HMG/COURTLAND PROPERTIES, INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements prepared in accordance with instructions for Form 10-Q, include all adjustments (consisting only of normal recurring accruals) which are necessary for a fair presentation of the results for the periods presented. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the Company's Annual Report for the year ended December 31, 2007. The balance sheet as of December 31, 2007 was derived from audited financial statements as of that date. The results of operations for the three and six months ended June 30, 2008 are not necessarily indicative of the results to be expected for the full year.

The condensed consolidated financial statements include the accounts of HMG/Courtland Properties, Inc. (the "Company") and entities in which the Company owns a majority voting interest or controlling financial interest. All material transactions and balances with consolidated and unconsolidated entities have been eliminated in consolidation or as required under the equity method.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles." SFAS No. 162 identifies the sources of accounting principles and provides entities with a framework for selecting the principles used in preparation of financial statements that are presented in conformity with GAAP. The current GAAP hierarchy has been criticized because it is directed to the auditor rather than the entity, it is complex, and it ranks FASB Statements of Financial Accounting Concepts, which are subject to the same level of due process as FASB Statements of Financial Accounting Standards, below industry practices that are widely recognized as generally accepted but that are not subject to due process. The Board believes the GAAP hierarchy should be directed to entities because it is the entity (not its auditors) that is responsible for selecting accounting principles for financial statements that are presented in conformity with GAAP. The adoption of FASB 162 is not expected to have a material impact on the Company's consolidated financial position and results of operations.

In May 2008, the FASB issued SFAS No. 163, "Accounting for Financial Guarantee Insurance Contracts-an interpretation of FASB Statement No. 60." Diversity exists in practice in accounting for financial guarantee insurance contracts by insurance enterprises under FASB Statement No. 60, Accounting and Reporting by Insurance Enterprises. This results in inconsistencies in the recognition and measurement of claim liabilities. This Statement requires that an insurance enterprise recognize a claim liability prior to an event of default (insured event) when there is evidence that credit deterioration has occurred in an insured financial obligation. This Statement requires expanded disclosures about financial guarantee insurance contracts. The accounting and disclosure requirements of the Statement will improve the quality of information provided to users of financial statements. The adoption of FASB 163 is not expected to have a material impact on the Company's consolidated financial position and results of operations.

In May, 2008 the FASB issued FASB Staff Position (FSP) APB 14-1, "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)." APB 14-1 requires the issuer to separately account for the liability and equity components of convertible debt instruments in a manner that reflects the issuer's nonconvertible debt borrowing rate. The guidance will result in companies recognizing higher interest expense in the statement of operations due to amortization of the discount that results from separating the liability and equity components. APB 14-1 will be effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The Company is currently evaluating the impact of adopting APB 14-1 on its consolidated financial statements.

In April 2008, the FASB issued FSP 142-3, "Determination of the Useful Life of Intangible Assets", (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, "Goodwill and Other Intangible Assets". FSP 142-3 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP 142-3 on its consolidated financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("SFAS No. 161"). SFAS No. 161 amends and expands the disclosure requirement for FASB Statement No. 133, "Derivative Instruments and Hedging Activities" ("SFAS No. 133"). It requires enhanced disclosure about (i) how and why an entity uses derivative instruments, (ii) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (iii) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for the Company as of January 1, 2009.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141R (revised 2007), "Business Combinations" ("SFAS 141R"). SFAS 141R replaces SFAS 141 and establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, including goodwill, the liabilities assumed and any non-controlling interest in the acquiree. SFAS 141R also establishes disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This statement is effective for fiscal years beginning after December 15, 2008. We are currently evaluating the impact the adoption of SFAS 141R will have on our consolidated financial position and consolidated results of operations.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, "Noncontrolling Interests in Consolidated Financial Statements" ("SFAS 160"). SFAS 160 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interest, changes in a parent's ownership interest and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. SFAS 160 also establishes reporting requirements that provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. This standard is effective for fiscal years beginning after December 15, 2008. We are currently evaluating the impact the adoption of SFAS 160 will have on our consolidated financial position and consolidated results of operations.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. SFAS No. 159 permits entities to choose to measure eligible financial instruments at fair value. The unrealized gains and losses on items for which the fair value option has been elected should be reported in earnings. The decision to elect the fair value options is determined on an instrument by instrument basis, it should be applied to an entire instrument, and it is irrevocable. Assets and liabilities measured at fair value pursuant to the fair value option should be reported separately in the balance sheet from those instruments measured using another measurement attribute. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. The adoption of this standard in 2008 has not had a material impact on the Company's consolidated financial statements.

Recently adopted accounting principles

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". This statement clarifies the definition of fair value of assets and liabilities, establishes a framework for measuring fair value of assets and liabilities and expands the disclosures on fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. However, the FASB deferred the effective date of SFAS No. 157 until the fiscal years beginning after November 15, 2008 as it relates to the fair value measurement requirements for non-financial assets and liabilities that are initially measured at fair value, but not measured at fair value in subsequent periods. These non-financial assets include goodwill and other indefinite-lived intangible assets which are included within other assets. In accordance with SFAS No. 157, the Company has adopted the provisions of SFAS No. 157 with respect to financial assets and liabilities effective as of January 1, 2008 and its adoption did not have a material impact on its results of operations or financial condition. The Company is assessing the impact of SFAS No. 157 for non-financial assets and liabilities and expects that this adoption will not have a material impact on its results of operations or financial condition.

For the three and six months ended June 30, 2008 Landing and Rawbar combined operations reported income of \$175,000 and \$386,000, respectively. This is as compared to reported losses of \$170,000 and \$51,000 during the same comparable periods in 2007, respectively. The primary reasons for the improved results are increased food and beverage revenues and decreased management fees. Restaurant sales increased by 18% and 12% for the three and six month periods ended June 30, 2008, as compared to the same periods in 2007, respectively. Management fees decreased primarily due to a non-recurring \$100,000 payment to the former manager for termination of the management services portion of the contract in April 2007.

## 4. INVESTMENTS IN MARKETABLE SECURITIES

Investments in marketable securities consist primarily of large capital corporate equity and debt securities in varying industries or issued by government agencies with readily determinable fair values. These securities are stated at market value, as determined by the most recent traded price of each security at the balance sheet date. Consistent with the Company's overall current investment objectives and activities its entire marketable securities portfolio is classified as trading.

Net (loss) gain from investments in marketable securities for the three and six months ended June 30, 2008 and 2007 is summarized below:

| Description   | Three months ended |           | Six months ended |           |
|---|--------------------|-----------|------------------|-----------|
|   | June 30,           |           | June 30,         |           |
|   | 2008               | 2007      | 2008             | 2007      |
| Net realized (loss) gain from sales of securities               | (\$63,000)         | \$140,000 | (\$94,000)       | \$204,000 |
| Unrealized net gain (loss) in trading securities                | 36,000             | (16,000)  | (121,000)        | 46,000    |
| Total net (loss) gain from investments in marketable securities | (\$27,000)         | \$124,000 | (\$215,000)      | \$250,000 |

For the three and six months ended June 30, 2008 net realized loss gain from sales of marketable securities of approximately \$63,000 and \$94,000, respectively, consisted of approximately \$154,000 of gross losses net of \$91,000 of gross gains for the three month period and \$262,000 of gross losses net of \$168,000 of gross gains for the six month period.

For the three and six months ended June 30, 2007 net realized gain from sales of marketable securities of approximately \$140,000 and \$204,000, respectively, consisted of approximately \$296,000 of gross gains net of \$156,000 of gross losses for the three month period and \$379,000 of gross gains and \$175,000 of gross losses for the six month period.

Investment gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gains or losses on marketable securities for any given period has no predictive value and variations in amount from period to period have no practical analytical value.

## 5. OTHER INVESTMENTS

As of June 30, 2008, the Company has committed to invest approximately \$12.5 million in other investments primarily in private capital funds, of which approximately \$11.2 million has been funded. The carrying value of other investments (which reflects distributions and valuation adjustments) is approximately \$4.9 million as of June 30, 2008.

During the six months ended June 30, 2008 the Company made follow-on contributions to 11 existing investments totaling approximately \$485,000. During this same period the Company received a total of approximately \$252,000 in distributions from 7 existing investments.

Net gain from other investments for the three and six months ended June 30, 2008 and 2007 is summarized below:

In April 2008, the Company received approximately \$149,000 of cash proceeds from the redemption of a private equity fund resulting in a gain to the Company of \$94,000.

In April 2007, the Company received approximately \$449,000 of cash and stock from an investment in a privately-held bank which was purchased by a publicly-held bank. The Company realized a gain of approximately \$299,000 on this transaction (included in table above under "Others, net").

In February 2007, the Company received cash distributions primarily consisting of a \$222,000 cash distribution from one investment in a partnership in which one of its portfolio companies was recapitalized. This distribution exceeded the carrying amount of the investment and accordingly was recognized as income.

## 6. DERIVATIVE FINANCIAL INSTRUMENTS

The Company is exposed to interest rate risk through its borrowing activities. In order to minimize the effect of changes in interest rates, the Company has entered into an interest rate swap contract under which the Company agrees to pay an amount equal to a specified rate of 7.57% times a notional principal approximating the outstanding loan balance, and to receive in return an amount equal to the one month LIBOR rate plus 2.45% times the same notional amount. The Company designated this interest rate swap contract as a cash flow hedge. As of June 30, 2008 the fair value (net of 50% minority interest) was an unrealized loss of \$277,000 and as of December 31, 2007 the fair value (net of 50% minority interest) of the cash flow hedge was an unrealized loss of \$262,000. These amounts have been recorded as other comprehensive loss and will be reclassified to interest expense over the life of the swap contract.

## 7. MODIFICATION OF LOAN PAYABLE TO BANK

As previously reported, the loan secured by the Monty's property includes certain covenants including debt service coverage with which the Company was not in compliance as of December 31, 2007. On March 13, 2008, the Company obtained a notice of forbearance from the lender of the loan, in which the bank agreed to not declare an event of default during the forbearance period (as presently extended). The Company agreed to restructure the loan agreement by providing a collateral pledge in satisfaction of the loan covenants and in April 2008 the Company deposited \$2 million into a money market account held at that bank. The amended loan documents are presently being finalized.

The Food and Beverage sales segment consists of the Monty's restaurant operation. Lastly, the Other investment and related income segment includes all of the Company's other investments, marketable securities, loans, notes and other receivables and the Grove Isle spa operations which individually do not meet the criteria as a reportable segment.

9. INCOME TAXES

We adopted the provisions of Financial Accounting Standards Board (“FASB”) Interpretation No. 48, “Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109” (“FIN 48”), on January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement 109, “Accounting for Income Taxes”, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our financial statements. Our evaluation was performed for the tax years ended December 31, 2004, 2005, 2006 and 2007, the tax years which remain subject to examination by major tax jurisdictions as of June 30, 2008.

We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we have received an assessment for interest and/or penalties, it has been classified in the financial statements as selling, general and administrative expense.

Rentals and related revenues for the three and six months ended June 30, 2008 as compared with the same periods in 2007 increased by \$19,000 (5%) and \$36,000 (5%). The increases were due to increased rental revenue from the Grove Isle property as a result of inflation adjustments as provided in the lease and increased rental revenue from the Monty's retail space.

Spa revenues for the three and six months ended June 30, 2008 as compared with the same periods in 2007 increased by \$33,000 (or 20%) and \$45,000 (or 12%). The spa is benefiting from increased occupancy and overall improved operations at the Grove Isle resort during 2008.

Net (loss) gain from investments in marketable securities:

Net loss from investments in marketable securities for the three and six months ended June 30 2008 was approximately \$27,000 and \$215,000, respectively, as compared with a net gain from investments in marketable securities of approximately \$124,000 and \$250,000 for the same comparable periods in 2007. For further details refer to Note 4 to Condensed Consolidated Financial Statements (unaudited).

Net income from other investments:

Net income from other investments for the three and six months ended June 30, 2008 was approximately \$126,000 and \$158,000, respectively, as compared with net income of approximately \$365,000 and \$742,000 for the same comparable periods in 2007. The decrease in income was primarily from a non-recurring 2007 cash distribution from an investment in a bank and in a partnership owning diversified businesses. For further details refer to Note 5 to Condensed Consolidated Financial Statements (unaudited).

Interest, dividend and other income:

Interest and dividend income for the three and six months ended June 30, 2008 was approximately \$248,000 and \$336,000, respectively, as compared with approximately \$104,000 and \$244,000, for the same periods in 2007. The increase from last year in the three and six month periods of \$144,000 (or 139%) and \$92,000 (or 38%), respectively was primarily the result of real estate commission earned by Courtland Houston, Inc. of approximately \$168,000 in June 2008.

EXPENSES

Expenses for rental and other properties for the three and six months ended June 30, 2008 were consistent with that for the three and six months ended June 30, 2007.

For comparisons of all food and beverage related expenses refer to Restaurant Operations (above) summarized statement of income for Monty's restaurant.

For comparisons of all marina related expenses refer to Marina Operations (above) for summarized and combined statements of income for marina operations.

For comparisons of all spa related expenses refer to Spa Operations (above) for summarized statements of income for spa operations.

Adviser's base fee for the three and six months ended June 30, 2008 as compared to the same periods in 2007 increased by \$30,000 (or 13%) and \$60,000 (or 13%). This was the result of the amendment to the Advisory Agreement effective January 1, 2008, as previously reported.

Professional fees for the three and six months ended June 30, 2008 as compared to the same periods in 2007 decreased by \$29,000 (or 31%) and \$48,000 (or 27%). This was due to non-recurring restaurant consulting fees of approximately \$28,000 paid in May 2007.

Interest expense for the three and six months ended June 30, 2008 as compared to the same periods in 2007 decreased by \$73,000 (or 18%) and \$120,000 (or 15%). This was primarily due to lower interest rates in 2008 versus 2007.

Minority partner's interest in operating (gains) losses for the three and six months ended June 30, 2008 as compared to the same periods in 2007 increased by \$200,000 (or 160%) and \$258,000 (or 294%). This was primarily the result of increased operating gains from the Monty's operations and from the Grove Isle Spa operations.

EFFECT OF INFLATION:

Inflation affects the costs of operating and maintaining the Company's investments. In addition, rentals under certain leases are based in part on the lessee's sales and tend to increase with inflation, and certain leases provide for periodic adjustments according to changes in predetermined price indices.

LIQUIDITY, CAPITAL EXPENDITURE REQUIREMENTS AND CAPITAL RESOURCES

The Company's material commitments in 2008 primarily consist of maturities of debt obligations of approximately \$4 million and commitments to fund private capital investments of approximately \$1.3 million due upon demand. The funds necessary to meet these obligations are expected to be available from the proceeds of sales of properties or investments, refinancing, distributions from investments and available cash. The majority of maturing debt obligations for 2008 is a note payable to the Company's 49% owned affiliate, T.G.I.F. Texas, Inc. ("TGIF") of approximately \$3.7 million. This amount is due on demand. The obligation due to TGIF will be paid with funds available from distributions from the Company's investment in TGIF and from available cash.
