NOTES TO CONDENSED CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**

(Amounts in thousands, except share and per share data)
(Unaudited)

1. Organization and description of business

Education Realty Trust, Inc. (the Trust) was organized in the state of Maryland on July 12, 2004 to succeed to the business of a group of entities collectively referred to herein as the EDR Predecessor. The EDR Predecessor was not a legal entity, but rather a combination of entities under common management. Under the Trust's Articles of Incorporation, as amended, the Trust is authorized to issue up to 200 million shares of common stock and 50 million shares of preferred stock, each having a par value of \$0.01 per share. Paul O. Bower (the Promoter) contributed \$1 for 100 shares of the Trust upon its formation.

The Trust, as the sole general partner of Education Realty Operating Partnership, LP, a Delaware limited partnership (the Operating Partnership), has the responsibility and discretion in the management and control of the Operating Partnership, and the limited partners of the Operating Partnership, in such capacity, have no authority to transact business for, or participate in the management activities of the Operating Partnership. Accordingly, the Trust will account for the Operating Partnership using the consolidation method. Paul O. Bower, directly and through the contribution of his interests in the EDR Predecessor, is a limited partner in the Operating Partnership.

The Operating Partnership owns, directly or indirectly, interests in student housing communities located near major universities in the United States. The Trust also provides real estate facility management, development and other advisory services through subsidiaries of the Operating Partnership to third parties and to joint ventures in which the Trust is invested.

2. The offering and formation transactions

The Trust completed the initial public offering (the Offering) of its common stock on January 31, 2005. The Trust sold 21,850,000 shares of common stock, including 2,850,000 shares related to the full exercise of the over-allotment option by the underwriters of the Offering, at a price of \$16.00 per share. The Offering raised net proceeds of approximately \$320.4 million, after underwriting discounts and offering expenses of approximately \$29.2 million. The Trust contributed the net proceeds of the Offering for 100% of the general partnership interests and a majority of the limited partnership interests in the Operating Partnership. Concurrently, the Operating Partnership used approximately \$37.7 million of offering proceeds and issued units approximating \$18.3 million in estimated value to directly or indirectly acquire the EDR Predecessor entities.

The Operating Partnership also acquired 14 properties referred to as the JPI portfolio simultaneous with the Offering. The purchase price approximated \$410,710 (including estimated transaction costs of \$7,530). The Operating Partnership assumed total first mortgage debt of \$311,500, and repaid \$93,360 with the use of the net proceeds of the Offering. Additionally the Operating Partnership issued warrants approximating \$375 in value and Operating Partnership units approximating \$7,995 in estimated value. The acquisition of the EDR Predecessor and the JPI portfolio is referred to herein as the Formation Transactions.

3. Summary of significant accounting policies

Basis of presentation

The accompanying condensed consolidated and combined financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States (GAAP). The accompanying consolidated financial statements of the Trust represent the assets and liabilities and operating results of the Trust and its majority owned subsidiaries. The accompanying combined financial statements of the EDR Predecessor represent the assets and liabilities and operating results of the entities comprising the EDR

Table of Contents

Predecessor. The historical combined financial statements of the EDR Predecessor are presented as the Promoter, either directly or indirectly, managed the EDR Predecessor prior to the Trust acquiring those interests in connection with the Formation Transactions. All significant intercompany balances and transactions have been eliminated in the accompanying consolidated and combined financial statements.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation, which includes balance sheets presented in an unclassified format.

Interim financial information

The accompanying unaudited interim financial statements include all adjustments, consisting only of normal recurring adjustments, that in the opinion of management are necessary for a fair presentation of the Trust's and EDR Predecessor's financial position, results of operations and cash flows for such periods. Because of the seasonal nature of the business, the operating results and cash flows are not necessarily indicative of results that may be expected for any other interim periods or for the full fiscal year. These financial statements should be read in conjunction with the Trust's consolidated financial statements and related notes, and the EDR Predecessor's combined financial statements and related notes, together with the Trust's annual report on Form 10-K for the year ended December 31, 2004, filed with the Securities and Exchange Commission.

Use of estimates

The preparation of financial statements in accordance with GAAP requires making to make estimates and assumptions. Such estimates and assumptions affect the reported amounts of assets and liabilities, as well as the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Student housing properties

Land, buildings and improvements, and furniture, fixtures and equipment are recorded at cost. Buildings and improvements are depreciated over 30 years. Furniture, fixtures, and equipment are depreciated over estimated useful lives ranging from three to five years. Depreciation is computed using the straight-line method for financial reporting purposes.

Acquisitions of student housing properties are accounted for utilizing the purchase method in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations*, and accordingly, the results of operations are included in the results of operations from the respective dates of acquisition. Pre-acquisition costs, which include legal and professional fees and other third party costs related directly to the acquisition of the property, are accounted for as part of the purchase price. Independent appraisals, estimates of cash flows, and valuation techniques are used to allocate the purchase price of acquired property between land, buildings and improvements, furniture, fixtures and equipment and other identifiable intangibles such as amounts related to in-place leases, acquired above and below market leases and tenant relationships.

Management assesses impairment of long-lived assets in accordance with SFAS No. 144, *Accounting for the Impairment and Disposal of Long-lived Assets*. SFAS No. 144 requires that long-lived assets to be held and used be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In accordance with SFAS No. 144, management uses an estimate of future undiscounted cash flows of the related asset over the remaining life in measuring whether the assets are recoverable. As of June 30, 2005, management determined that no indicators of impairment existed.

Investment in unconsolidated joint ventures and limited liability companies

The Operating Partnership accounts for its investments in unconsolidated joint ventures and limited liability companies using the equity method whereby the cost of an investment is adjusted for the share of equity in earnings of the respective investment reduced by distributions received. The earnings and distributions of the unconsolidated joint ventures and limited liability companies are allocated based on each owner's respective ownership interests.

Table of Contents*Deferred financing costs*

Deferred financing costs represent costs incurred in connection with acquiring debt facilities. These costs are amortized over the terms of the related debt using a method that approximates the effective interest method.

Offering costs

Specific incremental costs directly attributable to the Offering were deferred and charged against the gross proceeds of the Offering. Accordingly, underwriting commissions and other stock issuance costs are reflected as a reduction of additional paid-in capital.

Debt premiums/discounts

Differences between the estimated fair value of debt and the principal value of debt assumed in connection with student housing property acquisitions are amortized over the term of the related debt as an offset to interest using the effective interest method.

Income taxes

The Trust intends to qualify as a real estate investment trust (REIT) under the Internal Revenue Code of 1986, as amended (the Code). The Trust will generally not be subject to federal income tax to the extent that it distributes at least 90% of its taxable income for each tax year to its shareholders. REITs are subject to a number of organizational and operational requirements. If the Trust fails to qualify as a REIT in any taxable year, the Trust will be subject to federal income tax (including any applicable alternative minimum tax) on its taxable income and property and to federal income and excise taxes on its undistributed income.

The Trust believes it has been organized and has operated in a manner that will allow it to qualify for taxation as a REIT under the Code commencing with the taxable year ending December 31, 2005, and it is management's intention to adhere to these requirements and maintain REIT status.

The Trust has elected to treat its management company, Allen & O'Hara Education Services, Inc. (AOES), as a taxable REIT subsidiary (TRS). The TRS is subject to federal, state and local income taxes. AOES manages the Trust's non-REIT activities.

Earnings per share

The Trust calculates earnings per share in accordance with SFAS No. 128, *Earnings Per Share*. Basic earnings per share is calculated by dividing net earnings available to common shares by weighted average common shares outstanding. Diluted earnings per share is calculated similarly, except that it includes the dilutive effect of the assumed exercise of potentially dilutive securities. At June 30, 2005 the following potentially dilutive securities were outstanding, but were not included in the computation of diluted earnings per share because the effects of their inclusion would be anti-dilutive:

Operating Partnership units	1,376
University Towers Operating Partnership units	270
Restricted Stock	184
Profits Interest Units	243
Total potentially dilutive securities	2,073

Recent accounting pronouncements

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS 123R, *Share Based Payment*, which requires all companies to measure and recognize the fair value of equity instrument awards granted to employees. This statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123R is effective for periods beginning the first fiscal year after June 15, 2005. The Trust has not completed the process of evaluating the impact that will result from adopting this statement. The Trust is therefore unable to disclose the impact that adopting SFAS No. 123R will have on its results of operations or financial position when such statement is adopted.

Table of Contents

In December 2004, SFAS No. 153, *Exchange of Nonmonetary Assets*, was issued. SFAS No. 153 amends APB Opinion No. 29, *Accounting for Nonmonetary Transactions* to eliminate the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. That exception required that some nonmonetary exchanges be recorded on a carryover basis versus SFAS No. 153, which requires an entity record a nonmonetary exchange at fair value and recognize any gain or loss if the transaction has commercial substance. The standard specifies that a nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS No. 153 is effective the fiscal year beginning January 1, 2006. The Trust does not believe that the adoption of SFAS No. 153 will have a significant impact on its financial position or results of operation when such statement is adopted.

4. Investments in unconsolidated entities

As of June 30, 2005 and 2004, the Trust and the EDR Predecessor, respectively, had investments, directly or indirectly, in the following unconsolidated joint ventures and limited liability companies that are accounted for under the equity method:

Salisbury Student Apartment Developers Joint Venture, 33% owned by AOES

Salisbury Student Apartment Developers LLC, a Maryland limited liability company, 33% owned by AOES

University of Louisville Apartment Developers LLC, a Kentucky limited liability company, 50% owned by AOES

Hines/AOES LLC, an Alabama limited liability company, 50% owned by AOES

National Development/Allen & O Hara CUPA, LLC, a Pennsylvania limited liability company, 50% owned by Allen & O Hara Development Company, LLC (AODC)

National Development/Allen & O Hara Lock Haven, LLC, a Pennsylvania limited liability company, 50% owned by AODC

National Development/Allen & O Hara Clarion, LLC, a Pennsylvania limited liability company, 50% owned by AODC

Allen & O Hara National Development Bloomsburg LLC, a Pennsylvania limited liability company, 50% owned by AODC

Allen & O Hara / Academic Privatization LLC, a Tennessee limited liability company, 50% owned by AODC

These entities primarily provide development consulting services to third party student housing owners in an agency capacity. The following is a summary of financial information for the unconsolidated joint ventures and limited liability companies for the six months ended June 30, 2005 and 2004:

	Six Months Ended June	
	30,	
	2005	2004
Results of Operations:		
Revenues	\$474	\$1,792
Net income	466	1,731
Equity in earnings of unconsolidated entities	\$255	\$ 796

5. Notes payable and credit facility

At December 31, 2004, the Operating Partnership had a Business Loan Agreement (the Agreement) with a financial institution with an outstanding balance of \$497. All outstanding amounts under the Agreement were paid off on January 31, 2005 with proceeds of the Offering.

The Operating Partnership also had an existing agreement with a financial institution to provide letters of credit in connection with the series of Formation Transactions. This agreement was secured by personal assets and a personal guarantee of the sole stockholder of the Trust. At December 31, 2004, there were three outstanding letters

Table of Contents

of credit under this arrangement totaling \$1,000 in connection with the proposed purchase of the JPI. The letters of credit were cancelled upon the closing of the JPI portfolio acquisition on January 31, 2005.

The EDR Predecessor had a demand note payable to the Promoter that allowed it to borrow up to \$600. The note had an outstanding balance of \$485 at December 31, 2004, and was paid in full on January 31, 2005 as part of the Formation Transactions.

The Operating Partnership obtained a revolving credit facility on January 31, 2005 from JPMorgan Chase Bank, N.A. and UBS Loan Finance LLC as co-lead managers. Those entities are affiliates of J.P. Morgan Securities Inc. and UBS Securities LLC, which were underwriters of the Offering. The revolving credit facility originally had availability in the amount of \$75 million and was subsequently increased to \$100 million on April 4, 2005. The Trust will serve as the guarantor for any funds borrowed by the Operating Partnership under the credit facility. The revolving credit facility is initially secured by cross-collateralized mortgages on the Trust's student housing properties. The facility has a term of three years and matures on January 31, 2008, provided that the Operating Partnership may extend the maturity date for one year subject to certain conditions.

Availability under the Operating Partnership's revolving credit facility is limited to a borrowing base availability equal to the lesser of (i) 65% of the property asset value (as defined in the credit agreement) of the properties securing the facility and (ii) the lesser of the loan amount that would produce a debt service coverage ratio of 1.30 under two different sets of conditions specified in the credit agreement. Mandatory prepayments will be required to the extent that outstanding borrowings under the credit facility exceed the borrowing base amount.

The Operating Partnership's revolving credit facility contains customary affirmative and negative covenants and does contain financial covenants that, among other things, require the Trust and its subsidiaries to maintain certain minimum ratios of EBITDA (earnings before payment or charges of interest, taxes, depreciation, amortization or extraordinary items) as compared to interest expense and total fixed charges. The first test date for these EBITDA covenants will be the earlier of the quarter ending March 31, 2006 and the date upon which outstanding borrowings under the revolving credit facility exceed \$25 million. As of June 30, 2005, the Operating Partnership only had one letter of credit in the amount of \$1.5 million outstanding under the revolving credit facility and no borrowings. Additionally, after December 31, 2005, The Trust is prohibited from making distributions that exceed 95% of its funds from operations over the previous four consecutive fiscal quarters, except to the extent necessary to maintain the Trust's status as a REIT. The financial covenants also include consolidated net worth and leverage ratio tests.

The interest rates per annum applicable to loans under the revolving credit facility are, at the Operating Partnership's option, equal to a base rate or one-, two-, or three-month LIBOR plus an applicable margin based upon our leverage. The Trust expects the alternate base rate to be the greater of (i) the JP Morgan Chase Bank prime rate or (ii) 50 basis points over the federal funds rate most recently determined by JP Morgan Chase Bank.

6. Mortgage debt

In conjunction with the Formation Transactions, the Operating Partnership assumed total fixed rate mortgage debt of \$392,998 with an average interest rate of approximately 5.5%. Concurrent with the closing of the Formation Transactions, the Operating Partnership paid off \$115,221 of the assumed debt. In connection with management's decision to prepay certain debt obligations, the Trust recognized a charge of \$1,084 in February 2005.

In March 2005, the Operating Partnership assumed an additional \$11,200 of mortgage debt with a fixed interest rate of 4.92% in connection with the acquisition of a student housing property located at the University of South Carolina. In June 2005, the Operating Partnership assumed \$37,526 of additional mortgage debt with a fixed interest rate of 6.97% in connection with the acquisition of a student housing property located near the University of Florida.

At June 30, 2005, the Trust has outstanding mortgage indebtedness of \$329,314 (net of unamortized debt premium of \$3,163). The scheduled maturities of all outstanding mortgage indebtedness at June 30, 2005 are as follows:

Fiscal Year Ending

2005 (six months ended December 31,)	\$ 687
2006	2,930
2007	61,233

Edgar Filing: Education Realty Trust, Inc. - Form 10-Q

2008	27,618
2009	183,747
2010	888
Thereafter	49,048
Total	326,151
Unamortized debt premium	3,163
Outstanding at June 30, 2005, net of unamortized premium	\$329,314

At June 30, 2005, the outstanding debt had a weighted average interest rate of 5.67% and carried an average term to maturity of 4.1 years.

Table of Contents**7. Segments**

Business segments are defined by their distinct customer base and service provided. Three reportable segments have been identified: student housing leasing, student housing development-consulting services and student housing management services. Management evaluates each segment's performance based on net operating income, which is defined as income before depreciation, amortization, interest expense and equity in earnings of unconsolidated entities. Intercompany fees are reflected at the contractually stipulated amounts. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies. The following table represents segment information for the six months ended June 30, 2005 and 2004:

	Six Months Ended June 30, 2005(1)					Six Months Ended June 30, 2004

Table of Contents

8. Commitments and contingencies

In connection with the acquisition of the JPI portfolio discussed in Note 2, the Operating Partnership entered into an agreement to provide to the seller a revolving loan commitment secured by a pledge of the Operating Partnership units issued to the seller in the purchase transaction. Any borrowings under the revolving loan commitment must be repaid in full on or before the later of (i) 30 days after the registration of the shares issuable to the seller upon conversion of the Operating Partnership units issued to the seller or (ii) 14 months after the closing of the purchase of the JPI Portfolio. The Operating Partnership advanced \$5,996 to the seller on January 31, 2005 and the balance remains outstanding as of June 30, 2005.

The Operating Partnership entered into a letter of credit agreement in conjunction with the closing of the acquisition of a student housing property at the University of Florida. The letter of credit remains outstanding in the amount of \$1,500 at June 30, 2005 and is secured by the Operating Partnership's existing revolving credit facility.

The Trust also has various operating lease commitments for corporate office space, furniture and office and technology equipment.

In the normal course of business, the Trust is subject to claims, lawsuits, and legal proceedings. While it is not possible to ascertain the ultimate outcome of such matters, in management's opinion, the liabilities, if any, in excess of amounts provided or covered by insurance, are not expected to have a material adverse effect on our financial position, results of operations or liquidity.

Table of Contents**9. Acquisition of real estate investments**

As discussed in Note 2, in connection with the Offering and Formation Transactions, the Operating Partnership acquired the entities comprising the EDR Predecessor as well as the 14 properties that comprising the JPI portfolio on January 31, 2005. Prior to the acquisition of the EDR Predecessor, the Promoter, directly and indirectly, held ownership interests in the predecessor entities. To the extent the Promoter exchanged his ownership interests, the acquisition was accounted for at historical cost. To the extent other ownership interests were exchanged, the acquisition has been recorded at the estimated fair value of the consideration exchanged. The following is a summary of the estimated fair values of the assets acquired and liabilities assumed in connection with the Formation Transactions as of the date of acquisition:

	EDR Predecessor	JPI Portfolio
Current assets	\$ 5,757	\$ 3,093
Student housing properties	117,516	403,335
Goodwill and other intangibles	4,404	3,563
Carryover basis at historical cost	17,382	
Other	213	719
Total assets acquired	\$ 145,272	\$ 410,710
Current liabilities	(6,206)	(4,616)
Mortgage debt assumed	(83,099)	(310,448)
Acquisition costs	(1,451)	(7,530)
Purchase price	\$ 54,516	\$ 88,116

Subsequent to the Offering, the Operating Partnership has acquired student housing properties near the University of Mississippi (February 2005), the University of South Carolina (March 2005), Middle Tennessee State University (April 2005), and the University of Florida (June 2005). The aggregate purchase price approximated \$107.3 million, including the assumption of mortgage debt with a total contract value of \$48.7 million. A summary follows of the estimated fair values of the assets acquired and the liabilities assumed as of the respective dates of the acquisitions:

	Preliminary allocation student housing acquisitions
Current assets	\$ 791
Student housing properties	104,960
Goodwill and other intangibles	1,072
Other	443
Total assets acquired	107,266
Current liabilities	(1,714)
Mortgage debt assumed	(51,408)
Acquisition costs	(734)
Purchase price	\$ 53,410

The purchase price allocations above are considered preliminary and changes are expected as additional information becomes available. During the three months ending June 30, 2005, adjustments were recorded to the estimated fair value of assets and liabilities acquired, resulting in an increase in student housing assets of \$838, an increase in goodwill of \$276, an increase in accrued expenses and other liabilities of \$1,146, an increase in current assets of \$64, and an increase in equity of \$32. Management expects to continue its process of refining and finalizing our purchase accounting estimates and assumptions during 2005 and as a result these preliminary purchase price allocations are subject to additional changes. The results of operations for each acquisition have been included in our consolidated statements of operations from the respective acquisition dates. In connection with the acquisitions discussed above, \$3,248 and \$5,791 was allocated to goodwill and other identifiable intangibles (in-place leases and management contracts), respectively. In accordance with SFAS No. 142, goodwill is not subject to

Table of Contents

amortization and, therefore, the carrying value remains \$3,248 at June 30, 2005. In-place lease intangibles and management contracts are amortized over the estimated life of the remaining lease/contract term. Amortization expense totaled \$4,227 for the period January 31, 2005 through June 30, 2005. Amortization expense for the remainder of fiscal year 2005 is estimated to be \$612. Amortization expense for 2006 is estimated to be \$288 and is estimated to be \$34 annually for each of the four years following fiscal 2006.

The following pro forma financial information for the six months ending June 30, 2005 and 2004 gives effect to the acquisitions as if the transactions had occurred at the beginning of the respective period:

	Six Months Ended June 30,	
	2005	2004
Pro forma revenue	\$ 48,330	\$46,587
Pro forma net loss	(11,539)	(2,867)
Loss per share	\$ (0.53)	

All pro forma financial information presented in this footnote is unaudited and is not necessarily indicative of the results that actually would have occurred if the properties were purchased at the beginning of the respective reporting period.

10. Incentive plan

The Trust adopted the Education Realty Trust, Inc. 2004 Incentive Plan (the Plan) effective upon the closing of the Offering. The Plan provides for the grant of stock options, restricted stock units, stock appreciation rights, other stock-based incentive awards, and profits interest units to employees, directors and other key persons providing services to the Company. The Trust has reserved 800,000 shares of its common stock for issuance pursuant to the Plan, subject to adjustments for changes in the Trust's capital structure, including share splits, dividends and recapitalizations. The number of shares reserved under the Plan is also subject to an annual adjustment, beginning on January 1, 2006, so that the total number of shares reserved under the Plan is equal to 4% of the aggregate number of shares outstanding on the last day of the preceding fiscal year; provided that such annual increase generally may not exceed 80,000 shares.

Since the completion of the Offering, the Trust has issued 180,000 shares of restricted stock under the Plan, to certain of its executive officers, which will vest ratably over five years. The Trust also issued 4,000 shares of restricted stock to its independent directors, which will vest ratably over six months. A restricted stock award is an award of the Trust's common stock that is subject to restrictions on transferability and other restrictions as the Trust's compensation committee determines in its sole discretion on the date of grant. The restrictions may lapse over a specified period of employment or the satisfaction of pre-established criteria as our compensation committee may determine. Except to the extent restricted under the award agreement, a participant awarded restricted shares will have all of the rights of a stockholder as to those shares, including, without limitation, the right to vote and the right to receive dividends or distributions on the shares. Restricted stock is generally taxed at the time of vesting. At June 30, 2005, unearned compensation totaled \$2.7 million and is recorded as a reduction of stockholders' equity in the accompanying consolidated balance sheet. The Trust recognizes the value of these awards as an expense over the applicable vesting period. The value is determined based on the market value of the Trust's common stock on the grant date. During the period since the completion of the Offering, compensation expense of \$.3 million was recognized in the accompanying consolidated statement of operations, related to the vesting of restricted stock.

Additionally, the Trust granted 242,500 profits interest units simultaneous with and subsequent to the completion of the Offering that vested immediately and resulted in a compensation charge (reflected in general and administrative expense) of \$4.1 million in the accompanying consolidated statement of operations. Profits interest units, or PIUs, are units in a limited liability company controlled by the Trust that holds a special class of partnership interests in the Operating Partnership. Each PIU will be deemed equivalent to an award of one share of the Trust's common stock and will entitle the owner of such unit to receive the same quarterly per unit distributions as one common unit of the Operating Partnership. This treatment with respect to quarterly distributions is similar to the expected treatment of restricted stock awards, which will generally receive full dividends whether vested or not. PIUs

will not initially have full parity with common units of the Operating Partnership with respect to liquidating distributions. Upon the occurrence of specified capital equalization events, PIUs may, over time, achieve full or partial parity with common units of the Operating Partnership for all purposes, and could accrete to an economic

Table of Contents

value equivalent to the Trust's common stock on a one-for-one basis. If such parity is reached, vested PIUs may be exchanged into an equal number of the Trust's shares of common stock at any time. However, there are circumstances under which full parity would not be reached. Until such parity is reached, the value that may be realized for vested PIUs will be less than the value of an equal number of shares of the Trust's common stock, if there is any value at all. The grant or vesting of PIUs is not expected to be a taxable transaction to recipients. Therefore, a recipient who wishes to hold incentive equity awards for the long term may be able to do so more efficiently with PIUs and ultimately enjoy a greater after-tax return when disposing of them. Conversely, we will not receive any tax deduction for compensation expense from the grant of PIUs. PIUs are treated as minority interests in the accompanying consolidated financial statements at an amount equal to the holders' ownership percentage of the net equity of the Operating Partnership.

11. Subsequent events

On July 11, 2005 the Trust declared its second quarter dividend of \$0.30 per share of common stock for the quarter ending on June 30, 2005. The dividend is payable on August 8, 2005 to stockholders of record at the close of business on July 18, 2005.

In July 2005 the Operating Partnership completed the acquisition of a 576-bed property at Auburn University for approximately \$12.6 million in cash.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this Quarterly Report. Certain statements contained in this filing are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including but not limited to statements related to plans for future acquisitions, our business and investment strategy, market trends and projected capital expenditures. When used in this report, the words expect, anticipate, intend, plan, believe, seek, estimate, would, could, should, and similar expressions are generally intended to identify forward-looking statements. You should not place undue reliance on these forward-looking statements, which reflect our opinions only as of the date of this Quarterly Report. We assume no obligation to update or supplement forward-looking statements that become untrue because of subsequent events. Forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from future results expressed or implied by such forward-looking statements. For further information about these and other factors that could affect our future results, please see the Business Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2004. Investors are cautioned that any forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements.

We were formed to continue and expand upon the student housing business of Allen & O'Hara, Inc. and its affiliates (the Predecessor), which commenced in 1964. We commenced operations upon the completion of our initial public offering (the Offering) and formation transactions, (the Formation Transactions) which occurred on January 31, 2005 (the Closing Date). Substantially all of our assets are held by, and we conduct substantially all of our activities through, Education Realty Operating Partnership, LP, (our Operating Partnership), Allen & O'Hara Education Services, Inc., (our Management Company) and Allen & O'Hara Development Company, LLC, (our Development Company), each of which are direct or indirect subsidiaries of us.

The historical operations prior to the Closing Date that are described in this report refer to the operations of the Predecessor. We have described our operations in this report as if the historical operations of the Predecessor were conducted by us. As a result, our results of operations for the three and six months ended June 30, 2005 are not comparable to our results of operations for the three and six months ended June 30, 2004. Where appropriate, the following discussion includes an analysis of the completion of our initial public offering and certain matters that have occurred following the completion of our initial public offering.

Overview

We are a self-managed and self-advised real estate investment trust (REIT) engaged in the ownership, acquisition and management of high quality student housing communities. We also provide student housing development consulting services to universities, charitable foundations and others. We believe that we are one of

Table of Contents

the largest private owners, developers and managers of high-quality student housing communities in the United States in terms of both total beds owned and under management.

We earn income from rental payments we receive as a result of our ownership of student housing properties. We also earn income by performing property management services and development consulting services for third parties through our Management Company and Development Company, respectively. While we manage the properties we own, we will not recognize any fee income from their management on a consolidated basis. We will elect to be taxed as a REIT for federal income tax purposes commencing with our tax year ending December 31, 2005.

Our Business Segments

We define business segments by their distinct customer base and service provided. Management has identified three reportable segments: student housing leasing, third party development consulting services and third-party management services. We evaluate each segment's performance based on net operating income, which is defined as income before depreciation, amortization, interest expense and equity in earnings of unconsolidated entities. The accounting policies of the reportable segments are described in more detail in the summary of significant accounting policies in the footnotes to the combined financial statements appearing elsewhere in this Quarterly Report. Inter-company fees are reflected at the contractually stipulated amounts.

Student Housing Leasing

Student housing leasing revenue represented approximately 97.3% of our revenue, excluding operating expense reimbursements, for the six months ended June 30, 2005. We include in student housing leasing revenue our revenue from food service operations at University Towers, which is a student housing community located near North Carolina State University that we own and manage, as well as revenue from a contract pursuant to which we provide food services at the Robert Louis Stevenson School in Pebble Beach, California.

Unlike multi-family housing where apartments are leased by the unit, student-housing communities are typically leased by the bed on an individual lease liability basis. Individual lease liability limits each resident's liability to his or her own rent without liability for a roommate's rent. A parent or guardian is required to execute each lease as a guarantor unless the resident provides adequate proof of income. The number of lease contracts that we administer is therefore equivalent to the number of beds occupied instead of the number of apartment units.

Due to our predominantly private bedroom accommodations, the high level of student-oriented amenities offered at our communities and the individual lease liability, we believe our properties can typically command higher per-unit and per-square foot rental rates than most multi-family properties in the same geographic markets. We are also typically able to command higher rental rates than on-campus student housing, which tend to offer properties with fewer amenities.

Substantially all of our leases commence mid-August and terminate the last day of July. These dates coincide with the commencement of the universities' fall academic term and typically terminate at the completion of the subsequent summer school session. As such, we are required to re-lease each property in its entirety each year, resulting in significant turnover in our tenant population from year to year. In 2003 and 2004, approximately 72.6% and 64.7%, respectively, of our beds were leased to students who were first-time residents at our properties. As a result, we are highly dependent upon the effectiveness of our marketing and leasing efforts during the annual leasing season that typically begins in February and ends in August of each year. Our properties' occupancy rates are therefore relatively stable during the August to July academic year but are susceptible to fluctuation at the commencement of each new academic year, which may be greater than the fluctuation in occupancy rates upon expiration of traditional apartment leases.

During the first two weeks of August, prior to the commencement of each new lease period, we prepare the units for the new incoming tenants. Other than revenue generated by in-place leases for returning tenants, we do not generally recognize lease revenue during this period, as we have no leases in place. In addition, during this turnover period we incur significant expenses, which we immediately recognize, making our units ready for occupancy on or about August 15. Consequently, our August lease turnover results in seasonality in our operating results during the third quarter of each year.

Table of Contents***Third-Party Management Services***

Revenue from our third-party management services, excluding operating expense reimbursements, represented approximately 2.1% of our revenue for the six months ended June 30, 2005. These revenues are typically derived from multi-year management agreements, under which management fees are typically 3-5% of leasing revenue. These agreements typically have an initial term of five to ten years with a renewal option for an additional five years. As part of the management agreements, there are certain payroll and related expenses we pay on behalf of the third-party properties' owners. These costs are included in reimbursable operating expenses and are required to be reimbursed to us by the third-party property owners. We recognize the expense and revenue related to these reimbursements when incurred. These operating expenses are wholly reimbursable and therefore not considered by our management when analyzing the operating performance of our third-party management services business.

Third-Party Development Consulting Services

Revenue from our third-party development consulting services, excluding operating expense reimbursements, represented less than 1% of our revenue for the six months ended June 30, 2005. Fees for these services are typically 3-5% of the total project cost and are payable over the life of the project, which is typically one to two years in length. At times we will pay pre-development expenses such as architectural fees and permits if such are required prior to the project's financing being in place. These expenses are included in reimbursable operating expenses, and we typically obtain a guarantee from the owner for repayment. We recognize the expenses when incurred, while the reimbursement revenue is not recognized until the consulting contract is awarded. These operating expenses are wholly reimbursable and therefore not considered by our management when analyzing the operating performance of our third-party development consulting services business.

We periodically enter into joint venture arrangements whereby we provide development-consulting services to third-party student housing owners in an agency capacity. We recognize our portion of the earnings in each joint venture based on our ownership interest, which is reflected as equity in earnings of unconsolidated entities after net operating income in our statement of operations. Our revenue and operating expenses could fluctuate from period to period based on the extent we utilize joint venture arrangements to provide third-party development consulting services.

The amount and timing of future revenues from development consulting services will be contingent upon our ability to successfully compete in public universities' competitive procurement processes, our ability to successfully structure financing of these projects, and our ability to ensure completion of construction within agreed construction timelines and budgets. To date, all of our third-party development projects have completed construction in time for their targeted occupancy dates.

Trends and Outlook***Rents and Occupancy***

We expect the general trends of increased university enrollment and limited availability of on-campus housing to continue for the foreseeable future, providing us with continued opportunities to maximize revenues through increased occupancy and/or rental rates in our owned portfolio. We manage our properties to maximize revenues, which are primarily determined by two components: rental rates and occupancy rates. We customarily adjust rental rates in order to maximize revenues, which in some cases results in a lower occupancy rate, but in most cases results in an overall increase in revenues from the property. As a result, a decrease in occupancy rates may not be material to our operations and may be offset by an increase in rental rates. For the six months ended June 30, 2005 and 2004, we experienced a general trend of increasing revenue per available bed for our garden style apartment communities. University Towers, a traditional dormitory style property, experienced lower revenue per available bed for the comparable period because of decreased occupancy due to increased competition from new on and off campus freshman housing at North Carolina State University. We anticipate this competitive pressure to stabilize after the 2005-2006 school year.

Integration Costs Related to the Acquisition of Additional Properties

Our acquisition of 14 properties previously owned by JPI Investment Company, L.P. and its affiliates (JPI) on the Closing Date and our acquisition of an additional five properties since the Closing Date, two of which were acquired during the first quarter ending March 31, 2005, two were acquired in the second quarter ended June 30, 2005,

and one was acquired in July 2005, have resulted in a substantial increase in the number of student housing communities managed by our Management Company and that our management team has historically owned and/or managed. The acquisitions of these and other acquired properties will require us to enhance our management information systems and add additional regional management and corresponding support personnel in our corporate office.

General and Administrative Costs

As a result of becoming a public company in January 2005, we have experienced and will continue to experience significant increases in legal and accounting costs, director fees, costs related to communicating with stockholders, including ongoing communications and distribution of proxy statements in connection with stockholder meetings, and other costs that are unique to being a public company. We expect that our general and administrative expenses will increase as a result of costs associated with being a public company, including costs associated with formulating and documenting our internal control system.

Table of Contents

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions in certain circumstances that affect amounts reported in our financial statements and related notes. In preparing these financial statements, management has utilized all available information, including its past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments of certain amounts included in the combined financial statements, giving due consideration to materiality. The ultimate outcome anticipated by management in formulating its estimates may not be realized. Application of the critical accounting policies below involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. In addition, other companies in similar businesses may utilize different estimation policies and methodologies, which may impact the comparability of our results of operations and financial condition to those companies.

Student Housing Leasing Revenue Recognition

Student housing leasing revenue is comprised of all activities related to the leasing activities at our student housing properties and includes revenues from the leasing of space, parking lot rentals and certain ancillary services.

Students are required to execute lease contracts with payment schedules that vary from single to monthly payments. Generally, a nonrefundable application fee, a nonrefundable service fee and a notarized parental guarantee must accompany each executed contract. Receivables are recorded when due, and leasing revenues and related lease incentives and nonrefundable application and service fees are recognized on a straight-line basis over the term of the contracts. Balances are considered past due when payment is not received on the contractual due date. Allowances for doubtful accounts are established by management when it is determined that collection is doubtful.

Revenue and Cost Recognition of Third-Party Development Consulting Services

Costs associated with the pursuit of third-party development consulting contracts are expensed as incurred until we have been notified of a contract award. At such time, the reimbursable portion of such costs is recorded as a receivable. Development consulting revenues are recognized using the percentage of completion method as determined by construction costs incurred relative to the total estimated construction costs. Costs associated with development consulting services are expensed as incurred. We generally receive a significant percentage of our fees for development consulting services upon closing of the project financing, a portion of the fee over the construction period, and the balance upon substantial completion of construction. Because revenue from these services is recognized for financial reporting purposes utilizing the percentage of completion method, differences occur between amounts received and revenues recognized. Differences also occur between amounts recognized for tax purposes and those recognized from financial reporting purposes. Because, as a REIT, we will be required to

Table of Contents

distribute 90% of our taxable income, our distribution requirement with respect to our income from third-party services may exceed that reflected as net income for financial reporting purposes from such activities.

We periodically enter into joint venture arrangements whereby we provide development-consulting services to third-party student housing owners in an agency capacity. We recognize our portion of the earnings in each joint venture based on our ownership interest, which is reflected as equity in earnings of unconsolidated entities after net operating income in our statement of operations. Our revenue and operating expenses could fluctuate from period to period based on the extent we utilize joint venture arrangements to provide third-party development consulting services.

Student Housing Property Acquisitions

Land, buildings and improvements, furniture, fixtures and equipment are recorded at cost. Buildings and improvements are depreciated over 30 years, and furniture, fixtures and equipment are depreciated over estimated lives ranging from three to five years using the straight-line method. Property acquisitions initiated subsequent to June 30, 2001 are accounted for utilizing the purchase method in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations*. Pre-acquisition costs, including legal and professional fees and other third-party costs related directly to the acquisition of the property, are accounted for as part of the purchase price. We have used independent appraisals obtained at the time of the original acquisition of each property by the owners of the properties we are acquiring in our formation transactions, estimates of cash flows and valuation techniques to allocate the purchase price of acquired property between land, buildings and improvements, equipment and other identifiable intangibles such as amounts related to in-place leases, acquired above and below-market leases and tenant relationships.

Repairs and Maintenance

The costs of ordinary repairs and maintenance are charged to operations when incurred. Major improvements that extend the life of an asset beyond one year are capitalized and depreciated over the remaining useful life of the asset. Planned major repair, maintenance and improvement projects are capitalized when performed. In some circumstances the lenders require us to maintain a reserve account for future repairs and capital expenditures. These amounts are not available for current use.

Long Lived Assets Impairment

Management reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In accordance with SFAS No. 144, management uses an estimate of future undiscounted cash flows of the related asset over the remaining life in measuring whether the assets are recoverable.

Results of Operations for the Six Months Ended June 30, 2005 and 2004

The following table presents the combined results of operations for Education Realty Trust, Inc. (post Offering) and the EDR Predecessor (pre Offering) for the six months ended June 30, 2005 and the results of operations for the EDR Predecessor for the six months ended June 30, 2004:

Table of Contents***Student housing leasing***

Revenue from student housing leasing increased by \$23.7 million to \$34.4 million for the six months ended June 30, 2005. This increase was due largely to the acquisition of the 14 JPI properties upon consummation of our Offering and the incremental impact relating to four new properties acquired since the Offering Date.

Overall average physical occupancy and Revenue per Available Bed (RevPAB) on a comparable revenue basis for the five months ended June 30, 2005 and 2004 were as follows:

	Occupancy as of June 30, 2005	RevPAB June 30, 2005	Occupancy as of June 30, 2004	RevPAB June 30, 2004(2)
EDR Predecessor	89.9%	\$ 339	90.5%	\$ 322
University Towers	49.0%	\$ 618	62.6%	\$ 697
Total EDR Predecessor	79.9%	\$ 407	83.7%	\$ 414
JPI Portfolio ⁽¹⁾	90.2%	\$ 366		
New Acquisitions ⁽¹⁾	86.9%	\$ 405		
Total EDR Owned	86.9%	\$ 368	83.7%	\$ 414

(1) Properties were not owned as of June 30, 2004.

(2) Excludes the impact of straight lined rents and service fees to be comparable to 2005.

Our base portfolio of EDR Predecessor properties has experienced an increase in revenue per available bid over the comparable period 2004. This general increase was partially offset by lower current quarter occupancy at our University Towers property, which is a result of increased competition from new on and off campus housing at North Carolina State University.

Operating expenses of our student housing communities increased \$11.5 million from \$4.9 million for the six months ended June 30, 2004 to \$16.4 million for the six months ended June 30, 2005. This increase was also due to the addition of the 14 JPI properties acquired upon our IPO closing and the incremental impact relating to the four new properties as described in the preceding paragraph.

Third-party development consulting services

Third-party development services revenues decreased by \$.2 million, or 50.8%, to \$.2 million for the six months ended June 30, 2005 from \$.4 million for the six months ended June 30, 2004. This decrease was primarily due to the recognition of a one-time consulting fee associated with the University of California Berkeley student housing project in January 2004.

The majority of third-party development consulting services for the six months ended June 30, 2005 and 2004 were conducted through joint venture arrangements, and related fees were recognized as equity in earnings of unconsolidated entities. Equity in earnings of unconsolidated entities decreased by \$0.5 million, or 68.0%, to \$0.3 million for the six months ended June 30, 2005 from \$.8 million for the six months ended June 30, 2004. This decrease was primarily due to fewer development projects under construction during the first quarter of 2005 (two projects with beds totaling 1,160) versus the same period in 2004 (four student housing projects with beds totaling 2,076).

Table of Contents**Third-party management services**

Third-party management services revenues increased by \$0.1 million, or 21.5%, to \$0.7 million for the six months ended June 30, 2005 from \$0.6 million for the six months ended June 30, 2004. This increase was primarily the result of the opening of four new managed properties consisting of 2,096 beds in Fall 2004

General and administrative

General and administrative costs decreased by \$0.4 million to \$1.1 million for the six months ended June 30, 2005 from \$1.5 million for the six months ended June 30, 2004. This decrease is mostly due to a change in how costs associated with owned properties are presented. In 2004 management costs for owned properties was allocated through an inter-segment revenue charge of \$0.5 million. In 2005 these allocations are presented as a reduction in general and administrative expense instead of inter-segment revenue. A \$.6 million decrease in third-party management services is partially offset by higher expenses in our development operations related to an increase in the number of construction projects beginning in 2005.

Results of Operations for the Three Months Ended June 30, 2005 and 2004

The following table presents the results of operations the three months ended June 30, 2005 and the results of operations for the EDR Predecessor for the three months ended June 30, 2004:

(in thousands)	Three Months Ended June 30, 2005					Three Months Ended June 30, 2004				
	Student Housing Leasing	Third-Party Development Consulting Services	Third-Party Management Services	Adjustments	Total	Student Housing Leasing	Third-Party Development Consulting Services	Third-Party Management Services	Adjustments	Total

Table of Contents***Student housing leasing***

We owned 25 properties containing 20,041 beds during the three months ended June 30, 2005, including 864 beds at University Courtyard, near Middle Tennessee State University, and 1,116 beds at Campus Lodge Apartments, near the University of Florida, each of which we acquired during the three month period ending June 30, 2005. For the three months ended June 30, 2004, we owned seven properties containing 3,896 beds. Revenue from student housing leasing increased by \$15.0 million to \$20.0 million for the three months ended June 30, 2005 from \$5.0 million for the three months ended June 30, 2004. This increase was due largely to the acquisition of the 14 JPI properties upon consummation of our IPO and the incremental impact relating to four new properties acquired since our Closing Date. These items were partially offset by a decrease in revenue due to the lower current quarter occupancy at our University Towers property as the result of increased competition from new on and off campus housing at North Carolina State University.

Operating expenses of our student housing communities increased by \$7.4 million to \$9.8 million for the three months ended June 30, 2005 from \$2.4 million for the three months ended June 30, 2004. This increase was also due to the addition of the 14 JPI properties acquired upon our IPO closing and the incremental impact relating to the four new properties as described in the preceding paragraph.

Third-party development consulting services

Third-party development services revenues increased by \$.2 million to \$.2 million for the three months ended June 30, 2005. This increase was primarily due to the recognition of development-consulting fees associated with the Slippery Rock University and University of Colorado Denver projects that began construction in 2005.

The majority of third-party development consulting services for the three months ended June 30, 2005 and 2004 were conducted through joint venture arrangements, and related fees were recognized as equity in earnings of unconsolidated entities. Equity in earnings of unconsolidated entities decreased by \$.2 million, or 58.0%, to \$.2 million for the three months ended June 30, 2005 from \$.4 million for the comparable period ended June 30, 2004. This decrease was primarily due to greater construction activity during the 2004 period for the Clarion University and Lock Haven University development projects, which were in the latter stages of completion compared to the University of Alabama Birmingham and Phase IV of the California University of PA development projects, which were in the early stages of construction during the same period in 2005.

Third-party management services

Third-party management services revenues increased by \$76,000, or 27.2%, to \$355,000 for the three months ended June 30, 2005 from \$279,000 for the three months ended June 30, 2004. This increase was primarily the result of the opening of four new managed properties consisting of 2,096 beds in Fall 2004.

General and administrative

General and administrative costs decreased by \$0.1 million to \$0.7 million for the three months ended June 30, 2005 from \$0.8 million for the three months ended June 30, 2004. This decrease is mostly due to a change in how costs associated with owned properties are presented. In 2004 management costs for owned properties was allocated through an inter-segment revenue charge. In 2005 these allocated costs are presented as a reduction in general and administrative expense instead of revenue. The \$0.3 million decrease in third-party management services is partially offset by higher expenses in our development operations related to an increase in the number of construction projects beginning in 2005.

Table of Contents

Liquidity and Capital Resources

Revolving Credit Facility

On the Closing Date, our Operating Partnership obtained a revolving credit facility from JPMorgan Chase Bank, N.A. and UBS Loan Finance LLC as co-lead managers. The revolving credit facility was originally for \$75 million and was increased to \$100 million on April 4, 2005. We will serve as the guarantor for any funds borrowed by our Operating Partnership under the credit facility. We expect that the revolving credit facility will be available to, among other things, fund future property acquisitions, distributions to our stockholders or working capital needs.

The revolving credit facility is initially secured by cross-collateralized mortgages on our student housing properties. The revolving credit facility has a term of three years and matures on January 31, 2008, provided that our Operating Partnership may extend the maturity date for one year subject to certain conditions. All borrowings under the revolving credit facility will be subject to the satisfaction of customary conditions, including the absence of a default and accuracy of representations and warranties.

Availability under our revolving credit facility is limited to a borrowing base availability equal to the lesser of (i) 65% of the property asset value (as defined in the credit agreement) of the properties securing the facility and (ii) the lesser of the loan amount that would produce a debt service coverage ratio of 1.30 under two different sets of conditions specified in the credit agreement. Mandatory prepayments will be required to the extent that outstanding borrowings under the credit facility exceed the borrowing base amount.

Our revolving credit facility contains customary affirmative and negative covenants and also contains financial covenants that, among other things, require us and our subsidiaries to maintain certain minimum ratios of EBITDA (earnings before payment or charges of interest, taxes, depreciation, amortization or extraordinary items) as compared to interest expense and total fixed charges. The first test date for these EBITDA covenants will be the earlier of the quarter ending March 31, 2006 and the date upon which outstanding borrowings under the revolving credit facility exceed \$25 million. As of June 30, 2005, we had one letter of credit for \$1.5 million outstanding

Table of Contents

under the revolving credit facility. Additionally, after December 31, 2005, we will be prohibited from making distributions that exceed 95% of our funds from operations over the previous four consecutive fiscal quarters, except to the extent necessary to maintain our status as a REIT. The financial covenants also include consolidated net worth and leverage ratio tests.

The interest rates per annum applicable to loans under the revolving credit facility are, at our option, equal to either a base rate or one-, two-, or three-month LIBOR plus an applicable margin based upon our leverage. We expect the alternate base rate to be the greater of (i) the JP Morgan Chase Bank prime rate or (ii) 50 basis points over the federal funds rate most recently determined by JP Morgan Chase Bank.

Liquidity outlook and capital requirements

We believe that our initial public offering, \$100.0 million revolving credit facility and the related formation transactions have improved our capital structure by increasing our equity capitalization and reducing our leverage. Approximately \$115.2 million of the proceeds from our initial public offering was used to repay debt. In addition to the \$100.0 million availability under our credit facility, we had approximately \$22.0 million of cash available at June 30, 2005, for use in acquisition of additional student housing communities, repayment of additional indebtedness, payment of distributions to our stockholders, and other general working capital needs. As of August 14, 2005, we had \$6.0 million of borrowings and a \$1.5 million letter of credit outstanding under our credit facility. We believe that we have sufficient liquidity and access to financing to make future student housing investments. There can be no assurance that we obtain financing under satisfactory conditions or will make any investments in any other properties that meet our investment criteria.

Our liquidity needs include funds for distribution payments to our stockholders, including those required to maintain our REIT status and satisfy our current distribution policy, funds for capital expenditures, funds for debt repayment and, potentially, funds for new property acquisitions. We expect to meet our short-term liquidity requirements generally through net cash provided by operations. We expect our long-term liquidity requirements to be satisfied through cash generated by operations and external sources of debt and equity capital, including public capital markets as well as private sources of capital. To the extent that we are unable to maintain our revolving credit facility or an equivalent source of debt financing, we will be more reliant upon the public and private capital markets to meet our long-term liquidity needs.

We intend to invest in additional properties only as suitable opportunities arise. In the short term, we intend to fund acquisitions with working capital and borrowings under our revolving credit facility. We intend to finance property acquisitions over the longer term with the proceeds from additional issuances of common or preferred stock, debt financing and issuances of units of our Operating Partnership.

We anticipate that our existing working capital and cash from operations will be adequate to meet our liquidity requirements for at least the next three months.

Pre-development expenditures

Our third-party development consulting activities have historically required us to fund predevelopment expenditures such as architectural fees, permits, and deposits. Because the closing of a development project's financing is often subject to third-party delay, we cannot always predict accurately the liquidity needs of these activities. We frequently incur these predevelopment expenditures before a financing commitment has been obtained and, accordingly, bear the risk of the loss of these predevelopment expenditures if financing cannot ultimately be arranged on acceptable terms. We typically obtain from the project owner a guarantee of repayment of these predevelopment expenditures, but no assurance can be given that we would be successful in collecting the amount guaranteed in the event that a project financing is not obtained.

Distributions

We are required to distribute 90% of our REIT taxable income (excluding capital gains) on an annual basis in order to qualify as a REIT for federal income tax purposes. Accordingly, we intend to make, but are not contractually bound to make, regular quarterly distributions to holders of our common stock. All such distributions are at the discretion of our board of directors. We may be required to use borrowings under our revolving credit

Table of Contents

facility, if necessary, to meet REIT distribution requirements and maintain our REIT status. We consider market factors and our performance in addition to REIT requirements in determining distribution levels.

On April 12, 2005, our board of directors declared a distribution of \$0.19 per share of common stock for the partial quarter beginning on January 31, 2005 (the date that we closed on our initial public offering) and ending on March 31, 2005. The dividend was payable on May 16, 2005 to stockholders of record at the close of business on April 18, 2005. Because the first quarter was approximately one-third completed when our initial public offering closed, the dividend was based on a pro-rata computation of our target quarterly dividend of \$0.2975 per share, or \$1.19 per share annually.

On July 11, 2005, our board of directors declared a distribution of \$0.30 per share of common stock for the quarter ending on June 30, 2005. The dividend was payable on August 8, 2005 to stockholders of record at the close of business on July 18, 2005.

Long-Term Indebtedness

At June 30, 2005, we had outstanding mortgage indebtedness of \$329.3 million (net of unamortized debt premium of \$3.2 million.). The scheduled maturities of all outstanding mortgage indebtedness at June 30, 2005 is as follows:

Fiscal Year Ending

2005 (six months ended December 31,)	\$ 687
2006	2,930
2007	61,233
2008	27,618
2009	183,747
2010	888
Thereafter	49,048
Total	326,151
Unamortized debt premium	3,163
Outstanding at June 30, 2005, net of unamortized premium.	\$329,314

At June 30, 2005, the outstanding debt had a weighted average interest rate of 5.67% and carried an average term to maturity of 4.1 years.

As of June 30, 2005, eight of our properties were unencumbered by mortgage debt, six of which have been pledged as collateral against any borrowing under our \$100.0 million credit facility.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Funds from Operations

As defined by the National Association of Real Estate Investment Trusts (NAREIT), funds from operations (FFO) represents net income (loss) computed in accordance with GAAP, excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. We present FFO because we consider it an important supplemental measure of our operating performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and

interest costs, providing perspective not immediately apparent from net income.

Table of Contents

We compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002), which may differ from the methodology for calculating FFO utilized by other equity REITs and, accordingly, may not be comparable to such other REITs. Further, FFO does not represent amounts available for management's discretionary use because of needed capital replacement or expansion, debt service obligations or other commitments and uncertainties. FFO should not be considered as an alternative to net income (loss) (computed in accordance with GAAP) as an indicator of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make distributions.

The following table presents a reconciliation of our FFO to our net income for the six and three months ended June 30, 2005 and 2004.

	Three Months Ended		Six Months Ended June 30,	
	June 30,			
	2005	2004	2005	2004
Net income	\$ (4,060)	\$ 99	\$ (10,358)	\$ 1,328
Plus student housing property depreciation and amortization of lease intangibles	9,317	773	15,279	1,546
Funds from operations	\$ 5,257	\$ 872	\$ 4,921	\$ 2,874

Inflation

Our student housing leases typically do not have terms that extend beyond 12 months. Accordingly, although on a short-term basis we would be required to bear the impact of rising costs resulting from inflation, we have the opportunity to raise rental rates at least annually to offset such rising costs. However, our ability to raise rental rates may be limited by a weak economic environment, increased competition from new student housing in our primary markets or a reduction in student enrollment at our principal universities.

Recent Developments

In July 2005, we acquired a student housing community at Auburn University in an all cash transaction for \$12.6 million. The property is located approximately near the university and contains 576 beds.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Our future income, cash flows and fair values relevant to financial instruments are dependent upon prevailing market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. All of the outstanding principal amounts of our notes payable on the properties we own after the Offering and Formation Transactions have fixed interest rates with a weighted average rate of 5.5%. As a result, we do not currently have exposure to interest rate fluctuations. We anticipate incurring additional variable rate indebtedness in the future, including draws under our revolving credit facility and/or variable interest rate swaps on existing fixed-rate indebtedness. We may in the future use derivative financial instruments to manage, or hedge, interest rate risks related to such variable rate borrowings. We do not, and do not expect to, use derivatives for trading or speculative purposes, and we expect to enter into contracts only with major financial institutions.

Item 4. Controls and Procedures.

Our management evaluated, with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures as of June 30, 2005. Based on that evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective as of June 30, 2005 the end of the period covered by this Quarterly Report. To these officers knowledge, there were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

There has been no change in our internal control over financial reporting that has occurred that materially affects or is reasonably likely to materially affect our internal controls over financial reporting.

Table of Contents**PART II
OTHER INFORMATION****Item 1. Legal Proceedings.**

In the normal course of business, we are subject to claims, lawsuits, and legal proceedings. While it is not possible to ascertain the ultimate outcome of such matters, in management's opinion, the liabilities, if any, in excess of amounts provided or covered by insurance, are not expected to have a material adverse effect on our financial position, results of operations or liquidity.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Our common stock began trading on the New York Stock Exchange under the symbol EDR on January 26, 2005. On the Closing Date, we sold 21,850,000 shares of our common stock at an initial public offering price of \$16.00 per share, including the sale of 2,850,000 shares in connection with the full exercise of the over-allotment option by the underwriters of our Offering. The shares sold in our initial public offering were registered pursuant to a Registration Statement on Form S-11, as amended, originally filed on September 24, 2004 (File No. 333-119264) and a Registration Statement on Form S-11 filed on January 26, 2005 (File No. 333-122298). J.P. Morgan Securities Inc. and UBS Securities LLC were the joint book-running managers for our initial public offering. Simultaneous with our initial public offering, we completed our formation transactions, which included the contribution of the student housing business of our Predecessor and its subsidiaries, purchase of the related minority interests in our Predecessor and its subsidiaries and the acquisition of 14 student housing communities previously owned by JPI. The net proceeds of the initial public offering after expenses were approximately \$320.4 million. We have used the proceeds from our initial public offering as follows:

approximately \$121.2 million to pay the cash portion of our formation transactions;

approximately \$118.4 million to repay mortgage debt assumed in the formation transactions, including prepayment fees of approximately \$3.7 million;

approximately \$6.0 million to fund our revolving loan commitment to an affiliate of JPI;

approximately \$1.4 million to pay loan origination fees relating to our \$100 million revolving credit facility that was obtained on January 31, 2005 and amended on April 4, 2005;

approximately \$47.0 million to purchase properties located near the University of Mississippi in February 2005, the University of South Carolina in March 2005, a property located near Middle Tennessee State University in April 2005, a property located near the University of Florida in June 2005, and a property located near Auburn University in July 2005; and

approximately \$19.3 million that remains available for general corporate uses, which may include the acquisition of additional student housing communities, repayment of additional indebtedness and payment of distributions to our stockholders.

Item 3. Defaults upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

Our Annual Meeting of Stockholders (the Annual Meeting) was held on May 25, 2005.

The following directors were elected to hold office for a term expiring at the 2006 Annual Meeting or until their successors are elected and qualified, with the vote for each director being reflected below:

Name	Votes	
	Votes For	Withheld
Monte J. Barrow	20,997,760	112,276
Paul O. Bower	20,776,180	313,856

Edgar Filing: Education Realty Trust, Inc. - Form 10-Q

William J. Cahill, III	20,978,460	111,576
Randall L. Churchey	20,977,760	112,276
John L. Ford	20,976,910	113,126

The affirmative vote of the holders of a plurality of the outstanding shares of common stock represented at the Annual Meeting was required to elect each director.

The appointment of Deloitte & Touche LLP as independent public accountants to audit our consolidated financial statements for the year ending December 31, 2005, was ratified with 21,054,387 affirmative votes cast, 31,699 negative votes cast and 3,950 abstentions. The affirmative vote of the holders of a majority of the outstanding shares of common stock represented at the annual meeting was required to ratify the appointment of Deloitte & Touche LLP.

Item 5. Other Information.

None.

Item 6. Exhibits.

- Exhibit 31.1 Certification of Principal Executive Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.
- Exhibit 31.2 Certification of Principal Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.
- Exhibit 32.1 Certification of Chief Executive Officer and Chief Financial Officer pursuant to Rule 13a-14(b) of the Securities Exchange Act, as amended.

* In accordance with Release No. 34-47986, this Exhibit is hereby furnished to the SEC as an accompanying document and is not deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference into any filing under the Securities Act of 1933.
