# IMPORTANT NOTICE REGARDING DELIVERY OF SHAREHOLDER DOCUMENTS

The Securities and Exchange Commission (SEC) permits mutual funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

EATON VANCE, OR YOUR FINANCIAL ADVISER, MAY HOUSEHOLD THE MAILING OF YOUR DOCUMENTS INDEFINITELY UNLESS YOU INSTRUCT EATON VANCE, OR YOUR FINANCIAL ADVISER, OTHERWISE.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Investment Environment

\_\_\_\_\_\_

### THE LOAN MARKET

o In a difficult climate, the Trust registered a positive total return, primarily the result of a relatively low exposure to the telecom and technology areas. Importantly, as a diversification tool, loans represented a useful hedge for hard-pressed investors in the equity markets, who suffered

through a third consecutive year of sharply negative returns. With short-term interest rates at or near their historical lows, floating-rate loans are poised to benefit if there is an uptick in rates.

- o Conditions in the loan market remained challenging during the six month period. The credit environment deteriorated due to a stubbornly weak economy and disappointing earnings results. In addition, accounting scandals and corporate malfeasance took a toll on investor sentiment. In this environment, lenders focused increasingly intense scrutiny on potential borrowers.
- o Short-term interest rates, already at 40-year lows, fell further, as the Federal Reserve reduced the Federal Funds rate in November, its twelfth cut in the past two years. The lower short-term rates caused a decline in the Trust's yield, as that yield moves up or down with corresponding changes in short-term rates, such as LIBOR.

The Trust

The Trust

#### PERFORMANCE

o Based on the Trust's December 2002 monthly dividend of \$0.043 and a closing share price of \$7.75, the Trust had a market yield of 6.66%.(1) The Trust's market yield represented a yield advantage over many other income- producing vehicles.

#### THE TRUST'S INVESTMENTS

o Diversification has remained a major emphasis. The Trust has maintained an exposure to a broad range of industries, including defensive sectors, as well as more economically sensitive companies.

At December 31, 2002, the Trust included 237 borrowers, representing 48 industries, with no single sector accounting for as much as 10% of the Trust. The average loan as a percentage of the Trust's total net assets was just 0.63%. High-yield corporate bonds constituted 7.5% of the Trust's investments. The Trust had leverage (borrowing and auction preferred shares) of \$110 million at December 31, 2002, representing 37.7% of the Trust's total assets.

- o We continued to invest in loans using conservative lending criteria, insisting on solid collateral and/or positive cash flow. This helped the Trust avoid many of the troubled telecom and technology loans that have proven so problematic in recent years. The Trust also reduced its investments in the cable sector, which was harshly impacted by the difficulties of Adelphia Communications.
- o Rite-Aid Corp., one of the nation's largest drug retailers, was the Trust's largest investment at December 31. Rite-Aid Corp. operates nearly 3,500 retail drug stores, primarily in fast-growing metropolitan areas. The company has especially benefited from an increase in prescription drug sales and has dramatically improved operating results in 2002. Most importantly, the Trust's loan investment benefits from strong asset collateral.
- o Amphenol Corp. manufactures electronic and fiber optic connectors, with end-markets in the auto, industrial and aerospace areas. Strength in the aerospace and industrial segments contributed to a 23% earnings increase in the third quarter of 2002. While its communications-related business remains a challenge, Amphenol Corp. continues to develop new products and should be well- positioned when a recovery takes hold.
- o Iron Mountain, Inc. is a leading provider of records storage and management services, meeting the increasing needs of the legal, financial and insurance

industries. Benefiting from strong generic growth and timely acquisitions, the company captured an approximately 40% market share by year- end. Iron Mountain, Inc.'s strong cash flow and significant underlying equity contribute to a very sound capital structure.

\_\_\_\_\_\_

(1) The Trust's market yield is calculated by dividing the most recent dividend per share by the share market price at the end of the period and annualizing the result. (2) Returns are historical and are calculated by determining the percentage change in market value or net asset value with all distributions reinvested. (3) Five Largest Sector Weightings account for 42.6% of the Trust's total investments, determined by dividing the total market value of the holdings by the total investments of the Trust. Five Largest Sector Weightings refer only to senior floating-rate loan portion of the Trust and are subject to change.

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost.

- (1) Senior floating rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating rate interests will have an expected average life of approximately two to four years.
- (2) Priced by adviser.
- (3) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.
  - \* Non-income producing security.

Note: At December 31, 2002, the Trust had unfunded commitments amounting to \$7,672,510 under various revolving credit agreements.

NOTES TO FINANCIAL STATEMENTS

1 Significant Accounting Policies

Eaton Vance Senior Income Trust (the Trust) is an entity commonly known as a Massachusetts business trust and is registered under the Investment Company Act of 1940 as a non-diversified closed-end management investment company. The Trust's investment objective is to provide a high level of current income consistent with the preservation of capital, by investing primarily in senior, secured floating rate loans. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

\_\_\_\_\_\_

Certain prior year amounts have been reclassified for presentation purposes.

A Investment Valuation -- The Trust's investments are primarily in interests in senior floating rate loans (Senior Loans). Certain Senior Loans are deemed liquid because reliable market quotations are readily available for them. Liquid loans are valued on the basis of prices furnished by a pricing service. Other Senior Loans are valued at fair value by the Trust's investment adviser, Eaton Vance Management (EVM), under procedures established by the Trustees as permitted by Section 2(a)(41) of the Investment Company Act of 1940. Such procedures include the consideration of relevant factors, data and information relating to fair value, including (i) the characteristics of and fundamental analytical data relating to the Senior Loan, including the cost, size, current interest rate, period until next interest rate reset, maturity and base lending rate of the Senior Loan, the terms and conditions of the Senior Loan and any related agreements and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the Borrower, based on evaluations of its financial condition, financial statements and information about the Borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the Senior Loan including price quotations for and trading in the Senior Loan and interests in similar loans and the market environment and

investor attitudes towards the Senior Loan and interests in similar loans; (v) the reputation and financial condition of the agent and any intermediate participant in the loan; and (vi) general economic and market conditions affecting the fair value of the Senior Loan. Other portfolio securities (other than short-term obligations, but including listed issues) may be valued on the basis of prices furnished by one or more pricing services which determine prices for normal, institutional-size trading units of such securities using market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. In certain circumstances, portfolio securities will be valued at the last sales price on the exchange that is the primary market for such securities, or the last quoted bid price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales during the day. The value of interest rate swaps is determined by changes in the relationship between two rates of interest. Short-term obligations which mature in sixty days or less are valued at amortized cost, if their original term to maturity when acquired by the Trust was 60 days or less or are valued at amortized cost using their value on the 61st day prior to maturity, if their original term to maturity when acquired by the Trust was more then 60 days, unless in each case this is determined not to represent fair value. Repurchase agreements are valued at cost plus accrued interest. Other portfolio securities for which there are no quotations or valuations are valued at fair value as determined in good faith by or on behalf of the Trustees.

B Income -- Interest income from Senior Loans is recorded on the accrual basis at the then-current interest rate, while all other interest income is determined on the basis of interest accrued, adjusted for amortization of premium or discount. Facility fees received are recognized as income over the expected term of the loan. Dividend income is recorded on the exdividend date for dividends received in cash and/or securities.

C Federal Taxes — The Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary. At June 30, 2002, the Trust, for federal income tax purposes, had a capital loss carryover of \$29,482,716, which will expire on June 30, 2009 (\$1,925,241) and June 30, 2010 (\$27,557,475). These amounts will reduce the Trust's taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code and thus will reduce the amount of the distributions to shareholders which would otherwise be necessary to relieve the Trust of any liability for federal income or excise tax.

Additionally, at June 30, 2002, the Trust had net capital losses of \$11,045,646 attributable to security transactions incurred after October 31, 2001. These are treated as arising on the first day of the Trust's current taxable year.

D Expense Reduction -- Investors Bank & Trust Company (IBT) serves as custodian of the Trust. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balances the Trust maintains with IBT. All significant credit balances used to reduce the Trust's custodian fees are reported as a reduction of expenses on the Statement of Operations.

E Use of Estimates -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the

reporting period. Actual results could differ from those estimates.

F Other -- Investment transactions are accounted for on the date the investments are purchased or sold. Gains and losses on securities sold are determined on the basis of identified cost.

\_\_\_\_\_\_

#### 2 Auction Preferred Shares (APS)

The Trust issued 2,200 shares of Auction Preferred Shares Series A and 2,200 shares of Auction Preferred Shares Series B on June 27, 2001 in a public offering. The underwriting discount and other offering costs were recorded as a reduction to paid in capital. Dividends on the APS, which accrue daily, are paid cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Dividend rates at December 31, 2002 were 1.40% and 1.30% for Series A and Series B Shares, respectively. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates.

The APS are redeemable at the option of the Trust, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Trust is in default on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Trust is required to maintain certain asset coverage with respect to the APS as defined in the Trust's By-Laws. The Trust pays annual fees equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

In accordance with the provisions of EITF D-98, "Classification and Measurement of Redeemable Securities", effective for the current period, the Trust has reclassified its APS Shares outside of permanent equity in the net assets section of the statement of assets and liabilities. In addition, distributions to APS shareholders are now classified as a component of the "Net increase in net assets from operations" on the statements of operations and statement of changes in net assets, and as a component of the "Total income (loss) from operations" in the financial highlights. Prior year amounts presented have been restated to conform to this period's presentation. This change has no impact on the net assets applicable to common shares of the Trust.

#### 3 Distributions to Shareholders

The Trust intends to make monthly distributions to common shareholders of net investment income, after payment of any dividends on any outstanding preferred shares. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the Auction Preferred Shares is generally seven days. The applicable dividend rate for the Auction Preferred Shares on December 31, 2002 was 1.40% and 1.30%, for Series A and Series B Shares, respectively. For the six months ended December 31, 2002, the Trust paid dividends to Auction Preferred shareholders amounting to \$465,255 and \$460,571 for Series A and Series B Shares, respectively, representing an average APS dividend rate for such period of 1.65% and 1.64%, respectively.

#### 4 Common Shares of Beneficial Interest

\_\_\_\_\_\_

The Agreement and Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares of beneficial interest. Transactions in common shares were as follows:

	Six Months Ended	Year Ended
	December 31, 2002	June 30, 2002

# 5 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee, computed at a monthly rate of 17/240 of 1% (0.85% annually) of the Trust's average weekly gross assets, was earned by EVM as compensation for management and investment advisory services rendered to the Trust. For the six months ended December 31, 2002, the fee was equivalent to 0.85% of the Trust's average daily gross assets and amounted to \$2,193,481. Except for Trustees of the Trust who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Trust out of such investment adviser fee. EVM also serves as the administrator of the Trust. An administration fee, computed at the monthly rate of 1/48 of 1% (0.25% annually) of the average weekly gross assets of the Trust, is paid to EVM for managing and administering business affairs of the Trust. For the six months ended December 31, 2002, the fee was equivalent to 0.25% of the Trust's average daily gross assets for such period and amounted to \$645,142.

Certain officers and Trustees of the Trust are officers of the above organization.

### 6 Investment Transactions

The Trust invests primarily in Senior Loans. The ability of the issuers of the Senior Loans held by the Trust to meet their obligations may be affected by economic developments in a specific industry. The cost of purchases and

by economic developments in a specific industry. The cost of purchases and the proceeds from principal repayments and sales of Senior Loans and corporate bonds aggregated \$148,492,793 and \$149,792,472, respectively, for the six months ended December 31, 2002.

\_\_\_\_\_\_

### 7 Short-Term Debt and Credit Agreements

The Trust has entered into a revolving credit agreement that will allow the Trust to borrow \$120 million to support the issuance of commercial paper and to permit the Trust to invest in accordance with its investment practices. Interest is charged under the revolving credit agreement at the bank's base rate or at an amount above either the bank's adjusted certificate of deposit rate or federal funds effective rate. Interest expense includes a commitment fee of approximately \$93,000 which is computed at the annual rate of 0.15% on the unused portion of the revolving credit agreement. There were no significant borrowings under this agreement during the period. As of December 31, 2002, the Trust had commercial paper outstanding of \$100,000,000, at an interest rate of 1.52%. Maximum and average borrowings for the six months ended December 31, 2002 were \$110,000,000 and \$106,000,000, respectively, and the average interest rate was 1.72%.

#### 8 Federal Income Tax Basis of Unrealized Appreciation (Depreciation)

\_\_\_\_\_

The cost and unrealized appreciation (depreciation) in value of the investment securities at December 31, 2002, as computed on a federal income tax basis, were as follows:

#### Aggregate cost\$503,724,992

Gross unrealized appreciation\$	2,054,553
Gross unrealized depreciation	(23,114,336)
Net unrealized depreciation	\$ (21,059,783)

#### 9 Annual Meeting of Shareholders (Unaudited)

The Trust held its Annual Meeting of Shareholders on October 25, 2002.

The Trust held its Annual Meeting of Shareholders on October 25, 2002. 35,948,079 common shares and 4,400 Auction Preferred Shares (APS) were outstanding on August 29, 2002, the record date for the shares eligible to vote at the meeting. 33,375,681 common shares (92.844% of the record date common shares) and 4,376 APS shares (99.455% of the record date APS shares) were represented at the meeting. The following action was taken by the shareholders:

Item 1: The election of Jessica M. Bibliowicz, James B. Hawkes and Donald R. Dwight as Trustees of the Trust for a three-year term expiring in 2005. Mr. Dwight was designated the Nominee to be elected solely by APS shareholders:

INDEPENDENT AUDITORS' REPORT

Donald R. Dwight

To the Trustees and Shareholders of Eaton Vance Senior Income Trust

\_\_\_\_\_

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Eaton Vance Senior Income Trust (the Trust) as of December 31, 2002, and the related statement of operations and cash flows for the six months then ended, the statements of changes in net assets for the six months then ended and for the year ended June 30, 2002, and the financial highlights for the six months then ended and for each of the years in the four-year period then ended June 30, 2002. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. Our procedures included confirmation of securities and Senior Loans owned at December 31, 2002 by correspondence with the custodian, brokers and selling or agent banks; where replies were not received from brokers and selling or agent banks, we performed other auditing procedures. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights, referred to above, present fairly, in all material respects, the financial position of Eaton Vance Senior Income Trust as of December 31, 2002, and the results of its operations, the changes in its net assets, its cash flows and its financial highlights for the respective stated periods in conformity with accounting principles generally accepted in the United States of America.

#### DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the Plan) pursuant to which shareholders automatically have dividends and capital gains distributions reinvested in common shares (the Shares) of the Trust unless they elect otherwise through their investment dealer. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Trust's transfer agent, PFPC Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Trust. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC Inc. at 1-800-331-1710.
