**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS    UNAUDITED**

**1. Presentation of Interim Financial Statements**

BankAtlantic Bancorp, Inc. (the Company) is a financial services holding company that offers a wide range of banking and investment products and services through its subsidiaries. The Company's principal assets include the capital stock of its wholly-owned subsidiaries: BankAtlantic, its banking subsidiary; and RB Holdings, Inc., a holding company that wholly owns Ryan Beck & Co., Inc. (Ryan Beck), an investment banking firm. BankAtlantic, a federal savings bank headquartered in Fort Lauderdale, Florida, is a community-oriented bank which provides traditional retail banking services and a wide range of commercial banking products and related financial services through a network of 76 branches located in Florida. Ryan Beck is a full service federally regulated broker-dealer headquartered in Florham Park, New Jersey. Ryan Beck provides financial advice to individuals, institutions and corporate clients through 39 offices in 13 states. Ryan Beck also engages in the underwriting, distribution and trading of tax-exempt, equity and debt securities.

All significant inter-company balances and transactions have been eliminated in consolidation.

In management's opinion, the accompanying consolidated financial statements contain such adjustments as are necessary for a fair statement of the Company's consolidated financial condition at September 30, 2005, December 31, 2004 and September 30, 2004, the consolidated results of operations for the three and nine months ended September 30, 2005 and 2004, the consolidated stockholders' equity and comprehensive income for the nine months ended September 30, 2005 and 2004 and the consolidated cash flows for the nine months ended September 30, 2005 and 2004. Such adjustments consisted only of normal recurring items except for the litigation settlement gain during the nine months ended September 30, 2004 and an impairment charge on office properties and equipment during the nine months ended September 30, 2005. The results of operations for the three and nine months ended September 30, 2005 are not necessarily indicative of results of operations that may be expected for the year ended December 31, 2005. The consolidated financial statements and related notes are presented as permitted by Form 10-Q and should be read in conjunction with the notes to the consolidated financial statements appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2004 and the Company's Form 10-Q for the three months ended March 31, 2005 and June 30, 2005, respectively.

Certain amounts for prior periods have been reclassified to conform to the statement presentation for 2005.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****2. Stock Based Compensation**

Under the provisions of Statement of Financial Accounting Standards ( SFAS ) No. 123, Accounting for Stock-Based Compensation, there are currently two methods of accounting for stock options, the intrinsic value method and the fair value method. The Company elects to value its options under the intrinsic value method. As a consequence, the Company accounts for its stock based compensation plans under the recognition and measurement principles of Accounting Principles Board ( APB ) Opinion No. 25 and related interpretations.

The following table illustrates the effect on net income and earnings per share as if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation.

During the three and nine months ended September 30, 2005, the Company received net cash proceeds of \$275,000 and \$1.1 million, respectively, from the exercise of stock options compared to \$383,000 and \$2.2 million during the same 2004 periods. During the nine months ended September 30, 2005, the Company accepted 63,455 shares of Class A common stock with a fair value of \$1.1 million as consideration for the exercise price of stock options and accepted 196,962 shares of Class A common stock in payment of \$3.5 million for optionees' minimum statutory withholding taxes related to option exercises. During the nine months ended September 30, 2004, the Company accepted 59,342 shares of Class A common stock with a fair value of \$906,000 as consideration for the exercise price of stock options and accepted 120,688 shares of Class A common stock in payment of \$1.8 million for optionees' minimum statutory withholding taxes related to option exercises.

In July 2005, the Board of Directors granted incentive and non-qualifying stock options to acquire an aggregate of 786,700 shares of Class A common stock at an exercise price of \$19.02 per share under the BankAtlantic Bancorp, Inc. 2005 Restricted Stock and Option Plan. Additionally, during July 2005, non-employee directors were issued 9,268 shares of restricted Class A common stock, and options to acquire 24,371 shares of Class A common stock at an exercise price of \$18.88 per share. No compensation expense was recognized in connection with the option grants since the exercise price equaled the market value of the underlying common stock on the date of grant. The Company will recognize \$174,000 of expense for director fees associated with the issuance of restricted stock over a one year

vesting period.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****3. Litigation Settlement**

In March 2004, the Company recorded a \$22.8 million litigation gain pursuant to a settlement between the Company and its affiliates and a technology company. In accordance with the terms of the settlement, the Company sold its stock in the technology company to a third party investor group for its original cost of \$15 million and received from the investor group and the technology company additional compensation for legal expenses and damages consisting of \$1.7 million in cash and 378,160 shares of the Company's Class A common stock with a \$6.1 million fair value that had been owned by the technology company. The Company had recorded an impairment charge for the entire investment during 2002. The Company retired the Class A common stock received by it on the settlement date.

**4. Impairment of Office Properties and Equipment**

During the nine months ended September 30, 2005, the Company opened its new Corporate Center, which serves as its corporate headquarters. As a result of the corporate headquarters relocation and the expected demolition of the old corporate headquarters building, the Company recorded an impairment charge for the \$3.7 million carrying value of the old corporate headquarters building and equipment in its Statement of Operations for the nine months ended September 30, 2005. The building and equipment were previously included in the BankAtlantic reportable segment.

**5. Advances from the Federal Home Loan Bank**

During the third quarter of 2005, BankAtlantic borrowed \$100 million from the Federal Home Loan Bank (FHLB). For the first year these advances bear interest at LIBOR-based floating rates which adjust quarterly. After one year the advances have a weighted average fixed rate of 3.77 % and mature between 2009 and 2012. The FHLB, after one year, has an option to convert the borrowing to a LIBOR-based rate that adjusts quarterly. If the FHLB makes such an election, BankAtlantic will have the right to pre-pay the advances at no penalty or premium. At September 30, 2005, these advances had a weighted average interest rate of 3.38%.

Of the remaining FHLB advances outstanding at September 30, 2005, \$531 million mature between 2008 and 2011 and have a weighted average interest rate of 5.41%, and \$854 million are LIBOR-based floating rate advances that mature between 2005 and 2006 and have a weighted average interest rate of 3.81%.

During the nine months ended September 30, 2004, BankAtlantic prepaid \$108 million of FHLB advances incurring prepayment penalties of \$11.7 million.

**6. Defined Benefit Pension Plan**

At December 31, 1998, the Company froze its defined benefit pension plan (Plan). All participants in the Plan ceased accruing service benefits beyond that date. The Company is subject to future pension expense or income based on future actual plan returns and actuarial values of the Plan obligations to employees. Under the Plan, net periodic pension expense (benefit) incurred includes the following components (in thousands):

	<b>For the Three Months Ended September 30,</b>		<b>For the Nine Months Ended September 30,</b>	
	<b>2005</b>	<b>2004</b>	<b>2005</b>	<b>2004</b>

**12. Segment Reporting**

Operating segments are defined as components of an enterprise about which separate financial information is available that is regularly reviewed by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Reportable segments consist of one or more operating segments with similar economic characteristics, products and services, production processes, type of customer, distribution system and regulatory environment. The information provided for Segment Reporting is based on internal reports utilized by management. Results of operations are reported through three reportable segments: BankAtlantic, Ryan Beck and Parent Company. The Parent Company includes the operations of BankAtlantic Bancorp as well as acquisition related expenses.

The following summarizes the aggregation of the Company's operating segments into reportable segments:

**Reportable Segment****Operating Segments Aggregated**

BankAtlantic

Community Banking, Commercial Lending, and Bank Investments.

Ryan Beck

Private Client Group, Investment Banking and Capital Markets.

Parent Company

BankAtlantic Bancorp's operations, costs of acquisitions and financing activities.

The accounting policies of the segments are generally the same as those described in the summary of significant accounting policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

Intersegment transactions consist of shared services such as risk management consulting and investment banking placement and advisory fees which are eliminated in consolidation. The presentation and allocation of assets and results of operations may not reflect the actual economic costs of the segments as stand-alone businesses. If a different basis of allocation were utilized, the relative contributions of the segments might differ, but management believes that the relative trends in segments would likely not be impacted.

Standby letters of credit are conditional commitments issued by BankAtlantic to guarantee the performance of a customer to a third party. BankAtlantic's standby letters of credit are generally issued to customers in the construction industry guaranteeing project performance. These types of standby letters of credit had a maximum exposure of \$51.6 million at September 30, 2005. BankAtlantic also issues standby letters of credit to commercial lending customers guaranteeing the payment for goods and services. These types of standby letters of credit had a maximum exposure of \$22.4 million at September 30, 2005. These guarantees are primarily issued to support public and private borrowing arrangements and have maturities of one year or less. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. BankAtlantic may hold certificates of deposit and residential and commercial liens as collateral for such commitments. Included in other liabilities at September 30, 2005, December 31, 2004 and September 30, 2004 was \$238,000, \$114,000 and \$0 respectively, of unearned guarantee fees. There were no obligations associated with these guarantees recorded in the financial statements.

No options were anti-dilutive for the three months ended September 30, 2004 and 781,600 options were anti-dilutive during the nine months ended September 30, 2004.

**16. New Accounting Pronouncements**

In June 2005 the Emerging Issues Task Force ( EITF ) issued EITF 04-05 *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights*. The Task Force reached a consensus that the general partners in a limited partnership are presumed to control the limited partnership regardless of the extent of the general partners' ownership interest in the limited partnership. This presumption can be overcome if the limited partners have either (a) the substantive ability to dissolve (liquidate) the limited partnership or otherwise remove the general partners without cause or (b) substantive participating rights. The guidance in this issue is effective after June 29, 2005 for new limited partnerships formed and for existing limited partnerships for which the partnership agreements are modified. The guidance in this issue is effective no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005 for existing limited partnerships. Management does not believe that the Task Force consensus in EITF 04-05 will have a material effect on the Company's financial statements.

In October 2005, FASB issued FASB Staff Position (FSP) No. FAS 13-1 *Accounting for Rental Costs Incurred during a Construction Period*. This FSP indicates that rental costs associated with ground or building operating leases that are incurred during a construction period shall be recognized as rental expense. The guidance in this FSP is applied to the first reporting period beginning after December 15, 2005 with early adoption permitted. Management does not believe that the guidance in this FSP will have a material effect on the Company's financial statements.

In October 2005, FASB issued FSP No. FAS 123(R)-2 *Practical Accommodation to the Application of Grant Date as Defined in FASB Statement No. 123(R)*. The FSP outlines a practical accommodation for determining if a mutual understanding of the key terms and conditions of an award to an individual exists at the date the award is granted. The guidance of this FSP is effective upon initial adoption of Statement 123(R). Management believes that the guidance in this FSP will not have an effect on future stock option grants.

**BankAtlantic Bancorp, Inc. and Subsidiaries**

In December 2004, FASB issued Statement No. 123 (revision) *Share-based payments*. This Statement is a revision of FASB Statement No. 123, *Accounting for Stock-Based Compensation* and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. The Statement eliminated the accounting for share-based transactions under APB No. 25 and its related interpretations, instead requiring all share-based payments to be accounted for using a fair value method. The Statement can be adopted using the Modified Prospective Application or the Modified Retrospective Application. Under the modified prospective application, this Statement applies to new awards granted after the effective date and to unvested awards at the effective date. Under the modified retrospective application, the Company would apply the modified prospective method, but also restate the prior financial statements to include the amounts that were previously recognized in the pro forma disclosures under Statement No. 123. The Statement was originally to be effective for public companies as of the beginning of the first interim or annual reporting period that begins after June 15, 2005. In April 2005 the Securities and Exchange Commission ( SEC ) issued a final rule to amend the effective date of the Statement for public companies to the first interim or annual reporting period of the registrant's first fiscal year beginning after June 15, 2005. Also, on March 29, 2005 the SEC issued Staff Accounting Bulletin ( SAB ) No. 107. SAB No. 107 expresses the staff's views of the interaction between FASB Statement No. 123R, Share-Based Payment, and certain SEC rules and regulations. SAB No. 107 also addresses the valuation of share-based payment arrangements for public companies. Management is currently evaluating the Statement, the SEC's guidance and the two transitional applications, and anticipates adopting the Statement as of January 1, 2006. Management estimates that compensation expense resulting from currently unvested options at the adoption date would be approximately \$11.6 million to be recorded over the remaining weighted average vesting period of approximately three years.

**17. Contingencies**

BankAtlantic previously disclosed that it had identified deficiencies in its compliance with the USA PATRIOT Act, anti-money laundering laws and the Bank Secrecy Act and that it has been cooperating with regulators and other federal agencies concerning these deficiencies. BankAtlantic has provided and is continuing to provide information to the government pursuant to a number of subpoenas relating to, among other things, numerous customers and transactions and the Bank's policies and procedures. The Company cannot predict whether or to what extent civil or criminal regulatory action or monetary or other restrictions or penalties will be pursued against BankAtlantic or the Company by regulators or other federal agencies. No amounts have been recorded at September 30, 2005 in the financial statements relating to possible penalties from federal agencies.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The objective of the following discussion is to provide an understanding of the financial condition and results of operations of BankAtlantic Bancorp, Inc. and its wholly owned subsidiaries (the Company, which may also be referred to as we, us, or our) for the three and nine months ended September 30, 2005 and 2004, respectively. The principal assets of the Company consist of its ownership of these subsidiaries, which include BankAtlantic, a federal savings bank headquartered in Fort Lauderdale, Florida, and its subsidiaries (BankAtlantic) and RB Holdings, Inc., the holding company for Ryan Beck & Co., Inc., a brokerage and investment banking firm located in Florham Park, New Jersey, and its subsidiaries (Ryan Beck).

Except for historical information contained herein, the matters discussed in this document contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), that involve substantial risks and uncertainties. When used in this document, the words anticipate, believe, estimate, may, intend, expect and expressions identify certain of such forward-looking statements. Actual results, performance, or achievements could differ materially from those contemplated, expressed, or implied by the forward-looking statements contained herein. These forward-looking statements are based largely on the expectations of BankAtlantic Bancorp, Inc. (the Company) and are subject to a number of risks and uncertainties that are subject to change based on factors which are, in many instances, beyond the Company's control. These include, but are not limited to, risks and uncertainties associated with: the impact of economic, competitive and other factors affecting the Company and its operations, markets, products and services; credit risks and loan losses, and the related sufficiency of the allowance for loan losses; changes in interest rates and the effects of, and changes in, trade, monetary and fiscal policies and laws including their impact on the bank's net interest margin; adverse conditions in the stock market, the public debt market and other capital markets and the impact of such conditions on our activities and the value of our assets; BankAtlantic's seven-day banking initiative, marketing initiatives, and other growth initiatives not resulting in continued growth of low cost deposits or otherwise not producing results which justify their costs; the impact of periodic testing of goodwill and other intangible assets for impairment; as well as our ability to correct and the associated costs of correcting the compliance deficiencies associated with the USA Patriot Act, anti-money laundering laws and the Bank Secrecy Act, and whether or to what extent monetary or other restrictions or penalties relating to compliance deficiencies will be imposed on the Company by regulators or other federal agencies. The results or performance derived or implied, directly or indirectly from the estimates and assumptions, are based on our beliefs and may not be accurate. Past performance, actual or estimated new account openings and growth rates may not be indicative of future results. Further, this document contains forward-looking statements with respect to Ryan Beck & Co., which are subject to a number of risks and uncertainties including but not limited to the risks and uncertainties associated with its operations, products and services, changes in economic or regulatory policies, its ability to recruit and retain financial consultants, the volatility of the stock market and fixed income markets and its effects on the volume of its business and the value of its securities positions and portfolio, as well as its revenue mix, and the success of new lines of business; and additional risks and uncertainties that are subject to change and may be outside of Ryan Beck's control. In addition to the risks and factors identified above, reference is also made to other risks and factors detailed in reports filed by the Company with the Securities and Exchange Commission. The Company cautions that the foregoing factors are not exclusive.

**Critical Accounting Policies**

Critical accounting policies are important to the understanding of our financial statements and also involve estimates and judgments about inherently uncertain matters. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated statements of financial condition and assumptions that affect the recognition of income and expenses on the statement of operations for the periods presented. Actual results could differ significantly from those estimates. Material estimates that are particularly susceptible to significant change in subsequent periods relate to the determination of the allowance for loan losses, evaluation of goodwill and other intangible assets for impairment, the valuation of real estate held for development and real estate acquired in

connection with foreclosure or in satisfaction of loans, the valuation of the fair value of assets and liabilities in the application of the purchase method of accounting, the amount of the deferred tax asset valuation allowance, and accounting for contingencies. We have identified six critical accounting policies which are: (i) allowance for loan losses; (ii) valuation of securities as well as the determination of other-than-temporary declines in value; (iii) impairment of goodwill and other intangible assets; (iv) impairment of long-lived assets; (v) accounting for business combinations and (vi) accounting for contingencies. For a more detailed discussion of these critical accounting policies see Critical Accounting Policies appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

**For the Three Months Ended September 30, 2005 Compared to the Same 2004 Period:**

BankAtlantic's segment net income was favorably impacted by a recovery in the provision for loan losses, a substantial improvement in its net interest income and growth in non-interest income. These items were partially offset by higher operating expenses.

The significant increase in BankAtlantic's net interest income was due to earning asset growth and continued improvement in its net interest margin primarily resulting from low cost deposit growth and higher asset yields.

The primary contributor to the recovery in the provision for loan losses was declining commercial loan balances as well as the payoff of a large hotel loan. Loans to borrowers in the hospitality industry are allocated higher general reserves than other categories of loans in the portfolio.

The improvement in non-interest income was directly related to higher service charge revenues linked to growth in the number of deposit accounts from initiatives adopted in connection with BankAtlantic's Florida's Most Convenient Bank marketing campaign.

The additional operating expenses were associated with higher compensation, occupancy, advertising and general expenses resulting from Florida's Most Convenient Bank initiatives, which include extended branch hours, midnight hours at selected branches as well as additional expenses associated with the branch expansion and renovation initiatives.

The substantial decrease in Ryan Beck segment earnings was due to a significant decline in investment banking revenues. Investment banking revenues were \$13.8 million for the 2004 quarter compared to \$3.7 million during the current quarter.

The additional Parent Company net loss in 2005 was primarily due to higher interest expenses from floating rate junior subordinated debentures reflecting the substantial increase in short-term interest rates since June 2004.

**For the Nine Months Ended September 30, 2005 Compared to the Same 2004 Period:**

The improvement in BankAtlantic's segment net income resulted from the items discussed above as well as BankAtlantic having incurred \$11.7 million (pre-tax) of prepayment penalties during 2004 by prepaying high fixed interest rate FHLB advances totaling \$108 million. This improvement in BankAtlantic segment net income was partially offset by a \$2.4 million after tax impairment charge during 2005 associated with a decision to vacate and raze BankAtlantic's former headquarters.

Ryan Beck's segment net income was slightly lower as total revenue growth increased by 6%. The lower earnings and higher revenues were primarily due to the hiring of experienced professionals to provide additional research coverage and to grow Ryan Beck's fixed income and equity capital markets businesses. The increased personnel has also created additional expenditures for equipment, leasehold improvements and general operating expenses.

Parent Company segment net income during 2004 included a \$22.8 million pre-tax gain in connection with a March 2004 settlement of litigation with a technology company in which the Company was an investor.

**Table of Contents**

**BankAtlantic Bancorp, Inc. and Subsidiaries**

The substantial improvement in tax equivalent net interest income primarily resulted from a 20.2% increase in average interest earning assets and an 18 basis point improvement in the net interest margin.

BankAtlantic's average interest earning asset balances increased primarily due to purchases of residential loans and tax exempt securities as well as the origination of small business and home equity loans. BankAtlantic also experienced a run off in its commercial real estate loan portfolio primarily associated with decreased levels of condominium construction loans and loans in the hospitality industry. Due to the current real estate economic environment management decided to reduce lending in the above mentioned loan categories. The growth in its interest earning assets was funded through deposit growth, short term borrowings and LIBOR-based FHLB advances.

The improvement in our tax equivalent net interest margin primarily resulted from a substantial increase in low cost deposits, and secondarily, higher earning asset yields. Low cost deposits are savings, NOW and demand deposits and these deposits now comprise 54% of total deposits. Low cost deposit balances grew 22.8% from September 30, 2004 through September 30, 2005. New account openings were up 32% with nearly 51,000 new accounts opened during the 2005 quarter.

Since June 2004, the prime interest rate has increased from 4.00% to 6.75%. This increase has favorably impacted the yields on earning assets, which were partially offset by higher rates on our short term borrowings, certificate accounts, money market deposits, LIBOR-based FHLB advances and long term debt.

Low cost deposits have greater value in a higher interest rate environment and management believes that BankAtlantic can achieve improvements in its net interest margin through continued growth in low cost deposits. While the current flattening of the yield curve will exert downward pressure on the margin, management presently anticipates that the downward pressure may be offset by an improved funding mix, driven principally by a higher percentage of low cost deposits.

**For the Nine Months Ended September 30, 2005 Compared to the Same 2004 Period:**

Net interest income for the nine month period increased significantly from 2004 levels. The increase resulted primarily from the items discussed above for the three months ended September 30, 2005.

**For the Three Months Ended September 30, 2005 Compared to the Same 2004 Period:**

Charge-offs and recoveries from continuing loan products were nominal for the three months ended September 30, 2005 and 2004. The lower charge-offs and recoveries from discontinued loan products resulted from declining portfolio balances. The majority of the discontinued loan products charge-offs and recoveries related to lease finance lending. Outstanding balances of this product have declined from \$8.6 million at September 30, 2004 to \$1.7 million at September 30, 2005.

The recovery for loan losses during the current quarter was due to decreased reserves in the commercial loan portfolio reflecting lower loan balances and a payoff of a large hotel loan. Loans to borrowers in the hospitality industry are allocated higher general reserves than other categories of loans in the portfolio.

The provision for loan losses during the 2004 quarter resulted from additional reserves allocated to a \$17.7 million hotel loan in which the financial condition of the borrower deteriorated during the quarter.

**For the Nine Months Ended September 30, 2005 Compared to the Same 2004 Period:**

During the 2005 period, net recoveries included a \$1.1 million partial recovery of a commercial business loan that had been charged off during the third quarter of 2003. Net recoveries during the 2004 period included a \$2.1 million

residential construction loan recovery.

The provision for loan losses was a net recovery during the 2005 period due to the items discussed above and the repayment of a large classified loan during the first quarter. The recovery was partially offset by increased home equity reserves during the second quarter resulting from an analysis of the portfolio.

The recovery for loan losses during the 2004 periods was primarily due to the items discussed above as well as significant loan recoveries.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

BankAtlantic's allowance for loan losses was 0.89% and 1.17% of total loans at September 30, 2005 and 2004, respectively. The declining trend in the allowance to loan ratio reflects recent historically low charge-off experience, and a change in the mix of the loan portfolio from commercial to residential loans and the run-off of our discontinued loan products. Residential loans are assigned a substantially lower general reserve than discontinued and commercial loans.

At the indicated dates, BankAtlantic's non-performing assets and potential problem loans were (in thousands):

Non-performing assets remain at historically low levels. Non-performing assets to total loans, tax certificates and reposessed assets declined from 0.30% at September 30, 2004 to 0.19% at December 31, 2004 to 0.17% at September 30, 2005. The improvement in nonaccrual loans at September 30, 2005 compared to December 31, 2004 resulted from declines in non-performing lease financing and consumer loans. Non-performing lease financing and consumer loans were \$1.2 million and \$727,000, respectively, at December 31, 2004 compared to \$355,000 and \$268,000, respectively, at September 30, 2005.

The higher repossessed asset balances primarily resulted from properties acquired through tax certificate activities and to a lesser extent the repossession of an aircraft that served as collateral under leases included in the discontinued leasing portfolio.

**For the Three Months Ended September 30, 2005 Compared to the Same 2004 Period:**

The increase in non-interest income during 2005 resulted from a substantial increase in service charges on deposits as well as gains on the sale of branch facilities and loans held for sale. The substantial increase in service charges on deposits is linked to growth in low cost deposit accounts. New account openings for the current quarter were 51,000 and 155,000 for the nine months ended September 30, 2005 compared to 38,600 and 126,217 during the same 2004 periods.

Real estate income reflects the activity of a joint venture and the sale of branch facilities held for sale. During 2005 a building which formerly housed a branch which was consolidated into a nearby branch in 2003, was sold for a \$325,000 gain. Revenues from a real estate joint venture were slightly lower in 2005 compared to 2004 as 5 units were sold during 2005 compared to 4 during 2004.

The increase in other income primarily resulted from higher gains on the sale of loans held for sale. Gains on loan sales were \$295,000 during 2005 compared to \$86,000 during 2004.

**For the Nine Months Ended September 30, 2005 Compared to the Same 2004 Period:**

The increase in service charges on deposits resulted from the same items discussed above.

The substantial increase in income from real estate was due to a significant increase in the number of units closed by a real estate joint venture. During 2005 the joint venture closed 25 units compared to 11 units during 2004.

Included in other income during the nine month period ended September 30, 2005 was a \$1.2 million gain on the sale of branch facilities. Gains on loan sales were \$521,000 during 2005 compared to \$331,000 during 2004.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****For the Three Months Ended September 30, 2005 Compared to the Same 2004 Period:**

The substantial increase in employee compensation and benefits resulted primarily from Florida's Most Convenient Bank initiatives, which include midnight hours at selected branches, free online banking and bill pay, 24/7 customer service center and the opening of all locations seven days a week as well as the expansion of BankAtlantic's branch network. Additionally, during the current quarter BankAtlantic extended its branch hours. BankAtlantic's branches are now open on average 80 hours a week. As a consequence, the number of full time employees increased to 2,069 at September 30, 2005 from 1,571 at September 30, 2004. The resulting increase to compensation expense was partially offset by \$350,000 of lower profit sharing benefits.

Occupancy and equipment expenses increased during the period primarily due to extended branch network hours associated with the Florida's Most Convenient Bank initiatives, higher data processing costs and the opening of BankAtlantic's corporate headquarters. The extended branch network hours resulted in increased guard service and maintenance expense. BankAtlantic's data processing service bureau rates are reviewed annually and as a consequence of BankAtlantic's growth throughout the period, these rates were increased as of July 1, 2005. The opening of BankAtlantic's corporate headquarters and the branch renovation initiative have resulted in higher depreciation and maintenance expenses.

Advertising expenses increased significantly as a direct result of an aggressive BankAtlantic marketing campaign during 2005 that included television and radio advertising to promote the Florida's Most Convenient Bank initiative.

BankAtlantic's year-over-year growth rate of low cost deposits has declined from the 30% - 35% range during 2002-2004 to a 21% - 23% range since June 2005. As a result of lower growth rates in low cost deposits, we anticipate increasing our marketing expenses in an attempt to generate additional deposits. Additional outlays of as much as \$5.0 million per quarter over current levels may occur in the fourth quarter 2005 and throughout 2006. Management believes that expenditures on additional marketing should enable BankAtlantic to maintain the current level of low cost deposit growth that over the long run is considered vital to franchise value and profitability. However, management can give no assurance that the deposit growth goals will be achieved by increasing marketing expenditures or that the benefits achieved by such deposit growth will justify the added costs.

Lower professional fees in 2005 reflect BankAtlantic spending approximately \$2 million on consulting costs in connection with its efforts to address deficiencies identified in compliance with the USA Patriot Act anti-money laundering laws and the Bank Secrecy Act during 2004 compared to \$500,000 during 2005. This reduction in professional fees was partially offset by higher internal and external audit expenses incurred during the current quarter.

The higher other non-interest expense resulted from increased deposit account fraud, additional fees remitted for maintaining attorney escrow accounts, and increased general operating expenses related to a substantial increase in the number of customer accounts, extended hours of the branch network and the opening of BankAtlantic's corporate headquarters.

**For the Nine Months Ended September 30, 2005 Compared to the Same 2004 Period:**

In 2004, the cost associated with debt redemption was the result of a prepayment penalty of \$11.7 million incurred when BankAtlantic prepaid \$108 million of FHLB advances scheduled to mature in 2007-2008 that had an average interest rate of 5.55%.

The 2005 period includes a \$3.7 million impairment charge associated with a decision to vacate and raze the Bank's former headquarters.

The increase in professional fees resulted from consulting fees incurred to evaluate compliance procedures put in place during 2005.

The decline in the effective tax rate during the three and nine months ended September 30, 2005 resulted from higher investments in tax exempt securities during 2005 compared to the 2004 periods. The average balance of tax exempt securities was \$386.1 million and \$363.0 million during the three and nine months ended September 30, 2005 compared to \$144.1 million and \$73.6 million during the same 2004 periods.

**For the Three and Nine Months Ended September 30, 2005 Compared to the Same 2004 Periods:**

Segment net income decreased for the three and nine months ended September 30, 2005, primarily as a result of decreased investment banking revenues, expenditures in connection with new lines of business and expansion of existing branches. This decrease was partially offset by increased principal transactions.

Net interest income increased 12% for the three months and 1% for the nine months ended September 30, 2005, as compared to the same 2004 periods. Included in interest income is Ryan Beck's participation in interest income associated with approximately \$237 million of customer margin debit balances and fees earned in connection with approximately \$1.2 billion in customer money market balances.

Principal transactions revenue increased 18% and 21% for the three and nine months ended September 30, 2005, respectively, as compared to the same 2004 periods. The increase for the three-month period was attributable to an increase in syndicate deal activity in addition to appreciation of deferred compensation assets and an increase in

trading revenue. The increase for the nine-month period was primarily due to a large mutual to stock transaction during the second quarter of 2005 in which principal gross sales credits in excess of \$16.5 million were recorded by Ryan Back.

Investment banking revenue decreased 73% and 8%, respectively, for the three and nine months ended September 30, 2005, as compared to the same 2004 periods. The decrease was attributable to a decrease in consulting, merger and acquisition fees.

Commission revenue increased 15% and decreased 8%, respectively, for the three and nine months ended September 30, 2005, as compared to the same 2004 periods. The increase for the three-month period was primarily due to an increase in equity related commissions. The decrease for the nine-month period was primarily attributable to a decrease in agency transaction volume in the 2005 nine month period.

**Table of Contents**

**BankAtlantic Bancorp, Inc. and Subsidiaries**

Other income is comprised primarily of rebates received on customer money market balances and inactive fees on customer accounts.

Employee compensation and benefits increased 12% and 7%, respectively, for the three and nine months ended September 30, 2005, as compared to the same 2004 periods. The increase for the three and nine-month periods was primarily attributed to an increase in compensation costs associated with significant expansion and related hiring in the firm's capital market business including institutional sales and trading, equity, research, and recruiting of financial consultants in Ryan Beck's private client group.

Advertising and promotion expense decreased 23% and increased 3%, respectively, for the three and nine months ended September 30, 2005, as compared to the same 2004 periods. The decrease for the three-month period was mainly due to an advertising campaign in 2005, which ran through the second quarter of 2005. The increase for the nine-month period of 2005 was due to increased travel and entertainment expenses primarily due to the expansion of the firm's capital markets business.

Professional fees increased 33% and 29%, respectively, for the three and nine months ended September 30, 2005, as compared to the same 2004 periods. The increase was primarily due to increases in fees associated with additional internal and external audit fees, as well as consulting fees associated with various administrative projects.

Communications expense increased 6% and 9%, respectively, for the three and nine months ended September 30, 2005, as compared to the same 2004 periods. The increase was primarily due to the addition of branch locations throughout 2004 and the increase in capital markets personnel in 2005.

Floor broker and clearing fees increased 8% for the three months and decreased 9% for the nine months ended September 30, 2005, as compared to the same 2004 periods. The increase for the three-month period was due to an increase in transactional business in the 2005 period as compared to the same period in 2004. The decrease for the nine-month period was due to a decrease in transactional business as compared to the same 2004 period.

Other expenses increased 3% and 11%, respectively, for the three and nine-month periods ended September 30, 2005, primarily as a result of increased recruiting expenses for additional personnel added in the firm's capital market business during 2005.

The reduction in the provision for income taxes during the three and nine months ended September 30, 2005 was due to a decline in income before taxes as well as higher gains on corporate owned life insurance and increased tax exempt income.

Interest income was lower during the three months ended September 30, 2005 compared to the same 2004 period due to the repayment of Levitt Corporation loans during prior quarters in 2005. The funds received from the loan repayments were invested in short-term investments that had lower yields than the Levitt loans.

Interest income during the nine months ended September 30, 2005 increased slightly from the same 2004 period. Interest income from short-term investments was \$1.2 million compared to \$439,000 during the same 2004 nine month period. Interest income on Levitt loans declined from \$1.3 million during the 2004 nine month period to \$560,000 during the same 2005 period. The increase in short term rates and the investment of a portion of the funds obtained from the repayment of Levitt loans had a favorable impact on interest income from short-term investments during the 2005 nine month period.

Interest expense increased during both periods in 2005 compared to the same 2004 periods, as a result of higher interest rates. The Company's junior subordinated debentures and other borrowings balances were \$267.3 million and \$263.4 million, respectively, at September 30, 2005 and 2004, of which \$132.9 million and \$128.9 million, respectively, at September 30, 2005 and 2004 bear interest at floating rates.

Income from unconsolidated subsidiaries represents the equity earnings from trusts formed to issue trust preferred securities.

The litigation settlement in 2004 reflects proceeds from the settlement of litigation related to the Company's prior investment of \$15 million in a technology company. Pursuant to that settlement, the Company sold its stock in the technology company to a third party investor group for \$15 million in cash, the Company's original cost, and the Company received consideration from the technology company for legal expenses and damages, which consisted of \$1.7 million in cash and 378,160 shares of the Company's Class A Common Stock returned by the technology company to the Company.

Parent Company compensation expense represents salaries for investor relations, risk management and executive management personnel. The Company's other income represents amounts received from Levitt and BFC for services performed by these employees. The increase in compensation expense during the 2005 period was due to a larger number of employees at the parent company during 2005 and to payroll taxes associated with the exercise of stock options. The additional employees were transferred from BankAtlantic.

**BankAtlantic Bancorp Consolidated Financial Condition**

Total assets were \$6.4 billion at September 30, 2005 and December 31, 2004. The changes in components of total assets from December 31, 2004 to September 30, 2005 are summarized below:

Higher cash balances associated with an increase in cash letter receivables from other depository institutions;

Decline in securities available for sale amounts due to securities maturities exceeding purchases;

Higher investment securities primarily due to higher tax exempt securities balances;

Lower loan balances resulting from declines in commercial and construction loan balances;

Higher accrued interest receivable balances primarily associated with an increase in yields at period end on interest earning assets;

Lower real estate held for development and sale as a result of units closed at the Riverclub real estate joint venture;

Higher investment in unconsolidated subsidiaries related to an investment in a rental real estate joint venture; and

Increase in office properties and equipment amounts associated with the Company's new corporate headquarters building and BankAtlantic's branch renovation and expansion initiatives.

We had total liabilities of \$5.8 billion at September 30, 2005 compared to \$5.9 billion at December 31, 2004. The decrease in total liabilities resulted from:

Repayments of short term Federal Home Loan Bank advances, securities sold under agreements to repurchase and federal funds purchased from funds obtained from declining loan and securities balances; and

A decline in securities sold but not yet purchased associated with Ryan Beck's trading activities.

The above decreases in total liabilities were partially offset by:

Higher deposit balances primarily resulting from the growth in low-cost deposits associated with Florida's Most Convenient Bank and totally free checking account initiatives;

An increase in other liabilities primarily due to higher current taxes payable associated with a postponement of the third quarter estimated tax payment due dates and

Additional borrowings at the Parent Company used to fund an investment in a rental real estate joint venture.

Stockholders' equity at September 30, 2005 was \$523.4 million compared to \$469.3 million at December 31, 2004. The increase was primarily attributable to \$60.7 million of earnings and \$6.7 million from the issuance of common stock and associated tax benefits upon the exercise of stock options. The above increases in stockholders' equity were partially offset by \$6.5 million of dividends on our common stock, a \$347,000 reduction in additional paid in capital resulting from the retirement of 90,000 shares of Ryan Beck's common stock issued upon the exercise of employee stock options in June 2004, a \$1.9 million other comprehensive loss, net of income tax benefits, and a \$4.7 million reduction in additional paid in capital related to the acceptance of Class A common stock as consideration for the payment of withholding taxes and the exercise price which were due upon the exercise of Class A common stock options.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****Liquidity and Capital Resources****BankAtlantic Bancorp, Inc. Liquidity and Capital Resources**

The Company's principal source of liquidity is dividends from BankAtlantic and, to a lesser extent, Ryan Beck. The Company also obtains funds through the issuance of equity and debt securities, borrowings from financial institutions, the liquidation of equity securities and other investments it holds and management fees from subsidiaries and affiliates. The Company uses these funds to contribute capital to its subsidiaries, pay debt service, repay borrowings, purchase equity securities, fund joint venture investments, pay dividends and fund operations. The Company's annual debt service associated with its junior subordinated debentures and notes payable is approximately \$18.8 million. The Company's estimated current annual dividends to common shareholders are approximately \$9.2 million. During the nine months ended September 30, 2005, the Company received \$15.0 million of dividends from BankAtlantic. The declaration and payment of dividends and the ability of the Company to meet its debt service obligations will depend upon the results of operations, financial condition and cash requirements of the Company as well as indenture restrictions and on the ability of BankAtlantic to pay dividends to the Company. The payment of dividends by BankAtlantic is subject to regulations and OTS approval and are based upon BankAtlantic's regulatory capital levels and net income. In addition, Ryan Beck paid \$5.0 million in dividends to the Company during the year ended December 31, 2004. Ryan Beck has not paid any dividends to the Company during 2005. Future dividend payments by Ryan Beck will depend upon the results of operations, financial condition and capital requirements of Ryan Beck.

In connection with the Levitt spin-off, a \$30.0 million demand note owed by Levitt to the Company was converted to a five year term note and prior to the spin-off, Levitt declared an \$8.0 million dividend to the Company payable in the form of a note. In March 2005, the \$8.0 million note was paid in full and the \$30.0 million note was paid down to \$16.0 million. In May 2005, Levitt repaid the remaining \$16 million on the \$30 million note. The proceeds from the loan payments were invested in managed funds with a third party money manager. Investments in managed funds amounted to \$86 million at September 30, 2005. It is anticipated that these funds will be invested in this manner until needed to fund the operations of the Company and its subsidiaries, which may include acquisitions, BankAtlantic's branch expansion and renovation strategy, or other business purposes. At September 30, 2005, these funds had a net unrealized gain of \$6.5 million.

In March 2005, the Company repaid the remaining \$100,000 under a revolving credit facility with an independent financial institution. In May 2005, the Company entered into a modification agreement to the revolving credit facility reducing the commitment amount from \$30 million to \$20 million and extending the maturity date from March 1, 2005 to March 1, 2007. The credit facility contains customary covenants, including financial covenants relating to BankAtlantic's regulatory capital and maintenance by BankAtlantic of certain loan loss reserves, and is secured by the common stock of BankAtlantic. The Company has used this credit facility to temporarily fund acquisitions and asset purchases as well as for general corporate purposes. At September 30, 2005 the Company was in compliance with all loan covenants except with respect to the allowance for loan losses to total loans ratio in which a waiver was obtained from the lender. Amounts outstanding accrue interest at the prime rate minus 50 basis points. The outstanding balance of this credit facility as of September 30, 2005 was \$2.0 million.

In September 2005, the Company entered into a revolving credit facility of \$15 million with an independent financial institution. The credit facility contains customary financial covenants relating to regulatory capital, debt service coverage and the maintenance of certain loan loss reserves. This loan is also secured by the common stock of BankAtlantic. The outstanding balance of this credit facility as of September 30, 2005 was \$2.0 million.

**BankAtlantic Liquidity and Capital Resources**

BankAtlantic's liquidity is required to generate sufficient cash to support loan demand, to meet deposit withdrawals, and to pay operating expenses. BankAtlantic's securities portfolio provides an internal source of liquidity through its short-term investments as well as scheduled maturities and interest payments. Loan repayments and sales also provide an internal source of liquidity.

BankAtlantic's primary sources of funds are deposits; principal repayments of loans, tax certificates and investment securities; proceeds from the sale of loans and securities available for sale; proceeds from securities sold under agreements to repurchase and federal funds purchased; advances from FHLB; interest payments on loans and

securities; and funds generated by operations. These funds were primarily utilized to fund loan disbursements and purchases, deposit outflows, repayments of securities sold under agreements to repurchase, repayments of advances from FHLB, purchases of tax certificates and investment securities, payments of maturing certificates of deposit, acquisitions of properties and equipment, payments of operating expenses and payments of dividends to the Company. The FHLB has granted BankAtlantic a line of

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

credit capped at 40% of assets subject to available collateral, with a maximum term of ten years. BankAtlantic has utilized its FHLB line of credit to borrow \$1.5 billion at September 30, 2005. The line of credit is secured by a blanket lien on BankAtlantic's residential mortgage loans and certain commercial real estate and consumer loans.

BankAtlantic's remaining available borrowings under this line of credit were approximately \$876 million at September 30, 2005. BankAtlantic has established lines of credit for up to \$440 million with other banks to purchase federal funds of which \$13.5 million was outstanding at September 30, 2005. BankAtlantic has also established a \$6.5 million potential advance with the Federal Reserve Bank of Atlanta. During the 2005 third quarter, BankAtlantic became a participating institution in the Federal Reserve Treasury Investment Program. The U.S. Treasury at its discretion can deposit up to \$50 million with BankAtlantic. Included in our federal funds purchased at September 30, 2005 was \$14.5 million of short term borrowings associated with the program. BankAtlantic also has various relationships to acquire brokered deposits, which may be utilized as an alternative source of borrowings, if needed. At September 30, 2005, BankAtlantic had \$86.5 million of outstanding brokered deposits.

BankAtlantic's commitments to originate and purchase loans at September 30, 2005 were approximately \$404.6 million and \$8.8 million, respectively, compared to \$355.0 million and \$0, respectively, at September 30, 2004. Additionally, BankAtlantic had no commitments to purchase securities at September 30, 2005 compared to \$5.0 million at September 30, 2004. Commitments to extend credit including the undisbursed portion of loans in process were \$1.2 billion at September 30, 2005 and 2004.

During the nine months ended September 30, 2005, BankAtlantic opened three branches at an aggregate cost of \$2.7 million. During the next six months, subject to receipt of required regulatory approvals, BankAtlantic anticipates opening three additional branches at an aggregate estimated cost of \$5.1 million. BankAtlantic has also entered into purchase commitments to acquire land for de novo branch expansion with an aggregate purchase price of \$4.8 million, subject to the satisfactory completion of due diligence.

In June 2004, BankAtlantic's management finalized a plan to renovate the majority of BankAtlantic's existing branches. BankAtlantic had incurred approximately \$11.1 million in renovation costs on branch facilities as of September 30, 2005 and anticipates that branch renovations will be completed during 2006 at an estimated cost of \$13 million.

At September 30, 2005, BankAtlantic met all applicable liquidity and regulatory capital requirements.

At the indicated dates, BankAtlantic's capital amounts and ratios were (dollars in thousands):

**Compliance Matter**

BankAtlantic continues to address compliance issues relating to the USA Patriot Act, anti-money laundering laws and the Bank Secrecy Act. Our compliance efforts include revised technology and systems and procedures, and a substantial increase in compliance staffing. The 2005 run-rate impact of these on-going compliance-related costs is estimated to be approximately \$3.5 million annually. BankAtlantic cannot predict whether or to what extent monetary or other restrictions or penalties might be imposed upon it by regulators or other federal agencies relating to compliance deficiencies. Other financial institutions have been required to enter into materially restrictive regulatory agreements and to pay substantial fines and assessments in connection with their activities and compliance deficiencies. BankAtlantic Bancorp and BankAtlantic may be the subject of similar civil and criminal regulatory proceedings and actions and may be required to pay fines or penalties which may be similar to, greater than or less than those imposed on other institutions. See the Company's Report on Form 10-Q for the quarter ended March 31, 2005.

**Ryan Beck & Co., Inc. Liquidity and Capital Resources**

Ryan Beck's primary sources of funds during the nine months ended September 30, 2005 were clearing broker borrowings, proceeds from the sale of securities owned, proceeds from securities sold but not yet purchased, loan repayments, fees from customers and funds generated from operations. These funds were primarily utilized to pay operating expenses and fund capital expenditures.

In the ordinary course of business, Ryan Beck borrows funds under an agreement with its clearing broker and pledges securities owned as collateral primarily to finance its trading inventories. The amount and terms of the borrowings are subject to the lending policies of the clearing broker and can be changed at the clearing broker's discretion. Additionally, the amount financed is also impacted by the market value of the securities pledged as collateral.

Ryan Beck is subject to the net capital provision of Rule 15c3-1 under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital and requires the ratio of aggregate indebtedness to net capital, both as defined, not to exceed 15 to 1. Additionally, Ryan Beck, as a market maker, is subject to supplemental requirements of Rule 15c3-1(a) 4, which provides for the computation of net capital to be based on the number of and price of issues in which markets are made by Ryan Beck, not to exceed \$1.0 million. Ryan Beck's regulatory net capital was \$43.7 million, which was \$42.7 million in excess of its required net capital of \$1.0 million at September 30, 2005.

Ryan Beck operates under the provisions of paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission as a fully disclosed introducing broker and, accordingly, customer accounts are carried on the books of the clearing broker. However, Ryan Beck safekeeps and redeems municipal bond coupons for the benefit of its customers. Accordingly, Ryan Beck is subject to the provisions of SEC Rule 15c3-3 relating to possession or control and customer reserve requirements and was in compliance with such provisions at September 30, 2005.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Market risk is defined as the risk of loss arising from adverse changes in market valuations that arise from interest rate risk, foreign currency exchange rate risk, commodity price risk and equity price risk. Our primary market risk is interest rate risk and our secondary market risk is equity price risk.

**Interest Rate Risk**

The majority of BankAtlantic's assets and liabilities are monetary in nature, subjecting us to significant interest rate risk because our assets and liabilities reprice at different times, market interest rates change differently among each rate indices and certain interest earning assets, primarily residential loans, may be prepaid before maturity as interest rates change.

We have developed a model using standard industry software to measure our interest rate risk. The model performs a sensitivity analysis that measures the effect on our net interest income to changes in interest rates. The model measures the impact that parallel interest rate shifts of 100 and 200 basis point would have on our net interest income over a 12 month period.

The model calculates the change in net interest income by:

- i. Calculating the anticipated cash flows from existing assets and liabilities using current repricing and prepayment assumptions;
- ii. Discounts the above expected cash flows based on instantaneous and parallel shifts in the yield curve to determine the effect on net interest income; and
- iii. Calculating the percentage change in net interest income calculated in (i) and (ii).

Management has made estimates of cash flow, prepayment and repricing assumptions that it believes to be reasonable. Actual results will differ from the simulated results due to changes in interest rates that differ from the assumptions in the simulation model.

Presented below is an analysis of the Company's estimated net interest income over a twelve month period calculated utilizing the Company's model:

**As of September 30, 2005**

<b>Changes in Rate</b>	<b>Net Interest Income</b>	<b>Percent Change</b>
+200 bp	\$ 226,741	-0.12%
+100 bp	\$ 229,939	1.29%
0	\$ 227,005	
-100 bp	\$ 220,382	-2.92%
-200 bp	\$ 208,640	-8.09%

**As of December 31, 2004**

<b>Changes in Rate</b>	<b>Net Interest Income</b>	<b>Percent Change</b>
+200 bp	\$ 232,987	3.41%
+100 bp	\$ 232,395	3.14%
0	\$ 225,310	0.00%
-100 bp	\$ 213,516	-5.23%
-200 bp	\$ 200,288	-11.11%

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries**

The Company began utilizing this interest rate risk model in July 2005. This model enables the Company to evaluate the effect interest rate sensitivity has on net interest income as well as on net portfolio value. The prior interest rate risk model measured potential gains and losses only on net portfolio fair value. The Company believes that measuring the effect of interest rate changes on net interest income will enhance management's ability to monitor interest rate risk. The December 31, 2004 amounts are also provided utilizing the new model.

BankAtlantic's tax equivalent net interest margin improved to 3.91% during the nine months ended September 30, 2005 vs. 3.75% during the same 2004 period. This improvement in the net interest margin reflects a combination of several factors, including the continued growth of low cost deposits, which are more beneficial in higher rate periods, the repayment of certain high cost FHLB advances in prior periods, and higher earning asset yields. While the continued flattening of the yield curve will exert downward pressure on the margin, management presently anticipates that this downward pressure may be offset by an improved funding mix, driven principally by a higher percentage of low cost deposits.

**Equity Price Risk****Ryan Beck**

The Company, through its broker/dealer subsidiary Ryan Beck, is exposed to market risk arising from trading and market making activities. Ryan Beck's market risk is the potential change in value of financial instruments caused by fluctuations in interest rates, equity prices, credit spreads and other market forces. Ryan Beck's management monitors risk in its trading activities by establishing limits and reviewing daily trading results, inventory aging, pricing, concentration and securities ratings. Ryan Beck uses a variety of tools, including aggregate and statistical methods. Value at Risk ( VaR ) is the principal statistical method used and measures the potential loss in the fair value of a portfolio due to adverse movements in underlying risk factors. Substantially all the trading inventory is subject to measurement using VaR.

Ryan Beck uses an historical simulation approach to measuring VaR using a 99% confidence level, a one day holding period and the most recent three months average volatility. The 99% VaR means that, on average, one would not expect to exceed such loss amount more than one time every one hundred trading days if the portfolio were held constant for a one-day period.

Modeling and statistical methods rely on approximations and assumptions that could be significant under certain circumstances. As such, the risk management process also employs other methods such as sensitivity to interest rates and stress testing.

The following table sets forth the high, low and average VaR for Ryan Beck for the nine months ended September 30, 2005 (in thousands):

	<b>High</b>	<b>Low</b>	<b>Average</b>
VaR	\$ 443	\$ 55	\$ 199
Aggregate Long Value	155,347	54,028	90,609
Aggregate Short Value	\$ 56,789	\$ 15,772	\$ 36,934

The following table sets forth the high, low and average VaR for Ryan Beck for the year ended December 31, 2004 (in thousands):

	<b>High</b>	<b>Low</b>	<b>Average</b>
VaR	\$ 1,747	\$ 11	\$ 336
Aggregate Long Value	112,494	43,431	72,787
Aggregate Short Value	\$ 167,987	\$ 23,851	\$ 65,006

The continued expansion of the capital markets business may result in Ryan Beck carrying higher and more diverse inventory positions.

**Table of Contents****BankAtlantic Bancorp, Inc. and Subsidiaries****BankAtlantic Bancorp****Equity Pricing Risk**

BankAtlantic Bancorp maintains a portfolio of equity securities that is managed to match the performance of stock indices. These equity portfolios subject us to equity pricing risks which would arise as the relative values of our equity investments change as a consequence of market or economic conditions. The change in fair values of equity investments represents instantaneous changes in all equity prices that impact our portfolio. The following are hypothetical changes in the fair value of our available for sale equity securities at September 30, 2005 based on percentage changes in fair value. Actual future price appreciation or depreciation may be different from the changes identified in the table below (dollars in thousands):

<b>Percent Change in Fair Value</b>	<b>Available for Sale Securities Fair Value</b>	<b>Dollar Change</b>
20%	\$ 104,004	\$ 17,334
10%	\$ 95,337	\$ 8,667
0%	\$ 86,670	\$
-10%	\$ 78,003	\$ (8,667)
-20%	\$ 69,336	\$ (17,334)

Excluded from the above table are \$1.8 million of investments in other financial institutions and \$5.0 million invested in a limited partnership hedge fund specializing in bank equities, for which no current liquid market exists. The ability to realize or liquidate these investments will depend on future market conditions and is subject to significant risk.

**Interest Rate Risk**

The Parent Company had \$263 million of Junior Subordinated Debentures outstanding at September 30, 2005. These debentures subject the Parent Company to interest rate risk. Presented below is an analysis of the Parent company's estimated net interest expense over a twelve month period calculated utilizing the Company's model:

**As of September 30, 2005**

<b>Changes in Rate</b>	<b>Net Interest Expense</b>	<b>Percent Change</b>

Item 4. Controls and Procedures

*Evaluation of Disclosure Controls and Procedures*

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC reports.

*Changes in Internal Controls*

In addition, we reviewed our internal control over financial reporting, and there have been no changes in our internal control over financial reporting that occurred during our third fiscal quarter that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.
