TABLE OF CONTENTS

FORM 10-QSB/A FOR THE QUARTER ENDED SEPTEMBER 30, 2001

The Registrant hereby amends its Quarterly Report on Form 10-QSB for the three month period ended September 30, 2001, in order to incorporate the unaudited financial statements for the three month period ended September 30, 2001, as follows:

PART I. FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

Condensed Balance Sheet as of September 30, 2001 (unaudited) and as of December 31, 2000.

Condensed Statements of Operations (Unaudited) for the three months ended September 30, 2001 and 2000, for the nine months ended September 30, 2001 and 2000, and from the Company's inception, May 8, 1997 through September 30, 2001.

Condensed Statements of Cash Flows (Unaudited) for the nine months ended September 30, 2001 and 2000.

Notes to Financial Statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

THREE MONTHS ENDED SEPTEMBER 30, 2001 COMPARED TO THE THREE MONTHS ENDED SEPTEMBER 30, 2000, AND THE NINE MONTHS ENDED SEPTEMBER 30, 2001 COMPARED TO THE NINE MONTHS ENDED SEPTEMBER 30, 2000.

OPERATIONS: Management continues to be actively involved in negotiations with established entities in IT services, financial services and wireless applications for partnership agreements to market the FTS patent and the related UEPS technologies and services. On April 6, 2001, the Company issued the Reserve Bank of Malawi, Malawi's central bank, with a license to operate the Company's FTS/UEPS technology on it's behalf and to market the technology to the banks in Malawi. A national switching and smart card system ("Malswitch") is currently being installed by the Company's UEPS integrator, with a launch date of November 2001. Malswitch's initial launch is expected to total approximately 200,000 smart cards with initial applications in banking services.

The Company is currently engaged in advanced stage negotiations with potential licensees of the FTS/UEPS technology in Kenya, Ghana, Congo, Uganda, Tanzania, Chile, and Australia. The Australian organization wishes to implement FTS based systems in Australia, Hong Kong, the Philippines, and Indonesia.

REVENUES: The Company is still in its development stage and planned principal activities have not commenced or produced revenues. Initial income is expected in the fourth calendar quarter of 2001.

Edgar Filing: NET 1 UEPS TECHNOLOGIES INC - Form 10QSB/A

ADMINISTRATIVE EXPENSES: Administrative expenses increased from \$67,629 for the three months ended September 30, 2000 to \$194,469 for the three months ended September 30, 2001, an increase of \$128,840; and increased from \$218,097 for the nine months ended September 30, 2000 to \$508,481 for the nine months ended September 30, 2001, an increase of \$290,384. The increases resulted primarily from subcontract fees paid pursuant to an outsourcing agreement with Net 1 Investment Holdings, Ltd., the Company's UEPS integrator for the Central Europe, Middle East and African regions. The expenses for the periods represented the Company's net loss for each of the periods.

LIQUIDITY AND CAPITAL RESOURCES: Historically, the primary source of the Company's cash has been through the sale of equity. The Company does not have available any established lines of credit with banking facilities. The Company proposes to utilize capital raised in private placements to fund ongoing administrative expenses until such time that revenues commence from the commercialization of the Company's products.

The Company believes its current available cash position is sufficient to meet its short-term cash needs. Management at all times continues to optimize the use of the Company's limited funds. Management is not aware of any known trends or demands, commitments, events, or uncertainties, as they relate to liquidity not already identified in the Company's business plan that could negatively affect the Company's ability to develop its business.

The Company's ability to continue as a going concern is dependent upon the Company's ability in the near future to (i) raise additional funds through equity financings involving affiliates, controlling shareholders, and unrelated parties, and (ii) develop a market for its products.

PART II. OTHER INFORMATION

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K.

(a) Exhibits required by Item 601 of Regulation S-B

None

(b) Reports on Form 8-K

Net 1 UEPS Technologies, Inc.
(A Development Stage Company)
Notes to the Financial Statements

1. Development Stage Company

Net 1 UEPS Technologies, Inc. herein ("the Company") was incorporated in the State of Florida on May 8, 1997.

The Company is a development stage company engaged in the business of commercializing the smart card technology based Universal Electronic Payment System ("UEPS") and Funds Transfer System ("FTS") through the development of strategic alliances with national and international bank and card service organizations. The patent rights (or applications for patents) of the UEPS/FTS technology are for all worldwide territories (except South Africa and its surrounding territories) are held by Net 1 Holdings S.a.r.l., a company incorporated in Luxembourg ("Net 1 Holdings").

The Company entered into a license agreement, dated May 19, 1997 (the "License Agreement"), with Net 1 Holdings, Net 1 Operations S.a.r.l. and Net 1 Pty (collectively, the "Licensors"), where the licensors granted a non-exclusive license to the Company for the UEPS technology for the issuance of 2,706,122 shares at a fair market value of \$0.001 per share. A total of 5,412,244 shares were issued as the Company split the stock on a two new for one old basis. On October 1, 1997 an Amendment to the License Agreement was signed that provided for the transfer of the ownership of the UEPS technology and FTS patents and for the assignment of the Technology License Agreement between VISA International Service Association and Net 1 Holdings, dated July 31, 1997 (the "Visa Agreement") to the Company in consideration for 2,364,806 shares on a pre-split basis, 4,729,612 on a post-split basis. The assignment of the Visa Agreement and the transfer of the ownership of the UEPS technology and FTS patents to the Company were never consummated because certain conditions precedent were never satisfied.

On May 3, 2000 an agreement entitled "Patent and Technology Agreement" was entered into between the Company and Net 1 Holdings that granted the Company an exclusive marketing license for the UEPS technology and the FTS patent for the world excluding South Africa and its surrounding territories under terms similar to those stipulated in the Amendment to the License Agreement. No conditions precedent were stipulated. The 4,729,612 shares of Net 1 previously issued into trust in consideration for the Amendment to the License Agreement were thus released to Net 1 Holdings.

The above issuances of shares were on a pre-split basis. Net 1 Holdings as at June 30, 2000 owns 10,141,856 common shares of 15,602,856 issued and outstanding common shares, or 65%.

In a development stage company, management devotes most of its activities to establishing a new business primarily, the development of a detailed business plan, marketing strategy and the raising of funds required to develop and operate the business successfully. Planned principal activities have not yet produced revenues and the Company has suffered recurring operating losses as is normal in development stage companies. These factors raise doubt about the Company's ability to continue as a going concern. The ability of the Company to emerge from the development stage with respect to its planned principal business activity is dependent upon its successful

Edgar Filing: NET 1 UEPS TECHNOLOGIES INC - Form 10QSB/A

efforts to raise additional equity financing, receive funding from affiliates and controlling shareholders, and develop a market for its products.

On December 8, 2000, the Company announced that it granted an option, valid for 120 days, to a corporate management firm, Sandon Overseas Corporation Limited ("Sandon"), to acquire 8,750,000 shares of the Company at \$3.50 per share. The purchase price would consist of \$7 million in cash and the balance by a combination of cash and capital stock of Net 1 Applied Technology Holdings Ltd., the patent rights holder for South Africa and its surrounding territories, ("Aplitec") equal to 20.1% of the total issued share capital of Aplitec. On February 28, 2001 the Company announced that Sandon had cancelled their option.

2. Summary of Significant Accounting Policies

(a) Property, Plant and Equipment

Computer equipment is amortized over five years on a straight-line basis.

F-5

Net 1 UEPS Technologies, Inc.
(A Development Stage Company)
Notes to the Financial Statements

2. Summary of Significant Accounting Policies

(b) Intangible Assets

Costs to acquire exclusive license rights to specific technology are capitalized as incurred. These costs are being amortized on a straight line basis over five years. Intangible assets are evaluated in each reporting period to determine if there were events or circumstances which would indicate a possible inability to recover the carrying amount. Such evaluation is based on various analyses including assessing the Company's ability to bring the commercial applications to market, related profitability projections and undiscounted cash flows relating to each application which necessarily involves significant management judgment.

(c) Basic and Diluted Net Income (Loss) per Share

The Company computes net income (loss) per share in accordance with SFAS No. 128, "Earnings per Share" (SFAS 128). SFAS 128 requires presentation of both basic and diluted earnings per shares (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing Diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential common shares if their effect is antidilutive.

Edgar Filing: NET 1 UEPS TECHNOLOGIES INC - Form 10QSB/A

(d) Foreign Currency Transactions/Balances

Transactions in currencies other than the U.S. dollar are translated at the rate in effect on the transaction date. Any balance sheet items denominated in foreign currencies are translated into U.S. dollars using the rate in effect on the balance sheet date.

(e) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods. Actual results could differ from those estimates.

(f) Adjustments

These interim unaudited financial statements have been prepared on the same basis as the annual financial statements and in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for a full year or for any future period.

(g) Revenue Recognition

The Company receives revenue from Net1 Holdings SARL from all sales of licenses equal to the Net1 Holdings SARL annual after tax net profit as certified by its auditors in its annual financial statement. The Company will recognize the revenue in the period when the audited financial statements of Net1 Holdings SARL become available. The Company will report the revenue on a net basis as the Company is acting as an agent for Net1 Holdings SARL as per the Patent and Technology agreement date May 3, 2000.

See Note 1 for the description of the license and Note 6 for status of the underlying patents.

5. Related Party Transactions

The following transactions were recorded at their exchange amounts:

(a) Consulting fees for the nine months ended September 30, 2001 include \$112,500 (2000 - \$112,500) paid or payable to a director. \$12,500 of these fees are included in accounts payable at September 30, 2001. Subcontract costs include \$270,000 paid or payable to a company with a common director.

(b) See Note 1 for an exclusive license purchased from a related party.

6. Legal Proceedings

(a) Status of FTS Patents

FTS was first patented in South Africa in 1989. The European patent was granted on December 28, 1994, with effect in Austria, Belgium, Switzerland, Germany, Denmark, Spain, France, Great Britain, Greece, Italy, Liechtenstein, Luxembourg, Netherlands and Sweden. The European Patent Convention provides for an opposition period immediately following the grant of a European patent, and six parties filed an opposition to the grant of the patent on the grounds that the invention was not patentable. The case was heard before a Board of the Opposition Division in March 1998, when the patent was upheld in a form slightly different than the original application. Following the issue of the formal decision, a number of the opponents filed an appeal. The appeal proceedings will be heard in two to three years before the Board of Appeal of the European Patent Office. Currently, the granted patent remains effective in each of the designated states and is currently in force.

(b) Potential lawsuit

Serge Belamant, the estate of Andre Mansvelt and Net I Canada Ltd. (a British Columbia corporation whose three shareholders are Serge

Edgar Filing: NET 1 UEPS TECHNOLOGIES INC - Form 10QSB/A

Belamant, the estate of Andre Mansvelt and John Drove), have been served by John Drove, with a claim to the rights for UEPS for Canada in an action brought before the Supreme Court of Canada in February, 2000. The Company, as the exclusive licensee for UEPS for the world except South Africa, was served by John Drove with a notice of claim in February, 2000. The Company, as the exclusive licensee to the UEPS technology, can potentially expect to be joined as a defendant to this statement of claim. The Company plans to defend any and all claims brought against it.

F-7
