***Status of Our Public Offerings***

We commenced our initial public offering on June 27, 2005. We terminated our initial public offering on May 22, 2007. As of the close of business on May 22, 2007, we had issued a total of 54,838,315 shares in our initial public offering, including 53,909,877 shares sold in the primary offering and 928,438 shares sold pursuant to our distribution reinvestment plan, resulting in gross offering proceeds to us of approximately \$547.4 million.

We commenced our follow-on offering of 150,000,000 shares of common stock on May 23, 2007. Of these shares, we are offering 125,000,000 shares in a primary offering and 25,000,000 shares pursuant to our distribution reinvestment plan. As of December 20, 2007, we had accepted investors' subscriptions for, and issued, approximately 37.9 million shares of our common stock in the follow-on offering, including approximately 36.3 million shares sold in the primary offering and approximately 1.6 million shares sold pursuant to our distribution reinvestment plan, resulting in gross proceeds to us of approximately \$382.5 million. Combined with our initial public offering, we had received a total of approximately \$929.8 million in gross offering proceeds as of December 20, 2007.

***Suitability Standards***

*The following information supplements, and should be read in conjunction with, the section of our prospectus captioned "Suitability Standards" beginning on page i of the prospectus and other similar disclosures elsewhere in the prospectus:*

Residents of New Mexico who intend to invest in our shares must have either (a) a minimum net worth of at least \$250,000 or (b) an annual gross income of at least \$70,000 and a net worth of at least \$70,000.

***Share Redemption Program***

*The following information supersedes and replaces, in its entirety, the third paragraph of the "Prospectus Summary Share Redemption Program" section beginning on page 17 of the prospectus and all similar discussions appearing elsewhere in the prospectus:*

Upon receipt of a request for redemption, we will conduct a Uniform Commercial Code search to ensure that no liens are held against the shares. We will bear any costs in conducting the Uniform Commercial Code search. We will not redeem any shares that are subject to a lien. Repurchases will be made quarterly. If funds are not available to redeem all requested redemptions at the end of each quarter, the shares will be purchased on a pro rata basis and the unfulfilled requests will be held until the next quarter, unless withdrawn; provided, however, we may give priority to the redemption of a deceased stockholder's shares. Our board of directors may amend, suspend or terminate the share

redemption program at any time upon 30 days prior written notice to our stockholders.

---

*The following information supersedes and replaces, in its entirety, the third paragraph of the Description of Shares Share Redemption Program section beginning on page 146 of the prospectus and all similar discussions appearing elsewhere in the prospectus:*

During the term of this offering and any subsequent public offering of our shares, the redemption price per share will depend on the length of time you have held such shares as follows: after one year from the purchase date 92.5% of the amount you paid for each share; after two years from the purchase date 95% of the amount you paid for each share; after three years from the purchase date 97.5% of the amount you paid for each share; and after four years from the purchase date 100% of the amount you paid for each share (in each case, as adjusted for any stock dividends, combinations, splits, recapitalizations and the like with respect to our common stock). At any time we are engaged in an offering of shares, the per share price for shares purchased under our redemption plan will always be equal to or lower than the applicable per share offering price. Thereafter, the per share redemption price will be based on the then-current net asset value of the shares (as adjusted for any stock dividends, combinations, splits, recapitalizations and the like with respect to our common stock). Our board of directors will announce any redemption price adjustment and the time period of its effectiveness as a part of its regular communications with our stockholders. At any time the redemption price is determined by any method other than the net asset value of the shares, if we have sold property and have made one or more special distributions to our stockholders of all or a portion of the net proceeds from such sales, the per share redemption price will be reduced by the net sale proceeds per share distributed to investors prior to the redemption date as a result of the sale of such property in the special distribution. Our board of directors will, in its sole discretion, determine which distributions, if any, constitute a special distribution. While our board of directors does not have specific criteria for determining a special distribution, we expect that a special distribution will only occur upon the sale of a property and the subsequent distribution of the net sale proceeds. Upon receipt of a request for redemption, we will conduct a Uniform Commercial Code search to ensure that no liens are held against the shares. We will bear any costs in conducting the Uniform Commercial Code search. We will not redeem any shares that are subject to a lien. In addition, upon the death of a stockholder, upon request, we will waive the one-year holding requirement. Shares redeemed in connection with the death of a stockholder will be redeemed at a purchase price equal to the price actually paid for the shares. In addition, we may waive the holding period in the event of a stockholder's bankruptcy or other exigent circumstances.

\* Major tenants include those tenants that occupy greater than 10.0% of the rentable square feet of

their respective property.

\*\* Represents option renewal period / term of each option.

(1) The initial annual rent for the property is subject to rental escalations of 1.5% each year through the remainder of the lease. For the purposes of presentation the individual rental escalations were not displayed in the table above.

Cole Realty Advisors has the sole and exclusive right to manage, operate, lease and supervise the overall maintenance of the properties listed above and currently receives a property management fee of up to 2.0% of the monthly gross revenues from our single-tenant properties and up to 4.0% of the monthly gross revenues from our multi-tenant properties. We currently have no plan for any renovations, improvements or development of the properties listed above and we believe the properties are adequately insured.

In connection with the property acquisitions noted above, we incurred the following fixed rate mortgage note:

<b>Property</b>	<b>Loan Amount</b>	<b>Fixed Interest Rate</b>	<b>Maturity Date</b>
Circle K Portfolio	\$ 66,000,000	6.69%	1/1/2018

The fixed rate debt mortgage note requires monthly principal and interest payments with the principal balance due in 2018. The mortgage note is generally non-recourse to us and Cole OP II, but both are liable for customary non-recourse carveouts.

The fixed rate mortgage note generally may not be prepaid, in whole or in part, except under the following circumstances: (i) full prepayment may be made on any of the three (3) monthly payment dates occurring immediately prior to the maturity date, and (ii) partial prepayments resulting from the application of insurance or condemnation proceeds to reduce the outstanding principal balance

of the mortgage note. Notwithstanding the prepayment limitations, we may sell the property to a buyer that assumes the respective mortgage loan. The transfer would be subject to the conditions set forth in the individual property's mortgage note document, including without limitation, the lender's approval of the proposed buyer and the payment of the lender's fees, costs and expenses associated with the sale of the property and the assumption of the loan.

In the event the mortgage note related to the property is not paid off on the maturity date, the mortgage loan includes default provisions. Upon the occurrence of an event of default, interest on the mortgage note will accrue at an annual default interest rate equal to the lesser of (a) the maximum rate permitted by applicable law, or (b) 4.0% above the fixed interest rate. In addition, we will be required to pay a prepayment consideration in an amount equal to the greater of 1.0% of the outstanding principal balance of the mortgage note, or the present value of the remaining scheduled payments of principal and interest from the date such payment is received through the maturity date at the time any payment is received by the lender.

For federal income tax purposes, the depreciable basis in the properties noted above is approximately \$134.2 million in total. When we calculate depreciation expense for tax purposes, we will use the straight-line method. We depreciate buildings and improvements based upon estimated useful lives of 40 years, respectively. The depreciable basis in the properties noted above are detailed as follows:
