As of the date of this filing, the Reporting Persons are the beneficial owners of, in the aggregate, 764,100 Units, representing approximately 8.88% of the Units presently outstanding.

The aggregate cost basis of all Units contributed to Fairchild was \$3,946,929.20. The transactions effected in the past 60 days are described in the attached Schedule I.

All open market purchases were funded by working capital, which may, at any given time, include margin loans made by brokerage firms in the ordinary course of business. In such instances, the positions held in the margin account are held as collateral security for repayment of debit balances in the accounts.

Item 5. Interest in Securities of the Issuer.
