**Item 2.06 Material Impairments**

On March 19, 2008, Alkermes, Inc. (the Company) announced the restructuring of its operations following the termination by Eli Lilly and Company (Lilly) of the AIR Insulin program. The restructuring includes: (i) closure of the Company's AIR commercial manufacturing facility in Chelsea, Massachusetts; and (ii) termination of approximately 150 employees across the Company. The Company is taking these actions based on its current expectations of the financial impact of Lilly's termination of the AIR Insulin program. The Company expects to substantially complete the reduction in force, and to cease operations at, and substantially complete closure of, the Company's AIR manufacturing facility by March 31, 2008.

The Company expects that, during the fourth quarter of fiscal year 2008 ending March 31, 2008, it will record charges relating to (i) severance pay, continuation of benefits and outplacement services relating to the reduction in force of approximately \$2 to \$4 million, (ii) ongoing lease obligations relating to the Company's AIR commercial manufacturing facility of approximately \$3 to \$6 million, and (iii) an impairment loss on fixed assets, including leasehold improvements and manufacturing equipment, relating to closure of the Company's AIR commercial manufacturing facility of up to \$15 million. All charges, with the exception of the impairment loss, are expected to result in future cash expenditures.

The Company plans to announce further details when the financial impact of its restructuring is determined. At this time and except as disclosed above, the Company is not able in good faith to make a determination of the estimated amount or range of amounts to be incurred for each major type of cost nor the charges and future cash expenditures associated therewith. The Company will file an amendment to this report after it makes a determination of such amounts.
