advisors ("SSgA"), the investment management division of State Street Corporation. State Street Bank and Trust Company ("State Street"), an affiliate of State Street Corporation, serves as administrator and custodian for the Fund.

The Fund's Board of Directors (the "Board") is legally required to review and re-approve the Management Agreement and the Direct Management Agreement once a year. Throughout the year, the Board considers a wide variety of materials and information about the Fund, including, for example, the Fund's investment performance, adherence to stated investment objectives and strategies, assets under management, expenses, regulatory compliance and management. The Board periodically meets with senior management and portfolio managers of both Martin Currie and ADCM and reviews and evaluates their professional experience, credentials and qualifications. This information supplements the materials the Board received in preparation for the Meeting described below.

APPROVAL PROCESS

The Board, consisting entirely of "independent directors" within the meaning of the Investment Company Act of 1940, unanimously approved the Management Agreement and the Direct Management Agreement at an "in person" meeting held on June 8, 2006 (the "Meeting"). In determining whether it was appropriate to approve each of the Management Agreement and the Direct Management Agreement, the Board requested information, provided by Martin Currie and ADCM, that it believed to be reasonably necessary to reach its conclusion. At the Meeting, the Board discussed issues pertaining to the proposed approval of the Management Agreement and the Direct Management Agreement with representatives from Martin Currie and ADCM and with legal counsel. This information together with the information provided to the Directors throughout the course of year formed the primary basis for the Directors' determinations.

28

BOARD DELIBERATIONS REGARDING APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS (UNAUDITED) (CONTINUED)

Prior to the Meeting, the Board met in an executive session for the purpose of considering the approval of the Management Agreement and Direct Management Agreement. During that executive session, the Directors reviewed a memorandum which detailed the duties and responsibilities of the Directors with respect to their consideration of the Management Agreement and Direct Management Agreement. The Directors reviewed the contract renewal materials provided by Martin Currie and ADCM, including, but not limited to (1) an organizational overview of each of Martin Currie and ADCM and biographies of those personnel providing services to the Fund, (2) a copy of each of the Management Agreement, Amendment No. 1 to the Management Agreement and the Direct Management Agreement, (3) a profitability analysis of each of Martin Currie and ADCM, (4) financial statements of each of Martin Currie and ADCM, including, with respect to ADCM, a letter of continuing financial support from SSgA, (5) Form ADV of each of Martin Currie and ADCM, and (6) performance and fee comparison data provided by Fundamental Data, a third party vendor of such information.

MANAGEMENT AGREEMENT

In evaluating the Management Agreement and its amendment, the Directors drew on materials provided to them by Martin Currie. In deciding whether to renew the

Edgar Filing: CHINA FUND INC - Form N-CSR

Management Agreement and its amendment, the Directors considered various factors, including (1) the nature, extent and quality of the services provided by Martin Currie under the Management Agreement, (2) the investment performance of the Fund's listed investments, (3) the costs to Martin Currie of its services and the profits realized by Martin Currie, from its relationship with the Fund, and (4) the extent to which economies of scale would be realized if and as the Fund grows and whether the fee levels in the Management Agreement reflect these economies of scale.

1. Nature, Extent and Quality of the Services provided by Martin Currie

In considering the nature, extent and quality of the services provided by Martin Currie, the Directors relied on their prior experience as Directors of the Fund as well as on the materials provided at the Meeting. They noted that under the Management Agreement Martin Currie is responsible for managing the Fund's listed investments in accordance with the Fund's investment objective and policies, applicable legal and regulatory requirements, and the instructions of the Directors, for providing necessary and appropriate reports and information to the Directors, for maintaining all necessary books and records pertaining to the Fund's transactions in listed investments, and for furnishing the Fund with the assistance, cooperation, and information necessary for the Fund to meet various legal requirements regarding registration and reporting. They noted the distinctive nature of the Fund as investing primarily in equity securities of China companies. They also noted the experience and expertise of Martin Currie as appropriate as an adviser to the Fund.

The Directors reviewed the background and experience of Martin Currie's senior management, including those individuals responsible for the investment and compliance operations with respect to the Fund's listed investments, and the responsibilities of the latter with respect to the Fund. They also considered the resources, operational structures and practices of Martin Currie in managing the Fund's listed portfolio, in monitoring and

29

BOARD DELIBERATIONS REGARDING APPROVAL OF
INVESTMENT MANAGEMENT AGREEMENTS (UNAUDITED) (CONTINUED)

securing the Fund's compliance with its investment objectives and policies and with applicable laws and regulations, and in seeking best execution of portfolio transactions. Drawing upon the materials provided and their general knowledge of the business of Martin Currie, the Directors took into account the fact that Martin Currie's experience, resources and strength in these areas are deep, extensive and of high quality. On the basis of this review, the Directors determined that the nature and extent of the services provided by Martin Currie to the Fund were appropriate, had been of uniformly high quality, and could be expected to remain so.

2. Investment Performance of the Fund's Listed Investments

The Directors noted that, in view of the distinctive investment objective of the Fund, the investment performance of the Fund's listed investments was satisfactory. Of importance to the Directors was the extent to which the Fund achieved its objective. Drawing upon information provided at the Meeting and upon reports provided to the Directors by Martin Currie throughout the preceding year, the Directors determined that, while the Fund's listed investments had underperformed the MSCI Golden Dragon Index during recent periods, the listed investments had outperformed the Index for the three-year period ended April 30, 2006. The Directors discussed with the representatives of Martin Currie present at the Meeting the reasons for the recent underperformance. They further

Edgar Filing: CHINA FUND INC - Form N-CSR

concluded, on the basis of the limited universe of comparable funds, that the expense ratio of the Fund was as low as, or lower than, those of the Fund's direct competitors. Accordingly, the Directors concluded that the performance of the Fund was satisfactory.

3. The Costs to Martin Currie of its Services and the Profits realized by Martin Currie from its Relationship with the Fund

The Directors considered the profitability of the advisory arrangement with the Fund to Martin Currie. The Directors had been provided with data on the Fund's profitability to Martin Currie for the Fund. They first discussed with representatives of Martin Currie the methodologies used in computing the costs that formed the bases of the profitability calculations. Concluding that these methodologies were reasonable, they turned to the data provided. After extensive discussion and analysis they concluded that, to the extent that Martin Currie's relationship with the Fund had been profitable, the profitability was in no case such as to render the advisory fee excessive.

In considering whether Martin Currie benefits in other ways from its relationship with the Fund, the Directors noted that other than the advisory fee, there is no other investment advisory and brokerage fee received or receivable by Martin Currie from the Fund. The Directors concluded that, to the extent that Martin Currie derives other benefits from its relationship with the Fund, those benefits are not so significant as to render the adviser's fees excessive.

30

BOARD DELIBERATIONS REGARDING APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS (UNAUDITED) (CONTINUED)

4. The Extent to which Economies of Scale would be Realized if and as the Fund Grows and whether the Fee Levels in the Management Agreement Reflect these Economies of Scale

On the basis of their discussions with management and their analysis of information provided at the Meeting, the Directors determined that the nature of the Fund and its operations is such that Martin Currie was likely to realize economies of scale in the management of the Fund as it grows in size. The Board noted that, in contemplation of these likely economies of scale, this fee structure with Martin Currie provides for breakpoints above which the fee rate declines. It was noted in the Board's discussion with representatives of Martin Currie that Martin Currie's assets under management from its China business had increased substantially and as such Martin Currie had realized economies of scale from managing more China portfolios for more clients. It was noted that these economies of scale were shared with the Fund because they had enabled Martin Currie to develop centralized dealing facilities that pool transactions across all of its clients. However, Martin Currie had noted in its materials provided to the Board that these economies of scale were not infinite and that managing too much money may impair performance.

In order to better evaluate the Fund's advisory fee, the Directors had requested comparative information with respect to fees paid by similar funds -- i.e., funds that invest in China. The Directors found that, because of the distinctive nature of the Fund, the universe of similar funds was limited; the total number of comparable funds, which included the Fund, was sixteen. Moreover, the Fund's aggregate advisory fees were lower than many of its competitors'. The Directors noted that the Fund's total expense ratio was lower than most of the comparable funds' total expense ratio. The Directors concluded that the limited data available provided some indirect confirmation of the reasonableness of Martin

Edgar Filing: CHINA FUND INC - Form N-CSR

Currie's fee.

APPROVAL OF MANAGEMENT AGREEMENT

The Directors approved the continuance of the Fund's Management Agreement and its amendment after weighing the foregoing factors. They reasoned that, considered in themselves, the nature and extent of the services provided by Martin Currie were appropriate, that the performance of the Fund had been satisfactory, and that Martin Currie could be expected to provide services of high quality. As to Martin Currie's fees for the Fund, the Directors determined that the fees, considered in relation to the services provided, were fair and reasonable, that the Fund's relationship with Martin Currie was not so profitable as to render the fees excessive, that any additional benefits to Martin Currie were not of a magnitude materially to affect the Directors' deliberations, and that the fees adequately reflected shared economies of scale with the Fund.

DIRECT MANAGEMENT AGREEMENT

In deciding whether to renew the Direct Management Agreement, the Directors considered various factors, including (1) the nature, extent and quality of the services provided by ADCM under the Direct Management Agreement, (2) the investment performance of the Fund's direct investments, (3) the costs to ADCM of its services and the profits realized by ADCM, from its relationship with the Fund, and (4) the extent to which

BOARD DELIBERATIONS REGARDING APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS (UNAUDITED) (CONTINUED)

economies of scale would be realized if and as the Fund grows and whether the fee levels in the Direct Management Agreement reflect these economies of scale.

1. Nature, Extent and Quality of the Services provided by ADCM

In considering the nature, extent and quality of the services provided by ADCM, the Directors relied on their prior direct experience as Directors of the Fund as well as on the materials provided at the Meeting. They noted that under the Direct Management Agreement, ADCM is responsible for managing the direct investments of the Fund in accordance with the Fund's investment objective and policies, applicable legal and regulatory requirements, and the instructions of the Directors, for providing necessary and appropriate reports and information to the Directors, for maintaining all necessary books and records pertaining to the Fund's direct investments, and for furnishing the Fund with the assistance, cooperation, and information necessary for the Fund to meet various legal requirements regarding registration and reporting. They noted the distinctive nature of the Fund as investing primarily in equity securities of China companies. They also noted the experience and expertise of ADCM in making direct investments as appropriate as an adviser to such Fund.

The Directors reviewed the background and experience of ADCM's senior management, including those individuals responsible for the investment and compliance operations relating to the direct investments of the Fund, and the responsibilities of the latter with respect to the Fund. They also considered the resources, operational structures and practices of ADCM in managing the Fund's direct investments, in monitoring and securing the Fund's compliance with its investment objective and policies with respect to the Fund's direct investments and with applicable laws and regulations. The Directors also considered information about ADCM's overall investment management business,

Edgar Filing: CHINA FUND INC - Form N-CSR

noting that ADCM manages funds in South Korea and Thailand that invest in the Asia Pacific region. In addition, ADCM, as a holding company of SSgA, has access to the international business network of State Street Corporation for investment opportunities. Drawing upon the materials provided and their general knowledge of the business of ADCM, the Directors took into account the fact that ADCM's experience, resources and strength in these areas are of high quality. On the basis of this review, the Directors determined that the nature and extent of the services provided by ADCM to the Fund were appropriate, had been of acceptable quality, and could be expected to remain so.

2. Investment Performance of the Fund

The Directors noted that, in view of the distinctive investment objective of the Fund, the investment performance of the Fund's direct investment portfolio was satisfactory. Of importance to the Directors was the extent to which the Fund achieved its objective. Drawing upon information provided at the meeting and upon reports provided to the Directors by ADCM throughout the preceding year, they determined that, while the Fund's direct investments had underperformed the MSCI Golden Dragon Index during recent periods, the Fund's direct investment portfolio's performance had been comparable to the performance of the MSCI Golden Dragon Index for the three-year period ending April 30, 2006. They further concluded, on the basis of the limited universe of comparable funds, that the expense ratio of the Fund was as low as, or lower than, those of their direct

32

BOARD DELIBERATIONS REGARDING APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS (UNAUDITED) (CONTINUED)

competitors. Accordingly, they concluded that the performance of the Fund's direct investment portfolio was satisfactory.

3. The Costs to ADCM of its Services and the Profits realized by ADCM from its Relationship with the Fund

The Directors considered the profitability of the advisory arrangement with the Fund to ADCM and of the Fund's relationship with ADCM's affiliate, State Street, in its role as administrator and custodian for the Fund. The Directors had been provided with data on the Fund's profitability to ADCM for the Fund's last four fiscal years. They first discussed with representatives of ADCM the methodologies used in computing the costs that formed the bases of the profitability calculations. Concluding that these methodologies were reasonable, they turned to the data provided. After discussion and analysis they concluded that, to the extent that ADCM's relationship with the Fund had been profitable to ADCM, the profitability was in no case such as to render the advisory fee excessive. The Directors also noted SSgA's continuing support of ADCM as a subsidiary.

In considering whether ADCM or its affiliates benefit in other ways from their relationship with the Fund, the Directors noted that other than the advisory fee, there is no other investment advisory and brokerage fee received or receivable by ADCM or its affiliates; however, an affiliate of ADCM serves as the Fund's administrator and custodian. The Directors noted that the fees paid to the affiliate for administration and custody services were reasonable in relation to the services provided. The Directors concluded that, to the extent that ADCM or its affiliates derive other benefits from their relationship with the Fund, those benefits are not so significant as to render the adviser's fees excessive.

Edgar Filing: CHINA FUND INC - Form N-CSR

4. The Extent to which Economies of Scale would be Realized if and as the Fund Grows and whether the Fee Levels in the Direct Management Agreement Reflect these Economies of Scale

On the basis of their discussions with management and their analysis of information provided at the Meeting, the Directors determined that the nature of the Fund and its operations is such that ADCM would not at this time realize economies of scale in the management of the Fund. It was noted that the Directors had discussed ADCM's Pan Asia Investment Fund ("AAIF") which ADCM has commenced marketing and which will also invest in Chinese securities. The Directors noted that ADCM expected that AAIF's assets under management would increase substantially and this may lead to the generation of some economies of scale, only if AAIF and the Fund have a number of similar investments. Further, these economies of scale would be greater than if there was no overlap between the funds.

The Directors noted that there were no comparable funds investing in direct investments for purposes of comparing the fees paid by the Fund to ADCM to the fees paid by other funds. The Directors noted, however, that advisers to private funds that principally make direct investments (typically referred to as "private equity funds") typically pay their advisers an asset-based fee of 1% to 2% of the fund's assets plus a performance fee of 15% to 25% of the private fund's gains on its investments. The Fund is not permitted under the Investment Company Act of 1940 to pay a similar performance fee and the Directors concluded that the fee paid to ADCM of the greater of \$300,000 and 2.2% of the Fund's daily net assets invested in direct investments was a reasonable

BOARD DELIBERATIONS REGARDING APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS (UNAUDITED) (CONTINUED)

fee to obtain the services of a direct investment manager such as ADCM. The Directors also noted that, notwithstanding this relatively high fee rate paid to ADCM, the Fund's overall advisory fees, combining the fees paid to ADCM with those paid to Martin Currie, were nevertheless competitive with the fees paid by comparable funds investing solely in listed investments and that the Fund's total expense ratio was lower than most of the comparable fund's total expense ratios.

APPROVAL OF DIRECT MANAGEMENT AGREEMENT

The Directors approved the continuance of the Fund's Direct Management Agreement after weighing the foregoing factors. They reasoned that, considered in themselves, the nature and extent of the services provided by ADCM were appropriate, that the performance of the Fund had been satisfactory, and that ADCM could be expected to provide services of acceptable quality. As to ADCM's fees for the Fund, the Directors determined that the fees, considered in relation to the services provided, were fair and reasonable, that the Fund's relationship with ADCM was not so profitable as to render the fees excessive, that any additional benefits to ADCM were not of a magnitude materially to affect the Directors' deliberations.

DIVIDENDS AND DISTRIBUTIONS; DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

Edgar Filing: CHINA FUND INC - Form N-CSR

The Fund will distribute to shareholders, at least annually, substantially all of its net investment income from dividends and interest earnings and expects to distribute any net realized capital gains annually. Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), adopted by the Fund, each shareholder will be deemed to have elected, unless Computershare Trust Company, N.A., the Plan Administrator, is otherwise instructed by the stockholder in writing, to have all distributions automatically reinvested by the Plan Administrator in Fund shares pursuant to the Plan. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check in U.S. dollars mailed directly to the stockholder by Computershare Trust Company, N.A. (formerly, Equiserve Trust company, N.A.), as paying agent. Shareholders who do not wish to have distributions automatically reinvested should notify the Fund by contacting Computershare c/o The China Fund, Inc. at P.O. Box 43010, Providence, Rhode Island 02940-3011. Phone: 1-800-426-5523.

Computershare Trust Company, N.A. and Computershare Shareholder Services, Inc. (collectively, "Computershare" or the "Plan Administrator") acts as Plan Administrator and Service Agent. If the Directors of the Fund declare an income dividend or a capital gains distribution payable either in the Fund's Common Stock or in cash, as shareholders may have elected, non-participants in the Plan will receive cash and participants in the Plan will receive Common Stock, to be issued by the Fund. If the market price per share on the valuation date equals or exceeds net asset value per share on that date, the Fund will issue new shares to participants at net asset value or, if the net asset value is less than 95% of the market price on the valuation date, then at 95% of the market price. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the exchange on which the Fund's shares are then listed, the next preceding trading day. If net asset value exceeds the market price of Fund shares at such time, participants in the Plan will be deemed to have elected to receive shares of stock from the Fund, valued at market price on the valuation date. If the Fund should declare a dividend or capital gains distribution payable only in cash, the Plan Administrator will, as administrator for the participants, buy Fund shares in the open market, on the New York Stock Exchange or elsewhere, with the cash in respect of such dividend or distribution, for the participant's account on, or shortly after, the payment date.

Participants in the Plan have the option of making additional payments to the Plan Administrator, annually, in any amount from \$100 to \$3,000 for investment in the Fund's Common Stock. The Plan Administrator will use all funds received from participants (as well as any dividends and capital gains distributions received in cash) to purchase Fund shares in the open market on or about January 15 of each year. Any voluntary cash payments received more than thirty days prior to such date will be returned by the Plan Administrator, and interest will not be paid on any uninvested cash payments. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Plan Administrator, it is suggested that participants send in voluntary cash payments to be received by the Plan Administrator approximately ten days before January 15. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than 48 hours before such payment is to be invested.

The Plan Administrator maintains all stockholder accounts in the Plan and furnishes written confirmations of all transactions in the account, including information needed by shareholders for personal and tax records. Shares in

Edgar Filing: CHINA FUND INC - Form N-CSR

the account of each Plan participant will be held by the Plan Administrator in non-certificated form in the name of the participant, and each stockholder's proxy will include those shares purchased pursuant to the Plan.

In the case of shareholders, such as banks, brokers or nominees, which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of shares certified from time to time by the stockholder as representing the total amount registered in the stockholder's name and held for the account of beneficial owners who are participating in the Plan.

There is no charge to participants for reinvesting dividends or capital gains distributions. The Plan Administrator's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. However, each participant's account will be charged a pro rata share of brokerage commissions incurred with respect to the Plan Administrator's open market purchases in connection with the reinvestment of dividends or capital gains distributions. A participant will also pay brokerage commissions incurred in purchases from voluntary cash payments made by the participant. Brokerage charges for purchasing small amounts of stock for individual accounts through the Plan are expected to be less than the usual brokerage charges for such transactions, because the Plan Administrator will be purchasing stock for all participants in blocks and prorating the lower commission thus attainable.

The automatic reinvestment of dividends and distributions will not relieve participants of any income tax which may be payable on such dividends and distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payment made and any dividend or distribution paid subsequent to notice of the change sent to all shareholders at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by the Plan Administrator by at least 90 days' written notice to all shareholders. All correspondence concerning the Plan should be directed to Computershare c/o The China Fund, Inc. at P.O. Box 43011, Providence, Rhode Island 02940-3011. Phone: 1-800-426-5523.
