CERTIFIED SHAREHOLDER REPORT OF REGISTERED MANAGEMENT INVESTMENT COMPANIES

Van Kampen Senior Income Trust

(Exact name of registrant as specified in charter)

1221 Avenue of the Americas NY NY 10020

(Address of principal executive offices) (Zip code)

Ronald Robison
1221 Avenue of the Americas
New York, NY 10020

(Name and address of agent for service)

Registrant's telephone number, including area code: 212-762-4000

Date of fiscal year end: 7/03

Item 1. Report to Shareholders

Welcome, Shareholder

Date of reporting period: 7/31/03

In this update, you'll learn about how your trust performed during the reporting period. The portfolio manager will provide an overview of the market climate, and discuss some of the factors that helped or hindered performance during the reporting period. In addition, this report includes the trust's financial statements and a list of investments, as well as other information.

Market forecasts provided in this report may not necessarily come to

pass. There is no assurance that the trust will achieve its investment objective. The trust is subject to market risk which is the possibility that the market values of securities owned by the trust will decline and, therefore, the value of the trust shares may be less than what you paid for them. Accordingly, you can lose money investing in this trust.

An investment in senior loans is subject to certain risks such as loan defaults and illiquidity due to insufficient collateral backing.

NOT FDIC INSURED MAY LOSE VALUE NO BANK GUARANTEE

SENIOR INCOME TRUST

SYMBOL: VVR

AVERAGE ANNUAL

TOTAL RETURNS Since 06/24/98

Since Inception 3.33%

5-year 3.27

1-year 25.06

Past performance is no guarantee of future results. Investment return, common share market price and net asset value will fluctuate and trust shares, when sold, may be worth more or less than their original cost.

As a result of recent market activity, current performance may vary from the figures shown. For more up-to-date information, please visit vankampen.com or speak with your financial advisor. Total return assumes an investment at the common share market price at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period. Distribution rate represents the monthly annualized distributions of the trust at the end of the period and not the earnings of the trust.

1

Trust Report

FOR THE 12-MONTH PERIOD ENDED JULY 31, 2003

Howard Tiffen, Managing Director, is primarily responsible for the day-to-day management of Van Kampen Senior Income Trust. The following discussion reflects his views on the trust's performance.

- Q. BEFORE YOU DISCUSS HOW THE TRUST PERFORMED, PLEASE DESCRIBE THE OVERALL MARKET ENVIRONMENT.
- A. The market over the past year can really be divided into two distinct segments. During the first six months of the reporting period, a stagnant economy, lack of corporate earning power, and the effects of a series of corporate-governance scandals resulted in a very difficult environment for senior loans.

During the latter half of the period, however, the market improved dramatically. Absolute levels of corporate profitability began to increase, the number of debt refinancings rose considerably, and default rates began to subside. As a result, bank loan prices rallied. We believe this marked improvement was the result of several factors. First, corporate management has been forced to learn how to better operate in a low-growth, low-inflation environment, which has led to stronger corporate valuations. Second, more companies have been able to issue long-term debt to shore up their balance sheets. And lastly, we began to see many companies that were in bankruptcy two to three years ago return to performing status and earn a profit.

- Q. HOW DID THE TRUST PERFORM DURING THE REPORTING PERIOD?
- A. -- For the year ended July 31, 2003, the trust produced a total return of 25.06 percent based on common share market price, and not reflective of any early withdrawal charges. If these charges were included, performance would be lower. Past performance is no guarantee of future results.
 - -- The trust's monthly dividend of \$.0348 translated to a distribution rate of 5.33 percent based on the trust's closing common share market price of \$7.84 on July 31, 2003.

See Performance Summary for additional information.

- Q. WHAT FACTORS HELPED PERFORMANCE?
- A. -- As mentioned earlier, declining default rates, improved corporate profitability and increased loan issuance, as well as an overall improving economy, all contributed to performance.
 - -- A deeper secondary trading market in senior loans created greater opportunities for us to capture value. This, coupled with the

2

appreciation of bank loan prices overall, helped boost the trust's return and net asset value.

-- In addition, our team now includes a total of 24 analysts, who have an average of 16 years of industry experience. Given that we employ a bottom-up investment approach, we believe that such a large team has enabled us to conduct even more in-depth analysis of every investment candidate as well as all existing portfolio holdings, and is vital to our ongoing success.

- Q. WHAT HINDERED PERFORMANCE DURING THE REPORTING PERIOD?
- A. -- Early in the reporting period, flat corporate performance and a low level of issuance dampened trust returns and left us with few compelling new investment opportunities. However, we saw marked improvement here in the last several months.
 - -- While we have seen default rates decline, they are still at higher-than-normal levels. The number of issuers in the portfolio that are in default (defined here as those not paying principal and/or interest as contractually obligated) has also declined, by approximately 9 percent since this same period last year.
 - -- Because senior-loan coupon rates float with short-term market rates, the near-record low interest rates throughout the entire period also held the trust back.

Morgan Stanley is a full-service securities firm engaged in securities trading and brokerage activities, investment banking, research and analysis, financing and financial advisor services.

3

- Q. PLEASE WALK US THROUGH HOW YOU POSITIONED THE TRUST, HIGHLIGHTING KEY THEMES.
- A. We employed a variety of strategies during the period:
 - -- In an effort to build value and avoid losses in the portfolio, we made greater use of the secondary market, where we were able to purchase loans at or below their repayment or recovery values. In fact, we now have two analysts on our team who are largely dedicated to this market, conducting transactions daily.
 - -- We continued to keep the portfolio highly diversified by issuer. As of July 31, the trust contained a total of 294 issuers. Typically, each of the trust's ten largest holdings represents less than two percent of total assets. We believe that a high level of diversification—not only in this environment but going forward as well—is instrumental to successful investing in the senior loan asset class.

- -- We strive to manage the trust as defensively as possible, and therefore, don't typically favor individual sectors. Some sectors may, however, fall out of favor from time to time. For example, we have chosen to reduce the trust's exposure to the auto and aerospace segments because we believe they are likely to deliver poor profits, and the value of collateral they can offer is also likely to fall. The trust's exposure to the health-care sector did increase slightly over the past year. We believe that certain parts of this sector have seen a significant improvement in business fundamentals, making some companies in the sector more attractive investments than they had previously been.
- -- We continued with our long-term strategy of focusing on companies that we believe demonstrate solid management strength--those that have learned to improve productivity in a low-inflation environment and keep their costs low.
- Q. NOW THAT YOU'VE PROVIDED AN OVERVIEW OF THE TRUST, DO YOU HAVE ANY CLOSING THOUGHTS FOR THE SHAREHOLDERS?
- A. We believe that the turnaround we've seen in the senior loan market as of late is based upon fundamentally-sound factors that may continue to positively influence the market. We also anticipate that default rates may continue their downward trend as the bankruptcies that occurred between 1999 and 2002 increasingly work their way through the system.

4

While no one can predict with certainty where or when interest rates will bottom out, we believe it's likely that short-term rates may rise, or at least remain stable, over the next several months. Such an environment, coupled with more robust corporate performance, has historically been quite favorable for senior loans. Going forward, we will continue with our disciplined investment approach, monitoring the market closely for opportunities.

PROXY VOTING POLICIES AND PROCEDURES

A description of the trust's policies and procedures with respect to the voting of proxies relating to the trust's portfolio securities is available without charge, upon request, by calling 1-800-847-2424. This information is also available on the Securities and Exchange Commission's website at http://www.sec.gov.

NR--Not rated

- + Bank Loans rated below Baa by Moody's Investor Service, Inc. or BBB by Standard & Poor's Group are considered to be below investment grade. (Bank loan ratings are unaudited.)
- (1) Industry percentages are calculated as a percentage of net assets.
- 24 See Notes to Financial Statements

PORTFOLIO OF INVESTMENTS

July 31, 2003

- (a) This Senior Loan interest is non-income producing.
- (b) 144A Securities are those which are exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold in transactions exempt from registration which are normally transactions with qualified institutional buyers.
- (c) This borrower has filed for protection in federal bankruptcy court.
- (d) Affiliated company. See Notes to Financial Statements.
- (e) Non-income producing security as this stock currently does not declare dividends.
- (f) Restricted Security.
- (g) The borrower is in the process of restructuring or amending the terms of this loan.
- (h) Variable rate security. Interest rate shown is that in effect at July 31, 2003.
- (i) A portion of this security is designated in connection with unfunded commitments.
- (j) This borrower is currently in liquidation.
- (k) Payment-in-kind security.
- * Senior Loans in the Trust's portfolio generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans in the Trust's portfolio may occur. As a result, the actual remaining maturity of Senior Loans held in the Trust's portfolio may be substantially less than the stated maturities shown. Although the Trust is unable to accurately estimate the actual remaining maturity of individual Senior Loans, the Trust estimates that the actual average maturity of the Senior Loans held in its portfolio will be approximately 18-24 months.
- ** Senior Loans in which the Trust invests generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally (i) the lending rate offered by one or more major European banks, such as the London Inter-Bank Offered Rate ("LIBOR"), (ii) the prime rate offered by one or more major United States banks and (iii) the certificate of deposit rate. Senior Loans are generally considered to be restricted in that the Trust ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.

Ratio of Gross Expense to Average Net Assets including Borrowings*	1.65%	1.66%	2.78%	3.01%	2.85%
Ratio of Net Investment Income to Average Net Assets including	1.00%	1.000	2.700	3.010	2.000
Borrowings*	4.47%	4.95%	6.55%	5.83%	5.46%
SENIOR INDEBTEDNESS:					
Total Borrowing Outstanding (In					
thousands)	\$401,000	\$370 , 159	\$375 , 000	\$700 , 000	\$800,000
Senior Indebtedness (d)	4,637	4,863	5,087	3,481	3,269

^{*} If certain expenses had not been voluntarily assumed by Van Kampen, total return would have been lower and the Ratio of Operating Expenses to Average Net Assets and the Ratio of Net Investment Income to Average Net Assets would have been 1.21% and 6.90% for the period ended July 31, 1998.

- (a) Net asset value on June 24, 1998 of \$10.00 is adjusted for common share offering costs of \$.013.
- (b) Total return based on common share market price assumes an investment at the common share market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Trust's dividend reinvestment plan, and sale of all shares at the closing

^{**} Non-Annualized

common share market price at the end of the period indicated.

- (c) Calculation includes the proceeds from principal repayments and sales of variable rate senior loan interest.
- (d) Calculated by subtracting the Trust's total liabilities (not including the Borrowings) from the Trust's total assets and dividing by the total number of senior indebtedness units, where one unit equals \$1,000 of senior indebtedness.
- (e) As required, effective August 1, 2001, the Trust has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium on fixed income securities. The effect of this change for the year ended July 31, 2002 was to decrease the ratio of net investment income to average net asset applicable to common shares by .01%. Net investment income per share and net realized and unrealized gains and losses per share were unaffected by the adjustments. Per share, ratios and supplemental data for the periods prior to July 31, 2002 have not been restated to reflect this change in presentation.

NOTES TO FINANCIAL STATEMENTS

July 31, 2003

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Senior Income Trust (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide a high level of current income, consistent with preservation of capital. The Trust seeks to achieve its objective by investing primarily in a portfolio of interests in floating or variable rate senior loans to corporations, partnerships and other entities which operate in a variety of industries and geographical regions. The Trust borrows money for investment purposes which will create the opportunity for enhanced return, but also should be considered a speculative technique and may increase the Trust's volatility. The Trust commenced investment operations on June 24, 1998.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION The Trust's Senior Loans are valued by the Trust following valuation guidelines established and periodically reviewed by the Trust's Board of Trustees. Under the valuation guidelines, Senior Loans for which reliable market quotes are readily available are valued at the mean of such bid and ask quotes. Where reliable market quotes are not readily available, Senior Loans are valued, where possible, using independent market indicators provided by independent pricing sources approved by the Board of Trustees. Other Senior Loans are valued by independent pricing sources approved by the Board of Trustees based upon pricing models developed, maintained and operated by those

pricing sources or valued by Van Kampen Investment Advisory Corp. (the "Adviser") by considering a number of factors including consideration of market indicators, transactions in instruments which the Adviser believes may be comparable (including comparable credit quality, interest rate, interest rate redetermination period and maturity), the credit worthiness of the Borrower, the current interest rate, the period until next interest rate redetermination and the maturity of such Senior Loan. Consideration of comparable instruments may include commercial paper, negotiable certificates of deposit and short-term variable rate securities which have adjustment periods comparable to the Senior Loans in the Trust's portfolio. The fair value of Senior Loans are reviewed and approved by the Trust's Valuation Committee and the Board of Trustees.

Equity securities are valued on the basis of prices furnished by pricing services or as determined in good faith by the Adviser under the direction of the Board of Trustees.

Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value. Short-term loan participations are valued at cost in the absence of any indication of impairment.

The Trust may invest in repurchase agreements, which are short-term investments in which the Trust acquires ownership of a debt security and the seller agrees to repurchase the

31

NOTES TO FINANCIAL STATEMENTS

July 31, 2003

security at a future time and specified price. Repurchase agreements are fully collateralized by the underlying debt security. The Trust will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Trust.

- B. SECURITY TRANSACTIONS Investment transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis.
- C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Facility fees received are treated as market discounts. Market premiums are amortized and discounts are accreted over the stated life of each applicable senior loan, note, or other fixed income security. Other income is comprised primarily of amendment fees which are recorded when received. Amendment fees are earned as compensation for agreeing to changes in loan agreements.
- D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Trust intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset such losses against any future realized capital gains. At July 31, 2003, the Trust had an accumulated capital loss carryforward for tax purposes of \$179,582,840, which will expire between July 31, 2009 and 2011.

At July 31, 2003, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes	\$2,037,050,569
Gross tax unrealized appreciation	• •
Net tax unrealized depreciation on investments	\$ (118,334,439)

E. DISTRIBUTION OF INCOME AND GAINS The Trust intends to declare and pay monthly dividends from net investment income to common shareholders. Net realized gains, if any, are to be distributed at least annually to common shareholders. Distributions from net realized gains for book purposes may include short term capital gains, which are included as ordinary income for tax purposes.

32

NOTES TO FINANCIAL STATEMENTS

July 31, 2003

The tax character of distributions paid for the years ended July 31, 2003 and 2002 was as follows:

9,888,289	792,007,003
0 000 000	\$02 607 003
9,888,289 -0-	\$92,687,003 -0-
0 000 000	400 607 000
2003	2002
	9,888,289

Due to inherent differences in the recognition of income, expenses and realized gains/ losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. A permanent difference related to book to tax amortization differences totaling \$7,947,313 has been reclassified from accumulated undistributed net investment income to accumulated net realized loss.

As of July 31, 2003, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income......\$2,873,430

Net realized gains and losses may differ for financial and tax reporting purposes primarily as a result of the deferral of losses resulting from wash

sale transactions, other losses that were recognized for book purposes but not tax purposes at the end of the fiscal year and post October losses which are not realized for tax purposes until the first day of the following year.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Trust for an annual fee of .85% of the average daily managed assets. Managed assets are defined as the gross asset value of the Trust minus the sum of accrued liabilities, other than the aggregate amount of borrowings undertaken by the Trust. In addition, the Trust will pay a monthly administrative fee to Van Kampen Investments Inc., the Trust's Administrator, at an annual rate of .20% of the average daily managed assets of the Trust. The administrative services provided by the Administrator include monitoring the provisions of the loan agreements and any agreements with respect to participations and assignments, record keeping responsibilities with respect to interests in Variable Rate Senior Loans in the Trust's portfolio and providing certain services to the holders of the Trust's securities.

For the year ended July 31, 2003, the Trust recognized expenses of approximately \$366,600 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom (Illinois), counsel to the Trust, of which a trustee of the Trust is an affiliated person.

33

NOTES TO FINANCIAL STATEMENTS

July 31, 2003

Under a Legal Services agreement, the Adviser provides legal services to the Trust. The Adviser allocates the cost of such services to each Trust. For the year ended July 31, 2003, the Trust recognized expenses of approximately \$44,400 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing legal services to the Trust, which are reported as "Legal" expenses in the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

During the period, the Trust owned shares of the following affiliated companies. Affiliated companies are defined by the Investment Company Act of 1940, as amended, as those companies in which a fund holds 5% or more of the outstanding voting securities.

INTEREST/ PAR/ DIVIDEND REALIZED MARKET VALUE NAME SHARES* GAIN/(LOSS) INCOME 7/31/03

Imperial Home Decor Group,

COST

Inc., Term Loan	1,422,288	0	42 , 945	\$35 , 557	\$1,367,8
Imperial Home Decor Group,					
Inc., Common Stock	512,023	0	0	0	522,2
Imperial Home Decor Realty,					
Inc., Common Stock	512,023	0	0	0	

* Shares were acquired through the restructuring of Senior loan interests.

At July 31, 2003, Van Kampen owned 10,000 common shares of the Trust.

3. INVESTMENT TRANSACTIONS

During the period, the costs of purchases and proceeds from investments sold and repaid, excluding short-term investments, were \$1,454,534,579 and \$1,439,851,690, respectively.

4. COMMITMENTS

Pursuant to the terms of certain of the Variable Rate Senior Loan agreements, the Trust had unfunded loan commitments of approximately \$32,633,732 as of July 31, 2003. The Trust intends to reserve against such contingent obligations by designating cash, liquid securities and liquid Senior Loans as a reserve.

5. SENIOR LOAN PARTICIPATION COMMITMENTS

The Trust invests primarily in participations, assignments, or acts as a party to the primary lending syndicate of a Senior Loan interest to corporations, partnerships, and other entities.

34

NOTES TO FINANCIAL STATEMENTS

July 31, 2003

When the Trust purchases a participation of a Senior Loan interest, the Trust typically enters into a contractual agreement with the lender or other third party selling the participation, but not with the borrower directly. As such, the Trust assumes the credit risk of the borrower, selling participant or other persons interpositioned between the Fund and the borrower.

At July 31, 2003, the following sets forth the selling participants with respect to interests in Senior Loans purchased by the Trust on a participation basis.

SELLING PARTICIPANT	PRINCIPAL AMOUNT (000)	VALUE (000)
Goldman Sachs Credit Partners, L.P		\$9,343 596
Total	\$10,107 =====	\$9,939 =====

6. BORROWINGS

In accordance with its investment policies, the Trust may borrow money for investment purposes in an amount up to approximately $33\ 1/3\%$ of the Trust's total assets.

The Trust had entered into an \$500 million revolving credit agreement with VVR Funding LLC, a Delaware limited liability company whose sole purpose was the issuance of commercial paper, which was terminated on September 25, 2002. As of September 25, 2002, the Trust has entered into a \$700 million revolving credit and security agreement, which will terminate on September 23, 2003. Annual commitment fees of .13% are charged on the unused portion of the credit line. This revolving credit agreement is secured by the assets of the Trust. For the year ended July 31, 2003, the average daily balance of borrowings under the revolving credit agreement was \$472,686,578 with a weighted average interest rate of 1.35%.

35

REPORT OF INDEPENDENT AUDITORS

To the Shareholders and Board of Trustees of Van Kampen Senior Income Trust

We have audited the accompanying statement of assets and liabilities of Van Kampen Senior Income Trust (the "Trust"), including the portfolio of investments, as of July 31, 2003, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for the two years then ended, and the financial highlights for each of the four years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The Trust's financial highlights for the periods ended prior to July 31, 2000 were audited by other auditors whose report, dated September 14, 1999, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of July 31, 2003, by correspondence with the Trust's custodian, brokers, and selling or agent banks; where replies were not received, we performed other auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Senior Income Trust as of July 31, 2003, the results of its operations, cash flows, the changes in its net assets and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

DELOITTE & TOUCHE LLP Chicago, Illinois September 4, 2003

36

DIVIDEND REINVESTMENT PLAN

The Trust offers a Dividend Reinvestment Plan (the "Plan") pursuant to which Common Shareholders who are participants in the Plan may have all distributions of dividends and capital gains automatically reinvested in Common Shares of the Trust. Common Shareholders who elect not to participate in the Plan will receive all distributions of dividends and capital gains in cash paid by check mailed directly to the Common Shareholder by the Trust's dividend disbursing agent.

HOW THE PLAN WORKS

State Street Bank and Trust Company, as your Plan Agent, serves as agent for the Common Shareholders in administering the Plan. After the Trust declares a dividend or determines to make a capital gains distribution, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. The Trust will not issue any new Common Shares in connection with the Plan. All reinvestments are in full and fractional Common Shares, carried to three decimal places.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Trust reserves the right to amend or terminate the Plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to all Common Shareholders of the Trust at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent, with the written consent of the Trust, by providing at least 90 days written notice to all Participants in the Plan.

COSTS OF THE PLAN

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. No other charges will be made to participants for reinvesting dividends or capital gains distributions, except for certain brokerage commissions, as described above.

TAX IMPLICATIONS

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions.

RIGHT TO WITHDRAW

You may withdraw from the Plan at any time by calling 1-800-341-2929 or by writing State Street Bank and Trust Company. If you withdraw, you will receive, without charge, a share certificate issued in your name for all full Common Shares credited to your account under the Plan, and a cash payment will be made for any fractional Common Share credited to your account under the Plan. You may again elect to participate in the Plan at any time by calling 1-800-341-2929 or writing to the Trust at:

2800 Post Oak Blvd.

RESULTS OF SHAREHOLDER VOTES

The Annual Meeting of Shareholders of the Trust was held on June 24, 2003, where shareholders voted on the election of trustees.

With regards to the election of the following trustees by the shareholders of the
