BRADY CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Nine Months Ended April 30, 2008
(Unaudited)
(In thousands, except share and per share amounts)

NOTE A Basis of Presentation

The condensed consolidated financial statements included herein have been prepared by Brady Corporation and subsidiaries (the Company or Brady) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of the Company, the foregoing statements contain all adjustments, consisting only of normal recurring adjustments and the impact of adopting Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) (see Note K for further information) as of August 1, 2007, necessary to present fairly the financial position of the Company as of April 30, 2008 and July 3l, 2007, its results of operations for the three and nine months ended April 30, 2008 and 2007, and its cash flows for the nine months ended April 30, 2008 and 2007. The condensed consolidated balance sheet as of July 31, 2007, has been derived from the audited consolidated financial statements of that date. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts therein. Due to the inherent uncertainty involved in making estimates, actual results in future periods may differ from the estimates.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted pursuant to rules and regulations of the Securities and Exchange Commission. Accordingly, the condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statement presentation. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company s latest annual report on Form 10-K for the year ended July 31, 2007.

NOTE B Goodwill and Intangible Assets

Changes in the carrying amount of goodwill for the nine months ended April 30, 2008, are as follows:

	Brady Americas	**Direct Marketing & People ID Americas**	**Europe**	**Asia-Pacific**	**Total**
Balance as of July 31, 2007	$ 143,775	$ 260,299	$ 163,699	$ 169,677	$ 737,450
Goodwill acquired during the period		3,156	13,734		16,890
Adjustments for prior year acquisitions	3,755	(1,192)	(2,914)	3,765	3,414
Translation adjustments	1,521	465	15,785	10,955	28,726
Balance as of April 30, 2008	$ 149,051	$ 262,728	$ 190,304	$ 184,397	$ 786,480

Goodwill increased $49,030 during the nine months ended April 30, 2008. A portion of the increase related to the November 2007 acquisitions of Transposafe Systems B.V. and Holland Mounting Systems B.V. (collectively Transposafe) and the March 2008 acquisition of DAWG, Inc. (DAWG), which added $13,734 and $3,156, respectively.

Goodwill also increased as a result of adjustments to the preliminary allocation of purchase price for the acquisitions completed in fiscal 2007, of which the largest adjustment related to the final purchase price adjustments for Comprehensive Identification Products, Inc (CIPI) which added $3,668. Of the $3,668 increase in goodwill attributed to the allocation of the purchase price for CIPI, $1,609 related to the adoption of FIN 48 (see Note K),

$1,250 related to the accrual for employee termination costs, and the remaining $809 related to various exit costs associated with the closure of a facility. Goodwill increased $1,479 related to the fiscal 2007 acquisition of Sorbent Products Co., Inc. (SPC), primarily due to an adjustment in taxes. The increase in goodwill related to the acquisitions of CIPI and SPC was partially offset by a tax adjustment of $1,893 associated with the fiscal 2006 acquisition of Identicam Systems relating to a deferred tax asset existing at the time of acquisition.

Additionally, during the nine months ended April 30, 2008, goodwill increased by $28,726 due to the effects of foreign currency translation.

Other intangible assets include patents, trademarks, customer relationships, purchased software, non-compete agreements and other intangible assets with finite lives being amortized in accordance with Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets. The net book value of these assets was as follows:

	April 30, 2008				July 31, 2007			
	Weighted Average Amortization Period (Years)	Gross Carrying Amount	Accumulated Amortization	Net Book Value	Weighted Average Amortization Period (Years)	Gross Carrying Amount	Accumulated Amortization	Net Book Value
Amortized other intangible assets:								
Patents	15	$ 8,556	$ (6,407)	$ 2,149	15	$ 8,392	$ (5,913)	$ 2,479
Trademarks and other	4	6,441	(4,503)	1,938	5	4,510	(3,250)	1,260
Customer relationships	7	148,253	(53,854)	94,399	7	134,125	(36,674)	97,451
Non-compete agreements	4	12,242	(8,040)	4,202	4	11,364	(6,294)	5,070
Other	4	3,298	(3,294)	4	5	3,297	(2,554)	743

Total		$ 221,661	$ (76,098)	$ 145,563		$ 204,446	$ (54,685)	$ 149,761

The acquisitions completed during the nine months ended April 30, 2008, contributed to the increases in the other amortized intangible assets listed in the table above. A portion of the increase in customer relationships relates to the fiscal 2008 acquisitions of Transposafe and DAWG which added $8,236 and $432 respectively. A significant component of the increase in amortizable trademarks relates to the acquisition of Transposafe, which added $1,287.

The value of goodwill and other intangible assets in the Condensed Consolidated Balance Sheet at April 30, 2008, differs from the value assigned to them in the allocation of purchase price due to the effect of fluctuations in the exchange rates used to translate financial statements into the United States Dollar between the date of acquisition and April 30, 2008.

Amortization expense on intangible assets was $7,260 and $5,673 for the three-month periods ended April 30, 2008 and 2007, respectively and $20,003 and $16,634 for the nine-month periods ended April 30, 2008 and 2007, respectively. Annual amortization is projected to be $27,682, $25,456, $24,515, $20,722 and $11,485 for the years ending July 31, 2008, 2009, 2010, 2011 and 2012, respectively.

NOTE C Comprehensive Income

NOTE E Acquisitions

During the nine months ended April 30, 2008, the Company acquired two companies for a total combined purchase, net of cash acquired, of $28,871. Transposafe is headquartered near Amsterdam with operations in Belgium, Germany, and Poland. Transposafe specializes in security sealing and identification solutions for protecting assets during transport. Transposafe was acquired in November 2007. DAWG is headquartered in Terryville, Connecticut. DAWG is a direct marketer of sorbents, spill-containment products, safety-storage cabinets, first aid kits, and other products that help keep facilities safe and clean. DAWG was acquired in March 2008.

The purchase agreement of Transposafe includes a provision for contingent payments based upon meeting certain performance conditions over a two-year period of time subsequent to the acquisition. The total maximum contingent payment of approximately $3,000 has been placed in an escrow account for the acquisition of Transposafe. The Company has recorded the contingent payment that has been placed in an escrow account as an other asset on the condensed consolidated balance sheet.

Payments of approximately $4,400, $1,200, and $200 were made during the nine months ended April 30, 2008 to satisfy the earnout and holdback liabilities of the Daewon Industry Corporation, STOPware, Inc., and Asterisco acquisitions, respectively.

Options issued under these plans, referred to herein as service-based options, generally expire 10 years from the date of grant. In accordance with this standard, the Company recognizes the compensation cost of all share-based awards on a straight-line basis over the vesting period of the award. The Company has estimated the fair value of its service-based and performance-based option awards granted during the nine months ended April 30, 2008 and 2007 using the Black-Scholes option valuation model. The weighted-average assumptions used in the Black-Scholes valuation model are reflected in the following table:

	Nine Months Ended April 30, 2008		Nine Months Ended April 30, 2007	
Black-Scholes Option Valuation Assumptions	Service-Based Option Awards	Performance-Based Option Awards	Service-Based Option Awards	Performance-Based Option Awards
Expected term (in years)	6.04	6.57	6.07	6.57
Expected volatility	32.05%	33.68%	34.01%	34.66%
Expected dividend yield	1.62%	1.58%	1.46%	1.51%
Risk-free interest rate	3.44%	4.66%	4.52%	4.90%
Weighted-average market value of underlying stock at grant date	$38.22	$ 35.35	$38.19	$ 33.32
Weighted-average exercise price	$38.22	$ 35.35	$38.19	$ 33.32
Weighted-average fair value of options granted during the period	$11.94	$ 12.83	$13.57	$ 12.57

The Company uses historical data regarding stock option exercise behaviors to estimate the expected term of options granted based on the period of time that options granted are expected to be outstanding. Expected volatilities

are based on the historical volatility of the Company s stock. The expected dividend yield is based on the Company s historical dividend payments and historical yield. The risk-free interest rate is based on the U.S. Treasury yield curve in effect on the grant date for the length of time corresponding to the expected term of the option. The market value is obtained by taking the average of the high and the low stock price on the date of the grant.

This new statement will be effective for fiscal years beginning after November 15, 2007. The Company is in the process of evaluating the impact that will result from adopting SFAS No. 159 and therefore is unable to disclose the impact SFAS No. 159 will have on its financial position and results of operations when such statement is adopted.

The Company is in the process of evaluating the impact that will result from adopting SFAS No.141(R), and therefore, the Company is unable to disclose the impact SFAS No. 141(R) will have on its financial position and results of operations when such statement is adopted.

The amount of net income attributable to the noncontrolling interest will be included in consolidated net income on the face of the income statement. This new statement will be effective for fiscal years beginning after December 15, 2008. The Company expects that the adoption of SFAS No. 160 will not have a material effect on its consolidated financial statements.

Sales for the three months ended April 30, 2008, increased 10.3% compared to the same period in fiscal 2007. The increase was comprised of a decline in organic sales of 1.2%, an increase of 5.0% due to the acquisitions listed in the above table, and an increase of 6.5% due to the effect of currencies on sales. Declining organic sales for the quarter were the result of a 2.4% and 7.4% decline in the organic sales in the Direct Marketing Americas and Asia-Pacific segments, respectively, partially offset by 3.6% growth in the Brady Americas segment and 0.1% growth in Europe. Organic sales in the Brady Americas segment were driven by solid results in the education and industrial OEM markets. The declines in the Direct Marketing Americas segment were the result of slowing in the construction and manufacturing markets. The Asia-Pacific segment experienced decreases in organic sales resulting from weakness in certain segments of the mobile handset market, the Company s decision to deemphasize low-margin business in the mobile handset space, and continued pricing pressures in the mobile handset market.

Sales for the nine months ended April 30, 2008, increased 12.6% compared to the same period in fiscal 2007. The increase was comprised of a slight decline in organic sales of 0.2%, an increase of 6.8% due to the acquisitions listed above, and an increase of 6.0% due to the effect of currencies on sales. The solid organic growth in the Brady Americas segment of 4.6%, in addition to the slight increase in organic sales in Europe of 0.6%, was offset by a decrease in the Direct Marketing Americas segment of 1.3% and a decline of 5.0% in the Asia-Pacific segment. On a year-to-date basis, solid organic growth in the Brady Americas segment was driven by positive results across multiple markets, including safety and industrial identification, laboratory, and education. The decline in organic sales in the Asia-Pacific segment on a year-to-date basis was due to factors mentioned above.

Gross margin as a percentage of sales increased to 49.6% from 48.8% for the quarter and to 49.0% from 48.4% for the nine months ended April 30, 2008, compared to the same periods of the previous year. The increase in gross margin as a percentage of sales was primarily the result of cost reduction actions taken during fiscal 2007 and fiscal 2008.

Research and development (R&D) expenses increased 17.6% to $10.3 million for the quarter and 11.3% to $29.3 million for the nine months ended April 30, 2008, compared to $8.7 million and $26.4 million for the same periods in the prior year, respectively. As a percentage of sales, R&D expenses represented a slightly higher percentage of sales, increasing to 2.7% in the third quarter of fiscal 2008 from 2.5% in the third quarter of fiscal 2007, and remained at 2.6% in the first nine months of fiscal 2008 compared to 2.6% in the first nine months of fiscal 2007, reflecting the Company s continuing commitment to investing in new product development.

Selling, general and administrative (SG&A) expenses increased 11.1% to $126.7 million for the three months ended April 30, 2008, compared to $114.1 million for the same period in the prior year and 13.3% to $369.6 million for the nine months ended April 30, 2008, compared to $326.1 million for the same period in the prior year. The increase in SG&A expenses was primarily the result of the effect of currencies and acquisitions made during fiscal 2007 and 2008. As a percentage of sales, SG&A expenses increased to 33.2% from 32.9% for the quarter and to 32.8% from 32.6% for the nine months ended April 30, 2008, compared to the same periods in the prior year.

Interest expense increased to $7.0 million from $6.4 million for the quarter and to $20.4 million from $16.4 million for the three and nine months ended April 30, 2008, compared to the same periods in the prior year. The increase in interest expense for the three and nine months ended April 30, 2008 was due to interest on the $150 million private placement of senior notes that the Company completed in the third quarter of fiscal 2007.

Other income and expense increased to $0.9 million of income for the quarter and to $3.3 million of income for the nine months ended April 30, 2008, compared to $0.4 million of income and $0.9 million of income for the same periods in the prior year, respectively. Of the $0.9 million in other income for the three months ended April 30, 2008, $1.4 million was the result of interest income generated from investments of excess cash, partially offset by $0.7 million of foreign exchange losses. Other income and expense for the three months ended April 30, 2007 consisted primarily of $0.6 million of interest income, partially offset by $0.4 million of foreign exchange losses. The Company recognized approximately $2 million in income tax benefits due to the expiration of various statutes of limitations, resulting in an effective tax rate of 26.2% during the third quarter of fiscal 2008. On a year-to-date basis, the increased tax rate in fiscal 2008 is primarily due to increased profits in higher tax countries. The Company expects the full year effective tax rate for fiscal 2008 to be approximately 29%.

Net income for the three months ended April 30, 2008, increased 18.5% to $34.4 million, compared to $29.0 million for the same quarter of the previous year. Net income as a percentage of sales increased to 9.0% from 8.4% for the quarter ended April 30, 2008, compared to the same period in the prior year, due to the factors noted above. For the nine months ended April 30, 2008, net income increased 17.2% to $97.4 million, compared to $83.1 million for the same period in the previous year. As a percentage of sales, net income increased to 8.6% from 8.3% for the nine months ended April 30, 2008, compared to the same period in the previous year.

The Company evaluates performance of the businesses using sales and segment profit. Segment profit or loss does not include certain administrative costs, such as the cost of finance, stock options, information technology and human resources, which are managed as global functions. Corporate research and development, interest, investment and other income and income taxes are also excluded when evaluating performance.

Brady Americas:

Brady Americas sales increased 14.0% for the quarter and 19.7% for the nine months ended April 30, 2008, compared to the same periods in the prior year. Organic growth accounted for 3.6% and 4.6% in the quarter and year-to-date, respectively, as compared to the same periods in the previous year. For the quarter, the organic growth was driven by strong performance in the education market resulting from the fiscal 2007 launch of the VariQuest suite of products as well as solid results in the industrial OEM markets, partially offset by a softening in the manufacturing and utility markets. Fluctuations in the exchange rates used to translate financial results into the United States dollar increased sales by 2.8% in the quarter and 2.4% for the nine-month period. Sales in the segment were increased by the fiscal year 2007 acquisitions of Precision Converters, Scafftag, Asterisco, and SPC, which increased sales by 7.6% for the quarter and 12.7% for the nine-month period.

Segment profit for the region increased 12.1% to $22.7 million from $20.2 million for the quarter and 20.3% to $66.7 million from $55.4 million for the nine months ended April 30, 2008, compared to the same periods in the prior year. As a percentage of sales, segment profit decreased to 22.6% from 23.0% in the third quarter of fiscal 2008 and increased slightly to 22.2% from 22.1% in the nine months ended April 30, 2008, compared to the same periods in the prior year. The slight decline for the third quarter in segment profit as a percentage of sales was due primarily to the one-time cost of consolidating two medical die cut businesses. The consolidation of these businesses will allow the Company to leverage resources and drive future profit improvements.

Direct Marketing and People ID Americas:

Direct Marketing and People ID Americas sales increased 0.3% for the quarter and 3.9% for the nine months ended April 30, 2008, compared to the same periods in the prior year. Organic sales for the segment declined 2.4% and 1.3% in the quarter and year-to-date, respectively, as compared to the same periods in the previous year. The decline in the organic sales for the third quarter and nine-month period was due primarily to softness in the manufacturing and construction sectors. Fluctuations in the exchange rates used to translate financial results into the United States dollar increased sales by 1.7% in the quarter and 1.6% for the nine-month period. Sales in the segment were increased by the fiscal year 2008 acquisition of DAWG and the fiscal year 2007 acquisitions of CIPI and Clement, which increased sales by 1.0% for the quarter and 3.6% for the nine-month period.

Segment profit for the region decreased 1.6% to $17.5 million from $17.8 million for the quarter and increased 0.3% to $49.6 million from $49.5 million for the nine months ended April 30, 2008, compared to the same periods in the prior year. As a percentage of sales, segment profit decreased to 26.5% from 27.0% in the third quarter of fiscal 2008 and to 25.2% from 26.1% in the nine months ended April 30, 2008, compared to the same periods in the prior year. The decline in segment profit as a percentage of sales compared to the prior year was due to the decline in organic sales during the quarter and on a year-to-date basis.

Europe:

Europe sales increased 19.9% for the quarter and 20.6% for the nine months ended April 30, 2008, compared to the same periods in the prior year. Organic growth accounted for 0.1% and 0.6% in the quarter and year-to-date, respectively, compared to the same periods in the previous year. Prior year sales relating to the implementation of No Smoking legislation in the U.K. and France, created tough comparables for organic sales in the segment, as these sales did not recur in fiscal 2008. Sales were positively affected by fluctuations in the exchange rates used to translate financial results into the United States dollar, which increased sales within the region by 11.3% in the quarter and 10.5% for the nine-month period. The fiscal 2008 acquisition of Transposafe and the fiscal 2007 acquisitions of CIPI, Scafftag, Moderno, and SPC increased sales by 8.5% for the quarter and 9.5% for the nine-month period.

Segment profit for the region increased 23.4% to $36.2 million from $29.4 million for the quarter and 29.7% to $97.2 million from $75.0 million for the nine months ended April 30, 2008, compared to the same periods in the prior year. As a percentage of sales, segment profit increased to 27.2% from 26.4% in the third quarter of fiscal 2008 and to 26.6% from 24.8% in the nine months ended April 30, 2008, compared to the same periods in the prior year. The increase in segment profit was driven by the sales results noted above, as well as the realization of benefits from cost reduction activities taken at the end of fiscal 2007.

Asia-Pacific:

Asia-Pacific sales increased 1.1% for the quarter and 2.7% for the nine months ended April 30, 2008, compared to the same periods in the prior year. Organic sales in local currency decreased 7.4% in the quarter and 5.0% year-to-date, compared to the same periods in the previous year. Although the segment saw gains with certain OEM customers, these were offset by a drop in sales to OEM customers who lost significant market share, as well as competitive, commodity business the Company chose to deemphasize. Pricing pressures remained steady during the quarter. Sales were positively affected by fluctuations in the exchange rates used to translate financial results into the United States dollar, which increased sales within the region by 7.9% in the quarter and 7.3% for the nine-month period. The fiscal 2007 acquisitions of CIPI, Scafftag, and SPC increased sales by 0.6% for the quarter and 0.4% for the nine-month period.

Segment profit for the region decreased 6.8% to $11.1 million from $11.9 million for the quarter and declined 7.1% to $43.1 million from $46.4 million for the nine months ended April 30, 2008, compared to the same periods in the prior year. As a percentage of sales, segment profit decreased to 13.5% from 14.6% in the third quarter of fiscal 2008 and to 16.4% from 18.1% in the nine months ended April 30, 2008, compared to the same periods in the prior year. The decline in segment profit as a percentage of sales was due to the industry mix shift from high-end, feature rich mobile phones to low-end basic mobile phones and continued pricing pressures within the mobile handset supply chain, partially offset by cost reduction activities initiated in fiscal 2007.

Financial Condition

The Company s current ratio as of April 30, 2008, was 2.4 compared to 2.1 at July 31, 2007. Cash and cash equivalents were $227.4 million at April 30, 2008, compared to $142.8 million at July 31, 2007. There were no short-term investments outstanding at April 30, 2008, compared to $19.2 million outstanding at July 31, 2007. Accounts receivable increased $13.4 million for the nine months ended April 30, 2008, due to the acquisitions of Transposafe and DAWG and foreign currency translation, partially offset by a lower receivable balance at April 30, 2008. Inventories decreased $4.2 million for the nine months ended April 30, 2008, to $135.6 from $139.8 million. The decline in inventory due to working capital initiatives was partially offset by the acquisitions of Transposafe and DAWG, as well as foreign currency translation. The net decrease in current liabilities was $8.8 million for the current fiscal year. The decrease was composed of a decline in accrued income taxes as the adoption of FIN 48 required a reclassification of a portion of the current payable recorded at July 31, 2007 to long-term liabilities, and a decline in other current liabilities partially offset by an increase in accounts payable due to foreign currency translation.

Cash flow from operating activities totaled $152.1 million for the nine months ended April 30, 2008, compared to $79.7 million for the same period last year. The increase was the result of the impact of working capital initiatives on accounts receivable and inventory balances as compared to the changes reported for the nine months ended April 30, 2007, an increase in net income of $14.3 million, and a $5.3 million increase in depreciation and amortization on the intangible assets acquired in fiscal 2007.

The acquisitions of businesses used $28.9 million of cash for the nine months ended April 30, 2008, compared to $157.9 million for the same period in the prior year. Payments of $4.4 million, $1.2 million, and $0.2 million were made during the nine months ended April 30, 2008 to satisfy the earnout and holdback liabilities of the Daewon Industry Corporation, STOPware, Inc., and Asterisco acquisitions, respectively. Capital expenditures were $19.7 million for the nine months ended April 30, 2008, compared to $42.1 million in the same period last year. Fiscal 2007 capital expenditures included the implementation of SAP and expansions in China, Canada, India, Slovakia, and other locations which were not repeated in fiscal 2008. Net cash used in financing activities was $38.7 million for the nine months ended April 30, 2008, due to the payment of dividends and the repurchase of outstanding stock, partially offset by the proceeds from the exercise of stock options. Net cash provided by financing activities for the same period last year was $131.6 million due to proceeds from the private placement of $150 million of senior notes in the third quarter, partially offset by the payment of dividends.

On October 5, 2006, the Company entered into a $200 million multi-currency revolving loan agreement with a group of five banks that replaced the Company s previous credit agreement. At the Company s option, and subject to certain standard conditions, the available amount under the new credit facility may be increased from $200 million up to $300 million. On March 18, 2008, the Company entered into an amendment to the revolving loan agreement which

extended the maturity date from October 5, 2011 to March 18, 2013. All other terms of the revolving loan agreement remained the same.

Under the credit agreement, the Company has the option to select either a base interest rate (based upon the higher of the federal funds rate plus one-half of 1% or the prime rate of Bank of America) or a Eurocurrency interest rate (at the LIBOR rate plus a margin based on the Company s consolidated leverage ratio). A commitment fee is payable on the unused amount of the facility. The agreement requires the Company to maintain two financial covenants. As of April 30, 2008, the Company was in compliance with the covenants of the agreement.

The credit agreement restricts the amount of certain types of payments, including dividends, which can be made annually to $50 million plus an amount equal to 75% of consolidated net income for the prior fiscal year. The Company believes that based on historic dividend practice, this restriction would not impede the Company in following a similar dividend practice in the future. During the nine months ended April 30, 2008, the Company did not borrow or repay any amounts under the credit agreement. As of April 30, 2008, there were no outstanding borrowings under the credit agreement.

On March 23, 2007, the Company completed the private placement of $150 million in ten-year fixed notes at 5.3% interest to institutional investors. The notes will be amortized in equal installments over seven years, beginning in 2011 with interest payable on the notes semiannually on September 23 and March 23, beginning in September 2007. The notes have been fully and unconditionally guaranteed on an unsecured basis by the Company s domestic subsidiaries. The Company used the net proceeds of the offering to reduce outstanding indebtedness under the Company s revolving loan agreement and fund its ongoing strategic growth plan. This private placement was exempt from the registration requirements of the Securities Act of 1933. The notes were not registered for resale and may not be resold absent such registration or an applicable exemption from the registration requirements of the Securities Act of 1933 and applicable state securities laws. The notes have certain prepayment penalties for repaying them prior to the maturity date. The agreement also requires the Company to maintain a financial covenant. As of April 30, 2008, the Company was in compliance with this covenant.

On February 14, 2006, the Company completed the private placement of $200 million in ten-year fixed notes at 5.3% interest to institutional investors. The notes will be amortized in equal installments over seven years, beginning in 2010 with interest payable on the notes semiannually on August 14 and February 14, beginning in August 2006. The notes have been fully and unconditionally guaranteed on an unsecured basis by the Company s domestic subsidiaries. The Company used the net proceeds of the offering to finance acquisitions completed in fiscal 2006 and fiscal 2007. This private placement was exempt from the registration requirements of the Securities Act of 1933. The notes were not registered for resale and may not be resold absent such registration or an applicable exemption from the registration requirements of the Securities Act of 1933 and applicable state securities laws. The notes have certain prepayment penalties for repaying them prior to the maturity date. The agreement also requires the Company to maintain a financial covenant. As of April 30, 2008, the Company was in compliance with this covenant.

On June 30, 2004, the Company finalized a debt offering of $150 million of 5.14% unsecured senior notes due in 2014 in an offering exempt from the registration requirements of the Securities Act of 1933. The debt offering was in conjunction with the Company s acquisition of EMED. The notes amortize over seven years beginning in 2008, with interest payable on the notes semiannually on June 28 and December 28, beginning in December 2004. The Company used the proceeds of the offering to reduce outstanding indebtedness under the Company s revolving credit facilities used to initially fund the EMED acquisition. The debt has certain prepayment penalties for repaying the debt prior to its maturity date. The agreement also requires the Company to maintain a financial covenant. As of April 30, 2008, the Company was in compliance with this covenant.

On May 20, 2008, the Board of Directors declared a quarterly cash dividend to shareholders of the Company s Class A Common Stock of $0.15 per share payable on July 31, 2008 to shareholders of record at the close of business on July 10, 2008.

Off-Balance Sheet Arrangements The Company does not have material off-balance sheet arrangements or related-party transactions. The Company is not aware of factors that are reasonably likely to adversely affect liquidity trends, other than the risk factors described in this and other Company filings. However, the following additional information is provided to assist those reviewing the Company s financial statements.

Operating Leases These leases generally are entered into for investments in facilities, such as manufacturing facilities, warehouses and office buildings, computer equipment and Company vehicles, for which the economic profile is favorable.

Purchase Commitments The Company has purchase commitments for materials, supplies, services, and property, plant and equipment as part of the ordinary conduct of its business. In the aggregate, such commitments are not in excess of current market prices and are not material to the financial position of the Company. Due to the proprietary nature of many of the Company s materials and processes, certain supply contracts contain penalty provisions for early termination. The Company does not believe a material amount of penalties will be incurred under these contracts based upon historical experience and current expectations.

Other Contractual Obligations The Company does not have material financial guarantees or other contractual commitments that are reasonably likely to adversely affect liquidity. In connection with the adoption of FIN 48 as of August 1, 2007, the Company is unable to determine the period in which the cash settlement of the liability associated with FIN 48 will occur with the respective taxing authority.

Related-Party Transactions The Company does not have any related-party transactions that materially affect the results of operations, cash flow or financial condition.

For Brady, uncertainties arise from future financial performance of major markets Brady serves, which include, without limitation, telecommunications, consumer electronics, mobile handset, manufacturing, electrical, construction, laboratory, education, governmental, public utility, computer, transportation; difficulties in making and integrating acquisitions; risks associated with newly acquired businesses; Brady s ability to retain significant contracts and customers; future competition; Brady s ability to develop and successfully market new products; changes in the supply of, or price for, parts and components; increased price pressure from suppliers and customers; interruptions to sources of supply; environmental, health and safety compliance costs and liabilities; Brady s ability to realize cost savings from operating initiatives; Brady s ability to attract and retain key talent; difficulties associated with exports; risks associated with international operations; fluctuations in currency rates versus the US dollar; technology changes; potential write-offs of Brady s substantial intangible assets; risks associated with obtaining governmental approvals and maintaining regulatory compliance for new and existing products; business interruptions due to implementing business systems; and numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive and regulatory nature contained from time to time in Brady s U.S. Securities and Exchange Commission filings, including, but not limited to, those factors listed in the Risk Factors in Item 1A of Part I of Brady s Form 10-K for the year ended July 31, 2007. These uncertainties may cause Brady s actual future results to be materially different than those expressed in its forward-looking statements. Brady does not undertake to update its forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company s business operations give rise to market risk exposure due to changes in foreign exchange rates. To manage that risk effectively, the Company enters into hedging transactions, according to established guidelines and policies that enable it to mitigate the adverse effects of this financial market risk.

The global nature of the Company s business requires active participation in the foreign exchange markets. As a result of investments, production facilities and other operations on a global scale, the Company has assets, liabilities and cash flows in currencies other than the U.S. Dollar. The primary objective of the Company s foreign currency exchange risk management is to minimize the impact of currency movements on intercompany transactions and foreign raw-material imports. To achieve this objective, the Company hedges a portion of known exposures using forward contracts. Main exposures are related to transactions denominated in the British Pound, the Euro, Canadian Dollar, Australian Dollar, Singapore Dollar, Swedish Krona, Korean Won and Chinese Yuan currency.

The Company could be exposed to interest rate risk through its corporate borrowing activities. The objective of the Company s interest rate risk management activities is to manage the levels of the Company s fixed and floating interest rate exposure to be consistent with the Company s preferred mix. The interest rate risk management program allows the Company to enter into approved interest rate derivatives, with the approval of the Board of Directors, if there is a desire to modify the Company s exposure to interest rates. As of April 30, 2008, the Company had no interest rate derivatives.

ITEM 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures designed to ensure that the information the Company must disclose in its filings with the Securities and Exchange Commission is recorded, processed, summarized and reported on a timely basis. The Company s Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the Company s disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act) as of the end of the period covered by this report (the Evaluation Date). Based on such evaluation, such officers have concluded that, as of the Evaluation Date, the Company s disclosure controls and procedures are effective in bringing to their attention on a timely basis material information relating to the Company required to be included in the Company s periodic filings under the Exchange Act.

The Company is in the process of implementing its enterprise resource planning system, SAP, to many of its locations around the world. This implementation has resulted in certain changes to business processes and internal controls impacting financial reporting. Management is taking the necessary steps to monitor and maintain appropriate internal controls during this period of change.

There were no other changes in the Company s internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the Company s most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting.
