Item 2.02. Results of Operations and Financial Condition.

On December 12, 2005, Synergetics USA, Inc. held a conference call regarding its financial results for the first quarter of fiscal year 2006, which ended October 27, 2005. A transcript of the conference call is furnished herewith as Exhibit 99.1.

The conference call contained a discussion of EBITDA, which, according to applicable Securities and Exchange Commission rules, is a non-GAAP financial measure. A non-GAAP financial measure is a numerical measure of a company s historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with U.S. generally accepted accounting principles (GAAP) in the statement of income, balance sheet or statement of cash flows (or equivalent statements) of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented.

The Company defines EBITDA as operating income plus depreciation and amortization. A reconciliation of EBITDA to the most directly comparable GAAP measure is included below. The Company believes that EBITDA provides useful information to investors in evaluating the Company's performance relative to that of its peers. The Company believes that EBITDA is an operating performance measure, and not a liquidity measure, that provides investors with a measure of operating results unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies. EBITDA should not be considered as a measure of financial performance under GAAP, and the items excluded from EBITDA are significant components in understanding and assessing financial performance. EBITDA should not be considered in isolation or as an alternative to net earnings, cash flows generated by operating, investing, or financing activities or other financial statement data presented in the condensed consolidated financial statements as an indicator of financial performance or liquidity. EBITDA, as presented, may not be comparable to similarly titled measures of other companies.

Reconciliation of EBITDA to Operating Income:

Operating Income
Plus Depreciation and Amortization **EBITDA**
