Narrative Disclosure to Summary Compensation Table

The Compensation Committee (the “Committee”) of our Board of Directors generally has the responsibility for administering our executive compensation program. On occasion, the full Board takes such responsibility. The Committee reviews and, as appropriate, makes recommendations to the full Board regarding the base salaries and annual cash bonuses for executive officers, and administers our 2008 Incentive Stock Plan, including the grant of stock options.

Compensation Philosophy and Objectives: Our principal executive compensation policy, which is endorsed by the Committee, is to provide a compensation program that will attract, motivate and retain persons of high quality and will support a long-standing internal culture of loyalty and dedication to the interests of the Company and our stockholders. In administering the executive compensation program, the Committee is mindful of the following principles and guidelines, which are supported by the full Board:

Base salaries for executive officers should be competitive.

A sufficient portion of annual compensation should be at risk in order to align the interests of executives with those of our stockholders.

The variable part of annual compensation should reflect both individual and corporate performance.

As a person’s level of responsibility increases, a greater portion of total compensation should be at risk and include more stock-based compensation to provide executives long-term incentives, and help to align further the interests of executives and stockholders in the enhancement of stockholder value.

Our executive officers' compensation has two primary components: base salary and stock-based awards granted pursuant to our 2008 Incentive Stock Plan. In addition, executive officers receive certain benefits that are generally available to all salaried employees. We do not have any defined benefit pension plans, non-qualified deferred compensation arrangements, or supplemental retirement plans for our executive officers.

For each executive officer, the Committee determines the appropriate level for each compensation component based in part, but not exclusively, on its view of competitive market factors, internal equity and consistency, and other considerations deemed relevant, such as rewarding extraordinary performance. Our Executive Chairman and Chief Executive Officer provides the Committee with recommendations for executive officers other than himself, which the Committee reviews and approves as submitted or with revisions, if any. The Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid compensation, between cash and non-cash compensation, or among different forms of non-cash compensation, and has not sought to formally benchmark our compensation against that of our peers.

Base Salary: Salaries for executive officers are based on a review of salaries for similar positions requiring similar qualifications in similar industries. In determining executive officer salaries, the Compensation Committee has approved the use by management of information from salary surveys.

The Committee determines the executive officers' base salaries so as to be competitive with amounts paid to executives performing similar functions in comparable-size, non-durable manufacturing companies. The amount of each executive's annual increase in base salary, if any, is based on a number of largely subjective factors, including changes in the individual's duties and responsibilities, the personal performance of such executive officer, the performance of the Company, cost-of-living increases, and such other factors as the Committee deems appropriate, including the individual's overall mix between fixed and variable compensation and between cash and stock-based compensation.

The Executive Chairman and Chief Executive Officer annually assesses the performance of all other executive officers and recommends salary increases to the Committee based on a number of factors such as performance evaluations, comparative data and other relevant factors. The Committee then reviews the Executive Chairman and Chief Executive Officer's recommendations, considers the performance and financial condition of the Company, and approves the increases for any other officer of the Company.

Effective for 2014, the Committee engaged a compensation consultant in connection with its evaluation of Mr. Tu's compensation program and reviewed a market analysis for base, variable and long term compensation. Based upon this analysis, Mr. Tu's annual base salary was increased from \$120,000 to \$250,000 effective January 1, 2014.

During 2013, Mr. Hilliard's annual base salary was increased from \$180,000 to \$200,000 upon his appointment to President and Chief Operating Officer effective April 30, 2013, and Mr. Lamanna's annual base salary was increased to \$150,000 upon his appointment to Chief Financial Officer effective July 8, 2013. Theresa Matrisciano, the Company's Vice President of Human Resources, also received a salary increase upon her appointment as an executive officer of the Company in October 2013. In 2012, no executive officer received an annual base salary increase. In 2009, the Company's executive officers at that time agreed to accept 10% salary reductions. Effective May 28, 2012, Mr. Hilliard's salary was restored to the amount before the salary reduction. The salary reductions are further described below.

On May 29, 2009, the Company's executive officers at that time agreed to accept 10% voluntary salary reductions for the remainder of the 2009 calendar year in exchange for the issuance of restricted shares of Common Stock as authorized under the Company's 2008 Stock Incentive Plan. The salary reductions were extended through December 31, 2010. The number of restricted shares of Common Stock issued to each executive officer was equal to the dollar value of the individual's salary reduction divided by the closing price per share of the Company's Common Stock on May 29, 2009, December 30, 2009 and January 3, 2011. The total number of restricted shares of Common Stock issued to executive officers, including the Named Executive Officers, was 169,547, 137,693 and 93,230, respectively. Mr. Hilliard, Mr. Kaveski and Mr. Buelow received 42,508, 55,931, and 39,153 of such restricted shares of Common Stock, respectively. No restricted shares were awarded and no agreement to issue such shares was made for salary reductions beyond December 31, 2010.

Bonus Incentive Plan: In 2013 and 2012, there was no bonus incentive plan in place.

For 2014, a Bonus Incentive Plan has been put in place for all employees, including executive management. Mr. Tu will be eligible for a bonus payout of up to 50% of his 2014 salary, which will be determined by the Board of Directors based upon the Company's financial results for 2014, as well as Mr. Tu's performance during the period. Mr. Hilliard will be eligible for a bonus payout of up to 50% of his 2014 salary. His bonus will be weighted 70% based on the net operating income of the Company's government products/R&D services business relative to the its 2014 operating plan, and 30% based on the total Company's net operating income relative to its 2014 operating plan. Mr. Lamanna will be eligible for a bonus payout of up to 25% of his 2014 salary. His bonus will be based upon the Company's net operating income relative to its 2014 operating plan, as well as his individual performance based upon his established key performance indicators.

Bonus Equity Incentive Program: The Committee administers a stock option incentive program for executive officers. Awards under this program are made under the Company's 2008 Stock Incentive Plan and their vesting is contingent upon the Company's attainment of specified revenue and earnings targets set by the Committee in consultation with the Chief Executive Officer. For 2013, under the terms of the program, the number of options that would have vested for executive officers was 25 percent, 75 percent or 100 percent of the amount granted, and was dependent upon the Company attaining revenue and earnings for 2013 relative to the annual plan approved by the Board of Directors. The Company's performance in 2013 did not meet the established performance goals, and consequently, these stock options granted to executive officers in 2013 were cancelled effective December 31, 2013. No performance grants were issued in 2012, as there was no plan in place.

For 2014, the Bonus Equity Incentive Plan was replaced by the Bonus Incentive Plan described above.

Discretionary Bonuses: Each of our executive officers is eligible to receive a discretionary annual cash bonus as determined by the Committee. The bonus awards may be based on an individual executive officer's performance or on the overall success of the Company, or both. Mr. Tu received an \$80,000 discretionary bonus for 2013 in recognition of his strong leadership during the year on establishing a clear mission, vision and values for the Company. Mr. Lamanna received a \$20,000 discretionary bonus for playing an instrumental role in the sale of the pool product line in November 2013. For 2012, the Committee did not adopt a discretionary cash bonus plan and no such bonuses were paid to executive officers.

Stock Options: The Committee believes that employee equity ownership provides significant motivation to executive officers to maximize value for the Company's stockholders and, therefore, periodically grants time-based stock options under the Company's 2008 Stock Incentive Plan at the then current market price. The Compensation Committee administers the Company's 2008 Stock Incentive Plan. Stock options will only have value if the Company's stock price increases over the exercise price.

The Compensation Committee grants options to executive officers after consideration of recommendations from the Executive Chairman and Chief Executive Officer. Recommendations for options are based upon the relative position, responsibilities, and previous and expected contributions of each officer, previous option grants to such officers and customary levels of option grants for the respective position in other comparable companies. The exercise price for Stock Options is equal to the fair market value of the Company's Common Stock on the grant date. Options generally vest over a four-year period with 25% vesting one year from the date of grant and the remaining 75% vesting equally on a monthly basis over the remaining 36 months, or over a three-year period with 33% vesting one year from the date of grant and the remaining 67% vesting equally on a monthly basis over the remaining 24 months. Options expire 10 years from the date of grant. Generally, upon a Change in Control (as defined in the 2008 Incentive Stock Plan, as amended), all stock options granted will immediately vest, and all restrictions on restricted shares granted to the Company's employees and independent directors will lapse.

Section 162(m): Section 162(m) of the Internal Revenue Code (“section 162(m)”) generally disallows a tax deduction to public corporations for compensation in excess of \$1 million paid for any fiscal year to a company’s Chief Executive Officer or to any of the company’s other three most highly compensated executive officers (other than the Chief Financial Officer). Section 162(m) generally exempts qualifying performance-based compensation from the deduction limit if certain conditions are met. In determining base salary, benefits, perquisites and other compensation, the Committee considers tax deductibility, but a more important goal is to offer compensation that is competitive within our peer group. For 2013, the Company believes that the compensation paid in 2013 to each of the other named executive officers is deductible under section 162(m).

Employment Agreements with Named Executive Officers: The Company has no employment agreements with any of its current executive officers.
